NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

June 30, 2008

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations. We collect, organize and manage various types of financial, demographic, employment and marketing information. Our products and services enable businesses to make credit and service decisions, manage their portfolio risk, automate or outsource certain payroll, tax and human resources business processes, and develop marketing strategies concerning consumers and commercial enterprises. We serve customers across a wide range of industries, including the financial services, mortgage, retail, telecommunications, utilities, automotive, brokerage, healthcare and insurance industries, as well as government agencies. We also enable consumers to manage and protect their financial health through a portfolio of products offered directly to consumers. As of June 30, 2008, we operated in the following countries: Argentina, Brazil, Canada, Chile, Ecuador, El Salvador, Honduras, Peru, Portugal, Spain, the United Kingdom, or U.K., Uruguay, and the United States of America, or U.S. We also maintain support operations in Costa Rica and the Republic of Ireland. During the second quarter of 2008, we expanded into Russia by acquiring an equity stake in a consumer credit information company.

We develop, maintain and enhance secured proprietary information databases through the compilation of credit, demographic and employment information about consumers and businesses that we obtain from a variety of sources, such as credit granting institutions, public record information (including bankruptcies, liens and judgments), income and tax information primarily from large- to mid-sized companies in the U.S., and marketing information from surveys and warranty cards. We process this information utilizing our proprietary information management systems.

We acquired TALX Corporation, or TALX, a leading provider of employment and income verification and human resources business process outsourcing services, on May 15, 2007 and its results are included in our results from that date.

Basis of Presentation. The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, the instructions to Form 10-Q and Article 10 of Regulation S-X. To understand the complete financial position and results of the Company, as defined by GAAP, this Form 10-Q should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in our annual report on Form 10-K for the fiscal year ended December 31, 2007, or 2007 Form 10-K.

Our unaudited Consolidated Financial Statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the periods presented. All adjustments made have been of a normal recurring nature. Certain prior year amounts have been reclassified to conform to current year presentation. The effect of these reclassifications is not material.

Earnings Per Share. In accordance with Statement of Financial Accounting Standards, or SFAS, No. 128, "Earnings per Share", our basic earnings per share, or EPS, is calculated as net income divided by the weighted-average number of common shares outstanding during the period. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding. The income

amounts used in both our basic and diluted EPS calculations are the same. A reconciliation of the weighted-average outstanding shares used in the two calculations is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
	(In millions)		(In millions)	
Weighted-average shares outstanding (basic)	129.0	134.9	129.3	129.9
Effect of dilutive securities:				
Stock options	2.4	3.5	2.4	2.9
Long-term incentive plans	0.1	0.2	0.1	0.1
Weighted-average shares outstanding (diluted)	131.5	138.6	131.8	132.9

For the three and six months ended June 30, 2008, 1.3 million and 1.6 million options, respectively, were antidilutive and therefore excluded from this calculation. For the three and six months ended June 30, 2007, less than 0.1 million and 0.3 million options, respectively, were considered antidilutive and therefore excluded from this calculation.

Fair Value Measurements. In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements", or SFAS 157, which provides guidance for measuring the fair value of assets and liabilities and requires expanded disclosures about fair value measurements. SFAS 157 indicates that fair value should be determined based on the assumptions marketplace participants would use in pricing the asset or liability and provides additional guidelines to consider in determining the market-based measurement. In February 2008, the FASB delayed the effective date of SFAS 157 until January 1, 2009 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at least annually. We adopted SFAS 157 on January 1, 2008 for financial assets and financial liabilities. We do not expect the adoption of SFAS 157 for nonfinancial assets and nonfinancial liabilities to have a material impact on our financial statements.

To increase consistency and comparability in fair value measures, SFAS 157 establishes a three-level fair value hierarchy to prioritize the inputs used in valuation techniques between observable inputs that reflect quoted prices in active markets, inputs other than quoted prices with observable market data, and unobservable data (e.g., a company's own data). SFAS 157 requires disclosures detailing the extent to which companies measure assets and liabilities at fair value, the methods and assumptions used to measure fair value, and the effect of fair value measurements on earnings. In accordance with SFAS 157, we applied the following fair value hierarchy:

Level 1 Assets or liabilities for which the identical item is traded on an active exchange, such as publicly-traded instruments.

Level 2 Assets and liabilities valued based on observable market data for similar instruments.

Level 3 Assets or liabilities for which significant valuation assumptions are not readily observable in the market; instruments valued based on the best available data, some of which is internally-developed, and considers risk premiums that a market participant would require.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

We maintain deferred compensation plans that allow for certain management employees to defer the receipt of compensation (such as salary, incentive compensation and commissions) until a later date based on the terms of the plans. The liability representing benefits accrued for plan participants is valued at the quoted market prices of the participants' investment elections in variable life insurance policies. Identical instruments are traded in active markets that we have access to as of June 30, 2008. As such, we have classified this liability as Level 1 within the fair value hierarchy set forth by SFAS 157.

Total	\$ 10.2	\$ 10.2	\$	\$

Recent Accounting Pronouncements. In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115", or SFAS 159, which permits an entity to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. We adopted SFAS 159 on January 1, 2008 and have elected not to apply the fair value option to any of our financial instruments.

In September 2006, the FASB ratified the consensus reached by the Emerging Issues Task Force, or EITF, related to EITF Issue No. 06-04, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements", or EITF 06-04, which requires the recognition of a liability related to postretirement benefits covered by endorsement split-dollar life insurance arrangements since the employer has the obligation to provide the benefit to the employee. In March 2007, the FASB ratified the consensus reached by the EITF related to EITF Issue No. 06-10, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements", or EITF 06-10, which requires (1) recognition of a liability related to postretirement benefits covered by collateral split-dollar life insurance arrangements since the employer has the obligation to provide the benefit to the employee and (2) recognition and measurement of the asset based on the nature and substance of the arrangement. We have both endorsement and collateral assignment split-dollar life insurance arrangements for certain officers of the Company. The liability is required to be recognized in accordance with SFAS No. 106, "Employers' Accounting for Postretirement Benefits, Other Than Pensions", or Accounting Principles Board, or APB, Opinion No. 12, "Omnibus Opinion 1967", as appropriate. The adoption of these standards resulted in our recording a \$3.4 million liability, a \$2.6 million receivable, and a cumulative effect adjustment to reduce retained earnings by \$0.8 million at January 1, 2008 on our Consolidated Balance Sheet.

In April 2008, FASB Staff Position SFAS 142-3 "Determination of the Useful Life of Intangible Assets", or FSP 142-3, was issued. FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized

intangible asset under SFAS No. 142, "Goodwill and Other Intangible Assets", or SFAS 142. We will be required to prospectively adopt FSP 142-3 on January 1, 2009. We are currently evaluating the impact of adopting FSP 142-3 on our Consolidated Financial Statements.

For additional recent accounting pronouncements pending adoption, see Note 1 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

2. ACQUISITIONS AND INVESTMENTS

On June 30, 2008, as a part of our long-term growth strategy of entering new geographies, we acquired a 28% equity stake in Global Payments Credit Services LLC, a consumer credit information company in Russia, for cash consideration of \$4.4 million. Based on meeting certain conditions in our purchase agreement, we will have the ability to acquire up to 50 percent of this company, the current legal limit for a foreign owner.

