(1) Other than our investments in R3 Education, Inc., HCP Acquisition Holdings, LLC, Ivy Hill Middle Market Credit Fund, Ltd., LVCG Holdings LLC, Reflexite Corporation and The Thymes, LLC, we do not Control any of our portfolio companies, as defined in the Investment Company Act. In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments are subject to legal restrictions on sales which as of September 30, 2008 represented 168% of the Company's net assets.

(2) These assets are owned by the Company's wholly owned subsidiary Ares Capital CP, are pledged as collateral for the CP Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP's obligations under the CP Funding Facility (see Note 7 to the consolidated financial statements).

(3) Pledged as collateral for the ARCC CLO. Unless otherwise noted, all other investments are pledged as collateral for the Revolving Credit Facility (see Note 7 to the consolidated financial statements).

(4) Has a payment-in-kind interest feature (see Note 2 to the consolidated financial statements).

(5) Non-income producing at September 30, 2008.

(6) As defined in the Investment Company 1940 Act, we are an Affiliate of this portfolio company because we own 5% or more of the portfolio company's outstanding voting securities or we have the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions during the period for the nine months ended September 30, 2008 in which the issuer was an Affiliate (but not a portfolio company that we Control) are as follows (in thousands):

(8) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

(9) Non-registered investment company.

(10) A majority of the variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either Libor or an alternate Base Rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect at September 30, 2008.

(11) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$23.0 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.

(12) Principal amount denominated in Canadian dollars has been translated into U.S. dollars (see Note 2 to the consolidated financial statements).

(13) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$25.0 million aggregate principal amount of the portfolio company's senior term debt previously syndicated by us.

(14) Loan was on non-accrual status as of September 30, 2008.

ARES CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of September 30, 2008 (unaudited)

(dollar amounts in thousands, except per share data and as otherwise indicated)

1. ORGANIZATION

Ares Capital Corporation (the Company or ARCC or we) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940 (the Investment Company Act). We were incorporated on April 16, 2004 and were initially funded on June 23, 2004. On October 8, 2004, we completed our initial public offering (the IPO). On the same date, we commenced substantial investment operations.

The Company has qualified and has elected to be treated for tax purposes as a regulated investment company, or a RIC , under the Internal Revenue Code of 1986, as amended (the Code). The Company expects to continue to qualify to be treated for tax purposes as a RIC. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases may include an equity component, and, to a lesser extent, in equity investments in private middle market companies.

We are externally managed by Ares Capital Management LLC (the Investment Adviser), an affiliate of Ares Management LLC (Ares Management), an independent international investment management firm. Ares Operations LLC (Ares Administration), an affiliate of Ares Management, provides the administrative services necessary for us to operate pursuant to an amended and restated administration agreement (the Administration Agreement).

Interim financial statements are prepared in accordance with generally accepted accounting principles in the United States (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period, have been included. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2008.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Table of Contents

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are computed using the specific identification method. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our management and audit committee and independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, with approximately a quarter of our valuations of portfolio companies without readily available market quotations subject to review by an independent valuation firm.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, based on the input of our management and audit committee and independent valuation firms under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have previously recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.

- Preliminary valuation conclusions are then documented and discussed by our management.

- The audit committee of our board of directors reviews these preliminary valuations, as well as the input of independent valuation firms with respect to the valuations of approximately a quarter of our portfolio companies without readily available market quotations.

- The board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our management and audit committee and independent valuation firms.

Effective January 1, 2008, the Company adopted SFAS 157, which expands the application of fair value accounting for investments (see Note 8).

Table of Contents

Interest Income Recognition

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectibility. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection. As of September 30, 2008, 3.2% of total investments at amortized cost (or 1.0% at fair value), were on non-accrual status. As of December 31, 2007, 1.2% of total investments at amortized cost (or 0.9% at fair value), were on non-accrual status.

Payment-in-Kind Interest

The Company has loans in its portfolio that contain a payment-in-kind (PIK) provision. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash. For the three and nine months ended September 30, 2008, \$9,735 and \$22,614 in PIK income was recorded. For the three and nine months ended September 30, 2007, \$4,281 and \$10,015 in PIK income was recorded.

Capital Structuring Service Fees and Other Income

The Company's Investment Adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's Investment Adviser provides vary by investment, but generally consist of reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's Investment Adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, consulting, loan guarantees, commitments, and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.

- (2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause

Table of Contents

investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Offering Expenses

The Company's offering costs are charged against the proceeds from equity offerings when received. For the nine months ended September 30, 2008, the Company incurred approximately \$1,414 of offering costs.

Debt Issuance Costs

Debt issuance costs are being amortized over the life of the related credit facility using the straight line method, which closely approximates the effective yield method.

Federal Income Taxes

The Company has qualified and elected and intends to continue to qualify for the tax treatment applicable to RICs under Subchapter M of the Code and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will relieve the Company from Federal income taxes. In order to qualify as a RIC, among other factors, the Company is required to timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended September 30, 2008, the Company recorded a benefit of \$135 for Federal excise tax. For the nine months ended September 30, 2008, the Company recorded a benefit of approximately \$434 for Federal excise tax. For the three and nine months ended September 30, 2007, the Company recorded a benefit of approximately \$34 and \$64, respectively, for Federal excise tax.

Certain of our wholly owned subsidiaries are subject to Federal and state income taxes. For the three and nine months ended September 30, 2008, we recorded tax provisions of approximately \$17 and \$132, respectively, for these subsidiaries. For the three and nine months ended September 30, 2007, we recognized tax benefits of approximately \$45 and \$48, respectively, for these subsidiaries.

Dividends

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of our distributions on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. While we generally use primarily newly issued shares to implement the plan (especially if our shares are trading at a premium to net asset value), we may purchase shares in the open market in connection with our obligations under the plan. In particular, if our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

New Accounting Pronouncements

On October 10, 2008, FASB Staff Position No. 157-3 *Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active*, or FSP 157-3, was issued. FSP 157-3 provides an illustrative example of how to determine the fair value of a financial asset in an inactive market. FSP 157-3 does not change the fair value measurement principles set forth in SFAS 157 (see Note 8 for a description of SFAS 157). Since adopting SFAS 157 in January 2008, our process for determining the fair value of our investments has been, and continues to be, consistent with the guidance provided in the example in FSP 157-3. As a result, the adoption of FSP 157-3 did not affect our process for determining the fair value of our investments and does not have a material effect on our financial position or results of operations.

3. AGREEMENTS

The Company is party to an investment advisory agreement (the Advisory Agreement) with the Investment Adviser under which the Investment Adviser, subject to the overall supervision of our board of directors, provides investment advisory services to the Company. For providing these services, the Investment Adviser receives a fee from us, consisting of two components—a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 1.5% of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds). The base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters.

