ANNUAL MEETING 2001  
PROXY STATEMENT**

**VOTING PROCEDURES AND SOLICITATION**

**YOUR VOTE IS IMPORTANT**

Whether or not you plan to attend the meeting, please complete and return the enclosed proxy card. Your prompt voting may save us the expense of following up with a second mailing. We began sending out these proxy materials on approximately October 25, 2001.

**METHODS OF VOTING**

You may vote by signing and returning the enclosed proxy card, or by voting in person at the meeting. If you send in a proxy card, and also attend the meeting in person, the proxy holders will vote your shares as you instructed on your proxy card, unless you inform the Secretary at the meeting that you wish to vote in person.

**REVOKING A PROXY**

You may revoke your proxy by:

signing and returning another proxy card at a later date;

sending written notice of revocation to the Secretary at our executive offices, 103 Carnegie Center, Suite 200, Princeton, New Jersey 08540; or

informing the Secretary and voting in person at the meeting.

To be effective, a later-dated proxy or written revocation must arrive at our corporate offices before the start of the meeting.

**PROXY SOLICITATION**

We are soliciting the enclosed proxy card on behalf of the board of directors, and we will pay all costs of preparing, assembling and mailing the proxy materials. In addition to mailing out proxy materials, our officers and employees may solicit proxies by telephone or fax. We have requested brokers, banks and other fiduciaries to forward proxy

materials to the beneficial owners of our stock.

## HOW PROXY CARDS ARE VOTED

The proxy holders named on the proxy card are Carl Spana, Ph.D., president, chief executive officer and director, and Stephen T. Wills, executive vice president, chief financial officer, secretary and treasurer. The proxy holders will vote shares according to the stockholder's instructions on the proxy card. If a signed proxy card does not contain instructions, then the proxy holders will vote the shares FOR the election of the director nominees listed on the card; FOR ratifying the appointment of Arthur Andersen LLP as our independent public accountants for the fiscal year ending June 30, 2002; and in their discretion on any other business which may properly come before the meeting.

## QUORUM AND VOTES REQUIRED

A majority of the votes of outstanding shares of common stock and Series A preferred stock, represented at the meeting in person or by proxy, constitutes a quorum. Abstentions and broker non-votes will count towards the quorum. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item, and has not received instructions from the beneficial owner. Common stock and Series A preferred stock will vote together as one class on the three items of business listed on the proxy card.

Directors are elected by a plurality of votes cast, so the seven nominees receiving the most votes will be elected. Stockholders who do not wish to vote for one or more of the individual nominees may withhold authority in the space provided on the proxy card. Abstentions and broker non-votes will count neither for nor against election.

Ratifying the appointment of the independent public accountants for the fiscal year ending June 30, 2002 requires a majority of the votes cast. Abstentions and broker non-votes will count neither for nor against ratification.

## VOTING RIGHTS, SHARES OUTSTANDING AND VOTES PER SHARE

Holders of common stock and of Series A preferred stock at the close of business on the record date of October 24, 2001, are entitled to vote at the meeting.

Common stock:	11,199,611 shares outstanding, one vote per share
Series A preferred stock:	29,317 shares outstanding, 21.41 votes per share

PROXY STATEMENT, PAGE 4

Table of Contents**ITEM ONE: ELECTION OF DIRECTORS**

Each of the nominees is currently a director, except for Perry B. Molinoff, M.D., who is our Executive Vice President of Research and Development. If any of the nominees should become unavailable to serve on the board, the proxy holders will vote your shares for a board-approved substitute, or the board may reduce the number of directors.

In lieu of cash fees, each non-employee director receives annually an option to purchase 15,000 shares of common stock at the lowest closing price between December 1st and December 15th preceding the start of each calendar year. These options vest in 12 monthly installments, and expire 10 years from the date of grant. annual bonus compensation, in an amount to be decided by the compensation committee and approved by the board, based on achievement of yearly objectives;

participation in all benefit programs that we establish, to the extent the employee's position, tenure, salary, age, health and other qualifications make him eligible to participate; and

Each agreement contains non-competition, non-solicitation and confidentiality covenants.

Charles L. Putnam. Mr. Putnam served as an executive vice president and chief operating officer of Palatin under an employment agreement which commenced on September 11, 1998 and terminated with Mr. Putnam's resignation on November 30, 2000. At the time of his resignation, his salary was \$242,500 per year. We entered into a separation agreement with Mr. Putnam which superceded all of the terms of his employment agreement. Under the separation agreement, Mr. Putnam was to receive:

\$250,000, payable in 24 equal semi-monthly installments;

continued payment of premiums for health insurance for up to 12 months; and

accelerated vesting of all outstanding stock options and extension of the term of all options to November 30, 2004.