To further grow our credit data business, we acquired an additional 70 percent of the total shares outstanding of a credit reporting company in Ecuador, as well as certain assets of a small Chilean consumer credit information reseller, for approximately \$5.0 million during the second quarter of 2008, net of cash acquired. The results of these acquisitions, which are not material, are reported in our International segment subsequent to their respective acquisition dates.

On February 29, 2008, in order to enhance our mortgage reporting market share, we acquired certain assets and specified liabilities of FIS Credit Services, Inc., a related party mortgage credit reporting reseller, for cash consideration of \$6.0 million. The results of this acquisition, which are not material, are reported in our U.S. Consumer Information Solutions segment subsequent to the acquisition date. For additional information about our related party transactions, see Note 8 of the Notes to Consolidated Financial Statements in this Form 10-Q.

3. GOODWILL AND INTANGIBLE ASSETS

Goodwill. Goodwill represents the cost in excess of the fair value of the net assets acquired in a business combination. In accordance with SFAS 142, goodwill is tested for impairment at the reporting unit level on an annual basis and on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. We perform our annual goodwill impairment tests as of September 30.

Indefinite-Lived Intangible Assets. Indefinite-lived intangible assets consist of contractual/territorial rights representing the estimated fair value of rights to operate in certain territories acquired through the purchase of independent credit reporting agencies in the U.S. and Canada. Our contractual/territorial rights are perpetual in nature and, therefore, the useful lives are considered indefinite. Indefinite-lived intangible assets are not amortized. In accordance with SFAS 142, we are required to test indefinite-lived intangible assets for impairment annually and whenever events or circumstances indicate that there may be an impairment of the asset value. We perform our annual indefinite-lived intangible asset impairment test as of September 30. During the six months ended June 30, 2008, contractual/territorial rights decreased \$0.1 million to \$95.6 million due to foreign currency translation.

Purchased Intangible Assets. Purchased intangible assets represent the estimated fair value of acquired intangible assets used in our business. Purchased data files represent the estimated fair value of consumer credit files acquired primarily through the purchase of independent credit reporting agencies in the U.S. and Canada. We expense the cost of modifying and updating credit files in the period such costs are incurred. We amortize purchased data files, which primarily consist of acquired credit files, on a straight-line basis. All of our other purchased intangible assets are also amortized on a straight-line basis. For additional information about the useful lives related to our purchased intangible assets, see Note 1 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

Senior Credit Facility. We are party to an \$850.0 million senior unsecured revolving credit facility, which we refer to as the Senior Credit Facility, with a group of financial institutions. Borrowings may be used for general corporate purposes, including working capital, capital expenditures, acquisitions and share repurchase programs. The Senior Credit Facility is scheduled to expire in July 2011. Availability of the Senior Credit Facility for borrowings is reduced by any commercial paper amounts outstanding. As of June 30, 2008, \$425.0 million was outstanding under the Senior Credit Facility, which is included in long-term debt on our Consolidated Balance Sheet, and \$340.1 million was available for borrowings under this facility.

Commercial Paper Program. Our \$850.0 million commercial paper program has been established through the private placement of commercial paper notes. Maturities of commercial paper can range from overnight to 397 days. The commercial paper program is supported by our Senior Credit Facility and, pursuant to our existing Board of Directors authorization, the total amount of commercial paper which may be issued is reduced by the amount of any outstanding borrowings under our Senior Credit Facility. At June 30, 2008, \$84.9 million in commercial paper notes were outstanding, at a weighted-average fixed interest rate of 3.0% per annum, all with maturities of less than 90 days.

Canadian Credit Facility. We are a party to a credit agreement with a Canadian financial institution that provides for a C\$40.0 million (denominated in Canadian dollars), 364-day revolving credit agreement. This agreement was expanded from C\$10.0 million to C\$40.0 million during the second quarter of 2008 and is now scheduled to expire in June 2009. As of June 30, 2008, \$35.5 million was outstanding under this facility.

For additional information about our debt agreements, see Note 4 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

5. COMMITMENTS AND CONTINGENCIES

Headquarters Lease. Other than leasing arrangements, we do not engage in off-balance sheet financing activities. Under the terms of the \$29.0 million operating lease for our headquarters building in Atlanta, Georgia, which commenced in 1998 and expires in 2010, we have guaranteed the residual value of the building at the end of the lease. Total lease payments for the remaining term total \$3.2 million. In the event that the property is sold by the lessor at the end of the lease term, we would be responsible for any shortfall of the sales proceeds, up to a maximum amount of \$23.2 million, which equals 80% of the value of the property at the beginning of the lease term. The liability for this estimated shortfall, which was \$1.9 million as of June 30, 2008 and December 31, 2007, respectively, is recorded in other long-term liabilities on our Consolidated Balance Sheets.

Data Processing, Outsourcing Services and Other Agreements. We have separate agreements with International Business Machines Corporation, or IBM, Acxiom, Genpact, Tata Consultancy Services and others to outsource portions of our computer data processing operations, applications development, maintenance and related functions and to provide certain other administrative and operational services. The agreements expire between 2008 and 2013. The estimated aggregate minimum contractual obligation remaining under these agreements was approximately \$305.0 million at December 31, 2007, with no future year's minimum commitment exceeding \$90.0 million. Annual payment obligations in regard to these agreements vary due to factors such as the volume of data processed; changes in our

servicing needs as a result of new product offerings, acquisitions or divestitures; the introduction of significant new technologies; foreign currency; or the general rate of inflation. In certain circumstances (e.g., a change in control or for our convenience), we may terminate these data processing and outsourcing agreements, and, in doing so, certain of these agreements require us to pay a significant penalty.

Our data processing outsourcing agreement with IBM was renegotiated in 2003 for a ten-year term. Under this agreement (which covers our operations in North America, Europe, Brazil and Chile), we have outsourced our mainframe and midrange operations, help desk service and desktop support functions, and the operation of our voice and data networks. The scope of such services varies by location. During 2007, 2006 and 2005, we paid \$115.0 million, \$112.1 million and \$120.8 million, respectively, for these services. The estimated future minimum contractual obligation at December 31, 2007 under this agreement is approximately \$255.0 million, with no year's minimum commitment currently exceeding \$55.0 million. We may terminate certain portions of this agreement without penalty in the event that IBM is in material breach of the terms of the agreement.

Agreement with Computer Sciences Corporation. We have an agreement with Computer Sciences Corporation, or CSC, and certain of its affiliates, collectively CSC, under which CSC-owned credit reporting agencies utilize our computerized credit database services. CSC retains ownership of its credit files and the revenues generated by its credit reporting activities. We receive a processing fee for maintaining the database and for each report supplied. The agreement will expire on July 31, 2018 and is renewable at the option of CSC for successive ten-year periods. The agreement provides us with an option to purchase CSC's credit reporting business if it does not elect to renew the agreement or if there is a change in control of CSC while the agreement is in effect. Under the agreement CSC also has an option, exercisable at any time, to sell its credit reporting business to us. The option expires in 2013. The option exercise price will be determined by a third-party appraisal process and would be due in cash within 180 days after the exercise of the option. We estimate that if the option were exercised at December 31, 2007, the price range would have approximated \$650.0 million to \$725.0 million. This estimate is based solely on our internal analysis of the value of the business, current market conditions and other factors, all of which are subject to constant change. Therefore, the actual option exercise price could be materially higher or lower than our estimate.

