PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

The accompanying proxy is being solicited by the Board of Directors of KapStone Paper and Packaging Corporation (the "Company") and contains information related to the Annual Meeting of Stockholders to be held on Thursday, May 21, 2009, at 11:00 a.m., Central Daylight Savings Time, or any adjournment or postponement thereof, for the purposes described in the accompanying Notice of Annual Meeting. The Annual Meeting will be held at 1033 Skokie Boulevard, Suite 100, Northbrook, Illinois. This Proxy Statement was filed with the Securities and Exchange Commission (the "SEC") on April 15, 2009, and the approximate date on which the Proxy Statement and the accompanying form of proxy were first sent or given to stockholders was April 21, 2009.

The Company will bear the cost of soliciting proxies. The Company may solicit stockholder proxies by mail through its regular employees, and may request banks and brokers, and other custodians, nominees and fiduciaries, to solicit their customers who have the Company's Common Stock registered in their names and will reimburse them for their reasonable, out-of-pocket costs. The Company may use the services of its officers, directors, and others to solicit proxies, personally or by telephone, without additional compensation.

ABOUT THE MEETING

What is the purpose of the Annual Meeting?

At the Annual Meeting, stockholders will act upon the matters outlined in the Notice of Annual Meeting that is attached to this Proxy Statement. These matters include the election of directors and the ratification of the reappointment of Ernst & Young LLP as the Company's independent registered public accountants. In addition, management will report on the Company's performance during 2008 and will respond to questions from the Company's stockholders. The Annual Report for the year ended December 31, 2008 is enclosed with this Proxy Statement.

Who is entitled to vote at the meeting?

Only stockholders of record as of the close of business on the record date, April 3, 2009, will be entitled to vote the shares of the Company's common stock, par value \$.0001 per share, ("Common Stock") they held on the record date at the Annual Meeting. As of the close of business on the record date, there were 27,975,591 shares of Common Stock outstanding and entitled to vote.

Stockholders may vote in person or by proxy. Each holder of shares of the Company's Common Stock is entitled to one vote for each share of Common Stock held on the proposals presented in this Proxy Statement. The Company's bylaws provide that a majority of all of the outstanding shares of Common Stock entitled to vote, whether present in person or represented by proxy, constitutes a quorum for the transaction of business at the Annual Meeting.

Table of Contents

How do I vote?

If you properly complete and sign the enclosed proxy card and return it as instructed on the proxy card, it will be voted as you direct. If you hold your shares in your name and you attend the meeting, you may deliver your completed proxy card in person. If you hold your shares in "street name" through a brokerage or other nominee, you will need to obtain a proxy card from the institution that holds your shares.

All shares of Common Stock represented by a proxy will be voted, and where a stockholder specifies a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specification so made. If you do not indicate a choice on the proxy card, the shares will be voted in favor of the election of the nominees for director contained in this Proxy Statement, in favor of ratifying Ernst & Young LLP as independent registered public accountants for the Company for 2009 and, in the discretion of the proxy holders, on any other matter that comes before the meeting.

Once you have given your proxy, you may revoke it at any time prior to the time it is voted, by delivering to the Secretary of the Company at the Company's principal offices either a written document revoking the proxy or a duly executed proxy with a later date, or by attending the meeting and voting in person. Merely attending the Annual Meeting will not, by itself, revoke a proxy you must also vote your shares.

Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum. "Broker non-votes" are shares held by brokers or nominees who are present in person or represented by proxy, but which are not voted on a particular matter because instructions have not been received from the beneficial owner and the broker lacks discretion to vote the shares in the absence of such instructions. The effect of broker non-votes and abstentions on the specific items to be brought before the Annual Meeting is discussed under each item.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our compensation programs for executive officers are administered by the Compensation Committee (the "Committee"), which is composed solely of three independent directors as defined by NASDAQ Stock Market Rules. The Committee operates under a written charter adopted by the Board. The Committee charter is included on the Company's website at the following address: <http://kapstonepaper.com> and printed copies are available to any stockholder upon request.