Effective May 15, 2001, due to alleged breaches and other allegations, we have suspended payment of the remaining balance of \$135,417 in severance pay and benefits. Mr. Putnam has initiated legal action against Palatin. We believe that Palatin has good and meritorious defenses to the action and we intend to vigorously defend the action.

## COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION IN COMPENSATION DECISIONS.

During the fiscal year ended June 30, 2001, Mr. Flannery, Dr. Prendergast, Mr. deVeer and Dr. Horovitz served on the compensation committee.

Dr. Prendergast is the president and sole stockholder of Summercloud Bay, Inc., a corporation with which we have had a consulting agreement since October 1997, to provide strategic and technology consulting services. Under the agreement, we paid Summercloud Bay \$54,000 per year for its services, and granted Summercloud Bay a stock option under the 1996 stock option plan to purchase 50,000 shares of common stock at \$7.75 per share. That option is now fully vested and expires in December 2007. Effective June 2000, we amended the agreement with Summercloud Bay to provide that we will pay \$116,000 per year for its services, and issue an option to purchase 100,000 shares of common stock at \$5.125 per share.

There are no compensation committee interlocks with other companies.

## COMPENSATION COMMITTEE REPORT

The compensation committee of the board makes recommendations to the board about compensation of executive officers. The committee also administers the 1996 stock option plan and may grant options to non-management employees and consultants, but it is the board's policy to have the full board review and approve all option grants which the committee recommends for executive officers and directors. The committee also reviews and makes recommendations to the board concerning proposed employment agreements with executive officers. For executive officers, the committee evaluates performance and determines compensation policies and levels. The members of the compensation committee are not, and have never been, employees or executive officers of Palatin. Dr. Prendergast has served on the committee since 1996. Mr. deVeer and Mr. Flannery have served on the committee since August 2000. Dr. Horovitz has served on the committee since February 2001.

*Executive compensation policy.* Competition for qualified senior management personnel in Palatin's industry is intense. In order to attract and retain qualified personnel, Palatin must offer compensation which is both comparable to similarly situated companies in current salary and benefits, and includes the potential for substantial rewards if Palatin is successful over the long term. Palatin's aim is to attract, retain and reward executive officers and other key employees who contribute to its long-term success and to motivate those individuals to enhance long-term stockholder value. It is Palatin's policy to enter into employment agreements with executive officers, preferably with an initial term of two years. To establish this relationship between executive compensation and creation of stockholder value, the board has adopted a total compensation package comprised of base salary, bonus and stock option awards. Key elements of the compensation philosophy are:

Palatin pays compensation at levels competitive with other biotechnology companies with which Palatin competes for talent.

Palatin maintains annual incentive opportunities sufficient to provide motivation to achieve specific operating goals and to generate rewards that bring total compensation to competitive levels.

Palatin provides significant equity-based incentives for executives and other key employees to ensure that they are motivated over the long-term to respond to Palatin's business challenges and opportunities as owners and not just as employees.

*Determining executive compensation.* The committee usually meets twice per year to review how well management compensation is serving Palatin's goals, to make recommendations to the board for any adjustments, and to recommend annual compensation for the coming year. Palatin's chief financial officer and human resources manager gather and report on information about compensation levels in comparable companies. We review the performance of each executive officer and the financial condition of the company. We then consider the following major components of executive compensation:

Base salary. The employment agreement with each executive sets an initial base salary, which is competitive in our industry, given the executive's experience and qualifications, at the time we enter into the agreement. The committee annually reviews each executive officer's base salary. Among the factors taken into consideration are (1) individual and corporate performance, (2) levels of responsibility, (3) prior experience, (4) breadth of knowledge of the industry, and (5) competitive pay practices. If salaries at comparable companies appear to have increased, we recommend similar increases, but only if each executive's historical performance warrants an increase and if the increase is prudent in view of Palatin's financial condition.

Annual bonus. In addition to the competitive base salary, we intend to reward executives each year for the achievement of specific goals, which may be financial, operational or technological. We consider objectively measurable goals, such as obtaining new investment capital, negotiating valuable contracts, or meeting regulatory requirements, and more subjective goals, such as quality of management performance and consistency of effort. Palatin's objectives consist of operating, strategic and financial goals that the board considers to be critical to Palatin's overall goal: building stockholder value. Our recommendations for cash bonuses also take into account Palatin's liquidity and capital resources at the time. Until Palatin's operations generate substantial income, we may recommend bonuses which consist partly or mainly of stock options. Stock options granted as part of bonus compensation will usually be immediately exercisable, or will vest over a shorter time than other incentive options.