The incentive fee has two parts. One part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with payment-in-kind interest, preferred stock with payment-in-kind dividends and zero coupon securities, accrued income that we have not yet received in cash. The Investment Adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never received as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets (defined as total assets less indebtedness) at the end of the immediately preceding calendar quarter, is compared to a fixed hurdle rate of 2.00% per quarter.

We pay the Investment Adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

- no incentive fee in any calendar quarter in which the pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.50% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.50%) as the catch-up provision. The catch-up is meant to provide our Investment Adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeds 2.50% in any calendar quarter; and

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

- 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.50% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee (the Capital Gains Fee) is determined and payable in arrears as of the end of each calendar year (or, upon termination of the Advisory Agreement, as of the termination date), and is calculated at the end of each applicable year by subtracting (a) the sum of the Company's cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (b) the Company's cumulative aggregate realized capital gains, in each case calculated from October 8, 2004. If such amount is positive at the end of such year, then the Capital Gains Fee for such year is equal to 20.0% of such amount, less the aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee for such year.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Company's portfolio when sold and (b) the accreted or amortized cost basis of such investment.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Table of Contents

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the Company's portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in the Company's portfolio as of the applicable Capital Gains Fee calculation date and (b) the accreted or amortized cost basis of such investment.

We defer cash payment of any incentive fee otherwise earned by the Investment Adviser if during the most recent four full calendar quarter periods ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to the stockholders of the Company and (b) the change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 8.0% of our net assets at the beginning of such period. These calculations were appropriately pro rated during the first three calendar quarters following October 8, 2004 and are adjusted for any share issuances or repurchases.

For the three and nine months ended September 30, 2008, we incurred \$7,963 and \$22,729, respectively, in base management fees and \$8,205 and \$23,713, respectively, in incentive management fees related to pre-incentive fee net investment income. For the three and nine months ended September 30, 2008, we accrued no incentive management fees related to net realized capital gains. As of September 30, 2008, \$25,183 was unpaid and included in management and incentive fees payable in the accompanying consolidated balance sheet. Payment of \$17,220 in incentive management fees for the nine months ended September 30, 2008 will be deferred pursuant to the Advisory Agreement.

For the three and nine months ended September 30, 2007, we incurred \$6,159 and \$17,062, respectively, in base management fees and \$5,966 and \$16,949, respectively, in incentive management fees related to pre-incentive fee net investment income. For the three and nine months ended September 30, 2007, we accrued no incentive management fees related to net realized capital gains.

We are also party to a separate Administration Agreement with Ares Administration under which Ares Administration furnishes us with office equipment and clerical, bookkeeping and record keeping services at our office facilities. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of Ares Administration's overhead in performing its obligations under the Administration Agreement, including our allocable portion of the cost of our officers and their respective staffs. Under the Administration Agreement, Ares Administration also performs or oversees the performance of our required administrative services, which include, among other things, being responsible for the financial records which we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Administration assists us in determining and publishing the net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Under the Administration Agreement, Ares Administration also provides, on our behalf, managerial assistance to those portfolio companies to which we are required to provide such assistance. The Administration Agreement may be terminated by either party without penalty upon 60-days' written notice to the other party.

For the three and nine months ended September 30, 2008, we incurred \$802 and \$1,702, respectively, in administrative fees. As of September 30, 2008, \$802 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

For the three and nine months ended September 30, 2007, we incurred \$291 and \$736, respectively, in administrative fees.

4. EARNINGS PER SHARE

The following information sets forth the computation of basic and diluted net increase in stockholders' equity per share resulting from operations for the three and nine months ended September 30, 2008:

	Three months ended September 30, 2008	Nine months ended September 30, 2008
Numerator for basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ (41,393)	\$ (28,955)
Denominator for basic and diluted net increase in stockholders' equity resulting from operations per share:	97,152,820	87,152,501
Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ (0.43)	\$ (0.33)

Table of Contents

The following information sets forth the computation of basic and diluted net increase in stockholders' equity per share resulting from operations for the three and nine months ended September 30, 2007:

	Three months ended September 30, 2007	Nine months ended September 30, 2007
Numerator for basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ 22,924	\$ 80,081
Denominator for basic and diluted net increase in stockholders' equity resulting from operations per share:	72,059,957	65,522,194
Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ 0.32	\$ 1.22

In accordance with Statement of Financial Accounting Standards No. 128, Earnings per Share (SFAS 128), the weighted average shares of common stock outstanding used in computing basic and diluted net increase in stockholders' equity resulting from operations per share for the three and nine months ended September 30, 2007 and the nine months ended September 30, 2008 have been adjusted retroactively by a factor of 1.02% to recognize the bonus element associated with rights to acquire shares of common stock that were issued to stockholders of record as of March 24, 2008. See Note 11 for more information on the transferable rights offering.

5. INVESTMENTS

Under the Investment Company Act, we are required to separately identify non-controlled investments where we own more than 5% of a portfolio company's outstanding voting securities as affiliated companies. In addition, under the Investment Company Act, we are required to separately identify investments where we own more than 25% of a portfolio company's outstanding voting securities as control affiliated companies. We had no existing control relationship with any of the portfolio companies identified as affiliated companies or control affiliated companies prior to making the indicated investment.

For the three months ended September 30, 2008, the Company funded \$95.5 million aggregate principal amount of senior term debt, \$117.8 million aggregate principal amount of senior subordinated debt and \$22.6 million of investments in equity securities.

In addition, for the three months ended September 30, 2008, \$112.5 million aggregate principal amount of senior term debt and \$19.5 million of senior subordinated debt were redeemed. Additionally, \$22.1 million aggregate principal amount of senior term debt and \$6.4 million of investments in equity securities were sold.

As of September 30, 2008, investments and cash and cash equivalents consisted of the following:

	Amortized Cost	Fair Value
Cash and cash equivalents	\$ 61,409	\$ 61,409
Senior term debt	1,185,316	1,128,413

6. COMMITMENTS AND CONTINGENCIES

As of September 30, 2008 and December 31, 2007, the Company had the following commitments to fund various revolving senior secured and subordinated loans:

	September 30, 2008	December 31, 2007
Total revolving commitments	\$ 457,200	\$ 323,600
Total unfunded revolving commitments	\$ 275,400	\$ 244,400

Of the \$275,400 total unfunded revolving commitments as of September 30, 2008, funding for \$35,100 was substantially at the discretion of the Company and funding for \$24,800 was not available under the agreements governing such commitments due to borrowing base or other covenant restrictions, resulting in net adjusted unfunded revolving commitments of \$215,500.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Of the total commitments as of September 30, 2008, \$378,400 extend beyond the maturity date for our Revolving Credit Facility (as defined in Note 7). Included within the total commitments as of September 30, 2008 are commitments to issue up to \$15,900 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies.

