[Regis Corporation Letterhead]

September 6, 2011

Dear Associates,

With the back-to-school season now in full force, I want to express my appreciation for all of your dedication, your hard work and the many contributions you make to Regis. This past quarter, we reported an improvement in our customer visit trends and our financial results. Operational earnings exceeded the Company's plan and were stronger than last year. Regis' financial condition remains strong. This wouldn't have been possible without you. Our success starts with you and I'm enormously grateful for your service.

Recently there has been more attention on our Company than usual and I want to keep you informed of what is happening. On Friday, Starboard Value and Opportunity Master Fund (Starboard), one of the Company's shareholders, filed a preliminary proxy statement with the Securities and Exchange Commission (SEC), commenting about our business strategy and nominating three directors to serve on Regis' Board of Directors. While we disagree with many of the assertions made by Starboard, we do take comments from shareholders very seriously. We look forward to discussing our strategy with our shareholders, and the Company will make its recommendation with respect to the election of directors in its proxy statement to be filed with the SEC in the near future.

You should know that the Board of Directors and management team are committed to acting in the best interests of the Company and all Regis shareholders. We continue to focus on the execution of the Company's strategy, which is designed to increase market share by providing a superior service and greater value for all customers.

With a situation like this there likely will be additional attention on our Company, which you are already starting to see in the media. It is important to note, however, that throughout this process all of us here at Regis need to stay intensely focused on our business.

I love this Company. I am confident about our plan and incredibly optimistic about our future. Since our leadership announcements in February, we have been implementing positive, material change, and there is more to come. We are focused on maximizing customer satisfaction, leveraging the power of our salon brands, and enhancing our connectivity using the latest in portable technology. As a result of these efforts, Regis has already begun to add value to our operating results. We expect these benefits will increase over the next several years as our initiatives evolve and mature.

We remain firmly committed to serving our customers, supporting our employees and delivering value to our shareholders. We are excited about our future and are counting on each of you to remain focused on serving our customers and advancing our business goals, just as you always have.

Kindest regards,

/s/ Randy

President
