FINANCIAL INFORMATION

ITEM 1: FINANCIAL STATEMENTS

The information furnished in the accompanying unaudited Consolidated Balance Sheets, Condensed Consolidated Statements of Income, Consolidated Statement of Shareholders' Equity and Consolidated Statements of Cash Flows reflects all adjustments, consisting of normal recurring items, which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. The accompanying financial statements and notes thereto should be read in conjunction with the financial statements and notes for the three years ended December 31, 2014 included in Washington Real Estate Investment Trust's 2014 Annual Report on Form 10-K.

WASHINGTON REAL ESTATE INVESTMENT TRUST AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2015
(UNAUDITED)

NOTE 1: NATURE OF BUSINESS

Washington Real Estate Investment Trust (“Washington REIT”), a Maryland real estate investment trust, is a self-administered real estate investment trust, successor to a trust organized in 1960. Our business consists of the ownership and operation of income-producing real estate properties in the greater Washington metro region. We own a diversified portfolio of office buildings, multifamily buildings and retail centers.

Federal Income Taxes

We believe that we qualify as a real estate investment trust (“REIT”) under Sections 856-860 of the Internal Revenue Code and intend to continue to qualify as such. To maintain our status as a REIT, we are, among other things, required to distribute 90% of our REIT taxable income (which is, generally, our ordinary taxable income, with certain modifications), excluding any net taxable gains and any deductions for dividends to our shareholders on an annual basis. When selling a property, we generally have the option of (a) reinvesting the sales proceeds of the property sold, in a way that allows us to defer recognition of some or all capital gain realized on the sale, (b) distributing gains to the shareholders with no tax to us or (c) treating net long-term capital gains as having been distributed to the shareholders, paying the tax on the gain deemed distributed and allocating the tax paid as a credit to the shareholders.

Generally, and subject to our ongoing qualification as a REIT, no provisions for income taxes are necessary except for taxes on undistributed taxable income and taxes on the income generated by our taxable REIT subsidiaries (“TRSs”). Our TRSs are subject to corporate federal and state income tax on their taxable income at regular statutory rates, or as calculated under the alternative minimum tax, as appropriate. As of June 30, 2015 and December 31, 2014, our TRSs had no net deferred tax assets and a net deferred tax liability of \$0.7 million and \$0.6 million, respectively. This deferred tax liability is primarily related to temporary differences in the timing of the recognition of revenue, amortization and depreciation.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Significant Accounting Policies

We have prepared our consolidated financial statements using the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2014.

New Accounting Pronouncements

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the new standard. The new standard is effective for public entities for fiscal years beginning after December 15, 2015 and for interim periods therein. Early adoption is permitted for financial statements that have not been previously issued. We do not expect this ASU to have a material impact on our consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which creates a single source of revenue guidance. The new standard provides accounting guidance for all revenue arising from contracts

with customers and affects all entities that enter into contracts to provide goods or services to their customers (unless the contracts are in the scope of other U.S. generally accepted accounting principles (“GAAP”) requirements, such as the leasing literature). The guidance also provides a model for the measurement and recognition of gains and losses on the sale of certain nonfinancial assets, such as property and equipment, including real estate. The new standard is effective for public entities for fiscal years beginning after December 15, 2017 and for interim periods therein. Early adoption is permitted for public entities beginning after December 15, 2016. We are currently evaluating the impact the new standard may have on Washington REIT.

Principles of Consolidation and Basis of Presentation

The accompanying unaudited consolidated financial statements include the consolidated accounts of Washington REIT, our majority-owned subsidiaries and entities in which Washington REIT has a controlling interest, including where Washington REIT has been determined to be a primary beneficiary of a variable interest entity (“VIE”). See note 3 for additional information on the properties for which there is a noncontrolling interest. All intercompany balances and transactions have been eliminated in consolidation.

We have prepared the accompanying unaudited financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although we believe that the disclosures made are adequate to make the information presented not misleading. In addition, in the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the results for the periods presented have been included. These unaudited financial statements should be read in conjunction with the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Within these notes to the financial statements, we refer to the three months ended June 30, 2015 and June 30, 2014 as the “2015 Quarter” and the “2014 Quarter,” respectively, and the six months ended June 30, 2015 and June 30, 2014 as the “2015 Period” and the “2014 Period,” respectively.

Use of Estimates in the Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3: REAL ESTATE

Redevelopment

In the office segment, we had a redevelopment project to renovate Silverline Center, an office property in Tysons, Virginia. As of June 30, 2015, we had invested \$35.4 million in the renovation. We completed major construction activities on this project during the 2015 Quarter, and placed into service substantially completed portions of the project totaling \$25.3 million. The remaining components of the redevelopment project will be placed into service the earlier of when they are substantially completed and available for occupancy or one year from completion of major construction activities.

Variable Interest Entities

In November 2011, we executed a joint venture operating agreement with a real estate development company to develop a high-rise multifamily property at 1225 First Street in Alexandria, Virginia. Washington REIT and the real estate development company own 95% and 5% of the joint venture, respectively. In the first quarter of 2013, we decided to delay commencement of construction due to market conditions and concerns of oversupply. During the 2015 Quarter, we determined that we would not develop the property and began negotiations to sell our interest in the joint venture. We recognized a \$5.9 million impairment charge for the 2015 Quarter in order to reduce the carrying value of the property to its estimated fair value. We based this fair value on the \$14.5 million sale price in the purchase and sale agreement to sell our 95% interest in the joint venture that we executed subsequent to the 2015 Quarter. The property did not meet the criteria for classification as held for sale as of June 30, 2015. This fair

valuation falls into Level 2 of the fair value hierarchy.

In June 2011, we executed a joint venture operating agreement with a real estate development company to develop The Maxwell, a mid-rise multifamily property at 650 North Glebe Road in Arlington, Virginia. Major construction activities at The Maxwell ended during December 2014, and the building became available for occupancy during the first quarter of 2015. Washington REIT is the 90% owner of the joint venture. The real estate development company owns 10% of the joint venture and was responsible for the development and construction of the property.

We have determined that the 1225 First Street and The Maxwell joint ventures are variable interest entities ("VIE's") primarily based on the fact that the equity investment at risk is not sufficient to permit either entity to finance its activities without additional financial support. As of June 30, 2015, \$31.1 million was outstanding on The Maxwell's construction loan. For 1225 First Street, we originally expected that 70% of the total development costs would be financed through debt. We have also determined that

Washington REIT is the primary beneficiary of each VIE due to the fact that Washington REIT is providing 90% to 95% of the equity contributions and would oversee management of each property, if built, no later than stabilization.