Under these arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of September 30, 2008, the Company had \$12,700 in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability. Of these letters of credit, \$300 expire on January 31, 2009, \$4,700 expire on February 28, 2009, \$100 expire on April 1, 2009, \$7,100 expire on September 30, 2009 and \$500 expire on August 31, 2010. These letters of credit may be extended under substantially similar terms for additional one-year terms at the Company's option until the Revolving Credit Facility, under which the letters of credit were issued, matures on December 28, 2010.

As of September 30, 2008 and December 31, 2007, the Company was subject to subscription agreements to fund equity investments in private equity investment partnerships, substantially all at the discretion of the Company, as follows:

Table of Contents

	September 30, 2008	December 31, 2007
Total private equity commitments	\$ 428,600	\$ 111,800
Total unfunded private equity commitments	\$ 424,000	\$ 110,500

7. BORROWINGS

In accordance with the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of September 30, 2008, our asset coverage for borrowed amounts was 238%.

Our debt obligations consisted of the following as of September 30, 2008 and December 31, 2007:

	September 30, 2008	December 31, 2007
Revolving Credit Facility	\$ 485,152	\$ 282,528
CP Funding Facility	103,000	85,000
Debt Securitization	314,000	314,000
Total	\$ 902,152	\$ 681,528

The weighted average interest rate of all our debt obligations as of September 30, 2008 and December 31, 2007 was 4.01% and 5.66%, respectively.

CP Funding Facility

On October 29, 2004, we formed Ares Capital CP Funding LLC (Ares Capital CP), a wholly owned subsidiary of the Company, through which we established a revolving credit facility (the CP Funding Facility). On November 3, 2004 (the Facility Effective Date), we entered into the CP Funding Facility that, as amended, allows Ares Capital CP to issue up to \$350,000 of variable funding certificates (VFC). As of September 30, 2008, there was \$103,000 outstanding under the CP Funding Facility and the Company continues to be in compliance with all of the limitations and requirements of the CP Funding Facility. As of December 31, 2007, there was \$85,000 outstanding under the CP Funding Facility.

On July 22, 2008, we entered into an amendment to the CP Funding Facility to, among other things, extend its maturity, decrease the availability and advance rates applicable to certain types of eligible loans and make certain provisions of the facility more restrictive. The Company paid a renewal fee of 0.786% of the total amount available for borrowing, or \$2.75 million.

The CP Funding Facility is scheduled to expire on July 21, 2009. The CP Funding Facility is secured by all of the assets held by Ares Capital CP, which as of September 30, 2008 consisted of 28 investments.

The interest charged on the VFC is based on the commercial paper, eurodollar or adjusted eurodollar rate plus 2.50%. Prior to July 22, 2008, the interest charged was based on the commercial paper rate plus 1.00%. The interest charged on the VFC is payable quarterly. As of September 30, 2008 and December 31, 2007, the commercial paper rate was 3.3604% and 5.1147%, respectively. For the three and nine months ended September 30, 2008, the average interest rates (i.e. commercial paper rate plus the spread) were 4.98% and 4.55%, respectively. For the three and nine months ended September 30, 2008, the average outstanding balances were \$65,058 and \$82,370, respectively. For the three and nine months ended September 30, 2007, the average interest rate (i.e. commercial paper rate plus the spread) was 6.22% and 6.10%, respectively. For the three and nine months ended September 30, 2007, the average outstanding balances were \$85,000 and \$89,407, respectively.

For the three and nine months ended September 30, 2008, the interest expense incurred on the CP Funding Facility was \$1,105 and \$2,429, respectively. For the three and nine months ended September 30, 2007, the interest expense incurred on the CP Funding Facility was \$1,350 and \$4,145, respectively. Cash paid for interest expense during the nine months ended September 30, 2008 and 2007 was \$2,653 and \$2,935, respectively.

The Company is also required to pay a commitment fee for any unused portion of the CP Funding Facility. The commitment fee is equal to 0.5% per annum for any unused portion of the CP Funding Facility. Prior to July 22, 2008, the commitment fee was 0.125% per annum calculated based on an amount equal to \$200,000 less the borrowings outstanding under the CP Funding Facility. For the three and nine months ended September 30, 2008, the commitment fees incurred on the CP Funding Facility were \$260 and \$351, respectively. For the three and nine months ended September 30, 2007, the commitment fees incurred on the CP Funding Facility were \$37 and \$105, respectively.

Table of Contents

Revolving Credit Facility

In December 2005, we entered into a senior secured revolving credit facility (the *Revolving Credit Facility*) under which, as amended, the lenders have agreed to extend credit to the Company in an aggregate principal amount not exceeding \$510,000 at any one time outstanding. The *Revolving Credit Facility* expires on December 28, 2010 and with certain exceptions is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the CP Funding Facility and those held as a part of the Debt Securitization, discussed below) which as of September 30, 2008 consisted of 140 investments.

The *Revolving Credit Facility* also includes an *accordion* feature that allows us to increase the size of the *Revolving Credit Facility* to a maximum of \$765,000 under certain circumstances. As of September 30, 2008, there was \$485,152 outstanding under the *Revolving Credit Facility* and the Company continues to be in compliance with all of the limitations and requirements of the *Revolving Credit Facility*. As of December 31, 2007, there was \$282,528 outstanding under the *Revolving Credit Facility*.

The interest charged under the *Revolving Credit Facility* is generally based on LIBOR (one, two, three or six month) plus 1.00%. As of September 30, 2008, the one, two, three and six month LIBOR were 3.93%, 3.97%, 4.05% and 3.98%, respectively. As of December 31, 2007, the one, two, three and six month LIBOR were 4.60%, 4.65%, 4.70% and 4.60%, respectively. For the three and nine months ended September 30, 2008, the average interest rate was 3.77% and 4.28%, respectively, the average outstanding balance was \$485,497 and \$413,387, respectively, and the interest expense incurred was \$4,602 and \$13,279, respectively. Cash paid for interest expense during the nine months ended September 30, 2008 was \$13,963. For the three and nine months ended September 30, 2007, the average interest rate was 6.43% and 6.55%, respectively, the average outstanding balance was \$160,060 and \$133,423, respectively, and the interest expense incurred was \$2,595 and \$6,534, respectively. Cash paid for interest expense during the nine months ended September 30, 2007 was \$6,871. The Company is also required to pay a commitment fee of 0.20% for any unused portion of the *Revolving Credit Facility*. For the three and nine months ended September 30, 2008, the commitment fees incurred were \$179 and \$436, respectively. For the three and nine months ended September 30, 2007, the commitment fees incurred were \$84 and \$274, respectively.

