SYRATECH CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

(in thousands, except share and per share data)

1. FINANCIAL INFORMATION

The accompanying unaudited interim condensed consolidated financial statements of Syratech Corporation and Subsidiaries (the "Company") have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. Certain prior year amounts have been reclassified to conform to the 2001 presentation. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's 2000 Annual Report on Form 10 - K.

In the opinion of management, the interim condensed consolidated financial statements reflect all adjustments, which consist only of normal and recurring adjustments, necessary for a fair presentation of the interim periods. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

2. SUPPLEMENTAL DISCLOSURE OF CASH FLOW INFORMATION

	Nine Months Ended September 30,	
	2001	2000
Cash paid during the period for:		
Interest	\$ 11,123	\$ 11,494
Income taxes	\$ 860	\$ 925
Supplemental schedule of non-cash financing activities:		
Accrued cumulative redeemable preferred stock dividends	\$ 2,469	\$ 2,205

3. INVENTORIES

Inventories consisted of the following:

	September 30,	December 31,
	2001	2000
Raw materials	\$ 10,533	\$ 10,757
Work-in-process	6,032	8,062

Edgar Filing: SYRATECH CORP - Form 10-Q

Finished goods		94,674		73,930
Total	\$	111,239	\$	92,749

4. INCOME TAXES

The benefit for income taxes for the three and nine month periods ended September 30, 2001 and 2000 have been computed using the estimated effective full year tax rate of 25%. Realization of the income tax benefit is dependent upon generating sufficient future taxable income. Although realization is not assured, management believes it is more likely than not that the income tax benefit will be realized through future taxable earnings.

5. REVOLVING LOAN FACILITIES AND NOTES PAYABLE

The Company has a five year Senior Revolving Credit Facility (the Facility) dated April 16, 1997 (amended effective as of July 31, 1997, December 31, 1997, March 30, 1998, December 31, 1998, March 26, 2001 and August 13, 2001) which provides for \$123,000 of borrowings, including a \$30,000 sublimit for the issuance of standby and commercial letters of credit. The obligations of the Company under the Facility are secured by inventory and accounts receivable of the Company and its domestic subsidiaries, and by a pledge of 100% of the domestic subsidiaries and at least 65% of the foreign subsidiaries outstanding capital stock. The Facility expires on April 15, 2002. Pursuant to the amended agreement, effective August 16, 2001, borrowings made under the Facility bear interest at a rate equal to, at the Company's option, the Eurodollar Rate plus 375 basis points or the Prime Rate plus 100 basis points; covenants requiring minimum ratios of earnings before income taxes, depreciation, amortization, and certain adjustments (EBITDA), including funded debt to EBITDA and fixed charge coverage have been eliminated; a minimum annual EBITDA requirement of \$18,000 at the quarter ended September 30, 2001 and \$15,000 at quarters ended on or after December 31, 2001 was established; and the Company is required to maintain excess availability of \$15,000 beginning August 16, 2001 to September 30, 2001, and at least \$10,000 thereafter. During February and March of 2002, the minimum availability requirement is \$25,000. The Company is in compliance with the covenants, as amended, as of September 30, 2001 and for the quarter then ended. At September 30, 2001, availability under the Revolving Credit Facility, net of outstanding letters of credit, was \$38,700, resulting in borrowing capacity of \$23,700 net of the \$15,000 excess availability requirement noted above.

On August 2, 2001, the Company renewed its Wallace International de Puerto Rico, Inc. \$1,000 credit facility. The renewed facility expires on April 30, 2002 and its terms require that the facility be paid down to zero for one 15 consecutive day period prior to that date. Borrowings under the facility bear interest at a rate equal to the Prime Rate plus 100 basis points. Availability under the Facility was \$0.1 million at September 30, 2001.

As of September 28, 2001, the Company's C. J. Vander Ltd. subsidiary renewed its £250 overdraft facility. The renewed facility expires on April 30, 2002.