We included the development costs associated with the joint venture for 1225 First Street on our consolidated balance sheets in properties under development or held for future development, as the property met the criteria for classification as held for sale subsequent to June 30, 2015. As of June 30, 2015 and December 31, 2014, the land and capitalized development costs for 1225 First Street were as follows (in thousands):

	June 30, 2015	December 31, 2014
Properties under development or held for future development	\$ 15,292	\$ 20,807
Cash and cash equivalents	18	395

As of June 30, 2015 and December 31, 2014, the liabilities for 1225 First Street were as follows (in thousands):

Accounts payable and other liabilities	\$ 11	\$ 38

As of June 30, 2015 and December 31, 2014, The Maxwell's assets were as follows (in thousands):

	June 30, 2015	December 31, 2014
Land	\$ 12,851	\$ 12,851
Income producing property	37,690	18,432

Properties under development or held for future development	—	17,947
Other assets	513	\$ —
	\$ 49,887	\$ 49,230

As of June 30, 2015 and December 31, 2014, The Maxwell's liabilities were as follows (in thousands):

	June 30, 2015	December 31, 2014
Mortgage notes payable	\$ 31,115	\$ 27,690
Accounts payable and other liabilities	782	2,196
Tenant security deposits	51	17
	\$ 31,948	\$ 29,903

Sold and Held for Sale Properties and Discontinued Operations

We dispose of assets that no longer meet our long-term strategy or return objectives and where market conditions for sale are favorable. The proceeds from the sales may be reinvested into other properties, used to fund development operations or to support other corporate needs, or distributed to our shareholders.

During the 2015 Quarter, 15,000 square feet of land at Montrose Shopping Center, a retail property in Rockville, Maryland, was condemned as part of an eminent domain taking action. The taken land was at the periphery of the property and its taking does not impact the property's operations. We received \$2.0 million as compensation for the taken land, and recognized a \$1.5 million gain on sale of real estate during the 2015 Quarter.

Subsequent to the end of the 2015 Period, we executed a purchase and sale agreement for the sale of Munson Hill Towers, a 279 unit multifamily property in Falls Church, Virginia, for a contract sale price of \$57.1 million. We expect to close on the sale before the end of 2015. The property did not meet the criteria for classification as held for sale until after the 2015 Quarter and is included on our consolidated balance sheets as follows:

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

	June 30, 2015	December 31, 2014

Income producing property	19,279	19,076
Accumulated depreciation and amortization	(14,508) (14,111

In September 2013, we entered into four separate purchase and sale agreements to effectuate the sale of our entire medical office segment (including land held for development at 4661 Kenmore Avenue) and two office buildings (Woodholme Center and 6565 Arlington Boulevard) for an aggregate purchase price of \$500.8 million. The sale was structured as four transactions. Transactions I and II closed in November 2013 and Transactions III and IV closed in January 2014.

The results of the assets in our former medical office segment sold in January 2014 are summarized as follows (amounts in thousands, except per share data):

NOTE 4: UNSECURED LINES OF CREDIT PAYABLE

On June 23, 2015, we terminated our \$100.0 million unsecured line of credit maturing in June 2015 ("Prior Credit Facility No. 1") and our \$400.0 million unsecured line of credit maturing in July 2016 ("Prior Credit Facility No. 2"),

and executed a new \$600.0 million unsecured credit agreement ("New Credit Facility") that matures in June 2019, unless extended pursuant to one or both of the two six-month extension options. The New Credit Facility has an accordion feature that allows us to increase the facility to \$1.0 billion, subject to the extent the lenders agree to provide additional revolving loan commitments or term loans. The New Credit Facility bears interest at a rate of either LIBOR plus a margin ranging from 0.875% to 1.55% or the base rate plus a margin ranging from 0.0% to 0.55% (in each case depending upon Washington REIT's credit rating). The base rate is the highest of the

administrative agent's prime rate, the federal funds rate plus 0.50% and the LIBOR market index rate plus 1.0%. In addition, the New Credit Facility requires the payment of a facility fee ranging from 0.125% to 0.30% (depending on Washington REIT's credit rating) on the \$600.0 million committed capacity, without regard to usage. As of June 30, 2015, the interest rate on the facility is LIBOR plus 1.00% and the facility fee is 0.20%.

The amount of the New Credit Facility unused and available at June 30, 2015 is as follows (in thousands):

Committed capacity	\$600,000	
Borrowings outstanding	(185,000)
Letters of credit issued ⁽¹⁾	(15,474)
Unused and available	\$399,526	

⁽¹⁾ The letter of credit is provided to the lender for John Marshall II relating to tenant improvements.

We executed borrowings and repayments on the unsecured lines of credit during the 2015 Period as follows (in thousands):

	Prior Credit Facility No. 1	Prior Credit Facility No. 2	New Credit Facility
Balance at December 31, 2014	\$5,000	\$45,000	\$—

NOTE 5: NOTES PAYABLE

We repaid the remaining \$150.0 million of our 5.35% unsecured notes on their maturity date of May 1, 2015 using borrowings on Prior Credit Facility No. 2.

NOTE 6: STOCK BASED COMPENSATION

Washington REIT maintains short-term ("STIP") and long-term ("LTIP") incentive plans that allow for stock-based awards to officers and non-officer employees. Stock based awards are provided to officers and non-officer employees, as well as trustees, under the Washington Real Estate Investment Trust 2007 Omnibus Long-Term Incentive Plan which allows for awards in the form of restricted shares, restricted share units, options and other awards up to an aggregate of 2,000,000 shares over the ten year period in which the plan will be in effect. Restricted share units are converted into shares of our stock upon full vesting through the issuance of new shares.

Total Compensation Expense

Total compensation expense recognized in the consolidated financial statements for all outstanding share based awards was \$1.2 million and \$1.4 million for the 2015 and 2014 Quarters, respectively, and \$3.1 million and \$2.5 million for the 2015 and 2014 Periods, respectively.

Restricted Share Awards

The total fair values of restricted share awards vested was \$2.3 million and \$0.7 million for the 2015 and 2014 Periods, respectively.

The total unvested restricted share awards at June 30, 2015 was 221,342 shares, which had a weighted average grant date fair value of \$27.29 per share. As of June 30, 2015, the total compensation cost related to unvested restricted share awards was \$3.0 million, which we expect to recognize over a weighted average period of 22 months.

