iStar Financial Inc.
Notes to Consolidated Financial Statements

Note 1 Business and Organization

Business iStar Financial Inc. (the Company) is the leading publicly-traded finance company focused on the commercial real estate industry. The Company primarily provides custom-tailored financing to high-end private and corporate owners of real estate, including senior and mezzanine real estate debt, senior and mezzanine corporate capital, corporate net lease financing and equity. The Company, which is taxed as a real estate investment trust (REIT), seeks to deliver strong dividends and superior risk-adjusted returns on equity to shareholders by providing the highest quality financing to its customers. The Company's two primary lines of business are lending and corporate tenant leasing.

The lending business is primarily comprised of senior and mezzanine loans that typically range in size from \$20 million to \$150 million and have maturities generally ranging from three to ten years. These loans may be either fixed rate (based on the U.S. Treasury rate plus a spread) or variable rate (based on LIBOR plus a spread) and are structured to meet the specific financing needs of the borrowers. The Company also provides senior and mezzanine capital to corporations engaged in real estate or real estate-related businesses. These financings may be either secured or unsecured, typically range in size from \$20 million to \$150 million and have maturities generally ranging from five to ten years. As part of the lending business, the Company also acquires whole loans and loan participations which present attractive risk-reward opportunities. Acquired loan positions typically range in size from \$20 million to \$100 million.

The Company's corporate tenant leasing business provides capital to corporations and other owners who control facilities leased to single creditworthy customers. The Company's net leased assets are generally mission-critical headquarters or distribution facilities that are subject to long-term leases with public companies, many of which are rated corporate credits. Most leases require the tenant to pay for facility related expenses on a triple net lease basis. Corporate tenant lease, or CTL, transactions have initial terms generally ranging from 15 to 20 years and typically range in size from \$20 million to \$150 million.

The Company's investment strategy targets specific sectors of the real estate credit markets in which it believes it can deliver the highest quality, flexible financial solutions to its customers, thereby differentiating its financial products from those offered by other capital providers.

The Company has implemented its investment strategy by:

- Focusing on the origination of large, structured mortgage, corporate and lease financings where customers require flexible financial solutions and one-call responsiveness post-closing.
- Avoiding commodity businesses in which there is significant direct competition from other providers of capital such as conduit lending and investment in commercial or residential mortgage-backed securities.
- Developing direct relationships with borrowers and corporate customers as opposed to sourcing transactions solely through intermediaries.
- Adding value beyond simply providing capital by offering borrowers and corporate customers specific lending expertise, flexibility, certainty and continuing relationships beyond the closing of a particular financing transaction.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 1 Business and Organization (Continued)

- Taking advantage of market anomalies in the real estate financing markets when the Company believes credit is mispriced by other providers of capital, such as the spread between lease yields and the yields on corporate customers underlying credit obligations.

Organization The Company began its business in 1993 through private investment funds formed to capitalize on inefficiencies in the real estate finance market. In March 1998, these funds contributed their assets to the Company's predecessor in exchange for a controlling interest in that company. The Company later acquired its former external advisor in exchange for shares of the Company's common stock (Common Stock) and converted its organizational form to a Maryland corporation. As part of the conversion to a Maryland corporation, the Company replaced its former dual class common share structure with a single class of Common Stock. The Company's Common Stock began trading on the New York Stock Exchange on November 4, 1999. Prior to this date, the Company's Common Stock was traded on the American Stock Exchange. Since that time, the Company has grown by originating new lending and leasing transactions, as well as through corporate acquisitions, including the acquisition in 1999 of TriNet Corporate Realty Trust, Inc. (TriNet).

Note 2 Basis of Presentation

The accompanying unaudited Consolidated Financial Statements have been prepared in conformity with the instructions to Form 10-Q and Article 10-01 of Regulation S-X for interim financial statements. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States of America (GAAP) for complete financial statements. The Consolidated Financial Statements include the accounts of the Company, its qualified REIT subsidiaries, its majority-owned and controlled partnerships and other entities that are consolidated under the provisions of FASB Interpretation No. 46, Consolidation of Variable Interest Entities, an interpretation of ARB 51 (FIN 46R) (see Note 6).

Certain investments in joint ventures or other entities which the Company does not control are accounted for under the equity method (see Note 6). All significant intercompany balances and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying Consolidated Financial Statements contain all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the Company's consolidated financial position at June 30, 2006 and December 31, 2005 and the results of operations and its cash flows for the three and six months ended June 30, 2006 and 2005, respectively, and its changes in shareholders equity for the six months ended June 30, 2006. Such operating results may not be indicative of the expected results for any other interim periods or the entire year.

Note 3 Summary of Significant Accounting Policies

Loans and other lending investments, net As described in Note 4, Loans and Other Lending Investments, includes the following investments: senior mortgages, subordinate mortgages, corporate/partnership loans and other lending investments-securities. Management considers nearly all of its loans and other lending investments to be held-to-maturity, although a small number of investments may be classified as available-for-sale. Items classified as held-to-maturity are reflected at amortized

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

historical cost. Items classified as available-for-sale are reported at fair values with unrealized gains and losses included in Accumulated other comprehensive income (losses) on the Company's Consolidated Balance Sheets and are not included in the Company's net income.

Corporate tenant lease assets and depreciation CTL assets are generally recorded at cost less accumulated depreciation. Certain improvements and replacements are capitalized when they extend the useful life, increase capacity or improve the efficiency of the asset. Repairs and maintenance items are expensed as incurred. Depreciation is computed using the straight-line method of cost recovery over the shorter of estimated useful lives or 40 years for facilities, five years for furniture and equipment, the shorter of the remaining lease term or expected life for tenant improvements and the remaining useful life of the facility for facility improvements.

CTL assets to be disposed of are reported at the lower of their carrying amount or estimated fair value less costs to sell and are included in Assets held for sale on the Company's Consolidated Balance Sheets. The Company also periodically reviews long-lived assets to be held and used for an impairment in value whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable.

Regarding the Company's acquisition of facilities, purchase costs are allocated to the tangible and intangible assets and liabilities acquired based on their estimated fair values. The value of the tangible assets, consisting of land, buildings, building improvements and tenant improvements, are determined as if vacant, that is, at replacement cost. Intangible assets including the above-market or below-market value of leases, the value of in-place leases and the value of customer relationships are recorded at their relative fair values.

Above-market and below-market in-place lease values for owned CTL assets are recorded based on the present value (using a discount rate reflecting the risks associated with the leases acquired) of the difference between: (1) the contractual amounts to be paid pursuant to the leases negotiated and in-place at the time of acquisition of the facilities; and (2) management's estimate of fair market lease rates for the facility or equivalent facility, measured over a period equal to the remaining non-cancelable term of the lease. The capitalized above-market (or below-market) lease value is amortized as a reduction of (or, increase to) operating lease income over the remaining non-cancelable term of each lease plus any renewal periods with fixed rental terms that are considered to be below-market. The Company generally engages in sale/leaseback transactions and typically executes leases simultaneously with the purchase of the CTL asset at market-rate rents. Because of this, no above-market or below-market lease value is ascribed to these transactions.

The total amount of other intangible assets are allocated to in-place lease values and customer relationship intangible values based on management's evaluation of the specific characteristics of each customer's lease and the Company's overall relationship with each customer. Characteristics to be considered in allocating these values include the nature and extent of the existing relationship with the customer, prospects for developing new business with the customer, the customer's credit quality and the expectation of lease renewals among other factors. Factors considered by management's analysis include the estimated carrying costs of the facility during a hypothetical expected lease-up period, current market conditions and costs to execute similar leases. Management also considers information obtained about a property in connection with its pre-acquisition due diligence. Estimated carrying costs include real estate

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

taxes, insurance, other property operating costs and estimates of lost operating lease income at market rates during the hypothetical expected lease-up periods, based on management's assessment of specific market conditions. Management estimates costs to execute leases including commissions and legal costs to the extent that such costs are not already incurred with a new lease that has been negotiated in connection with the purchase of the facility. Management's estimates are used to determine these values. These intangible assets are included in Other investments on the Company's Consolidated Balance Sheets (see Note 7).

The value of above-market or below-market in-place leases are amortized as a reduction of (or, increase to) operating lease income over the remaining initial term of each lease. The value of customer relationship intangibles are amortized to expense over the initial and renewal terms of the leases, but no amortization period for intangible assets will exceed the remaining depreciable life of the building. In the event that a customer terminates its lease, the unamortized portion of each intangible, including market rate adjustments, lease origination costs, in-place lease values and customer relationship values, would be charged to expense.

Timber and timberlands Timber and timberlands, including logging roads, are stated at cost less accumulated depletion for timber previously harvested and accumulated road amortization. The Company capitalizes timber and timberland purchases and reforestation costs and other costs associated with the planting and growing of timber, such as site preparation, growing or purchases of seedlings, planting, silviculture, herbicide application and the thinning of tree stands to improve growth. The cost of timber and timberlands typically is allocated between the timber and the land acquired, based on estimated relative fair values.

Timber carrying costs, such as real estate taxes, insect and wildlife control and timberland management fees, are expensed as incurred. Net carrying value of the timber and timberlands is used to compute the gain or loss in connection with timberland sales. Timber and timberlands are included in Other investments on the Company's Consolidated Balance Sheets (see Note 7).

Capitalized interest The Company capitalizes interest costs incurred during the construction periods for qualified build-to-suit projects for corporate tenants, including investments in joint ventures accounted for under the equity method. Capitalized interest was approximately \$490,000 and \$19,500 for the three months ended June 30, 2006 and 2005, respectively, and \$831,000 and \$19,500 for the six months ended June 30, 2006 and 2005, respectively.

Cash and cash equivalents Cash and cash equivalents include cash held in banks or invested in money market funds with original maturity terms of less than 90 days.

Restricted cash Restricted cash represents amounts required to be maintained in escrow under certain of the Company's debt obligations, leasing and derivative transactions.

