THE COMPANY'S DIRECTOR NOMINATION PROCESS

The Board's process for identifying and evaluating nominees for director consists mainly of evaluating candidates who are recommended by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee identifies and recommends nominees for election or reelection to the Board, or for appointment to fill any vacancy that is anticipated or has arisen on the Board, in accordance with the criteria, policies and principles set forth in the Nominating and Corporate Governance Committee Charter and the Company's Corporate Governance Principles, as set forth below, or otherwise approved by the Board. In evaluating candidates to determine if they are qualified to become members of our board of directors, the Nominating and Corporate Governance Committee looks for the following attributes, among others: the candidate's judgment, skill, diversity and experience with other organizations of comparable purpose, complexity and size; the interplay of the candidate's experience with the experience of other Board members; whether or not the candidate has any relationships that might impair his or her independence; and the candidate's experience, perspective, skills and knowledge of our industry. In addition, qualities sought in directors include high ethical standards, sound integrity, an inquisitive nature, a strong commitment to make decisions and take actions guarding the long term interests of shareholders, seasoned judgment, a record of outstanding skills and accomplishments in their personal careers, and the ability and desire to communicate and participate actively in board and committee sessions. Although the Nominating and Corporate Governance Committee uses these and other criteria to evaluate potential nominees, there are no stated minimum criteria for nominees.

The Board may also, on a periodic basis, solicit ideas for possible candidates from a number of sources, including current members of the Board, senior Company executives, individuals personally known to members of the Board, stockholders and one or more third-party search firms.

The Nominating and Corporate Governance Committee's policy is that stockholder nominations of director candidates will be given the same consideration and evaluated with the same criteria as any other candidate. For more information on stockholder nominations of director candidates, please see the section titled Information about the Proxy Statement and Voting at the Annual Meeting in the Proxy Statement filed by the Company on April 30, 2009. The form and delivery requirements of such stockholder nominations must comply with the relevant provisions of the Company's Bylaws, a copy of which may be obtained by sending an email to the Company's investor relations department at investorrelations@utstar.com. A complete copy of the Bylaws is also available on the Company's website in the "Corporate Governance" section.

STOCKHOLDER COMMUNICATIONS WITH THE BOARD OF DIRECTORS

The Board of Directors has established a process for stockholders to communicate with members of the Board. All concerns, questions or complaints regarding the Company's compliance with any policy or law, or any other Board-related communication, should be directed to the Board via the link entitled "Email Board of Directors" at <http://investorrelations.utstar.com/governance.cfm>. All substantive and appropriate communications received from stockholders will be received and reviewed by one or more independent directors, or officers acting under their direction, who will forward such communications to the Board or particular Board committees, as appropriate.

BOARD ATTENDANCE, DIRECTOR INDEPENDENCE AND FINANCIAL SOPHISTICATION

The Board held a total of 24 meetings during the year ended December 31, 2009. During 2009, each of the directors attended 75% or more of the aggregate number of meetings of the Board and the committees of the Board on which the director served subsequent to becoming a director or a member of such committee. The Board's policy is to encourage directors to attend the Annual Meeting. Three (3) directors attended the 2009 annual meeting of stockholders.

Of the Company's current directors, Messrs. Clarke, Lenzmeier, Ryan and Toy have been determined by the Board to be independent as set forth in Rule 5605(a)(2) of the NASDAQ Marketplace Rules, the listing standards of NASDAQ Stock Market, as currently in effect. In addition, the Board has also determined that Messrs. Clarke, Lenzmeier and Ryan possess the attributes to be considered financially sophisticated for purposes of applicable NASDAQ Marketplace Rules and each has the background to be considered an "audit committee financial expert" as defined by the rules and regulations of the SEC and required by the NASDAQ Marketplace Rules.

Of the proposed new directors, Messrs. Du, Li, and Wong have been determined by the Board to be independent as set forth in Rule 5605(a)(2) of the NASDAQ Marketplace Rules, the listing standards of NASDAQ Stock Market, as currently in effect. In addition, the Board has also determined that Messrs. Wong and Li possess the attributes to be considered financially sophisticated for purposes of applicable NASDAQ Marketplace Rules.

The Board has not established categorical standards or guidelines to make director independence determinations, but considers all relevant facts and circumstances. The Board based its determinations primarily on a review of the responses of the directors to questions regarding employment and compensation history, affiliations, family and other relationships, and on discussions with our directors.

In making its independence determinations, the Board considered transactions between the Company and entities associated with the directors or members of their immediate family. All identified transactions that appear to relate to the Company and a person or entity with a known connection to a director are presented to the Board for consideration. In making its determination that each non-employee director is independent, the Board considered the transactions in the context of the NASDAQ standards, the standards established by the SEC for members of audit committees, and the SEC and Internal Revenue Service standards for compensation committee members.

The Board's independence determinations included a review of the status of certain executive officers as limited partners of an investment fund managed by Mr. Toy. In each case, the Board determined that, because of the nature of each of these relationships and/or amounts involved, the relationships did not impair Mr. Toy's independence.

The Board's independence determinations also included a review of the payments made by the Company to Yellowstone Investment Advisory Limited ("Yellowstone"), of which Mr. Wong is a managing director, pursuant to a consulting agreement by and between the Company and Yellowstone. The Board determined that the payments did not impair Mr. Wong's independence.

The Board's independence determinations also included a review of the transactions between the Company and BEIID, of which Mr. Li is the executive deputy general manager and also between the Company and the Management Committee of Beijing Economic and Technology Development Zone, an affiliate of BEIID (for the relocation of the Company's headquarters to China). The Board determined that the transactions did not impair Mr. Li's independence.

BOARD LEADERSHIP STRUCTURE

Our Board is led by a non-executive, independent Chairman who has never been an employee of the Company. Thomas Toy became our non-executive Chairman in August 2009 when Mr. Lu, our then Executive Chairman stepped down. As Chairman, Mr. Toy performs many important duties on behalf of the Board, including reviewing and approving the Board agenda and presiding at all Board meetings, including the meetings of the independent directors, and executive sessions, acting as the principal contact for the CEO and other members of the Board and the management. The Board decided to elect a non-executive Chairman and separate the positions of CEO and Chairman of the Board because it believes that this structure is appropriate given the attention, time, effort and energy that our CEO is required to dedicate to his position in the current business environment and the high level of commitment required of the Chairman of the Board.

BOARD COMMITTEES AND RELATED FUNCTIONS

The principal standing committees of the Board are the Audit Committee, the Nominating and Corporate Governance Committee, and the Compensation Committee. Each of the committees consists solely of non-employee, independent directors. From time to time, the Board may form a special committee or subcommittee of a standing committee to focus on specific matters.

Audit Committee

The Audit Committee of the Board is a separately-designated, standing committee of the Board of Directors and currently consists of three members of the Board of Directors, all of whom: (1) meet the criteria for "independence" set forth in Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended, and the listing standards of the NASDAQ Stock Market; (2) have not participated in the preparation of the financial statements of the Company or any of its current subsidiaries at any time during the past three years; and (3) are able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement. The members of the Audit Committee are Mr. Ryan, who chairs the committee, and Messrs. Lenzmeier and Toy. Mr. Ryan was appointed as a member of the Audit Committee effective April 25, 2008. The Audit Committee held 13 meetings during 2009. Messrs. Lenzmeier and Ryan have been determined by the Board to qualify as "audit committee financial experts" under applicable SEC and NASDAQ rules.

The Audit Committee, among other duties and responsibilities, (i) reviews and approves the annual appointment of the Company's independent registered public accounting firm, (ii) discusses and reviews in advance the scope and fees of the annual audit, (iii) reviews the results of the audit with the independent registered public accounting firm and discusses the foregoing with the Company's management, (iv) reviews and approves non-audit services of the independent registered public accounting firm, (v) reviews compliance with the Company's existing major accounting and financial reporting policies, (vi) reviews and approves all related-party transactions that would require disclosure pursuant to the rules of the SEC and the policies and procedures related to such transactions, and (vii) provides oversight and monitoring of the Company's management and their activities with respect to the Company's financial reporting process. In connection with the execution of the responsibilities of the Audit Committee, including the review of the Company's quarterly earnings reports prior to public release, Audit Committee members communicated throughout 2009 with the Company's management and the independent registered public accounting firm.

The Board has approved an Audit Committee Charter which is reviewed at least annually, periodically revised (most recently on July 26, 2007), and is available on the Company's website at <http://investorrelations.utstar.com/governance.cfm>.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee currently consists of three members of the Board of Directors, all of whom are "independent" in accordance with the rules of the NASDAQ Stock Market. The current members of the Committee are Mr. Clarke, who chairs the committee, and Messrs. Ryan and Toy. Mr. Ryan was appointed as a member of the Committee effective February 18, 2009. The Nominating and Corporate Governance Committee held 10 meetings during 2009.

