AMENDMENT NO. 1

EXPLANATORY NOTE

We are filing this amendment to our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 originally filed with the Commission on March 31, 2009 (the "Original 2008 Form 10-K"). This amendment to our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 supplements Item 15 (Exhibits, Financial Statement Schedules), which was filed with our original 2008 Form 10-K. This Form 10-K/A files the financial statements of SEN Corporation, an SHI and Axcelis Company ("SEN") as of March 31, 2008 and 2007 and the related financial statements for each of the three years in the period ended March 31, 2008 (the "SEN Financial Statements"). The SEN Financial Statements were previously filed under a Form 10-K/A on September 29, 2008 and have been updated for this filing with Note 17 on Subsequent Events regarding the Company's sale of its shares in SEN, the entry into a License Agreement with SEN on March 30, 2009, and the termination of arbitration between Axcelis and SEN.

Item 15. Exhibits, Financial Statement Schedules

(a) The following documents are filed as part of the Company's Form 10-K, as originally filed on March 31, 2009, and as amended by this form 10-K/A:

Report of Independent Auditors

The Board of Directors

SEN Corporation, an SHI and Axcelis Company

We have audited the accompanying consolidated balance sheets of SEN Corporation, an SHI and Axcelis Company (the Company) as of March 31, 2008 and 2007, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended March 31, 2008, all expressed in Japanese yen. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company, at March 31, 2008 and 2007, and the consolidated results of its operations and cash flows for each of the three years in the period ended March 31, 2008, in conformity with generally accepted accounting principles in the United States.

As discussed in Note 10 to the consolidated financial statements, the Company adopted the recognition provisions of Statement of Financial Accounting Standards No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - An Amendment of FASB Statements No. 87, 88, 106 and 132(R) effective on March 31, 2008.

We also have recomputed the translation of the consolidated financial statements as of and for the year ended March 31, 2008 into United States dollars. In our opinion, the consolidated financial statements expressed in Japanese yen have been translated into United States dollars on the basis described in Note 2.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements

Note 1. Nature of Business and Significant Accounting Policies

General

SEN Corporation, an SHI and Axcelis Company (the Company), was established on April 1, 1983 under the Commercial Code of Japan. The Company is owned equally by Sumitomo Heavy Industries, Ltd. (SHI), a Japanese corporation, and Axcelis Technologies, Inc. (Axcelis), a U.S. corporation. The Company designs, manufactures, sells and repairs ion implantation equipment and semiconductor equipment primarily for semiconductor manufacturing customers.

On April 1, 2006, the Company changed its name from Sumitomo Eaton Nova Corporation to SEN Corporation, an SHI and Axcelis Company.

Basis of Presentation

The Company and its subsidiary maintain their books of account in conformity with the accounting principles generally accepted in Japan. The consolidated financial statements of the Company and its subsidiary presented herein have been prepared in a manner and reflect the adjustments which are necessary to conform them with accounting principles generally accepted in the United States of America (U.S.).

Principle of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary located in Japan. All significant intercompany balances and transactions are eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the U.S. requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The actual results could differ from those estimates.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements (continued)

Note 1. Nature of Business and Significant Accounting Policies (continued)

Foreign Currency

Transaction gains and losses, which arise from transactions denominated in a currency other than the Japanese yen, are included in non-operating income (expenses). Transaction gains and losses in each of the years in the three year period ended March 31, 2008 were not material.

Cash Equivalents

All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Inventories

Inventories are stated at the lower of cost or market. The cost of raw material inventories is determined on the average cost method. The cost for work in process inventories are determined based on the specific identification method.

