SPECIAL REVIEW REPORT OF INDEPENDENT AUDITORS

(A free translation of the original issued in Portuguese)

To the Board of Directors and Shareholders

Telecomunicações de São Paulo S.A. - TELESP

São Paulo □ SP

1. We have conducted a special review of the Quarterly Information (ITR) (Parent Company and Consolidated) of Telecomunicações de São Paulo S.A □ TELESP and its subsidiaries for the quarter ended June 30, 2007, which comprised the balance sheet, the statements of income for the quarter and semester ended at the date, the performance report and other relevant information, prepared under responsibility of the Company and subsidiaries □ management and in accordance with the accounting practices adopted in Brazil.

2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Public Accountants - IBRACON, in conjunction with the Federal Accounting Council, mainly comprising: (a) inquiries of and discussions with the officials responsible for the Company and subsidiaries' accounting, financial and operational areas, as to the main criteria adopted in preparing the quarterly information; and (b) review of information and subsequent events that had or might have had relevant effects on the Company and its subsidiaries' financial position and operations.
3. Based on our special review, we are not aware of any material modifications that should be made to the above mentioned Quarterly Information (Parent Company and Consolidated), for it to be in conformity with the accounting practices adopted in Brazil, applied consistently with the standards established by the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM), specifically applicable to the preparation of Quarterly Information.

1. Operations and Background (Continued)

- d) Controlled Telecommunication service providers and subsidiaries (Continued)

Companhia ACT de Participações

The business purpose is to participate in Refibra Consortium, render technical advisory services for preparation of projects for the conclusion of the Refibra Network, making the necessary studies to render them economically feasible, as well as monitoring of status of activities related to the Consortium. Currently, Telesp holds 50% interest in this company.

Telefônica Empresas S.A.

The business purpose is to render telecommunications services as well as the development, implementation and installation of projects related to integrated business solutions and telecommunications consulting as well as activities related to rendering of technical assistance and equipment and telecommunications network maintenance services. Telefônica Empresas became a wholly-owned subsidiary of the Company after the capital reorganization process occurred in July 2006 (see Note 2.b).

2. Corporate Restructuring in 2006

- a) Merger of Atrium Telecomunicações Ltda. into A. Telecom S.A.

On March 1, 2006 the then subsidiary Santo Genovese Participações Ltda., after having merged its subsidiary Atrium Telecomunicações Ltda., was acquired by A.Telecom S.A., being extinguished as a result of such operation. A. Telecom remained a wholly-owned subsidiary of Telesp, and also began carrying out the activities formerly performed by Atrium.

2. Corporate Restructuring in 2006 (Continued)

b) Acquisition of Telefônica Data Brasil Holding S.A. and partial spin-off of Telefônica Empresas S.A.

On March 9, 2006, the Board of Directors of Telesp and of Telefônica Data Brasil Holding Ltda. (TDBH), both under control of the Telefônica Group, approved the proposal that aims at a restructuring of the Multimedia Communication Services (MCS) of Telefônica Empresas S.A. and Telesp. The operation will have the following steps:

- (i) merger of TDBH by Telesp, whereby TDBH members receive Telesp shares in accordance with the exchange ratio announced. With this operation, Telefônica Empresas S.A. will become a fully-owned subsidiary of Telesp. Telesp will succeed TDBH in all its rights and obligations; and,
- (ii) partial spin-off of Telefônica Empresas, with transfer of the SCM activities and assets to Telesp in the regions in which such services is already provided by Telesp.

The Extraordinary General Shareholders' Meetings of the Companies held on April 28, 2006 approved the proposed corporate reorganization. However, due to a preliminary injunction granted in connection with a judicial proceeding filed by TDBH minority shareholders, revoked on July 25, 2006, the effects of the corporate reorganization were generated as from publication of the judicial proceeding on July 28, 2006.

3. Presentation of the Quarterly Reviews

The individual and consolidated interim financial statements as of June 30, 2007 were prepared in accordance with accounting practices adopted in Brazil, which comprise, among others, the rules applicable to public telecommunications service concessionaires as well as the accounting rules and procedures established by the Brazilian Securities Commission - CVM, that are consistent with the rules adopted to prepare the financial statements for the last fiscal year. Quarterly information shall be analyzed together with the referred to financial statements.