The Nominating and Corporate Governance Committee's responsibilities include the selection of director nominees for the Board and the development and annual review of the Company's governance principles. The Nominating and Corporate Governance Committee also (i) assists the Board by actively identifying individuals qualified to become Board members, (ii) recommends director nominees to the Board for election at the next annual meeting of stockholders, (iii) recommends chairs and members of each committee to the Board, (iv) monitors significant developments in the law and practice of corporate governance and of the duties and responsibilities of directors of public companies, (v) leads the Board in its annual performance self-evaluation, including establishing criteria to be used in connection with such evaluation, (vi) reviews Board compensation and recommends to the Board any changes in Board compensation, (vii) oversees compliance with the Company's Code of Business Conduct and Ethics, and (viii) develops and recommends to the Board and administers the corporate governance guidelines of the Company.

The Nominating and Corporate Governance Committee is also responsible for reviewing with the Board, from time to time, the appropriate skills and characteristics required of Board members in the context of the current composition of the Board. This assessment includes issues of diversity in numerous areas, including independence, operational experience as a senior executive, business judgment, age, understanding of the industry, willingness to mentor, personal network, and international perspective. Additional criteria include a candidate's personal and professional credibility, integrity and prestige, and his or her ability to blend with the Company's Board dynamics, as well as his or her willingness to devote sufficient time to attend meetings of the Board. The Nominating and Corporate Governance Committee reviews these factors and others deemed useful in the context of an assessment of the perceived needs of the Board at a particular point in time. As a result, the priorities and emphasis of the Nominating and Corporate Governance Committee and of the Board may change from time to time to take into account changes in business and other trends, in addition to the portfolio of skills and experience of current and prospective directors.

The Board has adopted a charter of the Nominating and Corporate Governance Committee, addressing the nominations process and such related matters as may be required under federal securities laws and NASDAQ Marketplace Rules. A copy of the Nominating and Corporate Governance Committee Charter, which is reviewed at least annually and is periodically revised (most recently on February 18, 2009), is available on the Company's website at <http://investorrelations.utstar.com/governance.cfm>.

Compensation Committee

The Compensation Committee currently consists of three members of the Board of Directors, Mr. Lenzmeier, who chairs the committee, and Messrs. Clarke and Toy, all of whom are non-employee, outside directors in addition to being "independent directors" as defined under the rules of the NASDAQ Stock Market. The Compensation Committee met 11 times during 2009.

The purpose of the Compensation Committee is to (i) approve and oversee the total compensation package for the Company's executives, including their base salaries, incentives, deferred compensation, equity-based compensation, benefits and perquisites, (ii) review and approve corporate goals and objectives relevant to the compensation of the Company's Chief Executive Officer (the "CEO"), evaluate CEO performance, and determine CEO compensation based on this evaluation, (iii) review

the CEO's performance evaluation of all executive officers and approve pay decisions, and (iv) review periodically and make recommendations to the Board regarding any equity or long-term compensation plans, and administer these plans.

The Compensation Committee operates according to a charter that details its specific duties and responsibilities. The charter is reviewed at least annually, periodically revised (most recently on October 28, 2009) by the Compensation Committee, and is available on the Company's website at <http://investorrelations.utstar.com/governance.cfm>. The charter generally provides the membership requirements, authority and duties of the Compensation Committee. The Compensation Committee is to consist of no fewer than three members, all of whom (i) meet the independence requirements of the NASDAQ Marketplace Rules, (ii) are "non-employee directors" under the definition of Rule 16b-3 promulgated under Section 16 of the Exchange Act, and (iii) are "outside directors" for purposes of the regulations promulgated under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). During 2009, all members of the Compensation Committee met these criteria.

Our Human Resources department supports the Compensation Committee in its work. The Compensation Committee also has the authority to engage the services of outside advisors, experts and others for assistance. From time to time, the Compensation Committee may direct an external advisor to work with the Human Resources department to support management and the Compensation Committee in matters such as (i) peer group development, (ii) executive officer benchmarking, including pay-for-performance analyses and tally sheet preparation, and (iii) advising on pay levels and/or pay program design. In May 2007, the Compensation Committee retained Compensia, Inc. as its independent outside compensation consultant. For a further description of the role of the compensation consultant in our compensation process, please see the section entitled "Engagement of and Role of Independent Compensation Consultant" in the Compensation Discussion and Analysis contained in this Information Statement.

All members of the Compensation Committee during 2009 were independent directors in accordance with the applicable independence requirements of the NASDAQ Marketplace Rules, and none were employees or officers or former employees of the Company.

BOARD OVERSIGHT OF RISK MANAGEMENT

Our Board oversees our business in general, including risk management and performance of the CEO and other members of senior management, to assure that the long-term interests of the shareholders are being served. Each committee of our Board is also responsible for reviewing the risk exposure related to such committee's areas of responsibility and providing input to senior management on such risks.

Management and our Board have a process throughout the Company to identify, analyze, manage and report all significant risks facing us. Our CEO and other members of senior management regularly report to the Board on significant risks facing us, including legal, financial, operational and strategic risks. The Audit Committee reviews with senior management significant risks related to the Company and periodically reports to the Board on such risks.

DIRECTOR COMPENSATION FOR 2009

Directors who are our employees receive no additional compensation for serving on the Board of Directors. In 2009, our non-employee directors received both cash and equity compensation as described below. In addition, we reimburse all directors for travel and other related expenses incurred in connection with our business, including attending stockholder meetings and meetings of the Board or any Board committee.

Equity Compensation

Approximately two-thirds of the compensation paid to our non-employee directors is comprised of equity: one-third of the aggregate value in stock options, and one-third of the aggregate value in restricted stock. Each stock option has an exercise price of \$2.09 per share, equal to the closing price of the Company's Common Stock on the NASDAQ Stock Market on September 30, 2009, the date of grant. The options and restricted stock vest in equal, monthly installments over a 12-month period beginning on September 30, 2009. The grants were made pursuant to the Company's 2006 Equity Incentive Plan (the "2006 Plan") and are subject to the standard terms and conditions of the forms of restricted stock award and stock option agreements previously approved for use with the 2006 Plan and filed with the SEC.

Edgar Filing: UTSTARCOM INC - Form SC 14F1

Each newly-elected or appointed non-employee director is eligible to receive an option award under the 2006 Plan to purchase 80,000 shares of Common Stock which would vest in equal installments of 25% per year on each of the four anniversaries of the date of grant. Any such grant would be made in accordance with the Company's Equity Award Grant Policy and Procedures more fully described in the Compensation Discussion and Analysis under the section entitled "Other Compensation Policies" contained in this Information Statement.

For further discussion with respect to change of control arrangements applicable to outstanding equity awards, please see the section entitled "Change of Control Provisions in the Company's Equity Compensation Plans" contained in this Information Statement.

Indemnification Agreement

All of our directors are currently party to indemnification agreements with the Company. The form of indemnification agreement is filed as Exhibit 10.1 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

POLICIES WITH RESPECT TO REVIEW, APPROVAL OR RATIFICATION OF TRANSACTIONS WITH RELATED PERSONS

Our Audit Committee is responsible for review, approval or ratification of "related-person transactions" between us or our subsidiaries and related persons. Under SEC rules, a related person is a director, officer, nominee for director, or 5% stockholder of UTStarcom since the beginning of the last fiscal year, and his or her immediate family members. We have adopted written policies and procedures that apply to any transaction or series of related transactions in which our company or a subsidiary is a participant, the amount involved exceeds \$120,000 and a related person has a direct or indirect material interest. Pursuant to our policy, the following transactions will not be deemed to be related person transactions that require Audit Committee approval:

Employment of executive officers. Any employment by us of an executive officer of our Company if: (a) the related compensation is required to be reported in our proxy statement under SEC compensation disclosure rules; or (b) the executive officer is not an immediate family member of another executive officer or director of our company, and the related compensation would have been reported in our proxy statement under SEC compensation disclosure rules if the executive officer was a "Named Executive Officer," and the Compensation Committee approved (or recommended that the Board of Directors approve) such compensation.

Director compensation. Any compensation paid to a director if the compensation is required to be reported in our proxy statement under SEC compensation disclosure rules.

Certain transactions with other companies. Any transaction with another company at which a related person's only relationship is as an employee (other than an executive officer), director or beneficial owner of less than 10% of that company's shares, if the aggregate amount involved does not exceed the greater of \$1,000,000 or two percent of that company's total annual revenues.

Transactions where all shareholders receive proportional benefits. Any transaction where the related person's interest arises solely from the ownership of a class of our equity securities and all

Edgar Filing: UTSTARCOM INC - Form SC 14F1

holders of that class of our equity securities received the same benefit on a *pro rata* basis (e.g., dividends).

Transactions involving competitive bids. Any transaction involving a related person where the rates or charges involved are determined by competitive bids.

Regulated transactions. Any transaction with a related person involving the rendering of services as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or governmental authority.

Certain banking-related services. Any transaction with a related person involving services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture or similar services.

