GENERAL INFORMATION

The Board of Directors of Power-One, Inc. seeks your Proxy for use at our Annual Meeting of Stockholders. We will hold the meeting according to our Notice of Annual Meeting, unless we adjourn to a later date and/or time.

This Proxy Statement and the accompanying Notice of Annual Meeting discuss the purposes of the Annual Meeting.

* VOTING AND SOLICITATION

Each share of our common stock has one vote on all matters submitted to our stockholders at the Annual Meeting. Stockholders of record as of the close of business on March 3, 2006 will receive notice of and may vote at the Annual Meeting. Eligible stockholders may vote by marking, signing, and returning the proxy card.

There were 85,645,339 shares of our common stock outstanding as of March 3, 2006. The closing sale price on that date was \$5.72 per share. Our common stock is traded on the NASDAQ National Market® under the symbol "PWER."

Power-One, Inc. will pay for this solicitation. We may also reimburse brokerage firms and other persons representing beneficial owners of shares for their reasonable expenses in sending solicitation materials to beneficial owners.

Voting Matters. The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the outstanding shares of our common stock will constitute a quorum for the meeting.

Our inspector of elections will count all votes cast in person or by proxy at the Annual Meeting.

The nominees for director receiving the most votes will be elected. For the purpose of determining whether the stockholders have approved matters other than the election of directors, abstentions will have the same effect as a negative vote.

Under NASDAQ rules, if you hold your shares in "street name" through a broker or other nominee, and you do not give your broker or nominee specific instructions on how to vote your shares, your broker or nominee will be permitted to exercise voting discretion with respect to the election of directors and ratification of the appointment of auditors.

Revoking Your Proxy. Any Proxy may be revoked at any time before it is actually voted at the Annual Meeting. Regardless of the method of voting used, you may revoke your Proxy by:

Delivering a written notice of revocation, dated later than the Proxy, before the vote is taken at the Annual Meeting.

Executing a later dated Proxy before the vote is taken at the Annual Meeting.

Voting in person at the Annual Meeting (your attendance at the meeting, by itself, does *not* revoke your earlier Proxy).

Any written notice of revocation, or later Proxy, should be delivered to our principal executive offices at Power-One, Inc., 740 Calle Plano, Camarillo, CA 93012, Attention: Secretary.

* DEADLINE FOR STOCKHOLDER PROPOSALS FOR THE FISCAL 2006 ANNUAL MEETING

However, if less than 100 days' notice from the date of the meeting is given to stockholders, then notice by the stockholder of any proposal need only be received within 10 days from the date on which notice of the meeting is given. Stockholder proposals must contain information required by

our bylaws and comply with applicable legal requirements.

Our bylaws are available via the "Governance Introduction" link found under our main "Investors" link at our website located at *www.power-one.com*. Alternatively, any stockholder may obtain a copy of our bylaws by submitting a request to our Secretary at our principal executive offices.

PROPOSAL 2
RATIFICATION OF INDEPENDENT AUDITORS' PRINCIPAL ACCOUNTANT FEES
AND SERVICES

The Audit Committee has appointed Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates (collectively, "Deloitte & Touche"), independent auditors, to audit our consolidated financial statements for the fiscal year 2006. This appointment is being presented to the stockholders for ratification at the meeting. If the stockholders fail to ratify the selection, the Audit Committee will consider whether or not to retain that firm. Even if the stockholders ratify the selection, the Audit Committee, in its discretion, may direct the appointment of a different independent firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Deloitte & Touche has audited our consolidated financial statements since 1993. Representatives of Deloitte & Touche are expected to be present at the meeting. They will have the opportunity to address the audience at the meeting and will be available to answer appropriate questions from stockholders.

RECOMMENDATION

The Board of Directors recommends a vote FOR the ratification of Deloitte & Touche as Power-One, Inc.'s independent auditors for 2006. We will vote Proxies received by us in favor of the ratification of Deloitte & Touche unless a contrary choice is indicated.

AUDIT COMMITTEE AND AUDIT COMMITTEE REPORT

Audit Committee

The Audit Committee is currently composed of four non-employee directors who the Board believes all meet the current NASDAQ independence requirements. The Committee operates under a written charter most recently amended and restated by the Board of Directors in 2003.

