CLAUSE XI. STOCKHOLDING REORGANIZATION

11.1 The Issuer hereby undertakes, for itself and for its direct or indirect subsidiaries, until the completion of the final period of maturity of the Debentures, not to carry out any transaction involving the split, merger, dissolution, transformation and/or any other

form of stockholding restructuring in relation to the Issuer or its direct or indirect subsidiaries, unless such stockholding reorganization takes place (a) in relation to the following subsidiaries of the Issuer: Companhia de Gás de Minas Gerais - Gasmig, Empresa de Infovias S.A. and WAY TV Belo Horizonte S.A. and/or (b) for the implementation of the process of Unbundling of the Issuer required by Law 10848 of 15 March 2004, and provided that all the following conditions, in relation to this sub-item b, are met:

(i) the Issuer shall have obtained all the authorizations and consents necessary for the effective implementation of the Unbundling process;

(ii) no early maturity event as referred to in item 5.2 above is in progress;

(iii) the Issuer shall be fully up-to-date with all its pecuniary or other obligations to third parties non-compliance with which could in any way compromise the implementation of the Unbundling;

(iv) the legal entities which result from this process of Unbundling shall be wholly owned subsidiaries of the Issuer or companies directly or indirectly controlled by the Issuer, constituted in the form of companies with shares or private limited liability companies (as the case may be), duly existing and organized in accordance with the laws of Brazil, in which the Issuer holds at least 51% of the voting shares (the New Companies);

(v) the New Company of the CEMIG group of companies responsible for generation and transmission of electricity (the Generation and Transmission Company), constituted in the form of a corporation, must obtain registration as a listed company before the period of realization of the Public Offer mentioned in sub-item (xi) below;

(vi) the Generation and Transmission Company shall have its constitution linked solely to the Unbundling and strictly in accordance with the rules applicable to the Unbundling process;

(vii) the totality of the operational and non-operational assets of the Issuer related to the activity of generation and transmission of electricity shall be transferred by the Issuer to the Generation and Transmission Company, which will then hold all the rights and obligations related to the Issuer's electricity generation and transmission activity, in such a way that, immediately after the transfer of these assets, rights and obligations, the totality of the revenues of the Issuer related to its electricity generation and transmission activities shall come to be received exclusively by the Generation and Transmission Company;

(viii) the Generation and Transmission Company shall have at its disposal the professional staff necessary for the development and commercial operation of its electricity generation and transmission activity in the same form and to the same standard previously developed by the Issuer, in such a way that, immediately after the transfers mentioned in sub-item (vii) above the Generation and Transmission Company shall be fully performing its electricity generation and transmission activities;

(ix) the Generation and Transmission Company shall have obtained (directly or by assignment from the Issuer) all the licenses, permissions and authorizations necessary for the full development of its electricity generation and transmission activities, including but not limited to the electricity generation and transmission concessions, permissions and authorizations originally held by the Issuer;

(x) the consolidated stockholders' equity of the Issuer after the Unbundling shall not be less than the consolidated stockholders' equity of the Issuer according to the last financial information of the Issuer submitted to the CVM prior to the implementation of the Unbundling; and

(xi) the Generation and Transmission Company shall, within 180 (one hundred and eighty) days after the transfer and/or grant (as applicable) to the

Generation and Transmission Company of the respective concessions, permissions and authorizations for electricity generation and transmission, begin a public offering of distribution of debentures, with the objective of carrying out the obligatory exchange of debentures for New Debentures issued by the Generation and Transmission Company (the Obligatory Exchange), as herein established, duly registered with the Brazilian Securities Commission or, as the case may be, dispensed from registration under the terms of Instruction 400/03 subject to the conditions established in items 11.2 and 11.3 below.

11.2. For the purposes of complying with the terms of sub-item (xi) of item 11.1 above, the Generation and Transmission Company, immediately after the transfer and/or grant (as the case may be) of the respective electricity generation and transmission permissions and authorizations, shall submit to the CVM an application for registration (or dispensation from registry, if applicable) of a Public Offering of distribution of debentures (the Public Offering), with the objective of carrying out the Obligatory Exchange of Debentures for New Debentures issued by the Generation and Transmission Company (the Debentures of the Generation and Transmission Company).

11.2.1. The Debentures of the Generation and Transmission Company which are the subject of the Public Offering shall have the same terms and conditions as the Debentures, and shall reproduce in full the characteristics of the Debentures, particularly following: total value of the issue, number of series, species, type, form and convertibility of the Debentures, period of maturity, remuneration, forms of maturity and obligations of the Issuer (with the exception of the provisions of this present Clause 11). The Deed of Issue of the Debentures of the Generation and Transmission Company shall be, *mutatis mutandis*, identical to the Deed of the Debentures, the only alterations admissible being those necessary for adaptation of the Deed of the Issue of the Debentures of the Generation and Transmission Company to the characteristics of the Generation and Transmission Company itself and to the Public Offer, including but not limited to the provisions of Clauses VI and VII of the Deed.

11.2.2. The Debentures of the Generation and Transmission Company shall also be obligatorily guaranteed by a joint and several guarantee of the Issuer, after the Unbundling and in the status of holding company of the New Companies, which shall be binding upon it, as joint and principal payer of all the obligations of the Generation and Transmission Company arising from the Debentures of the Generation and Transmission Company, until their final settlement. The Issuer shall waive Articles 366, 827, 834, 835, 837, 838 and 839 of the Brazilian Civil Code and Articles 77 and 595 of the Code of Civil Procedure for the obligations to be assumed by virtue of the Debentures of the Generation and Transmission Company, and these waivers shall appear expressly in the Deed of Issue to be used for the issuance and placement of the Debentures of the Generation and Transmission Company. The Guarantee here referred to shall have been duly authorized by the respective competent corporate bodies of the Issuer, and all the other authorizations necessary for provision of this Guarantee shall also have been obtained by it and shall be in full force and effect, including but not limited to the necessary authorizations of the competent governmental authorities.