The Committee has reviewed and approved the following discussion and analysis, which analyzes the objectives and results for 2008 of the Company's compensation policies and procedures for its four executive officers: Roger W. Stone, the Company's Chief Executive Officer; Matthew Kaplan, the Company's President and Secretary; Timothy P. Keneally, the Company's Vice President and General Manager; and Andrea K. Tarbox, the Company's Vice President and Chief Financial Officer (the "Named Executive Officers"). The Company's compensation programs have been adopted in order to implement the Committee's compensation philosophy, while taking into account the Company's financial performance. The Committee periodically reviews the Company's compensation programs and practices in light of the Committee's compensation philosophy, changes in laws and regulations, and the Company's financial goals.

Compensation Policies and Objectives

The Committee believes that compensation for executive officers should be determined according to a competitive framework, taking into account the financial performance of the Company, individual contributions and the external market in which the Company competes for executive talent. In determining the compensation of the Company's executive officers, the Committee seeks to achieve the following objectives through a combination of fixed and variable compensation.

Pay Competitively

A total compensation package should be competitive. For executive officers, including the Company's Chief Executive Officer, the Committee considers the level of compensation paid to individuals in comparable executive positions in the Company's peer group and at other paper and packaging companies with which the Company competes in order to recruit and retain executive talent.

Pay for Performance

Our compensation practices are designed to create a direct link between the aggregate compensation paid to each executive officer and the financial performance of the Company. In order to accomplish this, the Committee considers the individual performance of each executive officer by reviewing, among other factors, the achievement of pre-established corporate and individual performance objectives as well as the recommendations of the Chief Executive Officer. The amount of each component of an executive officer's compensation is based in part on the Committee's assessment of that individual's performance as well as the other factors discussed in this section.

Executives as Stockholders

Our compensation practices are also designed to link a portion of each executive officer's compensation opportunity directly to the value of the Company's Common Stock through the use of stock-based awards.

Table of Contents

Elements of Compensation

To accomplish its compensation objectives and philosophy, the Committee relies on the following elements of compensation, each of which is discussed in more detail below:

Base salary;

Annual performance-based cash bonus awards;

Long-term incentive compensation (in the form of stock options, restricted stock and restricted stock units).

When approving the compensation of the Company's executive officers, the Committee reviews all of the elements of the Company's executive compensation program, including through the use of "tally sheets" showing each component and relevant accrued benefits.

Each component of executive compensation is designed for a specific purpose. For example, salaries are the main component of cash-based annual compensation. Salaries are set to compensate each executive based on that executive's employment and salary history, position within the Company and comparable competitive salaries at other companies. With regard to the more variable components of the compensation package, annual bonuses are tied to the Company's short-term objectives, while equity-based compensation is directed towards successful results over a longer period. The purpose of the combination of salary, annual bonus and equity awards is to provide the appropriate level of total annual cash compensation and long term incentives, combined with an appropriate performance-based component. The Committee places the greatest emphasis on performance-based compensation through annual cash bonus awards and long term equity-based awards, which together comprise the largest portion of executive officer compensation. The Committee believes that the Company's executive compensation package, consisting of these components, is comparable to the compensation provided in the market in which the Company competes for executive talent and is critical to accomplishing its recruitment and retention aims.

The Company does not have employment contracts with any Named Executive Officer. The Named Executive Officers do not have any severance arrangements.

Overview of Compensation Program and Process

Role of Committee

The Committee is responsible for reviewing and recommending to the Board of Directors the base salaries and annual performance-based cash bonus awards and long-term incentive compensation for the Company's executive officers. These responsibilities are not delegated to others. The Committee also approves and recommends to the Board of Directors employee compensation and benefit programs, as appropriate.

Role of Management

Management assists the Committee in fulfilling its responsibilities with respect to evaluating executive performance, proposing appropriate performance targets for the annual and long-term incentive plans and developing recommendations as to appropriate salary levels and award amounts.