Assets and liabilities are classified under current when the probability of realization or settlement is estimated to occur within the following twelve months. Otherwise, they are recorded under noncurrent items.

3. Presentation of the Quarterly Reviews (Continued)

The process of preparation of the financial statements involves the use of accounting estimates. Such estimates were based on objective and subjective factors, based on management's judgment to determine the adequate value to be recorded in the financial statements.

Transactions involving estimates could result in amounts different from those recorded in the financial statements when their realization takes place in subsequent periods, due to inaccuracies inherent to estimates. The Company reviews its estimates and assumptions periodically.

The consolidated financial statements include balances and transactions of wholly and jointly-owned subsidiaries, according to the interests described below:

6. Deferred and Recoverable Taxes (Continued)

The recoverable amounts above are based on projections subject to changes in the future.

Merged tax credit

As mentioned in Note 2.b, as a result of the corporate restructuring of July 28, 2006, the Company merged goodwill generated from the acquisition of investment at Figueira Administração e Participações S.A., which held telecommunications network operating assets of Banco Itaú S.A., in addition to investments in Galáxia Administrações e Participações S.A., a company having authorization for MCS (Multimedia Communication Service).

The book entries maintained for Company's corporate and tax purposes were made in specific goodwill and provision accounts (merged) and the corresponding amortization, reversal of provision and tax credit realization are as follows:

| | Parent Company |
|---|-----------------------|
| | Jun/2007 |
| <u>Balance Sheet</u> | |
| Goodwill, net of accumulated amortization | 336,644 |
| Provision, net of reversals | (222,185) |

6. Deferred and Recoverable Taxes (Continued)*Merged tax credit (Continued)*

For purposes of calculation of the tax credit resulting from the takeover, the income and social contribution tax rates are 25% and 9% respectively.

As shown above, goodwill amortization, net of provision reversal and the related tax credit, did not generate effects on net income for the period ended June 30, 2007.

For a fair presentation of the Company's financial position and results of its operations, the net amount of R\$114,459 (R\$86,428 in noncurrent assets and R\$28,031 in current assets), which essentially represents the merged tax credit, was reclassified in the balance sheet to deferred and recoverable taxes, in noncurrent assets, in accordance with CVM Instruction No. 349, of March 6, 2001. Goodwill amortization and provision reversal are recognized in the accounting records as operating income and expenses and the corresponding tax credit is recognized in the financial statements as provision for income and social contribution taxes.

10. Capitalizable Investments

Agreement for Convergence, Purchase and Sale of Businesses, Assets, Shares and Other Interests

As per Material Fact disclosed on October 31, 2006, the Company and Abril Group formalized several commercial and operating contractual relationships. Under said

agreement, the Company will purchase 100% of shares representative of the cable TV operators controlled by Abril Group that provides Multichannel Multipoint Distribution Service (MMDS) and broadband operations, within and outside the state of São Paulo, within the limits established by the current legislation.

The effective acquisition of interest and the consequent transfer of shares, particularly the acquisition of control of the company holder of the MMDS license, are conditional upon previous approval by the National Communications Agency (ANATEL) and compliance with the other condition precedents provided for in the Agreement. The Brazilian Antitrust Agency (CADE) must also analyze the transaction from the competitiveness point of view.

In conformity with contractual provisions, on June 30, 2007, the Company made a prepayment in the amount of R\$283,622 (R\$263,138 as of March 2007) to Abril Group, collateralized by assets comprising TVA network.

21. Provisions for Contingencies (Continued)**21.1. Labor Contingencies and Reserves**

The Company has various labor contingencies and recorded a provision of R\$449,694, consolidated, to cover probable losses. The amounts involved and respective degrees of risk are as follows:

| Risk | Amount Involved | | |
|----------|-----------------|------------|-----------|
| | Telesp | A. Telecom | Total |
| Remote | 2,498,932 | 7,391 | 2,506,323 |
| Possible | 10,288 | - | 10,288 |
| Probable | 448,980 | 714 | 449,694 |
| Total | 2,958,200 | 8,105 | 2,966,305 |

These labor contingencies and reserves involve a number of lawsuits, mainly related to salary differences, salary parity, overtime, employment relationship of employees of outsourced companies and hazardous duty premium, among others.