Property, Plant and Equipment

Property, plant and equipment is carried at cost less accumulated depreciation. Depreciation is computed using the declining-balance method over the estimated useful lives of the respective assets (buildings 6 to 40 years; machinery 5 to 15 years; and furniture, fixtures and automobiles 2 to 20 years) except for buildings purchased after April 1, 1998, which are depreciated on the straight-line basis over 31 years.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment losses whenever events or changes in circumstances indicate the carrying amount may not be recoverable. Recoverability of assets to be held and used would be considered impaired when the net undiscounted future cash flows generated by the assets are less than their carrying value. An impairment loss would be recognized based on the amount by which the carrying value of the asset exceeds its fair value. Assets to be disposed of by sale are reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements (continued)

Note 1. Nature of Business and Significant Accounting Policies (continued)

Income Taxes

Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates are recognized in the period in which they are enacted. The Company records a valuation allowance to reduce the deferred tax assets to the amount that is more likely than not realizable.

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, an interpretation of FASB Statement No. 109 on April 1, 2007. Upon adoption, the Company recognizes the financial statement effects of tax positions when it is more likely than not, based on the technical merits, that the tax positions will be sustained upon examination by the tax authorities. Benefits from tax positions that meet the more-likely-than-not recognition threshold are measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon settlement. Interest and penalties accrued related to unrecognized tax benefits are included in income taxes in the consolidated statements of income.

Revenue Recognition

In general, the Company recognizes revenue when there is persuasive evidence of an arrangement, delivery has occurred or the services have been rendered, the sales price is fixed or determinable and collection of the related receivable is reasonably assured.

When a sales arrangement involves multiple elements, the items included in the arrangement (deliverables) are evaluated to determine whether they represent separate units of accounting. The arrangement consideration is allocated to the individual items based on their relative fair values. If there is objective and reliable evidence of fair value of the undelivered item in an arrangement, but no such evidence for the delivered item, the residual method is used to allocate the arrangement consideration.

Absent objective and reliable evidence of fair value for the undelivered item in a multiple-element arrangement, the Company combines all deliverables into a single unit of accounting, and recognizes revenue when the last item has been delivered and all revenue recognition criteria applicable to the last delivered item has been met.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements (continued)

Note 1. Nature of Business and Significant Accounting Policies (continued)

Revenue Recognition (continued)

For domestic equipment sales that require installation services, the Company recognizes revenue upon customers' acceptance. For export equipment sales, revenue is recognized when title and risk of loss transfers to the customer, generally upon shipment. When the final payment is subject to customer acceptance, a portion of revenue for the final payment is deferred until an enforceable claim has become effective.

Service revenue includes revenue from spare parts, maintenance services and equipment overhaul services. Revenue related to maintenance service contracts is recognized ratably over the duration of the contracts. Revenue related to services and equipment overhauls is recognized upon completion and acceptance of the service. Revenue related to services and equipment overhauls is recognized upon the later of shipment or when title and risk of loss passes to the customer.

Taxes collected from customers and remitted to governmental authorities are excluded from revenues in the consolidated statements of income.

Shipping and Handling Costs

Shipping and handling costs are included in cost of products sold.

Research and Development Costs

Research and development costs are expensed in the year in which such costs are incurred.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

Recent Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standard (SFAS) No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007 and is required to be adopted by the Company in the fiscal year beginning after April 1, 2008. In February 2008, the FASB issued Staff Positions No. FAS 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13* and No. FAS 157-2, *Effective Date of FASB Statement No. 157*, which partially delay the effective date of SFAS 157 for one year for certain nonfinancial assets and liabilities and remove certain leasing transactions from its scope. The adoption of SFAS 157 will not have a material impact on the Company's consolidated results of operations and financial condition.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans-An Amendment of FASB Statements No. 87, 88, 106, and 132R* (SFAS 158). SFAS 158 requires an employer to recognize the funded status of pension and other postretirement benefit plans on sponsoring employers' balance sheets and to recognize changes in the funded status in comprehensive income in the year the changes occur. It also requires the measurement date of plan assets and obligations to be at the end of the employers' fiscal year. The Company adopted the requirement to recognize the funded status of its benefit plan and the disclosure requirements in its financial statements as of and for the year ending March 31, 2008, as described in Note 10 Employees' and Directors' Retirement Benefits. However, the requirement to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end consolidated balance sheet shall be effective for the Company's fiscal year ending March 31, 2009. Adoption of the measurement date provisions of SFAS 158 will require the Company to record adjustments to retained earnings and accumulated other comprehensive income for the effect of net periodic benefit costs incurred in the period January 1, 2008 to March 31, 2008. The Company is currently evaluating whether to re-measure plan assets and benefit obligations as of March 31, 2008 to determine the effects of the measurement date change at March 31, 2008 (re-measurement method) or to continue to use the measurements as of December 31, 2007 and report the estimated effects of the measurement date change by allocating three-fifteenths of the net periodic benefit cost determined for the period from December 31, 2007 to March 31, 2009 (alternative method). As a result, the impact of applying the measurement date provisions has yet to be determined.