The amount available for borrowing under the *Revolving Credit Facility* is reduced by any standby letters of credit issued through the *Revolving Credit Facility*. As of September 30, 2008, the Company had \$13,100 in standby letters of credit issued through the *Revolving Credit Facility*. As of December 31, 2007, the Company had \$11,400 in standby letters of credit issued through the *Revolving Credit Facility*.

As of September 30, 2008, the Company had a non-U.S. borrowing on the *Revolving Credit Facility* denominated in Canadian dollars. As of September 30, 2008 and December 31, 2007, unrealized appreciation on this borrowing was \$1,698 and \$822, respectively.

Debt Securitization

On July 7, 2006, through our wholly owned subsidiary, ARCC CLO 2006 LLC (*ARCC CLO*), we completed a \$400,000 debt securitization (the *Debt Securitization*) and issued approximately \$314,000 principal amount of asset-backed notes (including \$50,000 of revolving notes, all of which were drawn down as of September 30, 2008) (the *CLO Notes*) to third parties that were secured by a pool of middle market loans that have been purchased or originated by the Company. The *CLO Notes* are included in the September 30, 2008 consolidated balance sheet. We retained approximately \$86,000 of aggregate principal amount of certain BBB and non-rated securities in the *Debt Securitization* (the *Retained*

- (1) Revolving class, all of which was drawn as of September 30, 2008.

As of September 30, 2008, there were 41 investments securing the notes. The interest charged under the Debt Securitization is based on 3-month LIBOR, which as of September 30, 2008 was 4.05% and as of December 31, 2007 was 4.70%. For the three and nine months ended September 30, 2008, the effective average interest rates were 3.30% and 3.77%, respectively. For the three and nine months ended September 30, 2008, we incurred \$2,612 and \$8,877 of interest expense, respectively. Cash paid for interest expense during the nine months ended September 30, 2008 was \$9,068. For the three and nine months ended September 30, 2007, the effective average interest rates were 5.76% and 5.77%, respectively. For the three and nine months ended September 30, 2007, we incurred \$4,561 and \$12,806 of interest expense, respectively. Cash paid for interest expense during the nine months ended September 30, 2007 was \$12,808. The Company is also required to pay a commitment fee of 0.175% for any unused portion of the Class A-1A VFN Notes. There were no commitment fees incurred for the three and nine months ended September 30, 2008. For the three and nine months ended September 30, 2007, the commitment fees incurred were \$23 on these notes.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of the Company's financial instruments approximate fair value. Effective January 1, 2008, the company adopted Statement of Financial Accounting Standards No. 159, the Fair Value Option for Financial Assets and Liabilities (SFAS 159), which provides companies with an option to report selected financial assets and liabilities at fair value. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. SFAS 159 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. With the exception of the line items entitled other assets and debt, all assets and liabilities approximate fair value on the balance sheet. The carrying value of the line items entitled interest receivable, receivable for open trades, payable for open trades, accounts payable and accrued expenses, management and incentive fees payable and interest and facility fees payable approximate fair value due to their short maturity.

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), which expands application of fair value accounting. SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure of fair value measurements. SFAS 157 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. SFAS 157 requires the Company to assume that the portfolio investment is sold in a principal market to market participants, or in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with SFAS 157, the Company has considered its principal market as the market in which the Company exits its portfolio investments with the greatest volume and level of activity. SFAS 157 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with SFAS 157, these inputs are summarized in the three broad levels listed below:

- Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the valuation policy approved by our board of directors that is consistent with SFAS 157 (see Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. Our valuation policy considers the fact that because there is not a readily available market value for most of the investments in our portfolio, the fair value of the investments must typically be determined using unobservable inputs.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have previously recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned.

9. RELATED PARTY TRANSACTIONS

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In accordance with the Advisory Agreement, we bear all costs and expenses of the operation of the Company and reimburse the Investment Adviser for all such costs and expenses incurred in the operation of the Company. For the three and nine months ended September 30, 2008, the Investment Adviser incurred such expenses totaling \$442 and \$1,448, respectively. For the three and nine months ended September 30, 2007, the Investment Adviser incurred such expenses totaling \$576 and \$1,421, respectively. As of September 30, 2008, \$214 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

During 2006, we entered into a sublease agreement with Ares Management whereby Ares Management subleases approximately 25% of the office facilities that we lease, for a fixed rent equal to 25% of the basic annual rent payable by us under our lease, plus certain additional costs and expenses. For the three and nine months ended September 30, 2008, such amounts payable to the Company totaled \$51 and \$171, respectively. For the three and nine months ended September 30, 2007, such amounts payable to the Company totaled \$66 and \$200, respectively. As of September 30, 2008, there were no unpaid amounts.

As of September 30, 2008, Ares Investments, an affiliate of the Investment Adviser, owned 2,859,882 shares of the Company's common stock representing approximately 2.9% of the total shares outstanding as of September 30, 2008.

See Notes 3 and 10 for descriptions of other related party transactions.

Table of Contents**10. INVESTMENT IN IVY HILL MIDDLE MARKET CREDIT FUND LTD.**

On November 19, 2007, we established a middle market credit fund, Ivy Hill Middle Market Credit Fund, Ltd. (Ivy Hill), which is managed by our wholly owned subsidiary Ivy Hill Asset Management, L.P. in exchange for a 0.50% management fee on the average total assets of Ivy Hill. As of September 30, 2008, the total assets of Ivy Hill were approximately \$347,000. For the three and nine months ended September 30, 2008, the Company earned \$412 and \$992, respectively, in management fees. Ivy Hill primarily invests in first and second lien bank debt of middle market companies. Ivy Hill was initially funded with \$404,000 of capital, including a \$56,000 investment by the Company consisting of \$40,000 of Class B notes and \$16,000 of subordinated notes. For the three and nine months ended September 30, 2008, the Company earned \$1,652 and \$4,043, respectively, from its investments in Ivy Hill.

Ivy Hill purchased \$22,104 and \$63,980, respectively, of investments from the Company during the three and nine months ended September 30, 2008. There was no gain or loss recognized by the Company on these transactions.

11. STOCKHOLDERS EQUITY

On April 28, 2008, we completed a transferable rights offering, issuing 24,228,030 shares at a subscription price of \$11.0016 per share, less dealer manager fees of \$0.22 per share. Net proceeds after deducting the dealer manager fees and estimated offering expenses were approximately \$259,800. Ares Investments, an affiliate of the Investment Adviser, purchased 1,643,215 shares in the rights offering, bringing its total shares owned to 2,859,882 shares of common stock, representing approximately 2.9% of the total shares outstanding as of September 30, 2008.