Role of Consultants

The Committee retained Frederic W. Cook & Co., Inc. ("Cook") as its independent compensation consultant. Cook reported directly to the Committee, and the Committee may replace Cook or hire additional consultants at any time.

Table of Contents

Cook provided various executive compensation services to the Committee with respect to the Company's executive officers. The services Cook provided included advising the Committee on the principal aspects of the Company's executive compensation program, and providing market information and analysis regarding the competitiveness of the Company's program designs.

Role of Chief Executive Officer

For 2008, the Company's Chief Executive Officer, Mr. Stone, provided to the Committee his recommendations with respect to potential compensation of the other Named Executive Officers. The Committee reviewed and gave considerable weight to these recommendations because of Mr. Stone's direct knowledge of other executives' performance and contributions. With respect to those officers, the Committee ultimately used its collective judgment to determine the compensation levels, including base salary, annual performance-based cash bonuses and long-term equity award grants. Mr. Stone also provided to the Committee his recommendations for his own salary, annual performance bonus and equity award grant. In this regard, Mr. Stone recommended that his compensation levels be identical to those of the Company's President, Mr. Kaplan, due to the current and historical level of work and responsibilities shared by them. The Committee ultimately determined and approved Mr. Stone's compensation independently based on its collective judgment.

Continuing Process

While the Committee makes many of its compensation decisions during the first quarter of the year, the Committee continues to plan and review compensation matters throughout the year.

Benchmarking

The Committee reviews survey information of executive compensation, both with respect to target and actual compensation data available, payable by a designated peer group as well as the competitive median of total compensation of general industry groups. The purpose of this review is to ensure that the Company's total executive compensation levels, including base salaries, annual bonus and equity awards, remain reasonable, competitive and appropriate. The Committee considers executive compensation paid at the peer companies when setting executive compensation levels at the Company, but the Committee does not attempt to maintain a specified target percentile within this peer group to determine executive compensation. In light of the request by Mr. Stone that he and Mr. Kaplan receive the same level of compensation, the Committee compares the aggregate compensation for Messrs. Stone and Kaplan against the aggregate compensation for the chief executive officer and chief operating officer of the peer group companies.

The Committee annually selects the peer companies, which are generally in the paper and packaging industry, based on a number of factors, such as:

revenues;

market capitalization; and

the nature of their business.

In February 2008, the Committee, with the advice of Cook, selected the following peer companies: AEP Industries; AptarGroup; Buckeye Technologies, BWAY Holding; Caravstar Industries; Chesapeake; Constar International; Deltic Timber; Glutfelter; Impreso; Mercer International; Myers Industries; Neenah Paper; Packaging Corporation of America; Pope & Talbot; PVC Container; Schweitzer-Mauduit International; VFP Technologies; Vikase; and Wausau Papers (collectively, the "Peer Group"). The Committee expects to reevaluate from time to time the composition of the designated peer group as the Company executes its strategy of organic and strategic growth.

Table of Contents

Components of Executive Compensation

The following provides an analysis of each element of compensation, what each is designed to reward and why the Committee chose to include it as an element of the Company's executive compensation.

Base Salary

Base salaries are reviewed annually in the context of the Committee's consideration of the effect of base compensation on recruiting and retaining executive talent. Accordingly, the Committee considers the executive compensation of the Peer Group. In establishing each executive officer's base salary, the Committee considers several factors, including individual job performance, salary history, competitive external market conditions for recruiting and retaining executive talent, the scope of the executive's position and level of experience and changes in responsibilities.

As a result of the current economic conditions, the Company has implemented a number of temporary changes to its compensation structure. Effective February 1, 2009, the salaries of Mr. Stone and Mr. Kaplan have been reduced 15%, from \$420,000 to \$357,000. Mr. Keneally's salary has been reduced 7.5%, from \$305,000 to \$282,125, and Ms. Tarbox's salary has been reduced 5%, from \$275,000 to \$261,250. The Company's Compensation Committee has approved the temporary reductions in the base salaries of the Named Executive Officers.