The Board also believes that all Audit Committee members possess experience or have backgrounds which make each qualified to serve on the Committee. The Board believes and the Committee has determined that all members are able to read and understand fundamental financial statements, including the Company's balance sheet, income statement, and cash flow statement. The Board's determination is based on each Committee member's experience, background, training, past employment in a position of substantial authority, responsibility for financial statements oversight, or other experience and involvement in the review and evaluation of financial statements.

Additionally, the Committee, in concert with the Board of Directors, has determined that Committee member, Ms. Gayla Delly, qualifies as a member of the Audit Committee who meets the NASDAQ listing requirement under Rule 4350(d)(2)(A) as having the requisite past employment experience which provides her with the required financial sophistication. The determination of Ms. Delly's qualifications under the applicable NASDAQ Rule is based upon Ms. Delly's relevant education, her current and past employment experience in finance and accounting, her professional certification as a Certified Public Accountant, and her current position as Chief Financial Officer of Benchmark Electronics, Inc. Ms. Delly has also been determined by the Board as qualified for classification as an audit committee financial expert, as defined under SEC requirements and is so designated.

Any person desiring to submit any complaint to the Company regarding accounting, internal accounting controls, or auditing matters should address such complaint to:

Chairman of the Audit Committee
Power-One, Inc.
740 Calle Plano
Camarillo, CA 93012
Attn: Secretary

All such correspondence will be logged in by our Secretary and promptly forwarded to the Chairman of the Audit Committee. The Chairman will provide a summary of all communications to the Audit Committee, and will direct and oversee such additional actions or inquiries as the Chairman deems appropriate in light of a given complaint.

Pre-Approval Policies and Procedures

The Audit Committee has adopted a policy and procedures for the pre-approval of audit and non-audit services rendered by our independent public accountants, Deloitte & Touche. The policy generally permits pre-approval annually of certain specific services in the defined categories of audit services, audit-related services, and tax services up to specified annual budget amounts, and sets requirements for specific case-by-case pre-approval of discrete projects, such as those which may have a material effect on our operations or services over certain amounts. Pre-approval may be given as part of the Audit Committee's approval of the scope of the engagement of our independent auditor or on an individual basis. The pre-approval of services may be delegated to one or more of the Audit Committee's members, but the decision must be presented to the full Audit Committee at its next scheduled meeting. The policy prohibits retention of the independent public accountants to perform the prohibited non-audit functions defined in Section 201 of the Sarbanes-Oxley Act or the rules of the SEC and also considers whether proposed services are compatible with the independence of the public accountants.

Fees Paid to Independent Public Accountants

SEC rules effective May 6, 2003 require that our Audit Committee pre-approve all audit and permissible non-audit services provided by our independent auditors, with certain limited exceptions. Our Audit Committee has concluded that the audit-related and tax services provided to us by Deloitte & Touche are compatible with maintaining auditor independence. During 2004 and 2005, the Company retained Deloitte & Touche to provide services only in the following categories and amounts:

SERVICES	2005		2004	
	(in thousands)			
1. Audit Fees ⁽¹⁾	\$	1,836	\$	1,967
2. Audit Related Fees ⁽²⁾	\$	17	\$	6
3. Tax Fees ⁽³⁾	\$	602	\$	842
4. All Other Fees ⁽⁴⁾	\$	0	\$	0
		<u> </u>		<u> </u>
Total	\$	2,455	\$	2,815

The Audit Committee approved all of the fees noted in Items 2 and 3 above pursuant to its pre-approval policies and procedures.

- (1) Audit fees consisted of fees in connection with the audits of the Company's annual financial statements (inclusive of internal controls review and attestation), statutory audits, and reviews of the Company's quarterly financial statements and consents related to SEC filings.
- (2) Audit related fees consisted primarily of fees for the documentation assistance procedures to meet the requirements of the Sarbanes-Oxley Act of 2002, costs of due diligence associated with merger and acquisition or disposal transactions, and financial accounting and reporting consultations.
- (3) Tax fees consisted of a) tax compliance fees in connection with federal, state and local income tax return assistance, assistance with tax returns filings in certain foreign jurisdictions, requests for technical advice from taxing authorities, assistance with tax audits and appeals and preparation of expatriate tax returns, and b) tax planning and advice fees in connection with tax advice related to structuring certain proposed acquisitions and disposals and tax advice related to intra-group restructuring items.
- (4) Other fees would consist of fees for services of our independent auditors not otherwise captured in the audit, audit related, or tax categories. We did not incur any such fees in 2004 or 2005.