6. COMPREHENSIVE INCOME

Comprehensive income consists of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2001	2000	2001	2000
Net income (loss) applicable to common stockholders	\$ 4,397	\$ 6,277	\$ (12,017)	\$ (8,312)
Other comprehensive income (loss):				
Minimum pension liability adjustments	(98)		(295)	
Foreign currency translation adjustments	400	(494)	(160)	(1,167)
Comprehensive income (loss)	\$ 4,699	\$ 5,783	\$ (12,472)	\$ (9,479)

7. ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," effective for all fiscal quarters of fiscal years beginning after June 15, 2000. The standard requires that all companies record derivatives in the balance sheet as assets or liabilities, measured at fair value. Gains or losses resulting from changes in the values of those derivatives would be accounted for depending on the use of the derivative and whether it qualifies for hedge accounting. The Company adopted SFAS No. 133, as required, and such adoption did not have a material impact on the consolidated financial statements.

In July 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 141 ("SFAS 141"), "Business Combinations." SFAS 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The Company does not believe that the adoption of SFAS 141 will have a significant impact on its financial statements.

In July 2001, the Financial Accounting Standards Board approved Financial Accounting Standard No. 142 - "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 includes requirements to test goodwill and indefinite lived intangible assets for impairment rather than amortize them. Goodwill amortization recorded during the nine months ended September 30, 2001 aggregated \$256. SFAS 142 will be effective for fiscal years beginning after December 15, 2001. The Company will adopt SFAS 142 beginning in the first quarter of 2002. The financial statement impact has not yet been determined.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 supersedes FASB Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and the accounting and reporting provisions of Accounting Principles Board ("APB") Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," for the disposal of a segment of a business (as previously defined in that opinion). SFAS No. 144 requires that one accounting model be used for long-lived assets to be disposed of by sale, whether previously held and used or newly acquired, and broadens the presentation of discontinued operations to include more disposal transactions than were included under the previous standards. The Company is required to implement SFAS No. 144 on January 1, 2002, and it has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

8. SEGMENT DISCLOSURES

The Company has identified only one distinct and reportable segment: Home Entertainment and Decorative Products, which generates revenue from two types of product offerings: Tabletop and Giftware, and Seasonal. The following table presents the Company's net sales in these product categories for the periods presented:

	Three Months				Nine Months Ended			
	Ended September 30,				September 30,			
	2001		2000		2001		2000	
Tabletop and Giftware	\$	74,381	\$	72,854	\$	152,701	\$	154,759
Seasonal		29,627		46,952		33,584		67,515
Total	\$	104,008	\$	119,806	\$	186,285	\$	222,274

9. SUBSEQUENT EVENT

On November 2, 2001, the Company, through a wholly-owned subsidiary, purchased an aggregate of \$704 of its outstanding Senior Notes on the open market. An extraordinary gain net of applicable taxes of approximately \$269 will be recorded in the fourth quarter.

10. SUPPLEMENTAL CONSOLIDATING FINANCIAL STATEMENTS

The following supplemental consolidating financial statements as of September 30, 2001 and December 31, 2000, and the three and nine month periods ended September 30, 2001 and September 30, 2000 present separate financial information for the Company ("Issuer/Guarantor Parent"), the Guarantor Subsidiaries, and the Non-Guarantor Subsidiaries. Certain prior year amounts have been reclassified to conform with the 2001 presentation. Separate financial statements of each guarantor are not presented because management believes that such statements would not be materially different from the information presented herein.

SYRATECH CORPORATION AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. Except for the historical information contained in this Quarterly Report on Form 10-Q, the matters discussed are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, general economic and business conditions; industry capacity; industry trends; overseas expansion; the loss of major customers; changes in demand for the Company's products; the timing of orders received from customers; cost and availability of raw materials; dependence on foreign sources of supply; changes in business strategy or development plans; availability and quality of management; availability, terms and deployment of capital; and the seasonal nature of the business. For additional information concerning these and other important factors that may cause the Company's actual results to differ materially from expectations and underlying assumptions, please refer to the reports filed by the Company with the Securities and Exchange Commission.