The Company made escrow deposits in the amount of R\$81,304 for the reserves mentioned above.

21.2. Tax Contingencies and Reserves

| Risk | Amount involved | | | |
|----------|-----------------|-------|-----------|-----------|
| | Telesp | AIX | A.Telecom | Total |
| Remote | 1,816,631 | - | 1,333 | 1,817,964 |

21.2. Tax Contingencies and Reserves (Continued)

- a) Collection of Workers' Compensation Insurance (SAT) and charging of joint liability for payment of social security contributions allegedly not made by contractors, in the approximate amount of R\$313,086. Based on a partially unfavorable court decision, management decided to record of R\$103,433 relating to the portion of the total amount for which the likelihood of loss is probable. A judicial amount of R\$562 was made.
- b) Social security contribution on amounts paid for compensation of salary losses resulting from economic plans ("Plano Verão" and "Plano Bresser"), in the approximate amount of R\$139,234. Based on higher court decisions and an unfavorable court decision in a similar case involving another company from the Group, the Company's management assessed the amount of R\$96,808 as probable loss, setting up reserve for such amount.
- c) Notice demanding social security contributions, SAT (Workers' Compensation Insurance) and amounts for third parties National Institute for Agrarian Reform and Colonization - INCRA and Brazilian Mini and Small Business Support Agency (SEBRAE) on the payment of

various salary amounts for the period from January 1999 to December 2000, in the amount of approximately R\$59,150, considered a possible risk. These lawsuits are in the 1st lower court and at the last administrative stage, respectively. No provision was recorded based on the risk classification of this matter.

- d) Notice demanding social security contributions for joint liability in 1993, in the amount of approximately R\$190,263, for which the risk is considered possible. This process is at the second administrative level. No reserve was made based on the risk classification of this matter.
- e) Legal proceedings imposing fines of R\$161,982 for payment of dividends when the Company had allegedly a debt to the INSS. No reserve was made for the balance, for which the likelihood of loss is deemed possible. This process is at the 2nd administrative level.

21.2. Tax Contingencies and Reserves(Continued)

- f) On December 20, 2005 notices were drawn concerning the period from May 1995 to December 1998 demanding the payment of social security contributions amounts, through reconstruction of the tax base and considering the existence of joint liability between the Company and the service providers in general and those related to civil construction. The amount of R\$241,385, which refers to the use of inadequate criteria for calculation of the reconstructed tax base, and of R\$182,138, corresponding to the wrong definition of civil construction for reconstruction, as will be shown by means of technical reports requested to Engineering Institutes, were assessed as remote risk of loss by the legal counsel. The amount of R\$808,012 is classified as

possible risk due to the existing judicial arguments that support the procedure adopted by the Company and the removal of the joint liability. The process is at the first administrative stage. No reserve was made based on the risk classification of this matter.

Claims by the São Paulo State Finance Office, referring to:

- g) Tax assessments on October 31 and December 13, 2001, related to ICMS (state VAT) allegedly due on international long-distance calls, amounting to approximately R\$28,655 for November and December 1996 and amounting to R\$211,705 from January 1997 to March 1998, at the second administrative stage, assessed as possible risk, and R\$191,590 for the period from April 1998 to December 1999, at the second administrative stage, assessed as possible risk. No reserve was recorded based on the risk classification of these matters.
- h) Tax assessment on July 2, 2001 demanding the difference in ICMS paid without late-payment fine, amounting to R\$6,349 assessed as possible risk. The process is at the higher court. No reserve was recorded based on the risk classification of this matter.
- i) Tax assessment notice related to the untimely used credits in the period from January to April 2002, in the amount of R\$32,109, for which the risk is considered possible. The claim is at the 2nd administrative stage. No reserve was recorded based on the risk classification of this matter.