The following table summarizes the total shares issued and proceeds we received net of underwriter, dealer manager and offering costs for the nine months ended September 30, 2008 and September 30, 2007 (in millions, except per share data):

share for the nine months ended September 30, 2007, divided by the beginning net asset value during the period. These calculations are adjusted for shares issued in connection with the dividend reinvestment plan and the issuance of common stock in connection with any equity offerings. Total return based on net asset value is not annualized. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.

(5) The ratios reflect an annualized amount.

(6) For the nine months ended September 30, 2008, the ratio of operating expenses to average net assets consisted of 2.40% of base management fees, 2.51% of incentive management fees, 2.81% of the cost of borrowing and other operating expenses of 1.08%. For the nine months ended September 30, 2007, the ratio of operating expenses to average net assets consisted of 2.27% of base management fees, 2.26% of incentive management fees, 3.39% of the cost of borrowing and other operating expenses of 1.04%. These ratios reflect annualized amounts.

(7) The ratio of net investment income to average net assets excludes income taxes related to realized gains.

14. SUBSEQUENT EVENTS

In October 2008, we entered into a two-year interest rate swap agreement for a total notional amount of \$75 million. Under the interest rate swap agreement, we will pay a fixed interest rate of 2.985% and receive a floating rate based on the prevailing three-month LIBOR. We believe that this agreement will enable us to mitigate interest rate risk and remain match funded.

On November 3, 2008, we applied for an exemptive order from the Securities and Exchange Commission (the "SEC") that would permit us to co-invest with funds managed by Ares Management LLC, including the Ares Capital Markets group. Any such order will be subject to certain terms and conditions. There is no assurance that the application for exemptive relief will be granted by the SEC. Accordingly, we cannot assure you that the Company will be permitted to co-invest with funds managed by Ares.

On November 5, 2008, we established a new middle market credit fund, Ivy Hill Middle Market Credit Fund II, Ltd. ("Ivy Hill II" or the "Fund") which will be managed by Ivy Hill Asset Management, L.P., our wholly owned subsidiary. It is anticipated that the size of the Fund will be \$250 million, and may grow over time with leverage.

We expect the Fund will be an active purchaser of first lien and second lien bank debt and mezzanine securities of middle market companies, originated by both us and other third-parties. Subject to certain approvals and restrictions, we may, in the near future, sell to the Fund up to \$75 million of investments and in the future may from time to time sell additional loans and investments to the Fund.

- the impact of fluctuations in interest rates on our business;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- our ability to recover unrealized losses;
- our ability to access alternative debt markets and additional capital;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;

- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital;
- the timing and amount of dividend distributions;
- the timing of cash flows, if any, from the operations of our portfolio companies; and
- the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as anticipates, believes, expects, intends, will, should, may and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason. We have based the forward-looking statements included in this report on information available to us on the date of this report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company (a BDC) under the Investment Company Act of 1940 (the Investment Company Act). We were founded on April 16, 2004 and were initially funded on June 23, 2004 and on October 8, 2004 completed our initial public offering (the IPO).

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component, and, to a lesser extent, in equity investments in private middle market companies.

We are externally managed by Ares Capital Management LLC (the Investment Adviser), an affiliate of Ares Management LLC, an independent international investment management firm, pursuant to an investment advisory agreement (the Advisory Agreement). Ares Operations LLC

(Ares Administration), an affiliate of Ares Management LLC, provides the

Table of Contents

administrative services necessary for us to operate.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities and indebtedness of private U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

We have qualified and elected to be treated as a regulated investment company, or a RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). To continue to qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders.

- (1) New investment commitments includes new agreements to fund revolving credit facilities or delayed draw loans.
- (2) Number of new investments represents each commitment to a particular portfolio company.
- (3) When we refer to the weighted average yield in this report, we compute it with respect to particular securities by taking the (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount earned on accruing debt included in such securities, and dividing it by (b) total debt and income producing securities at fair value included in such securities.

The Investment Adviser employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, the Investment Adviser grades all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended to reflect the performance of the portfolio company's business, the collateral coverage of the investment and other factors considered relevant. Under this system, investments with a grade of 4 involve the least amount of risk in our portfolio. The portfolio company is performing above expectations and the trends and risk factors are generally favorable, including a potential exit. Investments graded 3 involve a level of risk that is similar to the risk at the time of origination. The portfolio company is performing as expected and the risk factors are neutral to favorable. All new investments are initially graded 3. Investments graded 2 involve a portfolio company performing below expectations and indicates that the

Table of Contents

investment s risk has increased materially since origination. The portfolio company may be out of compliance with debt covenants, however, payments are generally not more than 120 days past due. For investments graded 2, we increase procedures to monitor the portfolio company and we will write down the fair value of the investment if it is deemed to be impaired. An investment grade of 1 indicates that the portfolio company is performing materially below expectations and that the investment risk has substantially increased since origination. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Investments graded 1 are not anticipated to be repaid in full and we will reduce the fair market value of the investment to the amount we anticipate will be recovered. The Investment Adviser employs half-point increments to reflect underlying trends in portfolio company operating or financial performance, as well as the general outlook. As of September 30, 2008, the weighted average investment grade of the investments in our portfolio was 2.9 with 3.2% of total investments at amortized cost (or 1.0% at fair value) on non-accrual status. The weighted average investment grade of the investments in our portfolio as of December 31, 2007 was 3.0. The distribution of the grades of our portfolio companies as of September 30, 2008 and December 31, 2007 is as follows (dollar amounts in thousands):

	September 30, 2008		December 31, 2007	
	Fair Value	Number of Companies	Fair Value	Number of Companies
Grade 1	\$ 57,828	6	\$ 13,927	1
Grade 2	163,106	7	115,585	6
Grade 3	1,719,116	70	1,581,811	66
Grade 4	153,644	7	62,879	3
	\$ 2,093,694	90	\$ 1,774,202	76

As of September 30, 2008, the weighted average yield of the debt and income producing securities in our portfolio was approximately 12.26%. As of September 30, 2008, the weighted average yield on our entire portfolio was 10.73% and the weighted average yield on our senior term debt, senior subordinated debt and income producing securities was 11.50%, 13.95% and 11.01%, respectively. Of the senior term debt, as of September 30, 2008, the weighted average yield attributable to first lien senior term debt and second lien senior term debt was 10.26% and 13.21%, respectively.