Guarantees and General Indemnifications. We will from time to time issue standby letters of credit, performance bonds or other guarantees in the normal course of business. The aggregate notional amount of all performance bonds and standby letters of credit is not material at June 30, 2008 and all have a maturity of one year or less. We also guarantee the operating lease payments of a lease between third parties. The operating lease expires December 31, 2011 and has a remaining balance of \$4.7 million, based on the undiscounted value of remaining lease payments, including real estate taxes, at June 30, 2008. We believe that the likelihood of demand for payment by us is minimal and expect no material losses to occur related to this guarantee. Accordingly, we do not have a liability on our Consolidated Balance Sheets at June 30, 2008 or December 31, 2007 related to this guarantee.

We have agreed to standard indemnification clauses in many of our lease agreements for office space, covering such things as tort, environmental and other liabilities that arise out of or relate to our use or occupancy of the leased premises. Certain of our credit agreements include provisions which

5. COMMITMENTS AND CONTINGENCIES (Continued)

require us to make payments to preserve an expected economic return to the lenders if that economic return is diminished due to certain changes in law or regulations. In conjunction with certain transactions, such as sales or purchases of operating assets or services in the ordinary course of business, or the disposition of certain assets or businesses, we sometimes provide routine indemnifications, the terms of which range in duration and sometimes are not limited. We cannot reasonably estimate our potential future payments under the indemnities and related provisions described above because we cannot predict when and under what circumstances these provisions may be triggered. We had no accruals related to indemnifications on our Consolidated Balance Sheets at June 30, 2008 or December 31, 2007.

Contingencies. We are involved in legal proceedings, claims and litigation arising in the ordinary course of business. We periodically assess our exposure related to these matters based on the information which is available. In accordance with SFAS No. 5, "Accounting for Contingencies", we have recorded accruals in our Consolidated Financial Statements for those matters in which it is probable that we have incurred a loss and the amount of the loss, or range of loss, can be reasonably estimated.

For other legal proceedings, claims and litigation, we have recorded loss contingencies that are immaterial, or we cannot reasonably estimate the potential loss because of uncertainties about the outcome of the matter and the amount of the loss or range of loss. Although the final outcome of these other matters cannot be predicted with certainty, any possible adverse outcome arising from these matters is not expected to have a material impact on our Consolidated Financial Statements, either individually or in the aggregate. However, our evaluation of the likely impact of these matters may change in the future.

Tax Matters. In 2003, the Canada Revenue Agency, or CRA, issued Notices of Reassessment, asserting that Acrofax, Inc., a wholly-owned Canadian subsidiary of Equifax, is liable for additional tax for the 1995 through 2000 tax years, related to certain intercompany capital contributions and loans. The additional tax sought by the CRA for these periods ranges, based on alternative theories, from \$8.4 million (\$8.5 million in Canadian dollars) to \$18.8 million (\$19.0 million in Canadian dollars) plus interest and penalties. Subsequently in 2003, we made a statutorily-required deposit for a portion of the claim. We intend to vigorously contest these reassessments and do not believe we have violated any statutory provision or rule. While we believe our potential exposure is less than the asserted claims and not material to our Consolidated Financial Statements, if the final outcome of this matter was unfavorable to us, an additional claim may be filed by the local province. The likelihood and potential amount of such claim is unknown at this time. We cannot predict when this tax matter will be resolved.

For additional information about these and other commitments and contingencies, see Note 5 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

6. INCOME TAXES

Equifax and its subsidiaries are subject to U.S. federal, state and international income taxes. The Internal Revenue Service completed its audit of our 2004 U.S. income tax return during the first quarter of 2008. We are generally no longer subject to federal, state, or international income tax examinations by tax authorities for years ending prior to December 31, 2002, with few exceptions. In

6. INCOME TAXES (Continued)

Canada, we are under audit by the Canada Revenue Agency for the 1995 through 2000 tax years (see Note 5 of the Notes to Consolidated Financial Statements). For the U.K., tax years after 1999 are open for examination. Due to the potential for resolution of federal, state and foreign examinations, and the expiration of various statutes of limitations, it is reasonably possible that Equifax's gross unrecognized tax benefit balance may change within the next twelve months by a range of zero to \$17.9 million, related primarily to issues involving Brazilian and U.K. operations.

Effective Tax Rate. Our effective income tax rate was 35.3% for the three months ended June 30, 2008, down from 35.8% for the same period in 2007, due primarily to a greater amount of favorable discrete items in 2008 than in 2007; both related to our foreign tax credit utilization. The effective income tax rate was 36.4% for the six months ended June 30, 2008, up from 36.1% for the same period in 2007 due primarily to matters discussed above and favorable discrete items recorded during the first quarter of 2007 related to state and foreign taxes which did not recur in 2008.

7. BENEFIT PLANS

We have defined benefit pension plans and defined contribution plans. Substantially all of our U.S., Canadian and U.K. employees are eligible to participate in one or more of these plans. We also maintain certain healthcare and life insurance benefit plans for eligible retired employees. For additional information about our benefit plans, see Note 9 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

8. RELATED PARTY TRANSACTIONS

SunTrust Bank, N.A., or SunTrust, Bank of America, N.A., or Bank of America, and Fidelity National Information Services, Inc., or FNIS, are each considered related parties in accordance with SFAS No. 57, "Related Party Disclosures," since certain members of our Board of Directors are affiliated with these companies. The following transactions during the first and second quarters of 2008 involved related parties:

SunTrust Robinson Humphrey, a subsidiary of SunTrust, and Banc of America Securities, LLC, a subsidiary of Bank of America, serve as dealers under our commercial paper program. Fees paid to the dealers related to our issuance of commercial paper were immaterial during the first and second quarters of 2008.

SunTrust and Bank of America are lenders of our Senior Credit Facility; SunTrust also acts as administrative agent for the lenders under this facility.

On February 29, 2008, in order to enhance our mortgage reporting market share, we acquired certain assets and specified liabilities of FIS Credit Services, Inc., a mortgage credit reporting reseller, for cash consideration of \$6.0 million. FIS Credit Services, Inc. is a subsidiary of FNIS.

There have not been any other material changes in transactions with related parties, other than those discussed in Note 11 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

9. SEGMENT INFORMATION

Reportable Segments. We manage our business and report our financial results through the following five reportable segments, which are the same as our operating segments:

The accounting policies of the reportable segments are the same as those described in our summary of significant accounting policies in Note 1 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K. We evaluate the performance of these reportable segments based on their operating revenues, operating income and operating margins, excluding unusual or infrequent items, if any. Inter-segment sales and transfers are not material for all periods presented. The measurement criteria for segment profit or loss and segment assets are substantially the same for each reportable segment. All transactions between segments are accounted for at cost, and no timing differences occur between segments.