Results of Operations

Three months ended September 30, 2001 compared to three months ended September 30, 2000

Net sales, on a comparable basis (excluding sales to a specialty retail/licensing organization in 2000), increased 1.1% to \$104.0 million for the three months ended September 30, 2001 from \$102.9 million for the three months ended September 30, 2000, despite the weak retail environment. Total net sales decreased 13.2% to \$104.0 million for the three months ended September 30, 2001 from \$119.8 million for the three months ended September 30, 2000. Net sales for the three months ended September 30, 2000 included \$16.9 million of sales to the specialty retail/licensing organization. In 2001 the Company entered into a direct sourcing agency arrangement with a specialty retail/licensing organization, replacing an arrangement in which the Company had previously sold and distributed their licensed products. Under the new arrangement the Company's sales and royalty expenses to this organization are eliminated and purchasing commissions are earned. Changes in normal product prices did not materially impact net sales.

Gross profit as a percentage of sales was 29.2% for the 2001 third quarter compared to 30.3% for the comparable 2000 period. The 1.1 percentage point decrease in gross margin reflects lower manufacturing cost absorption related to reduced production levels and the mix of products sold during the period.

Selling, general and administrative expenses (S, G & A expenses) decreased \$3.1 million to \$18.0 million for the three months ended September 30, 2001, as compared with \$21.1 million for the comparable period ended September 30, 2000. The decrease is primarily due to reduced royalty expenses and spending cuts initiated to address the lower sales volume.

Edgar Filing: SYRATECH CORP - Form 10-Q

Income from operations was \$12.8 million and \$15.7 million for the third quarter of 2001 and 2000, respectively, and included other operating income of \$.5 million in 2001 and \$.4 million in 2000, primarily licensing fees.

Interest expense was \$5.8 million for the three months ended September 30, 2001 compared to \$6.4 million in the same period of 2000. This decrease reflects the decline in the bank's prime lending rate and the reduced amount of 11% Senior Notes outstanding, and decreased borrowings under the Company's revolving credit facility during the third quarter versus the comparable prior year period.

Edgar Filing: SYRATECH CORP - Form 10-Q

The provision for income taxes was \$1.7 million for the three months ended September 30, 2001, compared with \$2.3 million for the three months ended September 30, 2000. The \$.6 million decline is due to the decrease in net income before provision for income taxes. The effective income tax rate was 25% for both periods.

Net income applicable to common stockholders for the three month periods ended September 30, 2001 and 2000 was \$4.4 million and \$6.3 million, respectively, or \$1.16 and \$1.66, respectively, per basic and diluted share on adjusted weighted average shares of 3,784,018 in both periods.

Nine months ended September 30, 2001 compared to nine months ended September 30, 2000

Net sales, on a comparable basis (excluding sales to the specialty retail/licensing organization in 2000), decreased 2.4 % to \$186.3 million for the nine months ended September 30, 2001 from \$190.9 million for the nine months ended September 30, 2000 reflecting the generally weak retail environment. Total net sales decreased 16.2 % to \$186.3 million for the nine months ended September 30, 2001 from \$222.3 million for the nine months ended September 30, 2000. Net sales for the nine months ended September 30, 2000 included \$31.4 million of sales to the specialty retail/licensing organization. As noted above, in 2001 the Company entered into a direct sourcing agency arrangement with the specialty retail/licensing organization, replacing an arrangement in which the Company had previously sold and distributed their licensed products. Under the new arrangement the Company's sales and royalty expenses to this organization are eliminated and purchasing commissions are earned. Changes in normal product prices did not materially impact net sales.

Gross profit decreased 17.7 % to \$52.4 million for the nine months ended September 30, 2001 from \$63.6 million for the nine months ended September 30, 2000. Gross profit as a percentage of sales was 28.1% for the nine months ended September 30, 2001 compared to 28.6% for the comparable 2000 period. The .5 percentage point decrease reflects a favorable mix of the product sold, offset by higher provisions for sales allowances and lower absorption of distribution and manufacturing costs compared with the prior year period.