- j) Tax assessment notices related to the non-reversal of ICMS credits in proportion to tax-exempt and non-taxed sales and services in the period from January 1999 to June 2000 and July 2000 to December 2003, in addition to an ICMS credit unduly taken in March 1999. The total amount involved is R\$116,201. The risk is considered possible by legal counsel. The claim is at the 2nd and 1st administrative stage, respectively. No reserve was recorded based on the risk classification of this matter.
- k) Notifications of around R\$8,415 regarding the former Ceterp's loss of the ICMS tax benefit established by State Decree No. 48,237/03, due to underpayment for an error in the calculation of the debt, assessed as possible risk. The claim is at the 2nd administrative stage. No reserve was recorded based on the risk classification of this matter.
- l) Tax assessment notices related to nonpayment of ICMS, in the period from January 2001 to December 2005, on amounts received for lease of personal property (modem), totaling R\$140,212. Related risk is assessed as possible by legal counsel. The claim is at the 2nd administrative stage. No reserve was recorded based on the risk classification of this matter.
- m) Tax assessment notices related to nonpayment of ICMS in the period from August 2004 to December 2005, for non-inclusion of revenues from rendering of several supplemental services and value added, in the amount of R\$249,189, upon determination of the tax base. Related risk is assessed as possible by legal counsel. The claim is at the 2nd administrative stage. No reserve was recorded based on the risk classification of this matter.

Claims by the São Paulo State Finance Office, referring to: (Continued)

- n) Notice drawn up by the São Paulo State Finance Office on June 14, 2007, referring to co-billing operations during May to December 2004, due to: (i) non presentation of the totality of the files provided for in Administrative Ruling CAT No. 49/03; (ii) untimely compliance with notices referring to filing of electronic files; (iii) lack of or irregular recording on the Shipment records; and (iv) lack of payment of tax referring to a portion of the communication services rendered. The amount under dispute is of R\$7,091, already considering payment of the notice item, in the terms of Law No. 6374/89 and of Decree No. 51960/07 (PPI), referring to non-payment of taxes. The likelihood of loss is rated as possible. We point out that part of the delinquencies refer to information not filed by other operating companies. The defense was presented on July 17, 2007.

Considering the risk involved, the Company did not record a provision.

Litigation at the Federal and Municipal levels:

- o) FINSOCIAL, currently COFINS, was a tax on gross operating revenues, originally established at a rate of 0.5% and gradually and subsequently raised to 2.0%. Such rate increases were judicially challenged with success by several companies, which resulted in tax credits from overpayments. These credits were offset by CTBC (company merged into the Company in November 1999) against current amounts of COFINS due. Claiming that those offsets made by CTBC were improper, the Federal Government made an assessment in the amount of R\$18,986, considered a probable loss. The claim is at the higher court. Reserve was recorded based on the risk classification of this matter.
- p) Tax collection claim demanding differences regarding income tax, based on DCTFs (Declaration of Federal Tax Credits and Debits) for the first quarter of 1999, amounting to approximately R\$5,604, assessed as possible risk. These claims are at the 1st administrative stage and no reserve was recorded based on the risk classification.

21. Provisions for Contingencies (Continued)

21.2. Tax Contingencies and Reserves (Continued)

Litigation at the Federal and Municipal levels: (Continued)

- q) At the municipal level, the Company has contingencies related to IPTU (municipal real property tax), ISS (municipal service tax), fine and interest in the amount of R\$7,737 which have all been accrued due to the existence of favorable and unfavorable decisions regarding this matter. The Company made escrow deposits in the amount of R\$3,269 for such questionings.
- r) The Company filed an annulment action with a view to obtaining a court order that fully annuls tax credits resulting from tax assessment notices drawn up by the municipality of São Paulo, alleging differences in payment of the ISS, and charging late payment fine of 20% not paid, in the amount of R\$19,268. A reserve was not set up for this contingency, based on the legal advisor's opinion of a possible unfavorable outcome. The claim is at trial court.
- s) On December 15, 2005, ANATEL issued Pronouncement No. 1 (subsequently renumbered to Pronouncement No. 7), whereby it confirmed the understanding that interconnection expenses are not excluded from FUST tax basis, thus changing the previous position which provided for such exclusion. The Pronouncement is applied retroactively to January 2001. Thus, through ABRAFIX (Brazilian Association of Fixed Telephony Companies), on January 9, 2006, the Company filed for a writ of mandamus with a view to ensuring the possibility of excluding interconnection expenses from the FUST calculation base. The proceeding is at trial court. The contingency risk was assessed as possible by the

Company's legal advisors. The amount involved is of R\$125,763. No reserve was recorded based on the risk classification of this matter.

