Item 11. Executive Compensation.

Executive Summary

We are a premier juvenile products company originally founded in 1985 and create branded juvenile safety and infant care products (targeted for ages 0-3 years) that are intended to deliver a diverse range of parenting solutions to families. Our industry is highly competitive and has many participants, and our ability to compete effectively in our industry is dependent in part on our ability to attract, motivate and retain key management personnel and other qualified employees. The Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended over time to bring base salaries and total executive compensation in line with approximately the median (50th percentile) of the companies represented in our peer group. Short-term incentive compensation, based on the achievement of specified goals and objectives, may be awarded in the form of a cash performance bonus. We also provide incentive compensation in the form of equity awards to reward our executives for long-term company performance and to align their interests with the interests of our stockholders. Total compensation may vary significantly from year-to-year based on a combination of total company and individual performance.

Company Performance in 2014

Fiscal 2014 was a transformative year for our company, with several changes in executive leadership and our senior management team. As we continued to focus our strategy to improve top-line growth and profitability by focusing on developing and selling higher-margin products representing our own core brands of Summer®, SwaddleMe®, and Born Free® branded products, we completed the exit of our licensing arrangements with Disney® and Carters® begun in 2013. As a result, net sales in fiscal 2014 were lower than fiscal 2013, as reflected in the following chart:

While improvements were made in 2014 compared to 2013, we unfortunately did not achieve all of our 2014 financial goals and, therefore, no incentives were paid under our annual short-term cash incentive plan for performance in 2014.

2014 Pay Decisions

Our pay decisions in 2014 were driven largely by changes in our executive and senior management teams, with several new hires occurring in 2014. Our equity awards granted in 2014 were generally below the market 25th percentile for similar companies. These awards were granted to help retain and/or recruit key executive and employee talent.

The following chart shows the mix of total direct compensation actually earned by our Chief Executive Officer for 2014.

CEO 2014 Total Direct Compensation

Compensation Philosophy and Objectives

Our Board has appointed a Compensation Committee consisting of independent directors as required by applicable SEC and Nasdaq Stock Market rules. The Compensation Committee is authorized to determine and approve, or make recommendations to our Board with respect to, the compensation of our Chief Executive Officer and our other executive officers and to grant or recommend the grant of stock-based compensation to our Chief Executive Officer and other executive officers. The Compensation Committee also reviews our compensation policies and practices for all employees.

Edgar Filing: Summer Infant, Inc. - Form 10-K/A

Our philosophy is to compensate our executives at levels that enable us to attract, motivate and retain highly qualified executives. As our business evolves, we seek to foster a performance-oriented culture, where individual performance is aligned with organizational objectives. We will continue to establish an annual bonus program designed to reward individuals for performance based primarily on our financial results and their achievement of personal and corporate goals that contribute to our long-term goal of building stockholder value. Grants of stock-based awards are intended to provide additional incentive to work to enhance long-term total return to stockholders and to align the interests of our executives with those of our stockholders. Total compensation levels reflect the executive's position, responsibilities, tenure, individual experience and achievement of goals. As a result of our performance-based philosophy, compensation levels may vary from year-to-year and among our various executive officers with fixed and variable pay components.

Compensation Components

Each year the Compensation Committee reviews the various components of executive compensation to determine an appropriate mix for each named executive officer, as described below. In determining each component of an executive's compensation, numerous factors are considered, including:

- the individual's particular background and circumstances, including prior relevant work experience;
- the demand for individuals with the individual's specific expertise and experience;
- the individual's role with us and the compensation paid to similar positions determined through benchmark studies;
- the individual's performance and contribution to the achievement of company goals and objectives;
- comparison to other executives within our company; and
- the overall financial performance of our company.

Our policy for allocating between short-term and long-term compensation is to ensure adequate annual cash compensation to attract and retain personnel, while providing incentives (in the form of equity awards) to maximize long-term value for our company and our stockholders. Accordingly, (i) we provide cash compensation in the form of base salary and annual incentive bonuses to meet competitive salary norms and reward good performance on an annual basis and (ii) we provide non-cash compensation in the form of stock-based awards to reward superior performance against long-term objectives.

Base Salary. The Compensation Committee strives to provide that the named executive officers are paid a base salary that is competitive with salaries paid by comparable companies for similar work, based on each executive's experience and performance. As noted below in

Compensation Benchmarking, we target cash compensation at or below market median levels to help attract and retain executive talent. When setting executive pay, the Compensation Committee considers a combination of factors as outlined in the bulleted list above. In addition, in the case of new hires, the Compensation Committee will also consider the current recruitment market and negotiations with the specific individual.

