**PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD
MARCH 8, 2012**

INTRODUCTION

This proxy statement is furnished in connection with the solicitation on behalf of the Board of Directors of AECOM Technology Corporation, a Delaware corporation ("we," "our," the "Company" or "AECOM"), of proxies for use at our 2012 Annual Meeting of Stockholders ("2012 Annual Meeting") to be held on March 8, 2012, at 9:00 a.m. local time, or at any adjournment or postponement thereof. At the 2012 Annual Meeting, you will be asked to consider and vote on the matters described in this proxy statement and in the accompanying notice. The 2012 Annual Meeting will be held at The Millennium Biltmore Hotel, 506 South Grand Avenue, Los Angeles, California 90071. Only stockholders of record at the close of business on January 9, 2012, which is the record date for the 2012 Annual Meeting, are permitted to vote at the 2012 Annual Meeting and any adjournment or postponement thereof.

The Board of Directors is soliciting your vote to

Elect the four Class I Directors named in this proxy statement to the Company's Board of Directors to serve until the Company's 2015 annual meeting of stockholders and until the election and qualification of their respective successors;

Ratify the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending September 30, 2012; and

Approve an advisory resolution on the Company's executive compensation.

We are pleased to again take advantage of the Securities and Exchange Commission rule allowing companies to furnish proxy materials to their stockholders over the Internet. We believe that this e-proxy process expedites stockholders' receipt of proxy materials, while also lowering the costs and reducing the environmental impact of our annual meeting. On January 27, 2012, we began mailing a Notice of Internet Availability of Proxy Materials (the "Notice") to all stockholders of record as of January 9, 2012, and posted our proxy materials on the Web site referenced in the Notice. As more fully described in the Notice, all stockholders may choose to access our proxy materials on the Web site referred to in the Notice or may request to receive a printed set of our proxy materials. In addition, the Notice and Web site provide information regarding how you may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis.

**Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting

INFORMATION REGARDING VOTING AT THE 2012 ANNUAL MEETING

Proxies

You may vote your shares in person at the 2012 Annual Meeting or by proxy. There are three ways to vote by proxy: (1) by Internet by following the instructions on the Notice or proxy card, (2) by telephone by calling 1-800-652-8683 and following the instructions on the Notice or proxy card, or (3) by requesting a printed copy of the proxy materials and signing, dating and mailing the enclosed proxy card to our Corporate Secretary at the address below. If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the holder of record. You must follow the instructions of the holder of record in order for your shares to be voted. Internet and telephone voting also will be offered to stockholders owning shares through certain banks and brokers.

You may revoke your proxy at any time before it is exercised by (1) giving our Corporate Secretary written notice of revocation, (2) delivering to us a signed proxy card with a later date, (3) granting a subsequent proxy through the Internet or telephone, or (4) by attending the 2012 Annual Meeting and voting in person. Written notices of revocation and other communications with respect to the revocation of proxies should be addressed to AECOM Technology Corporation, 555 South Flower Street, Suite 3700, Los Angeles, CA 90071, Attention: Corporate Secretary.

All shares represented by valid proxies received and not revoked before they are exercised will be voted in the manner specified in the proxy. Other than with respect to certain trustees who hold our shares in trust, if you submit proxy voting instructions but do not direct how to vote on each item, the persons named as proxies will vote in favor of each of the proposals. Our Board of Directors is unaware of any other matters that may be presented for action at our 2012 Annual Meeting. If other matters do properly come before our 2012 Annual Meeting, however, it is intended that shares represented by proxies will be voted in the discretion of the proxy holders.

If you are a beneficial owner and hold your shares in the name of a bank, broker or other holder of record and do not return the voting instruction card, the broker or other nominee will vote your shares on each matter at the 2012 Annual Meeting for which he or she has the requisite discretionary authority. Under applicable rules, brokers have the discretion to vote on routine matters, which include the ratification of the selection of the independent registered public accounting firm. Brokers will not have the discretion to vote on any of the other proposals presented at the 2012 Annual Meeting.

Solicitation of Proxies

We will pay the entire cost of soliciting proxies. In addition to soliciting proxies by mail, we will request banks, brokers and other record holders to send proxies and proxy materials to the beneficial owners of our common stock and to secure their voting instructions, if necessary. We will reimburse record holders for their reasonable expenses in performing these tasks. In addition, we have retained Georgeson, Inc. to act as a proxy solicitor in conjunction with the 2012 Annual Meeting. We have agreed to pay Georgeson a fee of \$8,000, plus reasonable expenses, costs and disbursements for proxy solicitation services. If necessary, we may use our regular employees, who will not be specially compensated, to solicit proxies from stockholders, whether personally or by telephone, letter or other means.

Record Date and Voting Rights

Our Board of Directors has fixed January 9, 2012, as the record date for determining the stockholders who are entitled to notice of, and to vote at, our 2012 Annual Meeting. Only stockholders of record at the close of business on the record date will receive notice of, and be able to vote at, our 2012 Annual Meeting. As of the record date, there were 117,093,494 shares of our common stock outstanding held by 2,208 record holders, in addition to approximately 45,104 holders who do not hold shares in their own names. A majority of the stock issued and outstanding and entitled to vote must be present at our 2012 Annual

Table of Contents

Meeting, either in person or by proxy, in order for there to be a quorum at the meeting. Each share of our outstanding common stock entitles its holder to one vote. Shares of our common stock with respect to which the holders are present in person at our 2012 Annual Meeting but not voting, and shares for which we have received proxies but with respect to which holders of the shares have abstained, will be counted as present at our 2012 Annual Meeting for the purpose of determining whether or not a quorum exists. Broker non-votes will also be counted as present for the purpose of determining whether a quorum exists. "Broker non-votes" are shares of common stock held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner.

Directors are elected by a plurality. Therefore, the four nominees who receive the most votes will be elected. Abstentions and broker non-votes will not be counted as participating in the voting for the election of directors, and will therefore have no effect for purposes of such proposal. Both the ratification of our independent registered public accounting firm and the advisory resolution on the Company's executive compensation require the affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy and entitled to vote at the 2012 Annual Meeting in order to be approved by our stockholders. In each case, abstentions will be counted as present and will have the effect of a vote against the proposal, while broker non-votes will not be counted as participating in the voting, and will therefore have no effect on the outcome of the vote on either of these proposals. Votes will be tabulated by the inspector of election appointed for the 2012 Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Due to its advisory nature, the results of the advisory vote on the Company's executive compensation will not be binding on our Board of Directors but will be carefully considered by our Board. Our Board of Directors urges you to vote promptly by either electronically submitting a proxy or voting instruction card over the Internet, by telephone or by delivering to us or your broker, as applicable, a signed and dated proxy card.

A representative of Computershare Trust Company, N.A., our transfer agent, will tabulate the votes and act as the inspector of election.

Year-End Reporting Convention

We report our results of operations based on 52- or 53-week periods ending on the Friday nearest September 30. For clarity of presentation, all periods are presented as if the fiscal year ended on September 30. Fiscal years 2011, 2010, and 2009 contained 52, 52 and 52 weeks and ended on September 30, October 1, and October 2, respectively.

**PROPOSAL 1
ELECTION OF CLASS I DIRECTORS**

The Company's Certificate of Incorporation provides for a classified Board of Directors, consisting of three classes, with each class serving a three-year term. The Board of Directors is currently composed of 11 members, of whom four are Class I Directors, four are Class II Directors and three are Class III Directors. In accordance therewith, four Class I Directors will be elected at the 2012 Annual Meeting to serve until the 2015 Annual Meeting of Stockholders, and until their successors are duly elected and qualified. If a quorum is present at our 2012 Annual Meeting, the four nominees receiving the greatest number of votes will be elected.

Shares represented by proxies will be voted, if authority to do so is not withheld, for the election of the four nominees named below. Each of the nominees has consented to serve as a director, if elected, and management has no reason to believe that any nominee will be unable or unwilling to serve if elected as a director. In the event that any nominee is unavailable for re-election as a result of an unexpected occurrence, shares will be voted for the election of such substitute nominee as our Board of Directors may propose. Pursuant to the vote and immediately following the 2012 Annual Meeting, our Board of Directors will be comprised of four Class I Directors, four Class II Directors and three Class III Directors.

Director Qualifications

The Board of Directors believes that the Board, as a whole, should possess a combination of skills, professional experience and diversity of backgrounds necessary to oversee the Company's business. The Nominating, Governance and Risk Committee is responsible for developing and recommending Board membership criteria to the full Board for approval. The criteria, which are set forth in the Company's Corporate Governance Guidelines, include the highest professional and personal ethics and values, commitment to enhancing stockholder value with sufficient time to carry out his or her duties, and business acumen. In considering director candidates, the Nominating, Governance and Risk Committee looks for business experience and skills, judgment, independence, integrity, an understanding of such areas as finance, marketing, regulation, public policy and the absence of potential conflicts with the Company's interests. While the Nominating, Governance and Risk Committee does not have a formal policy with respect to diversity, the Nominating, Governance and Risk Committee believes that it is essential that Board members represent diverse viewpoints and backgrounds.

The Nominating, Governance and Risk Committee periodically reviews the appropriate skills and characteristics required of Board members in the context of the current composition of the Board, the operating requirements of the Company and the long-term interests of stockholders. In conducting this assessment, the Nominating, Governance and Risk Committee considers diversity, age, skills, and such other factors as it deems appropriate to maintain a balance of knowledge, experience and capability. This periodic assessment enables the Board to update the skills and experience it seeks in the Board as a whole, and in individual directors, as the Company's needs evolve and change over time and to assess effectiveness of efforts at pursuing diversity. In identifying director candidates from time to time, the Nominating, Governance and Risk Committee may establish specific skills and experience that it believes the Company should seek in order to constitute a balanced and effective board.