Other transactions. Any other transaction where disclosure of such transaction would not be required pursuant to Item 404 of Regulation S-K, as may be amended from time to time.

CERTAIN RELATIONSHIPS AND RELATED-PERSON TRANSACTIONS

During 2009, we were party to the following related party transactions under the relevant standards:

Yellowstone

On September 7, 2009, we entered into a consulting agreement with Yellowstone Investment Advisory Limited ("Yellowstone"). Mr. William Wong, one of the proposed directors, is a managing director of Yellowstone. Pursuant to the consulting agreement, Yellowstone acted as a strategic consultant assisting with the relocation of our headquarters to China and introducing executive officer and directors candidates to us. We also agreed to reimburse Yellowstone's reasonable expenses incurred in connection with the services. During 2009, we paid approximately \$60,000 for consulting services provided by Yellowstone. During the first quarter of 2010, we paid approximately \$315,000 for consulting services provided by Yellowstone.

The audit committee did not review and approve the consulting arrangement with Yellowstone because at the time the consulting agreement was entered into, Mr. Wong was not expected to become a director and therefore the transaction was not subject to review by the audit committee. The consulting agreement and the relationship between the Company and Yellowstone was reviewed by the Board in determining Mr. Wong's independence.

Shah Capital

On February 1, 2010, we entered into a Common Stock Purchase Agreement with Shah Capital Opportunity Fund LP, an affiliate of Shah Capital Management, one of our stockholders holding 5% of more of our common stock, and a certain other party, pursuant to which we will issue and sell 5,000,000 shares of our common stock to Shah Capital Opportunity Fund LP for a purchase price of \$2.20 per share. The transaction is part of the private placement transaction described in more detail in the section of this Information Statement above entitled "General."

Softbank Corp.

Softbank Corp. is an affiliate of Softbank America, Inc., one of our stockholders holding 10% or more of our common stock. During 2009, we recognized aggregate revenue of \$28 million (includes \$5 million in sales to NEC Networks & System Integration Corp., Japan Electronic Computer Co. Ltd., Nippon Telecom Sales KK and Oki Electric Industry Co., Ltd. for which Softbank Corp. was the ultimate customer) with respect to sales to affiliates of Softbank Corp., including (i) sales of telecommunications equipment to Softbank BB, (ii) sales of equipment and services to Softbank Telecom Co., Ltd, a wholly owned subsidiary of Softbank Corp. and (iii) sales of equipment to BB Cable, an affiliate of Softbank Corp.

Edgar Filing: UTSTARCOM INC - Form SC 14F1

The audit committee has reviewed and approved the transaction with Shah Capital and Softbank Corp. described above.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis provides information about the material components of our executive compensation program for:

Peter Blackmore, our President and Chief Executive Officer (the "CEO");

Kenneth Luk, our Senior Vice President and Chief Financial Officer (the "CFO");

Viraj Patel, our former Interim Chief Financial Officer, Vice President, Corporate Controller, and Chief Accounting Officer;

Susan Marsch, our former Senior Vice President, General Counsel, Secretary, and Chief Ethics Officer;

Hong Liang Lu, our former Executive Chairman (the "Chairman"); and

Mark Green, our former Senior Vice President, Worldwide Human Resources and Real Estate.

We refer to these executive officers collectively as the "Named Executive Officers."

Effective December 16, 2009, Mr. Luk was named as our Senior Vice President and Chief Financial Officer, replacing Mr. Patel, who was serving as our Interim Chief Financial Officer, Vice President, Corporate Controller, and Chief Accounting Officer. Mr. Patel left his position as our Vice President, Corporate Controller, and Chief Accounting Officer effective February 26, 2010 in connection with our previously-announced plans to relocate certain corporate functions to China.

On February 1, 2010, we announced that Mr. Blackmore will retire as our President and Chief Executive Officer on the later to occur of (i) the date three months after the Closing as disclosed in our current report on Form 8-K filed on February 4, 2010 or (ii) June 30, 2010.

This Compensation Discussion and Analysis provides an overview of our executive compensation philosophy, the overall objectives of our executive compensation program, and each compensation component that we provide. In addition, we explain how and why the Compensation Committee of the Board of Directors (the "Compensation Committee") arrived at specific compensation policies and decisions involving our executive officers during 2009.

Executive Compensation Philosophy

Compensation Objectives

Our executive compensation program is designed to achieve three primary objectives:

be competitive with the market to attract, retain, and motivate the caliber of talent required to drive shareholder value;

create a high-performance culture by linking rewards to performance; and

apply reward practices in a fair and consistent manner.

Compensation-Setting Process

Role of Compensation Committee

The Compensation Committee determines the form and amount of compensation for our executive officers, including the Named Executive Officers.

Edgar Filing: UTSTARCOM INC - Form SC 14F1

The Compensation Committee is responsible for:

approving and overseeing the total compensation package for our executive officers, including their base salaries, annual cash incentive awards, equity awards, perquisites, and other benefits;

reviewing and approving the corporate goals and objectives relevant to the compensation of our CEO, evaluating his performance, and determining his compensation based on this evaluation;

reviewing our CEO's performance evaluation of our executive officers and approving compensation decisions for them; and

reviewing periodically and making recommendations to the Board of Directors regarding any equity or long-term compensation plans, and administering these plans.

In addition, before he stepped down, the Compensation Committee also reviewed and approved the corporate goals and objectives relevant to the compensation of our Executive Chairman, evaluated his performance, and determined his compensation based on that evaluation.

The Compensation Committee operates pursuant to a charter <http://investorrelations.utstar.com/governance.cfm> that describes its specific duties and responsibilities. For additional information with respect to the Compensation Committee, see "Compensation Committee" in this Information Statement.

Typically, the Compensation Committee holds at least four scheduled meetings during the year and holds additional meetings periodically to review and discuss executive compensation matters. In the first quarter of each year, typically in February, the Compensation Committee:

considers adjustments to the base salaries of our executive officers;

decides whether to pay bonuses to our executive officers for the prior year's performance and, if so, the amount of any such bonuses;

reviews and approves annual equity awards for our executive officers in accordance with our Equity Award Grant Policy (as defined below); and

reviews the level of perquisites and other benefits provided to each executive officer.

As part of its annual compensation review, the Compensation Committee also evaluates (i) our corporate financial performance, (ii) the individual performance of each executive officer, and (iii) data about the market practices for executive compensation for positions comparable to those of each of our executive officers. In addition, our CEO reviews and discusses with the Compensation Committee the performance and contributions of each executive officer (other than for himself). Before he stepped down, our Executive Chairman reviewed and discussed with the Compensation Committee the performance and contributions of our CEO. Although the Compensation Committee may discuss the performance and compensation package of our CEO with him, it meets in executive session to determine his compensation.

Role of Management

Our CEO plays a significant role in the compensation setting process. Generally, he attends and participates in all Compensation Committee meetings (except executive sessions of the Compensation Committee or discussions involving his own compensation). The key aspects of our CEO's role include:

evaluating executive officer and other employee performance;

Edgar Filing: UTSTARCOM INC - Form SC 14F1

assisting in the establishment of corporate performance goals and objectives, and the related target levels; and

recommending base salary levels and equity awards for our executive officers (other than for himself).

Edgar Filing: UTSTARCOM INC - Form SC 14F1

The Compensation Committee considers, but is not bound to and does not always accept, our CEO's recommendations with respect to the compensation of our executive officers. While the Compensation Committee seeks input primarily from our CEO, it also consults with other executive officers, including our Chairman and our senior human resources personnel, to obtain recommendations with respect to our compensation programs, practices, and packages for executive officers and other employees. The Compensation Committee also has the opportunity, upon request, to meet with each executive officer to discuss his or her individual performance for the prior year. Other than participating in an annual evaluation process with our CEO and these discussions with the Compensation Committee, the other Named Executive Officers do not play a role in their own compensation determinations.

Our Human Resources Department supports the Compensation Committee in its work by providing compensation data as requested.

Role of Compensation Consultant

The Compensation Committee has engaged Compensia, Inc., a national compensation consulting firm ("Compensia"), to advise it on executive and equity compensation matters. Compensia reports directly to the Compensation Committee, and it has sole authority to hire, fire, and direct the firm's work. In 2009, Compensia performed no other work for us, other than its work for the Compensation Committee.

In 2009, Compensia assisted the Compensation Committee in updating the compensation peer group, developed compensation "tally sheets" for each Named Executive Officer, conducted a market pay assessment for each executive officer, and provided input on equity compensation and market trends. A representative from Compensia attends meetings of the Compensation Committee upon request.

The "tally sheets" prepared by Compensia provided a comprehensive summary of each Named Executive Officer's compensation, including:

an estimate of projected compensation for 2009, including total target cash compensation and the total estimated value of equity awards, to be received by each Named Executive Officer;

a summary of the intrinsic value of all outstanding vested and unvested equity awards held by each Named Executive Officer at current stock prices; and

the potential payments and benefits in the event of an involuntary termination of employment or upon a change of control of the Company.