Variable interest entities In accordance with FIN 46R, the Company identifies entities for which control is achieved through means other than through voting rights (a variable interest entity or VIE), and determines when and which business enterprise, if any, should consolidate the VIE. In addition, the Company discloses information pertaining to such entities wherein the Company is the primary beneficiary or other entities wherein the Company has a significant variable interest.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Identified intangible assets and goodwill Upon the acquisition of a business, the Company records intangible assets acquired at their estimated fair values separate and apart from goodwill. The Company determines whether such intangible assets have finite or indefinite lives. As of June 30, 2006, all such intangible assets acquired by the Company have finite lives. The Company amortizes finite lived intangible assets based on the period over which the assets are expected to contribute directly or indirectly to the future cash flows of the business acquired. The Company reviews finite lived intangible assets for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. The Company recognizes impairment loss on finite lived intangible assets if the carrying amount of an intangible asset is not recoverable and its carrying amount exceeds its estimated fair value.

The excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired (including identified intangible assets) and liabilities assumed is recorded as goodwill. Goodwill is not amortized but is tested for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test is done at a level of reporting referred to as a reporting unit. If the fair value of the reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value.

Fair values for goodwill and other finite lived intangible assets are determined based on discounted cash flows or appraised values, as appropriate.

During the first quarter 2005, the Company acquired Falcon Financial Investment Trust (Falcon Financial) in a business combination and identified finite lived intangible assets of approximately \$2.0 million and goodwill of \$7.7 million (see Note 4 for further discussion). These identified intangible assets are included in Deferred expenses and other assets on the Company's Consolidated Balance Sheets.

Revenue recognition The Company's revenue recognition policies are as follows:

Loans and other lending investments: Management considers nearly all of its loans and other lending investments to be held-to-maturity, although a small number of investments may be classified as available-for-sale. The Company reflects held-to-maturity investments at historical cost adjusted for allowance for loan losses, unamortized acquisition premiums or discounts and unamortized deferred loan fees.

Unrealized gains and losses on available-for-sale investments are included in Accumulated other comprehensive income (losses) on the Company's Consolidated Balance Sheets and are not included in the Company's net income. On occasion, the Company may acquire loans at generally small premiums or discounts based on the credit characteristics of such loans. These premiums or discounts are recognized as yield adjustments over the lives of the related loans. Loan origination or exit fees, as well as direct loan origination costs, are also deferred and recognized over the lives of the related loans as a yield adjustment, if management believes it is probable that such amounts will be received. If loans with premiums, discounts, loan origination or exit fees are prepaid, the Company immediately recognizes the unamortized portion as a decrease or increase in the prepayment gain or loss which is included in Other income on the Company's Consolidated Statements of Operations. Interest income is recognized using the effective interest method applied on a loan-by-loan basis.

A small number of the Company's loans provide for accrual of interest at specified rates that differ from current payment terms. Interest is recognized on such loans at the accrual rate subject to

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

management's determination that accrued interest and outstanding principal are ultimately collectible, based on the underlying collateral and operations of the borrower.

Prepayment penalties or yield maintenance payments from borrowers are recognized as additional income when received. Certain of the Company's loan investments provide for additional interest based on the borrower's operating cash flow or appreciation of the underlying collateral. Such amounts are considered contingent interest and are reflected as income only upon certainty of collection.

Leasing investments: Operating lease revenue is recognized on the straight-line method of accounting from the later of the date of the origination of the lease or the date of acquisition of the facility subject to existing leases. Accordingly, contractual lease payment increases are recognized evenly over the term of the lease. The cumulative difference between lease revenue recognized under this method and contractual lease payment terms, is recorded as "Deferred operating lease income receivable" on the Company's Consolidated Balance Sheets.

Reserve for loan losses The Company's accounting policies require that an allowance for estimated loan losses be maintained at a level that management, based upon an evaluation of known and inherent risks in the portfolio, considers adequate to provide for loan losses. In establishing loan loss reserves, management periodically evaluates and analyzes the Company's assets, historical and industry loss experience, economic conditions and trends, collateral values and quality, and other relevant factors. Specific valuation allowances are established for impaired loans in the amount by which the carrying value, before allowance for estimated losses, exceeds the fair value of collateral less disposition costs on an individual loan basis. Management considers a loan to be impaired when, based upon current information and events, it believes that it is probable that the Company will be unable to collect all amounts due under the loan agreement on a timely basis. Management carries these impaired loans at the fair value of the loans underlying collateral less estimated disposition costs. Impaired loans may be left on accrual status during the period the Company is pursuing repayment of the loan; however, these loans are placed on non-accrual status at such time as: (1) management determines the borrower is incapable of, or has ceased efforts toward, curing the cause of the impairment; (2) the loans become 90 days delinquent; (3) the loan has a maturity default; or (4) the net realizable value of the loan's underlying collateral approximates the Company's carrying value of such loan. While on non-accrual status, interest income is recognized only upon actual receipt. Impairment losses are recognized as direct write-downs of the related loan with a corresponding charge to the reserve for loan losses. Charge-offs occur when loans, or a portion thereof, are considered uncollectible and of such little value that further pursuit of collection is not warranted. Management also provides a loan portfolio reserve based upon its periodic evaluation and analysis of the portfolio, historical and industry loss experience, economic conditions and trends, collateral values and quality, and other relevant factors.

The Company's loans are generally collateralized by real estate assets or are corporate lending arrangements to entities with significant real estate holdings and other corporate assets. While the underlying real estate assets for the corporate lending instruments may not serve as collateral for the Company's investments in all cases, the Company evaluates the underlying real estate assets when estimating loan loss exposure because the Company's loans generally have restrictions as to how much senior and/or secured debt the customer may borrow ahead of the Company's position.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

Allowance for doubtful accounts The Company's accounting policies require a reserve on the Company's accrued operating lease income receivable balances and on the deferred operating lease income receivable balances. The reserve covers asset specific problems (e.g., bankruptcy) as they arise, as well as a portfolio reserve based on management's evaluation of the credit risks associated with these receivables.

Derivative instruments and hedging activity In accordance with Statement of Financial Accounting Standards No. 133 (SFAS No. 133), Accounting for Derivative Instruments and Hedging Activities as amended, the Company recognizes all derivatives as either assets or liabilities in the statement of financial position and measures those instruments at fair value. If certain conditions are met, a derivative may be specifically designated as a hedge of the exposure to changes in the fair value of a recognized asset or liability or a hedge of the exposure to variable cash flows of a forecasted transaction.

The Company formally documents all hedging relationships at inception, including its risk management objective and strategy for undertaking the hedge transaction. The hedge instrument and the hedged item are designated at the execution of the hedge instrument or upon re-designation during the life of the hedge. At inception and at least quarterly, the Company also formally assesses whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the hedged items to which they are designated and whether those derivatives may be expected to remain highly effective in future periods through the use of regression testing or dollar offset tests. Hedge effectiveness is assessed and measured under identical time periods. To the extent that hedges qualify under paragraph 68 of SFAS No. 133, the Company uses the short-cut method to assess effectiveness. Otherwise, the Company utilizes the cumulative hypothetical derivative method to assess and measure effectiveness. In addition, the Company does not exclude any component of the derivative's gain or loss in the assessment of effectiveness.

Stock-based compensation During the third quarter of 2002, with retroactive application to the beginning of that year, the Company adopted the fair-value method of accounting for options issued to employees or directors. Accordingly, the Company recognizes a charge equal to the fair value of these options at the date of grant multiplied by the number of options issued. This charge is amortized over the related remaining vesting terms to individuals as additional compensation.

For restricted stock awards, the Company measures compensation costs as of the date of grant and expenses such amounts against earnings, either at the grant date (if no vesting period exists) or ratably over the respective vesting/service period.

Impairment or disposal of long-lived assets In accordance with the Statement of Financial Accounting Standards No. 144 (SFAS No. 144), Accounting for the Impairment or Disposal of Long-Lived Assets the Company presents current operations prior to the disposition of CTL assets and prior period results of such operations in discontinued operations on the Company's Consolidated Statements of Operations.

Depletion **Depletion** relates to the Company's investment in timberland assets. Assumptions and estimates are used in the recording of depletion. With the help of foresters and industry-standard computer software, merchantable standing timber inventory is estimated annually. An annual depletion rate for each timberland investment is established by dividing book cost of timber by standing merchantable inventory. Changes in the assumptions and/or estimations used in these calculations may

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

affect the Company's results, in particular depletion costs. Factors that can impact timber volume include weather changes, losses due to natural causes, differences in actual versus estimated growth rates and changes in the age when timber is considered merchantable.

Income taxes The Company is subject to federal income taxation at corporate rates on its REIT taxable income; however, the Company is allowed a deduction for the amount of dividends paid to its shareholders, thereby subjecting the distributed net income of the Company to taxation at the shareholder level only. In addition, the Company is allowed several other deductions in computing its REIT taxable income, including non-cash items such as depreciation expense. These deductions allow the Company to shelter a portion of its operating cash flow from its dividend payout requirement under federal tax laws. The Company intends to operate in a manner consistent with and to elect to be treated as a REIT for tax purposes.

The Company can participate in certain activities from which it was previously precluded in order to maintain its qualification as a REIT, as long as these activities are conducted in entities which elect to be treated as taxable subsidiaries under the Code, subject to certain limitations. As such, the Company, through its taxable REIT subsidiaries (TRSs), is engaged in various real estate related opportunities, including: (i) servicing certain loan portfolios owned by third parties through iStar Asset Services, Inc. (iSAS); (ii) servicing securitized loans acquired in the acquisition of Falcon Financial through Falcon Financial II, Inc. (Falcon); (iii) certain activities related to the purchase and sale of timber and timberlands through TimberStar TRS, Inc. and TRS II, Inc. (collectively, TimberStar TRS); and (iv) managing corporate credit-oriented investment strategies through four taxable REIT subsidiaries, iStar Alpha TRS, Inc., iStar Alpha LLC Holding TRS, Inc., iStar Alpha LLC Holdings TRS II, Inc. and iStar OHCOF GP TRS, Inc. (collectively, iStar Alpha). The Company will consider other investments through TRS entities if suitable opportunities arise. The Company's TRS entities are not consolidated for federal income tax purposes and are taxed as corporations. For financial reporting purposes, current and deferred taxes are provided for in the portion of earnings recognized by the Company with respect to its interest in TRS entities. Such amounts are immaterial. Accordingly, except for the Company's taxable REIT subsidiaries, no current or deferred federal taxes are provided for in the Consolidated Financial Statements.

