MARKET ANNOUNCEMENT

Cemig: Aneel announces tariff reduction

We hereby notify the public that at its public meeting held on April 7 Aneel, the Brazilian National Electricity Agency, announced the result of the Second Tariff Review for Cemig, resulting in reduction of the tariffs of Cemig Distribuição S.A. from April 8, 2008, with average impact for consumers of a reduction of 12.24%, resulting from consideration of financial components. We emphasize that the application of this adjustment will not be uniform for all categories of consumers.

The result of the review reflects the current regulations, under which productivity gains, resulting from reduction of costs obtained in the recent years of the tariff cycle, must be passed through to the tariff charged to consumers. Hence, the result now announced is in line with the projections previously disclosed on various occasions with the aim of orienting the investor market on possible economic and financial impact of the tariff review, especially in relation to the financial indicator Ebitda (Earnings before Tax, Depreciation and Amortization).

We also inform the public that the additional reduction in relation to the initial figures previously published arises, in its greater part, from items of Portion A (components costs that are not controllable by the concession holder), which have to be passed through to the tariff in their entirety.

CONFERENCE CALL: I will be chairing a **conference call**, to explain this subject in greater detail, on **April 8, 2008, at 9 a.m.**

To take part please use the phone number **+55 11 5688 6301**.