Selling, general and administrative expenses (S, G & A expenses) decreased \$5.9 million to \$49.9 million for the nine months ended September 30, 2001, as compared with \$55.8 million for the comparable period ended September 30, 2000. The decrease is primarily due to reduced royalty expenses and spending cuts initiated to address the lower sales volume.

Profit from operations was \$3.8 million and \$9.2 million for the nine months of 2001 and 2000, respectively, and included other operating income of \$1.2 million and \$1.3 million in 2001 and 2000, respectively, primarily from licensing fees.

Interest expense was \$16.5 million for the nine months ended September 30, 2001 compared to \$17.3 million in the same period of 2000. This decrease reflects the decline in the bank's prime lending rate and the reduced amount of 11% Senior Notes outstanding, partially offset by increased borrowings under the Company's revolving credit facility during the nine month period versus the comparable period in 2000.

The benefit for income taxes was \$3.2 million for the nine months ended September 30, 2001 compared to \$2.0 million for the nine months ended September 30, 2000. The effective income tax rate was 25% for both periods.

Edgar Filing: SYRATECH CORP - Form 10-Q

Net loss applicable to common stockholders for the nine month periods ended September 30, 2001 and 2000 was \$12.0 million and \$8.3 million, respectively, or \$3.18 and \$2.20, respectively, per basic and diluted share, on adjusted weighted average shares of 3,784,018 in both periods.

Liquidity and Capital Resources

Net cash provided by operating activities for the nine months ended September 30, 2001 was \$7.5 million as compared with a \$51.1 million use of cash for the nine months ended September 30, 2000. The improvement relates to the significant decline in working capital requirements related to the elimination of sales to the specialty retail/licensing organization as noted above, and reduced investment in inventories.

The Company's working capital requirements are seasonal and tend to be highest in the period from September through November due to the Christmas selling season. Accounts receivable tend to decline during December and the first quarter as receivables generated during the third and fourth quarters are collected and remain lower until the next peak season beginning in September. Inventories tend to increase from January through August of each year and gradually decrease during the final four months of the year.

Capital expenditures were approximately \$4.4 million for the nine months ended September 30, 2001 and the Company expects to spend approximately \$2.1 million during the remainder of 2001. These expenditures relate primarily to investment in information technology, and machinery, equipment and tools and dies for the Company's manufacturing and distribution facilities.

The Company has a five year Senior Revolving Credit Facility (the Facility) dated April 16, 1997 (amended effective as of July 31, 1997, December 31, 1997, March 30, 1998, December 31, 1998, March 26, 2001 and August 13, 2001) which provides for \$123 million of borrowings, including a \$30 million sublimit for the issuance of standby and commercial letters of credit. The obligations of the Company under the Facility are secured by inventory and accounts receivable of the Company and its domestic subsidiaries, and by a pledge of 100% of the domestic subsidiaries' and at least 65% of the foreign subsidiaries' outstanding capital stock. The Facility expires on April 15, 2002. Pursuant to the amended agreement, effective August 16, 2001, borrowings made under the Facility bear interest at a rate equal to, at the Company's option, the Eurodollar Rate plus 375 basis points or the Prime Rate plus 100 basis points; covenants requiring minimum ratios of earnings before income taxes, depreciation, amortization, and certain adjustments (EBITDA), including funded debt to EBITDA and fixed charge coverage have been eliminated; a minimum annual EBITDA requirement of \$18 million at the quarter ended September 30, 2001 and \$15 million at quarters ended on or after December 31, 2001 was established; and the Company is required to maintain excess availability of \$15 million beginning August 16, 2001 to September 30, 2001, and at least \$10 million thereafter. During February and March of 2002, the minimum availability requirement is \$25 million. The Company is in compliance with the covenants, as amended, as of September 30, 2001 and for the quarter then ended. At September 30, 2001, availability under the Revolving Credit Facility, net of outstanding letters of credit, was \$38.7 million, resulting in borrowing capacity of \$23.7 net of the \$15 million excess availability requirement noted above.