AUDIT COMMITTEE REPORT*

The Audit Committee of the Board of Directors is responsible for monitoring the integrity of Power-One, Inc.'s consolidated financial statements, its system of internal controls and the independence and performance of its independent auditors. Subject to stockholder ratification, the Committee also recommends the selection of the Company's independent auditors.

*

If we intend to incorporate this specific section by reference in any of our filings pursuant to the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, we will specifically incorporate this section by name in such reference in a given filing. Otherwise, any general statement about incorporating this proxy statement by reference into any such filing will not apply to this section. This section shall not be deemed soliciting material or otherwise deemed filed under either such Acts.

Management is responsible for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The independent auditors are responsible for auditing such financial statements. The responsibility of the Audit Committee is to monitor and review these processes. We are not, however, professionally engaged in the practice of accounting or auditing. We rely on the information provided to us and on the representations made by management and the independent auditors. The Audit Committee will retain independent experts to advise and consult directly with the Audit Committee if the Audit Committee desires an independent opinion or review of any information provided or any representations made by management and the independent auditors.

During fiscal 2005 the Audit Committee performed ongoing review of management's attention to and focus upon internal controls of the Corporation. Management's attention to these matters involved substantial internal audit activity by employees of the Corporation, site visits with focused internal audit checklists, detailed assessment of specific processes, action items, remediation efforts, and related activity to ensure that internal controls operated properly. The progress, findings, and results of follow-up from these internal auditing activities were reported to the Committee as a recurring matter in its regular meetings.

The Committee held five meetings during fiscal 2005. The Committee approved the fees to be paid to the independent auditors for their audit of our consolidated financial statements for FY2005. The Committee discussed with the independent auditors the overall scope and plans for their audit. The Committee met with the independent auditors, with and without management present, to discuss the results of their examinations and their evaluations of the Company's system of internal controls.

In carrying out our responsibilities, we reviewed and discussed with management and the Company's auditors all financial statements prior to their issuance. We were advised by management and the auditors that all of the financial statements were prepared in accordance with generally accepted accounting principles. As part of our review, we discussed with management the quality and acceptability of the accounting principles, the reasonableness of significant judgments and the clarity of the disclosures in the financial statements. We also sought the Company's independent auditors' judgment on these matters.

We discussed with the independent auditors matters required to be discussed under generally accepted auditing standards, including, among other things, matters related to the conduct of the audit of the consolidated financial statements and the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (Communication with Audit Committees).

Edgar Filing: POWER ONE INC - Form DEF 14A

The independent auditors also provided to us the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and we discussed with the independent auditors their independence from Power-One, Inc. We considered whether the auditors' provision of services to the Company beyond those rendered in connection with their audit and review of the consolidated financial statements was compatible with maintaining their independence. The Audit Committee has established policies to review and pre-approve any non-audit services proposed to be provided by the independent auditors, and to review and pre-approve the scope, work plan and fees for the audit services to be provided by the independent auditors.

Based on our review and these meetings, discussions and reports, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee Charter, we recommended to the Board of Directors that Power-One, Inc.'s audited consolidated financial statements for the fiscal year ended December 31, 2005 be included in the Annual Report on Form 10-K. We have also appointed Deloitte & Touche to serve as the Company's independent auditors for fiscal 2006, subject to stockholder ratification.

(1) Weighted average exercise price of outstanding options; excludes restricted stock units and shares related to the Employee Stock Purchase Plan.

(2) Share numbers noted are as of December 31, 2005. The amounts noted as of that date include shares reserved but not yet then issued under the 1996 Stock Incentive Plan, the 2004 Stock Incentive Plan and the Employee Stock Purchase Plan. Of this number, 1,117,746 were then available under our 1996 Plan, 4,665,000 were then available under the 2004 Plan and 8,513,281 were then available under our Employee Stock Purchase Plan. The shares then available under the 1996 Plan were, subject to certain other limits under that plan, generally available for any type of award authorized under the 1996 Plan including stock options, stock appreciation rights, restricted stock, stock bonuses, and performance shares. Per the terms of the 1996 Plan, power and authority to issue grants and awards under the 1996 Plan terminated effective February 22, 2006. Any grant or award issued prior to that date remains open and outstanding per the terms of original grant or award. Any shares available for issuance under the 1996 Plan which had not been issued as of February 22, 2006 were cancelled as of that date and are no longer available for issuance.