- t) Tax assessment notice drawn up by the IRS demanding payment of Corporate Income Tax (IRPJ), which was offset in 2002 Corporate Income Tax Return (DIPJ) against Withholding Income Tax (IRRF) by Public Agencies for the rendering of services during calendar year 2001. The suit is at the first administrative stage. The risk was classified as probable, and as such, a reserve was set up in the amount of R\$1,426.

There are other contingencies for which provisions have been recorded, in the amount of R\$73,458, considered of probable risk by the Company management, with related judicial deposits in the amount of R\$61,269.

21.3. Civil Contingencies and Reserves

| Risk | Amount Involved | | |
|----------|-----------------|------------|-----------|
| | Telesp | A. Telecom | Total |
| Remote | 950,852 | 250 | 951,102 |
| Possible | 989,082 | 160 | 989,242 |
| Probable | 130,851 | 29 | 130,880 |
| Total | 2,070,785 | 439 | 2,071,224 |

These contingencies assessed as possible risk involve various matters: unacknowledged title to telephone line, indemnity for material and personal damages, among others, in the amount of approximately R\$494,049.

In addition, we describe below the most relevant civil contingencies, including their risk assessment:

- The Company is also involved in civil class actions related to the Community Telephone Plan (PCT), where the telephone expansion plan buyers who did not receive shares in return for their financial investments seek an indemnity, in the municipalities of Diadema, São Caetano do Sul, São Bernardo do Campo and Ribeirão Pires, involving a total amount of approximately R\$297,756. The risks involved were assessed as possible by legal counsel. The claims are at appellate court level. Telesp expects that a favorable decision will be handed down by the higher and supreme courts. Considering the likelihood of loss, no provision was recorded.
- The Association of the Participants of the Sistel in the State of São Paulo - ASTEL moved against the Company, Fundação Sistel de Seguridade Social and others, a class action questioning subjects related to the Plan of Medical Assistance for Retirees - PAMA, considering in synthesis: (i) prohibition of the collection of contribution of the retirees included in the PAMA; (ii) the registration in the PAMA of the retirees and assisted people whose registrations were suspended for insolvency; (iii) revaluation of the economic necessities of the PAMA; (iv) restoration of the basis of incidence of the contributions on the total and gross amount of the payroll of all the employees of the company; (v) reaccreditation of all the hospitals, clinics, laboratories and doctors discredited by Sistel and (vi) review of the accounting distribution of shareholders' equity. Company Management, based on the opinion of its legal counsel, assessed this suit as a possible risk, and the respective amount involved is estimated to be R\$197,437. Based on the risk classification, no reserve was recorded.

21.3. Civil Contingencies and Reserves (Continued)

- On June 9, 2000, WCR do Brasil Serviços Ltda. filed a collection suit against the Company, in which it claims the supposed difference between amounts received by Telesp related to use of the "0900 Service" and the amounts which were transferred to WCR. The updated amount claimed in the suit is R\$62,710. On October 1, 2004, a ruling was handed down by the 13th Civil Court of São Paulo - Capital, whereby the claim was judged valid. On December 14, 2004, an appeal was lodged against this ruling, which was distributed to the 26th Panel of Judges of the Capital. On May 26, 2006, a ruling was handed down on the appeal considering it to be partially valid, maintaining the text of the decision. This case involves a probable unfavorable outcome, as such, a reserve was set up.

The proposed interest on shareholders' equity was determined as follows:

| | Types of shares | |
|--------------------------|------------------------|----------------------|
| | Common | Preferred (*) |
| Amounts in R\$ per share | 1.307780 | 1.438558 |

(*) 10% higher than for each common share, as per article 7 of the Company's bylaws.

This dividend was granted to common and preferred shareholders registered as so in the Company's shareholders registry book by the end of the day March 29, 2007. After that date, the shares were considered ex-dividends. The payment of this dividend will start on May 28, 2007.

Interest on shareholders' equity - fiscal year 2007

On April 19, 2007, the Company published a notice of credit of interest on shareholders' equity for 2007, approved in the Board of Directors meeting held on April 18, 2007, following the Annual Shareholders' Meeting.