A summary of segment products and services is as follows:

U.S. Consumer Information Solutions. This segment includes consumer information services (such as credit information and credit scoring, credit modeling services, decisioning tools, locate services, fraud detection and prevention services, identity verification services and other consulting services); mortgage loan origination information services; credit card marketing services; and consumer demographic and lifestyle information services.

International. This segment includes information services products, which includes consumer and commercial services (such as credit and financial information, credit scoring and credit modeling services), credit marketing products and services, and products and services sold directly to consumers similar to those sold by North America Personal Solutions.

TALX. This segment includes employment and income verification services (known as The Work Number®) and employment tax and talent management services.

North America Personal Solutions. This segment includes credit information, credit monitoring and identity theft protection products sold directly to consumers via the internet and in various hard-copy formats.

North America Commercial Solutions. This segment includes commercial products and services such as business credit and demographic information, credit scores and portfolio analytics, which are derived from our databases of business credit and financial information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc. All references to earnings per share data in Management's Discussion and Analysis, or MD&A, are to diluted earnings per share, or EPS, unless otherwise noted. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding.

BUSINESS OVERVIEW

We are a leading global provider of information solutions, employment and income verification and human resources business process outsourcing services. We leverage one of the largest sources of consumer and commercial data, along with advanced analytics and proprietary technology, to create customized insights which enable our business customers to grow faster, more efficiently, more profitably and to inform and empower consumers.

Businesses rely on us for consumer and business credit intelligence, portfolio management, fraud detection, decisioning technology, marketing tools, and human resources and payroll services. We also offer a portfolio of products that enable individual consumers to manage their financial affairs and protect their identity. Our revenue stream is diversified among individual consumers and among businesses across a wide range of industries and international geographies.

Segment and Geographic Information

Segments. The U.S. Consumer Information Solutions, or USCIS, segment, the largest of our five segments, consists of four product and service lines: Online Consumer Information Solutions, or OCIS, Mortgage Reporting Solutions, Credit Marketing Services and Direct Marketing Services. OCIS and Mortgage Reporting Solutions revenue is principally transaction-based and is derived from our sales of products such as consumer credit reporting and scoring, mortgage reporting, identity verification, fraud detection and modeling services. USCIS also markets certain of our decisioning products which facilitate and automate a variety of credit-oriented decisions. A significant majority of USCIS products are delivered electronically. Credit Marketing Services and Direct Marketing Services revenue is principally project- and subscription-based and is derived from our sales of products such as those that assist clients in acquiring new customers, cross-selling to existing customers and managing portfolio risk.

The International segment consists of Canada Consumer, Europe and Latin America. Canada Consumer's products and services are similar to our USCIS offerings, while Europe and Latin America are made up of varying mixes of product lines that are in our USCIS, North America Commercial Solutions and North America Personal Solutions reportable segments.

The TALX segment consists of The Work Number® and Tax and Talent Management business units. The Work Number revenue is transaction-based and is derived primarily from verification of employment and income data reported to us by employers. Tax and Talent Management revenues are derived from our provision of certain human resources business process outsourcing services that are transaction- and subscription-based product offerings.

North America Personal Solutions revenue is both transaction- and subscription-based and is derived from the sale of credit monitoring and identity theft protection products, which we deliver to consumers through the mail and electronically via the internet.

North America Commercial Solutions revenue is principally transaction-based and is derived from the sale of business information, credit scores and portfolio analytics that enable customers to utilize our reports to make financial, marketing and purchasing decisions related to businesses.

Geographic Information. We currently operate in the following countries: Argentina, Brazil, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Peru, Portugal, the Republic of Ireland, Spain, the U.K., Uruguay, and the U.S. Our operations in Costa Rica and the Republic of Ireland focus on data processing and customer support activities. During the second quarter of 2008, we expanded into Russia by acquiring an equity stake in a consumer credit information company.

Key Performance Indicators. Management focuses on a variety of key indicators to monitor operating and financial performance. These performance indicators include measurements of operating revenue, operating revenue growth, operating income, operating margin, net income, diluted earnings per share, cash provided by operating activities and capital expenditures. The key performance indicators for the three and six months ended June 30, 2008 and 2007, were as follows:

Operational Highlights

Double-digit revenue growth in our International and our North America Commercial Solutions operating segments and results from TALX, which was acquired in May 2007, contributed to a 10% increase in revenue in the second quarter of 2008, when compared to the same period in 2007.

Operating margin was 25.4 percent compared to 25.1 percent in the first quarter of 2008 and 26.4 percent in the second quarter of 2007.

Diluted earnings per share was \$0.54 for the second quarter of 2008, a six percent increase from \$0.51 in the second quarter of 2007.

During the second quarter of 2008, we repurchased 1.1 million of our common shares on the open market for \$44.1 million.

The three- and six-month increases in revenue were due to double-digit growth in our International and North America Commercial Solutions segments as discussed in greater detail in "Segment Financial Results" below, as well as our acquisition of TALX in May 2007. TALX contributed \$41.4 million and \$121.0 million in incremental revenue during the three and six months ended June 30, 2008, respectively, or 8% and 12% of consolidated revenue recognized in those periods. Our North America Personal Solutions business also recorded double-digit revenue growth for the first six months of 2008 when compared to the same period in 2007. Revenue from our USCIS segment declined due to continued weakness in the U.S. economy. Foreign currency had a favorable impact on revenue growth of \$11.0 million, or 2%, during the second quarter of 2008 and a favorable impact of \$24.2 million, or 3%, during the first six months of 2008.

The impact of foreign currency translation can change significantly from period to period. The foreign currency benefit to reported results was greater in the first and second quarters of 2008 than it has been in other recent periods due to the significant decline in the value of the U.S. dollar over the last year against key foreign currencies, most notably the British pound, Canadian dollar and Brazilian real. If the U.S. dollar remains at its current valuation going forward, the benefit from foreign currency compared to the same quarter of the prior year would decline from first and second quarter 2008 levels.

Consolidated operating expenses	\$ 374.2	\$ 334.7	\$39.5	12%	\$ 751.1	\$ 623.0	\$128.1	21%

The three- and six-month increases in cost of services were significantly affected by our acquisition of TALX, which contributed \$9.4 million and \$37.1 million, respectively, of this increase during these periods. The remainder of this increase was primarily due to increased direct production and salary costs related to revenue growth in our Latin America operations, as well as the impact of foreign currency fluctuation against the U.S. dollar. These increases were partially offset by reduced transaction processing and salary costs in our Credit Marketing Services and Direct Marketing Services businesses and other cost saving initiatives.

Table of Contents

The three- and six-month increases in selling, general and administrative expenses were mainly due to our acquisition of TALX, which contributed \$14.8 million and \$38.3 million, respectively, of this increase during these periods. The remainder of this increase was primarily due to increased salary and incentive costs to support growth areas and the impact of foreign currency fluctuation against the U.S. dollar.