(3) The 2001 Stock Option Plan (the "2001 Plan") was adopted in September 2001, per applicable regulations and exchange listing rules, as an equity compensation plan not approved by stockholders. Grants were only made under this plan through May 2004. The 2001 Plan is administered by our Compensation Committee. Awards under the 2001 Plan were only nonstatutory stock options. No awards under the 2001 Plan were made to any Director of the Company or to any person who is an officer within the meaning of Section 16 of the Securities Exchange Act of 1934, as amended. The maximum term of options granted under the 2001 Plan is 10 years after the initial date of the award. Options granted under the 2001 Plan have been

Edgar Filing: POWER ONE INC - Form DEF 14A

granted at the "Fair Market Value" (i.e. the closing price of our stock on the date the option is granted). No award vests and becomes exercisable more quickly than 25% per year. Generally, awards granted to one of our employees that are not yet exercisable will terminate upon the date the employee is no longer employed by the Company, and those that are exercisable will remain exercisable for ninety (90) days after the end of employment.

(4)

No grants have been made under the 2001 Plan since May 2004, and no future grants will be made under the 2001 Plan.

All references to shares and options in this section have been adjusted to reflect the three-for-two and two-for-one splits to our common stock completed during 2000.

We did not grant any stock options to any of our Top 5 Compensated Executive Officers in 2005. However, as described above, we did grant restricted stock units to some of these executives.

*** EMPLOYMENT AGREEMENTS**

William T. Yeates joined the Company in 2000 to serve as our President and Chief Operating Officer under the terms set forth in a letter agreement with the Company.

We made certain loans to Mr. Yeates in connection with his initial employment with us in January 2000. All such loans are described in the following paragraph. These loans were in existence prior to the passage of the Sarbanes-Oxley Act of 2002 (the "Act"). The Act now prohibits

Edgar Filing: POWER ONE INC - Form DEF 14A

loans by the Company to its executive officers. However, loans in existence as of the effective date of the Act were exempted from the prohibitions of the Act.

One non-interest-bearing loan in the amount of \$100,000, plus additional non-interest-bearing loans relating to new hire relocation expenses totaling approximately \$80,000, were forgiven on the third anniversary of Mr. Yeates' hire (January 13, 2003) in connection with Mr. Yeates' continued employment with the Company as of such date, per the original terms of the loan arrangements. A separate interest-bearing loan in the amount of \$660,000, and

with an interest rate of 5.5% per annum, became due and payable on January 13, 2004 per its original terms and was paid in full by Mr. Yeates on that date. There was no material modification of any term of that loan, nor renewal of that loan, after the effective date of the Act.

Mr. Yeates' rights to certain payments and benefits resulting from a change in control, as defined in the letter to include certain mergers and other triggering events, expired on January 31, 2004 per the terms of the letter agreement.

Mr. Franciscovich entered into a separation agreement with the Company effective in December 2005. The agreement provides for continuation of base salary and benefits coverage, at Mr. Franciscovich's pre-separation salary level and nature of coverage, for a period through May 2006 for base salary and benefits, and on a contingent basis through December 2006 for medical insurance benefits. Medical benefit continuation from June 2006 through December 2006 is contingent upon Mr. Franciscovich not securing alternative medical insurance benefit coverage prior to or during that period via other means (e.g. other employment, private coverage, family plan coverage tied to other family member employment). Mr. Franciscovich also received a negotiated amount as compensation for 2005 incentive compensation, and will be eligible for vesting of 12,500 restricted stock units on May 17, 2006.

On February 6, 2006 (and effective as of that date), the Compensation Committee of the Company's Board of Directors set base salaries for named executive officers as noted in the table immediately below. Certain additional compensation in the nature of bonus eligibility is available to the named executive officers in fiscal 2006 as discussed further below in the Compensation Committee Report on Executive Compensation.

*/ Steven J. Goldman, Chairman	\$ 520,000
*/ William T. Yeates, Chief Executive Officer	\$ 400,000
*/ Brad W. Godfrey, President and Chief Operating Officer	\$ 300,000
*/ Randall H. Holliday, Secretary and General Counsel	\$ 250,000
*/ Veronica Tarrant, Vice President Finance and Chief Accounting Officer	\$ 190,000

*** CHANGE IN CONTROL ARRANGEMENTS**

Effective April 28, 2004, pursuant to approval of our Board of Directors, we entered into Change in Control Severance Agreements ("CIC Agreements"), with each of the Top 5 Compensated Executive Officers other than Ms. Tarrant, who was not an officer at that date. These CIC Agreements are administered by our Compensation Committee. Each CIC Agreement renews automatically on an annual basis effective April 28, unless the Compensation Committee provides written notice of termination of the agreement to an executive at least six months prior to the renewal date.