These "tally sheets" provided the Compensation Committee with context for the decisions they made concerning total direct compensation and individual compensation elements. Although they did not necessarily drive decision-making with regard to the specific elements of our executive compensation program, the "tally sheets" enabled the Compensation Committee to assess total direct compensation and the relationship of various compensation elements to each other. These "tally sheets" also provided context to the Compensation Committee's views on a variety of issues, such as changes to severance plans and employment agreements, special equity awards to promote retention, or changes in long-term variable equity incentives.

Competitive Positioning of Executive Compensation

We used a group of peer companies to assess the competitiveness of the compensation practices for our executive officers in 2009. This peer group, the data for which was obtained from publicly-available sources, was used to establish the competitive market for our CEO and CFO positions (the "Peer Group"). Because of the difficulty in identifying comparable positions at these peer companies for our other executive officer positions, we also reviewed the data with respect to

technology companies reflected in the annual Radford High Technology Executive Survey (the "Radford Survey") to develop a sense of the competitive market for these positions. The Compensation Committee compared its compensation decisions against its perspective of market practice as reflected by the Peer Group and the Radford Survey data when determining the compensation of our CEO and CFO and against the Radford Survey data when determining the compensation of our other executive officers.

For 2009, the Compensation Committee established the Peer Group to consist of the following 15 companies, which were selected on the basis of being in related businesses and having comparable revenues (between \$320 million and \$1.7 billion) and a comparable market capitalization (between \$60 million and \$660 million) to us:

ADAC Telecommunications	Harmonic, Inc.
Agilysis	Harris Stratex Networks
Avocent	Powerwave Technologies
Black Box Network Services	RF Micro Devices
Ciena	Silicon Storage Technology
CTS	Sonus Networks
Emulex, Inc.	ViaSat, Inc.
Extreme Networks, Inc.	

Compensation of Named Executive Officers

We use three primary pay elements to support our compensation objectives:

base salary;

an annual cash incentive award; and

equity awards.

Collectively, these pay elements constitute the total direct compensation opportunity of our executive officers. In conducting its annual compensation review for 2009, the Compensation Committee was provided with an analysis of the compensation practices of the Peer Group and the technology companies reflected in the Radford Survey data. The Compensation Committee used this analysis to compare the total direct compensation opportunities of our executive officers against the competitive market for executive talent (which the Compensation Committee believed was between approximately the median and the 75th percentile of the Peer Group). The Compensation Committee determined that, to attract and retain qualified executive officers to manage our business in the current environment, it would be necessary to offer total direct compensation opportunities at levels that were consistent with the competitive market.

The Compensation Committee set the target total direct compensation opportunities for our executive officers relative to the competitive market as reflected in the Peer Group for comparable positions. Ultimately, and consistent with our "pay-for-performance" philosophy, the actual compensation earned by our executives officers is based on actual corporate and individual performance. This result is enhanced by the Compensation Committee's decision to weight the majority of our executive officers' total direct compensation towards variable, or "at-risk," pay elements, which are designed to provide our executive officers with above-market total compensation only to the extent that our corporate and individual performance objectives have been achieved or exceeded.

Notwithstanding our "pay-for-performance" philosophy, our continuing lack of profitability has increased the Compensation Committee's concern about our ability to attract and retain qualified executive officers to lead our return to profitability. As a result, the Compensation Committee also

took into consideration recruiting and retention concerns in setting executive compensation levels in 2009.

Base Salary

Base salary is the primary fixed compensation in our executive compensation program and is used to attract, motivate, and retain highly qualified executive officers. An individual's initial base salary is determined by his or her levels of expertise, experience and responsibility, as well as the competitive market as reflected in the Peer Group. Annual base salary increases, if any, are a reflection of the executive officer's performance for the preceding year, anticipated future contributions, and pay level relative to similar positions in the Peer Group (as it may be revised from time to time). We also take into consideration internal equity with respect to the entire executive team.

In February 2009, after consideration of corporate and individual performance, as well as a review of competitive market practices for executive compensation within the Peer Group, the Compensation Committee determined that it would make no adjustments to the base salaries for any of our executive officers, including the Named Executive Officers, for 2009.

In March 2009, our CEO and our Executive Chairman agreed to voluntary and temporary base salary reductions of 20% for a one-year period. Notwithstanding this base salary reduction, each Named Executive Officer's base salary, as in effect immediately prior to this reduction, was deemed and continued to be his base salary for all other purposes under our benefit and personnel plans, programs, and policies, including, without limitation, bonuses, equity awards, severance payments, change in control payments, and any other benefits.

Annual Cash Incentive Awards ("Bonus")

Consistent with our "pay-for-performance" philosophy, we offer annual cash incentive awards to our executive officers, including the Named Executive Officers, based on their performance against one or more pre-established corporate and individual performance objectives.

Target Award Opportunities

During 2009, each of our executive officers, including the Named Executive Officers (with the exception of Mr. Luk) was eligible to earn an annual cash incentive award equal to a specific percentage of his or her base salary. These amounts, which were unchanged from 2008 levels, were as follows:

Named Executive Officer	Target Annual Cash Incentive Award Opportunity (as a percentage of base salary)
Peter Blackmore	100%
Kenneth Luk	*
Viraj Patel	50%
Susan Marsch	50%
Hong Liang Lu	100%
Mark Green	65%

*

Mr. Luk's target annual cash incentive award opportunity was established when he joined us in December 2009. Accordingly, he was not eligible to earn an annual cash incentive award in 2009.

Corporate Performance Objectives

In April 2009, the Compensation Committee, based on the recommendations of our CEO, established and approved the corporate performance objectives for the first half of 2009 for the annual cash incentive awards. These corporate performance objectives involved achieving a specified improvement in operating income (adjusted for certain one-time costs) as well as bookings and collections targets for the first two fiscal quarters of 2009. The Compensation Committee believed that encouraging our executive officers to focus their efforts on these objectives would enable us to attain the financial performance reflected in our operating plan for the first half of 2009. The Compensation Committee further believed that the attainment of the target levels established for each of these corporate performance metrics were realistic but not easily achieved, and, therefore, would drive the achievement of our short-term financial goals.

The corporate performance objectives for first half of 2009 as approved by the Compensation Committee were as follows:

Corporate Performance Metric	Threshold (75%) Performance (in millions)	Target (100%) Performance (in millions)	Maximum (125%) Performance (in millions)	Weighting
Operating Income	*	\$ (82.8)	\$ (62.1)	1/3
Bookings	\$ 260.55	\$ 347.4	\$ 434.5	1/3
Collections	\$ 244.875	\$ 326.5	\$ 408.125	1/3

*

The Compensation Committee determined that there would be no payout with respect to any of the corporate performance objectives if the target performance level for the operating income performance objective was not achieved.

In the case of the corporate performance objectives, if target performance for a metric was achieved, 100% of the target award payout opportunity applicable to that metric was payable. If threshold performance was not achieved, none of the target award payout opportunity applicable to that metric was payable. If threshold performance for that metric was achieved, 75% of the target award payout opportunity applicable to that metric was payable. If maximum performance for that metric was achieved or exceeded, 125% of the target award payout opportunity applicable to that metric was payable. For performance between the specified threshold, target, and maximum levels, an interpolated multiplier was used to calculate the amount payable with respect to each metric.

In October 2009, the Compensation Committee, based on the recommendations of our CEO, established and approved the corporate performance objectives for the second half of 2009 for the annual cash incentive awards. These corporate performance objectives were similar to the objectives established for the first half of 2009, as we worked to improve our overall financial performance for the year. The Compensation Committee believed that the attainment of the target levels established for each of these corporate performance metrics were realistic but not easily achieved, and, therefore, would drive the achievement of our short-term financial goals.

The corporate performance objectives for second half of 2009 as approved by the Compensation Committee were as follows:

Corporate Performance Metric	Threshold (75%) Performance (in millions)	Target (100%) Performance (in millions)	Maximum (125%) Performance (in millions)	Weighting
Operating Income	\$ (48.75)	\$ (39)	\$ (29.25)	1/3
Bookings	\$ 167.25	\$ 223	\$ 278.75	1/3
Collections	\$ 156	\$ 208	\$ 260	1/3

Edgar Filing: UTSTARCOM INC - Form SC 14F1

In the case of the corporate performance objectives, if target performance for a metric was achieved, 100% of the target award payout opportunity applicable to that metric was payable. If threshold performance was not achieved, none of the target award payout opportunity applicable to that metric was payable. If threshold performance for that metric was achieved, 75% of the target award payout opportunity applicable to that metric was payable. If maximum performance for that metric was achieved or exceeded, 125% of the target award payout opportunity applicable to that metric was payable. For performance between the specified threshold, target, and maximum levels, an interpolated multiplier was used to calculate the amount payable with respect to each metric.