Annual Performance-Based Cash Bonus Awards

The Committee ties a significant portion of each Named Executive Officer's total potential compensation to Company performance and individual performance. In setting financial and operating performance targets, which are established early in the year, the Committee considers the Company's strategic and operating plans. The Committee also considers the budget for the next year and, after consultation with management, sets specific incentive targets that are directly linked to the Company's financial performance.

In March, 2008, the Committee set the 2008 annual bonus targets for the Named Executive Officers. Bonus potentials for Named Executive Officers were set at percentages of their base salaries deemed appropriate for their current positions. The bonus potential for each of Mr. Stone and Mr. Kaplan for 2008 was set at up to 130% of his base salary (or \$546,000). The bonus potential for each of Mr. Keneally and Ms. Tarbox was set at up to 90% of his or her base salary (\$274,500 and \$247,500, respectively).

The objective of the annual performance-based cash bonus element of compensation is to align the interest of the Named Executive Officers with the Company's financial goals for the year and also to encourage and reward the achievement of individual goals. To achieve this, the Committee established the following measures to determine bonus payouts for 2008: for each of Mr. Stone and Mr. Kaplan, bonus was weighted 100% on the achievement of the Company's EBITDA goals; and for each of Mr. Keneally and Ms. Tarbox, bonus was based on both EBITDA performance and on individual performance goals. Mr. Keneally's targets include the EBITDA, working capital, freight cost, sales and safety initiatives of business units; and Ms. Tarbox's targets relate to infrastructure development, regulatory and reporting functions, risk management, human resources and strategic support.

Table of Contents

With respect to the Company's EBITDA goals for 2008, the Committee established the following target payout levels:

	2008 Target Payout Levels(1)		
	30%	50%	100%
EBITDA	\$42,000,000	\$56,000,000	\$73,000,000

(1) Based upon performance of kraft paper business excluding the Charleston kraft division acquisition.

EBITDA is defined as earnings excluding interest, income taxes, depreciation and amortization, extraordinary items and the cumulative effect of accounting changes. This non-GAAP EBITDA measure used is the same measure management uses internally to manage and to evaluate the business of the Company. The Committee believed that, based on the Company's budget, it would be difficult for executives to achieve payouts towards the high end of the EBITDA target payout levels. Nevertheless, in order to motivate the Named Executive Officers to significantly exceed budgeted performance, the Company provided an opportunity for them to share in the potential superior performance if it met these higher goals.

For purposes of the annual incentive plan, EBITDA for 2008 was calculated at \$ 52.5 million. Based on the foregoing, each of the Named Executive Officers was entitled to receive a payout of 45% of his or her potential bonus that was tied to achievement of the Company's EBITDA. However, at the request of Mr. Stone and Mr. Kaplan, the Committee did not award a bonus to either gentleman. Although Mr. Stone and Mr. Kaplan were satisfied with the Company's performance during 2008, each believed that the Company's operating and financial performance could have been better in 2008. The Committee accepted the request of Mr. Stone and Mr. Kaplan even though the Committee believed that a bonus payout was appropriate in light of the Company's financial performance.

The Committee, after consultation with Mr. Stone, determined that Mr. Keneally was entitled to receive 80% and Ms. Tarbox was entitled to receive 92.5% of such executive's bonus potential tied to individual performance. However, due to cost containment measures suggested by Mr. Stone and adopted by the Committee, Mr. Keneally and Ms. Tarbox each received 70% of his/her bonus potential tied to individual performance.

Long-Term Incentive Compensation

The Committee determines the awards of long-term compensation through equity incentives (in the form of stock options, restricted stock and restricted stock units) granted to executive officers as well as other eligible employees. The Committee believes that including an equity component in executive compensation closely aligns the interests of the executives and the Company's stockholders and rewards executives in line with stockholder gains. The practice of the Committee has been to consider annual equity grants to key employees, including the Named Executive Officers, at its regularly scheduled meeting in April. Option grants at other times depend upon circumstances, including, but not limited to, promotions or new hires.

