EFC BANCORP, INC.

Notes to Unaudited Consolidated Financial Statements

Note 1: BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements include the accounts of EFC Bancorp, Inc. (the Company), its majority-owned subsidiary, Computer Dynamics Group Inc. (CDGI), its wholly-owned subsidiary, EFS Bank (the Bank) and its wholly-owned subsidiary, EFS Service Corporation of Elgin. CDGI is consolidated and a minority interest is recorded for the proportionate interest not owned by the Company. Certain amounts for the prior year have been reclassified to conform to the current year presentation. The Company operates as a single segment.

In the opinion of the management of the Company, the accompanying consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of the financial position and results of operations for the periods presented. All significant intercompany transactions have been eliminated in consolidation. These interim financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission and therefore certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. It is suggested that the accompanying unaudited consolidated financial statements be read in conjunction with the Company's 2003 Annual Report on Form 10-K. Currently, other than investing in various securities, the Company does not directly transact any material business other than through the Bank. Accordingly, the discussion herein addresses the operations of the Company as they are conducted through the Bank.

Note 2: COMPREHENSIVE INCOME

The Company's comprehensive income for the three month periods ended March 31, 2004 and 2003 are as follows:

	Three months ended March 31,	
	2004	2003
Net income	\$ 1,970,211	1,587,958
Other comprehensive income, net of tax:		
Unrealized holding gains/(losses) on securities arising during the period, net of tax effect of \$592,350	926,496	(51,323)
Reclassification adjustment for net gain on sales of securities realized in net income, net of tax of \$17,585	(29,942)	
Comprehensive income	\$ 2,866,765	1,536,635

Edgar Filing: EFC BANCORP INC - Form 10-Q

For the three month period ended March 31, 2004 the sale of securities resulted in gains of \$47,527 (\$29,942 net of tax effect). There were no sales of investment securities as of and for the three months ended March 31, 2003.

Note 3: COMPUTATION OF PER SHARE EARNINGS

Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding adjusted for the dilutive effect of outstanding stock options. ESOP shares are only considered outstanding for earnings per share calculations when they are released or committed to be released.

Presented below are the calculations for the basic and diluted earnings per share:

	Three months ended March 31,	
	2004	2003
Basic:		
Net income	\$ 1,970,211	1,587,958
Weighted average shares outstanding	4,239,568	4,218,617
Basic earnings per share	\$ 0.46	0.38
Diluted:		
Net income	\$ 1,970,211	1,587,958
Weighted average shares outstanding	4,239,568	4,218,617
Effect of dilutive stock options outstanding	309,071	241,171
Diluted weighted average shares outstanding	4,548,639	4,459,788
Diluted earnings per share	\$ 0.43	0.36

Note 4: STOCK OPTION PLANS

The Company accounts for the stock-based compensation plans under APB Opinion No. 25. For the stock option program, no compensation cost is recognized in connection with the granting of stock options with an exercise price equal to the fair market value of the stock on the date of the grant. For the stock award plan, the Company uses fixed method of accounting and records compensation expense, over the vesting period of the grant, based upon the fair market value of the stock at the date of grant. In accordance with the disclosure requirements of SFAS No. 123, as amended by SFAS No. 148, the following table provides the pro forma effect on net income and earnings per share if the fair value method of accounting for stock-based compensation had been used for all awards:

**For the Three Months
Ended March 31,**

2004

2003

Net income as reported	\$	1,970,211	\$	1,587,958
Add: Stock-based compensation, net of tax, included in the determination of net income, as reported		8,344		127,281
Deduct: Stock-based compensation, net of tax, that would have been reported if the fair value based method had been applied to all awards		(26,584)		(241,831)
Pro forma net income	\$	1,951,971	\$	1,473,408
Basic earnings per share				
As reported	\$	0.46	\$	0.38
Pro forma		0.46		0.35
Diluted earnings per share				
As reported	\$	0.43	\$	0.36
Pro forma		0.43		0.33

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following analysis discusses changes in the financial condition at March 31, 2004 and results of operations for the three months ended March 31, 2004, and should be read in conjunction with the Company's Unaudited Consolidated Financial Statements and the notes thereto, appearing in Part I, Item 1 of this document.