Note 6. Product Warranty

The Company offers a one year warranty for all its products, the terms and conditions of which vary depending upon the product sold. The Company estimates the costs that may be incurred under its warranty and records a liability in the amount of such costs at the time product revenue is recognized. Factors that affect the Company's warranty include the number of installed units, historical and anticipated product failure rates, material usage and service labor costs. The Company periodically assesses the adequacy of its recorded warranty and adjusts the amount as necessary.

Changes in the Company's product warranty (included in other current liabilities on the consolidated balance sheets) for the years ended March 31, 2006, 2007 and 2008 are as follows:

	2006		2007 (Thousands of yen)		2008		2008 (U.S. dollars in thousands)

The sales and purchase transactions with SHI, Axcelis, and their affiliates have been conducted at cost plus a fixed rate of 12%-25%.

The royalties to Axcelis were charged to the Company at 3.5% - 5.5% of net sales. The sales commissions to Axcelis were charged to the Company at 10% of net sales. The rates for both royalty and sales commission are specified in the master license agreement entered into between the Company and Axcelis.

Notes to Consolidated Financial Statements (continued)

Note 7. Transactions with Affiliates (continued)

The management fees and royalties to SHI were charged to the Company at 1% of net sales, which is specified in the management fee agreement.

The Company earned profits of ¥58,617 thousand, ¥80,009 thousand, and ¥53,677 thousand (US\$ 535 thousand) in 2006, 2007 and 2008, respectively, on revenue recognized from sales to Axcelis and affiliates, none of which have been eliminated in consolidation.

Balances due from and to affiliates at March 31, 2007 and 2008 were as follows:

	2007	(Thousands of yen)	2008	2008

Pension funding for seconded employees (employees on temporary assignment) is provided through a plan administered by SHI. Under this arrangement, the Company is billed monthly for the pension costs attributable to those individuals. Under the terms of the pension agreement with SHI, no additional costs related to earned benefits are to be borne by the Company. Pension contributions paid to SHI for the years ended March 31, 2006, 2007 and 2008 were ¥126,977 thousand, ¥91,026 thousand and ¥78,236 thousand (US\$ 781 thousand), respectively.

Note 8. Leases

Rental expenses for equipment, land and office space for the years ended March 31, 2006, 2007 and 2008 amounted to ¥266,976 thousand, ¥257,467 thousand and ¥253,515 thousand (US\$ 2,530 thousand), respectively. Future minimum non-cancelable rental commitments at March 31, 2008 under operating leases are as follows:

Year ended March 31		(Thousands of yen)		(U.S. dollars in thousands)
2009	¥	140,414	\$	1,401
2010		59,176		591

Note 9. Income Taxes

Income taxes include corporation, enterprise, and inhabitants taxes which, in the aggregate, resulted in a statutory tax rate of approximately 40.44% in 2006, 2007 and 2008. The difference between the provision for income tax and the amount computed by applying the statutory income tax rate in effect for the year ended March 31, 2006, 2007 and 2008 resulted from nondeductible expenses, tax credits for costs of information technologies, research and development activities, and other miscellaneous items. The 2008 provision for income taxes also includes a credit related to the true up of 2007 income taxes.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements (continued)