Equity awards are made under the 2006 Incentive Plan, which provides for the grant of non-qualified stock options, incentive stock options, restricted stock, restricted stock units and other stock-based awards. The Committee determined that it would be advisable to consider the award of restricted stock in combination with stock options in appropriate cases. This determination reflected the desire to maintain a strong long-term equity component in executive compensation, to reduce the number of equity units required to provide such component and to adjust compensation practices appropriately in light of Statement of Financial Accounting Standards No. 123R ("SFAS 123R"), which requires companies to recognize the compensation cost related to "share-based payment transactions,"

like stock options, in their financial statements. To date, only non-qualified stock options, restricted stock units and restricted stock have been granted under the 2006 Incentive Plan.

Equity grants made during 2008 to executive officers and senior management, including the Named Executive Officers, were determined by the Committee based upon the compensation objectives of the Committee, as discussed above, and informed by the evolving nature of executive compensation practices. In determining the size of the equity grants for the Named Executive Officers, the Committee made an evaluation of a number of factors, including: competitive market practices; the level of responsibility of the individual; the individual's job performance and ability to influence corporate results; and the cost to the Company under SFAS 123R and the related effect of equity grants on earnings per share dilution. During 2008, shares of restricted stock were awarded in a ratio of one share of restricted stock for each approximately three stock options awarded. This reflects the relationship between the value of restricted stock, which is based on the market value of the underlying Common Stock, and the SFAS 123R value of stock options (which is generally two or three to one), as well as the intent of delivering approximately the same economic value through the restricted stock component of the award as the stock option component.

Stock options produce value for executives and employees only if the Common Stock price increases over the exercise price, which is set at the market price of the Common Stock on the date of grant, calculated as the closing price on the date of grant. Also, through vesting and forfeiture provisions, stock options create incentives for executive officers and senior management to remain with the Company. Stock options granted in 2008 to executive officers and senior management, including the Named Executive Officers, vest 50% on the second anniversary of the grant date and the remaining 50% on the third anniversary of the grant date.

The restricted stock received by the Named Executive Officers and other members of senior management vest 100% on the third anniversary of the grant date.

The specific grants to the Named Executive Officers are set forth below in the "Grants of Plan-Based Awards" table, and information regarding the equity awards held by the Named Executive Officers as of the end of 2008 is set forth below in the "Outstanding Equity Awards at December 31, 2008" table.

On April 10, 2008, the Committee granted the following equity awards under the 2006 Incentive Plan to the Named Executive Officers:

Executive Officers	Stock Options	Restricted Stock Units
Roger W. Stone	167,671	53,217
Matthew Kaplan	167,671	53,217
Timothy P. Keneally	60,548	19,217
Andrea K. Tarbox	60,548	19,217

Each of the stock options has an exercise price of \$6.90 per share (the closing stock price on the date of grant), has a ten year term and vests 50% on the second anniversary of the grant date and the remaining 50% at the third anniversary of the grant date. Each restricted stock unit vests 100% on the third anniversary of the grant date.

Severance and Change-in-Control Benefits

The Company does not agree in advance to provide post-termination or change-in-control benefits to executive officers in the event that they terminate employment with the Company. The Company reserves the right to provide severance benefits to executives when they terminate employment with the Company. None of the Named Executive Officers has an employment agreement that provides for termination, severance or change-in-control benefits.

Table of Contents

The Company does have change-in-control provisions in the 2006 Incentive Plan. The 2006 Incentive Plan provides the Committee with the discretion to adjust equity awards in the event of a change-in-control. This adjustment may include the acceleration and vesting of awards upon a change-in-control.

The Performance Incentive Plan provides that if a participant is terminated by the Company following a change-in-control but prior to the payment of an annual incentive award for a performance period thereunder, the participant will be entitled to such award only if the applicable performance goals are achieved, such award to be prorated for the actual number of months worked in the year.