Forward-Looking Statements

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identified by use of the words believe, expect, intend, anticipate, estimate, project, or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of the Company and the subsidiaries include, but are not limited to, changes in: interest rates, general economic conditions, legislative/regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality or composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in the Company's market area and accounting principles and guidelines. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Further information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included in the Company's filings with the

SEC, including its 2003 Annual Report on Form 10-K.

The Company does not undertake - and specifically disclaims any obligation - to publicly release the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Comparison of Financial Condition at March 31, 2004 and December 31, 2003

Total assets at March 31, 2004 were \$917.6 million, which represented an increase of \$20.5 million, or 2.3%, compared to \$897.1 million at December 31, 2003. The increase in total assets was primarily a result of an increase in cash and cash equivalents of \$35.3 million, or 161.4%, to \$57.2 million at March 31, 2004 from \$21.9 million at December 31, 2003. The increase in cash and cash equivalents was primarily attributable to proceeds from an approximately \$25.7 million fixed rate mortgage loan sale, which occurred in March 2004 partially offset by decreases in investment securities, which decreased \$10.0 million, or 11.0%, to \$80.7 million at March 31, 2004 from \$90.7 million at December 31, 2003, loan receivables, which decreased \$3.3 million, or 0.50%, to \$713.6 million at March 31, 2004 from \$716.9 million at December 31, 2003, and mortgage-backed securities, which decreased \$1.0 million, or 9.9%, to \$9.2 million at March 31, 2004 from \$10.2 million at December 31, 2003. Deposits increased \$30.9 million to \$627.7 million at March 31, 2004 from \$596.8 million at December 31, 2003. Borrowed money, primarily representing FHLB advances, decreased \$15.6 million to \$196.2 million at March 31, 2004 from \$211.8 million at December 31, 2003. Stockholders' equity increased \$2.6 million to \$81.0 million at March 31, 2004 from \$78.4 million at December 31, 2003. The increase in stockholders' equity was primarily the result of the Company's net income for the three months ended March 31, 2004, and an increase of \$926,000 in the Company's accumulated other comprehensive income relating to the change in fair value of its available-for-sale investment portfolio. These increases were partially offset by stock repurchases totaling \$269,000 and dividends paid of \$618,000.

Comparison of Operating Results For the Three Months Ended March 31, 2004 and 2003

General. The Company's net income increased \$382,000, or 24.1%, to \$2.0 million for the three months ended March 31, 2004 as compared to the prior year period.

Interest Income. Interest income increased \$21,000, or 0.20%, to \$11.4 million for the three months ended March 31, 2004, compared to the same period in 2003. This increase resulted from an increase in the average balance of interest-earning assets, partially offset by a decrease in the average rate earned on those interest-earning assets. The average balance of interest-earning assets increased by \$106.5 million, or 14.1%, to \$863.4 million for the three months ended March 31, 2004 from \$756.9 million for the comparable period in 2003. The average yield on interest-earning assets decreased by 76 basis points to 5.39% for the three months ended March 31, 2004 from 6.15% for the three months ended March 31, 2003.

Mortgage loan interest income decreased by \$583,000 for the three months ended March 31, 2004 compared with the same period in 2003. The average balance of mortgage loans

increased \$45.4 million, while the mortgage loan yield decreased by 93 basis points from 6.57% to 5.64%. Interest income from other loans increased \$683,000 for the three months ended March 31, 2004. This increase resulted from a combination of an increase in average balance of \$60.7 million, partially offset by a 58 basis point decrease in yield from 5.96% for the three months ended March 31, 2003 to 5.38% for the three months ended March 31, 2004. Interest income from investment securities, mortgage-backed securities and short-term deposits decreased \$79,000 to \$1.3 million for the three months ended March 31, 2004, compared with the same period in 2003. The average balance increased \$376,000 and the yield decreased 31 basis points from 4.70% for the three months ended March 31, 2003 to 4.39% for the three months ended March 31, 2004. The average yields are reported on a tax equivalent basis.