NOTE 7: FAIR VALUE DISCLOSURES

Assets and Liabilities Measured at Fair Value

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosures about the fair value measurements are required to be disclosed separately for each major category of assets and liabilities, as follows:

12

Level 1: Quoted prices in active markets for identical assets

Level 2: Significant other observable inputs

Level 3: Significant unobservable inputs

The only assets or liabilities we had at June 30, 2015 and December 31, 2014 that are recorded at fair value on a recurring basis are the assets held in the Supplemental Executive Retirement Program (“SERP”), which primarily consists of investments in mutual funds. We base the valuations related to this asset on the observable market values of the investments that comprise the SERP (Level 2 inputs).

The fair values of these assets at June 30, 2015 and December 31, 2014 were as follows (in thousands):

	June 30, 2015			December 31, 2014				
	Fair Value	Level 1	Level 2	Level 3	Fair Value	Level 1	Level 2	Level 3
Assets:								
SERP	\$1,818	\$—	\$1,818	\$—	\$2,778	\$—	\$2,778	\$—

Financial Assets and Liabilities Not Measured at Fair Value

The following disclosures of estimated fair value were determined by management using available market information and established valuation methodologies, including discounted cash flow. Many of these estimates involve significant judgment. The estimated fair value disclosed may not necessarily be indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions or estimation methodologies could have an effect on the estimated fair value amounts. In addition, fair value estimates are made at a point in time and thus, estimates of fair value subsequent to June 30, 2015 may differ significantly from the amounts presented.

Following is a summary of significant methodologies used in estimating fair values and a schedule of fair values at June 30, 2015 and December 31, 2014.

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents and restricted cash include cash and commercial paper with original maturities of less than 90 days, which are valued at the carrying value, which approximates fair value due to the short maturity of these instruments (Level 1 inputs).

Notes Receivable

We acquired a note receivable (“2445 M Street note”) in 2008 with the purchase of 2445 M Street. We estimate the fair value of the 2445 M Street note based on a discounted cash flow methodology using market discount rates (Level 3 inputs).

Debt

Mortgage notes payable consist of instruments in which certain of our real estate assets are used for collateral. We estimate the fair value of the mortgage notes payable by discounting the contractual cash flows at a rate equal to the relevant treasury rates (with respect to the timing of each cash flow) plus credit spreads estimated through independent comparisons to real estate assets or loans with similar characteristics. Lines of credit payable consist of bank facilities which we use for various purposes including working capital, acquisition funding or capital improvements. The lines of credit advances are priced at a specified rate plus a spread. We estimate the market value based on a comparison of the spreads of the advances to market given the adjustable base rate. We estimate the fair value of the notes payable by

discounting the contractual cash flows at a rate equal to the relevant treasury rates (with respect to the timing of each cash flow) plus credit spreads derived using the relevant securities' market prices. We classify these fair value measurements as Level 3 as we use significant unobservable inputs and management judgment due to the absence of quoted market prices.

As of June 30, 2015 and December 31, 2014, the carrying values and estimated fair values of our financial instruments were as follows (in thousands):

	June 30, 2015		December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$22,778	\$22,778	\$15,827	\$15,827
Restricted cash	13,705	13,705	10,299	10,299
2445 M Street note	4,781	5,321	4,404	5,113
Mortgage notes payable	419,755	431,173	418,525	433,762
Lines of credit	185,000	185,000	50,000	50,000
Notes payable	597,442	625,255	747,208	782,042

NOTE 8: EARNINGS PER COMMON SHARE

We determine “Basic earnings per share” using the two-class method as our unvested restricted share awards and units have non-forfeitable rights to dividends and are therefore considered participating securities. We compute basic earnings per share by dividing net income attributable to the controlling interest less the allocation of undistributed earnings to unvested restricted share awards and units by the weighted-average number of common shares outstanding for the period.

We determine “Diluted earnings per share” as the more dilutive of the two-class method or the treasury stock method with respect to the unvested restricted share awards. We further evaluate any other potentially dilutive securities at the end of the period and adjust the basic earnings per share calculation for the impact of those securities that are dilutive. Our diluted earnings per share calculation includes the dilutive impact of employee stock options (prior to their expiration at December 31, 2014) based on the treasury stock method and our share based awards with performance conditions prior to the grant date and all market condition awards under the contingently issuable method. We had a loss from continuing operations for the 2015 Quarter and 2014 Period and therefore diluted earnings per share is calculated in the same manner as basic earnings per share for these periods.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

The computations of basic and diluted earnings per share for the three and six months ended June 30, 2015 and 2014 were as follows (in thousands, except per share data):

NOTE 9: SEGMENT INFORMATION

We have three reportable segments: office, retail and multifamily. Office buildings provide office space for various types of businesses and professions. Retail shopping centers are typically grocery store-anchored neighborhood centers that include other small shop tenants or regional power centers with several junior box tenants. Multifamily properties provide rental housing for individuals and families throughout the Washington metropolitan area.

We evaluate performance based upon operating income from the combined properties in each segment. Our reportable operating segments are consolidations of similar properties. GAAP requires that segment disclosures present the measure(s) used by the chief operating decision maker for purposes of assessing segments' performance. Net operating income is a key measurement of our segment profit and loss. Net operating income is defined as segment real estate rental revenue less segment real estate expenses.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

The following tables present revenues, net operating income, capital expenditures and total assets for the 2015 and 2014 Quarters and Periods from these segments, and reconciles net operating income of reportable segments to net income attributable to the controlling interests as reported (in thousands):

NOTE 10: SUBSEQUENT EVENT

On July 1, 2015, we closed on the purchase of The Wellington, a multifamily property with three buildings totaling 711 units in Arlington, Virginia, and an adjacent undeveloped land parcel, for \$167.0 million. We funded the purchase with borrowings on our New Credit Facility. The initial accounting for the acquisition is incomplete due to the timing of the acquisition relative to the filing date of this report and, therefore, the purchase price accounting and pro forma disclosures are not included.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our consolidated financial statements and the notes thereto appearing in Item 1 of this report and the more detailed information contained in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 2, 2015.

We refer to the three months ended June 30, 2015 and June 30, 2014 as the "2015 Quarter" and the "2014 Quarter," respectively, and the six months ended June 30, 2015 and June 30, 2014 as the "2015 Period" and the "2014 Period," respectively.

