Great Lakes REIT
Notes to Consolidated Financial Statements
(Unaudited)
Dollars in thousands, except per share data

1. Basis of Presentation

Great Lakes REIT, a Maryland real estate investment trust (the Company), was formed in 1992 to invest in income-producing real property. The principal business of the Company is the ownership, management, leasing, renovation and acquisition of suburban office properties, primarily located in the Midwest region of the United States. At September 30, 2003, the Company owned and operated 45 properties, primarily located in suburban areas of Chicago, Milwaukee, Detroit, Columbus, Minneapolis, Denver and Cincinnati. The Company leases office space to over 650 tenants that are engaged in a variety of businesses.

Edgar Filing: GREAT LAKES REIT - Form 10-Q

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries and controlled partnership. Intercompany accounts and transactions have been eliminated in consolidation.

The accompanying consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States. These statements should be read in conjunction with the Company's most recent year-end audited financial statements, which are contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 (the "2002 10-K"). In the opinion of management, the financial statements herein contain all adjustments (which are normal and recurring) necessary for a fair statement of financial results for the interim periods. For further information, refer to the consolidated financial statements and notes thereto included in the 2002 10-K.

2. Derivatives and Hedging Activities

The Company recognizes all derivatives on its balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value through income. If the derivative is a hedge, depending on the nature of the hedge, changes in the fair value of the derivatives are either offset against the change in fair value of the assets, liabilities or firm commitments through earnings or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value will be immediately recognized in earnings.

Approximately \$64,744 of the Company's long-term debt bears interest at a variable rate based on LIBOR (\$43,839 at LIBOR plus 1.35%, \$15,155 at LIBOR plus 1.45% and \$5,750 at LIBOR plus 1.6%). In 2001, the Company entered into two separate interest rate swap agreements with notional amounts of \$25,000 each. One agreement effectively fixes the interest rate on \$25,000 of variable rate debt at a maximum of 4.27% until December 2003. The second swap agreement effectively fixes the interest rate on \$25,000 of variable rate debt at a maximum of 4.88% per annum until December 2004. The Company is exposed to credit loss in the event of non-performance by counterparties under the agreement, but the Company does not expect non-performance by any of these counterparties. The amount of such exposure is generally limited to the amount of any payments due but not yet received from the counterparty.

At September 30, 2003, the fair value of the swap agreements was a liability of \$761 and is reflected as accumulated other comprehensive income (loss) in the consolidated balance sheet as of September 30, 2003. The change in fair value of the interest rate swap agreements has been reflected entirely in other comprehensive income in 2003 and 2002, as they are fully effective cash flow hedges.

3. Segment Information

The Company had three reportable segments at September 30, 2003, distinguished by property type. The property types are office, office/service center and medical office. Office buildings are generally single-story or multi-story buildings used by tenants for office activities. The buildings generally have common area lobbies and other amenities including food service areas, atriums and limited underground parking facilities. Office/service center buildings generally are one-story buildings with no common areas. Tenant spaces generally have less than 100% office use with the non-office space used for showroom, technical or light storage purposes. Medical office properties are generally connected to or located near hospitals, and most tenants in those properties are health-care providers.

Interest expense incurred by the Company is a combination of property specific long-term debt and long-term debt that is secured by properties across the Company's reportable segments. Interest expense incurred on property-specific debt is allocated to that property's segment. Interest expense incurred on long-term debt that is secured by properties across the Company's reportable segments is allocated to the reportable segments based on the square footage of properties in that segment that are associated with the long-term debt.

The Company evaluates performance and allocates resources based on net operating income, which the Company defines as property revenues (rental, reimbursement, parking, telecommunications, tenant service and other income) less property operating expenses and real estate taxes.

The following is a summary report of segment information for the three and nine months ended September 30, 2003 and 2002:

Edgar Filing: GREAT LAKES REIT - Form 10-Q

4. Long-Term Debt

On January 16, 2003, the Company entered into a 10-year mortgage loan in an amount of \$40,000 secured by the medical office properties. This loan accrues interest at 5.43% per annum payable monthly along with monthly principal payments based on a 30-year amortization schedule.

On March 24, 2003, the Company entered into a \$29,200 secured credit facility. The facility bears interest at LIBOR plus 1.45% payable monthly, has a term of three years and is secured by the Company's properties located in Dublin and Columbus, Ohio. Borrowings at September 30, 2003 totaled \$15,155.