Note 9. Income Taxes (continued)

Deferred income taxes reflect the net tax effect of the temporary differences between the amounts of the assets and liabilities recorded for financial reporting and income tax purposes. Significant components of the Company's deferred tax assets as of March 31, 2007 and 2008 were as follows:

	2007	(Thousands of yen)	2008	2008 (U.S. dollars in thousands)
Deferred tax assets:				
Accrued enterprise tax	¥	183,806	¥ 26,469	\$ 264
Bonus payment reserve		194,939		1,854
Inventory valuation		1,359		1,385
Deferred revenue				574
Property, plant and equipment		285,742		3,019
Accrued pension and severance cost		8,980		984
Other		45,793		736
Total gross deferred tax assets	¥	720,619	¥ 883,314	\$ 8,816
Deferred tax liabilities:				
Pension asset	¥	(18,407)	¥ (26,468)	\$ (264)
Total gross deferred tax liabilities		(18,407)		(264)
Net deferred tax asset	¥	702,212	¥ 856,846	\$ 8,552

Realization of the Company's net deferred tax assets is dependent on the Company generating sufficient taxable income or the Company executing certain available tax strategies. Although realization is not assured, management believes it is more likely than not that the net deferred tax assets will be realized.

The Company files income tax returns in Japan. The Company is subject to regular income tax examinations by tax authorities. Japanese tax authorities have completed examinations of the Company through the year ended March 31, 2003. Fiscal years subsequent to 2003 are open and subject to tax examination. The Company believes that it has appropriate support for income tax positions taken on its returns based on an assessment of many factors including past experience and interpretations of tax law.

Note 10. Employees and Directors Retirement Benefits

The Company has a defined benefit pension plan that covers substantially all employees, except for the seconded employees described in Note 7. Benefits under the plan are based on the employees' compensation as of the date of retirement and years of service. The Company's policy is to fund amounts which are actuarially determined to provide the plan with sufficient assets to meet future benefit payment requirements. Assets of the plan are invested in equity securities, debt securities, money market instruments, and insured products. The measurement date used to calculate the pension obligation for the benefit plan is December 31.

In September 2006, FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—An Amendment of FASB Statements No. 87, 88, 106, and 132R* (SFAS 158). SFAS 158 requires an employer to recognize the funded status of pension and other postretirement benefit plans on sponsoring employers' balance sheets and to recognize changes in the funded status in comprehensive income in the year the changes occur. It also requires the measurement date of plan assets and obligations to be as of the date of the Company's year-end, March 31. The Company adopted the requirement to recognize the funded status of its benefit plan and the disclosure requirements in its financial statement as of and for the year ending March 31, 2008. Pursuant to the adoption of those requirements, the net after-tax adjustment to accumulated other comprehensive loss at March 31, 2008 was ¥132,626 thousand, which principally represents the impact of recognizing previously unrecognized actuarial losses and transition obligation. The incremental effects of adopting the provisions of SFAS 158 on the accompanying consolidated balance sheet at March 31, 2008 are presented in the following table.

	(Thousands of yen)				
	Before Application of SFAS 158		Adjustments		After Application of SFAS 158

Benefit obligation, plan assets, the funded status and amounts recognized as of and for the years ended March 31, 2007 and 2008 (measured at December 31, 2006 and 2007) are as follows:

	2007 (Thousands of yen)	2008 (Thousands of yen)	2008 (U.S. dollars in thousands)
Benefit obligation at end of year	¥ 1,085,430	¥ 1,197,170	\$ 11,949

Contributions	¥ 128,785	¥ 104,915	\$ 1,047
Benefits paid	(7,954)	(7,052)	(70)

Upon adoption of the recognition provision of SFAS 158, the Company recognized an accumulated other comprehensive income adjustment, after income taxes, consisting of a net actuarial loss and transition obligation of ¥119,797 thousand (US\$ 1,196 thousand) and ¥ 12,829 thousand (US\$ 127 thousand), respectively.