11.2.3. The final version of the Deed of Issue of the Debentures of the Generation and Transmission Company shall be in form and substance acceptable to the Fiduciary Agent, on penalty of the Public Offer not taking place and the consequent early maturity mentioned in item 11.4 below taking place.

11.3. The Public Offer must be begun within the period established in sub-item (xi) of item 11.1 above. As soon as the Public Offer has begun, and thus, when all the conditions of this Clause 11 have been fulfilled, the Debenture Holders shall be obliged to carry out the Obligatory Exchange of Debentures issued under the scope of this Issue, which they hold, for the Debentures of the Generation and Transmission Company, in the proportion of one to one, in such a way that, when the Public Offer is over, each one of the Debenture Holders shall hold the same number of Debentures of the Generation and Transmission Company that it had of the Debentures.

11.3.1. The specific procedures for the delivery of the Debentures in exchange for the Debentures of the Generation and Transmission Company within the scope of the

Public Offer shall be the subject of a Notice to the Debenture Holders to be published in obedience to the terms of item 4.10.1 above and of the Deed of Issuance of the Debentures of the Generation and Transmission Company.

11.3.2. The Public Offer of the Debentures of the Generation and Transmission Company shall close within a maximum of 5 (five) days after it begins.

11.4. Non-compliance with any of the provisions of this Clause 11, including the provisions of item 11.2.1 above, for any reason, by the Issuer and/or by the Generation and Transmission Company, shall result in the immediate early maturity of the obligations of the Issuer arising from the Debentures and from this Deed, and the provisions of the head paragraph of item 5.2 shall apply.

11.5. - The obligation provided for in this Clause 11 shall be contained in any public notice of sale of stockholding control of the Issuer or any of its direct or indirect subsidiaries, except in relation to the following subsidiaries of the Issuer: Companhia de Gás de Minas Gerais - Gasmig, Empresa de Infovias S.A and WAY TV Belo Horizonte S.A.

Clause 3. All the Clauses and conditions of the Deed not covered by this present instrument remain unchanged and are hereby ratified by the parties.

Clause 4. The parties hereby choose the Courts of the city of Belo Horizonte, State of Minas Gerais, to resolve any doubts or disputes arising from this Amendment, and all other jurisdictions, however privileged, are hereby waived.

Being thus agreed and contracted, the parties sign this Amendment, in 5 (five) copies of equal form and content, jointly with the two witnesses undersigned, present at all times.

DE-VERTICALIZATION (UNBUNDLING)

NOTICE TO SUPPLIERS

As ordered by Law 10848/04, Cemig is undergoing a process of de-verticalization (otherwise known as unbundling) - i.e., of its electricity generation, transmission and distribution activities into different companies. As a result of the process these activities, which have until now been run by a single company (the present Cemig) will be run and operated by two different companies starting in January 2005.

As part of the process, the present legal entity CEMIG will be maintained, as a holding company. It will own all the shares of the new subsidiaries, which will carry out the activities of (I) electricity generation and transmission - *CEMIG Geração e Transmissão S/A*; and (II) distribution - *CEMIG Distribuição S/A*. These two wholly owned subsidiaries, which are being formed, will begin operating on 1 January 2005, after authorization by Aneel and approval by a Meeting of Stockholders of the Company.

The holding company will control the new subsidiaries, giving continuity to the Cemig brand name, and ensuring the uniformity and cohesion of the group.

The separation will require the transfer of goods and assets (generation plant, substations, transmission and distribution lines, vehicles, computers, etc.), and rights and obligations of the concession-holding company Cemig to the new companies which will be created:

COMPANHIA ENERGÉTICA DE MINAS GERAIS S.A. CNPJ: 17.155.730/0001-64

CEMIG DISTRIBUIÇÃO S.A. CNPJ: 06.981.180/0001-16

CEMIG GERAÇÃO E TRANSMISSÃO S.A. CNPJ: 06.981.176/0001-58

The instruments that guarantee rights and obligations include Contracts for Provision of Services and Acquisition of Material, and to enable these to be legalized under the new structure will require changes to be formalized through Amendments, which Cemig will prepare and submit to you for signature.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

It is important to clarify that these changes are solely for the purpose of changing the name, CNPJ number, state and municipal tax number, and invoice delivery address of the client company in each contract - to establish the legal link between the supply and the company receiving and using the goods or services.

We would emphasize that, in some cases, the original contract will have to be separated into as many as three (3) new contracts, which will result in the need to issue separate tax invoices - to enable the costs of service or material covered by them to be passed to the new companies.

To ensure continuation of normal payment, starting in **the month of January 2005**, for tax invoices linked to contracts, purchase orders or delivery orders issued, we would ask for your attention to the changes in company names, CNPJ, and state and municipal tax numbers for your client company. These will be provided to you very soon.

The process of payment of suppliers will take place normally, by means of delivery of invoices and their acceptance by Cemig up to 13 December 2004

We also have to inform you that, in the period from **4 December 2004 to 2 January 2005**, CEMIG's central materials warehouse will not receive any material, because it will be closed for inventory.

To deal with any doubts or exceptions, please contact Cemig as follows:

<u>Subjects related to contracts</u>	è the Cemig department that manages the contract;
<u>Accounts Receivable</u>	è dial (031) 3299-3884 or 3299-3769;
<u>Materials warehouse</u>	è dial (031) 3389-2233.

We apologize for the inconvenience, and feel sure that we can count on your understanding and support.