5. Goodwill

Goodwill is subject to periodic impairment tests. The Company has performed the required impairment tests of goodwill as of September 30, 2003, and has determined that goodwill is not impaired as of that date.

6. Impairment of Assets

The Company recognizes impairment losses for its properties when indicators of impairment are present and a property's expected undiscounted cash flows are not sufficient to recover the property's carrying amount. No impairment losses were recognized in 2003 and 2002.

7. Earnings per Share

The unvested restricted common share grants (166,664 shares at September 30, 2003) are excluded from the common shares used to compute basic earnings per share. The unvested restricted common shares are included in the shares used to compute fully diluted earnings per share using the treasury stock method whereby the unamortized deferred compensation related to these shares is assumed to be the exercise value of these shares.

The Company has 40,199 operating partnership units held by non-affiliates of the Company outstanding at September 30, 2003, which are convertible to common shares on a one-for-one basis at the option of the holder.

8. Discontinued Operations

On July 8, 2003, the Company sold its properties located at 165 and 175 Hansen Court, Wood Dale, Illinois, for a contract price of \$3,922 with a gain on sale of properties of \$1,657 recognized in the third quarter of 2003.

On September 12, 2003, the Company sold its property located at 191 Waukegan Road, Northfield, Illinois for a contract price of \$6,100 with a gain on sale of \$534 recognized in the third quarter of 2003.

The components of discontinued operations for the three and nine months ended September 30, 2003 and 2002 are outlined below and include the results of operations through the date of each respective sale for the three and nine months ended September 30, 2003 (or all operations of properties held for sale) and all operations for the three and nine months ended September 30, 2002 for the following:

- the properties sold in 2002
- the properties sold in 2003.

	Three months ended September 30,	
	2003	2002
Revenues	\$ 220	\$ 857
Expenses:		
Real estate taxes and property operating expenses	227	431
Depreciation and amortization	56	143

Income from discontinued operations	149	1,087
Gain on sale of properties	2,191	7,182
Discontinued operations, net	\$ 2,340	\$ 8,269

At December 31, 2002, the Company reported \$8,928 of properties held for sale. This amount has been reclassified as land, buildings and improvements and accumulated depreciation as of September 30, 2003 as the Company did not consummate its planned disposition of these assets. As of September 30, 2003, the Company does not plan to dispose of these assets.

9. Pro Forma Operating Results for Expensing Fair Value of Share Options Granted

For purposes of pro forma disclosures, the estimated fair value of the outstanding options to purchase common shares of the Company was amortized to expense over the options vesting period. The Company's unaudited pro forma information follows:

	Three months ended September 30,	
	2003	2002
Net income as reported	\$ 3,411	\$ 9,451

Pro forma basic earnings per common share	\$ 0.49	\$ 1.15
Pro forma diluted earnings per common share	\$ 0.49	\$ 1.13

Edgar Filing: GREAT LAKES REIT - Form 10-Q

10. Alternatives to Increase Shareholder Value

The Company's Board of Trustees has engaged a real estate advisor and an investment banker to assist it in analyzing alternatives to improve shareholder value. These alternatives may include a sale of some or all of the Company's properties, or a business combination or other similar transaction. Such activities are ongoing, and there can be no assurance that any such transaction will occur. Included in general and administrative expenses for the three and nine months ended September 30, 2003 were \$326 of expenses related to these activities.

11. Employee Share Loans

In connection with the Company's activities related to alternatives to improve shareholder value, the Board of Trustees adopted a policy prohibiting employees from engaging in any trading of Company securities while the process is ongoing. Twenty-eight employees of the Company, including members of senior management who are affected by the provisions of the 2002 Sarbanes-Oxley Act, are required to repay certain maturing loans. These loans were made before 2001 under the Company's employee loan program, which was established in 1996 in connection with the Company's option plan. In order to permit an orderly retirement of a portion of the outstanding loans during the trading blackout period in compliance with the Sarbanes-Oxley Act, the Company's Board of Trustees approved a voluntary share repurchase plan for all employees with outstanding loans.