Our CIC Agreements are "double trigger" agreements. Benefits under the CIC agreement are only paid if (i) a "Change in Control" has occurred, and (ii) an executive's employment is subsequently terminated following such Change in Control other than for cause, or the executive voluntarily terminates employment after a Change in Control for "Good Reason."

Subject to certain limited exceptions, a "Change in Control" will generally be triggered upon (i) any person becoming a 20% or greater owner of Power-One, (ii) certain majority changes in the Board of Directors over a period of not more than two years, (iii) certain mergers or other changes in ownership following which stockholders before the change do not continue to own more than 60% of Power-One, and (iv) a dissolution or liquidation of Power-One.

"Good Reason" is generally defined as a substantial alteration or reduction in duties and responsibilities, a reduction in salary or bonus eligibility affecting the executive individually (as opposed to across the board reductions impacting all executives equally), reassignment to a different geographic location, or refusal of the successor entity to assume the CIC Agreement.

The severance payments and entitlements made to an executive under the CIC Agreement are based on a "multiplier" of either 2X or 2 years (for CEO or COO) or 1X or 1 year (for other Named Executive Officers) as follows. Benefits include (i) lump-sum payment of an amount tied to base salary and bonuses times the executive's "multiplier," (ii) acceleration of vesting under then existing stock option grants for an additional period as per the executive's multiplier, and (iii) continuation of benefits (e.g. medical insurance and group life insurance) for an additional period as per the executive's multiplier.

CERTAIN OTHER COMPENSATION ARRANGEMENTS

*** 2001 DEFERRED COMPENSATION PLAN**

Summary of the Plan. Based upon recommendations of consultants retained by the Compensation Committee, as well as counsel from outside legal and accounting advisors, in October 2001 the Compensation Committee recommended adoption, and the Board of Directors approved the implementation, of the 2001 Deferred Compensation Plan (the "Plan"). Under this Plan, full time employees (inclusive of executive officers) of the Company were eligible to make an irrevocable election to defer a percentage of their base salary (not to exceed 50% of base salary) for the period commencing October 22, 2001 and continuing through October 20, 2002 (the "Deferral Period"). At the end of the Deferral Period, a participant's base salary returned to its original pre-deferral amount.

Effect of Deferral Election/Entitlement to Stock Units. Each participant under the Plan (i.e. an individual electing to defer salary), received "credit" at the start of the Deferral Period for a given number of Stock Units, based upon the dollar amount of salary deferred. A Stock Unit was a bookkeeping entry that represented one fictional share of the Company's common stock. A Stock Unit was used as a device to determine the number of shares of common stock of the Company that were to be distributed to a participant. The total number of Stock Units credited to a participant was determined using this formula:

$$\text{Number of Stock Units} = (\text{compensation deferred} / \$6) \times 2$$

Stock Units had no voting rights, rights to dividends, or any other stockholder rights.

Vesting in Stock Units. Vesting in the credited Stock Units was tied to continued employment with or service to the Company. One-half (50%) of the total Stock Units credited to a participant as of the start of the Deferral Period vested on a pro-rata basis during the Deferral Period. For employees, vesting of this 50% of total Stock Units was prorated weekly over the 52 weeks of the Deferral Period.

For employees who participated in the Plan, the other 50% of Stock Units that were credited to the individual at the start of the Deferral Period vested in full on January 31, 2003 (the "Payment Date").

Distribution of Common Stock to Participants. A participant who was actively employed by the Company as of the Payment Date received whole shares of common stock of the Company equal to the total number of Stock Units credited to and vested in the participant on the Payment Date. For example, if based upon the percentage of salary elected to be deferred, a participant had 10,000 Stock Units credited to his or her Stock Unit account, the participant received 10,000 shares of the Company's common stock on the Payment Date.

Upon the ultimate distribution of common stock to a participant, the shares became beneficially owned by the participant, unrestricted and available for sale or transfer transferred at the discretion of the participant. For income tax purposes, the recipient received "income" on the Payment Date equal to the total fair market value of the shares as of the Payment Date. Our fair market value (i.e. closing price) on January 31, 2003 was \$4.92/share.