The Company declared interest on shareholders' equity in the amount of R\$221,000, withholding 15% income tax, resulting in net interest of R\$187,850, as per article 9 of Law No. 9,249/95 and the Brazilian Securities and Exchange Commission CVM Resolution No. 207/96.

Tariff adjustments that influenced the stated revenues

On July 10 and 14, 2006, through Rulings No. 59,517 and 59,665, ANATEL approved the tariff adjustment for STFC, according to criteria established in the Local and Long- Distance Concession Contracts, effective as from July 14, 2006 for the Local Basic Plan, and as from July 20, 2006 for the National Long-Distance Basic Plan. Average decreases were as follows:

Local Basic Plan: (-0.38%)

National Long-Distance Basic Plan: (-2.73%)

On January 1, 2007 and 2006, the new interconnection rules became effective, according to renewal of the Local and National Long-Distance Basic Plan, as follows:

- As from January 1, 2006, the local network tariff (TU-RL) is limited to 50% of the local minute value.

- As from January 1, 2007, the local network tariff (TU-RL) is limited to 40% of the local minute value.

31. Income and Social Contribution Taxes

The Company recognizes income and social contribution taxes monthly on accrual basis and pays the taxes on an estimated basis, in accordance with the trial balance for suspension or reduction. The taxes calculated on income as of the date of the financial statements are recorded in liabilities or assets, as applicable. Prepayments of income and social contribution taxes are recorded as deferred and recoverable taxes.

Reconciliation of tax expenses and standard rates

Reconciliation of the reported tax charges and the amounts calculated by applying 34% (income tax of 25% and social contribution tax of 9%) on June 30, 2007 and 2006 is shown in the table below:

33. Post Retirement Benefit Plans

Telesp individually sponsors a defined benefit retirement plan (PBS Telesp Plan), which covers approximately 0.78% of the Company's employees. In addition to the supplemental pension benefit, a multiemployer health care plan (PAMA) is provided to retired employees and their dependents, at shared costs. Contributions to the PBS Telesp Plan are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The funding procedure is the capitalization method and the sponsor's contribution is 6.93% of payroll of employees covered by the plan, of which 5.43% is allocated to fund the PBS Telesp Plan and 1.5% to the PAMA Plan.

The Company maintains the same post retirement benefit plans informed on the last financial statements.

In the first semester of 2007, the Company made contributions to PBS Telesp Plan, in the amount of R\$24 (R\$27 in the same period of 2006), and to Visão Telesp Plan, in the amount of R\$12,302 (R\$11,165 in the same period of 2006).

A. Telecom individually sponsors two defined contribution plans: one being similar to that of Telesp, the Visão Assist benefit plan, which covers approximately 30% of its employees, and the other one with basic and additional contributions by the sponsor, equivalent to 30% of the basic and additional contributions by the participants. A. Telecom contributions to such plans in the first semester of 2007 totaled R\$ 317 (R\$97 in the same prior-year period).

Telefonica Empresas S.A. individually sponsors a defined contribution plan similar to that of the Company, the Visão Telefônica Empresas Benefit Plan. Total contributions to this plan for the first semester of 2007 amounted to R\$408 (R\$1,533 in 2006).

The actuarial valuation of the plans was made in December 2006 and 2005 based on the employees' data as of September 2006 and November 2005, respectively, and the projected unit credit method was adopted. Actuarial gains or losses for each year were immediately recognized in each of the periods. The plans assets relate to November 30, 2006 and 2005. For multiemployer plans (PAMA and PBS-A), apportionment of the plan assets was made based on the sponsoring entity's actuarial liabilities in relation to the plans' total actuarial liabilities.

34. Insurance (unaudited)

The policy of the Company and its subsidiaries, as well as that of the Telefônica Group, includes the maintenance of insurance coverage for all assets and liabilities involving significant amounts and high risks based on management's judgment, following Telefônica S.A.'s corporate program guidelines. In this context, Telecomunicações de São Paulo S.A. Telesp complies with the Brazilian legislation for contracting insurance coverage.

