<sup>\*</sup> Non-income producing security.

- (2) Fair valued security under procedures established by the Fund s Board of Directors. Total market value of fair valued securities as of August 31, 2009 is \$14,538,945, or 7.7% of total net assets available to common and preferred stock.
- (3) On October 9, 2008, the company declared bankruptcy.

Percentages are stated as a percent of the Total Net Assets Available to Common and Preferred Stock.

Common Abbreviations:

ADR - American Depositary Receipt

A.S. - Anonim Sirketi (Turkish: Joint Stock Company)

L.P. - Limited Partnership

Ltd. - Limited

NV - Naamloze Vennootchap is the Dutch term for a public limited liability corporation

NZD - New Zealand Dollar

PLC - Public Limited Company

<sup>(1)</sup> Less than 0.05% of Total Net Assets Available to Common and Preferred Stock.

For Fund compliance purposes, the Fund s industry and/or geography classifications refer to any one of the industry/geography sub-classifications used by one or more widely recognized market indexes, and/or as defined by Fund Management. This definition may not apply for purposes of this report, which may combine industry/geography sub-classifications for reporting ease. Industries/geographies are shown as a percent of net assets available to common and preferred shares. These industry/geography classifications are unaudited.

See accompanying Notes to Quarterly Portfolio of Investments.

#### **Boulder Growth & Income Fund, Inc.**

August 31, 2009 (Unaudited)

#### **Note 1. Valuation and Investment Practices**

Portfolio Valuation: The net asset value of the Fund s Common Shares is determined by the Fund s administrator no less frequently than on the last business day of each week and month. It is determined by dividing the value of the Fund s net assets attributable to common stock by the number of Common Shares outstanding. The value of the Fund s net assets attributable to Common Shares is deemed to equal the value of the Fund s total assets less (i) the Fund s liabilities and (ii) the aggregate liquidation value of the outstanding Taxable Auction Market Preferred Stock. Securities listed on a national securities exchange are valued on the basis of the last sale on such exchange or the NASDAQ Official Close Price on the day of valuation. In the absence of sales of listed securities and with respect to securities for which the most recent sale prices are not deemed to represent fair market value, and unlisted securities (other than money market instruments), securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent sources. Investments for which market quotations are not readily available or do not otherwise accurately reflect the fair value of the investment are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are considered comparable in quality, maturity and type. Investments in money market instruments, which mature in 60 days or less at the time of purchase, are valued at amortized cost.

The Fund follows Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). In accordance with FAS 157, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. Under certain circumstances, fair value may equal the mean between the bid and asked prices. FAS 157 established a three tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity is own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

The valuation techniques used by the Fund to measure fair value during the nine months ended August 31, 2009 maximized the use of observable inputs and minimized the use of unobservable inputs. The Fund utilized the following fair value techniques: discounted future cash flow models, weighted average of last available trade prices and multidimensional relational pricing model.

The following is a summary of the inputs used as of August 31, 2009 in valuing the Fund s investments carried at fair value:

Investments in Securities at Value	L	evel 1 - Quoted Prices	Level 2 - Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Domestic Common Stocks	\$	106,595,978	\$	\$	\$ 106,595,978
Foreign Common Stocks		23,225,965		4,683	23,230,648
Auction Preferred Securities			8,869,000		8,869,000
Hedge Funds				5,665,262	5,665,262
Domestic Government Bonds			39,998,328		39,998,328
Foreign Government Bonds			2,620,928		2,620,928
Money Market Funds		21,061,347			21,061,347
Total		150,883,290	51,488,256	5,669,945	208,041,491

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Investments in Securities at Value	 alance as 12/1/2008	Realized gain/(loss)	uni	ange in realized reciation	pur	Net chases/ ales)	Transfer in and/or out of Level 3	1	Balance as of 8/31/2009
Foreign Common Stocks	\$ 4,559	\$	\$	124	\$		\$	\$	4,683
Hedge Funds	5,054,484			610,778					5,665,262
Total	5,059,043			610,902					5,669,945

Securities Transactions and Investment Income: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on ex-dividend dates. Interest income is recorded using the interest method.

The actual amounts of dividend income and return of capital received from investments in real estate investment trusts ( REITS ) and registered investment companies ( RICS ) at calendar year-end are determined after the end of the fiscal year. The Fund therefore estimates these amounts for accounting purposes until the actual characterization of REIT and RIC distributions is known. Distributions received in excess of the estimate are recorded as a reduction of the cost of investments.

Foreign Currency Translation: The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated in US dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions.

Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between amounts of interest and dividends recorded on the books of the Fund and the amounts actually received.

#### **Note 2. Unrealized Appreciation/ (Depreciation)**

On August 31, 2009, based on cost of \$191,851,441 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$22,812,199 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$6,622,149, resulting in net unrealized appreciation of \$16,190,050.

#### Note 3. Recently Issued Accounting Pronouncements

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161 (SFAS 161) Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS 133), expands the disclosure requirements in SFAS 133 about entity s derivative instruments and hedging activities. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. Management is currently evaluating the impact the adoption of SFAS No. 161 will have on the Fund s financial statement disclosures.

#### Item 2 - Controls and Procedures.

(a)	The Registrant	s Principal Execu	tive Officer and P	rincipal Financial	Officer concluded	I that the Registrant	s disclosure
controls and procedur	res (as defined in	n Rule 30a-3(c) un	der the Investmen	t Company Act of	1940 17 CFR 270	0.300-3(c)) were effe	ective as of a
date within 90 days o	f the filing date	of this report (the	<b>Evaluation Date</b>	), based on their	evaluation of the	effectiveness of the l	Registrant s
disclosure controls an	d procedures as	of the Evaluation	Date.				

(b) There were no changes in the Registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 Act (17 CFR 270.30a-3(d)) that occurred during the Registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant s internal control over financial reporting.

#### Item 3 Exhibits.

(a) Certification of Principal Executive Officer and Principal Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as EX-99.CERT.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
