**Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

(a) On March 3, 2011, the audit committee of Ironwood Pharmaceuticals, Inc. (the Company), after discussion with the Company's management and the Company's independent registered public accounting firm, approved management's decision to reclassify an approximate \$2.9 million income tax benefit associated with the sale of the Company's subsidiary, Microbia, Inc., in the quarterly period ended September 30, 2010. This reclassification had no effect on the Company's cash position, nor did it have any effect on the Company's net loss or net loss per share for the quarterly period ended September 30, 2010 or for the year ended December 31, 2010.

In the unaudited condensed consolidated statements of operations in its Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2010, the Company recognized all of the aforementioned income tax benefit in net income (loss) from discontinued operations. Based on the Company's reevaluation of the relevant accounting guidance, the Company has now reclassified this amount as income tax benefit related to continuing operations for the quarterly period ended September 30, 2010, which is offset by an identical and corresponding income tax provision in net income (loss) from discontinued operations for the same period.

The Company will discuss the reclassification in further detail in Note 23, *Restatement and Selected Quarterly Financial Data (Unaudited)* to its consolidated financial statements in its Annual Report on Form 10-K for the year ended December 31, 2010, which the Company expects to file with the Securities and Exchange Commission on or before March 31, 2011.