Earnings per common share In accordance with the Statement of Financial Accounting Standards No. 128 (SFAS No. 128), Earnings per Share, the Company presents both basic and diluted earnings per share (EPS). Basic earnings per share (Basic EPS) is computed by dividing net income allocable to common shareholders by the weighted average number of shares outstanding for the period. Diluted earnings per share (Diluted EPS) reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, where such exercise or conversion would result in a lower earnings per share amount.

Reclassification Certain prior year amounts have been reclassified in the Consolidated Financial Statements and the related notes to conform to the 2006 presentation.

Use of estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported

iStar Financial Inc.
Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

New accounting standards In July 2006, the FASB released Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement 109. FIN 48 prescribes a comprehensive model for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. A tax benefit from an uncertain position may be recognized only if it is more likely than not that the position is sustainable, based on its technical merits. The tax benefit is the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement with a taxing authority having full knowledge of all relevant information. FIN 48 is effective as of the beginning of fiscal years that start after December 15, 2006. The Company will adopt FIN 48 on January 1, 2007, as required, and does not believe it will have a significant impact on the Company's Consolidated Financial Statements.

In March 2005, the FASB released Interpretation No. 47 (FIN 47), Accounting for Conditional Asset Retirement Obligations. FIN 47 clarifies that the term conditional asset retirement obligation as used in FASB Statement No. 143, Accounting for Asset Retirement Obligations (SFAS No. 143), as a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. The obligation to perform the asset retirement activity is unconditional even though uncertainty exists about the timing and/or method of settlement. Thus, the timing and/or method of settlement may be conditional on a future event. Accordingly, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligation if the fair value of the liability can be reasonably estimated. The fair value of a liability for the conditional asset retirement obligation should be recognized when incurred generally upon acquisition, construction, or development and/or through the normal operation of the asset. Uncertainty about the timing and/or method of settlement of a conditional asset retirement obligation should be factored into the measurement of the liability when sufficient information exists. SFAS No. 143 acknowledges that in some cases, sufficient information may not be available to reasonably estimate the fair value of an asset retirement obligation. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. The Company adopted FIN 47 during 2005 and it did not have a significant impact on the Company's Consolidated Financial Statements.

In December 2004, the FASB released Statement of Financial Accounting Standards No. 153 (SFAS No. 153), Accounting for Non-monetary Transactions. SFAS No. 153 requires non-monetary exchanges to be accounted for at fair value, recognizing any gain or loss, if the transactions meet a commercial-substance criterion and fair value is determinable. SFAS No. 153 is effective for non-monetary transactions occurring in fiscal years beginning after June 15, 2005. The Company adopted the provisions of this statement, as required, on January 1, 2006, and it did not have a significant impact on the Company's Consolidated Financial Statements.

In June 2005, the Emerging Issues Task Force reached a consensus on EITF 04-5, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights. EITF 04-5 states that a sole general partner is presumed to control a limited partnership (or similar entity) and should consolidate the limited partnership unless one of the following two conditions exist: (1) the limited partners possess substantive

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 3 Summary of Significant Accounting Policies (Continued)

kick-out rights, or (2) the limited partners possess substantive participating rights. A kick-out right is defined as the substantive ability to remove the sole general partner without cause or otherwise dissolve (liquidate) the limited partnership. Substantive participating rights are when the limited partners have the substantive right to participate in certain financial and operating decisions of the limited partnership that are made in the ordinary course of business. The consensus guidance in EITF 04-5 is effective for all agreements entered into or modified after June 29, 2005. For all pre-existing agreements that are not modified, the consensus is effective as of the beginning of the first fiscal reporting period beginning after December 15, 2005. The Company adopted the provisions of this statement, as required, and it did not have a significant impact on the Company's Consolidated Financial Statements.

In December 2004, the FASB released Statement of Financial Accounting Standards No. 123R (SFAS No. 123R), Share-Based Payment. This standard requires issuers to measure the cost of equity-based service awards based on the grant-date fair value of the award. That cost will be recognized over the period during which an employee is required to provide service in exchange for the award or the requisite service period (typically the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service. The Company will initially measure the cost of liability-based service awards based on their current fair value. The fair value of that award will be remeasured subsequently at each reporting date through the settlement date. Changes in fair value during the requisite service period will be recognized as compensation cost over that period. The grant-date fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of those instruments. If an equity award is modified after the grant date, incremental compensation cost will be recognized in an amount equal to the excess of the fair value of the modified award over the fair value of the original award immediately before the modification. Companies can comply with SFAS No. 123R using one of three transition methods: (1) the modified prospective method; (2) the modified retrospective method; or (3) a variation of the modified retrospective method. The provisions of this statement are effective for annual periods beginning after June 15, 2005. The Company adopted the provisions of SFAS No. 123R, as required, on January 1, 2006, and it did not have a significant financial impact on the Company's Consolidated Financial Statements.

iStar Financial Inc.
Notes to Consolidated Financial Statements (Continued)

Note 4 Loans and Other Lending Investments

The following is a summary description of the Company's loans and other lending investments (\$ in thousands)(1):

		# of Borrowers In Class	Principal Balances Outstanding	Carrying Value as of June 30, 2006	December 31, 2005	Effective Maturity Dates	Contractual Interest Payment Rates(2)	Contractual Interest Accrual Rates(2)	Principal Amortization (3)
Investment	Underlying Property Type								
Investments(5)	Office/Residential/Retail/ Industrial, R&D/Mixed Use/Hotel/Entertainment, Leisure/Other	104	\$ 3,403,789	\$ 3,368,231	\$ 3,149,767	2006 to 2026	Fixed: 6.50% to 30.00% Variable: LIBOR + 1.86% to LIBOR + 7.00%	Fixed: 6.50% to 30.00% Variable: LIBOR + 1.86% to LIBOR + 7.00%	Yes
	Office/Residential/Retail/ Mixed Use/Hotel/ Entertainment, Leisure/Other	20	476,820	473,363	413,853	2006 to 2025	Fixed: 7.32% to 18.00% Variable: LIBOR + 1.25% to LIBOR + 5.25%	Fixed: 7.32% to 25.00% Variable: LIBOR + 1.25% to LIBOR + 5.25%	Yes
Partnership	Office/Residential/Retail/ Industrial, R&D/Mixed Use/Hotel/ Other	22	770,123	756,184	797,456	2006 to 2021	Fixed: 7.62% to 15.00% Variable: LIBOR + 2.50% to LIBOR + 7.50%	Fixed: 7.62% to 17.50% Variable: LIBOR + 2.50% to LIBOR + 7.50%	Yes
	Residential/Retail/ Mixed Use/ Industrial, R&D/ Entertainment, Leisure/Other	10	805,124	790,432	347,715	2007 to 2023	Fixed: 6.00% to 12.00% Variable: LIBOR + 0.85% to LIBOR + 5.63%	Fixed: 6.00% to 12.00% Variable: LIBOR + 0.85% to LIBOR + 5.63%	Yes
Carrying Value				\$ 5,388,210	\$ 4,708,791				
and				(49,876)	(46,876)				
				\$ 5,338,334	\$ 4,661,915				

Explanatory Notes:

- (1) Details (other than carrying values) are for loans outstanding as of June 30, 2006.
- (2) Substantially all variable-rate loans are based on 30-day LIBOR and reprice monthly. The 30-day LIBOR on June 30, 2006 was 5.33%. As of June 30, 2006, two loans with a combined carrying value of \$66.1 million have a stated accrual rate that exceeds the stated pay rate; one of these loans, with a carrying value of \$27.1 million, has been placed on non-accrual status and therefore is considered a non-performing loan (see Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Risk Management) and the Company is only recognizing income based on cash received for interest.
- (3) Certain loans require fixed payments of principal resulting in partial principal amortization over the term of the loan with the remaining principal due at maturity.
- (4) Under some of the loans, the Company may receive additional payments representing additional interest from participation in available cash flow from operations of the underlying real estate collateral.
- (5) Includes one loan with a carrying value of \$46.9 million which the Company has currently ceased accruing the contractual exit fees as of January 1, 2006.
- (6) Includes one loan with a stated accrual rate of 25.00% per annum, however, no interest is due until its scheduled maturity in 2009.
- (7) Includes two unsecured loans with an aggregate carrying value of \$75.3 million as of June 30, 2006.
- (8) Typically consists of senior loans, term preferred stock or debt interests that are originated or structured to meet customer financing requirements and the Company's investment criteria.

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 4 Loans and Other Lending Investments (Continued)**

During the six months ended June 30, 2006 and 2005, respectively, the Company and its affiliated ventures originated or acquired an aggregate of approximately \$1.32 billion and \$1.45 billion (excluding the acquisition of Falcon Financial) in loans and other lending investments, funded \$317.0 million and \$155.7 million under existing loan commitments and received principal repayments of \$971.1 million and \$976.5 million (excluding loan repayments in escrow of \$99.9 million during the period ended June 30, 2005 for which cash was received by the Company on July 7, 2005).

As of June 30, 2006, the Company had 46 loans with unfunded commitments. The total unfunded commitment amount was approximately \$1.91 billion, of which \$48.0 million was discretionary and \$1.86 billion was non-discretionary.

The Company has reflected provisions for loan losses of approximately \$2.0 million and \$0 in its results of operations during the three months ended June 30, 2006 and 2005, respectively, and approximately \$3.0 million and \$2.3 million during the six months ended June 30, 2006 and 2005. These provisions represent loan portfolio reserves based on management's evaluation of general market conditions, the Company's internal risk management policies and credit risk ratings system, industry loss experience, the likelihood of delinquencies or defaults and the credit quality of the underlying collateral.