Note 10. Employees and Directors Retirement Benefits (continued)

The estimated net actuarial loss and net transition obligation that will be amortized from accumulated other comprehensive income into net periodic benefit cost over the year ended March 31, 2009 are summarized as follows:

	(Thousands of yen)	(U.S. dollars in thousands)
Net actuarial loss	¥ 3,797	\$ 38
Net transition obligation	10,770	107
Accrued retirement liabilities	¥ 14,567	\$ 145

The aggregate accumulated benefit obligation of this plan as of March 31 (measured at December 31) was as follows:

	2007 (Thousands of yen)	2008 (Thousands of yen)	2008 (U.S. dollars in thousands)
Aggregate accumulated benefit obligation	¥ 768,665	¥ 865,919	\$ 8,643

The discount rates and weighted average rates of increases in future salary levels used in determining the actuarial present value of the projected benefit obligation as of March 31, 2007 and 2008 (measured at December 31, 2006 and 2007) were as follows:

	2007	2008
Discount rate	2.0%	2.0%
Weighted average rates of increases in future salary levels	3.4%	3.5%

The discount rates, weighted average rates of increases in future salary levels and the expected long-term rates of return on plan assets used in determining net pension expense for the years ended March 31, 2006, 2007 and 2008 (measured at December 31, 2005, 2006 and 2007) were as follows:

	2006	2007	2008
Discount rate	1.5%	2.0%	2.0%

Edgar Filing: AXCELIS TECHNOLOGIES INC - Form 10-K/A

Weighted average rates of increases in future salary levels	2.7%	3.4%	3.4%
Expected long-term rates of return on plan assets	4.0%	4.0%	4.0%

The expected long-term rate of return on plan assets assumption is determined from the plan's asset allocation using forward-looking assumptions in the context of historical returns.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements (continued)

Note 10. Employees and Directors Retirement Benefits (continued)

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Year ended March 31	(Thousands of yen)	(U.S. dollars in thousands)
2009	¥ 4,712	\$ 47
2010	5,377	54
2011	6,672	67
2012	13,666	136
2013	41,605	415
2014 - 2018	245,822	2,454

The Company's investment strategy is to manage the assets of the plan to meet its long-term obligations while maintaining sufficient liquidity to pay current benefits. This is primarily achieved by holding equity-like investments while investing a portion of the assets in long duration bonds in order to match the long-term nature of the liabilities. The Company will periodically undertake an asset and liability modeling study if a material shift in the plan's liability profile or changes in the capital markets call for such a study. The Company's weighted-average asset allocations for its defined benefit plan at March 31, 2007 and 2008, by asset category, are as follows:

Asset Category	2007	2008
Equity securities	34.4%	39.0%
Debt securities	28.2	24.0
Foreign currency securities investment fund	30.6	33.7
Loan receivables	6.8	3.3
	100.0%	100.0%

The Company expects to contribute ¥113,138 thousand (US\$ 1,129 thousand) to its defined benefit plan for the year ending March 31, 2009.

The Company previously had provided certain defined benefits to its statutory auditors and directors who were not statutory auditors, directors or employees of SHI, Axcelis or one of their affiliates. Such benefits were based on years of service, compensation at retirement and position. This plan was unfunded. In July 2005, the company terminated this plan. The benefit relating to the service period through July 2005 will be paid when the director or statutory auditor terminates employment. The Company has accrued ¥21,060 thousand (US\$ 210 thousand) for payment of such benefits.

Note 11. Shareholders' Equity

The Commercial Code of Japan (Code) provides that an amount equal to at least 10% of the amount to be disbursed as a distribution of earnings be appropriated to the legal reserve until the total of such reserve and the additional paid-in capital account equals 25% of the common stock account. The Code also provides to the extent that the sum of additional paid-in capital account and the legal reserve account exceed 25% of the common stock account then the amount of the excess (if any) is available for appropriations by resolution of the shareholders.