As of December 31, 2007, the weighted average yield of the debt and income producing securities in our portfolio was approximately 11.68%. As of December 31, 2007, the weighted average yield on our entire portfolio was 10.22% and the weighted average yield on our senior term debt, senior subordinated debt and income producing securities was 11.19%, 13.23% and 10.36%, respectively. Of the senior term debt, as of December 31, 2007, the weighted average yield attributable to first lien senior term debt and second lien senior term debt was 10.53% and 12.38%, respectively.

The weighted average yield on our debt and income producing securities was higher as of September 30, 2008 compared to the weighted average yield on our debt and income producing securities as of December 31, 2007 primarily because of the addition of a higher percentage of higher yielding investments during the nine months ended September 30, 2008, partially offset by the decline in LIBOR since December 31, 2007.

Investment Income

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

For the three months ended September 30, 2008, total investment income increased \$14.1 million, or 30%, over the three months ended September 30, 2007. For the three months ended September 30, 2008, total investment income consisted of \$56.3 million in interest income from investments, \$3.3 million in capital structuring service fees, \$0.8 million in dividend income, \$1.4 million in other income and \$0.3 million in interest income from cash and cash equivalents. Interest income from investments increased \$13.4 million, or 31%, to \$56.3 million for the three months ended September 30, 2008 from \$42.9 million for the comparable period in 2007. The increase in interest income from investments was primarily due to the increase in the overall size of the portfolio. The average investments, at fair value, for the quarter increased from \$1.6 billion for the three months ended September 30, 2007 to \$2.1 billion for the comparable period in 2008. Capital structuring service fees increased \$0.6 million, or 23%, to \$3.3 million for the three months ended September 30, 2008 from \$2.7 million for the comparable period in 2007. The increase in capital structuring service fees was primarily due to the increase in new investment commitments for the three months ended September 30, 2008 as compared to the three months ended September 30, 2007.

For the nine months ended September 30, 2008, total investment income increased \$42.7 million, or 32%, over the nine months ended September 30, 2007. For the nine months ended September 30, 2008, total investment income consisted of \$151.9 million in interest income from investments, \$18.6 million in capital structuring service fees, \$1.9 million in dividend income, \$4.1 million in other income and \$1.3 million in interest income from cash and cash equivalents. Interest income from investments increased \$35.4 million, or 30%, to \$151.9 million for the nine months ended September 30, 2008 from \$116.5 million for the comparable period in 2007. The increase in interest income from investments was primarily due to the increase in the overall size of the portfolio. The average investments, at fair value, for the period increased from \$1.4 billion for the nine months ended September 30, 2007 to \$2.0 billion for the comparable period in 2008. Capital structuring service fees increased \$6.2 million, or 50%, to \$18.6 million for the nine months ended September 30, 2008 from \$12.4 million for the comparable period in 2007. The increase in capital structuring service fees was primarily due to the increase in fee percentages as a result of more favorable market conditions.

Operating Expenses

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

For the three months ended September 30, 2008, total expenses increased \$5.3 million, or 22%, over the three months ended September 30, 2007. Base management fees increased \$1.8 million, or 29%, to \$8.0 million for the three months ended September 30, 2008 from \$6.2 million for the comparable period in 2007, primarily due to the increase in the size of the portfolio. Incentive management fees related to pre-incentive fee net investment income increased \$2.2 million, or 38%, to \$8.2 million for the three months ended September 30, 2008 from \$6.0 million for the comparable period in 2007, primarily due to the increase in the size of the portfolio and the related increase in net investment income. Payment of \$8.2 million in incentive management fees for the three months ended September 30, 2008 will be deferred pursuant to the Advisory Agreement. Interest expense and credit facility fees increased \$0.2 million, or 2%, to \$9.5 million for the three months ended September 30, 2008 from \$9.4 million for the comparable period in 2007, primarily due to the increase in the average outstanding borrowings offset by the lower average cost of debt. The average cost of debt for the three months ended September 30, 2008 was 3.74% compared to the average cost of debt of 6.04% for the comparable period in 2007 due to the significant decrease in LIBOR over the period. There were \$882.5 million in average outstanding borrowings during the three months ended September 30, 2008 compared to average outstanding borrowings of \$559.1 million in the comparable period in 2007.

For the nine months ended September 30, 2008, total expenses increased \$15.9 million, or 24%, over the nine months ended September 30, 2007. Base management fees increased \$5.7 million, or 33%, to \$22.8 million for the nine months ended September 30, 2008 from \$17.1 million for the comparable period in 2007, primarily due to the increase in the size of the portfolio. Incentive management fees related to pre-incentive fee net investment income increased \$6.8 million, or 40%, to \$23.7 million for the nine months ended September 30, 2008 from \$16.9 million for the comparable period in 2007, primarily due to the increase in the size of the portfolio and the related increase in net investment income. Interest expense and credit facility fees increased \$1.1 million, or 4%, to \$26.6 million for the nine months ended September 30, 2008 from \$25.5 million for the comparable period in 2007, primarily due to the increase in the average outstanding borrowings offset by the lower average cost of debt. There were \$794.1 million in average outstanding borrowings during the nine months ended September 30, 2008 compared to average outstanding borrowings of \$520.5 million in the comparable period in 2007. The average cost of debt for the nine months ended September 30, 2008 was 3.71% compared to the average cost of debt of 6.03% for the comparable period in 2007 due to the significant decrease in LIBOR over the period.

Income Tax Expense, Including Excise Tax

The Company has qualified and elected and intends to continue to qualify for the tax treatment applicable to RICs under Subchapter M of the Code, and, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess

of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three months ended September 30, 2008, the Company recorded a \$0.1 million benefit for Federal excise tax. For the nine months ended September 30, 2008, the Company recorded a benefit of \$0.4 million for Federal excise tax. For the three and nine months ended September 30, 2007, the Company recorded a benefit of approximately \$0.1 million.

Certain of our wholly owned subsidiaries are subject to federal and state income taxes. For the three and nine months ended September 30, 2008, we recorded tax provisions of approximately \$0.1 million for these subsidiaries. For the three and nine months ended September 30, 2007, we recognized tax benefits of approximately \$0.1 million for these subsidiaries.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Since the Company's inception, the Company's liquidity and capital resources have been generated primarily from the net proceeds of public offerings of common stock, the Debt Securitization, advances from the CP Funding Facility and the Revolving Credit Facility, as well as cash flows from operations.

As of September 30, 2008, the Company had \$61.4 million in cash and cash equivalents and \$902.2 million in total debt outstanding. Subject to leverage restrictions, the Company had approximately \$271.8 million available for additional borrowings under its credit facilities as of September 30, 2008.