Forward-Looking Statements

This Form 10-Q contains forward-looking statements which involve risks and uncertainties. Forward-looking statements include statements in this report preceded by, followed by or that include the words "believe," "expect," "intend," "anticipate," "potential," "project," "will" and other similar expressions. We claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 for these statements. The following important factors, in addition to those discussed elsewhere in this Form 10-Q, could affect our future results and could cause those results to differ materially from those expressed in the forward-looking statements: (a) the effect of credit and financial market conditions; (b) the availability and cost of capital; (c) fluctuations in interest rates; (d) the economic health of our tenants; (e) the timing and pricing of lease transactions; (f) the economic health of the greater Washington metro region, or other markets we may enter; (g) changes in real estate and zoning laws and increases in property tax rates; (h) the effects of changes in federal government spending; (i) the supply of competing properties; (j) consumer confidence; (k) unemployment rates; (l) consumer tastes and preferences; (m) our future capital requirements; (n) inflation; (o) compliance with applicable laws, including those concerning the environment and access by persons with disabilities; (p) governmental or regulatory actions and initiatives; (q) changes in general economic and business conditions; (r) terrorist attacks or actions; (s) acts of war; (t) weather conditions and natural disasters; (u) failure to qualify as a REIT; (v) the availability of and our ability to attract and retain qualified personnel; and (w) other factors discussed under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 2, 2015. We undertake no obligation to update our forward-looking statements or risk factors to reflect new information, future events, or otherwise.

General

Introductory Matters

We provide our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") in addition to the accompanying consolidated financial statements and notes to assist readers in understanding our results of operations and financial condition. We organize the MD&A as follows:

• **Overview.** Discussion of our business, operating results, investment activity and capital requirements, and summary of our significant transactions to provide context for the remainder of MD&A.

• **Results of Operations.** Discussion of our financial results comparing the 2015 Quarter to the 2014 Quarter and the 2015 Period to the 2014 Period.

• **Liquidity and Capital Resources.** Discussion of our financial condition and analysis of changes in our capital structure and cash flows.

• **Critical Accounting Policies and Estimates.** Descriptions of accounting policies that reflect significant judgments and estimates used in the preparation of our consolidated financial statements.

When evaluating our financial condition and operating performance, we focus on the following financial and non-financial indicators:

• Net operating income (“NOI”), calculated as real estate rental revenue less real estate expenses excluding depreciation and amortization and general and administrative expenses. NOI is a non-GAAP supplemental measure to net income;

• NAREIT Funds From Operations (“NAREIT FFO”), calculated as set forth below under the caption “Funds from Operations.” FFO is a non-GAAP supplemental measure to net income;

• Occupancy, calculated as occupied square footage as a percentage of total square footage as of the last day of that period;

• Leased percentage, calculated as the percentage of available physical net rentable area leased for our commercial segments and percentage of apartments leased for our multifamily segment;

Rental rates; and
Leasing activity, including new leases, renewals and expirations.

For purposes of evaluating comparative operating performance, we categorize our properties as “same-store”, “non-same-store” or discontinued operations. A “same-store” property is one that was owned for the entirety of the periods being evaluated and excludes properties under redevelopment or development and properties purchased or sold at any time during the periods being compared. A “non-same-store” property is one that was acquired, under redevelopment or development, or placed into service during either of the periods being evaluated. We define redevelopment properties as those for which we expect to spend significant development and construction costs on existing or acquired buildings pursuant to a formal plan which has a current impact on operating results, occupancy and the ability to lease space with the intended result of a higher economic return on the property. Properties under redevelopment or development are included within the non-same-store properties beginning in the period during which redevelopment or development activities commence. Redevelopment and development properties are included in the same-store pool upon completion of the redevelopment or development, and the earlier of achieving 90% occupancy or two years after completion.

Overview

Business

Our revenues are derived primarily from the ownership and operation of income-producing properties in the greater Washington metro region. As of June 30, 2015, we owned a diversified portfolio of 55 properties, totaling approximately 7.4 million square feet of commercial space and 2,826 multifamily units, and land held for development. These 55 properties consisted of 25 office properties, 17 retail centers and 13 multifamily properties.

Operating Results

Real estate rental revenue, NOI, net income attributable to the controlling interests and NAREIT FFO for the three months ended June 30, 2015 and 2014 were as follows (in thousands):

	Three Months Ended June 30,				
	2015	2014	\$ Change	% Change	
Real estate rental revenue	\$74,226	\$72,254	\$1,972	2.7	%
NOI ⁽¹⁾	\$46,997	\$46,726	\$271	0.6	%
Net (loss) income attributable to the controlling interests	\$(2,546)	\$1,087	\$(3,633)	(334.2))%
NAREIT FFO ⁽²⁾	\$22,617	\$25,199	\$(2,582)	(10.2))%

⁽¹⁾ See page 25 of the MD&A for a reconciliation of NOI to net income.

⁽²⁾ See page 35 of the MD&A for a reconciliation of NAREIT FFO to net income.

The increase in real estate rental revenue is primarily due to acquisitions (\$1.6 million), higher occupancy at same-store properties (\$0.9 million) and the partial lease-up of The Maxwell (\$0.4 million), partially offset by the sale of Country Club Towers (\$1.0 million) during the first quarter of 2015.

The increase in NOI is primarily due to acquisitions (\$1.2 million), partially offset by the sale of Country Club Towers (\$0.5 million), lower NOI at the recently-renovated Silverline Center (\$0.2 million) and lower NOI from same-store properties (\$0.2 million). Same-store occupancy increased to 92.8% from 92.5% one year ago, with increases in the office and multifamily segments partially offset by lower occupancy in the retail segment.

The net loss attributable to the controlling interests and lower NAREIT FFO are primarily attributable to a real estate impairment (\$5.9 million) recognized on our suspended development at 1225 First Street (see note 3 to the consolidated financial statements).

Investment Activity

During the 2015 Quarter, we received \$2.0 million as compensation for 15,000 square feet of land at Montrose Shopping Center taken in an eminent domain action, recognizing a gain on sale of real estate of \$1.5 million. Subsequent to the end of the 2015 Quarter, we closed on the purchase of The Wellington, a multifamily property with three buildings totaling 711 units in Arlington,

Virginia, and an adjacent undeveloped land parcel, for \$167.0 million. We funded the purchase price with borrowings on our New Credit Facility.

Capital Requirements

We repaid the remaining \$150.0 million of our 5.35% unsecured notes on their maturity date of May 1, 2015 using borrowings on Prior Credit Facility No. 2.