Following the end of each fiscal year, the Compensation Committee reviews executive officers' base salaries, including the Chief Executive Officer's salary, based on a review of performance, achievement of specific short-term goals and our company's performance in the prior year. The Compensation Committee also meets with the Chief Executive Officer to review her base salary recommendations for other named

Edgar Filing: Summer Infant, Inc. - Form 10-K/A

executive officers, including her performance evaluation of all such persons and the basis of her recommendations, the scope of each person's duties, oversight responsibilities and individual objectives and goals against results achieved for the applicable fiscal year.

Annual Incentive Bonus. Our company generally uses short-term cash-based incentive compensation programs to recognize and reward executive officers and other employees who contribute meaningfully to an increase in stockholder value and profitability. In general, the funding of the annual incentive bonus pool is dependent upon our company achieving certain financial targets, historically earnings before interest, taxes, depreciation and amortization (before deducting incentive compensation). Each named executive officer has the ability to receive up to 200% of his or her target bonus award opportunity based on our company and the individual achieving stretch (or superior) performance levels. The percentage of the bonus actually paid to each named executive officer depends on the attainment of corporate financial targets and individual performance goals.

Long-Term Equity Incentive Awards. The Compensation Committee believes that stock-based compensation ensures that our executive officers have a continuing stake in the long-term success of our company. In general, long-term incentive awards are targeted between the 25th and 50th percentiles of the compensation peer group with appropriate adjustments for individual and company performance, though historically awards have generally been at or below the 25th percentile market level. Long-term incentive awards have been in the form of stock options or restricted stock awards, or a combination of both types of awards. Vesting for these awards extends over a four-year period, with 25% of the total number of shares subject to an award vesting each year beginning on

the first anniversary of the date of grant. If a named executive officer leaves our company prior to the completion of the applicable vesting schedule, the unvested portion of the option or stock grant is forfeited unless otherwise provided in his or her employment agreement or termination agreement. The Compensation Committee also grants equity awards outside of the regular annual grant program for new hires, promotions or other reasons deemed appropriate by the committee.

Perquisites and Fringe Benefits. We provide only certain executive fringe benefits. Our executive officers receive health and welfare benefits, such as group medical, dental, life and long-term disability coverage, under plans generally available to all other employees. We believe that our executives should be able to provide for their retirement needs from the total annual compensation they earn based on our performance. Accordingly, other than an employer matching contribution under our 401(k) plan, which is the same that we provide all of our employees, we do not offer our executives any nonqualified pension plans, supplemental executive retirement plans, deferred compensation plans or other forms of compensation for retirement. We may, however, provide for fringe benefits in individually negotiated executive employment agreements in order to attract and retain key executives who are essential to the long-term success of our company.

Role of the Compensation Committee and Management

The Compensation Committee currently determines the compensation of our Chief Executive Officer and our other executive officers. Annually, our Compensation Committee evaluates the performance of our Chief Executive Officer and determines the compensation of our Chief Executive Officer in light of the goals and objectives of our compensation program for that year. Our Compensation Committee annually assesses the performance of our other executive officers and considers recommendations from our Chief Executive Officer when determining the compensation of our other executive officers. As discussed below, the Compensation Committee also considers input from other independent directors, our compensation consultant and benchmarking studies and surveys, but retains absolute discretion as to whether to adopt any recommendations as it deems appropriate.

At the request of our Compensation Committee, our Chief Executive Officer and SVP of Human Resources attend our Compensation Committee meetings, including meetings at which our compensation consultant is present. This enables our Compensation Committee to review with senior management the corporate and individual goals that are important to achieve our overall success. Although the participation of management could influence performance targets and individual goals, including the targets and goals set for our Chief Executive Officer, our Compensation Committee ultimately makes all determinations regarding individual and corporate goals and targets. Our Chief Executive Officer does not attend any portion of meetings at which her compensation is discussed.

Additionally, as part of ongoing efforts to drive outstanding operational and financial performance, the Compensation Committee will, in consultation with its independent compensation consultant, consider changes to our compensation programs as appropriate in response to input from stockholders through our annual Say on Pay vote and evolving factors such as the business environment and competition for talent.

The Compensation Committee has authority to retain (at our company's expense) outside counsel, compensation consultants and other advisors to assist as needed. The Compensation Committee considers input and recommendations from our outside compensation consultants in connection with its review of our company's compensation programs and its annual review of the performance of the other executive officers. The Compensation Committee has engaged the services of an independent compensation consultant, Pearl Meyer & Partners, LLC, or PM&P. As further described below, PM&P has assisted the Compensation Committee from time to time with executive compensation matters. The Compensation Committee retains PM&P directly, although in carrying out assignments PM&P also interacts with management when necessary and appropriate to obtain compensation and performance data. As required under SEC rules, the Compensation Committee reviews the services of its compensation consultants to evaluate whether any conflicts of interest are raised, taking into consideration certain factors, including whether the consultant provides any other services to our company, the amount of fees our company pays to the consultant, whether there are any business or personal relationships with an executive officer of our company or with any committee member, and whether the consultant owns

Edgar Filing: Summer Infant, Inc. - Form 10-K/A

any stock of our company. The Compensation Committee determined, based on its evaluation, that the work of PM&P has not created any conflict

of interest. On an annual basis, the Compensation Committee will continue to monitor the independence of its compensation consultants.