Report of "Premium" portion in Summary Compensation Table. In previous Proxy Statements, in our Summary Compensation Table, we reported total base salary in each officer's salary column, then noted via footnote the amount of compensation deferred by reported officers under the Plan. To avoid any "double reporting" of income paid to or earned by the officers, we have only reported in this Proxy's Summary Compensation Table that

portion of the "premium" associated with shares distributed to the reported officers as of the January 31, 2003 Payment Date. For the ease of calculations, the premium represents the difference between (i) the fair market value of the shares issued to the employee as of the Payment Date, less (ii) the total employee compensation deferred during the Deferral Period.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION*

The Compensation Committee (the "Committee") consists of Mr. Walters (Chairman), Ms. Delly and Mr. Jacoby, each of whom is an independent, non-employee director. Per its Charter adopted in 2005, among other things, the Committee:

Reviews and makes recommendations to the Board with respect to management's proposals regarding the Company's overall compensation policies, and establish performance-based incentives that support and reinforce the Company's long-term strategic goals, organizational objectives and shareholder interests;

Evaluates the performance of, and determines the compensation for, the Company's Chairman of the Board, Chief Executive Officer and Chief Operating Officer;

Reviews and consults with the Chief Executive Officer and Chief Operating Officer as to the compensation for other executives and establishes, reviews and approves compensation plans in which any executive is eligible to participate;

Makes recommendations to the Board with respect to the Company's incentive-compensation plans and equity-based compensation plans; and

Sets compensation for the Board and Committees, monitors and makes recommendations to the Board regarding certain succession planning, and reviews other compensation plans of the Company.

From time to time the Committee retains outside compensation experts to review current compensation and equity award plans and recommends to the Board of Directors the adoption of additional equity plans and grants under such plans.

Our executive compensation program is designed to attract, retain and motivate the senior executive talent necessary to effectively manage the Company. The program also aims to support the creation of stockholder value and is designed to make pay consistent with performance. When establishing salaries, bonuses and stock or equity awards for executive officers, the Committee considers the individual's role, leadership responsibilities and performance during the last year and the amount of compensation paid to executive officers in similar positions at companies that compete with us for executives. The Committee believes that the current base salary amounts now being paid to all executive officers are consistent and in keeping with current market rates for companies of comparable size.

Historically, cash compensation has been supplemented with significant equity awards that are tied to the performance of the Company's stock. The Committee continues to believe that the incorporation of equity awards tied to the performance of the Company's stock should be an essential element of overall pay packages. However, the Committee has considered the rule changes (i.e. Financial Accounting Standards Board of Statement of Financial Accounting Standard No. 123 (revised 2004), "Share-Based Payment"), public comment on the accounting treatment of stock options, and the requirement that stock options be treated as an expense in the evaluation of the Company's financial performance.

Edgar Filing: POWER ONE INC - Form DEF 14A

In light of these rule changes relating to stock options, the Committee has initiated and is continuing to investigate alternatives to traditional stock option grants for equity awards (including for example restricted stock and restricted stock units), both for executive officers and other employees. The Committee will seek to continue use of periodic equity awards to executive officers when deemed appropriate by the Committee. In keeping with this element of overall executive compensation, the Committee approved and authorized awards of restricted stock units to executive officers (other than the then Chief Executive Officer) with an effective date of May 17, 2005. Details on these awards are noted in the Summary Compensation Table above.

The Committee believes that the executive officers' performance in 2005 reflected favorable efforts in relation to continued significant market and business operational challenges. While the Committee has been pleased with the performance of the executive officers in the face of these challenges, the Committee has also considered the need to ensure that stockholder value is a significant element in evaluating executive performance and in determining executive compensation.

The Committee continues to believe that bonuses, incentive payments and other performance based awards must be tied directly to, and come as a reward for, clearly measurable performance associated directly with key financial and operational metrics. Additionally, the Committee believes that the executive officers must have a significant portion of their total compensation potential aligned, via equity incentives, with stockholder interests, to ensure that stockholder value remains a primary objective and criteria in the management of the Company. However, the Committee strives to balance current results with future expectations and believes that, in appropriate situations, certain discretionary bonuses or other compensation can be an appropriate tool when officers are tasked with and perform major operational or other tasks that may not, upon completion, necessarily result in immediate financial performance improvements.