Changes in the Company's reserve for loan losses were as follows (in thousands):

Reserve for loan losses, December 31, 2004	\$ 42,436
Additional provision for loan losses	2,250
Additional provision acquired in acquisition of Falcon Financial	2,190
Charge-offs	
Reserve for loan losses, December 31, 2005	46,876
Additional provision for loan losses	3,000
Charge-offs	
Reserve for loan losses, June 30, 2006	\$ 49,876

Acquisition of Falcon Financial Investment Trust On January 20, 2005, the Company signed a definitive agreement to acquire Falcon Financial, an independent finance company dedicated to providing long-term capital to automotive dealers throughout North America. Falcon Financial was a borrower of the Company at the time of signing the definitive agreement. Under the terms of the agreement, the Company commenced a cash tender offer to acquire all of Falcon Financial's outstanding shares at a price of \$7.50 per share for an aggregate equity purchase price of approximately \$120.0 million. The offer expired on February 28, 2005, and as of the expiration, approximately 15.6 million common shares of beneficial interest, representing approximately 97.70% of Falcon Financial's issued and outstanding shares, had been tendered and not withdrawn. On March 3, 2005, the Company completed the merger of Falcon Financial with an acquisition subsidiary of the Company. As a result of the merger, all outstanding shares of Falcon Financial not purchased by the Company in the tender offer were converted into the right to receive \$7.50 per share, without interest and the Company acquired 100.00% ownership of Falcon Financial.

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 4 Loans and Other Lending Investments (Continued)**

The following is a summary of the effects of this transaction on the Company's consolidated financial position (in thousands):

Fair value of:

Assets acquired (loans and other lending investments)	\$ 255,503
Acquired finite lived intangible assets and goodwill	9,778
Acquired accrued interest and other assets	3,140
iStar line-of-credit to Falcon Financial plus accrued interest	(151,784)
Other liabilities assumed	(2,941)
Net cash paid for Falcon Financial acquisition	\$ 113,696

The purchase of Falcon Financial was accounted for as a business combination, and therefore the Company applied the principles of SFAS No. 141 and Statement of Financial Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets, to the transaction. There were approximately \$2.0 million of finite lived intangibles identified in the business combination that will be amortized over two to 21 years. These intangibles are included in Deferred expenses and other assets on the Company's Consolidated Balance Sheets. As of June 30, 2006, the Company had unamortized purchase related finite lived intangible assets of approximately \$1.6 million related to the Falcon Financial acquisition. In addition, the acquisition resulted in approximately \$7.7 million of goodwill. The goodwill was adjusted by approximately \$1.5 million subsequent to the acquisition to reflect severance payments to certain individuals and other costs which resulted in an increase of goodwill to \$9.2 million. The goodwill is tested annually for impairment as required by SFAS No. 142. The most recent impairment test was performed by the Company during the fourth quarter of 2005 and no impairment was identified. On May 1, 2005, the assets acquired in the Falcon Financial acquisition were merged with AutoStar Realty Operating Partnership, L.P. (see Note 6 for further description of AutoStar Realty Operating Partnership, L.P.).

Note 5 Corporate Tenant Lease Assets

During the six months ended June 30, 2006 and 2005, respectively, the Company acquired an aggregate of approximately \$17.2 million and \$149.4 million in CTL assets and disposed of CTL assets for net proceeds of approximately \$21.9 million and \$6.0 million. The Company did not allocate any of the purchase costs to intangible assets in relation to the CTL assets acquired during the six months ended June 30, 2006 (see Note 3). As of June 30, 2006 and December 31, 2005, the Company had unamortized purchase related finite lived intangible assets of approximately \$41.1 million and \$42.5 million, respectively, and included these in Other investments on the Company's Consolidated Balance Sheets.

The Company's investments in CTL assets, at cost, were as follows (in thousands):

	June 30, 2006	December 31, 2005
Facilities and improvements	\$ 2,667,052	\$ 2,657,306
Land and land improvements	751,184	747,724
Less: accumulated depreciation	(319,439)	(289,669)
Corporate tenant lease assets, net	\$ 3,098,797	\$ 3,115,361

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 5 Corporate Tenant Lease Assets (Continued)

Under certain leases, the Company is entitled to receive additional participating lease payments to the extent gross revenues of the corporate customer exceed a base amount. The Company did not earn any such additional participating lease payments on these leases in the six months ended June 30, 2006 and 2005. In addition, the Company also receives reimbursements from customers for certain facility operating expenses including common area costs, insurance and real estate taxes. Customer expense reimbursements for the three months ended June 30, 2006 and 2005 were approximately \$7.0 million and \$6.1 million, respectively, and \$14.0 million and \$12.3 million for the six months ended June 30, 2006 and 2005, respectively, and are included as a reduction of Operating costs corporate tenant lease assets on the Company's Consolidated Statements of Operations.

The Company is subject to expansion option agreements with three existing customers that could require the Company to fund and to construct up to 171,000 square feet of additional adjacent space on which the Company would receive additional operating lease income under the terms of the option agreements. In addition, upon exercise of such expansion option agreements, the corporate customers would be required to simultaneously extend their existing lease terms for additional periods ranging from six to ten years.

The Company also has \$51.6 million of unfunded commitments, of which \$3.3 million was discretionary and \$48.3 million was non-discretionary related to 12 CTL investments. These commitments generally fall into two categories: (1) pre-approved capital improvement projects; and (2) new or additional construction costs. Upon funding, the Company would receive additional operating lease income from the customers. In addition, the Company has \$16.6 million of non-discretionary unfunded commitments related to 20 existing customers in the form of tenant improvements which were negotiated between the Company and customers at the commencement of the leases.

On April 13, 2006, the Company signed a lease termination agreement with a customer that occupied 12 facilities that were subject to separate cross-defaulted leases. Of these 12 leases, nine were assigned to the Company as of June 30, 2006 and three were amended and will expire between 2007 and 2011. Three of the nine assigned leases have sub-leases that expire between 2008 and 2018 and the remaining six facilities are vacant. The Company negotiated to receive a \$20.0 million letter of credit from the tenant under a previous amendment to the lease. The letter of credit was cashed by the Company upon execution of the current lease amendment and termination and allocated between each of the leases as a lease termination fee. Subsequent to the termination, the Company determined it would sell six of the nine facilities with terminated leases and designated those facilities as Assets held for sale on the Company's Consolidated Balance Sheets as of June 30, 2006. In addition, the Company determined that the six facilities held for sale were impaired and recorded a \$7.6 million charge. The impairment charge and the operating results of the six facilities, including a net termination fee of \$7.8 million (net of the write-off of \$3.2 million of deferred operating lease income), are included in Income from discontinued operations on the Company's Consolidated Statements of Operations for the three and six months ended June 30, 2006. Approximately \$3.6 million of the termination fee associated with the three amended leases was recorded to Deferred operating lease income receivable on the Company's Consolidated Balance Sheets, to be amortized on a straight-line basis over the remaining term of the leases. The remaining net termination fee of \$3.8 million (net of the write-off of \$1.6 million of deferred operating lease income), was recorded in Other income on the Company's Consolidated Statements of Operations.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 5 Corporate Tenant Lease Assets (Continued)

On May 26, 2006, the Company sold one CTL asset for net proceeds of approximately \$12.8 million and realized a gain of approximately \$2.4 million. On March 6, 2006, the Company sold two CTL assets for net proceeds of approximately \$9.0 million and realized a gain of approximately \$2.2 million.

On May 27, 2005, the Company sold one CTL asset for net proceeds of approximately \$6.0 million and realized a gain of approximately \$407,000.

The results of operations from CTL assets sold or held for sale in the current and prior periods are classified as **Income from discontinued operations** on the Company's Consolidated Statements of Operations even though such income was actually recognized by the Company prior to the asset sale. Gains from the sale of CTL assets are classified as **Gain from discontinued operations** on the Company's Consolidated Statements of Operations.

Note 6 Joint Ventures and Minority Interest

Investments in unconsolidated joint ventures **Income** or loss generated from the Company's joint venture investments is included in **Equity in earnings (loss) from joint ventures** on the Company's Consolidated Statements of Operations.

At June 30, 2006, the Company had a 50% investment in Corporate Technology Centre Associates, LLC (**CTC**), whose external member is Corporate Technology Centre Partners, LLC. This venture was formed for the purpose of operating, acquiring and, in certain cases, developing CTL facilities. At June 30, 2006, the CTC venture held one facility. The Company's investment in this joint venture at June 30, 2006 was \$4.9 million. The joint venture's carrying value for the one facility owned at June 30, 2006 was \$17.5 million. The joint venture had total assets of \$18.9 million as of June 30, 2006 and a net loss of \$(119,000) and \$(241,000) for the three and six months ended June 30, 2006, respectively. The Company accounts for this investment under the equity method because the Company's joint venture partner has certain participating rights giving them shared control over the venture.

In addition, the Company has 47.5% investments in Oak Hill Advisors, L.P. and Oak Hill Credit Alpha MGP, a 47.0% investment in OHSF GP Partners II, LLC and a 45.5% investment in Oak Hill Credit Opportunities MGP, LLC (collectively, **Oak Hill**). The Company has determined that all of these entities are VIE's (see Note 3) and that an external member is the primary beneficiary. As such, the Company accounts for these investments under the equity method. The Company's investment in these ventures at June 30, 2006 was \$191.7 million. These ventures engage in investment and asset management services. Upon acquisition of the interests in Oak Hill there was a difference between the Company's book value of the equity investments and the underlying equity in the net assets of Oak Hill of approximately \$199.8 million. Under the provisions of APB 18, **The Equity Method of Accounting for Investments in Common Stock**, the Company allocated this value to finite lived identifiable intangible assets of approximately \$81.8 million and goodwill of \$118.0 million. These intangible assets are amortized based on their determined useful lives through quarterly adjustments to **Equity in earnings (loss) from joint ventures** and **Investments in joint ventures** on the Company's Consolidated Financial Statements. As of June 30, 2006, the unamortized balance related to intangible assets for these investments was approximately \$68.7 million.