**PROPOSAL 2
RATIFICATION OF SELECTION OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of our Board of Directors has retained Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending September 30, 2012. A representative of Ernst & Young LLP is expected to be present at the 2012 Annual Meeting and will have an opportunity to make a statement if the representative so desires, and will be available to respond to appropriate questions.

Reasons for the Proposal

Selection of our independent registered public accounting firm is not required to be submitted for stockholder approval, but the Audit Committee of our Board of Directors is seeking ratification of its selection of Ernst & Young LLP from our stockholders as a matter of good corporate practice. If stockholders do not ratify this selection, the Audit Committee of our Board of Directors will reconsider its selection of Ernst & Young LLP, and will, in its sole discretion, either continue to retain this firm or appoint a new independent registered public accounting firm. Even if the selection is ratified, the Audit Committee may, in its discretion, appoint a different independent registered public accounting firm at any time during the fiscal year if it determines that such a change would be in our best interests and the best interests of our stockholders.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the 2012 Annual Meeting is required to ratify the selection of Ernst & Young LLP, as our independent registered public accounting firm for the fiscal year ending September 30, 2012. Abstentions will be counted as a vote against the proposal.

PROPOSAL 3
ADVISORY RESOLUTION ON EXECUTIVE COMPENSATION

In accordance with Section 14A of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which was added under the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank"), we are asking stockholders to approve an advisory resolution on the Company's executive compensation as reported in this proxy statement. Taking into consideration the voting results from the Company's 2011 Annual Meeting of Stockholders concerning the frequency of the stockholder advisory vote on executive compensation, the Company's Board of Directors has determined the Company shall hold an annual advisory vote on executive compensation until the next advisory vote on the frequency of such votes.

Our executive compensation programs are designed to support the Company's long-term success. As described below in the "Compensation Discussion and Analysis" section of this proxy statement, the Compensation/Organization Committee has structured our executive compensation program to achieve the following key objectives:

Provide a competitive compensation package that will allow us to attract, motivate, reward and retain key talent to achieve our business objectives;

Provide incentives that promote sustained short- and long-term financial growth and stability in order to enhance stockholder value; and

Link pay to performance, with a majority of executive compensation at-risk and total compensation over time dependent on and balanced between each executive's individual performance and the overall performance of the Company.

In fiscal year 2011, despite a challenging global economic environment, our revenue for the year ended September 30, 2011, increased 23%, to \$8 billion as compared to \$6.5 billion for the corresponding period in the previous fiscal year. The Company continues to outperform its relevant industry peers over a long-term (three year) basis in terms of total shareholder returns over the long term. We believe this performance shows the value of our strategy of pursuing a diversified global business. Further, we believe that our performance-based executive compensation programs provide incentives that are aligned with the strategy and with the best interests of our stockholders and have facilitated the Company's performance.

We urge stockholders to read the "Compensation Discussion and Analysis" below, which describes in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives, as well as the Summary Compensation Table and related compensation tables and narrative which provide detailed information on the compensation of our named executive officers. The Compensation/Organization Committee and the Board of Directors believe that the policies and procedures articulated in the "Compensation Discussion and Analysis" are effective in achieving our goals and that the compensation of our Named Executive Officers reported in this proxy statement has supported and contributed to the Company's success.

We are asking stockholders to approve the following advisory resolution at the 2012 Annual Meeting:

RESOLVED, that the stockholders of AECOM Technology Corporation (the "Company") approve, on an advisory basis, the compensation of the Company's named executive officers set forth in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables and narrative in the Proxy Statement for the Company's 2012 Annual Meeting of Stockholders.

This advisory resolution, commonly referred to as a "say-on-pay" resolution, is non-binding on the Board of Directors. Although non-binding, the Board and the Compensation/Organization Committee will carefully review and consider the voting results when evaluating our executive compensation program.

CORPORATE GOVERNANCE

Board Meetings

During our fiscal year ended September 30, 2011, our Board of Directors met six times, the Audit Committee met six times, the Compensation/Organization Committee met two times, the Nominating, Governance and Risk Committee met three times, and the Planning, Finance and Investment Committee met five times. Each incumbent director attended at least 75% of the aggregate of (1) the total number of meetings of our Board of Directors and (2) the total number of meetings held by all committees of the Board of Directors on which he or she served during fiscal year 2011.

Director Independence

Seven of the 11 members of our Board of Directors are independent directors as defined in accordance with the listing standards of the New York Stock Exchange. These standards provide that a director is independent only if our Board of Directors affirmatively determines that the director has no direct or indirect material relationship with the Company. They also specify various relationships that preclude a determination of director independence. Material relationships may include commercial, industrial, consulting, legal, accounting, charitable, family and other business, professional and personal relationships.

Applying these standards, our Board of Directors, upon the recommendation of our Nominating, Governance and Risk Committee, annually reviews the independence of our directors. In its most recent review, our Board of Directors considered, among other things, the absence of any employment relationships between the Company and our directors and their families; the absence of any of the other specific relationships that would preclude a determination of independence under New York Stock Exchange independence rules; the absence of any affiliation of the Company's directors and their families with the Company's independent registered public accounting firm, compensation consultants, legal counsel and other consultants and advisors; the absence of any transactions with directors and members of their families that would require disclosure in this proxy statement under U.S. Securities and Exchange Commission rules regarding related person transactions; the insubstantial amount of goods and services that we purchase in the ordinary course of business from companies, and the modest amount of our discretionary contributions to non-profit organizations of which some of our directors or members of their families are associated.

Our Board of Directors has determined that the following members are independent as determined in reference to the standards of the New York Stock Exchange: Messrs. Fordyce, Gillis, Lowe, Ouchi, Routs and Rutledge and Ms. Griego.

Board Leadership Structure

The Board has been, and continues to be, a strong proponent of Board independence. As a result, the Company's corporate governance structures and practices provide for a strong, independent Board and include several independent oversight mechanisms, including only independent directors serving as committee chairpersons and the directors' and committees' ability to engage independent consultants and advisors.

The independent directors annually appoint a lead independent director. H. Frederick Christie served as the lead independent director for fiscal year 2011 until his retirement at the 2011 Annual Meeting of Stockholders. William G. Ouchi succeeded Mr. Christie as the lead independent director following the 2011 Annual Meeting of Stockholders for the remainder of fiscal year 2011 and is serving in that role for fiscal year 2012.

The position and role of the lead independent director is intended to expand lines of communication between the Board and members of management. It is not intended to reduce the free and open access and

Table of Contents

communications that each independent board member has with other board members and members of management. The lead independent director has the following duties:

To organize, convene and preside over executive sessions of the non-employee and independent directors and promptly communicate approved messages and directives to the Chairman of the Board and Chief Executive Officer.

To preside at all meetings of the Board of Directors at which the Chairman of the Board is not available.

To collect and communicate to the Chairman of the Board and Chief Executive Officer the views and recommendations of the independent directors, relating to his or her performance.

To perform such other duties and responsibilities as may be assigned from time-to-time by the independent directors.

To complement this structure, the Board believes it is important to retain its flexibility to allocate the responsibilities of the offices of the Chairman of the Board and Chief Executive Officer in the best interests of the Company. The Board believes that the decision as to who should serve in those roles, and whether the offices should be combined or separate, should be assessed periodically by the Board, and that the Board should not be constrained by a rigid policy mandate when making these determinations. Additionally, the Board believes that it needs to retain the ability to balance the independent Board structure with the flexibility to appoint as Chairman of the Board someone with hands-on knowledge of and experience in the operations of the Company.

Currently, the positions of Chairman of the Board and Chief Executive Officer are held by one person. We believe this structure is optimal for the Company at this time because it demonstrates for our employees, customers and other stakeholders that the Company is under strong leadership, with a single person setting the tone and having primary responsibility for managing our operations. Having a single leader for both the Company and the Board eliminates the potential for confusion or duplication of efforts, and provides clear leadership for our Company.

The Board of Directors believes this governance structure and these practices ensure that strong and independent directors will continue to effectively oversee the Company's management and key issues related to long-range business plans, long-range strategic issues, risks and integrity.

Executive Sessions

Executive sessions of non-employee directors are included on the agenda for every regularly scheduled Board of Directors and committee meeting and, during fiscal year 2011, executive sessions were held at each regularly scheduled Board of Directors meeting. The executive sessions are chaired by the lead independent director, which as noted above, is William G. Ouchi for fiscal year 2012.

Board's Role in Risk Oversight

The Board plays an active role, both as a whole and also at the committee level, in overseeing management of the Company's risks. Management is responsible for the Company's day-to-day risk management activities. The Company relies on a comprehensive risk management process to aggregate, monitor, measure and manage risks. The risk management process is designed to enable the Board of Directors to establish a mutual understanding with management of the effectiveness of the Company's risk management practices and capabilities, to review the Company's risk exposure and to elevate certain key risks for discussion at the Board level. The Company's risk management process is overseen by its Chief Risk Officer, who is a member of the Company's senior management. The full Board receives regular updates on the Company's risk management process.

Table of Contents

The Nominating, Governance and Risk Committee oversees the Company's overall policies regarding risk assessment and risk management. However, the Nominating, Governance and Risk Committee consults with the Audit Committee in reviewing guidelines and policies with respect to risk assessment and risk management and with the Planning, Finance and Investments Committee in reviewing strategies with respect to foreign exchange risk. The Compensation/Organization Committee oversees risks relating to the Company's compensation policies and practices, as described below. The full Board monitors risk through regular reports from each of the Committee chairs and is apprised of particular risk management matters in connection with its general oversight and approval of corporate matters. We believe the division of risk management responsibilities described above provides an effective framework for evaluating and addressing the risks facing the Company, and that our Board leadership structure supports this approach because it allows our independent directors, through the independent committee chairpersons, to exercise effective oversight of the actions of management.