2005 Compensation of the Chief Executive Officer. The Committee evaluates the compensation of the Chief Executive Officer on an annual basis. Mr. Goldman's base salary, as paid in 2005, has been unchanged since April 1, 2004 when it was increased as part of an overall "market rate" adjustment implemented for executive officers in general. Mr. Goldman's 2005 base salary as Chief Executive Officer was evaluated and determined to be appropriate based on comparability to salaries of other chief executive officers, with focus on geographic surveys (using the Southern California market as the area of relevance), as well as reviews of industry segment and selected competitor companies. Mr. Goldman was also awarded a discretionary bonus for 2005 performance that is described below under the subheading "Discretionary Bonus Payments" and that is noted in the Summary Compensation Table above. The discretionary bonus description noted below under the subheading "Discretionary Bonus Payments" outlines the several qualitative performance criteria that the Committee used in evaluating Mr. Goldman's services in 2005 and in determining the amount of discretionary bonus to be paid to him for 2005. No stock options or comparable equity incentive payments were made or issued to Mr. Goldman in 2005. The Committee believes that the total compensation paid to Mr. Goldman in 2005 was reasonable.

Base Salary. The Committee reviews the base salaries for all executive officers. All base salaries paid to executive officers in 2005 remained at an amount set on April 1, 2004 when base salaries were increased as part of an overall "market rate" adjustment implemented for executive officers in general. The Committee has approved and implemented increases in base salaries for the named executive officers effective February 6, 2006, as noted above under the subheading "*Employment Agreements.*" The Committee believes that the total compensation

paid to each executive officer in 2005 was reasonable.

Management Bonus Plan. There was no formal management bonus plan adopted by the Committee for 2005 that established specific quantitative criteria for bonus payments.

Discretionary Bonus Payments. For 2005, the Committee authorized bonus payments to the Chief Executive Officer and to other executive officers, based on the Committee's assessment of individual and combined executive performance of operational and financial activities during the year. The Committee also considered market surveys and related studies to evaluate current trends in bonus compensation as an element of total compensation. Although the bonus payments are noted as being discretionary, the Committee was guided by, and used a number of measurable performance criteria, to decide on the bonus amounts. The criteria included items similar to those that will be used in the recently adopted 2006 management bonus plan, details of which are contained in our Current Report on Form 8-K filed with the SEC on February 10, 2006.

In setting the discretionary bonuses for fiscal 2005, the Committee placed particular emphasis on the successful achievement of restructuring efforts during 2005. It is anticipated that these efforts will reduce costs and make the Company more efficient in the future. Steps taken to achieve these restructuring efforts included the relocation of manufacturing locations for select product lines or business units to "low cost" Company-owned manufacturing locations, the sale of excess facilities, the retention of key customer accounts during the ongoing changes, and the penetration of several key strategic accounts anticipated to produce revenue growth as early as fiscal 2006. Additionally, the Committee considered the fact that the Company saw improvements in earnings per share throughout the fiscal year, and achieved positive earnings per share in the third and fourth quarters of fiscal 2005. Finally, the Committee evaluated individual performance under "management by objective" ("MBO") plans established at the start of fiscal 2005 for each officer. These MBO plans involve annual objectives, which are further broken down into quarterly goals that are reviewed, and for which performance was graded, by a supervisor shortly following the end of each quarter.

Equity Based Compensation. The Committee recommended, and the Board of Directors approved, effective February 23, 2005, acceleration of vesting for outstanding stock options which had exercise prices greater than \$5.00 per share. The closing price of the Company's stock on February 23, 2005 was \$5.93. The Committee recommended this action in direct response to the FASB stock option expensing rules. The Committee understood that by accelerating the vesting of the affected stock options, the Company had elected to recognize an immaterial amount of compensation expense in the first fiscal quarter of 2005 for such accelerated stock options with exercise prices between \$5.00 and \$5.93. The Committee determined that acceleration of approximately 3.8 million stock options eliminated the need for recognizing future compensation expense of approximately \$13.7 million. The Committee further believes that the Company will not be required to recognize any compensation expense in future periods associated with the affected options.

The Committee will continue to consider use of long-term equity incentives linked to an increase in stock value by awarding equity based awards at times it believes are appropriate. The Committee will rely upon appropriate guidance from third party experts to determine the appropriate form, criteria, and accounting treatment for equity incentive awards. Also, the Committee will consider and evaluate corporate governance considerations which relate to or may be impacted by future equity incentive awards, both for executive officers and for other employees.