Interest Expense. Interest expense decreased by \$53,000, or 1.0%, to \$5.4 million for the three months ended March 31, 2004, compared to the same period in 2003. This decrease resulted from an increase in the average balance of interest-bearing liabilities, offset by a decrease in the average rate paid on those interest-bearing liabilities. The average balance of interest-bearing liabilities increased by \$103.9 million, or 15.4%, to \$778.7 million for the three months ended March 31, 2004 from \$674.8 million for the three months ended March 31, 2003. This change reflects a \$77.5 million increase in deposit accounts, which is attributable to a \$21.4 million increase in passbook savings accounts, a \$53.0 million increase in certificates of deposit and a \$5.3 million increase in NOW accounts. These increases were partially offset by a decrease of \$2.2 million in money market accounts. In addition, borrowings increased \$26.3 million to \$200.7 million for the three months ended March 31, 2004 from \$174.4 million for the comparable period in 2003. The average rate paid on combined deposits and borrowed money decreased by 46 basis points to 2.77% for the three months ended March 31, 2004 from 3.23% for the three months ended March 31, 2003.

Net Interest Income Before Provision for Loan Losses. Net interest income before provision for loan losses increased \$74,000, or 1.2%, to \$6.1 million for the three months ended March 31, 2004 from \$6.0 million for the comparable period in 2003. The average balance of interest-earning assets increased \$106.5 million for the three months ended March 31, 2004 compared to the comparable prior year period. The increase in interest-earning assets was primarily the result of increases in the average balance of mortgage loans of \$45.4 million, \$60.7 million increase in other loans and an \$8.5 million increase in cash and cash equivalents. These increases were partially offset by a \$7.4 million decrease in mortgage-backed securities. The tax equivalent net interest margin as a percent of interest-earning assets decreased by 39 basis points to 2.89% for the three months ended March 31, 2004 from 3.28% for the comparable period in 2003.

Provision for Loan Losses. The provision for loan losses decreased by \$31,000, to \$150,000 for the three months ended March 31, 2004 from \$181,000 in 2003. At March 31, 2004, December 31, 2003 and March 31, 2003, non-performing loans totaled \$2.6 million, \$2.8 million and \$1.7 million, respectively. At March 31, 2004, the ratio of the allowance for loan losses to non-performing loans was 148.9% compared to 135.7% at December 31, 2003 and 192.1% at March 31, 2003. The ratio of the allowance to total loans was 0.55%, 0.52% and 0.54%, at March 31, 2004, December 31, 2003 and March 31, 2003, respectively. Charge-offs for the three months ended March 31, 2004 totaled \$12,000. There were no charge-offs for the

three months ended March 31, 2003. Management periodically calculates an allowance sufficiency analysis based upon the portfolio composition, asset classifications, loan-to-value ratios, probable impairments in the loan portfolio, and other factors.

Noninterest Income. Noninterest income totaled \$1.6 million and \$1.0 million for the three months ended March 31, 2004 and 2003, respectively. The increase in noninterest income is primarily attributable to increases of \$235,000 in gain on sale of fixed rate mortgage loans, \$149,000 in gain on sale of office properties and equipment, \$138,000 in insurance and brokerage commissions and \$136,000 in service fees. The gain on sale of loans was the result of repositioning the balance sheet and favorable market conditions. The gain on sale of property was the result of selling an office building previously occupied by the Bank. Service fees increased primarily due to the offering of an overdraft privilege account product to our customers. These increases were partially offset by decreases of \$142,000 in income generated by Computer Dynamics Group, Inc. (CDGI). The decrease in income generated by CDGI is largely due to a decrease in sales related to a weaker demand for technology services.

Noninterest Expense. Noninterest expense increased \$234,000, to \$4.7 million for the three months ended March 31, 2004 from \$4.5 million for the comparable period in 2003. Of this increase, \$124,000 was directly related to compensation and benefits, and \$35,000 is related to data processing. In addition, the Company incurred a goodwill impairment of \$17,000 and \$20,000, relating to its majority owned subsidiary CDGI, for the three months ended March 31, 2004 and 2003, respectively. The goodwill impairment is primarily due to a weaker demand for technology services. Management continues to emphasize the importance of expense management and control while continuing to provide expanded banking services to a growing market base.