Risk Assessment of Compensation Policies and Practices

In fiscal year 2011, the Compensation/Organization Committee's independent consultant, Exequity, conducted a risk assessment of the Company's compensation policies and practices as they apply to all employees, including all executive officers. The Company reviewed the design features and performance metrics of our cash and stock-based incentive programs along with the approval mechanisms associated with each to determine whether any of these policies and practices could create risks that are reasonably likely to have a material adverse effect on the Company.

As part of the review, several factors were noted that reduce the likelihood of excessive risk-taking:

Our compensation mix is balanced among fixed components such as salary and benefits, annual incentive payments and long-term incentives including Performance Earnings Program awards, stock options and restricted stock units granted under our 2006 Stock Incentive Plan, which typically vest or are earned over three years.

Performance Earnings Program awards, which make up 50% of long-term incentives for our executives, balance both growth and profitability and are earned if thresholds are met in both growth in earnings before interest, taxes and amortization ("EBITA") and return on investment over three years.

The Compensation/Organization Committee has ultimate authority to determine, and reduce if appropriate, compensation provided to our Section 16 Officers, including each of the Named Executive Officers.

The Compensation/Organization Committee, under its charter, has the authority to retain any advisor it deems necessary to fulfill its obligations and has engaged Exequity LLP as its independent consultant. Exequity performs services for the Compensation/Organization Committee as described in the Consultant to the Compensation Committee Section of the proxy.

Our annual incentive programs for non-officer employees are funded based on our EBITA results and are approved by our Executive Management Team, which includes each of the Named Executive Officers. Individual payouts are based on a combination of financial metrics as well as qualitative and discretionary factors.

Our long-term incentive and stock-based awards, including Performance Earnings Program awards, stock options and restricted stock units granted under our 2006 Stock Incentive Plan, are all approved by either the Compensation/Organization Committee or our CEO (and then reported to the Compensation/Organization Committee) under our delegations of authority.

Table of Contents

Our Named Executive Officers are subject to stock ownership guidelines and our insider trading policy.

Based on this assessment, the Company concluded that its compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

Committees of the Board of Directors

The Board of Directors of the Company has four standing committees: an Audit Committee, a Compensation/Organization Committee, a Nominating, Governance and Risk Committee and a Planning, Finance and Investment Committee. In accordance with New York Stock Exchange regulations, each member of the Audit Committee, the Compensation/Organization Committee and the Nominating, Governance and Risk Committee of the Board of Directors has been determined by our Board of Directors to be "independent." Director Nominations

The Nominating, Governance and Risk Committee of our Board of Directors is charged with identifying, reviewing and recommending to the Board of Directors qualified individuals to become directors and regularly assessing the size and composition of the Board of Directors and recommending any changes to the Board of Directors.

It is our belief that members of the Board of Directors should have the highest professional and personal ethics and values. The Board's Nominating, Governance and Risk Committee periodically reviews the appropriate skills and characteristics required of members of the Board of Directors in the context of the current composition of the Board of Directors, the operating requirements of the Company and the long-term interests of stockholders. We believe that, as a whole, the Board of Directors should include individuals that are committed to enhancing stockholder value with sufficient time to effectively carry out their duties. While all directors should possess business acumen, the Board of Directors endeavors to include an array of targeted skills and experience in its overall composition. Criteria that the Nominating, Governance and Risk Committee looks for in director candidates include business experience and skills, judgment, independence, integrity, an understanding of such areas as finance, marketing, regulation, end markets, and public policy and the absence of potential conflicts with the Company's interests. While the Nominating, Governance and Risk Committee does not have a formal policy with respect to diversity, the Nominating, Governance and Risk Committee believes that it is essential that Board members represent diverse viewpoints and backgrounds.

Our Nominating, Governance and Risk Committee will consider stockholder nominations for directors. The Nominating, Governance and Risk Committee evaluates any such nominees that are properly submitted using the same criteria it otherwise employs, as described above. Any recommendation submitted by a stockholder must include the same information concerning the potential candidate as is

Table of Contents

required when a stockholder wishes to nominate a candidate directly. In addition, any such recommendation must be received in the same time frame as is required by our Bylaws when a stockholder wishes to nominate a candidate directly. To be timely, the notice must be received not less than 90 nor more than 120 days prior to the date of the first anniversary of the preceding year's annual meeting of stockholders. However, in the event that the date of the annual meeting is advanced more than 30 days prior to such anniversary date or delayed more than 30 days after such anniversary date, notice by the stockholder to be timely must be received no more than 120 days prior to the date of the annual meeting and not less than the later of the close of business (a) 90 days prior to the date of the annual meeting and (b) the tenth day following the day on which the notice of stockholder meeting was mailed or public disclosure of such meeting was made by the Company. To be in proper form, the notice must, as to each person whom the stockholder proposes to nominate for election or re-election as a director, set forth all information concerning such person as would be required in a proxy statement soliciting proxies for the election of directors in a contested election pursuant to Section 14 of the Securities Exchange Act of 1934, as amended (including such person's signed written consent to being named in the proxy statement as a nominee and to serve as a director of the Company, if elected) and a description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings during the past three years between or among such stockholder and beneficial owner, if any, on whose behalf the nomination is being made, and their respective affiliates and associates, or others acting in concert therewith, on the one hand, and each proposed nominee, and his or her respective affiliates and associates, or others acting in concert therewith, on the other hand. In addition, as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination is being made, the notice must also state the name and address, as they appear on the Company's books, of such stockholder and such beneficial owner, the class and number of shares of the Company that are owned of record and beneficially by such stockholder and such beneficial owner, a description of any agreement, arrangement or understanding with respect to the nomination between such stockholder or beneficial owner and any other person, including without limitation any agreements that would be required to be disclosed pursuant to Item 5 or Item 6 of Schedule 13D (regardless of whether the requirement to file a Schedule 13D is applicable to the stockholder or beneficial owner) of the Exchange Act, and a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the stockholder's notice by, or on behalf of, such stockholder or beneficial owner, the effect or intent of which is to mitigate loss, manage risk or benefit from changes in the share price of any class of the Company's capital stock, or maintain, increase or decrease the voting power of the stockholder or beneficial owner with respect to shares of stock of the Company. Stockholders who wish to nominate candidates for director must do so pursuant to these procedures.

Director Retirement Policy

Our Board of Directors has adopted a director retirement policy which provides that, unless otherwise recommended by the Nominating, Governance and Risk Committee and approved by the Board of Directors, directors are expected to retire from the Board of Directors at the end of the term of service during which they turn 72 years of age. The Nominating, Governance and Risk Committee recommended and the Board of Directors approved the inclusion of Mr. Newman as a director candidate for re-election at the 2012 Annual Meeting.

Related Party Transaction Policy

We have adopted a related party transaction policy, which covers transactions involving in excess of \$120,000 between us and our directors, executive officers, 5% or greater stockholders and parties related to the foregoing, such as immediate family members and entities they control. The policy requires that any such transaction be considered and approved by our Audit Committee prior to entry into such transaction. In reviewing such transactions, the policy requires the Audit Committee to consider all of the relevant facts and circumstances available to the Audit Committee, including (if applicable) but not limited to the benefits to the Company, the availability of other sources for comparable products or services, the terms of the transaction and the terms available to unrelated third parties or to employees generally.

Under the policy, if we should discover related party transactions that have not been approved, the Audit Committee will be notified and will determine the appropriate action, including ratification, rescission or amendment of the transaction.

Certain Relationships and Related Transactions

Prior to his retirement in 2011, Mr. Ronald Yamiolkoski was employed by our subsidiary AECOM USA, Inc. as an Associate Vice President, and he is the brother-in-law of Mr. Richard Newman, our non-executive Chairman of the Board. Mr. Yamiolkoski had no reporting responsibility to Mr. Newman and, in our fiscal year ended September 30, 2011, Mr. Yamiolkoski received compensation from AECOM USA, Inc. of approximately \$129,150. The employment of Mr. Yamiolkoski was entered into more than 30 years ago, prior to the adoption of our related party transaction policy and has since been ratified by the Audit Committee.

Mr. Daniel Tishman, Vice Chairman of the Company and a member of our Board of Directors, owns a substantial equity interest in, and has certain management rights with respect to, Tishman Hotel & Realty, LP, a Delaware limited partnership ("THR"), which is party to a certain Shared Services Agreement ("SSA"), dated July 14, 2010, between our wholly-owned subsidiary, Tishman Construction Corporation ("TCC") and THR, pursuant to which TCC provides THR and certain affiliates certain services in exchange for compensation based on an annual budget. The initial term of the SSA expires on July 14, 2015. In our fiscal year ended September 30, 2011, TCC received approximately \$1,208,000 in compensation from THR pursuant to the SSA. THR and TCC are also parties to a certain Occupancy Agreement, dated July 14, 2010 (the "Occupancy Agreement"), pursuant to which THR pays to TCC a portion of the rent payable by TCC for its office space in a building located in New York, New York, in exchange for the right to use and occupy a portion of such space. THR may terminate the Occupancy Agreement at any time on 30 days notice to TCC. In our fiscal year ended September 30, 2011, TCC received approximately \$1,067,000 in rent from THR pursuant to the Occupancy Agreement.

Stock Ownership Guidelines

Non-employee directors are subject to stock ownership guidelines which are intended to align their interests with those of our stockholders. Under the guidelines, our non-employee directors must maintain at all times while serving as a director, ownership of AECOM stock at the lesser of a multiple of five times the annual retainer or a minimum number of shares. The minimum number of shares guideline is updated

Table of Contents

annually based on the current retainer (\$80,000) and the 12 month trailing average AECOM stock price. Shares owned directly or indirectly, deferred stock units, 60 percent of the value of vested but unexercised stock options and 60 percent of unvested restricted stock units are counted toward the guidelines. Non-employee directors have five years after becoming a director to comply with the guidelines. The following table outlines the ownership of our independent non-employee directors as of September 30, 2011.