The Committee believes that the provisions provided under both the 2006 Incentive Plan and the Performance Incentive Plan are appropriate since an employee's position could be adversely affected by a change in control even if he or she is not terminated.

Personal Benefits

The Company provides only a very limited amount of perquisites to its Named Executive Officers. These perquisites are not considered to be a central part of the Company's compensation program for its Named Executive Officers.

Pension Benefits or Supplemental Retirement Benefits

The Company provides pension or retirement benefits to the Named Executive Officers consisting of the 401(k) plan with company matching contributions and retirement savings account contributions. Pursuant to the 401(k) plan, the Company makes a matching contribution equal to 100% of the first 4% of pay contributed to the plan plus 50% of the next 2% of pay contributed. At the end of each 401(k) plan year, the Company makes an additional retirement savings account contribution based upon the age of the respective Named Executive Officer at the end of the plan year. The Committee does not believe that pension or other supplemental retirement benefits other than the 401(k) plan are necessary to further the objectives of the Company's executive compensation program.

2009 Compensation

In addition to the reduction in the base salary of the Named Executive Officers, the Company has temporarily suspended its 401(k) match, retirement savings program and annual cash bonus awards.

Regulatory Considerations

Section 162(m) of the Internal Revenue Code generally denies a publicly traded company a Federal income tax deduction for compensation in excess of \$1 million paid to certain of its executive officers, unless the amount of such excess is payable based solely upon the attainment of objective performance criteria. The Company has undertaken to qualify substantial components of the incentive compensation it makes available to its executive officers for the performance exception to non-deductibility. Most equity-based awards available for grant under the Company's equity compensation plans, and all of the equity-based awards actually granted to executive officers, are intended to so qualify. Amounts payable under the Performance Incentive Plan, is also intended to be exempt from the application of Section 162(m) as performance-based compensation. However, in appropriate circumstances, the Committee may deem it appropriate to pay compensation or make incentive or retentive awards that do not meet the performance based criteria and therefore may not be deductible by reason of Section 162(m).

Stock Ownership Guidelines

In light of the significant ownership of Common Stock by its executive officers, the Company has not adopted a formal stock ownership guideline. However, the Company's executive officers are encouraged to maintain a significant ownership interest in the Company in order to align their interests with the interests of the stockholders.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

As discussed in the Compensation Discussion and Analysis, the Company generally does not agree in advance to provide post-termination or change-in-control benefit to its executive officers in the event that they terminate employment with us. None of the Company's Named Executive Officers has an agreement of any sort that provides for termination, severance or change-in-control benefits.

As also discussed in the Compensation Discussion and Analysis, the Committee has the authority to cause all equity awards made under the 2006 Incentive Plan to vest upon a change-in-control.

NOMINATING AND GOVERNANCE COMMITTEE

Who are the nominees for election at the 2009 Annual Meeting of Stockholders?

The Nominating and Governance Committee recommended James Doughan, Jonathan R. Furer and Roger W. Stone to be nominated by the Board of Directors for election to Class C of the Board of Directors at the Annual Meeting of Stockholders.

In selecting non-incumbent candidates and reviewing the qualifications of incumbent candidates for the Board of Directors, the Nominating and Governance Committee considers the Company's corporate governance principles, which include the following:

Directors should possess the highest personal and professional ethics, integrity and values, and be committed to representing the long-term interests of the stockholders. They must also have an inquisitive and objective perspective, practical wisdom and mature judgment. They must be actively engaged in the pursuit of information relevant to the Company's business and must constructively engage their fellow Board members, the CEO, and other members of management in dialogue and decision making. The Board of Directors will represent diverse experience at policy-making levels in business and technology in areas that are relevant to the Company's activities.

Directors must be willing to devote sufficient time to carrying out their duties and responsibilities effectively, and should be committed to serve on the Board of Directors for an extended period of time. Directors should offer their resignation in the event of any significant change in their personal circumstances, including a change in their principal job responsibilities.