The Notes become due April 15, 2007 and interest payments are made semi-annually on April 15 and October 15. The Notes are redeemable in whole or in part, at the Company's option, after April 15, 2002. On November 2, 2001, the Company, through a wholly-owned subsidiary, purchased an aggregate of \$704 of its outstanding Notes on the open market, resulting in an extraordinary gain, net of applicable taxes, of approximately \$269 which will be recorded in the fourth quarter. The Company may from time to time in the future repurchase additional Notes on the open market as may be allowed under the terms of its Revolving Credit Facility and the terms of its Senior Notes Indenture.

Edgar Filing: SYRATECH CORP - Form 10-Q

On August 2, 2001, the Company renewed its Wallace International de Puerto Rico, Inc. \$1,000 credit facility. The renewed facility expires on April 30, 2002 and its terms require that the facility be paid down to zero for one 15 consecutive day period prior to that date. Borrowings under the facility bear interest at a rate equal to the Prime Rate plus 100 basis points. Availability under the Facility was \$0.1 million at September 30, 2001.

The Company's C.J. Vander Ltd. subsidiary has an overdraft facility entered into on March 16, 1998 (Overdraft Facility) which provides for borrowings of £250. Borrowings made under the Overdraft Facility bear interest at the bank's base rate plus 1%. The Overdraft Facility contains customary covenants, and borrowings are secured by substantially all of the assets of C.J. Vander Ltd. The Overdraft Facility as renewed on September 28, 2001 is due on demand and expires on April 30, 2002. Availability under the Overdraft Facility was £187 at September 30, 2001.

The Company also has debt financing in the form of \$148.6 million of 11% Senior Notes (the "Notes") which are due April 15, 2007 and require interest payments to be made semi-annually on April 15 and October 15. The Notes are general unsecured obligations of the Company and rank pari passu in right of payment with all current and future unsubordinated indebtedness of the Company, including borrowings under the Facility. However, all borrowings under the Facility are secured by a first priority lien on the accounts receivable and inventory of the Company and its domestic subsidiaries. Consequently, the obligations of the Company under the Notes are effectively subordinated to its obligations under the Facility to the extent of such assets. The Notes are redeemable in whole or in part, at the Company's option, after April 15, 2002.

The Company's ability to pay dividends is restricted by the terms of the Facility and the Note Indenture.

The liquidation preference of the Company's Cumulative Redeemable Preferred Stock is \$1,000 per share plus accrued and unpaid dividends. Holders are entitled, subject to the rights of creditors, in the event of any voluntary or involuntary liquidation of the Company, to an amount in cash equal to \$1,000 for each share outstanding plus all accrued and unpaid dividends. The rights of holders of the Cumulative Redeemable Preferred Stock upon liquidation of the Company rank prior to those of the holders of Syratech Common Stock.

Dividends on shares of Cumulative Redeemable Preferred Stock are cumulative from the date of issue and are payable when and as may be declared from time to time by the Board of Directors of the Company. Such dividends accrue on a daily basis (whether or not declared) from the original date of issue at an annual rate per share equal to 12% of the original purchase price per share, with such amount to be compounded annually on each December 31 so that if the dividend is not paid for any year the unpaid amount will be added to the original purchase price of the Cumulative Redeemable Preferred Stock for the purpose of calculating succeeding years' dividends.

The Cumulative Redeemable Preferred Stock is redeemable at any time at the option of the Company, in whole or in part, at \$1,000 per share plus all accumulated and unpaid dividends, if any, at the date of redemption. Subject to the Company's existing debt agreements, the Company must redeem all outstanding Cumulative Redeemable Preferred Stock in the event of a public offering of equity, a change of control or certain sales of assets.

On April 2, 2001 the Company executed a \$10 million promissory note secured by certain real property and building improvements located in Mira Loma, California. The note bears interest at a rate of 7.42% and is to be repaid in monthly installments until May, 2011 when a final payment of \$8.1 million is due.