The three- and six-month increases in depreciation and amortization expense were mainly due to \$8.0 million and \$23.7 million, respectively, in incremental depreciation and amortization expense related to our acquisition of TALX during these periods. The remainder of the increase is primarily due to depreciation expense related to increased 2007 capital expenditures, including the purchase of the facility that houses our Atlanta, Georgia data center.

The three- and six-month declines in consolidated operating margin percentages reflect the impact of the operating margin of TALX on our consolidated operating margin, which is significantly impacted by acquisition-related amortization expense. The declines in consolidated operating margins were also due to a decline in the margin of our USCIS business when compared to the same periods in 2007.

The three- and six-month increases in other expense, net, were primarily due to increased interest expense driven by a higher level of debt during the first two quarters of 2008, compared to the same period in 2007, which was used to fund the TALX acquisition in May 2007 and our share repurchase activity in 2007 and 2008.

The three-month decrease in our effective income tax rate was primarily due to a greater amount of favorable discrete items in 2008 than 2007; both related to our foreign tax credit utilization. The six-month increase in our effective income tax rate was primarily due to the matters discussed above and favorable discrete items recorded during the first quarter of 2007 related to state and foreign taxes, which did not recur in 2008.

The three-month increase in net income was a function of growth in operating income from our International, North America Personal Solutions and North America Commercial Solutions segments and the acquisition of TALX, which was partially offset by a decline in operating income from our USCIS business, increased general corporate operating expense and increased interest expense. The six-month decrease in net income included the factors mentioned above; however, growth in operating income was more than offset by a decline in operating income from our USCIS business, increased general corporate operating expense and increased interest expense.

The three- and six-month decreases in revenue were due to continued weakness in the U.S. economy which affected each of the USCIS businesses. We currently expect USCIS revenue for the full year 2008 to be below the revenue realized in 2007.

OCIS

The three-month decrease in revenue was primarily due to volume declines and a shift in customer mix that led to lower average selling prices as a result of continued weakness in the U.S. economy. Online transaction volume declined to approximately 170 million in the second quarter of 2008 from approximately 175 million in the comparative period of 2007. In addition to the volume declines mentioned above, the six-month decrease in revenue was driven by continuing low single-digit percentage declines in average unit prices in the first three months of 2008. Online transaction volume

Table of Contents

declined to approximately 340 million for the first six months of 2008 from approximately 345 million in the comparative period of 2007.

Mortgage Reporting Solutions

The three- and six-month decreases in revenue were primarily due to continued weakness in U.S. housing markets, which led to reduced transaction volumes from our existing mortgage reporting customer base. These decreases were partially offset by increases from our settlement services products and from our acquisition of mortgage credit reseller assets from Fidelity National Information Services, Inc. in the first quarter of 2008.

Credit Marketing Services

The three- and six-month decreases in revenue were primarily due to volume decreases from our existing customer base, resulting in a 42% revenue reduction in new account acquisition services, partially offset by an 8% revenue increase in customer portfolio management services.

Direct Marketing Services

The three- and six-month decreases in revenue were due to reduced mailing volumes from our existing customer base and to changes in the scope of a contract with a large marketing services reseller.

USCIS Operating Margin

The three-month and six-month decreases in operating margin were primarily due to revenue declines in the USCIS businesses. With a high proportion of fixed costs, our operating expenses did not decline at the same rate as our revenue. This revenue decrease was partially offset by reduced transaction processing and salary costs in our Credit Marketing Services and Direct Marketing Services businesses and other cost saving initiatives. Although operating margin declined from the same period a year ago, operating margin increased from 36.6% in the fourth quarter of 2007 due to the implementation of the cost saving initiatives referenced above.

The three- and six-month increases in revenue are attributable to growth in all three geographical areas. Local currency fluctuation against the U.S. dollar favorably impacted our International revenue by \$10.4 million, or 9%, during the second quarter of 2008 and \$22.6 million, or 10%, during the first six months of 2008. Revenue was up 10% in local currency for the second quarter of 2008 and 11% for the first six months of 2008.

Table of Contents

Europe

The three-month increase in revenue was primarily due to higher volumes and new customer relationships for our online services and registry products in Spain and Portugal, partially offset by volume declines for our U.K. consumer credit products caused by softening in the U.K. economy. The six-month revenue increase was due to the volume and customer increases in the geographies mentioned above, as well as the U.K. Local currency fluctuation against the U.S. dollar favorably impacted our Europe revenue by \$1.0 million, or 2%, during the second quarter of 2008 and \$2.5 million, or 3%, during the first six months of 2008. Revenue was up 1% in local currency for the second quarter of 2008 and 5% for the first six months of 2008.

Latin America

The three- and six-month increases in revenue were driven by double-digit sales growth in local currency in seven of the eight country markets in which we operate, primarily due to higher volumes of our online solutions, enabling technologies and marketing products. Brazil contributed to revenue growth during the first and second quarters with a new contract to provide data to a large regional consumer services data provider, partially offset by lower sales volumes for certain products that resulted from competition for small- and medium-sized customers. Our acquisitions of a credit reporting business in Peru during the fourth quarter of 2007, as well as a credit reporting company in Ecuador and a credit data reseller Chile, both during the second quarter of 2008, also contributed slightly to revenue growth in this segment. Local currency fluctuation against the U.S. dollar favorably impacted our Latin America revenue by \$7.0 million, or 15%, during the second quarter of 2008 and \$13.6 million, or 17%, during the first six months of 2008. Revenue was up 23% in local currency for the second quarter of 2008 and 20% for the first six months of 2008.

Canada Consumer

The three- and six-month increases in revenue were primarily driven by price and volume increases in our consumer risk products, as well as increased volumes for our marketing products. Local currency fluctuation against the U.S. dollar favorably impacted our Canada Consumer revenue by \$2.4 million, or 9%, during the second quarter of 2008 and \$6.5 million, or 13%, during the first six months of 2008. Revenue was up 6% in local currency for the second quarter of 2008 and 5% for the first six months of 2008.

International Operating Margin

The three- and six-month increases in operating margin were due to continued revenue growth coupled with management of operating expenses and economies of scale which have allowed our expenses to grow more slowly than revenue.

The results of TALX's operations are included in our Consolidated Financial Statements beginning on May 15, 2007, resulting in a 45-day period for the second quarter of 2007. TALX generated \$76.7 million and \$156.3 million of revenue for three- and six-month periods ended June 30, 2008, respectively. TALX acquisition-related amortization expense was \$13.7 million and \$27.4 million for the three- and six-month periods ended June 30, 2008, respectively, as compared to \$6.6 million for both the three- and six-month periods ended June 30, 2007. Total employment records in The Work Number database increased during the second quarter to 179.2 million at June 30, 2008.

The three- and six-month increases in revenue were primarily due to higher subscription revenue associated with our 3-in-1 Monitoring, ScoreWatch, Credit Watch and Credit Report Control products. Subscription customers grew to 1.4 million as of June 30, 2008, up 16% from 1.3 million as of June 30, 2007. The increase in operating margins during these periods was mainly due to continued subscription-based revenue growth and improved operating leverage, as operating expenses remained constant during the first and second quarters of 2008 when compared to the same periods in 2007.