Even if the target corporate performance objectives were achieved in full, the Compensation Committee reserved the right, in its sole discretion, to decrease the award payout applicable to that metric. Similarly, the Compensation Committee retained the right, in its sole discretion, to make award payouts for any corporate performance metric or metrics in the event that significant and unanticipated external events prevented us from meeting one or more pre-established corporate performance objectives.

Individual Performance Objectives

The individual performance objectives for our executive officers, with the exception of our Executive Chairman, were jointly developed by each executive officer and our CEO. These individual performance objectives varied from individual to individual, depending on his or her role and responsibilities. Typically, these individual performance objectives included, for example, quantitative and qualitative goals for corporate acquisitions and divestitures, compliance, technology innovations, customer relations, improving market position, and cost management. These individual performance objectives were then reviewed and approved by the Compensation Committee.

As with the corporate performance objectives, award payouts could range from 0% to 125% of target performance levels, depending on the degree to which each individual performance objective was met.

Award Weightings

For our CEO, 50% of his target annual cash incentive award opportunity was to be based on the corporate performance objectives described above and 50% was to be based on the completion of several strategic/operational initiatives (including a successful strategy review with the Board of Directors, successful execution of identified divestitures, compliance, benchmarking costs for business functions, and setting the ethics tone for the organization).

For our Executive Chairman, 50% of his target annual cash incentive award opportunity was to be based on the corporate performance objectives described above; and 50% was to be based on the completion of several strategic/operational initiatives (including a successful strategy review with the Board of Directors, successful execution of identified divestitures, identifying new business opportunities and setting the ethics tone for the organization).

For Ms. Marsch, 50% of her target annual cash incentive award opportunity was to be based on the corporate performance objectives described above and departmental expense results and 50% was to be based on the completion of several strategic/operational initiatives (including expanding awareness and compliance with code of conduct and ethics, reducing costs, aligning our intellectual property portfolio, and setting the ethics tone for the organization).

For Mr. Patel, 55% of his target annual cash incentive award opportunity was to be based on the corporate performance objectives described above and departmental expense results and 45% was to be based on the completion of several strategic/operational initiatives (including timely filings, compliance, and benchmarking departmental costs).

Edgar Filing: UTSTARCOM INC - Form SC 14F1

For Mr. Green, 50% of his target annual cash incentive award opportunity was to be based on the corporate performance objectives described above and department expense results and 50% was to be based on the completion of several strategic/operational initiatives (including leadership development, strategic staffing, supporting organizational evolution and restructuring, and setting the ethics tone for the organization).

Award Decisions

After the end of the year, each executive officer's performance against his or her individual performance objectives was assessed by our CEO. Our CEO then made recommendations to the Compensation Committee as to the payout for this individual performance component for each executive officer (other than for himself). While the Compensation Committee considered these recommendations in making award payouts, it determined the payouts for each executive officer based on its own evaluation of his or her performance, and its consideration of various subjective factors, such as its consideration of our "pay-for-performance" philosophy as well as recruiting and retention concerns.

Based on these considerations, the Compensation Committee determined the following annual cash incentive awards for the Named Executive Officers:

Named Executive Officer	Annual Cash Incentive Award
Peter Blackmore	\$ 529,600
Kenneth Luk	*
Viraj Patel	\$ 90,668
Susan Marsch	**
Hong Liang Lu	**
Mark Green	**

*

Mr. Luk's target annual cash incentive award opportunity was established when he joined us in December 2009. Accordingly, he was not eligible to earn an annual cash incentive award in 2009.

**

Messrs. Lu and Green and Ms. Marsch left the company prior to the end of 2009. Accordingly, the Compensation Committee did not award them an annual cash incentive award for 2009.

Equity Awards

Equity compensation is a significant component of our executive compensation program. We believe this is an effective way to align the interests of our executive officers with those of our stockholders to increase long-term stockholder value. In designing our equity program, we take into account stockholder concerns about share usage and dilution. The Compensation Committee limits annual net issuances of stock-based awards, subject to extraordinary events (for example, acquisitions). The Compensation Committee adjusts this target rate each year based on performance and retention objectives, taking into account market practices.

In February 2009, the Compensation Committee granted our executive officers, including the Named Executive Officers, restricted stock unit awards, in the amounts set forth below. While some of these awards are subject to service-based vesting (as noted below), the majority of the awards are subject to performance-based vesting requirements. Generally, the performance criteria for these equity awards are the same as the criteria discussed above for the 2009 annual cash incentive awards. The actual number of shares to be earned by each executive officer with respect to his or her performance-based

RSU award was to be determined by the Compensation Committee at the end of 2009, based on each executive officer's actual performance as measured against these performance criteria.

Named Executive Officer	Award Type	Number of Shares (Service-Based)*	Target Number of Shares (Performance-Based)**
Peter Blackmore	RSU	112,364	
	RSU		224,727
Hong Liang Lu	RSU	88,061	
	RSU		176,121
Viraj Patel	RSU	18,646	
	RSU		37,293
Susan Marsch	RSU	33,333	
	RSU		66,667
Mark Green	RSU	60,889	
	RSU		121,778

*

The service-based RSU awards vest over four years as follows: 25% on each of February 26, 2010, February 28, 2011, February 29, 2012, and February 28, 2013, subject to the Named Executive Officer remaining a service provider through each such date.

**

The performance-based RSU awards, if earned, vest as follows: 50% of the earned amount will vest on each of February 26, 2010 and February 28, 2011, provided that the Named Executive Officer remains a service provider through each such date.

In making these equity awards, the Compensation Committee reviewed and approved Compensia's proposed adjustments to its analysis of the competitive market as reflected by the Peer Group to reflect both the lag in current market data on equity awards as a result of the global economic recession and the significant reduction in our revenues resulting from the divestiture of our Personal Communications Division and other non-core businesses over the preceding 12 months. To account for these factors, the market value of the equity awards reported by the Peer Group was reduced by an amount equal to the median stock price decline (57%) of the Peer Group.

In February 2010, the Compensation Committee determined the actual number of shares earned by the Named Executive Officers identified below from their restricted stock unit awards granted in February 2009 based on an evaluation of their performance against the pre-established objectives for the year, as follows:

Named Executive Officer	Target Number of Shares Covered by RSU Granted in February 2009	Actual Number of Shares Earned From RSU as determined in February 2010	Shares Earned as a Percentage of Target Shares Granted
Peter Blackmore	224,727	148,769	66.2%
Viraj Patel	37,293	37,293	100%

In determining the number of shares earned by Mr. Patel, the Compensation Committee recognized his performance in various transition activities, including his work following his originally targeted employment termination date at the end of 2009. Pursuant to our severance arrangements with

Mr. Patel, all of his outstanding equity awards fully vested and became exercisable upon his termination of employment effective February 26, 2010.

Employment of Mr. Luk

On December 16, 2009, Mr. Luk was named our Senior Vice President and Chief Financial Officer. The terms and conditions of his employment were set forth in a written offer letter. The negotiation of the terms of his employment was undertaken by our CEO, reviewed and recommended for approval by the Compensation Committee, and approved by the Board of Directors. For a summary of the material terms and conditions of his severance arrangements, see "Employment Contracts and Severance Agreements with Named Executive Officers" in this Information Statement.

In filling this position, the Compensation Committee was aware that it would be necessary to recruit a candidate from outside our company with the requisite experience and skills. In addition, the Compensation Committee recognized that a competitive compensation package would have to contain a financial inducement sufficient to motivate the candidate to accept an employment offer over any competing offers and to relocate to our offices to Hangzhou, China, and, at the same time, reflect the customary elements of compensation packages for executives in China. These factors influenced the development of a compensation package that, in the aggregate, was at the 50% percentile of the market range, even though individual compensation elements were either above or below the median. At the same time, the Compensation Committee was sensitive to the need to integrate a new senior executive into the executive compensation structure that it was seeking to develop, balancing both competitive and internal equity considerations.

In retaining Mr. Luk, the Compensation Committee recommended, and the Board of Directors approved, that he receive (the US dollar amount provided in the parenthesis are for references only and the conversion rate used is the middle rate of 6.8282 RMB *yuan* per US dollar as of the end of day on December 31, 2009 as published by the Bank of China):

an initial annual base salary of RMB 2,500,000 (approximately \$366,129);

a signing bonus of RMB 340,800 (approximately \$49,911);

an annual cash incentive award opportunity equal to 50% of his annual base salary, based upon the achievement of corporate and individual performance goals (for 2010, a minimum of 80% of his annual cash incentive award opportunity is guaranteed);

a restricted stock award of 300,000 shares, with a three-year vesting schedule, subject to his continuing to provide services to us through each applicable vesting date;

financial planning services reimbursement of up to RMB 34,100 (approximately \$4,994) per year; and

certain expatriation benefits, including an apartment in Hangzhou, China with monthly rental not exceeding RMB 20,450 (approximately \$2,995) per month, relocation assistance of up to RMB 102,250 (approximately \$14,975), one round-trip airfare per quarter to Hong Kong, tax equalization payments of RMB 22,720 (approximately \$3,327), and automobile and driver assistance.