Non-employee Director	Actual Shares	Actual Retainer Multiple

Executive Summary

We are a leading global professional technical and management support services firm, providing planning, consulting, architectural and engineering design, and program and construction management services for commercial and government clients around the world. We have a long and proven track record of winning and managing the world's most complex and demanding projects. We provide the innovative technical expertise that creates, enhances, and sustains the world's built, natural and social environments.

We can link AECOM's ongoing success to three key factors: our talented, dedicated employees around the world; a diversified growth strategy; and committed shareholders who enable our growth strategy to succeed. Our growth strategy is predicated on balanced, profitable growth in our business, both organically and through strategic acquisitions, with an emphasis on expanding our capabilities and diversifying in high growth areas, such as emerging and natural resources rich markets. We are also focused on operational excellence, continually seeking opportunities to improve margins and enhance cash flow. Our perspective is that high growth, acceptable levels of returns, and a business model with limited risk provide the best opportunity to increase value for our shareholders over the long-term.

AECOM has delivered on these strategic objectives over time, with a 22-year track record of steady growth and profitability. Since our IPO in 2007, we have:

Expanded our business profile with key acquisitions in environmental, energy and power, cyber security, construction services, and emerging markets

Increased Earnings Per Share, or "EPS" at an average rate of 19% per year

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

Expanded our Earnings Before Interest, Taxes, Depreciation and Amortization, or "EBITDA" margin by 200 basis points to over 10%

Grown revenue 17% on a compound annual basis

Steadily increased backlog from \$6 billion to \$15.6 billion

Our Compensation Philosophy and Approach

Our approach to compensation for our executives is directly linked to our business focus on strategic and profitable growth and to rewarding performance. Specifically, our compensation philosophy has the following elements:

We seek to provide a competitive compensation package that will allow us to attract, motivate, reward and retain key talent to achieve our business objectives;

We provide incentives that promote sustained short and long-term financial growth and stability in order to enhance shareholder value;

We believe in a strong pay-for-performance model, with a majority of NEO compensation at-risk and total compensation over time dependent on and balanced between each executive's individual performance and the overall performance of the company; and

Our goal is to optimize performance without encouraging unreasonable risks or incentivizing behavior which would be reasonably likely to result in a material adverse effect on the company.

Key components of our executive pay package which support this philosophy include:

A majority of target total compensation for our CEO and other NEOs are "performance-based" and subject to an assessment of company and individual performance against pre-defined goals and objectives; and

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

Over 70% of our CEO's target pay and over 64% of the pay for our other NEOs is performance-based, strongly aligning the realized value for our executives with our shareholders.

Executives are aligned to our business objectives directly through the Performance Earnings Program (PEP), which is the largest single component of our executive pay plans, as well as a significant overall focus on share-denominated vehicles in total compensation, as illustrated above. We believe that the EBITA Growth and Return on Investment metrics (as defined below) that determine the final PEP value to participants provide direct linkage of a major component of our pay to how shareholders measure the long-term success of our growth strategy. These combined metrics encourage high growth, expanded profitability, and higher returns on investment. We believe this balanced approach to profitable growth and returns on investment provides a proper mix of incentives to our executives, which are well aligned with factors that we expect will drive the greatest value for our shareholders over time.

2011 Say on Pay Vote and Compensation Practices

Following our 2011 annual meeting, the Compensation/Organization Committee (the "Committee") of the Board of Directors carefully reviewed the voting results with respect to the advisory vote on executive compensation as well as feedback from shareholders received during the proxy season. Based on this information and after thoughtful consideration, the Committee made a number of changes to our executive compensation program. We believe that we have responded to the concerns expressed by our shareholders in the 2011 advisory vote on executive compensation and are actively and continuously engaging them. In response to the advisory vote, we have taken the following specific actions in 2011 and 2012 to further enhance the link between our compensation philosophy and pay practices, and specifically to strengthen the link between pay and company performance:

Implemented "target" and "maximum" guidelines for annual incentive awards to our NEOs for fiscal 2011 to further clarify compensation opportunity and how payouts compare to expectations for performance;

Changed our long-term incentive mix to increase the proportion of awards that are explicitly linked to long-term financial objectives. Fiscal 2012 equity awards for the NEOs will consist of 60% PEP performance units and 40% restricted stock unit awards; and

Table of Contents

Incorporated a target performance formula that links financial results and strategic measures of individual key contributions to company performance and includes pre-established financial goals that will determine 70% of the funding for short-term incentive program for fiscal 2012.

Fiscal 2011 equity grants were made to our executives prior to the advisory vote on executive compensation and our decision to change our pay mix, and therefore the awards reflected in the Summary Compensation Table reflect the prior mix of 25% stock options, 25% restricted stock unit awards, and 50% PEP. Stock options were eliminated from the pay mix for fiscal 2012 as the Committee determined that a balanced mix of PEP awards and restricted stock units, with an emphasis on performance-based PEP awards, would better align executive interests with shareholders and company performance.

Key Governance Practices

Other governance practices that enhance our pay for performance orientation include:

We have no employment agreements or multi-year compensation guarantees for any of our NEOs;

Our Change in Control Severance Policy provides severance benefits, including accelerated vesting of any equity awards, only if there is a change in control and an eligible termination of employment ("double trigger" for both cash and equity);

Severance benefits following a change in control do not exceed two times base salary and average bonus for any NEO;

We do not provide tax gross-up on either perquisites or change in control severance benefits to our NEOs;

Our NEOs and the members of our Board of Directors are subject to ownership guidelines which require them to maintain a significant equity stake, including ownership guidelines of six times base salary for our CEO;

The Company's insider trading policy prohibits hedging transactions involving Company securities by our NEOs; and

We have adopted a policy to hold an advisory vote on executive compensation on an annual basis.

Summary of Fiscal 2011 Performance and Compensation Results

Despite a continued challenging economic environment, we delivered solid financial results for fiscal year 2011. Key results for the year included:

\$ millions	Fiscal 2011	Fiscal 2010	% Change
Revenue	\$ 8,037	\$ 6,546	23%
Net Service Revenue (NSR)(1)	\$ 5,181	\$ 4,206	23%
EBITDA(1)	\$ 525	\$ 418	26%
EBITDA as % of NSR(1)	10.14%	9.93%	+21 bps
EPS(2)	\$ 2.33	\$ 2.05	14%
Cash Flow from Operations(3)	\$ 280	\$ 159	77%
Total Backlog	\$ 15,604	\$ 14,720	6%

(1) Non-GAAP measure

- (2) Diluted EPS from continuing operations attributable to AECOM
- (3) September 30, 2011, amount excludes deferred compensation plan termination (\$90 million) and associated excess tax benefits (\$58 million)

Table of Contents

See our Annual Report on Form 10-K for additional information regarding the key results described above.

We also continued to deliver on our long-term goals of profitable growth and returns. Our PEP program for executives is directly linked to achieving these results:

\$ millions	Fiscal 2011	Fiscal 2010	Fiscal 2009	Fiscal 2008	Four-Year Average
EBITA Growth(1)	26%	19%	25%	47%	29%
Return on Investment(2)	16%	20%	21%	22%	20%

(1) "EBITA" is defined as earnings before interest expenses, taxes, and amortization.

(2) "Return on Investment" is calculated as follows: Fiscal Year EBITA divided by an investment base composed of the fiscal year average shareholders' equity and average total debt, less average cash adjusted for certain one-time items.

The Committee's compensation decisions for fiscal 2011 were consistent with our financial performance and reflect the Committee's consideration of various forms of comparable compensation market data and a review of increasing roles and responsibilities.

Although our financial results continue to be solid, our stock price results have declined over the past year. We believe that our compensation program for our senior executives is appropriately sensitive to these results. Specifically, the pay mix for our executives is heavily weighted to stock-based awards, and the realizable value of these awards changes along with our share price. Realizable value is defined as the value of equity awards as of the share price at the end of the period, rather than the value on the date of grant.

Based on our stock price as of fiscal year end 2011, the realizable values of our equity awards to our CEO over the past four years was 41% lower than the grant date values of those awards reported in the Summary Compensation Table below and in prior proxy statements. Thus, to the extent we do not perform for our shareholders, our executives are similarly impacted with respect to this element of compensation. The charts below illustrate the grant date value versus realizable value and total compensation, based on a 2011 fiscal year end share price of \$17.67, of equity awards to our CEO over the last four years.

* Excludes All Other Compensation, any change in Pension Value and all Deferred Compensation Earnings.

We note that the entire sector in which we compete has experienced declining share prices. However, on a relative basis, AECOM continues to outperform our relevant industry peers over a long-term (three year) basis. For example, when compared to the S&P Global Industry Classification Standard (GICS®)

Table of Contents

Construction & Engineering Industry (GICS code 201030), AECOM has performed at or above our industry peers in terms of total shareholder returns over the long-term.

	1 Year	3 Year Annualized
75th percentile	9%	-6%
Median	-14%	-13%
25th percentile	-35%	-21%
AECOM	-27%	-10%
<i>AECOM Percentile Rank</i>	34%	65%

We believe that this industry comparison is more relevant to our performance than the broader Capital Goods or Industrials GICS classifications.

Relationship between Company Performance and CEO Compensation

The following graphs show the relationship between Mr. Dionisio's compensation and our EBITA and EPS over the past four years. Total compensation includes the salary paid, the actual annual incentive earned, and both the grant date value of equity incentives as well as the realizable value of equity incentives earned. The realizable value is the value of all equity incentives granted over the last four years based on a 2011 fiscal year end share price of \$17.67.

*

Excludes All Other Compensation, any change in Pension Value and all Deferred Compensation Earnings.