Retained earnings available for dividends under the Code are based on the amount presented in the Company's non-consolidated financial statements, which are prepared in accordance with accounting principles and practices generally accepted in Japan. Under the Code, the amount of retained earnings available for dividends as of March 31, 2008 amounted to ¥27,220,699 thousand (US\$ 272 million).

Note 12. Financial Instruments

The total carrying amount reported in the balance sheets for financial instruments, cash and cash equivalents, notes and accounts receivables, notes and accounts payables approximates their respective fair value.

Note 13. Supplemental Balance Sheet Information

Changes in allowance for doubtful accounts:

Note 14. Sales to Foreign Customers

The Company's sales to foreign customers amounted to ¥3,407,516 thousand, ¥5,060,620 thousand and ¥2,111,803 thousand (US\$ 21,078 thousand) for the years ended March 31, 2006, 2007 and 2008, respectively.

SEN Corporation, an SHI and Axcelis Company

Notes to Consolidated Financial Statements (continued)

Note 15. Concentration of Credit Risk

Financial instruments, which potentially expose the Company to concentrations of credit risk, consist primarily of trade notes and accounts receivable. Substantially all of the Company's notes and accounts receivable are due from companies in the semiconductor industry located in Japan. The Company performs ongoing credit evaluations of its customers' financial condition and provides an allowance for specific doubtful trade notes and accounts receivable and generally does not require collateral to secure the trade notes and accounts receivable.

For the year ended March 31, 2006, three customers accounted for net sales of 19%, 14% and 13%. Three customers accounted for net sales of 22%, 13% and 13% for the year ended March 31, 2007. For the year ended March 31, 2008, three customers accounted for net sales of 26%, 14%, and 9%, respectively.

At March 31, 2007 and 2008 accounts receivable from one customer accounted for approximated 26% and 29% of total consolidated trade receivables, respectively.

Note 16. Contingencies

Axcelis, one of the Company's shareholders, filed for arbitration to the Japan Commercial Arbitration Association on September 8, 2006, seeking, among others, royalty payments from the Company for the sale of the Company's single-wafer high-current ion implanter SHX (SHX). The Company disputes the entirety of Axcelis' claims, arguing that SHX is a product which was wholly developed by SEN based on its own technologies, and there is no reason for the Company to pay any royalties to Axcelis on the sales of SHX products. In addition, the Company filed counter claims against Axcelis on October 30, 2006, seeking, among others, a remedy for damages, the refund of royalties paid to Axcelis and a permanent injunction prohibiting Axcelis from infringing the Company's U.S. and Japanese patents. The arbitration is scheduled in the first half of 2010. Management believes the ultimate resolution of this matter will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

Note 17 Subsequent Events (Unaudited)

On March 30, 2009, pursuant to the Share Purchase Agreement dated February 26, 2009, Axcelis sold to SHI all of Axcelis' common shares in the Company for the payment of JPY 13 billion (inclusive of the license fee referenced below). On April 01, 2009, the Company changed its name to SEN Corporation.

Edgar Filing: AXCELIS TECHNOLOGIES INC - Form 10-K/A

In connection with the sale of its investment in the Company, on March 30, 2009, the Company and Axcelis entered into the License Agreement pursuant to which the parties have cross licensed to each other the rights to use certain patents and technical information on a non-exclusive, perpetual, royalty-free, worldwide basis. In addition to the above license the Company and Axcelis received sole exclusive licenses (subject to certain exceptions) for 4 years in the U.S. and Japan, respectively. In accordance with this license agreement, the Company has paid a one time license fee of JPY 1,685 million.

Arbitration over various issues, disclosed in Note 16 above, was terminated in accordance with the joint dismissal document submitted by the Company and Axcelis on March 30, 2009 pursuant to a settlement agreement on the same date.