35. Financial Instruments (Continued)

The Company has an interest of 0.94% in Portugal Telecom, carried at cost. The investment, at market value, is based on the last quotation of June 2007 on the Lisbon Stock Exchange for Portugal Telecom, equivalent to R\$10.23 (R\$10.03 at March 31, 2007):

| | Consolidated | | | |
|--|-----------------------|-----------------------|-----------------------|-----------------------|
| | Jun/2007 | | Mar/2007 | |
| | Book value | Fair value | Book Value | Fair value |
| Portugal Telecom □ direct investment | 75,362 | 213,228 | 75,362 | 219,613 |

| | 126,483 | 284,304 | 129,063 | 292,817 |

The principal market risk factors that affect the Company's business are detailed below:

a) Exchange rate risk

As of June 30, 2007, 25.31% (26.28% as of March 31, 2007) of the debt was denominated in foreign currency (U.S. dollar and yen), 100% (99.92% as of March 31, 2007) of this debt was covered by asset positions on currency hedge transactions (swaps for CDI). As of June 30, 2007, transactions with derivatives generated a consolidated negative result of R\$102,737, which was partially offset against exchange gains on debts, in the amount of R\$68,199. As of June 30, 2007, the Company recorded a liability of R\$327,131 to reflect the net position of derivatives as of that date.

35. Financial Instruments (Continued)

The carrying and fair values of the Company's net excess (exposure) to the exchange rate risk as of June 30, 2007 and March 31, 2007 are as follows:

| | Consolidated | | | |
|-------------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| | Jun/2007 | | Mar/2007 | |
| | Book value | Fair value | Book value | Fair value |
| Liabilities | | | | |
| Loans and financing | 513,074 | 505,525 | 540,657 | 532,484 |
| Purchase commitments | 61,047 | 61,047 | 74,193 | 74,193 |
| Asset position on swaps | 513,142 | 510,593 | 540,231 | 537,813 |
| Net excess (exposure) | (60,979) | (55,979) | (74,619) | (68,864) |

b) Interest rate risk

To hedge against the currency and external variable interest rate (Libor) risk on these foreign currency debts, the Company has hedge transactions in order to peg these debts to local currency, at floating rates indexed to the CDI (interbank deposit rate), in a way that the Company's indebtedness is affected by CDI fluctuations. The balance of loans and financing also includes debentures issued in 2004 bearing CDI-based interest of R\$1,513,299 (R\$1,515,540 as of March 31, 2007), as described in Note 17.

The Company invests its cash surplus (temporary cash investments) of R\$149,459 (R\$457,340 as of March 31, 2007) mainly in short-term instruments, based on the CDI variation, which also reduces the exposure to said risk. The carrying values of these

instruments approximate their corresponding fair values, since they may be redeemed in the short term.

As of June 30, 2007, the Company had swap transactions □ CDI vs. fixed rate, to partially hedge against fluctuations in internal interest rates. These hedging transactions, with a contracted principal of R\$1,110,032, generated a net consolidated positive result of R\$927 over the year, and this temporary gain was recorded in the statement of income.

35. Financial Instruments (Continued)

c) Debt acceleration risk

As of June 30, 2007, the Company's loan and financing agreements contain restrictive covenants, typically applicable to such agreements, relating to cash generation, indebtedness ratios and other. These restrictive covenants have been met by the Company and have not restricted the Company's ability to conduct its normal course of business.

d) Credit risk

As of June 30, 2007, the Company's consolidated customer portfolio had no subscribers whose receivables were individually higher than 1% of the total trade accounts receivable.

The Company is also subject to credit risk related to temporary cash investments and receivables from swap transactions. The Company reduces this exposure by dispersing it among top-tier financial institutions.

36. Additional Information

On October 27, 2006, Decree No. 47,817 was published in the Official Gazette of the Municipality of São Paulo, regulating Law No. 14,023/05, which establishes that all aerial cabling in the city of São Paulo be buried and to comply with the Law. The

Company is analyzing the effects of the referred to regulation in order to study its impacts.