Minority Interest **Income** or loss allocable to external partners in consolidated entities is included in **Minority interest in consolidated entities** on the Company's Consolidated Statements of Operations.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 6 Joint Ventures and Minority Interest (Continued)

As more fully discussed in Note 7, the Company consolidates the TimberStar Operating Partnership, L.P., created on January 19, 2005, for financial statement purposes and records the minority interest of the external partner in Minority interest in consolidated entities on the Company's Consolidated Balance Sheets.

During 2005, the Company had an investment in iStar Operating, Inc. (iStar Operating), a taxable REIT subsidiary that, through a wholly-owned subsidiary, serviced the Company's loans and certain loan portfolios owned by third parties. The Company owned all of the non-voting preferred stock and a 95% economic interest in iStar Operating. The Company determined that this entity was a VIE and the Company was the primary beneficiary, and therefore the Company consolidates this entity. On December 31, 2005, the Company acquired all the voting common stock in iStar Operating for a nominal amount and simultaneously merged it into an existing taxable REIT subsidiary of the Company.

On June 8, 2004, AutoStar Realty Operating Partnership, L.P. (the Operating Partnership) was created to provide real estate financing solutions to automotive dealerships and related automotive businesses. The Operating Partnership is owned 0.50% by AutoStar Realty GP LLC (the GP) and 99.50% by AutoStar Investors Partnership LLP (the LP). The GP is funded and owned 93.33% by iStar Automotive Investments, LLC, a wholly-owned subsidiary of the Company, and 6.67% by CP AutoStar, LP, an entity owned and controlled by two entities unrelated to the Company. The LP is funded and owned 93.33% by iStar Automotive Investments, LLC and 6.67% by CP AutoStar Co-Investors, LP, an entity controlled by two entities unrelated to the Company. This joint venture qualifies as a VIE and the Company is the primary beneficiary. Therefore, the Company consolidates this partnership for financial statement purposes and records the minority interest of the external partner in Minority interest in consolidated entities on the Company's Consolidated Balance Sheets.

On March 31, 2004, the Company began accounting for its 44.7% interest in TriNet Sunnyvale Partners, L.P. (Sunnyvale) as a VIE because the limited partners of Sunnyvale have the option to put their interest to the Company for cash; however, the Company may elect to deliver 297,728 shares of Common Stock in lieu of cash. The Company consolidates this partnership for financial statement purposes as it is the primary beneficiary. Prior to its consolidation, the Company accounted for this joint venture under the equity method for financial statement purposes and it was presented in Investments in joint ventures, on the Company's Consolidated Balance Sheets and earnings from the joint venture were included in Equity in earnings (loss) from joint ventures in the Company's Consolidated Statements of Operations.

In addition, the Company holds a majority interest in four other limited partnerships as of June 30, 2006 that are consolidated for financial statement purposes and records the minority interest of the external partner(s) in Minority interest in consolidated entities on the Company's Consolidated Balance Sheets.

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 7 Other Investments**

Other investments consist of the following items (in thousands):

	June 30, 2006	December 31, 2005
Timber and timberlands, net of accumulated depletion (see Note 3)	\$ 148,479	\$ 152,114
CTL intangibles, net of accumulated amortization (see Note 3)	41,076	42,530
Investments other	59,115	39,174
Marketable securities, prepaid expenses and other receivables	1,596	6,652
Other investments	\$ 250,266	\$ 240,470

On January 19, 2005, TimberStar Operating Partnership, L.P. (TimberStar) was created to acquire and manage a diversified portfolio of timberlands. TimberStar is owned 0.50% by TimberStar Investor GP LLC (TimberStar GP) and 99.50% by TimberStar Investors Partnership LLP (TimberStar LP). TimberStar GP and TimberStar LP are both funded and owned 96% by iStar Timberland Investments LLC, a wholly-owned subsidiary of the Company, and 4% by T-Star Investor Partners, LLC, an entity unrelated to the Company. The Company consolidates this partnership for financial statement purposes and records the minority interest of the external partner in Minority interest in consolidated entities on the Company's Consolidated Balance Sheets. At June 30, 2006, the venture held approximately 337,000 acres of timberland located in the northeast, the majority of which is subject to a long-term supply agreement. The venture's net carrying value of the timber and timberlands at June 30, 2006 was \$148.5 million. Net income for the venture is reflected in Other income on the Company's Consolidated Statements of Operations.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 9 Debt Obligations (Continued) (Continued)

Explanatory Notes:

(1) All interest rates and maturity dates are for debt outstanding as of June 30, 2006. Most variable-rate debt obligations are based on 30-day LIBOR and reprice monthly. The 30-day LIBOR rate on June 30, 2006 was 5.33%. However, some variable-rate debt obligations are based on 90-day LIBOR and reprice every three months. The 90-day LIBOR rate on June 30, 2006 was 5.48%.

(2) Maturity date reflects one-year term-out extension at the Company's option.

(3) On June 28, 2006, the unsecured revolving credit facility was amended and restated with new terms. The maximum available to borrow under the facility was increased to \$2.20 billion of which up to \$750.0 million can be borrowed in multiple foreign currencies. The rate was decreased to LIBOR + 0.525% from LIBOR + 0.70%, the facility fee was decreased to 12.5 basis points from 15 basis points and the maturity date was extended to June 2011.

(4) Subsequent to quarter end, the Company extended the corporate bond portion of this financing for one year to August 2007 and the rate was reduced to LIBOR + 0.22% to LIBOR + 0.65%.

The Company's primary source of short-term funds is a \$2.20 billion unsecured revolving credit facility. Under the facility the Company is required to meet certain financial covenants. As of June 30, 2006, there was approximately \$1.27 billion available to draw under the facility. In addition, the Company has one secured revolving credit facility of which availability is based on percentage borrowing base calculations. The Company's debt obligations contain covenants that are both financial and non-financial in nature. Significant financial covenants include limitations on the Company's ability to incur indebtedness beyond specified levels, and a requirement to maintain specified ratios of unsecured indebtedness compared to unencumbered assets. Significant non-financial covenants include a requirement in its publicly-held debt securities that the Company offer to repurchase those securities at a premium if the Company undergoes a change of control. As of June 30, 2006, the Company believes it is in compliance with all financial and non-financial covenants on its debt obligations.

Capital Markets Activity During the six months ended June 30, 2006, the Company issued \$1.0 billion aggregate principal amount of fixed-rate Senior Notes bearing interest at annual rates ranging from 5.65% to 5.875% and maturing between 2011 and 2016. In addition, the Company's \$50.0 million of 7.95% Senior Notes matured in May 2006.

During the 12 months ended December 31, 2005, the Company issued \$1.45 billion aggregate principal amount of fixed-rate Senior Notes bearing interest at annual rates ranging from 5.15% to 6.05% and maturing between 2010 and 2015, and \$625.0 million of variable-rate Senior Notes bearing interest at annual rates ranging from three-month LIBOR + 0.39% to 0.55% and maturing between 2008 and 2009. The proceeds from these transactions were used to repay outstanding balances on the Company's revolving credit facilities.

In addition, on September 14, 2005, the Company completed the issuance of \$100.0 million in unsecured floating rate trust preferred securities through a newly formed statutory trust, iStar Financial Statutory Trust I, that is a wholly owned subsidiary of the Company. The securities are subordinate to the Company's senior unsecured debt and bear interest at a rate of LIBOR + 1.50%. The trust preferred securities are redeemable, at the option of the Company, in whole or in part, with no prepayment premium any time after October 2010.

In addition, on March 1, 2005, the Company exchanged its TriNet 7.70% Senior Notes due 2017 for iStar 5.70% Series B Senior Notes due 2014 in accordance with the exchange offer and consent solicitation issued on January 25, 2005. For each \$1,000 principal amount of TriNet Notes tendered, holders received

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 9 Debt Obligations (Continued) (Continued)

approximately \$1,171 principal amount of iStar Notes. A total of \$117.0 million aggregate principal amount of iStar Notes were issued. The iStar Notes issued in the exchange offer form part of the series of iStar 5.70% Series B Notes due 2014 issued on March 9, 2004. Also, on March 30, 2005, the Company amended certain covenants in the indenture relating to the 7.95% Notes due 2006 as a result of a consent solicitation of the holders of these notes. Following the successful completion of the consent solicitation, the Company merged TriNet into the Company, the Company became the obligor on the Notes and TriNet no longer exists (see Note 1).

The Company primarily uses proceeds from the issuance of securities to repay outstanding secured and unsecured indebtedness.

Unsecured/Secured Credit Facilities Activity On January 9, 2006, the Company extended the maturity on its remaining secured facility to January 2008, reduced its capacity from \$700.0 million to \$500.0 million and lowered its interest rates to LIBOR + 1.00% to 2.00% from LIBOR + 1.40% to 2.15%.

In January 2006, the Company completed two new uncommitted lines of credit with leading financial institutions in order to borrow funds in foreign denominations. One line of credit to borrow British Pounds Sterling, with a rate of UK LIBOR + 0.70%, originally matured in June 2006, but was extended for one month to mature in July 2006. The other line of credit to borrow Euros with a rate of Euribor + 0.70%, which originally matured in December 2006 was terminated on June 30, 2006 in connection with the new amended and restated unsecured revolving credit facility.

On March 12, 2005, August 12, 2005, and September 30, 2005, three of the Company's secured revolving credit facilities, with a maximum amount available to draw of \$250.0 million, \$350.0 million and \$500.0 million, respectively, matured.