The three- and six-month increases in revenue were primarily due to increased sales volumes for products in our U.S. Commercial business. Online transactional volume for our commercial credit information products increased to 1.3 million during the second quarter of 2008, up 8% from

Table of Contents

1.2 million during the same period in 2007, and to 2.6 million during the first six months of 2008, up 10% from 2.3 million during the same period in 2007. The increase in operating margin was mainly due to revenue growth in our U.S. Commercial business and improved operating leverage, as increases in operating expenses during the period were primarily due to increased data purchases and new product investment to support long-term growth and operating efficiency. Local currency fluctuation against the U.S. dollar favorably impacted our North America Commercial Solutions revenue by \$0.6 million, or 4%, in the second quarter of 2008, and by \$1.6 million, or 5%, in the first six months of 2008.

General Corporate Expense

	(Dollars in millions)				(Dollars in millions)			
General corporate expense	\$28.0	\$27.6	\$0.4	2%	\$57.9	\$52.4	\$5.5	11%

Our general corporate expenses are costs that are incurred at the corporate level and include those expenses impacted by corporate direction, such as shared services, administrative, legal, restructuring and equity compensation costs. General corporate expenses were essentially flat in the second quarter of 2008 as compared to the second quarter of 2007. The six-month increase in general corporate expense was primarily due to increased expenses for short- and long-term incentive compensation programs and increased staff costs.

LIQUIDITY AND FINANCIAL CONDITION

Management assesses the Company's liquidity in terms of its ability to generate cash to fund its operating, investing and financing activities. The Company continues to generate substantial cash from operating activities and remains in a strong financial position, with resources available for reinvestment in existing businesses, strategic acquisitions and managing its capital structure on a short and long-term basis.

Sources and Uses of Cash

Funds generated by operating activities, available cash and cash equivalents, our commercial paper program and credit facilities continue to be our most significant sources of liquidity. We believe that funds generated from expected results of operations and available cash and cash equivalents will be sufficient to finance our anticipated working capital and other cash requirements and strategic initiatives for the remainder of 2008 and 2009. However, our commercial paper program and credit facilities are available for additional working capital needs and investment opportunities as necessary.

The following table summarizes our cash flows for the six months ended June 30, 2008 and 2007:

Table of Contents

The increase in operating cash flow was primarily due to incremental income from our TALX acquisition and revenue growth in three of our other four operating segments, partially offset by decreased revenue in our USCIS operating segment and increased interest payments.

Fund Transfer Limitations. The ability of certain of our subsidiaries and associated companies to transfer funds to us is limited, in some cases, by certain restrictions imposed by foreign governments, which do not, individually or in the aggregate, materially limit our ability to service our indebtedness, meet our current obligations or pay dividends.

Our capital expenditures are used for developing, enhancing and deploying new and existing software in support of our expanding product set, replacing or adding equipment, updating systems for regulatory compliance, the licensing of software applications and investing in system reliability, security and disaster recovery enhancements. The increase in capital expenditures during the first six months of 2008 when compared to the same period in 2007 was primarily due to \$24.0 million of improvements made to the facility which houses our Atlanta, Georgia data center, which we purchased in July 2007.

On June 30, 2008, as a part of our long-term growth strategy of entering new geographies, we acquired a 28% equity stake in Global Payments Credit Services LLC, a credit information company in Russia, for cash consideration of \$4.4 million. Based on meeting certain conditions in our purchase agreement, we will have the ability to acquire up to 50 percent of this company, the current legal limit for a foreign owner.

To further grow our credit data business, we acquired an additional 70 percent of the total shares outstanding of a credit reporting company in Ecuador, as well as certain assets of a small Chilean consumer credit information reseller, for approximately \$5.0 million during the second quarter of 2008, net of cash acquired. The results of these acquisitions, which are not material, are reported in our International segment subsequent to their respective acquisition dates.

On February 29, 2008, in order to enhance our mortgage reporting market share, we acquired certain assets and specified liabilities of FIS Credit Services, Inc., a related party mortgage credit reporting reseller, for cash consideration of \$6.0 million. The results of this acquisition, which are not material, are reported in our U.S. Consumer Information Solutions segment subsequent to the acquisition date.

We have an \$850.0 million five-year unsecured revolving credit facility, as amended (which we refer to as the Senior Credit Facility), with a group of banks. The Senior Credit Facility permits borrowings up to \$850.0 million, and may be increased up to \$1.0 billion at our option provided the administrative agent under the facility grants its consent and each of the banks provide an incremental credit commitment. The Senior Credit Facility terminates in July 2011.

Our \$850.0 million commercial paper program has been established through the private placement of commercial paper notes. Maturities of commercial paper can range from overnight to 397 days. The commercial paper program is supported by our Senior Credit Facility and, pursuant to our existing Board of Directors authorization, the total amount of commercial paper which may be issued is reduced by the amount of any outstanding borrowings under our Senior Credit Facility.

In June 2008, we entered into a new 364-day revolving credit agreement with a Canadian bank that replaced a previous credit facility with the bank; the permitted borrowings were increased from C\$10.0 million (denominated in Canadian dollars) to C\$40.0 million and financial and other covenants were updated and conformed to those contained in our Senior Credit Facility. The new Canadian Credit Facility terminates in June 2009.

Net short-term repayments during the six months ended June 30, 2008 and 2007 represents activity under our commercial paper program, as well as activity under our Canadian short-term revolving credit agreement. Net borrowings (repayments) under long-term revolving credit facilities during the six months ended June 30, 2008 and 2007 relate to activity on our Senior Credit Facility. The increase in net short-term repayments during the first half of 2008 reflects the repayment of \$134.6 million of the balance outstanding on our commercial paper notes at December 31, 2007, offset by the increase in our Canadian Credit Facility of \$35.5 million. The increase in net borrowings under long-term revolving credit facilities represents our refinancing of \$50.0 million of the commercial paper notes outstanding at December 31, 2007 through borrowings under our Senior Credit Facility to lower the average interest cost of our debt.

At June 30, 2008, \$84.9 million in commercial paper notes was outstanding, at a weighted-average interest rate of 3.0% per annum, all with maturities less than 90 days; \$425.0 million was outstanding under the Senior Credit Facility, which is included in long-term debt on our Consolidated Balance Sheet; and \$35.5 million was outstanding under our Canadian Credit Facility. At June 30, 2008, a total of \$343.9 million was available under our committed credit facilities.

At June 30, 2008, 59% of our debt was fixed-rate debt and 41% was variable-rate debt. Our variable-rate debt, consisting of commercial paper notes and borrowings under our credit facilities, generally bears interest based on a specified margin plus a base rate, LIBOR or commercial paper rate. The interest rates reset periodically, depending on the terms of the respective financing arrangements. At June 30, 2008, interest rates on our variable-rate debt ranged from 2.9% to 3.8%.

Table of Contents

A downgrade in our credit rating (as described below under the heading "Credit Ratings") would increase the cost of borrowings under our commercial paper program and credit facilities, and could limit, or in the case of a significant downgrade, preclude our ability to issue commercial paper. Our outstanding indentures and comparable instruments also contain customary covenants including for example limits on the incurrence of secured debt and sale/leaseback transactions. In addition, our Senior Credit Facility and Canadian Credit Facility each require us to maintain a maximum leverage ratio of not more than 3.5 to 1.0. None of these covenants are considered restrictive to our operations and as of June 30, 2008, we were in compliance with all of our debt covenants.