The plan provided for loan retirement in consideration for the shares securing the loans. Fifteen employees elected to participate in the repurchase program and the Company has repurchased an aggregate of 474,608 shares from those officers and employees that were securing an aggregate of \$7,302 in outstanding loans. The price used in connection with the repurchase program was \$14.67 per common share, which was the average of the closing prices of the common shares on the New York Stock Exchange for the five-day period ending April 10, 2003. As part of the Board-approved repurchase program, the Company has forgiven loan balances totaling \$498. Such loan forgiveness and related costs (\$511), or \$0.03 per common share, has been reflected as employee share loan termination expense in the nine months ended September 30, 2003.

As of September 30, 2003, \$944 of employee loans will mature during the remainder of 2003. Thereafter, during 2004, 2005 and 2006, \$1,224, \$2,382 and \$105 of employee loans mature, respectively. The Company's Board of Trustees does not anticipate offering a similar repurchase program in the future. The officers and employees that continue to have loans under the employee loan program will be obligated to repay those loans at maturity in order to comply with the policies of the Company and the Sarbanes-Oxley Act.

On April 17, 2003, the Board of Trustees granted an aggregate of 257,699 options to purchase common shares to those employees who elected to participate in the repurchase program. Of the options granted, 224,659 have an exercise price of \$14.50 per share, the closing price of the common shares on April 17, 2003, and 33,040 have an exercise price of \$16.55 per share. The Company follows Accounting Principles Board Opinion No. 25 (APB 25) in accounting for option grants. Under APB 25, no compensation expense is recognized upon the grant of share purchase options at fair market value.

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition (Dollars in thousands)

The following is a discussion and analysis of the consolidated financial condition and results of operations for the Company for the three and nine months ended and as of September 30, 2003. The following should be read in conjunction with the consolidated financial statements and related notes appearing elsewhere herein and the consolidated financial statements and related notes contained in the 2002 10-K.

Trends

The Company's Board of Trustees has engaged a real estate advisor and an investment banker to assist it in analyzing alternatives to improve shareholder value. These alternatives may include a sale of some or all of the Company's properties, or a business combination or other similar transaction. Such activities are ongoing, and there can be no assurance that any such transaction will occur.

In 2002 and the first nine months of 2003, occupancy rates in the current markets in which the Company operates declined due to increases in supply and decreases in demand for office space. The market trend of occupancy declines has impacted the Company's portfolio performance. As a result, the overall portfolio occupancy of the Company's properties declined to 78% at September 30, 2003 as compared to 83% at the end of 2002. The Company anticipates that the difficult leasing environment that currently exists in its markets will persist throughout 2004 as improvement in demand for office space usually lags the beginning of an economic recovery. At September 30, 2003, Great Lakes REIT had 173,000 square feet of leases, or 3% of the portfolio, expiring in remainder of 2003. The Company currently expects to retain or renew 100,000 to 110,000 square feet of the remaining 173,000 square feet of leases rolling over during the remainder of 2003. The Company anticipates it will average 30,000 square feet per month of new leasing activity in the remainder of 2003, basically the same level as was experienced in the difficult environment of 2002. Based on the tenant retention and new leasing activity expectations noted above, the Company expects that average portfolio occupancy during 2003 will be in the range of 79% to 80%. Occupancy at January 1, 2004 is expected to be in the range of 77% to 79% assuming no significant tenant defaults occur during the year. Based on these occupancy expectations, the Company expects that

Edgar Filing: GREAT LAKES REIT - Form 10-Q

revenues and results of operations will decline in 2003 as compared to 2002.

As of October 1, 2003, several tenants were in default under their leases for failure to make rent payments. Several other tenants that are not currently in default are experiencing financial difficulties which may lead to lease defaults.

Legion Insurance Company, which leases 58,000 square feet of space at Milwaukee Center and represented 1.53% of the Company's aggregate portfolio annualized base rent as of December 31, 2002, was placed in rehabilitation by the Pennsylvania Department of Insurance on April 1, 2002. After completing its review, the Pennsylvania Department of Insurance has recommended to the Commonwealth Court that Legion Insurance Company be liquidated. The Commonwealth Court approved the recommendation of the Pennsylvania Department of Insurance on July 28, 2003. Based on currently available information, the Company believes it is more likely than not that Legion will fulfill all terms of its lease in 2003 and 2004. Legion Insurance Company is current on its rental payments to date. The Legion lease specifies a termination date of February 28, 2006.