The Company's level of indebtedness has several effects on its future operations, including (i) a substantial portion of the Company's cash flow from operations must be dedicated to the payment of interest on its indebtedness and will not be available for other purposes, (ii) covenants contained in the Revolving Credit Facility and the indenture governing the Note require the Company to meet certain financial tests, and other restrictions may limit its ability to borrow funds or to dispose of assets and may affect the Company's flexibility in planning for, and reacting to, changes in its business including possible acquisition activities, and (iii) the Company's ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes may be impaired.

The Company believes that funds generated from operations and borrowings available under the Facility will be sufficient to finance the Company's working capital requirements, provide for all known obligations of the Company (including the current obligations of the Company under the Notes and under its operating leases) and fund planned capital expenditures through December 31, 2001.

Accounting Pronouncements

In June 1998, the Financial Accounting Standards Board issued SFAS No. 133, *"Accounting for Derivative Instruments and Hedging Activities,"* effective for all fiscal quarters of fiscal years beginning after June 15, 2000. The standard requires that all companies record derivatives in the balance sheet as assets or liabilities, measured at fair value. Gains or losses resulting from changes in the values of those derivatives would be accounted for depending on the use of the derivative and whether it qualifies for hedge accounting. The Company adopted SFAS No. 133, as required, and such adoption did not have a material impact on the consolidated financial statements.

In July 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 141 ("SFAS 141"), "Business Combinations." SFAS 141 requires the purchase method of accounting for business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The Company does not believe that the adoption of SFAS 141 will have a significant impact on its financial statements.

In July 2001, the Financial Accounting Standards Board approved Financial Accounting Standard No. 142 - "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 includes requirements to test goodwill and indefinite lived intangible assets for impairment rather than amortize them. Goodwill amortization recorded during the nine months ended September 30, 2001 aggregated \$256. SFAS 142 will be effective for fiscal years beginning after December 15, 2001. The Company will adopt SFAS 142 beginning in the first quarter of 2002. The financial statement impact has not yet been determined.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 supersedes FASB Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and the accounting and reporting provisions of Accounting Principles Board ("APB") Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," for the disposal of a segment of a business (as previously defined in that opinion). SFAS No. 144 requires that one accounting model be used for long-lived assets to be disposed of by sale, whether previously held and used or newly acquired, and broadens the presentation of discontinued operations to include more disposal transactions than were included under the previous standards. The Company is required to implement SFAS No. 144 on January 1, 2002, and it has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

SYRATECH CORPORATION AND SUBSIDIARIES

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to interest rate risk primarily through its borrowing activities. The Company's short-term borrowings are substantially all denominated in U.S. dollars and bear interest at variable rates primarily based on either a prime rate or the London Interbank Offering Rate (LIBOR). The effect of a 10% change in the prime or LIBOR rate would not have a material impact on the Company's financial results. The Company also has fixed debt financing of \$148.6 million of 11% Senior Notes due April 15, 2007 that had a current market value of \$49.0 million at September 30, 2001 based upon recent private market trades. There is inherent roll-over risk for these borrowings upon maturity and are renewed at current market rates. The extent of this risk is not quantifiable or predictable because of the variability of future interest rates and the Company's future financing requirements. Currently, the Company does not enter into financial instruments transactions for trading or other speculative purposes or to manage interest rate exposure and does not have investments in debt or equity securities.

The Company transacts sales and purchases primarily in U.S. Dollars and maintains minimum cash balances denominated in foreign currencies. The Company does not enter into foreign currency hedge transactions. Through December 31, 2000, foreign currency fluctuations have not had a material impact on the Company's consolidated financial position or results of operations or cash flows in any one year and the Company does not believe that its exposure to foreign currency rate fluctuations is material.

PART II-OTHER INFORMATION

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits:

EX-10.1 Advice of Borrowing Terms between C.J. Vander Ltd/International Silver Company Ltd
and Nat West P.L.C., dated as of September 28, 2001

(b) Reports on Form 8-K:

There were no reports filed on Form 8-K during the nine months ended September 30, 2001.