In addition, Mr. Luk is eligible for coverage under our medical, dental, and vision plans for expatriate employees and to participate in the Executive Involuntary Termination Severance Pay Plan.

Perquisites and Other Benefits

We provide medical and other benefits to our executive officers that are generally available to other full-time employees, including disability and group term life insurance, expatriate remuneration

for employees who are assigned overseas and who qualify under the terms of our expatriate remuneration plan, tuition reimbursement, and a Section 401(k) plan.

We also provide the Named Executive Officers and certain other executive officers with certain perquisites and other personal benefits, including financial planning services, tax assistance payments in connection with our tax equalization policy whereby we provide qualified employees with tax assistance to mitigate the tax differential arising from an employee's international work assignment, business travel accident insurance, a housing allowance, car/transportation allowances, and a relocation allowance for certain executive officers who have been asked to relocate to conduct business on our behalf, and disability insurance. The Compensation Committee believes that such perquisites and personal benefits are necessary to successfully compete for executive talent, particularly in China where they are often a customary part of executive compensation packages.

The Compensation Committee reviews the perquisites and other benefits provided to our executive officers as part of its overall review of executive compensation. The Compensation Committee has determined the type and amount paid in perquisites to be within the appropriate range of competitive compensation practices. For information about the perquisites and other personal benefits provided to the Named Executive Officers in 2009, see "Summary Compensation Table" of this Information Statement.

Section 401(k) Plan

We have established a tax-qualified Section 401(k) retirement savings plan for our employees, including the Named Executive Officers, who satisfy certain eligibility requirements. Under this plan, participants may elect to make pre-tax contributions of up to 100% of their current compensation, not to exceed the applicable statutory income tax limitation, which was \$16,500 in 2009. We intend for the plan to qualify under Section 401(a) of the Internal Revenue Code so that contributions by participants to the plan, and income earned on plan contributions, are not taxable to participants until withdrawn from the plan.

In February 2009, the Compensation Committee determined that, in view of the global economic recession and our projected operating performance, it was in the best interests of our stockholders to suspend employer matching contributions on behalf of eligible participants in our Section 401(k) plan. This decision took effect March 1, 2009.

Employee Stock Purchase Plan

In February 2009, the Compensation Committee determined that, in view of the global economic recession and our projected operating performance, it was in the best interests of our stockholders to suspend the operation of our Employee Stock Purchase Plan (the "ESPP"). Consequently, the ESPP offering periods then in effect terminated on May 14, 2009. The ESPP remained suspended during the remainder of 2009.

Post-Employment Compensation

We have change in control and involuntary termination severance agreements in place with certain of the Named Executive Officers and an Executive Involuntary Termination Severance Pay Plan for the other Named Executive Officers. For a summary of the material terms of these arrangements, see "Employment Contracts and Severance Agreements with Named Executive Officers" of this Information Statement.

The Compensation Committee believes that these arrangements are in the best interests of our stockholders. As with any public company, the possibility of a corporate transaction involving a change in control exists for us. Such a change in control typically means a degree of ambiguity for executives

about the continuity of their employment. The Compensation Committee believes these arrangements help to ensure that our executive officers will remain focused on, and committed to, the interests of the business throughout the process of exploring and/or executing a transaction that may result in a change in control.

Other Compensation Policies

Equity Grant Policy

The Compensation Committee has adopted the UTStarcom, Inc. Equity Award Grant Policy and Procedures (the "Equity Award Grant Policy"). Under the Equity Award Grant Policy, equity awards for our executive officers are considered and approved as follows:

all equity awards for our executive officers are to be approved by the Compensation Committee;

the Compensation Committee will use its best efforts to approve equity awards at a duly-called meeting, and awards will be made by unanimous written consent only if meetings are unable to be held;

the date of grant of any equity award will be the last trading day in the month in which the Compensation Committee approves the award; and

for purposes of equity awards that are to be granted at the fair market value of our common stock, "fair market value" will be the closing sales price per share of our common stock on the date of grant.

Typically, meetings of the Compensation Committee to consider the approval of annual focal equity awards to our executive officers are held during the last two weeks of February of each year. In addition, meetings of the Compensation Committee may be held at any time to consider the approval of equity awards for new executive officers (including new executive officers resulting from either new hires or promotions), but these equity awards will be effective as of the last trading day in the month in which the Compensation Committee approved the award.

Burn Rate Policy

The Board of Directors has adopted a burn rate policy committing us to limit the number of shares of our common stock that we may use for equity compensation during fiscal years 2008, 2009 and 2010. For this three-year period, the policy limits the number of shares that we grant subject to equity awards to an average of 4.80% of our outstanding common stock. Thus, while we may exceed the 4.80% burn rate in a given year, the policy requires that our three-year average not exceed 4.80%. Awards that are settled in cash, awards issued under the ESPP, awards assumed in acquisitions, and any awards granted in connection with our stock option exchange program are excluded from this burn rate calculation. For purposes of this calculation, each share subject to a full value award (such as a restricted stock unit, performance share, performance unit, and any other award that does not have an exercise price per share equal to the per share fair market value of our common stock on the grant date) will be counted as 1.5 shares.

Stock Ownership Guidelines

We maintain stock ownership guidelines (the "Guidelines") for certain of our executive officers and our non-employee directors. Each executive officer and non-employee director is expected to acquire and hold the number of shares of our common stock specified below before the later of

(i) January 1, 2010 or (ii) four years after the date of an executive officer's appointment to such position or a non-employee director's appointment to the Board of Directors.

Position	Minimum Share Ownership Requirement
President and Chief Executive Officer	50,000
Executive Vice Presidents	25,000
Senior Vice Presidents/Division Presidents	10,000
Non-Employee Directors	10,000

We review compliance with the Guidelines annually. Failure to comply with the Guidelines may result in a reduction in future long-term incentive awards and/or payment of future annual and/or long-term incentive payouts made in the form of shares of our common stock. The Nominating and Corporate Governance Committee has the discretion to waive the Guidelines if compliance would create severe personal hardship for an executive officer or non-employee director or prevent an executive officer or non-employee director from complying with a court order. The Nominating and Governance Committee expects that such instances will be rare. All executive officers subject to the Guidelines currently satisfy the Guidelines.

Tax and Accounting Considerations

Section 162(m)

Section 162(m) of the Internal Revenue Code limits the ability of public companies to deduct compensation paid to certain senior executive officers in excess of \$1 million per year, but excludes from this limitation certain types of compensation, including "performance-based compensation," provided that certain requirements are met. The Compensation Committee takes compliance with Section 162(m) into account when making compensation decisions and retains the discretion to pay compensation that is not fully deductible. While stock options granted under our 1997 Stock Plan did not meet the requirements of Section 162(m), equity awards granted under our 2006 Plan, which was approved by our stockholders, are able to meet the requirements of the "performance-based compensation" exception of Section 162(m).

Section 409A

Section 409A of the Internal Revenue Code imposes significant additional taxes in the event that an executive officer, director, or other service provider receives "deferred compensation" that does not satisfy the restrictive conditions of the provision. Although we did not have a traditional nonqualified deferred compensation plan in place during 2009, Section 409A applies to certain equity awards and severance arrangements. Consequently, to assist our executive officers and other service providers in avoiding additional tax under Section 409A, we believe that we have structured our equity awards and severance arrangements in a manner intended to either avoid the application of Section 409A or, to the extent doing so is not possible, comply with the applicable Section 409A conditions.

Accounting for Stock-Based Compensation

We follow Financial Accounting Standards Board Accounting Standards Codification Topic No. 718 ("ASC Topic 718") for our stock-based compensation awards. ASC Topic 718 requires companies to calculate the grant date "fair value" of their stock-based awards using a variety of assumptions. This calculation is performed for accounting purposes and reported in the compensation tables below, even though recipients may never realize this amount from their awards. ASC Topic 718 also requires companies to recognize the compensation cost of their stock-based awards in their income statements over the period that an employee is required to render service in exchange for the award.

Employment Contracts and Severance Agreements with Named Executive Officers

Peter Blackmore. We entered into a Change of Control/Involuntary Termination Severance Agreement with Mr. Blackmore, effective July 2, 2007 (the "Blackmore Severance Agreement") which was subsequently amended and restated on January 30, 2008 to bring the agreement into compliance with Section 409A. It was amended again on December 17, 2008 for Section 409A compliance. The Blackmore Severance Agreement has a term of three (3) years from January 30, 2008. Following the expiration of the three (3)-year term, Mr. Blackmore and the Company may, but are not obligated to, enter into a new agreement. If Mr. Blackmore's employment continues following the expiration of the three (3)-year term and the Company and Mr. Blackmore do not enter into a new agreement, Mr. Blackmore's then current benefits arrangements shall continue in accordance with the terms of the Blackmore Severance Agreement until the parties agree otherwise.

The Blackmore Severance Agreement provides that if Mr. Blackmore's employment is terminated by the Company without cause or terminated by Mr. Blackmore for good reason at any time within eighteen (18) months after a change of control, he shall be entitled to the following severance benefits: (i) twenty-four (24) months of base salary as in effect as of the date of such termination, less applicable withholding, (ii) two hundred percent (200%) of his full annual performance target bonus and a monthly pro rated amount of his full annual performance bonus for the year in which the termination occurs, (iii) all equity awards, including without limitation stock option grants, restricted stock and stock purchase rights, granted to him by the Company prior to the change of control shall become fully vested, or, as applicable, released from the Company's repurchase right and exercisable as of the date of the termination to the extent such equity awards are outstanding and unexercisable or unreleased at the time of such termination, (iv) such equity awards shall be exercisable until the earliest of (a) twelve (12) months from his date of termination, (b) the latest date the equity award could have expired by its original terms under any circumstances, (c) the tenth (10th) anniversary of the original date of grant of the equity award, or (d) the date provided for under the equity plan under which the award was granted, (v) all Mr. Blackmore's outstanding restricted cash awards shall become fully vested, and (vi) an amount equal to twelve (12) months of health insurance premiums for continuation coverage under Consolidated Omnibus Budget Reconciliation Act of 1985, as amended ("COBRA") at the same level of health (i.e., medical, vision and dental) coverage and benefits as in effect for Mr. Blackmore on the day immediately preceding the day of his termination of employment.

A "change in control" is defined in Mr. Blackmore's agreement to generally include any of the following:

the approval by the stockholders of a merger, other than a merger which results in the company's securities outstanding immediately prior to the merger continuing to represent more than 50% of the surviving entity's securities;

the approval by the stockholders of a plan of complete liquidation or an agreement for sale or disposition of all or substantially all of the Company's assets;

a transaction as a result of which any person becomes the beneficial owner of securities of the Company representing at least 50% of the total voting power; or

a change in the composition of the Board as a result of which fewer than a majority of the directors are incumbent directors.

In addition, the Blackmore Severance Agreement provides that if Mr. Blackmore's employment is terminated by the Company without cause or terminated by Mr. Blackmore for good reason during the term of the Blackmore Severance Agreement apart from a change of control, he shall be entitled to the following severance benefits: (i) twelve (12) months of base salary as in effect as of the date of such termination, less applicable withholding, (ii) one hundred percent (100%) of his full annual performance target bonus for the year in which the termination occurs, (iii) all equity awards, including without limitation stock option grants, restricted stock and stock purchase rights, granted to him by the Company shall become fully vested, or, as applicable, released from the Company's repurchase right and exercisable as of the date of the termination to the extent such equity awards are outstanding and unexercisable or unreleased at the time of such termination, (iv) such equity awards shall be exercisable until the earliest of (a) twelve (12) months from his date of termination, (b) the latest date the equity award could have expired by its original terms under any circumstances, (c) the tenth (10th) anniversary of the original date of grant of the equity award, or (d) the date provided for under the equity plan under which the award was granted, (v) all Mr. Blackmore's outstanding restricted cash awards shall become fully vested, and (vi) an amount equal to twelve (12) months of health insurance premiums for continuation coverage under COBRA at the same level of health (i.e., medical, vision and dental) coverage and benefits as in effect for Mr. Blackmore on the day immediately preceding the day of his termination of employment.

Severance benefits payable under the terms of the Blackmore Severance Agreement are payable in a lump sum within thirty (30) days of the date of termination; provided, however, that if Mr. Blackmore is a "specified employee" ("Specified Employee") within the meaning of Section 409A at the time of his termination, then the severance and benefits payable to Mr. Blackmore pursuant to the Blackmore Severance Agreement (other than due to death), if any, and any other severance payments or separation benefits which may be considered deferred compensation separation benefits under Section 409A (together, the "Deferred Compensation Separation Benefits") and which are otherwise due to Mr. Blackmore on or within the six (6)-month period following Mr. Blackmore's termination will accrue during such six (6)-month period and will become payable in a lump sum on the date six (6) months and one (1) day following the date of his termination of employment or the date of his death, if earlier. All subsequent Deferred Compensation Separation Benefits, if any, will be payable in accordance with the payment schedule applicable to each payment or benefit. As a condition to receiving severance benefits as described above, Mr. Blackmore is required to sign a waiver and release of all claims arising out of his termination of employment and a nondisparagement agreement.

The terms "cause" and "good reason" are each defined in the Blackmore Severance Agreement.

Termination of Mr. Blackmore for "cause" generally requires:

an act of personal dishonesty taken in connection with his responsibilities as an employee which is intended to result in substantial personal enrichment;

conviction of a felony which the Board reasonably believes has had or will have a material detrimental effect on the company's reputation or business;

a willful act which constitutes misconduct and is injurious to the company; or

continued willful violations of his obligations to the company after there has been delivered to him a written demand for performance which describes the basis for the company's belief that he has not substantially performed his duties.

Edgar Filing: UTSTARCOM INC - Form SC 14F1

A termination by Mr. Blackmore for "good reason" would generally require:

a significant reduction in duties, position or responsibilities relative to his duties, position or responsibilities in effect immediately prior to such reduction, or the removal of him from such position, duties and responsibilities, unless he is provided with comparable duties, position and responsibilities; provided, however, that the sole occurrence of the Company being acquired and made part of a larger entity shall not constitute a "good reason;"

a reduction of base salary as in effect immediately prior to such reduction;

a material reduction in the kind or level of employee compensation or benefits immediately prior to such reduction with the result that the overall benefits package is significantly reduced;

the relocation to a facility or a location where such relocation increases the travel distance to work by more than thirty (30) miles from the commute prior to the relocation;

any purported termination by the company which is not effected for cause or for which the grounds relied upon are not valid; or

failure of the Company to obtain the assumption of the agreement by any successors to the company.

Hong Liang Lu. Hong Liang Lu stepped down as executive chairman of the board of directors on August 3, 2009 but he remained as a director on the board. In connection with his termination of employment with the Company, the Compensation Committee approved a package to Hong Liang Lu which included the severance payment of \$2,109,463.47 including the two years of base pay, 100% of 2009 target bonus and 12 months premium for COBRA.

During 2009 and prior to his termination of employment, Mr. Lu had the following agreements in place:

On November 30, 2007, we entered into an Amended and Restated Change of Control/Involuntary Termination Severance Agreement with Hong Liang Lu, the Company's then Chief Executive Officer (the "Lu Severance Agreement"), which was subsequently amended and restated on January 30, 2008 to bring the agreement into compliance with Section 409A. It was amended again on December 17, 2008 for Section 409A compliance. The Lu Severance Agreement, as amended and restated, amends Mr. Lu's previous Change of Control Severance Agreement with the Company dated January 17, 2003, as previously filed with the SEC. The Lu Severance Agreement has a term of three (3) years from January 30, 2008. Following the expiration of the three (3)-year term, Mr. Lu and the Company may, but are not obligated to, enter into a new agreement. If Mr. Lu's employment continues following the expiration of the three (3)-year term and the Company and Mr. Lu do not enter into a new agreement, Mr. Lu's then current benefits arrangements shall continue in accordance with the terms of the Lu Severance Agreement until the parties agree otherwise.

The Lu Severance Agreement provides that if Mr. Lu's employment with the Company is terminated by the Company without cause or terminated by Mr. Lu for good reason at any time within eighteen (18) months after a change of control, he shall be entitled to the following severance benefits: (i) twenty-four (24) months of base salary as in effect as of the date of such termination, (ii) two hundred percent (200%) of his full annual performance target bonus for the year in which termination occurs, less applicable withholding, (iii) all equity awards including, without limitation, option grants, restricted stock and stock purchase rights, granted to Mr. Lu prior to the change of control will become fully vested or released from the Company's repurchase right (if any shares of stock purchased by or granted to Mr. Lu prior to the change of control remain subject to that repurchase right) and exercisable as of the date of termination to the extent such equity awards are outstanding and unexercisable or unreleased at the time of such termination, (iv) such equity awards shall be exercisable until the earliest of (a) twelve (12) months from Mr. Lu's date of termination, (b) the latest date the

equity award could have expired by its original terms under any circumstances, (c) the tenth (10th) anniversary of the original date of grant of the equity award, or (d) the date provided for under the equity plan under which the award was granted, and (v) an amount equal to twelve (12) months of health insurance premiums for continuation coverage pursuant to the COBRA, at the same level of health (i.e., medical, vision and dental) coverage and benefits in effect for Mr. Lu on the day preceding the date of his termination of employment. The term "change in control" is defined in the Lu Severance Agreement and is substantially similar to the definition of change in control set forth in Mr. Blackmore's agreement and summarized above.