As noted above, realizable value is equal to the value of equity awards as of the share price at the end of each fiscal year, rather than the price on the date of grant. For this analysis, we have valued the number of PEP awards actually earned for PEP08 and PEP09. PEP10 and PEP11 awards are valued assuming they are earned at target performance. We have also assumed that all vested shares have been retained by the CEO through fiscal year end 2011 and that none of the stock options granted over the past four years have been exercised in order to compare to the grant date values on an equivalent basis. Our perspective is that the growth in total compensation is proportional to our continually improving financial performance over the past four years and therefore is well aligned with performance. In fiscal year 2011 the realizable pay, adjusted for changes in our share price year over year, increased slightly (+0.9%) despite strong financial performance including EBITA growth of 26% and earnings per share growth of 14%. We believe this reflects the alignment between Mr. Dionisio's pay and financial performance with an appropriate sensitivity to shareholder returns.

In summary, our compensation program design and realizable pay results illustrate our pay-for-performance philosophy. We have rewarded our executives for sustained financial performance and growth during a difficult economic environment. At the same time, our emphasis on stock-based

Table of Contents

awards results in a healthy alignment between our executives' pay and the realized results for our shareholders.

The Compensation/Organization Committee and the Compensation Process

Role of the Committee

Under its charter, the Committee has the sole authority to determine and approve compensation for our NEOs and for certain other executive officers. In addition, the Committee, which is comprised solely of independent directors and provides reports to the Board of Directors, reviews and approves compensation programs including grants made under our Equity Incentive Plan and 2006 Stock Incentive Plan, oversees our executive compensation philosophy and strategy, and ensures that proper due diligence, deliberations, and reviews of executive compensation are conducted. The Committee is also responsible for reviewing the compensation for the members of our Board of Directors and submits any modifications for approval to the Board of Directors. Compensation decisions related to base salary and long-term compensation were made in December 2010 and decisions regarding short-term compensation were made in November 2011.

Role of Management

Mr. Dionisio does not make a recommendation as to his own compensation. With respect to compensation for each of our other NEOs, Mr. Dionisio makes recommendations regarding compensation to the Committee.

Role of Consultants

The Committee has the authority to retain the services of outside consultants to assist it in performing its responsibilities. Since January 2010, the Committee has engaged the services of the consulting firm Exequity LLP. During fiscal 2011, the consultant provided data on the compensation and relative performance of peer group companies and general industry to the Committee, made presentations on regulatory and legislative matters affecting executive compensation, provided opinions on the degree to which compensation arrangements are consistent with market practices, and consulted on other compensation matters as needed. Exequity does not provide any additional services to the Company.

Compensation benchmarking data for executives was provided from Hewitt's 2010 Executive Compensation database. The independent consultant's December 2010 and November 2011 reports provided the Committee with market survey information for base salary and short- and long-term incentive compensation within both our peer group companies and the broader market referred to above.

Sources of Data

The Committee uses market data as a guideline in developing executive compensation packages for our NEOs but does not solely rely upon this data for the determination of appropriate or competitive compensation. The Committee seeks to maintain competitive compensation practices to retain key leaders and management to meet our business objectives.

The Committee's independent consultant prepares reports to assist in the review and establishment of compensation paid to the NEOs for fiscal year 2011. These reports, using publicly available information as well as published compensation survey data, compares our performance and each element of NEO compensation to the performance of and compensation provided to executives serving in comparable positions within our peer group companies and the broader market for executive talent.

While the Committee believes that peer company data should not be an exclusive benchmark for compensation decisions, peer data information is used as a guideline for the Committee. For compensation

decisions made in December 2010 and November 2011, we utilized a peer group, which included the following companies:

Accenture Ltd.

CH2M Hill Companies Limited

Chicago Bridge and Iron Company

Computer Sciences Corporation

EMCOR Group, Inc.

Fluor Corporation

Foster Wheeler Ltd.

Granite Construction Incorporated

Jacobs Engineering Group, Inc.

KBR, Inc.

L-3 Communications Holdings, Inc.

McDermott International, Inc.

Northrop Grumman Corporation

Raytheon Company

SAIC, Inc.

Shaw Group

Tetra Tech, Inc.

Tutor Perini Corporation

URS Corporation

The Committee considers the level of responsibility, experience and tenure of the individual and performance in the role. The Committee exercises business judgment as to the amount of weight the peer group data bears in determining individual pay decisions for our executives. The Committee regularly reviews the peer group and makes any modifications necessary to ensure the group remains an appropriate group of companies to use as a reference point. In considering changes to the peer group, the Committee considers AECOM's position relative to the proposed peer companies and general industry data. In addition to companies within our industry, companies specializing in industrial services or government contracting with sizeable international presence in locations where we operate and compete for talent are considered.

For the most recent trailing four quarters available ending September 30, 2011, sales for our peer group companies ranged from \$1.7 billion to \$30.6 billion, as compared to \$8.0 billion for AECOM, while net income for our peer group companies ranged from (\$0.1 billion) to \$2.3 billion, as compared to \$0.3 billion for AECOM. As of September 2011 month end, market capitalization for our peer group companies ranged from \$0.5 billion to \$33.8 billion, as compared to \$2.1 billion for AECOM. For the most recent trailing four quarters available ending September 30, 2011, the median sales for our peer group companies were \$9.4 billion, while the median net income for our peer group companies was \$0.3 billion. As of September 2011 month end, the median market capitalization for our peer group companies was \$3.2 billion.

Use of Data by Committee in Pay Decisions

To implement the compensation principles outlined in the above Executive Summary, the Committee reviews compensation for the NEOs considering base salary and short- and long-term incentive compensation with a focus on the total reward package. We look to our peer group companies and the broader market as a base line for compensation decisions for our NEOs, but we do not target executive officer compensation at a specific level or percentage relative to compensation provided by the companies in the peer group or broader market, whether for total direct compensation or any element of total direct compensation.

Instead, when determining compensation for the executive officers, the Committee takes into account a broad array of factors, including the experience level of the individuals in their current positions, the overall financial and strategic performance of the Company during the year, and the individual performance and contribution of each individual executive during the year relative to pre-defined goals and objectives for each individual.

For each of our NEOs, the Committee considered the following financial goal and accomplishments:

Key 2011 Financial Goal	Select 2011 Achievements
Achieve financial performance objectives	FY-11 EPS increased by 14% EBITDA increased by 26% Cash flow from operations increased by 77%(1)

Elements of Compensation

The compensation package for our NEOs generally consists of:

Base Salary utilized to provide our executives with a competitive salary for their position and experience relative to their peers.

Short-Term Incentive Compensation intended to encourage our executives to focus on achievement of the Company's annual financial plan as well as the specific qualitative goals included in our strategic plan.

Long-Term Incentive Compensation designed to reward our executives for achieving performance related to our long-term objectives set forth in our five-year strategic plan.

Benefits, Retirement and Perquisite Programs structured to protect our executives' health and well-being, facilitate the operation of our business, assist in the retention of our current executives and aid in the recruitment of new executives.

Each of the components of our executive compensation program is described in more detail below.

Base Salary

We strive to provide our NEOs with base salaries that are aligned with their roles and responsibilities and are competitive when compared to market data. Base salaries are reviewed annually and at the time of promotion or other significant changes in responsibilities. The Committee sets the base salary of our NEOs using the broader market for executives as a guideline. The actual base salary is set to take into account the level of responsibility, experience and tenure of the individual and performance in the role.

Effective January 2011, our Named Executives Officers received base salary increases of between approximately five and 11 percent, excluding our CEO who did not receive a base salary increase, with an average increase of approximately 7% for our NEOs. These increases are reflective of individual performance (as described above), heightened leadership roles within the Company, the growth of the Company and the addition of responsibilities for each of our NEOs.

Short-Term Incentive Compensation

Our short-term incentive compensation program allows us to create annual performance criteria that are adapted to the rapidly changing nature of our business and the economic environment. Our CEO and his management team are responsible for the overall performance of the Company in accordance with our strategic operating plan, as approved annually by our Board of Directors, and are evaluated relative to these objectives. Each year, the Committee reviews our performance as compared to financial and qualitative goals. Short-term incentive compensation may be reduced to zero if performance falls short of established goals.

As noted above, in fiscal 2011 the Committee established target and maximum short-term incentive levels for each of the NEOs. These targets provide additional clarity regarding the annual incentive opportunity available to each NEO and allow for easier comparison of opportunity versus our peers. The Committee considered the impact of these targets on the total direct compensation position relative to the

Table of Contents

external market data as well as internal parity among similarly situated executives. The annual incentive opportunity for each of the NEOs is as follows:

Named Executive Officer	Annual incentive target as a percent of base salary	Maximum annual incentive as a percent of base salary
President, CEO	175%	350%
EVP, CFO	110%	220%
EVP, Global Geographies	90%	180%
EVP, Americas and Chief Corporate Officer	90%	180%
EVP, Government	90%	180%

The measurement criteria for our NEOs' incentive compensation awards for fiscal year 2011 were key components of our annual strategic operating plan (as described above). These financial metrics were supplemented by qualitative achievements, as described above, such as: initiating and completing significant acquisitions, including effective integration; organizational design initiatives; leadership and succession planning programs; risk management initiatives; and other individual accomplishments. At the end of the fiscal year, the Committee reviewed Company performance on the measurement criteria above as well as relative to our peer group and determined, taking into account the target and maximum opportunities established for each of the NEOs, the actual short-term incentive compensation paid to the NEOs. The actual amounts of short-term incentive compensation awarded to the NEOs for fiscal year 2011 are shown in the column labeled "Bonus" in the Summary Compensation Table.

For fiscal year 2012, the Committee adopted a short-term incentive program incorporating a target performance formula that links financial results and qualitative measures of individual key contributions to company performance and includes pre-established financial goals that will at least partially determine funding.