The Deductibility of Executive Compensation. Section 162(m) of the Internal

Revenue Code does not permit us to deduct cash compensation in excess of \$1,000,000 paid to the Chief Executive Officer and the four other most highly compensated executive officers during any taxable year, unless such compensation meets certain requirements. We believe that our stock incentive plan and our Management Bonus Plan (as previously described) comply with the rules under Section 162(m) for treatment as performance-based compensation, allowing us to deduct fully compensation paid to executives under these plans. The 2001 Deferred Compensation Plan did not fall under the rules of Section 162(m) for treatment as performance-based compensation. None of the compensation arising under the 2001 Deferred Compensation Plan resulted in any excess compensation which was not deductible by the Company.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC. These persons are required by regulation of the SEC to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of such forms that we received, or written representations from certain reporting persons, we believe that during 2005 our officers, directors and greater than 10% beneficial owners complied with all applicable Section 16(a) filing requirements. On May 20, 2005, William T. Yeates filed a late Form 4 reporting the grant of 100,000 shares of phantom stock to Mr. Yeates by the Company on May 17, 2005.

STOCK PERFORMANCE GRAPH*

The following graph compares the cumulative total stockholder return on a \$100 investment in our common stock with the cumulative total return of a \$100 investment in the NASDAQ Stock Market, the Russell 2000 Index, the Russell 3000 Index, and the Research Data Group, Inc. Technology Composite Index, each for the period from December 31, 2000 through December 31, 2005. The total return on the common stock is measured by dividing the difference between the common stock price at the end and the beginning of the measurement period by the common stock price at the beginning of the measurement period.

We have not included the Standard & Poor's 500 Stock Index in this year's chart. That index has been used in prior years, per applicable SEC requirements, in connection with the Company's inclusion as a company within that index. The Company was removed from the Standard & Poor's 500 Stock Index in March 2005. We have added the Russell 3000 Index this year. We will use that index for current and future graphs. We believe that index is a more representative index for comparison purposes. Use of the Russell 3000 Index also reflects use of a major index which is also used by third party corporate governance raters for evaluating the Company's corporate governance performance. We have also added the Research Data Group, Inc. ("RDG) Technology Composite Index, a published industry index which consists of technology-focused companies. The Company believes this RDG index consists of companies that are closely aligned with the product markets and industries most comparable to the Company's products and target markets. Details on the RDG Technology Composite Index, to include a listing of the companies included in that index, is available via the RDG website at www.researchdatagroup.com.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Mr. Jacoby, who is a member of the Board of Directors and the Compensation Committee, serves as a director of Stephens Group Inc., our largest stockholder, and the parent corporation of Stephens Inc., a financial advisor to us and an affiliate of Stephens Group Inc. During the 2005 fiscal year, we did not pay Stephens Inc. any amounts for financial advisory services. We expect to pay Stephens Inc. for financial advisory services that it has performed or may perform for us during 2006.

Mr. Bishop, who is a member of the Board of Directors, the Audit Committee and the Nominating and Corporate Governance Committee, is a retired partner from the law firm of O'Melveny & Myers LLP. O'Melveny & Myers LLP has performed legal services for the Company in the past and is expected to do so in the future. Since January 2002, Mr. Bishop has not provided legal services to Power-One, or participated directly or indirectly in any allocation of firm income or profits relating to any services provided to the Company. All legal services provided to Power-One by the law firm since January 2002 have been provided exclusively by other members of the firm.

Several of our executive officers maintain individual brokerage accounts with Stephens Inc. In addition, from time to time Stephens Group Inc. has made opportunities available to Mr. Goldman to invest in various private partnerships. None of Mr. Goldman's investments made in these circumstances via the Stephens Group Inc., individually or in the aggregate, have been material to him.

Mr. Godfrey owns a minority interest in a hotel property in the Dominican Republic that is used periodically by our employees while they are on business for us in the Dominican Republic. Rates charged by this hotel are competitive with other comparable commercial lodging in the area. Mr. Godfrey has no control or influence over our choice of lodging for our employees or over the rates charged by the hotel. The amount spent during the fiscal year ending December 31, 2005 relating to use of this property by our employees while on business for us in the Dominican Republic was not material to the Company or to the hotel property.