At least a majority of the directors will be independent directors as defined in the NASD rules for companies listed on the NASDAQ. Directors who do not meet the NASD Manual's independence standards also make valuable contributions to the Board of Directors and to the Company through their experience and wisdom.

In general, to be considered independent under the NASD Manual rules, the Board must determine, among other things, that a director does not have any relationships that, in the Board's opinion, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board will make an affirmative finding with respect to the independence of directors not less frequently than annually. The Board has determined that other than Mr. Stone, the Company's Chief Executive Officer, and Mr. Kaplan, the Company's President and Secretary, each of the current members of the Board, including each of the nominees for Class C director, other than Mr. Stone, is an independent director.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

The Board recognizes that Related Person Transactions (as defined below) can present potential or actual conflicts of interest and create the appearance that Company decisions are based on considerations other than the best interests of the Company and its stockholders. In March 2008, the Board delegated authority to the Nominating and Governance Committee to review and approve Related Person Transactions, and the Committee has adopted the written procedures set forth below for the review, approval, or ratification of Related Person Transactions. A "Related Person Transaction" is any transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness), or any series of similar transactions, arrangements or relationships, in which (a) the aggregate amount involved will or may be expected to exceed \$120,000 in any fiscal year, (b) the Company is or was a participant, and (c) any Related Person has or will have a direct or indirect interest (other than solely as a result of being a director or trustee (or any similar position) or a less than 10 percent beneficial owner of another entity). A "Related Person" is any (a) person who is an executive officer, director or nominee for election as a director of the Company, (b) greater than 5 percent beneficial owner of the Company's outstanding Common Stock, or (c) Immediate Family Member of any of the foregoing. An "Immediate Family Member" is any child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law or sister-in-law and any person (other than a tenant or employee) sharing the household of a person. The Committee reviews all of the relevant facts and circumstances of all Related Person Transactions that require the Committee's approval and either approves or disapproves of the entry into the Related Person Transaction. In determining whether to approve or ratify a Related Person Transaction, the Committee will take into account, among other factors it deems appropriate, whether the Related Person Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the Related Person's interest in the transaction.

From time to time, the Company retains the services of White Oak Aviation, LLC, an aviation services company owned by Messrs. Stone and Kaplan, for the use of an airplane to transport the Company's executive officers and directors, as well as consultants and advisors retained by the Company traveling with them, on business matters. During the year ended December 31, 2008, the Company paid White Oak Aviation an aggregate of approximately \$272,324. White Oak Aviation, LLC, invoices the Company using hourly rates and fuel charges and associated costs that are equal to or less than the market prices that it charges its third party customers. These payments were not designed to be, nor did they amount to, compensation to Messrs. Stone and Kaplan.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's executive officers, directors and persons who beneficially own more than 10% of the Company's Common Stock to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission ("SEC"). SEC regulations require these individuals to give the Company copies of all Section 16(a) forms they file.

Based solely on its review of forms that were furnished to the Company and written representations from reporting persons, The Company believes that the executive officers, directors and more than 10% stockholders complied with all filing requirements related to Section 16(a) during 2008.

CODE OF ETHICS

The Company adopted a Code of Conduct and Ethics applicable to all directors, executive officers and employees of the Company including its Chief Executive Officer and Chief Financial Officer. The Code of Conduct and Ethics addresses, among other things, the items included in the definition of "code of ethics" included in Item 406 of the SEC's Regulation S-K. The Code of Conduct and Ethics is included on the Company's Web site at the following address: <http://www.kapstonepaper.com>.

PROPOSAL 2

Ratification of Appointment of Independent Registered Public Accountants

The Audit Committee of the Board of Directors has selected Ernst & Young LLP as the independent registered public accountants to audit the Company's consolidated financial statements for the fiscal year ended December 31, 2009. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting of Stockholders with the opportunity to make a statement if the representatives desire to do so, and are expected to be available to respond to appropriate questions.