Three months ended September 30, 2003 compared to 2002

During 2002, the Company acquired 11 properties. The operating results of these properties were included in the Company's financial statements from the dates of acquisition. In analyzing the 2003 operating results of the Company, the changes in rental and reimbursement income, real estate taxes and other property operating expenses from 2002 were principally due to: (i) the addition of a full year's operating results in 2003 of the properties acquired in 2002 and (ii) increases or decreases on properties owned in both 2003 and 2002. Other property operating expenses include contract services, repairs, maintenance, utilities, personnel, insurance and other costs directly associated with the leasing, management and operation of the properties. A summary of these changes as they impact rental income, reimbursement income, real estate taxes and other property operating expenses for 2003 follows:

	Rental Income	Reimbursement Income
Increase due to inclusion of full year of properties acquired in 2002	\$ 2,761	\$ 617
Increase (decrease) in 2003 compared to 2002	(1,686)	(207)
Total	\$ 1,075	\$ 410
	=====	=====

Interest income decreased by \$241, or 73%, during the quarter ended September 30, 2003, as compared to 2002 primarily because certain interest-bearing employee share loans were repaid or terminated during the 12 months ended September 30, 2003.

Interest expense increased by \$575, or 15%, during the quarter ended September 30, 2003 as compared to 2002 due to higher amounts of long-term debt outstanding during 2003.

General and administrative expenses increased by \$382, or 29%, during the three months ended September 30, 2003 compared to 2002 due to one-time costs associated with the initiatives to explore alternatives to increase shareholder value (\$326) and increases in insurance costs (\$56).

Depreciation and amortization expenses increased by \$716, or 15%, during the quarter ended September 30, 2003 compared to 2002 because the Company had a gross book value of depreciable assets of \$528,309 at September 30, 2003 compared to \$458,007 at September 30, 2002.

Nine months ended September 30, 2003 compared to 2002

During 2002, the Company acquired 11 properties. The operating results of these properties were included in the Company's financial statements from the dates of acquisition. In analyzing the 2003 operating results of the Company, the changes in rental and reimbursement income, real estate taxes and other property operating expenses from 2002 were principally due to: (i) the addition of a full year's operating results in 2003 of the properties acquired in 2002 and (ii) increases or decreases on properties owned in both 2003 and 2002. Other property operating expenses include contract services, repairs, maintenance, utilities, personnel, insurance and other costs directly associated with the leasing, management and operation of the properties. A summary of these changes as they impact rental income, reimbursement income, real estate taxes and other property operating expenses for 2003 follows:

	Rental Income	Reimbursement Income
Increase due to inclusion of full year of properties acquired in 2002	\$ 9,186	\$ 1,850

Edgar Filing: GREAT LAKES REIT - Form 10-Q

Increase (decrease) in 2003 compared to 2002	(4,723)	(1,013)
	-----	-----
Total	\$ 4,463	\$ 837
	=====	=====

Interest income decreased by \$507, or 51%, during the nine months ended September 30, 2003, compared to 2002 primarily because certain interest-bearing employee share loans were repaid or terminated during the 12 months ended September 30, 2003.

General and administrative expenses increased by \$538, or 17%, during the nine months ended September 30, 2003 compared to 2002 due to one-time costs associated with the process to explore strategic alternatives to increase shareholder value (\$326), increases in insurance costs (\$143) and increased compensation costs (\$69).

Interest expense increased by \$1,978, or 17%, during the nine months ended September 30, 2003 compared to 2002 due to higher amounts of long-term debt outstanding during 2003.

Depreciation and amortization expenses increased by \$2,035, or 14%, during the nine months ended September 30, 2003 compared to 2002 because the Company had a gross book value of depreciable assets of \$528,309 at September 30, 2003 compared to \$458,007 at September 30, 2002.

Segment Operations

The Company has three reportable segments, distinguished by property type. The property types are office, office service center and medical office properties. Office buildings are generally single-story or multi-story buildings used by tenants for office activities. The office buildings generally have common area lobbies and other amenities including food service areas, atriums and limited underground parking facilities. Office service center buildings generally are one-story buildings with no common areas. Tenant spaces in the office service center buildings generally have less than 100% office use with the non-office space used for showroom, technical or light storage purposes. Medical office properties are generally connected to or located near hospitals, and most tenants in those properties are health-care providers.