On September 16, 2005, the commitment on the unsecured facility was increased to \$1.50 billion under the accordion feature of the facility. In February 2006, the facility's interest rate decreased to LIBOR + 0.70% and the annual facility fee decreased to 15 basis points. It was decreased to this amount from LIBOR + 0.875% and a 17.5 basis point annual facility fee, due to an upgrade in the Company's senior unsecured debt rating in January and February 2006. On June 28, 2006, the unsecured facility was amended and restated. The commitment increased to \$2.20 billion, of which up to \$750.0 million can be borrowed in multiple currencies. The rate on the facility decreased to LIBOR + 0.525% and the annual facility fee decreased to 12.5 basis points.

Other Financing Activity During the six months ended June 30, 2006, the portion of the \$200.0 million term financing that was secured by certain commercial mortgage-backed securities was extended for one month and then matured on February 13, 2006. Subsequent to quarter end, the portion of this financing that was secured by corporate bonds was extended for one year to August 2007 and the rate on the loan was reduced to LIBOR + 0.22% to LIBOR + 0.65% from LIBOR + 0.25% to LIBOR + 0.70%. In addition, on May 31, 2006, the Company began a loan participation program which serves as an alternative to borrowing funds from the Company's revolving credit facilities. The loan participations are short-term bank loans funded in the secondary market with fixed maturity dates typically ranging from overnight to 90 days. There was no amount outstanding under this program at June 30, 2006.

During the 12 months ended December 31, 2005, the Company repaid a \$76.0 million mortgage on 11 CTL investments which was open to prepayment without penalty. The Company also prepaid a

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 9 Debt Obligations (Continued) (Continued)**

\$135.0 million mortgage on a CTL asset with a 0.5% prepayment penalty. In addition, the Company fully repaid the STARs Series 2002-1 and STARs Series 2003-1 Notes which had an aggregate outstanding principal balance of approximately \$620.7 million on the date of repayment. The STARs Notes were originally issued in 2002 and 2003 by special purpose subsidiaries of the Company for the purpose of match funding the Company's assets that collateralized the STARs Notes. For accounting purposes, the issuance of the STARs Notes was treated as a secured on-balance sheet financing. In connection with the redemption of the STARs Notes, no gain on sale was recognized and the Company incurred one-time cash costs, including prepayment and other fees, of approximately \$6.8 million and a non-cash charge of approximately \$37.5 million to write-off deferred financing fees and expenses.

As of June 30, 2006, future expected/scheduled maturities of outstanding long-term debt obligations are as follows (in thousands)(1):

2006 (remaining six months)	\$ 90,945
2007	202,493
2008	825,000
2009	721,753
2010	605,670
2011	1,936,817
Thereafter	2,213,010
Total principal maturities	6,595,688
Net unamortized debt discounts	(74,461)
Impact of pay-floating swap agreements (see Note 11)	(49,506)
Total debt obligations	\$ 6,471,721

Explanatory Note:

- (1) Assumes exercise of extensions to the extent such extensions are at the Company's option.

Note 10 Shareholders' Equity

The Company's charter provides for the issuance of up to 200.0 million shares of Common Stock, par value \$0.001 per share, and 30.0 million shares of preferred stock. The Company has 4.0 million shares of 8.00% Series D Cumulative Redeemable Preferred Stock, 5.6 million shares of 7.875% Series E Cumulative Redeemable Preferred Stock, 4.0 million shares of 7.80% Series F Cumulative Redeemable Preferred Stock, 3.2 million shares of 7.65% Series G Cumulative Redeemable Preferred Stock and 5.0 million shares of 7.50% Series I Cumulative Redeemable Preferred Stock outstanding. The Series D, E, F, G, and I Cumulative Redeemable Preferred Stock are redeemable without premium at the option of the Company at their respective liquidation preferences beginning on October 8, 2002, July 18, 2008, September 29, 2008, December 19, 2008 and March 1, 2009, respectively.

In April 2005 and May 2005, the Company issued 989,663 and 174,647 of its treasury shares, respectively, as a part of the purchase of the Company's substantial minority interest in Oak Hill. The shares were issued out of the Company's treasury stock at a weighted average cost of \$18.71 and issued at a price of \$41.35 and \$40.25 in April 2005 and May 2005, respectively. The difference in the weighted average cost and the issuance price is included in Additional paid-in capital on the Company's Consolidated Balance Sheets.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 10 Shareholders' Equity (Continued)

DRIP/Stock Purchase Plan The Company maintains a dividend reinvestment and direct stock purchase plan. Under the dividend reinvestment component of the plan, the Company's shareholders may purchase additional shares of Common Stock without payment of brokerage commissions or service charges by automatically reinvesting all or a portion of their Common Stock cash dividends. Under the direct stock purchase component of the plan, the Company's shareholders and new investors may purchase shares of Common Stock directly from the Company without payment of brokerage commissions or service charges. All purchases of shares in excess of \$10,000 per month pursuant to the direct purchase component are at the Company's sole discretion. Shares issued under the plan may reflect a discount of up to 3.00% from the prevailing market price of the Company's Common Stock. The Company is authorized to issue up to 8.0 million shares of Common Stock pursuant to the dividend reinvestment and direct stock purchase plan. During the three months ended June 30, 2006 and 2005, the Company issued a total of approximately 19,000 and 14,000 shares of its Common Stock, respectively, and during the six months ended June 30, 2006 and 2005, the Company issued a total of approximately 31,000 and 25,000 shares of its Common stock, respectively, through the direct stock purchase component of the plan. Net proceeds during the three months ended June 30, 2006 and 2005, were approximately \$714,000 and \$563,000, respectively, and \$1.2 million and \$1.0 million during the six months ended June 30, 2006 and 2005, respectively. There are approximately 2.7 million shares available for issuance under the plan as of June 30, 2006.

Stock Repurchase Program The Board of Directors approved, and the Company has implemented, a stock repurchase program under which the Company is authorized to repurchase up to 5.0 million shares of its Common Stock from time to time, primarily using proceeds from the disposition of assets or loan repayments and excess cash flow from operations, but also using borrowings under its credit facilities if the Company determines that it is advantageous to do so. As of June 30, 2006, the Company had repurchased a total of approximately 2.3 million shares at an aggregate cost of approximately \$40.7 million. The Company has not repurchased any shares under the stock repurchase program since November 2000, however the Company issued approximately 1.2 million shares of its treasury stock during 2005 (see above.)

Note 11 Risk Management and Use of Financial Instruments

Risk management In the normal course of its on-going business operations, the Company encounters economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. The Company is subject to interest rate risk to the degree that its interest-bearing liabilities mature or reprice at different points in time and potentially at different bases, than its interest-earning assets. Credit risk is the risk of default on the Company's lending investments that results from a property's, borrower's or corporate tenant's inability or unwillingness to make contractually required payments. Market risk reflects changes in the value of loans due to changes in interest rates or other market factors, including the rate of prepayments of principal and the value of the collateral underlying loans, the valuation of CTL facilities held by the Company and changes in foreign currency exchange rates.

Use of derivative financial instruments The Company's use of derivative financial instruments is primarily limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposure. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Company's operating and financial structure as well as to hedge specific anticipated debt issuances. During 2005, the Company also began using derivative instruments to manage its exposure to

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 11 Risk Management and Use of Financial Instruments (Continued)**

foreign exchange rate movements. The counterparties to each of these contractual arrangements are major financial institutions with which the Company and its affiliates may also have other financial relationships. The Company is exposed to credit loss in the event of nonperformance by these counterparties. However, because of their high credit ratings, the Company does not anticipate that any of the counterparties will fail to meet their obligations. The Company does not use derivative instruments to hedge credit risk or for speculative purposes.

The Company's objective in using derivatives is to add stability to interest expense and foreign exchange gains/losses, and to manage its exposure to interest rate movements, foreign exchange rate movements, or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps as part of its cash flow hedging strategy. Interest rate swaps involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. As of June 30, 2006, such derivatives were used to hedge the variable cash flows associated with \$1.05 billion of forecasted issuances of debt.

Interest rate swaps used as a fair value hedge involve the receipt of fixed-rate amounts in exchange for variable rate payments over the life of the agreement without exchange of the underlying principal amount. At June 30, 2006, such derivatives were used to hedge the change in fair value associated with \$1.10 billion of existing fixed-rate debt. As of June 30, 2006, no derivatives were designated as hedges of net investments in foreign operations. Additionally, derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements, foreign exchange rate movements, and other identified risks, but do not meet the strict hedge accounting requirements of SFAS No. 133.

The following table represents the notional principal and fair value amounts of interest rate swaps by class and the corresponding hedged liability positions and the Company's foreign currency derivatives. The Company's foreign currency derivatives do not use hedge accounting, but are marked to market under SFAS No. 133 (in thousands):

	Notional Amount as of June 30, 2006		Notional Amount as of December 31, 2005		Fair Value as of June 30, 2006	Fair Value as of December 31, 2005

Foreign currency hedges						
Sell Canadian Dollar forward	CAD	16,125	CAD	11,512	\$ 236	\$ 71
Buy Euro forward		460		632	10	(11)
Cross currency Euro swap		3,080		3,740	(202)	134
Sell GBP forward	£	25,000	£	16,077	(533)	477
Total foreign currency hedges					\$ (489)	\$ 671

On June 29, 2006, the Company entered into a £25 million forward (approximately \$46.2 million) maturing July 7, 2006. On June 25, 2006, two pay-fixed swaps each with notional amounts of \$125.0 million expired. In April 2006, through TimberStar, the Company entered into seven forward starting swaps, two

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 11 Risk Management and Use of Financial Instruments (Continued)

with notional amounts of \$50.0 million and five with notional amounts of \$100.0 million. All seven forward starting swaps have ten-year terms and rates ranging from 5.495% to 5.604%. On February 17, 2006, four forward starting swaps all with notional amounts of \$50.0 million, ten-year terms and rates from 4.610% to 4.483% were settled in connection with the Company's issuance of \$500.0 million of ten-year Senior Notes which were priced on February 16, 2006. The cash settlement amount is being amortized into Interest expense on the Company's Consolidated Statements of Operations through the maturity of the Senior Notes.