We do not have any credit rating triggers that would accelerate the maturity of a material amount of our outstanding debt, except with respect to our 6.3% Senior Notes due 2017 and 7.0% Senior Notes due 2037 (together, the "Senior Notes"). If we experience a change of control or publicly announce our intention to effect a change of control and the rating on the Senior Notes is lowered by each of Standard & Poor's, or S&P, and Moody's Investors Service, or Moody's, below an investment grade rating within 60 days of such change of control or notice thereof, then we will be required to offer to repurchase the Senior Notes at a price equal to 101% of the aggregate principal amount of the Senior Notes plus accrued and unpaid interest.

For additional information about our debt, including the terms of our financing arrangements, basis for variable interest rates and debt covenants, see Note 4 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

Credit Ratings. Credit ratings reflect an independent agency's judgment on the likelihood that a borrower will repay a debt obligation at maturity. The ratings reflect many considerations, such as the nature of the borrower's industry and its competitive position, the size of the company, its liquidity and access to capital and the sensitivity of a company's cash flows to changes in the economy. The two largest rating agencies, S&P and Moody's, use alphanumeric codes to designate their ratings. The highest quality rating for long-term credit obligations is AAA+ and Aaa1 for S&P and Moody's, respectively. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency.

Long-term ratings of BBB- and Baa3 or better by S&P and Moody's, respectively, reflect ratings on debt obligations that fall within a band of credit quality considered to be "investment grade". Currently, the long-term ratings for our obligations are BBB+ and Baa1, have a stable outlook and are consistent with the ratings and outlooks which existed at December 31, 2007.

If our credit ratings were to decline to lower levels, we could experience more significant increases in our interest cost for new debt. In addition, the market's demand, and thus our ability to readily issue new debt, could become further influenced by the economic and credit market environment.

In February 2008, the Company's Board of Directors authorized the repurchase of up to an additional \$250.0 million of the Company's common stock from time to time on the open market or in privately negotiated transactions. There is no expiration date for the Company's repurchase program.

Table of Contents

The timing and amount of any shares repurchased will be determined by the Company's management based on its evaluation of market conditions and other factors. The repurchase program may be suspended or discontinued at any time. Any repurchased shares will be available for use in connection with the Company's equity compensation plans and for other corporate purposes. At June 30, 2008, the Company had approximately \$232.8 million remaining for stock repurchases under the existing Board authorization. The Company expects to fund any further repurchases using the Company's available cash balances, proceeds from the issuance of commercial paper or borrowings under credit facilities.

Sources and uses of cash related to equity during the six months ended June 30, 2008 and 2007 were as follows:

Under share repurchase programs authorized by our Board of Directors, we purchased 2.2 million common shares on the open market during the six months ended June 30, 2008 for \$81.1 million at an average price per common share of \$36.34. We purchased a total of 4.2 million shares of our common stock on the open market during the six months ended June 30, 2007 for \$179.3 million at an average price per common share of \$42.91. Approximately \$9.0 million of purchases was accrued for at June 30, 2007.

At July 25, 2008, we had acquired an additional 0.5 million shares for \$18.8 million since June 30, 2008.

Our dividends per share were \$0.08 per share for both periods presented. We paid cash dividends of \$10.3 million and \$10.0 million, respectively, for the two periods presented.

We received cash of \$13.5 million and \$22.4 million in the first six months of 2008 and 2007, respectively, from the exercise of stock options.

Contractual Obligations, Commercial Commitments and Other Contingencies

Our contractual obligations, commercial commitments and other contingencies have not materially changed from those reported in our 2007 Form 10-K. For additional information about certain obligations and contingencies, including those related to CSC see Note 5 of the Notes to Consolidated Financial Statements in this Form 10-Q.

Off-Balance Sheet Arrangements

There have been no material changes with respect to our off-balance sheet arrangements from those presented in our 2007 Form 10-K.

Related Party Transactions

We engage in various transactions and arrangements with related parties. We believe the terms of the transactions and arrangements do not differ from those that would have been negotiated with an independent party. For additional information about our related parties and associated transactions, see Note 8 of the Notes to the Consolidated Financial Statements in this Form 10-Q and Note 11 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

Seasonality

We experience seasonalities in certain of our revenue streams. Revenue generated from The Work Number business unit within the TALX operating segment is generally higher in the first quarter due primarily to the provision of Form W-2 preparation services which occur in the first quarter each year. Revenue from our OCIS and Mortgage Reporting Solutions business units tends to increase in periods of the year in which our customers have higher volumes of credit granting decisions, most commonly the second and third calendar quarters.

RECENT ACCOUNTING PRONOUNCEMENTS

For information about new accounting pronouncements and the potential impact on our Consolidated Financial Statements, see Note 1 of the Notes to Consolidated Financial Statements in this Form 10-Q and Note 1 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with GAAP requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in our Consolidated Financial Statements and the Notes to Consolidated Financial Statements. We believe the most complex and sensitive judgments, because of their significance to the Consolidated Financial Statements, result primarily from the need to make estimates and assumptions about the effects of matters that are inherently uncertain. The "Application of Critical Accounting Policies and Estimates" section in the MD&A and Note 1 of the Notes to Consolidated Financial Statements in our 2007 Form 10-K describe the significant accounting estimates and policies used in the preparation of our Consolidated Financial Statements. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information available at the time. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risks, see "Quantitative and Qualitative Disclosures about Market Risk," in Part II, Item 7A of our 2007 Form 10-K. There were no material changes to our market risk exposure during the six months ended June 30, 2008.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was carried out by the Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Equifax, certain of its subsidiaries, and other persons have been named as parties in various legal actions and administrative proceedings arising in connection with the operation of Equifax's businesses. In most cases, plaintiffs seek unspecified damages and other relief. These actions include the following:

NCRA/Standfacts Litigation. On March 25, 2004, the National Credit Reporting Association, Inc., or NCRA, a trade association of mortgage credit information resellers, and, separately, 23 of NCRA's members, commenced suits against Equifax, Experian and TransUnion alleging various violations of antitrust and unfair practices laws. After a variety of rulings on procedural and substantive issues, including grants on two occasions of all or part of defendants' motions to dismiss, the remaining claims of all plaintiffs have been consolidated under a Third Amended Complaint, filed June 29, 2005, in an action captioned *Standfacts Credit Services, et al. v. Experian Information Solutions, Inc., Equifax Inc.,*

Table of Contents

and *TransUnion, LLC*, pending in the U.S. District Court for the Central District of California. The amended complaint seeks injunctive relief and unspecified amounts of damages. In 2005, the District Court granted defendants' motions to dismiss all claims except for one remaining Sherman Act, Section 1 conspiracy claim. In late 2006, 19 of the 23 original plaintiffs were dismissed from the case by agreement. On January 18, 2007, the District Court entered a final order pursuant to stipulation of the parties dismissing all remaining claims of plaintiffs, with prejudice, and preserving only the right of certain plaintiffs to appeal the previous dismissal by the District Court of certain monopolization claims to the U.S. Court of Appeals for the Ninth Circuit. Plaintiffs filed their notice of appeal with the Ninth Circuit on February 15, 2007. Appellate briefing was completed on March 7, 2008.