On June 23, 2015, we terminated Prior Credit Facility No. 1 and Prior Credit Facility No. 2 and executed the New Credit Facility, a \$600.0 million unsecured credit agreement that matures in June 2019, unless extended pursuant to one or both of the two six-month extension options. The New Credit Facility has an accordion feature that allows us to increase the facility to \$1.0 billion, subject to the extent the lenders agree to provide additional revolving loan commitments or term loans. The New Credit Facility bears interest at a rate of either LIBOR plus a margin ranging from 0.875% to 1.55% (depending on Washington REIT's credit rating) or the base rate plus a margin ranging from 0.0% to 0.55% (based upon Washington REIT's credit rating). The base rate is the highest of the administrative agent's prime rate, the federal funds rate plus 0.50% and the LIBOR market index rate plus 1.0%. In addition, the New Credit Facility requires the payment of a facility fee ranging from 0.125% to 0.30% (depending on Washington REIT's credit rating) on the \$600.0 million committed capacity, without regard to usage. As of June 30, 2015, the interest rate on the facility is LIBOR plus 1.00% and the facility fee is 0.20%. As of August 3, 2015, our New Credit Facility has a borrowing capacity of \$244.5 million.

Significant Transactions

Our significant transactions during the 2015 and 2014 Periods are summarized as follows:

2015 Period

The execution of the New Credit Facility, a \$600.0 million unsecured credit facility maturing in June 2019 that replaces Prior Credit Facility No. 1 and Prior Credit Facility No. 2, which had a combined borrowing capacity of \$500.0 million. The New Credit Facility has the terms set forth above under "Capital Requirements".

The disposition of Country Club Towers, a 277-unit multifamily building in Arlington, Virginia, for a contract sales price of \$37.8 million, resulting in a gain on sale of \$30.3 million.

- The execution of new and renewal leases for 0.3 million square feet of commercial space with an average rental rate increase of 15.2% over expiring leases.

2014 Period

The disposition of the Woodburn Medical Park I and II and Prosperity Medical Center I, II and III medical office buildings with a combined 427,000 square feet, for a contract sales price of \$193.6 million, resulting in a gain on sale of \$106.0 million. These sales transactions completed the disposition of the medical office segment.

The acquisition of Yale West, a 216-unit multifamily property in Washington, DC, for a contract purchase price of \$73.0 million. We assumed a \$48.2 million mortgage with this acquisition. We incurred \$1.8 million of acquisition costs related to this transaction.

The acquisition of The Army Navy Club Building, a 108,000 square foot office property in Washington, DC, for a contract purchase price of \$79.0 million. We assumed a \$52.7 million mortgage with this acquisition. We incurred \$1.4 million of acquisition costs related to this transaction.

- The acquisition of 1775 Eye Street, NW, a 185,000 square foot office property in Washington, DC, for a contract purchase price of \$104.5 million. We incurred \$1.7 million of acquisition costs with this transaction.
- The execution of new and renewal leases for 0.4 million square feet of commercial space with an average rental rate increase of 10.6% over expiring leases.

Results of Operations

The discussion that follows is based on our consolidated results of operations for the 2015 and 2014 Quarters and Periods. The ability to compare one period to another may be significantly affected by acquisitions completed and dispositions made during those periods. To provide more insight into our operating results, we divide our discussion into two main sections:

• **Consolidated Results of Operations: Overview analysis of results on a consolidated basis.**

• **Net Operating Income: Detailed analysis of same-store and non-same-store NOI results by segment.**

Consolidated Results of Operations

Real Estate Rental Revenue

Real estate rental revenue for properties classified as continuing operations for the three and six months ended June 30, 2015 and 2014 were as follows (in thousands):

	Three Months Ended				Six Months Ended				
	June 30,		Change		June 30,		Change

	\$74,226	\$72,254	\$1,972	2.7	% \$149,082	\$140,865	\$8,217	5.8	%

Minimum Base Rent: Minimum base rent increased by \$1.6 million in the 2015 Quarter primarily due to acquisitions (\$1.5 million) and higher occupancy (\$0.9 million) at same-store properties, partially offset by the sale of Country Club Towers (\$0.9 million) during the first quarter of 2015.

Minimum base rent increased by \$6.3 million in the 2015 Period primarily due to acquisitions (\$5.2 million) and higher occupancy (\$2.7 million) at same-store properties, partially offset by the sale of Country Club Towers (\$0.9 million) during the first quarter of 2015 and higher amortization of capitalized lease incentives (\$0.6 million) at same-store properties.

Recoveries from Tenants: Recoveries from tenants increased by \$0.6 million in the 2015 Quarter primarily due to acquisitions (\$0.3 million) and higher reimbursements for real estate taxes (\$0.2 million) at same-store properties.

Recoveries from tenants increased by \$1.7 million in the 2015 Period primarily due to acquisitions (\$1.4 million) and higher reimbursements for real estate taxes (\$0.5 million) at same-store properties, partially offset by lower reimbursements for property operating expenses (\$0.2 million) at same-store properties.

Provisions for Doubtful Accounts: Provisions for doubtful accounts increased by \$0.1 million in the 2015 Quarter primarily due to higher net provisions in the office segment.

Provisions for doubtful accounts decreased by \$0.2 million in the 2015 Period primarily due to lower net provisions in the retail segment (\$0.4 million) due to fewer tenants requiring reserves, partially offset by higher net provisions in the

office segment (\$0.1 million).

Lease Termination Fees: Lease termination fees decreased by \$0.2 million in 2015 Quarter primarily due to lower lease termination fees in the office segment.

Lease termination fees decreased by \$0.5 million in 2015 Period primarily due to lower lease termination fees in the office segment.

Parking and Other Tenant Charges: Parking and other tenant charges slightly decreased in the 2015 Quarter as lower charges due to the sale of Country Club Towers (\$0.1 million) were offset by acquisitions (\$0.1 million).

Parking and other tenant charges increased by \$0.4 million in the 2015 Period primarily due to acquisitions (\$0.5 million), partially offset by the sale of Country Club Towers (\$0.1 million).

Occupancy by segment for properties classified as continuing operations as of June 30, 2015 and 2014 was as follows:

	As of June 30,		Change	
	2015	2014		
Office	87.6	% 86.2	% 1.4	%
Retail	92.9	% 94.2	% (1.3))%
Multifamily	91.7	% 93.7	% (2.0))%
Total	90.0	% 90.1	% (0.1))%

Occupancy represents occupied square footage indicated as a percentage of total square footage as of the last day of that period.

A detailed discussion of occupancy by segment can be found in the Net Operating Income section.