Due to increasing volatility in global markets, the availability of capital and access to capital markets has been limited. Until constraints on raising new capital ease, we intend to pursue other avenues of liquidity such as adjusting the pace of our investments, becoming more selective in evaluating investment opportunities to ensure appropriate risk-adjusted returns, pursuing asset sales, and/or recycling lower yielding investments. As the global liquidity situation evolves, we will continue to monitor and adjust our funding approach accordingly. However, given the unprecedented nature of the volatility in the global markets, there can be no assurances that these activities will be successful. Moreover, if current levels of market disruption and volatility continue or worsen, we could face materially higher financing costs. Consequently, our operating strategy could be materially and adversely affected.

Equity Offerings

On April 28, 2008, we completed a transferable rights offering, issuing 24,228,030 shares at a subscription price of \$11.0016 per share, less dealer manager fees of \$0.22 per share. Net proceeds after deducting the dealer manager fees and estimated offering expenses were approximately \$259.8 million. Ares Investments, an affiliate of the Investment Adviser, purchased 1,643,215 shares in the rights offering, bringing its total shares owned to 2,859,882 shares of common stock, representing approximately 2.9% of the total shares outstanding as of September 30, 2008.

Total for the nine months ended September 30, 2007	19.9			\$	344.2

Table of Contents

Part of the proceeds from our public offerings in 2007 were used to repay outstanding indebtedness. The remaining unused portions of the proceeds from our public offerings were used to fund investments in portfolio companies in accordance with our investment objective and strategies and market conditions.

As of September 30, 2008, total market capitalization for the Company was \$1.0 billion compared to \$1.1 billion as of December 31, 2007.

Debt Capital Activities

Our debt obligations consisted of the following as of September 30, 2008 and December 31, 2007 (in millions):

	September 30, 2008		December 31, 2007	
Revolving Credit Facility	\$	485.2	\$	282.5
CP Funding Facility		103.0		85.0
Debt Securitization		314.0		314.0
	\$	902.2	\$	681.5

The weighted average interest rate and weighted average maturity of all our outstanding borrowings as of September 30, 2008 were 4.01% and 5.2 years, respectively. The weighted average interest rate and weighted average maturity of all our outstanding borrowings as of December 31, 2007 were 5.66% and 6.9 years, respectively.

The ratio of total debt outstanding to stockholders' equity as of September 30, 2008 was 0.72:1.00 compared to 0.60:1.00 as of December 31, 2007.

As of September 30, 2008, there was \$485.2 million outstanding under the \$510.0 million Revolving Credit Facility (see Note 7 to the consolidated financial statements for more detail on the Revolving Credit Facility arrangement). The Revolving Credit Facility also includes an accordion feature that allows us to increase the size of the Revolving Credit Facility to a maximum of \$765.0 million under certain circumstances.

As of September 30, 2008, there was \$103.0 million outstanding under the \$350.0 million CP Funding Facility (see Note 7 to the consolidated financial statements for more detail on the CP Funding Facility arrangement).

As part of the Debt Securitization, \$314.0 million principal amount of asset-backed notes (including \$50 million of revolving notes, all of which had been drawn as of September 30, 2008) were issued to third parties and secured by a pool of middle market loans that had been purchased or originated by the Company. As of September 30, 2008, we also owned approximately \$86.0 million aggregate principal amount of certain BBB and non-rated securities that we retained in the Debt Securitization. As of September 30, 2008, there was \$314.0 million aggregate principal amount of CLO Notes outstanding. The CLO Notes mature on December 20, 2019.

The CP Funding Facility expires on July 21, 2009 and the Revolving Credit Facility expires on December 28, 2010. Our ability to execute on our business plan relies to a certain extent on our ability to refinance/renew these facilities. However, there can be no assurance that we will be able to renew or refinance these facilities on acceptable terms or at all.

As of September 30, 2008, we had a long-term issuer rating of Baa3 from Moody's Investor Service and a long-term counterparty credit rating from Standard & Poor's Ratings Service of BBB.

Portfolio Valuation

Investment transactions are recorded on the trade date. Realized gains or losses are computed using the specific identification method. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market price is not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our management and audit committee and independent valuation firms that have been engaged at the direction of the board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, with approximately a quarter of our valuations of portfolio companies without readily available market quotations subject to review by an independent valuation firm.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the

Table of Contents

portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, based on the input of our management and audit committee and independent valuation firms under a valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize significantly less than the value at which we have previously recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned. For example, during the quarter ended September 30, 2008, the state of the economy in the U.S. and abroad continued to deteriorate. See the Risk Factor entitled ***Price declines and illiquidity in the corporate debt markets have adversely affected, and may continue to adversely affect, the fair value of our portfolio investments, reducing our NAV through increased net unrealized depreciation.***

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuation conclusions are then documented and discussed by our management.
- The audit committee of our board of directors reviews these preliminary valuations, as well as the input of independent valuation firms with respect to the valuations of approximately a quarter of our portfolio companies without readily available market quotations.
- The board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our management and audit committee and independent valuation firms.

OFF BALANCE SHEET ARRANGEMENTS

As of September 30, 2008 and December 31, 2007, the Company had the following commitments to fund various revolving senior secured and subordinated loans (in millions):

	September 30, 2008		December 31, 2007	
Total revolving commitments	\$	457.2	\$	323.6
Total unfunded revolving commitments	\$	275.4	\$	244.4

Of the \$275.4 million total unfunded revolving commitments as of September 30, 2008, funding for \$35.1 million was substantially at the discretion of the Company and funding for \$24.8 million was not available under the agreements governing such commitments due to borrowing base or other covenant restrictions, resulting in net adjusted unfunded revolving commitments of \$215.5 million.

Of the total commitments as of September 30, 2008, \$378.4 million extend beyond the maturity date for our Revolving Credit Facility. Included within the total commitments as of September 30, 2008 are commitments to issue up to \$15.9 million in standby letters of credit through a financial intermediary on behalf of certain portfolio companies.

Under these arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of September 30, 2008, the Company had \$12.7 million in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability. Of these letters of credit, \$0.3 million expire on January 31, 2009, \$4.7 million expire on February 28, 2009, \$0.1 million expire on April 1, 2009, \$7.1 million expire on September 30, 2009 and \$0.5 million expire on August 31, 2010. These letters of credit may be extended under substantially similar terms for additional one-year terms at the Company's option until the Revolving Credit Facility, under which the letters of credit were issued, matures on December 28, 2010.

Table of Contents

As of September 30, 2008 and December 31, 2007, the Company was subject to subscription agreements to fund equity investments in private equity investment partnerships, substantially all at the discretion of the Company, as follows (in millions):

As of November 5, 2008, we exited \$44.4 million of investments since September 30, 2008. Of investments, all were senior secured debt. Of these investments, 20% bore interest at floating rates and 80% bore interest at fixed rates with a weighted average stated rate of 13.0%.