Interest expense incurred by the Company is a combination of individual property specific long-term debt and long-term debt that is secured by pools of properties across the Company's reportable segments. Interest expense incurred on property-specific debt is allocated to that property's segment. Interest expense incurred on long-term debt that is secured by properties across the Company's reportable segments is allocated to the reportable segments based on the square footage of properties in that segment that are associated with the long-term debt.

The net income for the office segment was as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2003	2002	2003	2002
Net operating income	\$11,407	\$12,934	\$ 35,967	\$ 39,745
Interest expense	3,642	3,584	11,099	10,667
Depreciation	4,819	4,515	13,723	12,823
Segment net income	\$2,946	\$4,835	\$ 11,145	\$ 16,255

The decrease in segment net income for the three and nine months ended September 30, 2003 compared to 2002 resulted from declining occupancy in this property segment and was partially offset by increases due to inclusion of a full year of operations in 2003 of properties acquired in 2002.

The net income for the office service center segment was as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2003	2002	2003	2002
Net operating income	\$615	\$635	\$ 1,225	\$ 1,735
Interest expense	201	223	627	667
Depreciation.	244	246	759	822

Edgar Filing: GREAT LAKES REIT - Form 10-Q

Segment net income (loss)	\$167	\$166	\$	161	\$	246
---------------------------	-------	-------	----	-----	----	-----

The decrease in segment net income for the three and nine months ended September 30, 2003 as compared to 2002 resulted from declining occupancy.

The net income for the medical office segment was as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2003	2002	2003	2002
Net operating income	\$1,326	-	\$ 3,960	--
Interest expense	539	-	1,586	--
Depreciation	388	-	1,146	--
Segment net income	\$399	-	\$ 1,228	--

The increase in segment net income for the the three and nine months ended September 30, 2003 resulted from the acquisition of the medical office properties on October 1, 2002.

Non-GAAP Financial Measures

Although not a GAAP measure, the Company believes that the inclusion of information regarding funds from operations (FFO) provides important information to shareholders and potential investors. The GAAP measure, net income applicable to common shares, includes depreciation and amortization expenses, gains or losses on property sales and minority interests. In presenting FFO, the Company eliminates substantially all of these items in order to provide an indication of the results from the Company's property operations. FFO is a widely recognized measure in the Company's business and is presented by nearly all publicly traded REITs. The Company's calculation of FFO may differ from the methodology for calculating FFO utilized by other real estate companies. Funds from Operations should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Company's financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is it indicative of funds available to fund the Company's cash needs, including its ability to make dividends.

	Three months ended September 30,	
	2003	2002
Net income applicable to common shares	\$ 3,411	\$ 9,451
Adjustments to calculate funds from operations:		
Minority interests	11	25
Gain on sale of properties	(2,191)	(6,145)
Adjusted depreciation and amortization (a)	5,506	4,904
Funds from operations	\$ 6,737	\$ 8,235
Weighted average common shares outstanding- diluted	16,046	16,552

(a) Adjusted depreciation and amortization is calculated as follows:

	Three months ended September 30,	
	2003	2002
Depreciation and amortization for the three months ended September 30, 2003	\$ 5,692	\$ 5,06
Less depreciation and amortization unrelated to properties	186	16

Edgar Filing: GREAT LAKES REIT - Form 10-Q

EBITDA	\$	38,673	\$
Reconciliation of EBITDA to Cash Provided by Operating Activities:			
EBITDA	\$	38,673	\$
Interest expense		(13,312)	
Other adjustments from Consolidated Statements of Cash Flows:			
Other non-cash items		245	
Minority interests		(27)	
Net changes in assets and liabilities:			
Rents receivable		(903)	
Real estate tax escrows and other assets		(708)	
Accounts payable, accrued expenses and other liabilities		765	
Accrued real estate taxes		(3,556)	
Payment of deferred leasing costs		(1,861)	
cash provided by operating activities	\$	19,316	\$

Liquidity and Capital Resources

The Company expects to meet its short-term liquidity requirements (other than ongoing capital improvements (including tenant improvements and leasing commissions)) principally through working capital borrowings and net cash provided by operating activities. The Company expects to meet its short-term liquidity requirements for significant capital improvements through targeted property dispositions and additional borrowings. The Company considers its cash provided by operating activities to be adequate to meet operating requirements and to fund the payment of dividends to the extent necessary to comply with certain federal income tax requirements applicable to real estate investment trusts (REITs).