Income Tax Expense. Income tax expense totaled \$824,000 and \$744,000 for the three months ended March 31, 2004 and 2003, respectively. The effective tax rate was 29.6% and 32.2% for the three months ended March 31, 2004 and 2003, respectively. The decrease in the effective tax rate is due to increases in bank owned life insurance and FNMA/FHLMC preferred stock.

Liquidity and Capital Resources

The Company's primary source of funding for dividends and periodic stock repurchases have been dividends from the Bank. The Bank's ability to pay dividends and other capital distributions to the Company is generally limited by OTS regulations.

The Bank's primary sources of funds are savings deposits, proceeds from the principal and interest payments on loans and proceeds from the maturity of securities and borrowings from the FHLB-Chicago. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit outflows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition.

Edgar Filing: EFC BANCORP INC - Form 10-Q

The primary investing activities of the Bank are the origination and purchase of primarily residential one-to-four-family loans and, to a lesser extent multi-family and commercial real

estate, construction and land, commercial and consumer loans and the purchase of mortgage-backed securities. In addition, the Bank purchases loans, secured by single-family, multi-family and commercial real estate. Deposit flows are affected by the level of interest rates, the interest rates and products offered by the local competitors and other factors.

In addition to the primary investing activities of the Bank, the Company has repurchased shares of its common stock from time to time in the open market. On January 16, 2004 the Company announced the completion of its sixth stock repurchase program, which was previously announced in September 2001. Under this program the Company repurchased 231,808, or 5.0% of its outstanding common stock at an average price per share of \$17.93. During the three months ended March 31, 2004, 10,908 shares were purchased at an average price of \$24.66. As of March 31, 2004, the Company repurchased a total of 3,087,081 shares of the Company's common stock at an average price per share of \$12.11 since becoming a public company in 1998.

The Bank's most liquid assets are cash and interest-bearing demand accounts. The levels of these assets are dependent on the Bank's operating, financing, lending and investing activities during any given period. At March 31, 2004, cash and interest-bearing demand accounts totaled \$57.2 million, or 6.2% of total assets.

See the Consolidated Statements of Cash Flows in the Unaudited Consolidated Financial Statements included in this Form 10-Q for the sources and uses of cash flows for operating, investing and financing activities for the three months ended March 31, 2004 and 2003.

At March 31, 2004, the Bank exceeded all of its regulatory capital requirements. The following is a summary of the Bank's regulatory capital ratios at March 31, 2004:

Total Capital to Total Assets	8.41%
Total Capital to Risk-Weighted Assets	11.94%
Tier I Leverage Ratio	8.26%
Tier I to Risk-Weighted Assets	11.68%

At March 31, 2004, the Company had a Total Capital to Total Assets ratio of 8.83%.

On March 19, 2004, the Company announced its first quarter dividend of \$0.15 per share. The dividend was paid on April 13, 2004 to stockholders of record on March 31, 2004.

Financial Instruments with Off-Balance Sheet Risk

The Bank is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. Those financial instruments primarily include commitments to extend credit. Commitments to extend credit are agreements to lend to a customer so long as there is no violation of any condition established in the contract. The Bank evaluates each customer's creditworthiness

Edgar Filing: EFC BANCORP INC - Form 10-Q

on a case-by-case basis. The amount of collateral obtained is based on management's credit evaluation of the customer. The Bank's exposure to credit loss in the event of nonperformance by the customer is represented by the contractual amount of those financial instruments. The commitments to originate first mortgage

loans represent amounts, which the Bank plans to fund within a period of 30 to 90 days.

The Bank's approved, but unused lines of credit are based on underwriting standards that allow total borrowings, including the equity line of credit to exceed 80% of the current appraised value of the customer's residence. However, the Bank charges a 1% higher interest rate on home equity lines of credit up to 90% of the home's current appraised value.

