## Item 2.02 Results of Operations and Financial Condition

On May 3, 2012, Axcelis Technologies, Inc. (the "Company") issued a press release regarding its financial results for the three months ended March 31, 2012. The Company's press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and incorporated by reference herein.

## Item 5.02 Compensatory Arrangements of Certain Officers

On April 27, 2012, the Compensation Committee of the Board of Directors of the Company approved a modification to the form of Change of Control Agreement with each of the Company's executive officers to eliminate a reduction in benefits based on the age of the executive officer. Prior to the modification, the double-trigger Change of Control Agreements provided for a cash separation payment that reduced ratably during the three years prior to the executive's 65th birthday. For executives aged 62 or younger, the cash separation payment would equal the executive's then salary and average bonus multiplied by three. For executives over 62, this multiplier would reduce to be the number of years and portions thereof (expressed as a decimal fraction) from the Date of Termination until the Executive's 65th birthday.

The Compensation Committee determined that this reduction in change of control benefits was inappropriate for the Company's executives since the Company does not maintain an alternative retirement benefit that would replace the change of control payout in the event of termination of an executive 62 or older. Accordingly, the Change of Control Agreement maintains the multiplier at three for all executives, regardless of age.