The Board of Trustees determines the Company's dividend policy. The payment of dividends, other than those declared to date, is subject to future action of the Board of Trustees and will depend upon a variety of factors, including, but not limited to, the Company's cash position, operating results, ongoing capital improvements (including tenant improvements and leasing commissions) and general financial condition.

The Company expects to meet its short-term liquidity requirements for property acquisitions and ongoing capital improvements through targeted property dispositions and additional borrowings. On March 24, 2003, the Company entered into a \$29,200 secured credit facility. The facility bears interest at LIBOR plus 1.45% payable monthly, has a term of three years and is secured by the Company's four properties located in Dublin and Columbus, Ohio. Borrowings at September 30, 2003 totaled \$15,155. Future borrowings can be used for property acquisitions, tenant improvements, significant capital improvements, leasing costs and working capital. At September 30, 2003, the Company has approximately \$43,000 of additional borrowing capacity through two secured credit facilities (including the \$29,200 secured credit facility described above).

On January 16, 2003, the Company entered into a 10-year mortgage loan in an amount of \$40,000 secured by the medical office properties. This loan accrues interest at 5.43% per annum payable monthly along with monthly principal payments based on a 30-year amortization schedule. The proceeds of the loan were used to repay the \$36,000 bank loan payable secured by the medical office properties that was outstanding at December 31, 2002.

On July 8, 2003, the Company sold its properties located at 165 and 175 Hansen Court, Wood Dale, Illinois, for a contract price of \$3,922. The gain on sale of properties of \$1,657 was recognized in the third quarter of 2003. The net proceeds from sale of approximately \$3,612 were used for retirement of long-term debt (\$2,289) with the balance for working capital.

On September 12, 2003, the Company sold its property located at 191 Waukegan Road, Northfield, Illinois for a contract price of \$6,100 with a gain on sale of \$534 recognized in the third quarter of 2003. The gain on sale of properties for this transaction of \$534 was recognized in the third quarter of 2003. The net proceeds from sale of approximately \$5,784 were used for retirement of long-term debt (\$2,814) with the balance for working capital.

The Company has identified certain assets that it expects may be sold during the remainder of 2003, and may consider selling additional properties if market conditions warrant. The Company has not entered into any definitive agreements with respect to any such additional disposition opportunities and there can be no assurances that the Company will consummate any dispositions in the remainder of 2003.

The Company expects to meet its long-term liquidity requirements (such as scheduled mortgage debt maturities, property acquisitions and ongoing capital improvements) through long-term collateralized and uncollateralized borrowings, the issuance of debt or equity securities, subject to satisfactory conditions in the capital markets generally and real estate capital and finance markets, specifically, and targeted property dispositions. There can be no assurance that the Company will be able to access the credit or capital markets or consummate any such property

Edgar Filing: GREAT LAKES REIT - Form 10-Q

dispositions on an acceptable basis when needed to fund such long-term liquidity requirements.

Forward-Looking Statements

This report contains forward-looking statements that involve numerous risks and uncertainties. Statements in this document regarding the Company's expectations for tenant retention, new tenant leasing activity, vacancy trends, occupancy rates, acquisition and disposition volume and timing, the expectation regarding the performance of the economy and the office markets, the anticipated level and effect of tenant defaults, leasing activity and anticipated market and other economic conditions are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on what the Company believes to be reasonable assumptions and management's current expectations; however, actual results may vary from those implied by such forward-looking statements. Key factors that may cause actual results to differ from projected results include: conditions in the financial markets generally and the market for real estate finance specifically; local and/or national economic conditions; the pace of office space development and sub-lease availability; tenant office space demand; the financial position of the Company's tenants, including changes in such financial position that may lead to increases in tenant defaults and the performance of Legion Insurance Company; actual tenant default rates compared to anticipated default rates; performance of the medical office market generally and the local markets for the Company's medical office properties specifically; performance of the hospitals adjacent to the Company's medical office properties; changes in interest rates; and other risks inherent in the real estate business. The Company assumes no obligation to update or supplement forward-looking statements.

ITEM 3. MARKET RISK (Dollars in thousands)

The Company's interest income is sensitive to changes in the general levels of U.S. short-term interest rates.