Real Estate Expenses

Real estate expenses for the three and six months ended June 30, 2015 and 2014 for properties classified as continuing operations were as follows (in thousands):

	Three Months Ended				Six Months Ended				
	June 30,		Change		June 30,		Change		
	2015	2014	\$	%	2015	2014	\$	%	
Property operating expenses	\$ 18,053	\$ 17,448	\$ 605	3.5	% \$ 37,802	\$ 36,003	\$ 1,799	5.0	%
Real estate taxes	9,176	8,080	1,096	13.6	% 18,635	15,867	2,768	17.4	%
	\$ 27,229	\$ 25,528	\$ 1,701	6.7	% \$ 56,437	\$ 51,870	\$ 4,567	8.8	%

Real estate expenses as a percentage of revenue were 36.7% and 35.3% for the 2015 and 2014 Quarters, respectively, and 37.9% and 36.8% for the 2015 and 2014 Periods, respectively.

Property Operating Expenses: Property operating expenses include utilities, repairs and maintenance, property administration and management, operating services, common area maintenance, property insurance, bad debt and other operating expenses.

Property operating expenses increased by \$0.6 million in the 2015 Quarter primarily due to higher bad debt expense (\$0.5 million) at same-store properties, placing The Maxwell into service (\$0.3 million) and acquisitions (\$0.2 million), partially offset by the sale of Country Club Towers (\$0.3 million).

Property operating expenses increased by \$1.8 million in the 2015 Period primarily due to acquisitions (\$1.2 million), higher bad debt expense (\$0.7 million) at same-store properties and placing The Maxwell into service (\$0.5 million), partially offset by the sale of Country Club Towers (\$0.4 million).

Real Estate Taxes: Real estate taxes increased by \$1.1 million in the 2015 Quarter primarily due to higher assessments (\$0.7 million) at same-store properties and acquisitions (\$0.3 million).

Real estate taxes increased by \$2.8 million in the 2015 Period primarily due to acquisitions (\$1.4 million) and higher assessments (\$1.1 million) at same-store properties.

Other Operating Expenses

Other operating expenses for the three and six months ended June 30, 2015 and 2014 were as follows (in thousands):

	Three Months Ended				Six Months Ended				
	June 30,		Change		June 30,		Change		
	2015	2014	\$	%	2015	2014	\$	%

	\$51,410	\$46,147	\$5,263	11.4	% \$98,129	\$90,904	\$7,225	7.9	%

Depreciation and amortization: Depreciation and amortization increased by \$1.1 million in the 2015 Quarter primarily due to acquisitions (\$1.0 million).

Depreciation and amortization increased by \$3.6 million in the 2015 Period primarily due to acquisitions (\$1.9 million) and placing The Maxwell (\$1.2 million) and a portion of the Silverline Center redevelopment (\$0.3 million) into service.

Interest Expense: Interest expense by debt type for the three and six months ended June 30, 2015 and 2014 was as follows (in thousands):

	Three Months Ended				Six Months Ended				
	June 30,		Change		June 30,		Change		
	2015	2014	\$	%	2015	2014	\$	%	
Notes payable	\$7,914	\$9,302	\$(1,388)	(14.9)	% \$17,210	\$18,824	\$(1,614)	(8.6)	%
Mortgages	5,657	5,554	103	1.9	% 11,281	10,368	913	8.8	%
Lines of credit	1,249	590	659	111.7	% 2,016	1,177	839	71.3	%
Capitalized interest	(120)	(461)	341	(74.0)	% (459)	(854)	395	(46.3)	%
Total	\$14,700	\$14,985	\$(285)	(1.9)	% \$30,048	\$29,515	\$533	1.8	%

Interest expense from notes payable decreased in the 2015 Quarter and Period primarily due to the repayment of \$150.0 million of 5.35% unsecured notes in May 2015. Interest expense from mortgage notes increased primarily due to the assumption of mortgages with the acquisitions of Yale West and The Army Navy Club Building during the 2014 Period. Interest expense from our unsecured lines of credit increased due to higher borrowing activity during the 2015 Period. Capitalized interest decreased because we placed The Maxwell and a portion of the Silverline Center redevelopment into service.

Acquisition Costs: Acquisition costs decreased by \$0.9 million in the 2015 Quarter primarily due to closing on the acquisition of 1775 Eye Street during the 2014 Quarter, partially offset by costs associated with the acquisition of The Wellington, which closed after the 2015 Quarter.

Acquisition costs decreased by \$4.0 million in the 2015 Period primarily due to closing on the acquisitions of Yale West, The Army Navy Club Building and 1775 Eye Street during the 2014 Period, partially offset by costs associated with the acquisition of The Wellington, which closed after the 2015 Period.

Real estate impairment: In November 2011, we executed a joint venture operating agreement with a real estate development company to develop a high-rise multifamily property at 1225 First Street in Alexandria, Virginia. During the 2015 Quarter, we determined that we would not develop 1225 First Street and began negotiations to sell our 95%

interest in the joint venture that owns the property. We recognized a \$5.9 million impairment charge for the 2015 Quarter in order to reduce the carrying value of the property to its estimated fair value. We based this fair value on the \$14.5 million sale price in the purchase and sale agreement to sell our 95% interest in the joint venture that we executed subsequent to the 2015 Quarter.

General and Administrative Expenses: General and administrative expenses decreased by \$0.5 million in the 2015 Quarter, primarily due to lower severance (\$0.5 million) and employee share based compensation (\$0.4 million), partially offset by higher professional fees (\$0.4 million).

General and administrative expenses increased by \$1.1 million in the 2015 Period, primarily due to higher professional fees (\$1.3 million) and trustee compensation expense (\$0.5 million), partially offset by lower severance expense (\$0.5 million).

Discontinued Operations

Operating results of the properties classified as discontinued operations for the six months ended June 30, 2015 and 2014 were as follows (in thousands):

	Six Months Ended June 30,		Change		
	2015	2014	\$	%	
Revenues	\$—	\$892	\$(892) (100.0)%
Property expenses	—	(346) 346	(100.0)%
Total	\$—	\$546	\$(546) (100.0)%

The decrease in income from discontinued operations in the 2015 Period is due to the completion of the sale of the medical office segment in January 2014 (see note 3 to the consolidated financial statements).

Net Operating Income

NOI is the primary performance measure we use to assess the results of our operations at the property level. We believe that NOI is useful as a performance measure because, when compared across periods, NOI reflects the impact on operations of trends in occupancy rates, rental rates and operating costs on an unleveraged basis, providing perspective not immediately apparent from net income. NOI excludes certain components from net income in order to provide results more closely related to a property's results of operations. For example, interest expense is not necessarily linked to the operating performance of a real estate asset. In addition, depreciation and amortization, because of historical cost accounting and useful life estimates, may distort operating performance at the property level. As a result of the foregoing, we provide NOI as a supplement to net income or income from continuing operations, calculated in accordance with GAAP. NOI does not represent net income or income from continuing operations, in either case calculated in accordance with GAAP. As such, it should not be considered an alternative to these measures as an indication of our operating performance. NOI is calculated as real estate rental revenue less real estate expenses excluding depreciation and amortization, interest expense and general and administrative expenses. A reconciliation of NOI to net income follows.