At June 30, 2006, derivatives with a fair value of \$27.2 million were included in Deferred expenses other assets and derivatives with a fair value of \$41.1 million were included in Accounts payable, accrued expenses and other liabilities on the Company's Consolidated Financial Statements.

Credit risk concentrations **Concentrations** of credit risks arise when a number of borrowers or customers related to the Company's investments are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations, including those to the Company, to be similarly affected by changes in economic conditions. The Company regularly monitors various segments of its portfolio to assess potential concentrations of credit risks. Management believes the current portfolio is reasonably well diversified and does not contain any unusual concentration of credit risks.

Substantially all of the Company's CTL assets (including those held by joint ventures) and loans and other lending investments are collateralized by facilities located in the United States, with California (18.0%) representing the only significant concentration (greater than 10.0%) as of June 30, 2006. The Company's investments also contain significant concentrations in the following asset types as of June 30, 2006: office-CTL (18.1%), industrial/R&D (14.8%), retail (13.2%) and apartment/residential (10.2%).

The Company underwrites the credit of prospective borrowers and customers and often requires them to provide some form of credit support such as corporate guarantees, letters of credit and/or cash security deposits. Although the Company's loans and other lending investments and corporate customer lease assets are geographically diverse and the borrowers and customers operate in a variety of industries, to the extent the Company has a significant concentration of interest or operating lease revenues from any single borrower or customer, the inability of that borrower or customer to make its payment could have an adverse effect on the Company.

Note 12 Stock-Based Compensation Plans and Employee Benefits

The Company's 2006 Long-Term Incentive Plan (the Plan) is designed to provide equity-based incentive compensation for officers, key employees, directors, consultants and advisers of the Company. This Plan was effective May 31, 2006 and replaces the original 1996 Long-Term Incentive Plan. The Plan provides for awards of stock options, shares of restricted stock, phantom shares, dividend equivalent rights and other performance awards. There is a maximum of 4,550,000 shares of Common Stock available for awards under the Plan provided that the number of shares of Common Stock reserved for grants of options designated as incentive stock options is 1.0 million, subject to certain antidilution provisions in the Plan. All awards under the Plan are at the discretion of the Board of Directors or a committee of the Board of Directors. At June 30, 2006, options to purchase approximately 1.2 million shares of Common Stock were outstanding and approximately 480,000 shares of restricted stock were outstanding. These were all issued under the original 1996 Long-Term Incentive Plan. A total of approximately 4.5 million shares remain available for awards under the Plan as of June 30, 2006.

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 12 Stock-Based Compensation Plans and Employee Benefits (Continued)**

Changes in options outstanding during the six months ended June 30, 2006 are as follows (\$ in thousands, except for weighted average strike price):

	Number of Shares			Weighted Average Strike Price	Aggregate Intrinsic Value
	Employees	Non-Employee Directors	Other		
Options Outstanding, December 31, 2005	850,732	96,894	284,366	\$ 17.86	
Granted in 2006				\$	
Exercised in 2006	(19,651)	(6,900)	(17,230)	\$ 20.47	
Forfeited in 2006	(333)			\$ 19.69	
Options Outstanding, June 30, 2006	830,748	89,994	267,136	\$ 17.76	\$ 23,834

The following table summarizes information concerning outstanding and exercisable options as of June 30, 2006:

Exercise Price	Options Outstanding and Exercisable	Remaining Contractual Life
\$14.72	472,121	2.65
\$16.88	396,322	3.51
\$17.38	16,667	3.71
\$19.69	168,982	4.51
\$24.94	40,000	4.88
\$26.97	2,000	4.96
\$27.00	25,000	4.99
\$28.54	3,396	1.85
\$29.82	58,296	5.92
\$55.39	5,094	2.92
	1,187,878	

In the third quarter 2002 (with retroactive application to the beginning of the calendar year), the Company adopted the fair value method of accounting for options issued to employees or directors, as allowed under Statement of Financial Accounting Standards No. 123 (SFAS No. 123), Accounting for Stock-Based Compensation, as amended by Statement of Financial Accounting Standards No. 148 Accounting for Stock-Based Compensation Transition and Disclosure and further amended by SFAS No. 123R. Accordingly, the Company recognizes a charge equal to the fair value of these options at the date of grant multiplied by the number of options issued. This charge is amortized over the related remaining vesting terms to individual employees as additional compensation. There were 15,500 options issued during the year ended December 31, 2003 with a strike price of \$14.72. These options were fully vested as of December 31, 2005. The Company has not issued any options since 2003. Cash received from option exercises during the three and six months ended June 30, 2006 was approximately \$343,000 and \$896,000, respectively. The Company issues new shares to satisfy these option exercises.

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 12 Stock-Based Compensation Plans and Employee Benefits (Continued)**

Changes in non-vested restricted stock units during the six months ended June 30, 2006 (shares and aggregate intrinsic value in thousands):

	Number of Shares	Weighted Average Grant Date Fair Value Per Share	Aggregate Intrinsic Value
Non-Vested Shares			
Nonvested at December 31, 2005	94	\$ 39.06	
Granted	432	36.71	
Vested	(31)	36.07	
Forfeited	(15)	37.38	
Nonvested at June 30, 2006	480	\$ 37.04	\$ 18,106

During the six months ended June 30, 2006, the Company granted 431,794 restricted stock units to employees that vest proportionately over three years on the anniversary date of the initial grant of which 417,566 remain outstanding. Dividends are paid on these restricted stock units as dividends are paid on shares of the Company's Common Stock. These dividends are accounted for in a manner consistent with the Company's Common Stock dividends, as a reduction to retained earnings.

During the year ended December 31, 2005, the Company granted 68,730 restricted stock units to employees that vest proportionately over three years on the anniversary date of the initial grant of which 50,938 remain outstanding

During the year ended December 31, 2004, the Company granted 36,205 restricted stock units to employees that vest proportionately over three years on the anniversary date of the initial grant of which 10,620 remain outstanding. In addition, in connection with the Chief Executive Officer's employment agreement 236,167 restricted shares were issued on March 31, 2004 (see detailed information below).

During the year ended December 31, 2003, the Company granted 40,600 restricted stock units to employees that vest proportionately over three years on the anniversary date of the initial grant of which 500 remain outstanding.

For accounting purposes, the Company measures compensation costs for these shares, not including any contingently issuable shares, as of the date of the grant and expenses such amounts against earnings, either at the grant date (if no vesting period exists) or ratably over the respective vesting/service period. Such amounts appear on the Company's Consolidated Statements of Operations in General and administrative. As of June 30, 2006, there was \$13.9 million of total unrecognized compensation cost related to non-vested restricted stock units. That cost is expected to be recognized over a period of three years.

During the year ended December 31, 2004, the Company entered into a three-year employment agreement with its President. This initial three-year term, and any subsequent one-year renewal term, will automatically be extended for an additional year, unless earlier terminated by prior notice from the Company or the President. Under the agreement, the President receives an annual base salary of \$350,000, subject to an annual review for upward (but not downward) adjustment. Beginning with the fiscal year ended December 31, 2005, he was eligible to receive a target bonus of \$650,000, subject to annual review for upward adjustment. In addition, the President purchased a 20% interest in both the Company's 2005 and 2006 high performance unit program for senior executive officers, a 25% interest in the Company's 2007 high performance unit program for senior executive officers and a 35% interest in the Company's 2008 high performance unit program for senior executive officers (see High Performance Unit Program

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 12 Stock-Based Compensation Plans and Employee Benefits (Continued)

discussion below). This performance program was approved by the Company's shareholders in 2003 and is described in detail in the Company's 2003 and 2005 annual proxy statement. As of June 30, 2006, the purchase price of approximately \$288,000, \$101,000, \$91,000 and \$139,000 for the 2005, 2006, 2007 and 2008 plans, respectively, was paid by the President. Further, the President has the opportunity to purchase a 35% interest in the Company's 2009 high performance unit program for senior executive officers. The purchase price for all plans was based upon a valuation prepared by an independent investment-banking firm. The interests purchased by the President will have no value to him unless the Company achieves total shareholder returns in excess of those achieved by peer group indices, all as more fully described in the Company's 2003 and 2005 annual proxy statement. The President is also entitled to an allocation of 25% of the interests in the Company's proposed New Business Crossed Incentive Compensation Program, or an alternative plan.

During the year ended December 31, 2002, the Company entered into a three-year employment agreement with its Chief Financial Officer. Under the agreement, the Chief Financial Officer receives an annual base salary of \$225,000 and a bonus, which was targeted to be \$325,000, both subject to an annual review for upward, and in respect to the bonus, downward adjustment. In addition, the Company granted the Chief Financial Officer 108,980 contingently vested restricted stock awards that vested on December 31, 2005. Dividends were paid on the restricted shares as dividends are paid on shares of the Company's Common Stock. These dividends were accounted for in a manner consistent with the Company's Common Stock dividends, as a reduction to retained earnings. For accounting purposes, the Company took a total charge of approximately \$3.0 million related to the restricted stock awards, which was amortized over the period from November 6, 2002 through December 31, 2005. This charge is reflected on the Company's Consolidated Statements of Operations in General and administrative.

Further, the Company granted the Chief Financial Officer 100,000 restricted shares which became fully-vested on January 31, 2004 as a result of the Company achieving a 53.28% total shareholder rate of return (dividends since November 6, 2002 plus share price appreciation from January 2, 2003). The Company incurred a one-time charge to earnings during the three months ended March 31, 2004 of approximately \$4.1 million (the fair market value of the 100,000 shares at \$40.02 per share plus the Company's share of taxes). For accounting purposes, the employment arrangement described above was treated as a contingent, variable plan until January 31, 2004.