Long-Term Incentive Compensation

Our long-term incentive compensation program is designed to reward our NEOs on their achievement in advancing AECOM's long-term performance goals and enhancing shareholder value. Awards are made pursuant to our 2006 Stock Incentive Plan. The Committee annually reviews our long-term incentive programs to consider which award vehicles will meet our objectives and create the most efficient long-term incentives taking into account the rate at which we issue equity under our plans, tax impact of awards for the Company, risk/reward profile, total expense, and compensation practices among our peer group. A majority of our long-term incentive compensation is generally subject to company-wide performance targets for a three-year performance period for the NEOs. Thus, if the Company falls short of its performance targets for the three-year performance period based on a pre-established formula, the payout will be reduced and may be reduced to zero for significant shortfalls.

The initial step in determining long-term incentive awards is the Committee's determination of an overall pool for long-term incentive awards. This determination is based on a recommendation from the CEO, which takes into account the size of previous pools relative to the growth in our Company earnings and in eligible employees, the accounting expense, the number of shares that would be granted relative to our common shares outstanding and the external competitiveness of individual awards.

The Committee considers market data, including the comparable total direct compensation, and determines the long-term incentive value to be awarded to each NEO, including the CEO. In making these decisions, the Committee takes into account the impact of the awards to the NEOs on the remaining pool available for allocation to other executives. The dollar value awarded by the Committee to each NEO is then converted into a specific number of units or options, as applicable, based on the fair market value of our common stock on the date of grant. The awards provided to each NEO for fiscal year 2011 can be found in the columns labeled "Stock Awards" and "Option Awards" of the Summary Compensation Table.

Table of Contents

Under the PEP, we awarded performance units that are earned based on the Company's financial performance and continued employment over a three fiscal year performance period. The Committee establishes objective performance criteria for each PEP award period. The PEP awards are based on the three-year performance of two corporate objectives: (1) growth in EBITA and (2) return on investment. Growth in EBITA and Return on Investment are each given a 50 percent weighting in determining overall payout. These objectives are key components of our long-term strategic operating plan. These goals require a high level of financial performance to be achieved over the three-year period and payouts range based on actual performance. As described above, we believe that these metrics encourage high growth, expanded profitability, and higher returns on investment. EBITA and Return on Investment are non-GAAP measures, which we believe provide a meaningful measure of our business performance without the volatility of amortization expense or tax rate changes. Each year, new PEPs are designed with a similar approach as previous programs with respect to thresholds, targets and maximums, with changes considered by the Committee.

Fiscal 2011 Long-Term Incentive Compensation Awards

For the 2011 fiscal year, our Committee maintained its historic portfolio approach to long-term incentive compensation and provided awards to our NEOs that included a combination of PEP performance units, time-vested RSUs and stock options. Each NEO received 50% of his or her long-term incentive compensation in PEP awards, 25% in RSUs and 25% in stock options.

RSUs convert to an equivalent number of AECOM shares of stock provided that the individual remains employed by the Company for at least three years from the date of grant. Stock options provide each individual with the option to purchase AECOM common stock in the future based on the share price on the option grant date. Stock options vest one-third per year with complete vesting three years from the date of grant and have an exercise price equal to the fair market value (closing stock price) of our common stock on the date the option is granted.

The performance criteria for the PEP2011 awards are growth in EBITA and Return on Investment. The goals established under the PEP2011 awards were in line with the goals established for prior years. These goals require a high level of financial performance to be achieved over the three-year period and payouts may range from 0% to 200% of target based on actual performance.

Performance Earnings Program for Fiscal Years 2009-2011

The three-year performance period for our Performance Earnings Program for fiscal years 2009 - 2011 ("PEP2009") closed at the end of fiscal year 2011. Performance was measured 50 percent based on growth in EBITA and 50 percent based on Return on Investment. Given AECOM's achievement of the PEP2009 goals, our NEOs received payments from PEP2009 at 111% of target award amounts. The following table illustrates the target, maximum and actual performance levels and associated payout schedule for PEP2009.

Performance level	Target	Maximum	Actual
Return on Investment	19%	23%	19%
EBITA growth	16%	30%	24%
Payout percentage	100%	120%	111%

Fiscal 2012 Long-Term Incentive Compensation Awards

For the 2012 fiscal year, the Committee implemented a new long-term incentive compensation mix comprised of 60% performance units under the Performance Earnings Program for fiscal year 2012 ("PEP2012") and 40% RSUs. The Committee determined that this mix would more closely focus on our key operational goals contained in our PEP as discussed below.

Table of Contents

The PEP2012 awards are structured in a manner similar to the Performance Earnings Program awards from prior years. The performance criteria for the PEP2012 awards are growth in EBITA and Return on Investment. The goals established under the PEP2012 awards were in line with the goals established for prior years. These goals require a high level of financial performance to be achieved over the three-year period and payouts may range from 0% to 200% of target based on actual performance.

Stock Ownership Guidelines

Our NEOs are subject to stock ownership guidelines to provide another basis for aligning their interests with those of our shareholders, by ensuring our senior officers maintain a personal equity investment in AECOM. Under the guidelines, our CEO must maintain ownership of AECOM stock at six times base salary and the other NEOs at three times base salary. The minimum number of shares guideline is updated annually based on each executive's salary and the 12-month trailing average AECOM stock price. Shares owned directly and indirectly, deferred stock units, unvested PEP units and other restricted stock units and vested stock options and shares are counted toward the guidelines. All share amounts that are pre-tax are reduced in value under the guidelines by 40 percent to cover expected tax withholding. Executives have five years from becoming subject to the guidelines to comply with the guidelines. The following table outlines the ownership of our NEOs as of September 30, 2011, all of whom exceed the stock ownership guidelines.

Named Executive Officer	Guideline Salary Multiple	Actual Shares	Actual Salary Multiple
CEO	6.0	775,546	20.2
CFO	3.0	187,161	6.5
EVP, Global Geographies	3.0	225,957	10.7
EVP, Americas and Chief Corporate Officer	3.0	90,309	4.3
EVP, Government	3.0	94,903	4.7

Benefit, Retirement and Perquisite Programs

General. Our NEOs are eligible to participate in benefit plans that are available to substantially all of our employees, including participation in our retirement plans, medical insurance, dental insurance, life insurance, and disability insurance programs. In addition to the benefit plans available to substantially all of our employees, we offer certain additional benefits to our executive officers and, where applicable, other senior officers. We believe these additional benefits are consistent with our overall compensation philosophy and are designed to ensure that we can effectively retain our executives (including the NEOs) and compete for new executive talent. These additional benefits consist of the following:

Executive Life Insurance. All of the NEOs except for the Executive Vice President, Global Geographies, are eligible to participate in the U.S. Executive Life Insurance plan on an annual basis. This plan is in addition to the basic life insurance program which is open to a large majority of AECOM employees. The Executive Life Insurance plan provides up to an additional \$800,000 in coverage.

Executive Medical Insurance. Our NEOs, except for the Executive Vice President, Global Geographies, the Executive Vice President, Americas and Chief Corporate Officer and Executive Vice President, Government, all of whom became executive officers after the plan became frozen to new participants, are eligible to participate in the U.S. Executive Medical Insurance plan on an annual basis. This plan is in addition to the basic medical insurance programs that are open to most AECOM employees. The Executive Medical Insurance plan provides up to 100% reimbursement for certain medical expenses. This plan is frozen to new participants.

Table of Contents

Executive Allowance. Our NEOs, except for the Executive Vice President, Geographies, also receive an executive allowance, ranging from \$20,000 to \$40,000 annually, which may be used in their discretion.

AECOM Retirement & Savings Plan ("RSP"). Our U.S. employees are allowed to make pre-tax, Roth or after-tax contributions of up to 6% of their compensation to this 401(k) plan, and AECOM makes a matching contribution equal to 50% of the employees' contributions (maximum 3% of compensation). In addition, if an employee elects to make a contribution in excess of 6%, but not greater than 31%, subject to IRS limits, whichever is less, and chooses to invest these contributions in Company common stock, a supplemental company matching contribution of 10% of the employees' contributions is provided.

AECOM Deferred Compensation Plan ("DCP"). Prior to its liquidation in December 2010, the U.S. DCP was a nonqualified deferred compensation plan that enabled highly compensated U.S. employees to defer compensation that they might otherwise have contributed to the tax-qualified RSP. More information on the DCP is available in the Non-qualified Deferred Compensation for Fiscal Year 2011 table.

Accrual Freeze of the AECOM Pension Plan, Management Supplemental Executive Retirement Plan (MSERP), 1992 Supplemental Executive Retirement Plan (92 SERP) and Excess Benefit Plan. Effective October 9, 2009, AECOM decided to freeze future accruals to the AECOM Pension Plan, MSERP, 92 SERP and Excess Benefit Plan for all plan participants. The costs of funding the plans were significant and disproportionate to the Company relative to the benefits provided. In addition, certain features of the plans, such as the impact of financial markets on plan assets, exposed AECOM to considerable risk and volatility in funding such plans. Since the October 9, 2009 freeze, participants have not accrued any additional benefits under the plans. Additional information is provided below in the Pension Benefits for Fiscal Year 2011 section.

AECOM Australia Superannuation Plan. This plan is a defined benefit fund providing a lump sum benefit to members. The defined benefit plan is closed to new members. Of our NEOs, only our Executive Vice President, Geographies, is an executive defined benefit member in this plan. Additional information is provided below in the Pension Benefits for Fiscal Year 2011 section.

Other Benefits. Our Executive Vice President, Geographies, receives additional benefits as part of his international assignment in Dubai, United Arab Emirates. While on assignment in Dubai at the request of the Company, Mr. Robinson receives a cost of living differential, a location allowance to compensate for any hardship or adverse work or living conditions, an automobile allowance to cover transportation costs, a housing allowance, and a travel allowance for family home visits. Additional detail regarding these allowances is provided in the All Other Compensation column of the Summary Compensation Table.