2015 Multifamily disposition – Country Club Towers

2014 Multifamily development – The Maxwell

2014 Office acquisition – 1775 Eye Street, NW

2014 Retail acquisition – Spring Valley Retail Center

2014 Retail disposition – 5740 Columbia Road (parcel at Gateway Overlook)

2013 Office redevelopment – Silverline Center

Real estate rental revenue from same-store properties increased by \$0.9 million in the 2015 Quarter primarily due to higher occupancy (\$0.9 million) and rental rates (\$0.6 million), partially offset by higher rent abatements (\$0.5 million).

Real estate expenses from same-store properties increased by \$1.1 million in the 2015 Quarter primarily due to higher real estate taxes (\$0.7 million), bad debt (\$0.5 million) and administrative (\$0.2 million) expenses, partially offset by lower utilities expense (\$0.3 million).

(1) Non-same-store properties include:
2014 acquisition – 1775 Eye Street, NW
2013 redevelopment – Silverline Center

Real estate rental revenue from same-store properties increased by \$0.7 million in the 2015 Quarter primarily due to higher occupancy (\$0.6 million) and rental rates (\$0.7 million), partially offset by higher rent abatements (\$0.5 million).

Real estate expenses from same-store properties increased by \$0.6 million in the 2015 Quarter primarily due to higher real estate taxes.

2014 Medical Office dispositions – Woodburn Medical Park I and II and Prosperity Medical Center I, II and III

Real estate rental revenue from same-store properties increased by \$2.7 million in the 2015 Period primarily due to higher occupancy (\$2.7 million), higher rental rates (\$0.7 million) and lower reserves for uncollectible revenue (\$0.2

million), partially offset by higher rent abatements (\$0.9 million).

Real estate expenses from same-store properties increased by \$1.5 million in the 2015 Period primarily due to higher real estate taxes (\$1.1 million), bad debt (\$0.7 million), administrative (\$0.3 million) and repairs and maintenance (\$0.1 million) expenses, partially offset by lower utilities expense (\$1.0 million).

During the 2015 Period, 66.7% of the commercial square footage expiring was renewed as compared to 65.1% in the 2014 Period. During the 2015 Period, we executed new and renewal leases for 0.6 million commercial square feet at an average rental rate of \$30.49 per square foot, an increase of 11.9%, with average tenant improvements and leasing commissions and incentives (including free rent) of \$25.23 per square foot.

Liquidity and Capital Resources

Capital Requirements

During 2015, we expect that we will have significant capital requirements, including the following items:

- Funding dividends and distributions to our shareholders;

- Approximately \$55 - \$60 million to invest in our existing portfolio of operating assets, including approximately \$30 - \$35 million to fund tenant-related capital requirements and leasing commissions;

- Approximately \$15 - \$20 million to invest in our development and redevelopment projects; and

- Funding for potential property acquisitions throughout the remainder of 2015, offset by proceeds from potential property dispositions.

We also repaid the remaining \$150.0 million of our 5.35% unsecured notes on their maturity date of May 1, 2015 using borrowings on our unsecured lines of credit.

Debt Financing

Our total debt at June 30, 2015 and December 31, 2014 is as follows (in thousands):

	June 30, 2015	December 31, 2014
Mortgage notes payable	\$419,755	\$418,525
Lines of credit	185,000	50,000
Notes payable	597,442	747,208
	\$1,202,197	\$1,215,733

Mortgage Notes Payable

At June 30, 2015, our \$419.8 million in mortgage notes payable, which include \$4.1 million in net unamortized discounts due to fair value adjustments, bore an effective weighted average fair value interest rate of 5.2% and had an estimated weighted average maturity of 2.4 years. We may either assume mortgage debt from time-to-time in conjunction with property acquisitions or initiate mortgage debt on existing properties.

Our mortgage notes contain covenants with which we must comply. Failure to comply with any of the covenants under our mortgage notes could result in a default under one or more of our debt instruments. This could cause our debt holders to accelerate the timing of payments and would therefore have a material adverse effect on our business, operations, financial condition and liquidity. As of June 30, 2015, we were in compliance with our mortgage notes covenants.

Lines of Credit

On June 23, 2015, we terminated Prior Credit Facility No. 1 and Prior Credit Facility No. 2 and executed the New Credit Facility, a \$600.0 million unsecured credit agreement that matures in June 2019, unless extended pursuant to one or both of the two six-month extension options. The New Credit Facility has an accordion feature that allow us to increase the facility to \$1.0 billion, subject to the extent the lenders agree to provide additional revolving loan commitments or term loans. The New Credit Facility bears interest at a rate of either LIBOR plus a margin ranging from 0.875% to 1.55% (depending on Washington REIT's credit rating) or the base rate plus a margin ranging from 0.0% to 0.55% (based upon Washington REIT's credit rating). The base rate is the highest of the administrative agent's prime rate, the federal funds rate plus 0.50% and the LIBOR market index rate plus 1.0%. In addition, the New Credit Facility requires the payment of a facility fee ranging from 0.125% to 0.30% (depending on Washington REIT's credit rating) on the \$600.0 million committed capacity, without regard to usage. As of June 30, 2015, the interest rate on the

facility is LIBOR plus 1.00% and the facility fee is 0.20%. We had \$185.0 million in borrowings outstanding as of June 30, 2015.

Our unsecured credit facility contains financial and other covenants with which we must comply. Failure to comply with any of the covenants under our unsecured credit facility or other debt instruments could result in a default under one or more of our debt instruments. This could cause our lenders to accelerate the timing of payments and would therefore have a material adverse effect on our business, operations, financial condition and liquidity. In addition, our ability to draw on our unsecured credit facility or incur other unsecured debt in the future could be restricted by the loan covenants. As of June 30, 2015, we were in compliance with our loan covenants.

Notes Payable

We generally issue unsecured notes to fund our real estate assets long term. In issuing future unsecured notes, we intend to ladder the maturities of our debt to mitigate exposure to interest rate risk in future years.

Our unsecured notes contain covenants with which we must comply. Failure to comply with any of the covenants under our unsecured notes could result in a default under one or more of our debt instruments. This could cause our debt holders to accelerate the timing of payments and would therefore have a material adverse effect on our business, operations, financial condition and liquidity. As of June 30, 2015, we were in compliance with our unsecured notes covenants.