The Bank's standby letters of credit are conditional commitments issued by the Bank to guarantee performance of a customer to a third party. The credit risk involved in these transactions is essentially the same as that involved in extending a loan to a customer in the normal course of business. Standby letters of credit are collateralized by mortgages, savings accounts or liens on business assets. The fair value of standby letters of credit approximates the amount of recorded related fees, which are not considered material. The maximum risk of accounting loss for these items, which is represented by the total commitment outstanding, totaled \$3.6 million at March 31, 2004.

At March 31, 2004 and December 31, 2003, the bank had the following commitments to extend credit:

	March 31, 2004	December 31, 2003
First mortgage loans	\$ 8,148,000	\$ 7,306,000
Construction loans	2,873,000	4,210,000
Unused lines of credit	44,223,000	42,342,000
Standby letters of credit	3,644,000	5,434,000

Recent Accounting Pronouncements

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities" which provides new accounting guidance on when to consolidate a variable interest entity. A variable interest entity exists when either the total equity investment at risk is not sufficient to permit the entity to finance its activities by itself, or the equity investors lack one of three characteristics associated with owning a controlling financial interest. Those characteristics include the direct or indirect ability to make decisions about an entity's activities through voting rights or similar rights, the obligation to absorb the expected loss of an entity if they occur, and the right to receive the expected residual return of the entity if they occur. On October 9, 2003, the FASB issued a deferral to December 31, 2003 of the implementation of FIN 46 for variable interest entities in existence prior to February 1, 2003. The adoption of this Interpretation did not have a material impact on our consolidated financial statements. On December 24, 2003, the Financial Accounting Standards Board issued FASB Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities," (FIN 46R), which addresses how a business enterprise should evaluate whether it has a controlling financial interest in an entity through means other than voting rights and accordingly should consolidate the entity. FIN 46R replaces FASB Interpretation No. 46, "Consolidation of Variable Interest Entities," which was issued on January 17, 2003. The implementation of FIN 46R did not have a material effect on our financial statements.

In November 2003, the FASB ratified a consensus reached by the Emerging Issues Task Force (EITF) in EITF 03-1, The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments, which is effective for fiscal years ending after December 15, 2003. The consensus requires certain quantitative and qualitative disclosures for debt and marketable equity securities classified as available-for-sale or held-to-maturity under SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities that are impaired at the balance sheet date but for which an other-than-temporary impairment has not been recognized.

In December 2003, the American Institute of Certified Public Accountants (AICPA) released Statement of Position 03-3, Accounting for Certain Loans or Debt Securities Acquired in a transfer (SOP 03-3). SOP 03-3 addresses the accounting for differences between contractual cash flows and cash flows expected to be collected from an investors initial investment in loans or debt securities acquired in a transfer if those differences are attributable to credit quality. SOP 03-3 is effective for loans acquired in fiscal years beginning after December 31, 2004. Adoption of this Statement is not expected to have a material impact on the Company s consolidated financial statements.

In March 2004, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 105, Application of Accounting Principles to Loan Commitments, (SAB No. 105). SAB No. 105 applies to all registrants that issue loan commitments that relate to the origination of mortgage loans that will be held for sale and applies specifically to loan commitments that are issued after March 31, 2004. The adoption of SAB No. 105 is not expected to have a material effect on the Company s consolidated financial statements.

Average Balance Sheet

The following tables set forth certain information relating to the Bank for the three months ended March 31, 2004 and 2003, respectively. The average yields and costs are derived by dividing income or expense by the average balance of interest-earning assets or interest-bearing liabilities, respectively, for the periods shown and reflect annualized yields and costs. Average balances are derived from average monthly balances. The yields and costs include fees, which are considered adjustments to yields. Tax exempt income has been calculated on a tax equivalent basis using a tax rate of 34% and amounted to \$189,000 and \$214,000 for the three months ended March 31, 2004 and 2003, respectively.

