Mineralized Material Report

On July 6, 2012, Silver Bull Resources, Inc. (the “Company”) announced the results of a technical report (the “Report”) prepared by SRK Consulting (Canada) Inc. (“SRK”) on the silver mineralization in the “Shallow Silver Zone” of the Sierra Mojada Project in Coahuila, Mexico in accordance with the Canadian Securities Administrators’ National Instrument 43-101 — Standards of Disclosure for Mineral Projects (“NI 43-101”). At an economic cutoff grade of 15 grams/tonne of silver for mineralized material possibly accessible by open pit mining, the Report indicates mineralized material of 48.8 million tonnes at an average silver grade of 46 grams/tonne.

A copy of SRK’s consent to disclose the results of the Report is filed as Exhibit 99.1 to this report, and is incorporated by reference into the Company’s registration statements on Form S-3 (333-180143), Form S-3 (333-174816), Form S-3 (333-172789), Form S-3 (333-172868), Form S-8 (333-180142) and Form S-8 (333-171723), including any prospectuses or amendments or supplements thereto.

“Mineralized material” as used in this current report, although permissible under SEC’s Guide 7, does not indicate “reserves” by SEC standards. The Company cannot be certain that any part of the Sierra Mojada Project will ever be confirmed or converted into SEC Industry Guide 7 compliant “reserves.” Investors are cautioned not to assume that all or any part of the mineralized material will ever be confirmed or converted into reserves or that mineralized material can be economically or legally extracted.

Termination of the Ndjole-Mevang and Ogooue Joint Ventures in Gabon, Africa

On August 3, 2012, the Company announced the termination of the Ndjole-Mevang Joint Venture Agreement and the Ogooue Joint Venture Agreement, respectively, with AngloGold Ashanti Holdings plc (“AngloGold”). Dome Ventures Corporation, a wholly owned subsidiary of the Company (“Dome”), and AngloGold entered in the Ndjole-Mevang and Ogooue joint venture agreements in October 2009.

A copy of the news release announcing these developments is attached hereto as Exhibit 99.2.