VantageScore Litigation. On March 14, 2006, Equifax and two other national credit reporting companies announced the development of VantageScore, a credit scoring system. VantageScore is being independently marketed and sold separately by Equifax and the two other national credit reporting companies through licensing agreements with VantageScore Solutions LLC, which is jointly owned by Equifax and the two other national credit reporting companies. On October 11, 2006, in an action captioned *Fair Isaac Corporation v. Equifax Inc., Experian Information Solutions, Inc., TransUnion LLC and VantageScore Solutions LLC*, Fair Isaac Corporation filed a lawsuit in the U.S. District Court for the District of Minnesota, alleging that the national credit reporting companies and VantageScore Solutions LLC violated antitrust laws, engaged in unfair competitive practices and false advertising and infringed plaintiff's trademark by using a credit score product with a score range that overlaps the FICO® score range. Plaintiff sought injunctive relief and treble damages under its antitrust claims. On June 6, 2008, Plaintiff and Equifax entered into a settlement agreement which provided for the dismissal of all claims against Equifax. The District Court entered an order of dismissal of the claims against Equifax on June 12, 2008.

California Bankruptcy Litigation. In a series of actions filed in the U.S. District Court for the Central District of California between October 14, 2005 and November 2, 2005 which have now been consolidated, captioned *Terri N. White, et al. v. Equifax Information Services LLC, Jose Hernandez v. Equifax Information Services LLC, Kathryn L. Pike v. Equifax Information Services LLC, and Jose L. Acosta, Jr., et al. v. Trans Union LLC, et al.*, plaintiffs asserted that Equifax violated federal and state law (the FCRA, the California Credit Reporting Act and the California Unfair Competition Law) by failing to follow reasonable procedures to determine whether credit accounts are discharged in bankruptcy, including the method for updating the status of an account following a bankruptcy discharge. The Pike plaintiff asserts only that Equifax's conduct violated the California Credit Reporting Act. On May 15, 2007, plaintiffs filed motions seeking to certify a nationwide class of similarly situated consumers. Plaintiffs seek unspecified damages and injunctive relief. On April 3, 2008, plaintiffs and defendants filed jointly a Proposed Order approving a Settlement Agreement and Release providing for certain changes in the procedures used by defendants to record discharges in bankruptcy on consumer credit files. The settlement would resolve claims for injunctive relief but does not affect plaintiffs' claims for damages. Discovery is ongoing.

Other. Equifax has been named as a defendant in various other legal actions, including administrative claims, class actions and other litigation arising in connection with our business. Some of the legal actions include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. We believe we have strong defenses to, and where appropriate, will vigorously contest, many of these matters. Given the number of these matters, some are likely to result in adverse judgments, penalties, injunctions, fines or other relief. However, we do not believe that these litigation matters will be individually material to our financial condition or results of operations. We may explore potential settlements before a case is taken through trial because of the uncertainty and risks inherent in the litigation process.

ITEM 1A. RISK FACTORS

There are no material changes from the risk factors set forth under Part I, Item 1A. "Risk Factors" in our 2007 Form 10-K. In addition to the other information set forth in this report, you should carefully consider these risk factors which could materially affect our business, financial condition or future results. The risks described in this report and in our 2007 Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

This report contains certain information that may constitute "forward- looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, the words "may," "could," "should," "would," "believe," "expect," "anticipate," "estimate," "intend," "seek," "plan," "project," "continue," "predict" or similar expressions identify forward-looking statements which generally are not historical in nature. All statements that address operating performance, future products, strategies, events or developments that we expect or anticipate will occur in the future, including the following statements in this report, are forward-looking statements:

Regarding Note 4 of the Notes to Consolidated Financial Statements, and our future liquidity needs discussed under "Liquidity and Financial Condition," our ability to generate cash from operating activities and any declines in our credit ratings or financial condition which could restrict our access to the capital markets or materially increase our financing costs;

With respect to Note 5 of the Notes to Consolidated Financial Statements, "Commitments and Contingencies", and "Contractual Obligations, Commercial Commitments and Other Contingencies" in MD&A, changes in the market value of our assets or the actual cost of our commitments or contingencies, including, without limitation, the negotiated or appraised price payable under the CSC option, if exercised, and the outcome of our pending litigation referenced therein and in Part II, Item 1, "Legal Proceedings";

With respect to the foreign currency impact on our operating revenue discussed under "Results of Operations Three and Six Months Ended June 30, 2008 and 2007" in the MD&A, our views on the valuation of the U.S. dollar; and

With respect to our USCIS revenue discussed under "Results of Operations Three and Six Months Ended June 30, 2008 and 2007" in the MD&A, our views on the health of the U.S. and global economies during 2008.

As and when made, management believes that these forward-looking statements are reasonable. However, caution should be taken not to place undue reliance on any such forward-looking statements because such statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those described elsewhere in this report and in our 2007 Form 10-K, and those described from time to time in our future reports filed with the SEC.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The following table contains information with respect to purchases made by or on behalf of Equifax or any "affiliated purchaser" (as defined in Rule 10b-18(a) (3) under the Securities Exchange Act of 1934), of our common stock during our second quarter ended June 30, 2008:

Period		Total Number of Shares Purchased(1)	Average Price Paid Per Share(2)	Total Number of Shares Purchased as Part of Publicly-Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs(3)
March 31, 2008					\$ 276,915,470
April 1	April 30, 2008	21,330	\$ 38.01	9,300	\$ 276,561,943

Total		1,179,757	\$ 37.79	1,165,585	\$ 232,868,957

- (1) The total number of shares purchased includes: (a) shares purchased pursuant to our publicly-announced share repurchase program, or Program; and (b) shares surrendered, or deemed surrendered, in satisfaction of the exercise price and/or to satisfy tax withholding obligations in connection with the exercise of employee stock options, totaling 12,030 shares for the month of April 2008, 0 shares for the month of May 2008, and 2,142 shares for the month of June 2008.
- (2) Average price paid per share for shares purchased as part of our Program (includes brokerage commissions).
- (3) On February 8, 2008, our Board of Directors increased the amounts authorized under the Program by an additional \$250.0 million, and we publicly announced this increase on February 11, 2008. At June 30, 2008, the amount authorized for future share repurchases under the Program was \$232.8 million.

Dividend and Share Repurchase Restrictions

Our Senior Credit Facility, as amended, restricts our ability to pay cash dividends on our capital stock or repurchase capital stock if default or event of default exists or would result, according to the terms of the agreement.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our 2008 Annual Meeting of Shareholders was held on May 9, 2008. A total of 119,012,929 of our shares of common stock were present or represented by proxy at the meeting. This represented approximately 91% of the Company's shares outstanding. The following matters were voted upon at the meeting:

- Each nominee for director was re-elected as a Class II director for a three-year term expiring on the date of the 2011 Annual Meeting of Shareholders, as follows:
