NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2013

1. Basis of Presentation

Principles of Consolidation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation with respect to the interim financial statements, have been included. The results of operations for the six months ended June 30, 2013 are not necessarily indicative of the results for the full year ending December 31, 2013. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 2012, included in Reliance Steel & Aluminum Co. s (Reliance , the Company , we , our or us) Annual Report on Form 10-K.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in our consolidated financial statements and the accompanying notes. Actual results could differ from those estimates.

Our consolidated financial statements include the assets, liabilities and operating results of majority-owned subsidiaries. The ownership of the other interest holders of consolidated subsidiaries is reflected as noncontrolling interests. Our investments in unconsolidated subsidiaries are recorded under the equity method of accounting. All significant intercompany accounts and transactions have been eliminated.

2. Impact of Recently Issued Accounting Guidance

Accounting Guidance Recently Adopted

On January 1, 2013, we adopted changes issued by the Financial Accounting Standards Board (FASB), which require additional disclosures for the reclassification of significant amounts from accumulated comprehensive income to net income. This guidance requires that the effect of certain significant amounts be presented either on the face of the consolidated statements of income or in a single note. For other amounts, we are required to cross-reference disclosures that provide additional detail about those amounts. The adoption of these changes did not have a material impact on our consolidated financial statements.

3. Acquisitions

2013 Acquisitions

On April 30, 2013, we acquired Travel Main Holdings, LLC (Travel Main), a real estate holding company with a portfolio of 18 real estate properties, all of which are leased by certain of our subsidiaries. The transaction value of \$75.6 million included the assumption of \$43.8 million of net indebtedness. The cash portion of the purchase price was funded with borrowings on our revolving credit facility.

On April 12, 2013, we acquired all the outstanding shares of Metals USA Holdings Corp. (Metals USA) for \$20.65 per share in cash, pursuant to which Metals USA has become a wholly owned subsidiary. Metals USA is one of the largest metal service center businesses in the United States and a leading provider of value-added processed aluminum, brass, copper, carbon steel, stainless steel, manufactured metal components and inventory management services. Metals USA sells its products and services to a diverse customer base and broad range of end markets, including the aerospace, auto, defense, heavy equipment, marine transportation, commercial construction, office furniture manufacturing, energy and oilfield service industries, among several others. This acquisition adds a total of 48 service centers strategically located throughout the United States to our existing operations and complements our existing customer base, product mix and geographic footprint. Net sales of Metals USA during the period from April 13, 2013 through June 30, 2013 were \$396.5 million.

Table of Contents**RELIANCE STEEL & ALUMINUM CO.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2013**

The purchase price for Metals USA of \$766.8 million along with assumed debt of \$486.1 million represents a total transaction value of approximately \$1.25 billion. We funded the transaction and refinanced all but \$12.3 million of Metals USA's debt with proceeds from our new \$500.0 million term loan and our \$500.0 million senior notes offering, with the balance drawn on our existing \$1.5 billion credit facility (see Note 7). In the six-month period ended June 30, 2013, we incurred approximately \$11.4 million in transaction related costs, which are included in warehouse, delivery, selling, general and administrative expenses.

The preliminary allocation of the total purchase price of Metals USA to the fair values of assets acquired and liabilities assumed is as follows:

	(in millions)	
Cash	\$	3.2
Accounts receivable		205.9
Inventories		382.6
Property, plant and equipment		248.7

Net assets acquired	\$	766.8

2012 Acquisitions

Effective October 1, 2012, through our wholly owned subsidiary Feralloy Corporation (Feralloy), we acquired all the outstanding capital stock of GH Metal Solutions, Inc. (formerly known as The Gas House, Inc.) (GH), a value added processor and fabricator of carbon steel products located in Fort Payne, Alabama that will allow Feralloy to better serve the increasing demands of its diverse customer base. GH operates as a wholly owned subsidiary of Feralloy and had net sales of \$30.6 million for the six months ended June 30, 2013.

Effective October 1, 2012, we acquired all the outstanding limited liability company interests of Sunbelt Steel Texas, LLC (Sunbelt), a value added distributor of special alloy steel bar and heavy-wall tubing products to the oil and gas industry headquartered in Houston, Texas with an additional location in Lafayette, Louisiana. Sunbelt had net sales of \$22.3 million for the six months ended June 30, 2013.

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

On July 6, 2012, we acquired substantially all of the assets of Airport Metals (Australia) Pty Ltd., a subsidiary of Samuel Son & Co., Limited, through our newly-formed subsidiary Bralco Metals (Australia) Pty Ltd. (Airport Metals). Airport Metals, based in Melbourne, operates as a stocking distributor of aircraft materials and supplies. Airport Metals had net sales of \$1.6 million for the six months ended June 30, 2013.

Effective April 27, 2012, through our wholly owned subsidiary Precision Strip, Inc. (PSI), we acquired the assets of the Worthington Steel Vonore, Tennessee plant, a processing facility owned by Worthington Industries, Inc. The Vonore plant operates as a PSI location which processes and delivers carbon steel, aluminum and stainless steel products on a toll basis, processing the metal for a fee without taking ownership of the metal. The Vonore location had net sales of \$1.4 million for the six months ended June 30, 2013.

Effective April 3, 2012, we acquired all the outstanding limited liability company interests of National Specialty Alloys, LLC (NSA), a global specialty alloy processor and distributor of premium stainless steel and nickel alloy bars and shapes, headquartered in Houston, Texas with additional locations in Anaheim, California; Buford, Georgia; Tulsa, Oklahoma and Mexico City, Mexico. NSA had net sales of \$41.6 million for the six months ended June 30, 2013.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2013

Effective February 1, 2012, through our wholly owned subsidiary Diamond Manufacturing Company, we acquired McKey Perforating Co., Inc. (McKey), headquartered in New Berlin, Wisconsin and its subsidiary, McKey Perforated Products Co., Inc., located in Manchester, Tennessee. McKey provides a full range of metal perforating and fabrication services to customers located primarily in the U.S. McKey had net sales of \$10.0 million for the six months ended June 30, 2013.

The combined transaction value of our 2012 acquisitions was \$226.5 million, which included the assumption and/or repayment of \$59.4 million of debt. We funded these acquisitions with borrowings on our revolving credit facility.

Purchase price allocation

The acquisitions discussed in this note have been accounted for under the acquisition method of accounting and, accordingly, the respective purchase price has been allocated to the assets acquired and liabilities assumed based on their estimated fair values at the date of each acquisition. The accompanying consolidated statements of income include the revenues and expenses of each acquisition since its respective acquisition date. The consolidated balance sheets reflect the allocation of each acquisition's purchase price as of June 30, 2013, as applicable. The purchase price allocations for the 2013 acquisitions are preliminary and are pending the completion of certain purchase price adjustments based on tangible and intangible asset valuations and various pre-acquisition period tax returns.

Pro forma financial information

The following pro forma summary financial results present the consolidated results of operations as if the acquisition of Metals USA had occurred at the beginning of the reporting period being presented, after the effect of certain adjustments, including interest expense on the acquisition debt, non-recurring acquisition related costs, and amortization of certain identifiable intangible assets. The pro forma summary financial results reflect Metals USA's historical method for inventory valuation, which was the first-in, first-out (FIFO) method for the majority of its inventories. Metals USA adopted the last-in, first-out (LIFO) method of inventory valuation upon acquisition.

The pro forma results have been presented for comparative purposes only and are not indicative of what would have occurred had the Metals USA acquisition been made as of January 1, 2013 or 2012, or of any potential results which may occur in the future.

6. Income Taxes

Our effective income tax rates for the three-month periods ended June 30, 2013 and 2012 were 33.3% and 34.3%, respectively. Our effective income tax rates for the six-month periods ended June 30, 2013 and 2012 were 31.4% and 33.7%, respectively. Permanent items that lowered our effective income tax rates from the federal statutory rate were not materially different in amounts during these periods and related mainly to company-owned life insurance policies, domestic production activities deductions and foreign income levels that are taxed at lower rates. Our 2013 six-month period effective income tax rate was favorably impacted by the settlement of certain tax matters.

Unsecured Revolving Credit Facility

On April 4, 2013, we entered into a syndicated Third Amended and Restated Credit Agreement (*Credit Agreement*) with 26 banks as lenders. The *Credit Agreement* amends and restates our existing \$1.5 billion unsecured revolving credit facility and provides for a \$500.0 million term loan, maturing on April 4, 2018. The term loan will amortize in quarterly installments, resulting in an annual amortization of 5% during the first year, 5% during the second year, 10% during the third year, 10% during the fourth year and 10% during the fifth year with the balance to be paid at maturity. The *Credit Agreement* includes an option to increase the revolving credit facility for up to an additional \$500.0 million at our request, subject to approval of the lenders and certain other conditions. Interest on borrowings from the amended and restated revolving credit facility during the three-month period ending June 30, 2013 are at variable rates based on LIBOR plus 1.50% or the bank prime rate plus 0.50% and includes a commitment fee on the unused portion, at an annual rate of 0.25%. The applicable margin over LIBOR rate and base rate borrowings, along with commitment fees, are subject to adjustment every quarter based on our leverage ratio, as defined.

Weighted average rates on borrowings outstanding on the revolving credit facility were 1.69% and 1.46% as of June 30, 2013 and December 31, 2012, respectively. As of June 30, 2013, we had \$57.0 million of letters of credit outstanding under the revolving credit facility with availability to issue an additional \$193.0 million of letters of credit.

Senior Unsecured Notes - Private Placements

We had \$75.0 million of outstanding senior unsecured notes at a fixed rate of 5.35% issued in private placements of debt as of June 30, 2013. On July 2, 2013, the outstanding notes matured and we paid off the notes with borrowings under our credit facility.

Senior Unsecured Notes - Publicly Traded

On November 20, 2006 we entered into an indenture (the 2006 Indenture), for the issuance of \$600 million of unsecured debt securities. The total debt issued was comprised of two tranches, (a) \$350 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.20% per annum, maturing on November 15, 2016 and (b) \$250 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.85% per annum, maturing on November 15, 2036.

On April 12, 2013, we entered into an indenture (the 2013 Indenture and, together with the 2006 Indenture, the Indentures), for the issuance of \$500.0 million aggregate principal amount of senior unsecured notes at the rate of 4.50% per annum, maturing on April 15, 2023. The net proceeds from the issuance were used to partially fund the acquisition of Metals USA.

Under the Indentures, the notes are senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured and unsubordinated obligations. The notes are guaranteed by our named 100%-owned domestic subsidiaries that guarantee our revolving credit facility. The senior unsecured notes include provisions that require us to make an offer to repurchase the notes at a price equal to 101% of their principal amount plus accrued and unpaid interest in the event of a change in control and a downgrade of our credit rating.

Other Notes and Revolving Credit Facilities

Various other separate revolving credit facilities with a combined credit limit of approximately \$20.3 million are in place for operations in Asia and Europe with combined outstanding balances of \$12.7 million and \$8.3 million as of June 30, 2013 and December 31, 2012, respectively.

Pursuant to our acquisition of Metals USA, we assumed industrial revenue bonds with combined outstanding balances of \$12.3 million as of June 30, 2013 that have maturities through 2027. Additionally, we assumed mortgage obligations pursuant to our acquisition of Travel Main

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

which have outstanding balances of \$43.6 million as of June 30, 2013. The mortgages, which are secured by the underlying properties, have a fixed interest rate of 6.4% and scheduled amortization payments with a lump sum payment of \$39.2 million due October 2016.

Covenants

The Credit Agreement and the note purchase agreements related to our privately placed senior secured notes collectively require us to maintain a minimum net worth and interest coverage ratio and a maximum leverage ratio and include a change of control provision, among other things.

Additionally, our named 100%-owned domestic subsidiaries, which constitute the substantial majority of our subsidiaries, guarantee the borrowings under the revolving credit facility, the Indentures and the private placement notes. The subsidiary guarantors, together with Reliance, are required collectively to account for at least 80% of our consolidated EBITDA and 80% of consolidated tangible assets.

We were in compliance with all debt covenants as of June 30, 2013.

8. Equity

Common Stock

During the six months ended June 30, 2013, we issued 878,167 shares of common stock in connection with the exercise of employee stock options for total proceeds of approximately \$42.4 million.

Dividends

On July 23, 2013, our Board of Directors declared the 2013 third quarter cash dividend of \$0.33 per share, an increase of 10% compared to the 2013 second quarter cash dividend. The dividend is payable on September 13, 2013 to shareholders of record as of August 16, 2013.

During the six-months ended June 30, 2013 we declared and paid quarterly dividends of \$0.30 per share, or \$46.0 million in total, compared to quarterly dividend of \$0.15 per share, or \$22.5 million in total, in the same period in 2012.

Share-Based Compensation

On May 15, 2013, pursuant to the May 2011 Directors Equity Plan, which has been approved by the shareholders, 12,418 shares of restricted stock were automatically granted to the non-employee members of the Board of Directors. The awards include dividend rights and vest immediately upon grant. The recipients are restricted from trading the restricted stock for one year from date of grant. The fair value of the restricted stock granted was \$67.63 per share, the closing price of our common stock on the grant date.

On February 26, 2013, we granted 324,780 restricted stock units (RSUs) to key employees pursuant to the Amended and Restated Stock Option and Restricted Stock Plan. Each RSU consists of the right to receive one share of our common stock and dividend equivalent rights, subject to forfeiture, equal to the accrued cash or stock dividends where the record date for such dividends is after the grant date but before the shares vest. Each 2013 RSU granted has a service condition and cliff vests at December 31, 2015, if the recipient is an employee on that date. In addition to the service criteria, 134,725 of the RSUs granted in 2013 also have performance goals and vest only upon the satisfaction of the service and performance criteria. The fair value of the 2013 RSUs granted was \$65.73 per share, the closing price of our common stock on the grant date.

Share Repurchase Program

As of June 30, 2013, 7,883,033 shares of common stock remain authorized for repurchase under our stock repurchase program. No shares were repurchased in 2013 or 2012. Repurchased shares are redeemed and treated as authorized but unissued shares.

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss included the following:

	Foreign Currency Translation Gain	Unrealized Loss on Investments, Net of Tax	Minimum Pension Liability, Net of Tax	Accumulated Other Comprehensive Loss
	(in millions)			
Balance as of December 31, 2012	\$ 21.0	\$ (0.2)	\$ (22.3)	\$ (1.5)
Current-period change	(19.9)	0.2		(19.7)
Balance as of June 30, 2013	\$ 1.1	\$	\$ (22.3)	\$ (21.2)

Foreign currency translation adjustments are not generally adjusted for income taxes as they relate to indefinite investments in foreign subsidiaries. Unrealized loss on investments and minimum pension liability are net of taxes of \$0.1 million and \$13.4 million, respectively, as of June 30, 2013 and December 31, 2012.

We are currently involved with certain environmental remediation projects related to activities at former manufacturing operations of our wholly owned subsidiary Earle M. Jorgensen Company (EMJ) that were sold many years prior to our acquisition of EMJ in 2006. Although the potential cleanup costs could be significant, EMJ had insurance policies in place at the time they owned the manufacturing operations that are expected to cover the majority of the related costs. We do not expect that these obligations will have a material adverse impact on our financial position, results of operations or cash flows.

10. Earnings Per Share

Basic earnings per share exclude any dilutive effects of options, restricted shares, RSUs, warrants and convertible securities. Diluted earnings per share are calculated including the dilutive effects of options, restricted shares, RSUs, warrants and convertible securities, if any.

11. Condensed Consolidating Financial Statements

In November 2006 and April 2013, we issued senior unsecured notes in the aggregate principal amount of \$1.1 billion, at fixed interest rates that are guaranteed by our named 100%-owned domestic subsidiaries that also guarantee our credit facility. The accompanying consolidating financial information has been prepared and presented pursuant to Rule 3-10 of SEC Regulation S-X *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered*. The guarantees are full and unconditional and joint and several obligations of each of the guarantor subsidiaries. There are no significant restrictions on our ability to obtain funds from any of the guarantor subsidiaries by dividends or loans. The supplemental consolidating financial information has been presented in lieu of separate financial statements of the guarantors as such separate financial statements are not considered meaningful.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report contains certain statements that are, or may be deemed to be, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Our forward-looking statements include discussions of our business strategies and our expectations concerning future operations, margins, profitability, liquidity and capital resources. In some cases, you can identify forward-looking statements by terminology such as may, will, should, could, would, expect, plan, anticipate, believe, estimate, predict, potential and continue, the negative of these terms, and similar expressions. All statements contained in this report, other than statements of historical fact, are forward-looking statements. These forward-looking statements are based on management's estimates, projections and assumptions as of the date of such statements.

Forward-looking statements involve known and unknown risks and uncertainties and are not guarantees of future performance. Actual outcomes and results may differ materially from what is expressed or forecasted in these forward-looking statements as a result of various important factors, including, but not limited to, those disclosed in this report and in other reports we have filed with the Securities and Exchange Commission (the SEC). As a result, these statements speak only as of the date that they were made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law. Important risks and uncertainties about our business can be found in our Annual Report on Form 10-K for the year ended December 31, 2012 filed with the SEC.

2013 Acquisitions

On April 30, 2013, we acquired Travel Main Holdings, LLC (Travel Main), a real estate holding company with a portfolio of 18 real estate properties, all of which are leased by certain of our subsidiaries. The transaction value of \$75.6 million included the assumption of \$43.8 million of net indebtedness. The cash portion of the purchase price was funded with borrowings on our revolving credit facility.

On April 12, 2013, we acquired all the outstanding shares of Metals USA Holdings Corp. (Metals USA) for \$20.65 per share in cash, pursuant to which Metals USA has become a wholly owned subsidiary. Metals USA is one of the largest metal service center businesses in the United States and a leading provider of value-added processed aluminum, brass, copper, carbon steel, stainless steel, manufactured metal components and inventory management services. Metals USA sells its products and services to a diverse customer base and broad range of end markets, including the aerospace, auto, defense, heavy equipment, marine transportation, commercial construction, office furniture manufacturing, energy and oilfield service industries, among several others. This acquisition adds a total of 48 service centers strategically located throughout the United States to our existing operations and complements our existing customer base, product mix and geographic footprint. Net sales of Metals USA during the period from April 13, 2013 through June 30, 2013 were \$396.5 million.

The purchase price for Metals USA was \$766.8 million paid in cash at closing for the outstanding shares of Metals USA and the assumption of \$486.1 million of debt, representing a total transaction value of approximately \$1.25 billion. We funded the transaction and refinanced all but \$12.3 million of Metals USA indebtedness with a combination of proceeds from our amended and restated revolving credit facility, a new

\$500.0 million term loan, and proceeds from our recent \$500.0 million senior notes offering. See *Note 7 Debt* to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q. We incurred approximately \$11.4 million in transaction related costs which are included in warehouse, delivery, selling, general and administrative expenses.

2012 Acquisitions

Effective October 1, 2012, through our wholly owned subsidiary Feralloy Corporation (Feralloy), we acquired all the outstanding capital stock of GH Metal Solutions, Inc. (formerly known as The Gas House, Inc.) (GH), a value added processor and fabricator of carbon steel products located in Fort Payne, Alabama that will allow Feralloy to better serve the increasing demands of its diverse customer base. GH operates as a wholly owned subsidiary of Feralloy and had net sales of \$30.6 million for the six months ended June 30, 2013.

Table of Contents

Effective October 1, 2012, we acquired all the outstanding limited liability company interests of Sunbelt Steel Texas, LLC (Sunbelt), a value added distributor of special alloy steel bar and heavy-wall tubing products to the oil and gas industry headquartered in Houston, Texas with an additional location in Lafayette, Louisiana. Sunbelt had net sales of \$22.3 million for the six months ended June 30, 2013.

On July 6, 2012, we acquired substantially all of the assets of Airport Metals (Australia) Pty Ltd., a subsidiary of Samuel Son & Co., Limited, through our newly-formed subsidiary Bralco Metals (Australia) Pty Ltd. (Airport Metals). Airport Metals, based in Melbourne, operates as a stocking distributor of aircraft materials and supplies. Airport Metals had net sales of \$1.6 million for the six months ended June 30, 2013.

Effective April, 27, 2012, through our wholly owned subsidiary Precision Strip, Inc. (PSI), we acquired the assets of the Worthington Steel Vonore, Tennessee plant, a processing facility owned by Worthington Industries, Inc. The Vonore plant operates as a PSI location which processes and delivers carbon steel, aluminum and stainless steel products on a toll basis, processing the metal for a fee without taking ownership of the metal. The Vonore location had net sales of \$1.4 million for the six months ended June 30, 2013.

Effective April 3, 2012, we acquired all the outstanding limited liability company interests of National Specialty Alloys, LLC (NSA), a global specialty alloy processor and distributor of premium stainless steel and nickel alloy bars and shapes, headquartered in Houston, Texas with additional locations in Anaheim, California; Buford, Georgia; Tulsa, Oklahoma and Mexico City, Mexico. NSA had net sales of \$41.6 million for the six months ended June 30, 2013.

Effective February 1, 2012, through our wholly owned subsidiary Diamond Manufacturing Company, we acquired McKey Perforating Co., Inc. (McKey), headquartered in New Berlin, Wisconsin and its subsidiary, McKey Perforated Products Co., Inc., located in Manchester, Tennessee. McKey provides a full range of metal perforating and fabrication services to customers located primarily in the U.S. McKey had net sales of \$10.0 million for the six months ended June 30, 2013.

Three Months and Six Months Ended June 30, 2013 Compared to Three Months and Six Months Ended June 30, 2012

The following table sets forth certain income statement data for the three-month and six-month periods ended June 30, 2013 and 2012 (dollars are shown in millions and certain amounts may not calculate due to rounding):

Operating income	\$ 145.5	5.9%	\$ 186.2	8.4%	\$ 275.5	6.2%	\$ 370.8	8.2%

(1) Gross profit, calculated as net sales less cost of sales, and gross profit margin, calculated as gross profit divided by net sales, are non-GAAP financial measures as they exclude depreciation and amortization expense associated with the corresponding sales. The majority of our orders are basic distribution with no processing services performed. For the remainder of our sales orders, we perform first-stage processing, which is generally not labor intensive as we are simply cutting the metal to size. Because of this, the amount of related labor and overhead, including depreciation and amortization, are not significant and are excluded from our cost of sales. Therefore, our cost of sales is primarily comprised of the cost of the material we sell. We use gross profit and gross profit margin as shown above as measures of operating performance. Gross profit and gross profit margin are important operating and financial measures, as fluctuations in our gross profit and gross profit margin can have a significant impact on our earnings. Gross profit and gross profit margin, as presented, are not necessarily comparable with similarly titled measures for other companies.

Average selling price per ton sold, same-store (six months ended)	\$	1,783	\$	1,934	\$ (151)	(7.8%)

Tons sold and average selling price per ton sold amounts exclude our toll processing sales. Same-store amounts exclude the results of our 2013 and 2012 acquisitions.

In general, business activity in most all of our end markets declined slightly in the 2013 three and six-month periods when compared to the same periods in 2012, which put pressure on pricing and negatively impacted volumes during the periods, as well as one less shipping day. However, our exposure to the auto market, primarily through our toll processing operations, grew in the 2013 periods compared to 2012. Aerospace and energy (oil and gas) were both down, but continued to perform well relative to other end markets. Manufactured goods and heavy equipment decreased during the periods primarily due to decreased demand coming from the mining sector; however demand from agriculture equipment manufacturers increased. Non-residential construction continued to improve slowly and demand in this end market remains well below peak levels.

Our three-month and six-month periods ended June 30, 2013 average selling prices declined from the same periods in 2012 primarily due to lower mill pricing for most of our products. Our major commodity same-store selling prices changed during the three-month period ended June 30, 2013 from the same period in 2012 as follows: carbon steel down 9.3%; aluminum down 3.8%; stainless steel down 9.9%; and alloy down 7.8%. For the 2013 six-month period, our same-store average selling prices changed from the same period in 2012 as follows: carbon steel down 9.5%; aluminum down 3.8%; stainless steel down 11.3%; and alloy down 8.6%. As carbon steel sales represent approximately 50% of our sales dollars, changes in carbon steel prices have the most significant impact on changes in our overall average price per ton sold. Since we primarily purchase and sell our inventories in the spot market, the changes in our average selling prices generally fluctuate in accordance with the changes in the costs of the various metals we purchase.

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

The mix of products sold can also have an impact on our average selling prices. Our 2013 acquisition of Metals USA decreased our average selling prices due to their mix of products, which are primarily carbon steel products that generally have lower prices than the Company average.

Cost of Sales

	June 30,				Dollar Change	Percentage Change
	2013	% of Net Sales (dollars in millions)	2012	% of Net Sales		
	\$		\$			
Cost of sales (three months ended)	\$ 1,826.7	74.6%	\$ 1,640.3	74.2%	\$ 186.4	11.4%
Cost of sales (six months ended)	\$ 3,323.2	74.3%	\$ 3,350.8	74.5%	\$ (27.6)	(0.8%)

The increase in cost of sales in the three-month period ended June 30, 2013 and the slight decrease in the six-month period compared to the same 2012 periods are mainly due to increases in our tons sold resulting from our 2013 and 2012 acquisitions offset by lower mill pricing for most of our products. See *Net Sales* above for trends in both demand and costs of our products.

Table of Contents

Our inventory LIFO valuation reserve adjustment, which is included in our cost of sales and, in effect, reflects cost of sales at current replacement costs, resulted in a credit, or income, of \$5.0 million in the three-month period ended June 30, 2013 compared to a credit, or income, of \$7.5 million in the same period in 2012. Our LIFO reserve adjustment resulted in a credit, or income, of \$10.0 million in the six-month period ended June 30, 2013 compared to no charge or credit in the same period in 2012. Lower metal costs in 2013 as compared to December 31, 2012 levels resulted in LIFO income.

Gross Profit

	2013		June 30, 2012		Dollar Change	Percentage Change
	\$	% of Net Sales (dollars in millions)	\$	% of Net Sales		
Gross profit (three months ended)	\$ 621.6	25.4%	\$ 569.4	25.8%	\$ 52.2	9.2%
Gross profit (six months ended)	\$ 1,150.4	25.7%	\$ 1,147.2	25.5%	\$ 3.2	0.3%

The increase in our gross profit in the three-month period ended June 30, 2013 is primarily due to higher sales from our acquisition of Metals USA on April 12, 2013. See *Net Sales* and *Cost of Sales* for discussion on product pricing trends and our inventory LIFO valuation reserve adjustments, respectively.

Expenses

	2013		June 30, 2012		Dollar Change	Percentage Change

Same-store amounts exclude the results of our 2013 and 2012 acquisitions.

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

Our three and six-month periods ended June 30, 2013 expenses increased due to the additional expenses of our 2013 and 2012 acquisitions. The additional expenses provided by our 2013 and 2012 acquisitions were offset by lower variable costs, including profit-based compensation, as a result of lower levels of demand and profitability. Our three and six-month periods ended June 30, 2013 S,G&A expense as a percentage of net sales increased as compared to the same period in 2012 primarily due to lower average selling prices in the 2013 three and six-month periods compared to the same periods in 2012.

Our 2013 SG&A expenses include non-recurring charges of \$9.5 million in the 2013 second quarter and \$12.6 million in the six-month period related to the MUSA acquisition as well as the consolidation of an existing facility into another Reliance facility.

The increase in depreciation and amortization expense was mainly due to our 2013 and 2012 acquisitions and depreciation expense from our recent capital expenditures.

Operating Income

Operating income (six months ended)	\$ 275.5	6.2%	\$ 370.8	8.2%	\$ (95.3)	(25.7%)

Table of Contents

During the three and six-month periods ended June 30, 2013, we generated lower operating income due to higher S,G&A expenses partially offset by the higher gross profit dollars contributed by our 2013 and 2012 acquisitions. The lower operating income margins were primarily due to higher S,G&A expenses as a percentage of net sales due to declines in metal pricing.

Other Income (Expense)

	2013		June 30, 2012		Dollar Change	Percentage Change
	\$	% of Net Sales (dollars in millions)	\$	% of Net Sales		
Interest (three months ended)	\$ (22.1)	(0.9%)	\$ (15.0)	(0.7%)	\$ (7.1)	47.3%
Interest (six months ended)	\$ (35.2)	(0.8%)	\$ (29.5)	(0.7%)	\$ (5.7)	19.3%
Other expense, net (three months ended)	\$ (0.6)	0.0%	\$ (3.5)	(0.2%)	\$ 2.9	(82.9%)
Other income, net (six months ended)	\$ 2.3	0.1%	\$ 3.0	0.1%	\$ (0.7)	(23.3%)

The three and six-month periods ended June 30, 2013 interest expense increased due to the increased borrowings on our revolving credit facility, the new \$500.0 million term loan, and proceeds from our \$500.0 million senior notes offering to fund our 2013 acquisitions.

The change in other expense, net in the three-month period ended June 30, 2013 compared to the same period in 2012 was primarily due to lower foreign currency losses, as our intercompany balances with our Canadian operations decreased significantly, and higher returns on life insurance policies. The change in other income, net in the six-month period ended June 30, 2013 was due to higher foreign currency losses from the strengthening of the U.S dollar during the three-month period ended March 31, 2013.

Income Tax Rate

Our effective income tax rates for the three-month periods ended June 30, 2013 and 2012 were 33.3% and 34.3%, respectively. Our effective income tax rates for the six-month periods ended June 30, 2013 and 2012 were 31.4% and 33.7%, respectively. Permanent items that lowered our effective income tax rates from the federal statutory rate were not materially different in amounts during these periods and related mainly to company-owned life insurance policies, domestic production activities deductions and foreign income levels that are taxed at lower rates. Our 2013 six-month period effective income tax rate was favorably impacted by the settlement of certain tax matters.

Net Income Attributable to Reliance

	2013		June 30, 2012		Dollar Change	Percentage Change
	\$	% of Net Sales	\$	% of Net Sales		

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

(dollars in millions)

Net income attributable to Reliance (three months ended)	\$ 81.0	3.3%	\$ 108.8	4.9%	\$ (27.8)	(25.6%)
Net income attributable to Reliance (six months ended)	\$ 164.7	3.7%	\$ 225.0	5.0%	\$ (60.3)	(26.8%)

Our net income in the three and six-month periods ended June 30, 2013 declined primarily due to higher S,G&A expenses offset by contributions from our 2013 and 2012 acquisitions. The declines in our net income as a percentage of net sales in the 2013 periods when compared to the same periods in 2012 are due to declines in our selling prices.

Liquidity and Capital Resources

Operating Activities

Net cash provided by operating activities was \$283.9 million in the six-month period ended June 30, 2013 compared to net cash provided by operating activities of \$21.2 million in the same period in 2012. The increase of \$262.7 million is primarily due to lower inventory levels in an effort to improve our inventory turnover rate. To manage our working capital, we focus on our days sales outstanding and on our inventory turnover rate, as receivables and inventory are the two most significant elements of our working capital. At June 30, 2013, our days sales outstanding rate was approximately 41.7 days compared to 42.1 days at December 31, 2012. Our inventory turn rate (based on dollars) during the six-month period ended June 30, 2013 was about 4.2 times (or 2.9 months on hand), compared to our 2012 annual rate of 4.0 times (or 3.0 months on hand).

Table of Contents

Investing Activities

Net cash used in investing activities of \$860.5 million in the six-month period ended June 30, 2013 was mainly comprised of our acquisitions and capital expenditures. We spent \$794.7 million on acquisitions, net of cash acquired in the six-months ended June 30, 2013 compared to \$82.3 million during the same period in 2012. Capital expenditures were \$74.3 million for the six-month period ended June 30, 2013 compared to \$86.8 million during the same period in 2012. The majority of our 2013 capital expenditures relate to growth initiatives to expand or relocate existing facilities, adding or upgrading equipment, and ongoing maintenance requirements.

Financing Activities

Our net cash provided by financing activities of \$581.4 million in the six-month period ended June 30, 2013 was mainly comprised of net debt borrowings and dividend payments to our shareholders offset by proceeds received from the exercise of employee stock options. The net debt borrowings of \$597.0 million in the six-month period ended June 30, 2013 were primarily used to fund our acquisitions in 2013. We paid dividends to our shareholders of \$46.0 million during the six-month period ended June 30, 2013. Proceeds from exercises of stock options were \$42.4 million, a significant increase from \$9.7 million in the same period in 2012 driven by an increase in our stock price.

On July 23, 2013, our Board of Directors declared the 2013 third quarter cash dividend of \$0.33 per share, an increase of 10% compared to the 2013 second quarter cash dividend. We have increased our dividend 20 times since our IPO in 1994 and have paid regular quarterly dividends to our shareholders for 54 consecutive years.

Liquidity

Our primary sources of liquidity are our internally generated funds from operations and our \$1.5 billion revolving credit facility. Our total outstanding debt at June 30, 2013 was \$2.33 billion, compared to \$1.21 billion at December 31, 2012. At June 30, 2013, we had \$600.0 million in outstanding borrowings on our \$1.5 billion revolving credit facility.

On April 4, 2013, we entered into a syndicated Third Amended and Restated Credit Agreement (Credit Agreement) with 26 banks as lenders. The Credit Agreement amends and restates our existing \$1.5 billion unsecured revolving credit facility and provides for a \$500.0 million term loan, expiring April 4, 2018. The Credit Agreement includes an option to increase the revolving credit facility for up to an additional \$500.0 million at our request subject to approval of the lenders and certain other conditions. We intend to use the credit facility for working capital and general corporate purposes, including, but not limited to, capital expenditures, dividend payments, repayment of debt, stock repurchases, internal growth initiatives and acquisitions.

We also have various other separate revolving credit facilities in place for our operations in Asia and Europe with a combined credit limit of approximately \$20.3 million and with combined outstanding balances of \$12.7 million and \$8.3 million as of June 30, 2013 and December 31, 2012, respectively.

Pursuant to our acquisition of Metals USA, we assumed industrial revenue bonds with combined outstanding balances of \$12.3 million as of June 30, 2013 and maturities through 2027. Additionally, we assumed mortgage obligations pursuant to our acquisition of Travel Main which have outstanding balances of \$43.6 million as of June 30, 2013. The mortgages, which are secured by the underlying properties, have a fixed interest rate of 6.4% and scheduled amortization payments with a lump sum payment of \$39.2 million due October 2016.

Capital Resources

On November 20, 2006 we entered into an indenture (the 2006 Indenture), for the issuance of \$600 million of unsecured debt securities. The total debt issued was comprised of two tranches, (a) \$350 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.20% per annum, maturing on November 15, 2016 and (b) \$250 million aggregate principal amount of senior unsecured notes bearing interest at the rate of 6.85% per annum, maturing on November 15, 2036.

On April 12, 2013, we entered into an indenture (the 2013 Indenture and, together with the 2006 Indenture, the Indentures), for the issuance of \$500.0 million aggregate principal amount of senior unsecured notes at the rate of 4.50% per annum, maturing on April 15, 2023. The net proceeds from the issuance were used to partially fund the acquisition of Metals USA.

Table of Contents

Under the Indentures, the notes are senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured and unsubordinated obligations. The notes are guaranteed by our named 100%-owned domestic subsidiaries that guarantee our revolving credit facility. The senior unsecured notes include provisions that require us to make an offer to repurchase the notes at a price equal to 101% of their principal amount plus accrued and unpaid interest in the event of a change in control and a downgrade of our credit rating.

At June 30, 2013, we also had \$75.0 million of outstanding senior unsecured notes issued in a private placement of debt. On July 2, 2013, the outstanding notes matured and we paid off the notes with borrowings on our credit facility.

The \$500.0 million term loan due April 4, 2018 will amortize in quarterly installments, with an annual amortization of 5% during the first year, 5% during the second year, 10% during the third year, 10% during the fourth year and 10% during the fifth year, with the balance to be paid at maturity. The term loan may be prepaid without penalty.

Our net debt-to-total capital ratio was 37.6% at June 30, 2013, to our 2012 year-end rate of 23.8% (net debt-to-total capital is calculated as total debt, net of cash, divided by Reliance shareholders' equity plus total debt, net of cash). The increase is mainly due to indebtedness incurred in connection with our acquisition of Metals USA.

As of June 30, 2013, we had \$977.9 million of debt obligations coming due before our \$1.5 billion amended and restated revolving credit facility expires on April 4, 2018. We expect that we will have adequate cash flow and capacity on our revolving credit facility to fund our debt obligations as well as our working capital, capital expenditure, growth and other needs, and to maintain and potentially increase our dividends. We expect to continue our acquisition and other growth activities in the future and anticipate that we will be able to fund such activities with cash flow from operations and borrowings under our revolving credit facility.

Covenants

Our amended and restated revolving credit facility and the note purchase agreements related to our privately placed senior notes collectively require that we maintain a minimum net worth and interest coverage ratio, and a maximum leverage ratio and include change of control provisions, among other things. The interest coverage ratio for the twelve month period ended June 30, 2013 was approximately 8.9 times compared to the debt covenant minimum requirement of 3.0 times (interest coverage ratio is calculated as net income attributable to Reliance plus interest expense and provision for income taxes and plus or minus any non-operating non-recurring loss or gain, respectively, divided by interest expense). The leverage ratio at June 30, 2013, calculated in accordance with the terms of the Credit Agreement, was 39.2% compared to the debt covenant maximum amount of 60% (leverage ratio is calculated as total debt, inclusive of capital lease obligations and outstanding letters of credit, divided by Reliance shareholders' equity plus total debt). The minimum net worth requirement at June 30, 2013 was \$1.19 billion compared to the Reliance shareholders' equity balance of \$3.71 billion at June 30, 2013.

Additionally, our named 100%-owned domestic subsidiaries, which constitute the substantial majority of our subsidiaries, guarantee the borrowings under the revolving credit facility, the Indentures and the private placement notes. The subsidiary guarantors, together with Reliance, are required collectively to account for at least 80% of our consolidated EBITDA and 80% of consolidated tangible assets. Reliance and the subsidiary guarantors accounted for approximately 91% of our total consolidated EBITDA for the last twelve months and approximately 88% of total consolidated tangible assets as of June 30, 2013.

We were in compliance with all debt covenants at June 30, 2013.

Off-Balance-Sheet Arrangements

We do not have any off-balance-sheet arrangements or relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or variable interest entities, which are typically established for the purpose of facilitating off-balance-sheet arrangements or other contractually narrow or limited purposes.

As of June 30, 2013 and December 31, 2012, we were contingently liable under standby letters of credit in the aggregate amounts of \$57.0 million and \$31.6 million, respectively. The letters of credit related to insurance policies, construction projects and outstanding bonds.

Contractual Obligations and Other Commitments

As of June 30, 2013, Metals USA had \$38.3 million of future minimum payments under non-cancelable leases. In addition, with our acquisition of Travel Main, our operating lease obligations decreased by approximately \$56.2 million. We had no other material changes in commitments for capital expenditures, operating lease obligations or purchase obligations as of June 30, 2013, as compared to those disclosed in our table of contractual obligations included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Inflation

Our operations have not been, and we do not expect them to be, materially affected by general inflation. Historically, we have been successful in adjusting prices to our customers to reflect changes in metal prices.

Seasonality

Some of our customers are in seasonal businesses, especially customers in the construction and energy industries and related businesses. Our geographic, product and customer diversity reduces the impact of seasonal trends on our operating results. However, revenues in the months of July, November and December traditionally have been lower than in other months because of a reduced number of working days for shipments of our products resulting from vacation and holiday closures at some of our customers. We cannot assure you that period-to-period fluctuations will not occur in the future. Results of any one or more quarters are therefore not necessarily indicative of annual results.

Goodwill and Other Intangible Assets

Goodwill, which represents the excess of cost over the fair value of net assets acquired, amounted to \$1.66 billion at June 30, 2013, or approximately 21.9% of total assets, or 44.7% of Reliance shareholders' equity. Additionally, other intangible assets, net amounted to \$1.31 billion at June 30, 2013, or approximately 17.3% of total assets, or 35.4% of Reliance shareholders' equity. We review the recoverability of goodwill and other intangible assets deemed to have indefinite lives annually or whenever significant events or changes occur, which might impair the recovery of recorded amounts. Our most recently completed annual impairment tests of goodwill were performed as of November 1, 2012. We determined that the recorded amounts for goodwill were recoverable and that no impairment existed. Our 2013 annual impairment tests of goodwill will be performed as of November 1, 2013 or sooner, as deemed necessary. Other intangible assets with finite useful lives continue to be amortized over their useful lives. We review the recoverability of our long-lived assets whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable.

Critical Accounting Policies and Estimates

Edgar Filing: RELIANCE STEEL & ALUMINUM CO - Form 10-Q

In Management's Discussion and Analysis of Financial Condition and Results of Operations, we discuss our unaudited consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. When we prepare these financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates and judgments, including those related to accounts receivable, inventories, deferred tax assets, goodwill and intangible assets and long-lived assets. We base our estimates and judgments on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for our judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Our actual results may differ from these estimates under different assumptions or conditions.

See *Critical Accounting Policies and Estimates* in our Annual Report on Form 10-K for the year ended December 31, 2012 for further information regarding the accounting policies that we believe to be critical accounting policies and that affect our more significant judgments and estimates used in preparing our consolidated financial statements. We do not believe that any of the new accounting guidance implemented during 2013 changed our critical accounting policies.

New Accounting Guidance

See *Note 2 Impact of Recently Issued Accounting Guidance* to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for disclosure on new accounting guidance issued or implemented.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

In the ordinary course of business, we are exposed to various market risk factors, including fluctuations in interest rates, changes in general economic conditions, domestic and foreign competition, foreign currency exchange rates, metals pricing, demand and availability. During the six months ended June 30, 2013, we decreased our exposure to foreign currency rates as certain intercompany balances with our Canadian operations decreased significantly. There have been no other significant changes in our market risk exposures since December 31, 2012 other than the additional debt that we incurred in connection with the acquisition of Metals USA on April 12, 2013. See *Liquidity and Capital Resources*. Also, see *Item 7A - Quantitative and Qualitative Disclosures About Market Risk* in our Annual Report on Form 10-K for the year ended December 31, 2012 for further discussion on quantitative and qualitative disclosures about market risk.

Item 4. Controls And Procedures

Under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to and as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of the end of the period covered in this report, the Company's disclosure controls and procedures are effective.

There have been no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