| Net income for the period | 1,195.8 | 1,281.1 | (6.7) | (85.3) |

- Net operating revenues accumulated until June 2007 amounted to R\$7,374.0 million, which, compared to revenues computed in the same prior-year period of R\$7,225.2 million, represents an increase of R\$148.8 million, or 2.1%. Such variation is basically a result of the growth in revenues from data communication by package due to Telefônica Empresas S.A. consolidation, increase in the Speedy service, in LDN (National Long Distance) revenues, and in the number of alternative plans in the period. Such effect was partially impacted, on the other hand, by the fall in the network use revenues due to the new interconnection rules effective as from January 1, 2007, whereby TU-RL is now limited to 40% of the local minute public tariff rate, representing a 20% decrease in relation to the tariff rate adopted in December 2006. In addition, local service revenues underwent a 7.2% reduction and inter-network revenues decreased due to increase in anti-fraud measures.
- Cost of services provided increased by R\$48.5 or 1.3%, namely as a result of [Personnel expenses], impacted by the salary adjustment in September/06, headcount increase due to transfer of employees from the subsidiary Telefônica Empresas S.A., voluntary resignation program (PDI) in February and June 2007, and [Third-party services], principally because of increase in expenses with client services, with co-billing and with sales commissions, partially offset by the fall in production plant maintenance expenses and [Other], due to rent of infra-structure to last mile traffic and to rent of network for data transmission.

3. The negative financial result improved by R\$120.2 million, or 23.9%, mainly justified by the fall in the CDI rate, the lower average net indebtedness, and decrease in the payment of interest on shareholders' equity in the period.

4. Operating income presented a 4.2% decrease when compared to the same prior-year period. A significant portion of this result is due to growth in operating expenses in the six-month period, referring namely to personnel expenses, third-party services and rent of infra-structure, in addition to fall in network use revenues, local and inter-network services, partially offset by the rise in revenues from data communication by package, as a consequence of the Telefônica Empresas S.A. merger, Speedy services, LDN revenues and increase in the number of alternative plans.

Local traffic: in pulses in the 1H07 does not reflect the traffic generated by the terminals migrated to Local Traffic Packages and those already covered by the Pulse/Minute conversion determined by ANATEL. Should the traffic generated by such terminals be considered, the fall in total recorded pulses would be of □ 15.1% and in total exceeding pulses, of -12.1% .

6. Investments

The Company submitted the Capital Budget for 2007 in the consolidated amount of R\$1,845 million for appreciation by the Board of Directors, which was subsequently approved in the Annual Shareholders' Meeting of March 29, 2007.

This figure is in line with the Company's needs, and confirms the long-term commitment with the Telefonica Group in Brazil, regarding both maintenance and socialization of traditional services and increase in new services and a more comprehensive and better client service.

Up to June 30, 2007, the Company invested the consolidated amount of R\$813.6, and until June 2007, the new commitments with capital expenses are as follows:

| <u>Year of disbursement</u> | <u>Total contracted amount</u> | <u>Total budgeted amount</u> |
|-----------------------------|--------------------------------|------------------------------|
| 2007 | 877.1 | 979.5 |

6.1 Sale of telephone lines (*)

At the end of March 2007, of the 12,036,987 lines in operation, 75% were residential, 14% non-residential, 6% company lines and the remaining referred to lines for own and Public Use.

6.2 Public use telephony (*)

The Company has a Public Use Telephone plant with 250,286 units, to meet the demands of the São Paulo state population and the regulatory agency.

7. ANATEL

7.1 Goals

The quality and universalization goals of the Fixed Switched Telephone Services (STFC) are available for the society follow-up on the National Communications Agency (ANATEL) site, at **www.anatel.gov.br**.

7.2 Concession contract

The STFC concession contract was extended on December 22, 2005 for a further 20 years, and may be amended on December 31, 2010, December 31, 2015 and December 31, 2020. This condition enables ANATEL to establish new provisions and goals for purposes of universalization and quality, considering the conditions prevailing on the occasion.

8. Alternative fixed telephony plans

Alternative fixed telephony plans make Telesp's installed capacity more profitable, builds client loyalty and improves the services provided to different market segments, offering more adequate options to access fixed telephones. This reflects Telesp's commitment to universalization of telecommunications services in the state of São Paulo, exceeding regulatory requirements, and to popularize access to communication and information.

Highlight is given to the successful Minutes Plans, which provide progressive discounts on the volume of contracted minutes. There are versions for the fixed-to-fixed, fixed-to- mobile and interstate long-distance calls. Alternative plans already represent 42.6% of the total lines in operation.