Perquisites. We believe that offering our NEOs certain limited perquisites, including an executive allowance, facilitates the operation of our business, assists in their retention and aids in the recruitment of new executives. We believe the benefits to us of providing these perquisites outweigh their costs. It is our intention to periodically assess our business needs and evolving compensation practices to ensure that our perquisite offerings are competitive and in the best interests of our shareholders.

Change in Control Provisions, Severance Benefits and Employment Agreements

We typically do not enter into employment agreements with our executives except in limited circumstances such as to ensure the retention of an executive for a period of time after an acquisition. We do not have any employment agreements in effect with any of our NEOs, including our CEO. We have an employment letter for our Executive Vice President, Geographies, outlining the conditions of his international assignment, including various allowances (described above in Other Benefits), but the letter does not guarantee continued employment or provide post-termination benefits.

Table of Contents

Effective March 5, 2009, the Company adopted the AECOM Technology Corporation Change in Control Severance Policy for Key Executives. The policy was created to provide severance benefits to certain key executives and to make certain that those executives would remain focused on shareholder interests in the event of a corporate transaction, including the NEOs, in connection with a change in control of the Company and an involuntary termination.

The policy provides the following benefits upon termination without cause or for good reason following a change in control ("double trigger" for cash and equity):

A lump sum severance payment equal to a multiple (2 for the CEO and Chairman, and 1.5 for the other NEOs) of the sum of each individual's base salary and average bonus (the average of the bonus paid for the three fiscal years preceding the year of termination);

Continuation of group health benefits for the number of years equal to the severance multiple;

Accelerated vesting of all time vested equity awards, including stock options and RSUs; and

Accelerated vesting of performance based awards, such as PEP awards, with payment based on performance achievement through the date of the change in control.

The policy does not provide a gross-up for excise or other taxes. Additional details can be found under Payments and Benefits upon Termination or Change in Control.

We also maintain a severance policy for U.S employees, including each of the NEOs other than the Executive Vice President, Geographies. The Executive Vice President, Geographies is eligible upon termination for statutory severance under United Arab Emirates laws. U.S. employees may be eligible for severance if their employment is terminated due to lack of work, restructuring or reorganization of a group, a reduction in force with no reasonable offer of an internal transfer, elimination of a job or position, or voluntary acceptance of a Company-initiated retirement program. A release agreement must be signed in order to receive severance pay. Employees with a title of Vice President or above are eligible for 12 weeks of base pay regardless of years of service.

Clawback Provisions

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank"), companies will be required to adopt a policy to recover certain compensation in the event of a material accounting restatement. AECOM intends to adopt a policy as required by Dodd-Frank when final regulations have been provided by the Securities and Exchange Commission and the New York Stock Exchange. In the event of a restatement of financial results prior to formal adoption of a policy, the Committee would evaluate whether compensation adjustments are appropriate based upon the facts and circumstances surrounding the restatement and structure an appropriate adjustment of repayment of compensation.

Hedging

The Company's insider trading policy prohibits all directors, executive officers (as defined by Section 16 of the Securities Act of 1934) and certain other employees designated as insiders from engaging in any hedging or monetization transactions, such as zero-cost collars and forward-sale contracts, involving Company securities.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits a company's federal tax deduction on compensation paid in excess of \$1 million a year to the Chief Executive Officer and the other NEOs other than the Chief Financial Officer. The IRS' limitation does not apply to compensation that qualifies as "performance-based" under federal tax law. Our policy is to structure, to the extent practicable,

Table of Contents

compensation arrangements with our executive officers that are fully deductible under federal tax law unless the benefit of such deductibility is outweighed by our corporate objectives.

We will continue to monitor the deductibility of executive compensation pursuant to Section 162(m) and will take appropriate action if and when it is warranted. Since corporate objectives may not always be consistent with the requirements for full deductibility, we are prepared, when appropriate, to enter into compensation arrangements under which payments may not be deductible under Section 162(m). Thus, deductibility will not be the sole factor used in ascertaining appropriate levels or modes of compensation.

Accounting Standards

Financial Accounting Standards Board Accounting Standards Codification Topic 718 (which formerly was referred to as SFAS 123R), requires a charge to compensation expense for the fair value of equity compensation awards. Grants of stock options, RSUs, and PEP awards under the Company's 2006 Stock Incentive Plan are accounted for under Codification Topic 718. The Committee considers the accounting implications of significant compensation decisions, particularly in connection with decisions that relate to AECOM's long-term incentive awards.

Grants of Plan-Based Awards for Fiscal Year 2011

The Compensation/Organization Committee typically considers and approves long-term incentive awards in the first quarter of each fiscal year at regular meetings. The grant date for the award is the date the Compensation/Organization Committee meets and approves the award.

The following table sets forth information with respect to long-term incentive awards granted to Named Executive Officers during FY2011. The long-term incentive awards issued on December 8, 2010, used the following mix: 50% PEPs, 25% RSUs and 25% Stock Options. Refer to the long-term incentive awards section of the "Compensation Discussion and Analysis" in this proxy statement for more details regarding the various long-term incentive programs. All of the long-term incentive awards in the table below were made pursuant to the Company's 2006 Stock Incentive Plan.

- (1) The target for the PEP2011 awards was 100% of the granted PEP units. The maximum for the PEP2011 awards was 200% of the granted PEP units.
- (2) The Grant Date Fair Value of Stock and Option Awards amounts in this column are based on the following calculations:

Stock Option Awards issued on December 8, 2010, are calculated based upon the number of options granted multiplied by the Black-Scholes value of \$9.39, vest one-third each year on the annual grant date of December 8 for three years and are exercisable for a period of seven years from the date of grant.

Table of Contents

Assumptions used in the calculation of the Black-Scholes value are included in "Stock Plans" in note 16 to the Company's audited financial statements for the fiscal years ended September 30, 2011, 2010 and 2009, in the Company's Annual Reports on Form 10-K filed with the Securities and Exchange Commission.

PEP Awards are calculated based upon the number of target PEP units granted multiplied by the common stock price of \$27.54 on the day of grant. This PEP award will cliff vest 100% on December 15, 2013 following the close of the three-year performance period, provided the performance conditions are achieved.

RSU Awards are calculated based upon the number of RSUs granted multiplied by the common stock price of \$27.54 on the day of grant for the awards issued on December 8, 2010. These RSU awards will vest 100% on December 15, 2013 for each of the Named Executive Officers other than the President and CEO whose awards will vest one-third each year on December 15, 2011, 2012 and 2013.

Pension Benefits for Fiscal Year 2011

As of October 9, 2009, AECOM froze all future benefit accruals under the AECOM Technology Corporation Pension Plan, AECOM Technology Corporation Management Supplemental Executive Retirement Plan and 1992 AECOM Technology Corporation Supplemental Executive Retirement Plan.

AECOM Technology Corporation Pension Plan. The AECOM Pension Plan is a U.S. defined benefit plan that was adopted in September 1990. Participation in the AECOM Pension Plan was closed to new entrants effective April 1, 1998. Of our Named Executive Officers, only our CEO and Chairman are eligible to receive a retirement pension benefit under the Pension Plan.

AECOM Technology Corporation Management Supplemental Executive Retirement Plan ("MSERP"). The Company amended the AECOM Pension Plan, effective July 1, 1998, to provide that certain participants, including Named Executive Officers (our CEO and Chairman), earning benefits under the AECOM Pension Plan would instead earn identical benefits under a plan known as the Management Supplemental Executive Retirement Plan, or MSERP. The MSERP replaces and provides benefits identical in nature to the AECOM Pension Plan but on an unfunded basis.

1992 AECOM Technology Corporation Supplemental Executive Retirement Plan ("92 SERP"). In October 1992, we established the unfunded Supplemental Executive Retirement Plan, or 92 SERP, in order to provide some of our U.S. resident executive officers with pre-retirement death benefits and retirement benefits consistent with the level provided by the previous AECOM Pension Plan formula. The 92 SERP requires a participant to have reached the minimum age of 50 and to have worked at AECOM for at least five years. The plan also includes early retirement provisions at age 62 with full retirement benefits.

Of our Named Executive Officers, only our CEO is eligible to receive any benefits from the 92 SERP.

AECOM Excess Benefit Plan. In July of 1996, we established the AECOM Excess Benefit Plan for U.S. participants in the Supplemental Executive Retirement Plans in order to provide only those benefits which the AECOM Pension Plan cannot provide due to federal tax limits. Benefits from the Excess Benefit Plan are unfunded and will reduce, dollar-for-dollar, the pension benefit paid by the Supplemental Executive Retirement Plans.

Of our Named Executive Officers, only our CEO is eligible to receive any benefits from the Excess Benefit Plan.

AECOM Australia Superannuation Plan. This plan is a defined benefit fund providing a lump sum benefit to members. The defined benefit plan is closed to new members. Executive defined benefit members may retire within 10 years of their normal retirement date of age 65 provided they have completed 10 years of plan membership. The benefit is 18.5% of final average salary for each year of pensionable service.

Of our Named Executive Officers, only our Executive Vice President, Geographies, is an executive defined benefit member in this plan.

The following table sets forth information with respect to the present value of the accumulated pension benefits for the Named Executive Officers during FY2011. Messrs. Burke and Jaska and Ms. Chmielinski are not eligible to participate in any of the AECOM Pension Plans.

Name and Principal Position	Plan Name	Number of Years Credited Service (#)	Present Value of Accumulated Benefits \$(1)	Payments During Last FY (\$)
John M. Dionisio President, CEO (PEO)	Pension Plan(2)	22.5000	\$ 237,644	\$ 0

Nigel C. Robinson EVP, Global Geographies	Australia Superannuation Plan(5)	22.1667	\$ 3,102,750(6)	\$ 0

- (1) *Present Value of Accumulated Benefits (\$)* Liabilities shown in this table are computed using the projected unit credit method reflecting average salary and service (where applicable) as of fiscal year end 2011. The material assumptions used to determine these liabilities can be located in note 9 to our consolidated financial statements found in our Annual Report Form 10-K, except we assumed no pre-retirement decrements and that retirement occurs on the respective plans' earliest unreduced retirement age.
- (2) *AECOM Technology Corporation Pension Plan* The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and "Final Average Compensation." Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. Compensation is further limited to the applicable Internal Revenue Code section 401(a)(17) limit. The plan benefit is limited to the applicable Internal Revenue Code section 415(b) limit. Only employees hired before April 1, 1998, are eligible to participate in the plan. In addition, eligibility for the plan occurs no later than the completion of one year of service. Early retirement age is the first day of any month after age 55, provided the participant has earned five years of service. The earliest unreduced retirement age is 65. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to an Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k). The plan was frozen October 9, 2009.
- (3) *AECOM Technology Corporation Management Supplemental Executive Retirement Plan* The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. Compensation is further limited to the applicable Internal Revenue Code section 401(a)(17) limit. The plan benefit is limited to the applicable Internal Revenue Code section 415(b) limit. The participant's benefit under this plan is equal to the participant's Total AECOM Pension Plan Benefit minus the benefit payable to the participant under the AECOM Technology Corporation Pension Plan. Only employees hired before April 1, 1998, are eligible to participate in the plan. In addition, eligibility for the plan occurs no later than the completion of one year of service and the participant has to be a member of a select group of management or highly compensated employees, is an officer, is eligible for the AECOM Technology Corporation Incentive Compensation Plan and has been selected by the Compensation and Organization Committee to participate in the plan. Early retirement age is the first day of any month after age 55, provided the participant has earned five years of service. The earliest unreduced retirement age is 65. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to an Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k). The plan was frozen October 9, 2009.
- (4) *1992 AECOM Technology Corporation Supplemental Executive Retirement Plan* The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994 and ending December 31, 2003. The participant's benefit under this plan is equal to the participant's Unlimited AECOM Pension Plan benefit minus the benefit

payable to the participant under the AECOM Technology Corporation Management Supplemental Executive Retirement Plan and the AECOM Technology Corporation Pension Plan. Only employees hired before April 1, 1998, are eligible to participate in the plan. In addition, eligibility for the plan occurs when the participant is a member of a select group of management or highly compensated employees, has completed at least five years of service, is at least 50 years old and has been selected by the Board of Directors to participate in the plan. Early retirement age is the first day of any month after age 55, provided the participant has earned three years of service. The earliest unreduced retirement age is 62. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to an Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k). The plan was frozen October 9, 2009.

- (5) *Australia Superannuation Plan* This Plan is a funded defined benefit plan established on July 1, 1965. The Plan has both a defined benefit and a defined contribution section. The Plan is closed to new defined benefit members. New employees join the defined contribution section. For active defined benefit employees, the Plan provides lump sum benefits to Executive and Staff members on leaving service for any reason. On retirement between age 55 and 65, the benefit is a multiple of Final Average Salary. The benefit accrual rate is 18.5% for Executives and 16.5% for Staff members. On death or total and permanent disablement, the benefit is determined as the prospective retirement benefit at age 65; with the unfunded part of this benefit insured. Insured benefits are also payable on temporary disablement for a maximum period of two (2) years. On leaving service before age 55, the benefit is the greater of a discounted accrued retirement benefit and an accumulation of contributions with investment earnings (based on contributions of 8% of salary for Executive and 12.5% for Staff members). Staff members contribute 5% of salary.
- (6) Mr. Robinson's present value of accumulated benefit was AUD\$3,020,737 converted to \$3,102,750 based on an average exchange rate of AUD\$1 = \$1.02715. All average exchange rate data was provided by Oanda.com.

Payments and benefits that would be provided to each Named Executive Officer in addition to those received by all employees (such as payout of 401(k) balances and paid time off) as a result of certain termination events are set forth in the table below. The amounts shown assume termination of employment effective as of September 30, 2011.

Long-Term Incentives

Pursuant to the terms of each of the RSU and PEP awards ("Long-Term Incentives" in the tables below) held by our Named Executive Officers, upon the date of a termination of the executive's employment as a result of death or Total and Permanent Disablement, the unvested awards granted prior to December 2010 will vest on a pro-rata basis which will then be applied to the percent earned at the time of the event and all other unvested awards will vest in full. Total and Permanent Disablement means the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve (12) months. Pro-rata vesting is calculated as the percentage where the denominator is the number of months in the performance cycle of the relevant award and the numerator is the number of whole months from the beginning date of the performance cycle through the date of the executive's termination.

(1) Under the Change in Control Severance Policy in the event that any benefit payable constitutes a "parachute payment" within the meaning of Internal Revenue Code Section 280G and would be subject to excise tax imposed by Section 4999 of the Internal Revenue Code, then payments shall be provided either in full or reduced to an amount in which no portion of the benefits would be subject to excise tax, whichever provides the greatest after-tax benefit. The amounts in the table represent the benefits without consideration of reduction to avoid excise tax and based on assumption of a double-trigger event.

(2) *Present Value of Accumulated Benefits (\$)* Liabilities shown in this table for the AECOM Technology Corporation Pension Plan and the AECOM Technology Corporation Management Supplemental Executive Retirement Plan are computed using the same material assumptions used to determine the analogous liabilities located in note 9 to our consolidated financial statements found elsewhere in this registration statement, except that the values provided are the values had the participant terminated and received immediate benefits as of September 30, 2011. In addition, the values provided above for the 1992 AECOM Technology Corporation Supplement Executive Retirement Plan have been calculated using the Plan's lump sum basis, which is a 2.42% interest rate and GAM83 mortality for distributions made during the plan year beginning October 1, 2011, since the payment would occur on October 1, 2011 if the participants had terminated on September 30, 2011.

(3) This row includes the payment of all outstanding RSU2011, RSU2010, RSU2009, PEP2009, PEP2010 and PEP2011 awards upon Death and Total and Permanent Disability as applicable for each individual. All calculations in this row are based on the AECOM common stock price as of September 30, 2011, which was \$17.67 per share.

(4) All Severance Payment amounts were valued using the average exchange rate for FY2011, from United Arab Dirham to U.S. Dollars, of 0.27230. If Mr. Robinson is involuntarily terminated upon change in control, he would be eligible for severance under our Change in Control Severance Policy for Key Executives. Mr. Robinson is eligible upon termination for statutory severance (End of Service Gratuity) under United Arab Emirates laws for other termination scenarios. Upon Early Retirement and Voluntary Termination as well as Resignation Upon Change in Control, Mr. Robinson is eligible to receive a severance payment based on 14 days of base salary for each year of service, prorated for any partial years worked. Upon termination for all other reasons in the table above, Mr. Robinson would be eligible for a severance payment based on 21 days of base salary for each year of service, prorated for any partial years worked.

Australia Superannuation Plan This plan is a funded defined benefit plan established on July 1, 1965. The plan has been closed to new defined benefit members. For active defined benefit employees, the plan provides lump sum benefits to Executive members on leaving service for any reason. On retirement between age 55 and 65, the benefit is 18.5% of the final average salary for each year of pensionable service. On death or total and permanent disablement, the benefit is determined as the prospective retirement benefit at age 65; with the unfunded part of this benefit insured. The death benefit is a lump sum equal to 18.5% of current salary multiplied by the number of years of membership in the plan the participant would have had if they had survived and terminated on their normal retirement date. Insured benefits are also payable on temporary disablement for a maximum period of two (2) years. On leaving service before age 55, the benefit is the greater of a discounted accrued retirement benefit and an accumulation of contributions with investment earnings (based on contributions of 8% of salary for Executive members).

Mr. Robinson's values shown above was converted from AUD to USD based on an average exchange rate of AUD\$1 = \$1.02715. His accumulated benefit was AUD\$3,020,737 converted to \$3,102,750 and present value of death benefit and permanent disability benefit was AUD\$4,147,061

converted to \$4,259,654. All average exchange rate data was provided by Oanda.com.

Director Compensation

Those of our directors who also serve as employees and/or executive officers of the company are not compensated for attending meetings or performing any other function of the Board of Directors. All other directors, except, if applicable, the non-executive Chairman of the Board, are paid a retainer of \$50,000 per year. In addition, these non-employee directors receive the following meeting fees:

Board of Directors and committee fees of \$1,500 per meeting when in person and \$1,000 when telephonic;

Committee Chair fees for Compensation/Organization, Nominating, Governance and Risk and Planning, Finance and Investment Committees of \$3,000 per meeting when in person and \$2,000 per meeting when telephonic instead of the regular committee fees; and

Audit Committee Chair fees of \$4,500 per meeting when in person and \$3,000 when telephonic instead of the regular committee fees.

In lieu of a retainer, our lead independent director is paid the regular meeting fee for attendance at committee meetings, regardless of whether he or she is a member of the committee. Each outside director also receives a \$1,000 per day fee for attendance at other qualifying Board-related functions in his or her capacity as a director.

Each non-employee director, except for the non-executive Chairman of the Board, receives an annual long-term equity award of \$100,000, comprised of 50% in time-vested RSUs and 50% in time-vested stock options to purchase AECOM stock. Each non-employee director who joins our Board of Directors will receive an annual long-term equity award pro-rated for the number of quarters he or she has served.

In fiscal year 2011, the non-executive Chairman of the Board received annual Board-related compensation equal to \$450,029, prorated among the components of a retainer of \$130,000, meeting fees of \$60,000 and annual long-term equity awards of \$260,029, consisting of \$130,028 in RSUs and \$130,001 in shares of options to purchase AECOM stock, based on the relative proportion of these amounts paid to other non-employee directors.