In addition, as of November 5, 2008, we had an investment backlog and pipeline of \$90.5 million and \$56.0 million, respectively. We expect to syndicate a portion of the investments and commitments in our backlog and pipeline to third parties. The consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. We cannot assure you that we will make any of these investments or that we will syndicate any portion of such investments and commitments.

In October 2008, we entered into a two-year interest rate swap agreement for a total notional amount of \$75 million. Under the interest rate swap agreement, we will pay a fixed interest rate of 2.985% and receive a floating rate based on the prevailing three-month LIBOR. We believe that this agreement will enable us to mitigate interest rate risk and remain match funded.

On November 3, 2008, we applied for an exemptive order from the Securities and Exchange Commission (the "SEC") that would permit us to co-invest with funds managed by Ares Management LLC, including the Ares Capital Markets group. Any such order will be subject to certain terms and conditions. There is no assurance that the application for exemptive relief will be granted by the SEC. Accordingly, we cannot assure you that the Company will be permitted to co-invest with funds managed by Ares.

On November 5, 2008, we established a new middle market credit fund, Ivy Hill Middle Market Credit Fund II, Ltd. ("Ivy Hill II" or the "Fund") which will be managed by Ivy Hill Asset Management, L.P., our wholly owned subsidiary. It is anticipated that the size of the Fund will be \$250 million, and may grow over time with leverage.

We expect the Fund will be an active purchaser of first lien and second lien bank debt and mezzanine securities of middle market companies, originated by both us and other third-parties. Subject to certain approvals and restrictions, we may, in the near future, sell to the Fund up to \$75 million of investments and in the future may from time to time sell additional loans and investments to the Fund.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the spread between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of September 30, 2008, approximately 55% of the investments at fair value in our portfolio were at fixed rates while approximately 33% were at variable rates and 12% were non-interest earning. The Debt Securitization, the CP Funding Facility and the Revolving Credit Facility all feature variable rates.

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

In October 2008, we entered into a two-year interest rate swap agreement for a total notional amount of \$75 million. Under the interest rate swap agreement, we will pay a fixed interest rate of 2.985% and receive a floating rate based on the

Item 4. Controls and Procedures.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, our President and our Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to the Company that is required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934.

There have been no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

We are not subject to any material pending legal proceedings, and no such proceedings are known to be contemplated by governmental authorities.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed below, in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and those set forth under the caption Risk Factors in our registration statement on Form N-2 filed on April 9, 2008, which could materially affect our business, financial condition and/or operating results. The risks described below and in our Annual Report on Form 10-K and in our registration statement are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results. In addition, please consider the following:

Capital markets are currently in a period of disruption and instability. These market conditions have materially and adversely affected debt and equity capital markets in the United States, which has had and could continue to result in a negative impact on our business and operations.

We believe that beginning in 2007 and into 2008, the U.S. capital markets entered into a period of disruption as evidenced by a lack of liquidity in the debt capital markets, significant write-offs in the financial services sector, the re-pricing of credit risk in the broadly syndicated credit market and the failure of certain major financial institutions. Despite actions of the United States federal government, these events have contributed to worsening general economic conditions that are materially and adversely impacting the broader financial and credit markets and reducing the availability of debt and equity capital for the market as a whole and financial services firms in particular. These conditions could continue for a prolonged period of time or worsen in the future. While these conditions persist, we and other companies in the financial services sector may have to access alternative markets for debt and equity capital in order to grow. Equity capital may be difficult to raise because, subject to some limited exceptions, we are not generally able to issue and sell our common stock at a price below net asset value per share. In addition, the debt capital that will be available, if at all, may be at a higher cost, and on less favorable terms and conditions in the future. The continued inability to raise capital has a negative effect on our business, financial condition and results of operations.

Price declines and illiquidity in the corporate debt markets have adversely affected, and may continue to adversely affect, the fair value of our portfolio investments, reducing our NAV through increased net unrealized depreciation.

As a BDC, we are required to carry our investments at market value or, if no market value is ascertainable, at fair value as determined in good faith by or under the direction of our board of directors. As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we use the pricing indicated by the external event to corroborate our valuation. Decreases in the market values or fair values of our investments are recorded as unrealized depreciation. The continuing unprecedented declines in prices and liquidity in the corporate debt markets have resulted in significant net unrealized depreciation in our portfolio. The effect of all of these factors on our portfolio has reduced our NAV by increasing net unrealized depreciation in our portfolio. Subsequent to September 30, 2008 through the date of this report, conditions in the public debt and equity markets have continued to deteriorate and pricing levels have continued to decline. As a result, depending on market conditions, we could incur substantial realized losses and may continue to suffer additional unrealized losses in future periods, which could have a material adverse impact on our business, financial condition and results of operations.

Table of Contents

In addition to regulatory restrictions that restrict our ability to raise capital, the Revolving Credit Facility and the CP Funding Facility contain various covenants which, if not complied with, could accelerate repayment under these facilities, thereby materially and adversely affecting our liquidity, financial condition and results of operations.

The agreements governing the Revolving Credit Facility and CP Funding Facility require us to comply with certain financial and operational covenants. These covenants include:

- restrictions on the level of indebtedness that we are permitted to incur in relation to the value of our assets;
- restrictions on our ability to incur liens; and
- maintenance of a minimum level of shareholders' equity.

As of September 30, 2008, we were in compliance with these covenants. However, our continued compliance with these covenants depends on many factors, some of which are beyond our control. For example, during the quarter ended September 30, 2008, net unrealized depreciation in our portfolio increased and, given the further deterioration in public debt and equity markets and pricing levels subsequent to this period, net unrealized depreciation in our portfolio may continue to increase in the future. Any such further increase could result in our inability to comply with our obligation to restrict the level of indebtedness that we are able to incur in relation to the value of our assets or to maintain a minimum level of shareholders' equity.

Accordingly, there are no assurances that we will continue to comply with the covenants in our credit facilities. Failure to comply with these covenants would result in a default under these facilities which, if we were unable to obtain a waiver from the lenders under these facilities, could accelerate repayment under these facilities and thereby have a material adverse impact on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

We did not sell any securities during the period covered in this report that were not registered under the Securities Act of 1933.

Issuer Purchases of Equity Securities

In September 2008, as a part of the Company's dividend reinvestment plan for our common stockholders, we purchased 390,853 shares of our common stock for \$4.3 million in the open market in order to satisfy the reinvestment portion of our dividends. The following chart outlines repurchases of our common stock during the quarter ended September 30, 2008.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