Vote Required and Board of Directors Recommendation

The affirmative vote of the holders of a majority of the shares of Common Stock cast at the meeting is required for ratification of this selection. Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum. Neither abstentions nor broker non-votes will have any effect upon the outcome of voting with respect to the ratification of independent registered public accountants.

Although there is no requirement that Ernst & Young LLP's appointment be terminated if the ratification fails, the Audit Committee will consider the appointment of other independent registered public accounting firms if the stockholders choose not to ratify the appointment of Ernst & Young LLP. The Audit Committee may terminate the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm without the approval of the stockholders whenever the Audit Committee deems such termination appropriate.

Amounts paid by the Company to Ernst & Young LLP for all services rendered in 2008 and 2007 are disclosed elsewhere in the Proxy Statement.

The Board of Directors and the Audit Committee Recommend a Vote "For" The Appointment of Ernst & Young LLP as the Company's Independent Registered Public Accountants for the Fiscal Year Ending December 31, 2009.

ADDITIONAL INFORMATION

Our bylaws contain procedures governing how stockholders can propose other business to be considered at a stockholder meeting. The SEC has also adopted regulations (Rule 14a-8 under the Exchange Act) that govern the inclusion of stockholder proposals in the Company's annual proxy materials.

Notice Requirements. A stockholder must provide a brief description of the other business, along with the text of the proposal. The stockholder also must set forth the reasons for conducting such business at the meeting, and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made. Such notice must also contain information specified in the Company's bylaws as to the proposal of other business, information about the stockholder making the proposal and the beneficial owner, if any, on whose behalf the proposal is made, including name and address, class and number of shares owned, and representations regarding the intention to make such a proposal and to solicit proxies in support of it.

Notice Deadlines. Stockholder proposals for inclusion in the Company's proxy materials relating to its 2010 Annual Meeting must be received by December 22, 2009.

Alternatively, under the Company's bylaws, if a stockholder wants to submit a proposal for the 2010 Annual Meeting but does not want to include it in the Company's proxy materials, written notice of such stockholder proposal of other business must be delivered to the Company's Corporate Secretary not less than 90 nor more than 120 days prior to the first anniversary of the date on which the Company first mailed its proxy materials for the prior year's annual meeting. However, if the Company's annual meeting is advanced or delayed by more than 30 days from the anniversary of the previous year's meeting, a stockholder's written notice will be timely if it is delivered not more than 120 days prior to such annual meeting and not later than the later of the 90th day prior to such annual meeting or the 10th day following the announcement of the date of the meeting.

For next year's 2010 Annual Meeting for stockholder proposals not proposed to be included in the Company's proxy materials, our bylaws therefore require that such stockholder proposals must be delivered between December 22, 2009 and January 21, 2010, unless the Company's 2010 Annual Meeting takes place before April 21, 2010, or after June 20, 2010, in which case stockholder proposals must be delivered not more than 120 days prior to such annual meeting and not later than the later of 90 days before the date of the 2010 Annual Meeting or the 10th day following the announcement of the date of the 2010 Annual Meeting.

If stockholders do not comply with these bylaw notice deadlines, the Company reserves the right not to submit the stockholder proposals to a vote at its annual meetings. If the Company is not notified of a stockholder proposal by January 21, 2010, then the management personnel who have been appointed as proxies may have the discretion to vote for or against such stockholder proposal, even though such proposal is not discussed in the proxy statement.

Where to Send Notice. Stockholder proposals must be addressed to the Company at its principal executive offices at 1101 Skokie Boulevard, Suite 300, Northbrook, IL 60062, Attn: Corporate Secretary.

At a special meeting of stockholders, only such business shall be conducted as shall have been brought before the meeting pursuant to the Company's notice of meeting.

Stockholders should carefully review the Company's bylaws and Rule 14a-8 under the Exchange Act to ensure that they have satisfied all of the requirements necessary either to propose other business at a stockholder meeting or to request the inclusion of a stockholder proposal in the Company's annual proxy materials.
