Chairman's statement:

Consequently, we are now comfortable raising our earnings forecast for the full year to earnings per share (EPS) of 0.65, or EPADS of US\$ 0.81. At the same time, our expectations continues to be for a Euro/U.S. Dollars exchange rate of 1.00 = US\$ 1.25.

Breakdown of Manufacturing/ Wholesale and Retail Results

Manufacturing/Wholesale Division

The Group's manufacturing/wholesale sales for the six-month period improved year-over-year by 6.6 percent to 611.0 million. Manufacturing/wholesale operating income for the period rose by 11.5 percent to 140.5 million, reflecting an operating margin of 23.0 percent. Operating margin for the first half of 2003 was 22.0 percent.

Mr. Del Vecchio, commenting on the results of the manufacturing/wholesale division, continued: Results of our wholesale division continued to reflect the overall positive momentum of our operations. In particular, for the first half of the year, wholesale sales to third parties are showing growth rates of nearly ten percent, reflecting the strong performance of our house brands, Ray-Ban above all, as well as of the other fashion brands in our portfolio. In addition, profitability levels at the division improved, as the result of greater economies of scale at the production and distribution level, particularly during the second quarter.

Retail Division

Retail sales for the six-month period improved year-over-year by 11.3 percent to 1,046.6 million. Same store sales for the period improved year-over-year by 4.2 percent(2).

Retail operating income for the first half of the year rose by 17.7 percent to 143.5 million, resulting in an operating margin of 13.7 percent.

Same store sales for the second quarter improved year-over-year by 4.1 percent.

Mr. Del Vecchio concluded: The results of our retail division in the U.S. mirror the trend we are seeing on the wholesale front: our premium brand strategy is paying off even in an increasingly competitive environment. This allowed us to generate positive sales and operating income growth, behind our core strengths of quality, fashionable products and exceptional customer service.

(2) Same store sales are intended as sales that, for comparison purposes, are normalized by using in the calculation only stores open during the comparable period the previous year, the same exchange rates and the same consolidation area. In this case, for the purposes of rendering a picture of the Group's retail results as complete as possible, results of OPSM Group were included in the comparison as if the operations had been consolidated as of January 1, 2003. As a reminder, OPSM Group was formally consolidated into Luxottica Group's as of August 1, 2003.

The Board of Luxottica Group today appointed Andrea Guerra, 39, chief executive officer. Mr. Guerra also joins the Board, replacing a departing director.

Note:

Luxottica Group uses certain measures of financial performance that exclude the impact of fluctuations in currency exchange rates in the translation of operating results into Euro. The Company believes that these adjusted financial measures provide useful information to both management and investors by allowing a comparison of operating performance on a consistent basis. In addition, since Luxottica Group has historically reported such adjusted financial measures to the investment community, the Company believes that their inclusion provides consistency in its financial reporting. Further, these adjusted financial measures are one of the primary indicators management uses for planning and forecasting in future periods. Operating measures that assume constant exchange rates between the first half of 2004 and the first half of 2003 and the second quarter of 2004 and the second quarter of 2003 are calculated using for each currency the average exchange rate for the six- and three-month periods ended June 30, 2004. Operating measures that exclude the impact of fluctuations in currency exchange rates are not measures of performance under accounting principles generally accepted in the United States (U.S. GAAP). These non-GAAP measures are not meant to be considered in isolation or as a substitute for results prepared in accordance with U.S. GAAP. In addition, Luxottica Group's method of calculating operating performance excluding the impact of changes in exchange rates may differ from methods used by other companies. See Table below for a reconciliation of the operating measures excluding the impact of fluctuations in currency exchange rates to their most directly comparable U.S. GAAP financial measures. The adjusted financial measures should be used as a supplement to U.S. GAAP results to assist the reader in better understanding the operational performance of the Company.