The Company's interest expense is sensitive to changes in the general level of U.S. short-term and long-term interest rates as the Company has outstanding indebtedness at fixed and variable rates. A change in variable interest rates of 1% per annum would increase or decrease the Company's interest expense by \$147 per annum based on the amount of variable rate debt outstanding at September 30, 2003 (\$14,744).

Approximately \$64,744 of the Company's long-term debt bears interest at a variable rate based on LIBOR (\$43,839 at LIBOR plus 1.35%, \$15,155 at LIBOR plus 1.45% and \$5,750 at LIBOR plus 1.6%). In 2001, the Company entered into two separate interest rate swap agreements with notional amounts of \$25,000 each. One agreement effectively fixes the interest rate on \$25,000 of variable rate debt at a maximum of 4.27% until December 2003. Upon expiration of the swap agreement in December 2003, \$25,000 of the Company's outstanding debt will again be variable rate debt that bears interest at LIBOR plus 1.45%. The second swap agreement effectively fixes the interest rate on \$25,000 of variable rate debt at a maximum of 4.88% per annum until December 2004.

At September 30, 2003, the Company had \$287,949 of fixed rate debt outstanding at an average rate of 5.78% (after giving effect to the two swap agreements). The Company has long-term debt outstanding at fixed rates in the range of 4.3% to 7.44%. The general level of interest rates in the United States as of October 1, 2003 is such that refinancing this debt at current rates would be unlikely due to prepayment restrictions and penalties on its fixed rate debt. Accordingly, if the general level of interest rates in the United States were to fall further, the Company would not likely have the opportunity to refinance this fixed rate debt at lower interest rates.

In general, the Company believes long-term fixed rate debt is preferable as a financing vehicle for its operations due to the long-term fixed contractual rental income the Company receives from its tenants. As a result, the Company has 94% of its long-term debt outstanding at September 30, 2003 at fixed rates (including the debt affected by the swap agreements). The Company may, as market conditions warrant, enter into additional fixed rate long-term debt instruments on either a secured or unsecured basis.

A tabular presentation of interest rate sensitivity is as follows:

		Interest Rate Sensitivity			
		Principal Amount by Expected Maturity			
		Average Interest Rate			
		2003 (1)	2004	2005	2006
		-----	-----	-----	-----
Liabilities:					
Fixed Rate					
Mortgage loans payable	\$	1,444	\$ 6,116	\$ 6,508	\$ 2,000
Average interest rate of principal maturities		6.06%	6.08%	6.09%	
Fixed Rate					
Variable rate debt fixed by interest rate swap expiring in December 2003 (2)	\$	154	\$ 627	\$ 644	\$ 2,000

Edgar Filing: GREAT LAKES REIT - Form 10-Q

Variable rate debt fixed by interest					
rate swap expiring in December 2004 (3)	\$	154	\$	627	\$ 644
Variable Rate					
Mortgage loans payable	\$		\$	1	\$ 1
Average interest rate (4)					
Bank loan payable		--		--	--
Average interest rate (5)					
Bonds payable	\$	--	\$	415	\$ 460
Average interest rate (6)					

(1) Period from October 1, 2003 to December 31, 2003.

(2) The maximum interest rate is 4.27% per annum until December 2003. The average rate for the nine months ended September 30, of 2003 was 4.27%.

(3) The maximum interest rate is 4.88% per annum until December 2004. The average interest rate for the nine months ended September 30, of 2003 was 4.88%.

(4) At September 30, 2003, the interest rate was LIBOR plus 1.6% per annum. The average interest rate for the nine months ended September 30, of 2003 was 3.10% per annum.

(5) The interest rate at September 30, 2003, was LIBOR plus 1.45%. The average interest rate for the nine months ended September 30, of 2003 was 2.52%.

(6) The average interest rate for the nine months ended September 30, of 2003 was 3.20%..

Item 4. Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Within the 90-day period prior to the filing of this report, an evaluation was carried out under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective.

Subsequent to the date of their evaluation, there have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls.

Part II Other Information

ITEM 6. Exhibits and Reports on Form 8-K

(a) Exhibits

31 Certifications Pursuant to § 302 of the Sarbanes-Oxley Act of 2002

32 Certification Pursuant to § 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports of Form 8-K

Item 12 Form 8-K dated and filed August 7, 2003 reporting the results of operations and financial condition for the period ended June 30, 2003.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