(in thousands)	Three Months Ended March 31, 2004			Three Months Ended March 31, 2003		
	Average Balance	Interest	Yield/Cost	Average Balance	Interest	Yield/Cost
Assets:						
Interest earning assets:

Total liabilities	833,506			724,052		
Total stockholders equity	79,912			74,736		
Total liabilities and stockholders equity	\$ 913,418			798,788		
Net interest income before provision for loan losses		6,248			6,198	
Interest rate spread			2.62%			2.92%
Net interest margin as a percent of interest earning assets			2.89%			3.28%
Ratio of interest-earning assets to interest-bearing liabilities			110.88%			112.16%

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Bank's interest rate sensitivity is monitored by management through the use of a Net Portfolio Value Model which generates estimates of the change in the Bank's net portfolio value (NPV) over a range of interest rate scenarios. NPV is the present value of expected cash flows from assets, liabilities, and off-balance sheet contracts. The NPV ratio, under any interest rate scenario, is defined as the NPV in that scenario divided by the market value of assets in the same scenario. The model assumes estimated prepayment rates, reinvestment rates and deposit decay rates.

The Sensitivity Measure is the decline in the NPV ratio, in basis points, caused by a 3% increase or decrease in rates, whichever produces a larger decline. The higher the institution's Sensitivity Ratio, the greater its exposure to interest rate risk is considered to be. The following NPV Table sets forth the Bank's NPV as of March 31, 2004.

Change in Interest Rates in Basis Points (Rate Shock)	Net Portfolio Value			NPV as % of Portfolio Value of Assets	
	Amount	\$ Change	% Change	NPV Ratio	% Change
	(In thousands)				
+300	\$ 47,089	\$ (38,088)	(44.72)%	5.30%	(42.01)%
+200	60,973	(24,204)	(28.42)	6.76	(26.04)
+100	75,586	(9,591)	(11.26)	8.24	(9.85)
Static	85,177			9.14	
-100	82,504	(2,673)	(3.14)	8.81	(3.61)

Certain shortcomings are inherent in the methodology used in the above interest rate risk measurements. Modeling changes in NPV require the making of certain assumptions which may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the NPV Table presented assumes that the composition of the Bank's interest sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and also assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration to maturity or repricing of specific assets and liabilities. Accordingly, although the NPV Table provides an indication of the Bank's interest rate risk exposure at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on the Bank's net interest income and may differ from actual results.

Item 4. Controls and Procedures

The Company's management, including the Company's principal executive officer and principal financial officer, have evaluated the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, (the Exchange Act). Based upon their

evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the "SEC") (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. In addition, based on that evaluation, no change in the Company's internal control over financial reporting occurred during the quarter ended March 31, 2004 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATIONItem 1. Legal Proceedings.

The Company is not involved in any pending legal proceedings other than routine legal proceedings occurring in the ordinary course of business. Such routine legal proceedings, in the aggregate, are believed by management to be immaterial to the Company's financial condition, results of operations and cash flows.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities.

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
Month #1: January 1, 2004 through January 31, 2004	10,908	\$ 24.66	10,908	(1)
Month #2: February 1, 2004 through February 29, 2004				
Month #3: March 1, 2004 through March 31, 2004				
Total	10,908	\$ 24.66	10,908	

(1) On January 16, 2004, the Company announced the completion of the plan to repurchase 5.0% of the outstanding common stock, which was announced on September 27, 2001. The total shares repurchased were 231,808 at an average price of \$17.93.

Item 3. Defaults Upon Senior Securities.

None.

Item 4.

Submission of Matters to a Vote of Security Holders.

The annual meeting of shareholders was held April 20, 2004. Directors whose terms continued are as follows: Leo M. Flanagan, Jr. (2005), Peter A. Traeger (2005), James A. Alpeter (2005), Thomas I. Anderson (2006), Barrett J. O Connor (2006) and Larry M. Narum (2006). The following proposals were voted on by the stockholders.

PROPOSAL	FOR	WITHHELD	ABSTAIN	BROKER NON-VOTES
1) Election of Directors nominees for three year term				
James J. Kovac	4,006,955	115,068	N/A	N/A
Randolph W. Brittain	3,996,996	125,027	N/A	N/A
Eric J. Fernandez	3,714,216	407,807	N/A	N/A
2) Approval of appointment of KPMG LLP as the Company's Independent Auditors for the Year ending December 31, 2004	3,988,419	44,814	88,790