On February 11, 2004, the Company entered into a new employment agreement with its Chief Executive Officer which took effect upon the expiration of the old agreement. The new agreement has an initial term of three years and provides for the following compensation:

- an annual salary of \$1.0 million;
- a potential annual cash incentive award of up to \$5.0 million if performance goals set by the Compensation Committee of the Board of Directors in consultation with the Chief Executive Officer are met; and
- a one-time award of Common Stock with a value of \$10.0 million at March 31, 2004 (based upon the trailing 20-day average closing price of the Common Stock); the award was fully vested when granted and dividends will be paid on the shares from the date of grant, but the shares cannot be sold for five years unless the price of the Common Stock during the 12 months ending March 31 of each year increases by at least 15%, in which case the sale restrictions on 25% of the shares awarded will lapse in respect to each 12-month period. In connection with this award the Company

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 12 Stock-Based Compensation Plans and Employee Benefits (Continued)

recorded a \$10.1 million charge in General and administrative on the Company's Consolidated Statements of Operations. The Chief Executive Officer notified the Company that subsequent to this award he contributed an equivalent number of shares to a newly established charitable foundation.

In addition, the Chief Executive Officer purchased an 80%, 75% and 70% interest in the Company's 2006, 2007 and 2008 high performance unit program for senior executive officers, respectively (see High Performance Unit Program discussion below). This performance program was approved by the Company's shareholders in 2003 and is described in detail in the Company's 2003 and 2005 annual proxy statement. As of June 30, 2006, the purchase price of approximately \$286,000, \$274,000 and \$325,000 for the 2006, 2007 and 2008 plans, respectively, was paid by the Chief Executive Officer. The purchase price for all plans was based upon a valuation prepared by an independent investment-banking firm. The interests purchased by the Chief Executive Officer will have no value to him unless the Company achieves total shareholder returns in excess of those achieved by peer group indices, all as more fully described in the Company's 2003 and 2005 annual proxy statement.

High Performance Unit Program

In May 2002, the Company's shareholders approved the iStar Financial High Performance Unit (HPU) Program. The program, as more fully described in the Company's annual proxy statement dated April 8, 2002, is a performance-based employee compensation plan that only has material value to the participants if the Company provides superior returns to its shareholders. The program entitles the employee participants (HPU holders) to receive distributions in the nature of Common Stock dividends if the total rate of return on the Company's Common Stock (share price appreciation plus dividends) exceeds certain performance levels.

Four plans within the program completed their valuation periods as of June 30, 2006: the 2002 plan, the 2003 plan, the 2004 plan and the 2005 plan. Each plan has 5,000 shares of High Performance Common Stock associated with it. Each share of High Performance Common Stock carries 0.25 votes per share.

For these plans, the Company's performance was measured over a one-year and two-year valuation period, ending on December 31, 2002 and 2003, respectively and a three-year valuation period ending on December 31, 2004 and 2005. The end of the valuation period (i.e., the valuation date) will be accelerated if there is a change in control of the Company. The High Performance Common Stock has a nominal value unless the total rate of shareholder return for the relevant valuation period exceeds the greater of: (1) 10%, 20%, 30%, or 30% for the 2002 plan, the 2003 plan, the 2004 plan and the 2005 plan, respectively; and (2) a weighted industry index total rate of return consisting of equal weightings of the Russell 1000 Financial Index and the Morgan Stanley REIT Index for the relevant period.

If the total rate of return on the Company's Common Stock exceeds the threshold performance levels for a particular plan, then distributions will be paid on the shares of High Performance Common Stock related to that plan in the same amounts and at the same times as distributions are paid on a number of shares of the Company's Common Stock equal to the following: 7.5% of the Company's excess total rate of return (over the higher of the two threshold performance levels) multiplied by the weighted average market value of the Company's common equity capitalization during the measurement period, all as divided by the average closing price of a share of the Company's Common Stock for the 20 trading days immediately preceding the applicable valuation date.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 12 Stock-Based Compensation Plans and Employee Benefits (Continued)

If the total rate of return on the Company's Common Stock does not exceed the threshold performance levels for a particular plan, then the shares of High Performance Common Stock related to that plan will have only nominal value. In this event, each of the 5,000 shares will be entitled to dividends equal to 0.01 times the dividend paid on a share of Common Stock, if and when dividends are declared on the Common Stock.

Regardless of how much the Company's total rate of return exceeds the threshold performance levels, the dilutive impact to the Company's shareholders resulting from distributions on High Performance Common Stock in each plan is limited to the equivalent of 1% of the average monthly number of fully diluted shares of the Company's Common Stock outstanding during the valuation period.

The employee participants have purchased their interests in High Performance Common Stock through a limited liability company at purchase prices approved by the Company's Board of Directors. The Company's Board of Directors has established the prices of the High Performance Common Stock based upon, among other things, an independent valuation from a major securities firm. The aggregate initial purchase prices were approximately \$2.7 million, \$1.8 million, \$1.4 million and \$589,000 for the 2002, 2003, 2004 and 2005 plans, respectively. No HPU holder is permitted to exchange his or her interest in the LLC for shares of High Performance Common Stock prior to the applicable valuation date.

The total shareholder return for the valuation period under the 2002 plan was 21.94%, which exceeded both the fixed performance threshold of 10% and the industry index return of (5.83%). As a result of this superior performance, the participants in the 2002 plan are entitled to receive distributions equivalent to the amount of dividends payable on 819,254 shares of the Company's Common Stock, as and when such dividends are paid. Such dividend payments began with the first quarter 2003 dividend. The Company pays dividends on the 2002 plan shares in the same amount per equivalent share and on the same distribution dates that shares of the Company's Common Stock are paid.

The total shareholder return for the valuation period under the 2003 plan was 78.29%, which exceeded the fixed performance threshold of 20% and the industry index return of 24.66%. The plan was fully funded and was limited to 1% of the average monthly number of fully diluted shares of the Company's Common Stock during the valuation period. As a result of the Company's superior performance, the participants in the 2003 plan are entitled to receive distributions equivalent to the amount of dividends payable on 987,149 shares of the Company's Common Stock, as and when such dividends are paid. Such dividend payments began with the first quarter 2004 dividend. The Company pays dividends on the 2003 plan shares in the same amount per equivalent share and on the same distribution dates that shares of the Company's Common Stock are paid.

The total shareholder return for the valuation period under the 2004 plan was 115.47%, which exceeded the fixed performance threshold of 30% and the industry index return of 55.05%. The plan was fully funded and was limited to 1% of the average monthly number of fully diluted shares of the Company's Common Stock during the valuation period. As a result of the Company's superior performance, the participants in the 2004 plan are entitled to receive distributions equivalent to the amount of dividends payable on 1,031,875 shares of the Company's Common Stock, as and when such dividends are paid. Such dividend payments began with the first quarter 2005 dividend. The Company pays dividends on the 2004 plan shares in the same amount per equivalent share and on the same distribution dates that shares of the Company's Common Stock are paid.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

Note 12 Stock-Based Compensation Plans and Employee Benefits (Continued)

The total shareholder return for the valuation period under the 2005 plan was 63.38%, which exceeded the fixed performance threshold of 30%, but did not exceed the industry index return of 80.80%. As a result, the plan was not funded and on December 31, 2005, the Company redeemed the high performance stock for its fair value and each unit holder received their proportionate share of the nominal fair value of the plan.

New 2006, 2007 and 2008 plans have been established with a three-year valuation period ending December 31, 2006, 2007 and 2008, respectively. Awards under the 2006 plan, the 2007 plan and the 2008 plan were approved in January 2004, 2005 and 2006, respectively. The 2006 plan, 2007 plan and 2008 plan each have 5,000 shares of High Performance Common Stock with an aggregate initial purchase price of \$715,000, \$643,000 and \$725,000, respectively. As of June 30, 2006, the Company had received a net contribution of \$607,000, \$539,000 and \$709,000 under the 2006 plan, the 2007 plan and the 2008 plan, respectively. The purchase price of the High Performance Common Stock was established by the Company's Board of Directors based upon, among other things, an independent valuation from a major securities firm. The provisions of the 2006 plan, the 2007 plan and the 2008 plan are substantially the same as the prior plans.

In addition to these plans, a high performance unit program for senior executive officers has been established with three-year valuation periods ending December 31, 2005, 2006, 2007, 2008 and 2009, respectively. The provisions of these plans are substantially the same as the high performance unit programs for employees except that the plans are limited to 0.50% of the average monthly number of fully diluted shares of the Company's Common Stock during the valuation period.

The total shareholder return for the valuation period under the 2005 high performance unit program for executive officers was 63.38%, which exceeded the fixed performance threshold of 30%, but did not exceed the industry index return of 80.80%. As a result, the plan was not funded and on December 31, 2005, the Company redeemed the high performance stock for its fair value and each unit holder received their proportionate share of the nominal fair value of the plan.

The additional equity from the issuance of the High Performance Common Stock is recorded as a separate class of stock and included within shareholders' equity on the Company's Consolidated Balance Sheets. Net income allocable to common shareholders will be reduced by the HPU holders' share of dividends paid and undistributed earnings, if any.

401(k) Plan

Effective November 4, 1999, the Company implemented a savings and retirement plan (the "401(k) Plan"), which is a voluntary, defined contribution plan. All employees are eligible to participate in the 401(k) Plan following completion of three months of continuous service with the Company. Each participant may contribute on a pretax basis up to the maximum percentage of compensation and dollar amount permissible under Section 402(g) of the Internal Revenue Code not to exceed the limits of Code Sections 401(k), 404 and 415. At the discretion of the Board of Directors, the Company may make matching contributions on the participant's behalf of up to 50.00% of the first 10.00% of the participant's annual compensation. The Company made gross contributions of approximately \$100,000 and \$145,000 for the three months ended June 30, 2006 and 2005, respectively, and \$539,000 and \$513,000 for the six months ended June 30, 2006 and 2005, respectively.

iStar Financial Inc.**Notes to Consolidated Financial Statements (Continued)****Note 13 Earnings Per Share**

The following table presents a reconciliation of the numerators and denominators of the basic and diluted EPS calculations for the three and six months ended June 30, 2006 and 2005, respectively (in thousands, except per share data):