The Lu Severance Agreement also provides that if Mr. Lu's employment with the Company is terminated by the Company without cause or terminated by Mr. Lu for good reason during the term of the Lu Severance Agreement, apart from a change of control, he shall be entitled to the following severance benefits: (i) twenty-four (24) months of base salary as in effect as of the date of such termination, (ii) one hundred percent (100%) of his full annual performance target bonus for the year in which termination occurs, less applicable withholding, (iii) all equity awards, including without limitation option grants, restricted stock and stock purchase rights, granted to Mr. Lu will become fully vested or released from the Company's repurchase right (if any shares of stock purchased by or granted to Mr. Lu remain subject to such repurchase right) and exercisable to the extent such equity awards are outstanding and unexercisable or unreleased at the time of such termination, (iv) such equity awards shall be exercisable until the earliest of (a) twelve (12) months from his date of termination, (b) the latest date the equity award could have expired by its original terms under any circumstances, (c) the tenth (10th) anniversary of the original date of grant of the equity award, or (d) the date provided for under the equity plan under which the award was granted, and (v) an amount equal to twelve (12) months of health insurance premiums for continuation coverage pursuant to COBRA, at the same level of health (i.e., medical, vision and dental) coverage and benefits in effect for Mr. Lu on the day preceding the date of his termination of employment.

Severance benefits payable under the terms of the Lu Severance Agreement are payable in a lump sum within thirty (30) days of the date of termination; however, if Mr. Lu is a Specified Employee within the meaning of Section 409A at the time of his termination, then the severance and benefits payable to Mr. Lu pursuant to the Agreement (other than due to death), if any, and any other severance payments or separation benefits which may be considered Deferred Compensation Separation Benefits and which are otherwise due to Mr. Lu on or within the six (6) month period following Mr. Lu's termination will accrue during such six (6) month period and will become payable in a lump sum on the date six (6) months and one (1) day following the date of his termination of employment or the date of his death, if earlier. All subsequent Deferred Compensation Separation Benefits, if any, will be payable in accordance with the payment schedule applicable to each payment or benefit. As a condition to receiving severance benefits as described above, Mr. Lu is required to sign a waiver and release of all claims arising out of his termination of employment and a nondisparagement agreement. The terms "cause" and "good reason" are defined in the Lu Severance Agreement and are substantially similar to the definitions of cause and good reason set forth in Mr. Blackmore's agreement and summarized above.

Kenneth Luk. Effective June 20, 2006, the Compensation Committee of the Board of Directors adopted the Executive Involuntary Termination Severance Pay Plan which was subsequently amended and restated on December 17, 2008 to bring the plan into compliance with Section 409A (the "Executive Plan"). It was amended and restated again on February 26, 2009 to clarify the terms around modification or termination of the Executive Plan. The Executive Plan extends certain change of control and severance benefits to certain of the Company's executive officers, including Mr. Luk who does not have separate agreements with the Company. The Executive Plan is filed as Exhibit 10.30 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2008. The following description of the Executive Plan is qualified in its entirety by the actual language of the plan.

Edgar Filing: UTSTARCOM INC - Form SC 14F1

The purpose of the Executive Plan is to (a) assure that the Company will have continued dedication and objectivity of its employees, and (b) provide the Company's employees with an incentive to continue their employment and to motivate its employees to maximize the value of the Company for the benefit of its stockholders.

The Executive Plan provides that if the Company (or any parent or subsidiary of the Company) terminates the employment of an employee covered by the Executive Plan (a "Covered Employee") for other than cause, death or disability, or a Covered Employee terminates his or her employment with the Company for good reason, the Covered Employee shall receive the following severance benefits: (i) a lump sum cash payment equal to one (1) year of base pay plus one hundred percent (100%) of the Covered Employee's target bonus for the year of termination, (ii) an amount equal to twelve (12) months of the premiums for continuation coverage under COBRA of each Covered Employee (and any eligible dependents) under the Company's medical, dental and vision plans at the same level of coverage in effect on the date of termination, (iii) the Covered Employee shall fully vest in and, if applicable, have the right to exercise, all of his or her outstanding and unvested equity compensation awards, and (iv) all such equity awards (including awards that vest as a result of the Executive Plan) shall be exercisable until the earliest of (a) twelve (12) months from the Covered Employee's date of termination, (b) the latest date the equity award could have expired by its original terms under any circumstances, (c) the tenth (10th) anniversary of the original date of grant of the equity award, or (d) the date provided for under the equity plan under which the award was granted. The terms "cause" and "good reason" are defined in the Executive Plan and are substantially similar to the definitions of cause and good reason set forth in Mr. Blackmore's agreement and summarized above.

Severance benefits payable under the terms of the Executive Plan are payable in a lump sum within thirty (30) days of the date of termination; however, if the Covered Employee is a Specified Employee within the meaning of Section 409A at the time of such termination, then the severance and benefits payable to the Covered Employee pursuant to the Executive Plan (other than due to death), if any, and any other severance payments or separation benefits which may be considered Deferred Compensation Separation Benefits, which are otherwise due to the Covered Employee on or within the six (6) month period following the Covered Employee's termination will accrue during such six (6) month period and will become payable in a lump sum on the date six (6) months and one (1) day following the date of the Covered Employee's termination of employment or the date of the Covered Employee's death, if earlier. All subsequent Deferred Compensation Separation Benefits, if any, will be payable in accordance with the payment schedule applicable to each payment or benefit. As a condition to receiving benefits under the Executive Plan, the Covered Employee is required to sign and not revoke a waiver and release of all claims arising out of the Covered Employee's termination of employment and a nondisparagement agreement. The benefits provided under the Executive Plan are in lieu of any other severance or retention plan benefits available to the Covered Employee and shall be reduced by any severance paid to a Covered Employee under any other plan or arrangement.

Mark Green. Mr. Green's employment with the Company terminated effective December 1, 2009. In connection with Mr. Green's termination of employment and pursuant to his severance arrangement, the Company will pay \$622,488.47 including one year of base pay, 100% of 2009 target bonus and 12 months premium for COBRA in accordance with the terms of the Executive Plan.

Change of Control Provisions in the Company's Equity Compensation Plans

The 1997 Stock Plan. Our 1997 Plan provides that, in the event of our proposed dissolution or liquidation, the Board must notify each participant under the 1997 Plan as soon as practicable prior to the effective date of such proposed dissolution or liquidation. The Board has the discretion to allow the participant to exercise his or her option or stock purchase right until 15 days prior to the effective date of such dissolution or liquidation. In the event of our merger with or into another corporation, or the sale of substantially all of our assets, each outstanding option or stock purchase right under the 1997 Plan will be assumed or substituted by the successor corporation. In case the successor corporation refuses to assume or substitute the outstanding option or stock purchase right, such outstanding option or stock purchase right will become fully exercisable for a period of 15 days from the date the participant is notified of such refusal by the Board.

In addition, the 1997 Plan provides, in general, that a participant whose status as a Service Provider (as defined in the 1997 Plan) is terminated is entitled to exercise his or her option, to the extent such option has vested as of the date of termination, until the earlier of (i) expiration of the option according to its terms, (ii) expiration of a period of 3 months following termination, or (iii) expiration of a period of 12 months following termination as a result of death or disability. The 1997 Plan allows the post-termination exercise period to extend beyond the default term, if the stock option agreement entered into by the Company and the participant pursuant to the 1997 Plan provides for a longer term.

Under the Officer and Director Option Agreement approved for use under the 1997 Plan in connection with awards to our directors and officers beginning in December of 2005, if the participant's status as a Service Provider or director is terminated following a change of control, the participant shall be entitled to exercise his or her option, to the extent such option has vested as of the date of such termination, until the earlier of (i) expiration of the option according to its terms, or (ii) expiration of a period of 12 months following the termination of the participant's status as a Service Provider or director.

The 1997 Plan was terminated in July 2006 effective upon stockholder approval of our 2006 Plan.

The 2006 Equity Incentive Plan. Our 2006 Plan provides that in the event a participant in the 2006 Plan terminates service with us and our affiliates, any options which have become exercisable prior to the time of termination will remain exercisable for three months from the date of termination, unless a shorter or longer period of time is determined by the 2006 Plan administrator. If termination was caused by death or disability, any options which have become exercisable prior to the time of termination will remain exercisable for 12 months from the date of termination, unless a shorter or longer period of time is determined by the 2006 Plan administrator. In no event may a participant exercise the option after the expiration date of the option.

In the event of our change of control, each outstanding award will be assumed or substituted by the successor corporation. In the event the successor corporation refuses to assume or substitute awards granted under the 2006 Plan, all options and stock appreciation rights will fully vest and become exercisable, all restrictions on restricted stock will lapse, and, with respect to restricted stock units, performance shares, and performance units, all performance goals or other vesting criteria will be deemed achieved at target levels and all other terms and conditions met. In addition, if an option or stock appreciation right becomes fully vested and exercisable in lieu of assumption or substitution in the event of a change of control, the 2006 Plan administrator will notify the participant in writing or electronically that the option or stock appreciation right will be fully vested and exercisable for a period of time determined by the 2006 Plan administrator in its sole discretion, and the option or stock appreciation right will terminate upon the expiration of such period.

The change of control provisions in the 2006 Plan apply to all executive officers.