From time to time, we may seek to repurchase and cancel our outstanding notes through open market purchases, privately negotiated transactions or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors.

Common Equity

We have authorized for issuance 100.0 million common shares, of which 68.2 million shares were outstanding at June 30, 2015.

On June 23, 2015, we entered into four separate equity distribution agreements (collectively, the "Equity Distribution Agreements") with each of Wells Fargo Securities, LLC, BNY Mellon Capital Markets, LLC, Citigroup Global Markets Inc. and RBC Capital Markets, LLC relating to the issuance and sale of up to \$200.0 million of our common shares from time to time. Sales of our common shares are made at market prices prevailing at the time of sale. We use net proceeds from the sale of common shares under this program for general corporate purposes, including, without limitation, working capital, the acquisition, renovation, expansion, improvement, development or redevelopment of income producing properties or the repayment of debt. We did not issue any shares under the Equity Distribution Agreements during the 2015 Quarter.

The Equity Distribution Agreements replace Washington REIT's prior sales agency financing agreement ("Prior ATM") with BNY Mellon Capital Markets, LLC, which expired by its terms in June 2015. As of the date of its expiration, Washington REIT had issued 1.3 million common shares under this program at a weighted average share price of \$27.93 for gross proceeds of \$36.5 million.

We have a dividend reinvestment program, whereby shareholders may use their dividends and optional cash payments to purchase common shares. The common shares sold under this program may either be common shares issued by us or common shares purchased in the open market. We did not issue any shares under this program during the 2015 Period.

Preferred Equity

Washington REIT's Board of Trustees can, at its discretion, authorize the issuance of up to 10.0 million shares of preferred stock. The ability to issue preferred equity provides Washington REIT an additional financing tool that may be used to raise capital for future acquisitions or other business purposes. As of June 30, 2015, no shares of preferred stock had been issued.

Dividends

We currently pay dividends quarterly at a rate of \$0.30 per share. The maintenance of our dividend level is subject to various factors reviewed by the Board of Trustees in its discretion. These factors include our results of operations, the

availability of cash to make the necessary dividend payments and the effect of REIT distribution requirements, which require at least 90% of our taxable income to be distributed to shareholders. When setting the dividend level, our Board looks in particular at trends in our level of funds from operations, together with associated recurring capital improvements, tenant improvements, leasing commissions and tenant incentives, and adjustments to straight-line rents to reflect cash rents received.

Our dividend and distribution payments for the three and six months ended June 30, 2015 and 2014 are as follows (in thousands):

	Three Months Ended				Six Months Ended				
	June 30,		Change		June 30,		Change		
	2015	2014	\$	%	2015	2014	\$	%	%
Common dividends	\$20,500	\$20,043	\$457	2.3	% \$41,019	\$40,134	\$885	2.2	%
Distributions to noncontrolling interests	—	3,454	(3,454)	(100.0)%	—	3,454	(3,454)	(100.0)%	
	\$20,500	\$23,497	\$(2,997)	(12.8)%	\$41,019	\$43,588	\$(2,569)	(5.9)%	

The increase in dividends paid is primarily due to shares issued under the Prior ATM during the fourth quarter of 2014 and the first quarter of 2015. The decrease in distributions to noncontrolling interests is related to the disposition of 4661 Kenmore Avenue as part of the Medical Office Portfolio sale (see note 3 to the consolidated financial statements).

Historical Cash Flows

Cash flows from operations are an important factor in our ability to sustain our dividend at its current rate. If our cash flows from operations were to decline significantly from current levels, we may have to reduce our dividend.

Consolidated cash flow information is summarized as follows (in thousands):

	Six Months Ended June 30,		Change		
	2015	2014	\$	%	
Net cash provided by operating activities	\$54,332	\$39,123	\$15,209	38.9	%
Net cash provided by (used in) investing activities	6,108	(7,168)	13,276	185.2	%
Net cash used in financing activities	(53,489)	(139,289)	85,800	61.6	%

Cash provided by operating activities increased primarily due to income from properties acquired in 2014.

Cash provided by investing activities increased primarily due to lower capital expenditures.

Cash used in financing activities decreased primarily due to higher net borrowings on our unsecured line of credit.

Funds From Operations

NAREIT FFO is a widely used measure of operating performance for real estate companies. We provide NAREIT FFO as a supplemental measure to net income calculated in accordance with GAAP. Although NAREIT FFO is a widely used measure of operating performance for REITs, NAREIT FFO does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. In addition, NAREIT FFO does not represent cash generated from operating activities in accordance with GAAP, nor does it represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity. The National Association of Real Estate Investment Trusts, Inc. ("NAREIT") defines NAREIT FFO (April, 2002 White Paper) as net income (computed in accordance with GAAP) excluding gains (or losses) from sales of property and impairments of depreciable real estate, if any, plus real estate depreciation and amortization. We consider NAREIT FFO to be a standard supplemental measure for REITs because it facilitates an understanding of the operating performance of our properties without giving effect to real estate depreciation and amortization, which historically assumes that the value of real estate assets diminishes predictably over time. Since real estate values have instead historically risen or fallen with market conditions, we believe that NAREIT FFO more accurately provides investors an indication of our ability to incur and service debt, make capital expenditures and fund other needs. Our NAREIT

FFO may not be comparable to FFO reported by other REITs. These other REITs may not define the term in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently.

The following table provides the calculation of our NAREIT FFO and a reconciliation of NAREIT FFO to net income for the three and six months ended June 30, 2015 and 2014 (in thousands):

Critical Accounting Policies and Estimates

We base the discussion and analysis of our financial condition and results of operations upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. We discuss the most critical estimates in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 2, 2015.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal material financial market risk to which we are exposed is interest-rate risk. Our exposure to market risk for changes in interest rates relates primarily to refinancing long-term fixed rate obligations, the opportunity cost of fixed rate obligations in a falling interest rate environment and our variable rate lines of credit. We primarily enter into debt obligations to support general corporate purposes including acquisition of real estate properties, capital improvements and working capital needs.

As the majority of our outstanding debt is long-term, fixed rate debt, our interest rate risk has not changed significantly from what was disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 2, 2015. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Debt Financing.”

ITEM 4: CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer, Chief Financial Officer and Executive Vice President of Accounting, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer, Chief Financial Officer and Executive Vice President of Accounting, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer, Chief Financial Officer and Executive Vice President of Accounting concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in Washington REIT's internal control over financial reporting (as defined by Rule 13a-15(f)) that occurred during the period covered by the report that have materially affected, or are reasonably likely to materially affect, Washington REIT's internal control over financial reporting.