Long-term incentives. At present, Palatin's only long-term incentive program is its 1996 stock option plan. Palatin does not have a defined benefit pension plan, and contributions to executives' accounts under Palatin's 401K plan are limited by federal tax regulations. Through option grants, executives receive significant equity incentives to build long-term stockholder value. The exercise price of options granted under the plan is at least 100% of fair market value of the common stock on the date of grant. Employees receive value from these grants only if the common stock appreciates over the long-term. We

PROXY STATEMENT, PAGE 16

Table of Contents

determine the size of option grants based on competitive practices at leading companies in the biotechnology industry and Palatin's philosophy of significantly linking executive compensation with

stockholder interests.

*Fiscal year 2001 compensation.* For the fiscal year ended June 30, 2001, base salary increases for all of the executive officers reflected increases in comparable salary figures for the industry, and overall progress toward Palatin's corporate and product development goals. Cash bonuses and stock option grants for the executive officers similarly reflected achievement of corporate and development goals, as well as sufficient liquidity to allow payment of substantial cash bonuses. The lower levels of cash bonuses and option grants to executive officers in fiscal 2001 compared to fiscal 2000 were offset by significant salary increases, which resulted in increased total compensation packages in fiscal 2001.

The base salary, bonus and grants of stock options for our CEO, Carl Spana, Ph.D., were determined in accordance with the criteria described above under Determining executive compensation. Dr. Spana's compensation reflects the board's subjective assessment of (1) his performance, (2) his skills in relation to other CEOs in Palatin's industry, and (3) the board's assessment of Palatin's performance. Considering these factors, the committee set Dr. Spana's base annual salary at \$265,000 for the fiscal year ended June 30, 2001. On August 1, 2000, in lieu of a larger cash bonus, the board granted Dr. Spana stock options to purchase 40,000 shares of common stock at \$5.125 per share, the market price on the date of grant. In recognition of his efforts to secure financing for Palatin, the board also granted Dr. Spana options to purchase 100,000 shares at \$5.125 per share, 50,000 of which vested in September 2000 upon completion of an equity financing.

*Certain Tax Considerations.* Section 162(m) of the Internal Revenue Code limits the company to a deduction for federal income tax purposes of not more than \$1 million of compensation paid to certain executive officers in a taxable year. Compensation above \$1 million may be deducted if it is performance-based compensation within the meaning of the Code.

The committee believes that at the present time it is unlikely that the compensation paid to any executive officer in a taxable year will exceed \$1 million. Therefore, the board has not established a policy for determining which forms of incentive compensation awarded to executive officers will be designed to qualify as performance based compensation.

## STOCK OWNERSHIP INFORMATION

### SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

The rules of the SEC (the Securities and Exchange Commission) require us to disclose late filings of reports of stock ownership and changes in stock ownership by our directors and executive officers. To the best of our knowledge, all of the filings for our directors and executive officers were made on a timely basis in fiscal 2001.

### BENEFICIAL OWNERSHIP OF MANAGEMENT AND OTHERS

The tables below show the beneficial stock ownership and voting power, as of October 24, 2001, of:

each director, each of the named executive officers, our former chief operating officer and all current directors and executive officers as a group; and  
all persons who, to our knowledge, beneficially own more than five percent of the common stock or Series A preferred stock.

"Beneficial ownership" here means direct or indirect voting or investment power over outstanding stock and stock which a person has the right to acquire now or within 60 days after October 24, 2001.

Some beneficial owners are listed twice in the second table — once to show their common stock holdings, and once to show their Series A preferred stock holdings. Please note that the common stock amounts shown in the table include the common stock issuable on conversion of Series A preferred stock, so the ownership percentages shown for any person who holds both types of stock should not be added together. Also, share amounts may reflect indirect ownership of shares which another person in the table owns directly. Therefore, the ownership percentages of related persons should not be added together. Please see the footnotes for more detailed explanations of the holdings. Except as otherwise noted, to our knowledge, the persons named in the tables beneficially own and have sole voting and investment power over all shares listed.

The common stock has one vote per share and the Series A preferred stock has approximately 21.41 votes per share. Voting power is calculated on the basis of the aggregate of common stock and Series A preferred stock outstanding as of October 24, 2001, the record date for the annual meeting. On October 24, 2001, 11,199,611 shares of common stock and 29,317 shares of Series A preferred stock were outstanding.

The address for all members of our management is c/o Palatin Technologies, Inc., 103 Carnegie Center, Suite 200, Princeton, NJ 08540. Addresses of other beneficial owners are noted in the tables.