Role of the Compensation Consultant

The Compensation Committee retains PM&P to provide advice on various compensation matters and recommends compensation program designs, including market trends, peer group composition and compensation for our executive officers. PM&P reports directly to the Compensation Committee, meets the independence requirements of applicable SEC rules and does not provide any other services to our company beyond those requested or approved by the Compensation Committee. PM&P regularly attends meetings of the Compensation Committee, either in person or by telephone. In 2014, PM&P assisted the Compensation Committee with the following:

- attended Compensation Committee meetings as requested;
- provided advice regarding an analysis of the company's peer group;
- provided advice regarding and assessment of the competitiveness and appropriateness of the structure of non-employee director compensation;
- provided advice and analysis of the competitiveness of the compensation of the CEO and other senior executives; and
- reviewed and provided comments on named executive officers' compensation and the disclosure regarding executive compensation in the proxy statement for the 2014 annual meeting of stockholders.

Compensation Benchmarking

In determining compensation levels, the Compensation Committee believes that it is important when making compensation-related decisions to be informed as to the practices of publicly-held companies of similar size, revenue and market focus. As a result, the Compensation Committee relies on its independent compensation consultant to help define the appropriate competitive market using a combination of peer group companies and industry-specific compensation surveys.

In 2014, the Compensation Committee reviewed, with the assistance of PM&P, our company's peer group used in making pay decisions regarding executive officer and director compensation for 2015. The Compensation Committee determined to remove five companies from its prior peer group (A.T. Cross Company; iRobot Corporation; Kid Brands, Inc.; Physician Formula Holdings, Inc.; Zumiez, Inc.) and added nine new companies (Black Diamond, Inc.; Cobra Electronics Corp.; CSS Industries Inc.; Emerson Radio Corp.; Escalade Inc.; Joe's Jeans Inc.;

Edgar Filing: Summer Infant, Inc. - Form 10-K/A

Leapfrog Enterprises Inc.; Nautilus Inc.; ZAGG Inc.) to more appropriately align the peer group with the current size of the company. The peer group now consists of:

Delta Apparel, Inc.
Emerson Radio Corp.

Named Executive Officer Compensation in 2014

Our named executive officers for 2014 were Carol E. Bramson, Chief Executive Officer; Kenneth Price, President of Global Sales & Marketing; William E. Mote, Chief Financial Officer; Jason Macari, our former Chief Executive Officer until January 31, 2014; and David Hemendinger, our former Chief Information Officer until October 2014.

Base Salaries. In 2014, three of our named executive officers were new hires, and their base salaries were the result of individual negotiations with those officers. As is our practice, we review base salaries for our existing named executive officers each fiscal year. In 2014, no increases were approved for named executive officers who were not new hires in 2014. Please see the Summary Compensation Table below for the actual amounts paid to our named executive officers in 2014.

Annual Incentive Bonus. Our 2014 incentive bonus program was broad-based with executive officers and all other employees eligible to participate. The funding of the 2014 annual incentive bonus cash pool was dependent upon the achievement of a certain level of profitability, namely our company's pre-bonus EBITDA (earnings before interest, taxes, depreciation and amortization). For 2014, the target pre-bonus EBITDA was \$15,850,000, which if achieved would result in a total cash bonus pool of \$1,900,000. The actual amount of the cash bonus pool to be funded for 2014 was dependent on the level of achievement of that target, as set forth below:

| EBITDA Achievement | Pre-Bonus EBITDA Triggers (in thousands) | Bonus Payout | Total Payout (in millions) |
|--------------------|---|-----------------|----------------------------------|
| 140% + | \$ 22,190 | 200% | \$ 3.8 |
| 130 - 139% | \$ 20,605 | 175% | \$ 3.3 |
| 120 - 129% | \$ 19,020 | 150% | \$ 2.9 |
| 110 - 119% | \$ 17,435 | 125% | \$ 2.4 |
| 100-109% | \$ 15,850 | 100% | \$ 1.9 |
| 100% | \$ 15,850 | 100% | \$ 1.9 |
| 93% - 99% | \$ 14,741 | 75% | \$ 1.4 |
| 86% - 92% | \$ 13,631 | 50% | \$ 1.0 |
| 80% - 85% | \$ 12,680 | 25% | \$ 0.5 |
| < 80% | | No Bonus | |

Following the end of 2014, the Compensation Committee determined that pre-bonus EBITDA for 2014 did not meet the threshold amount needed to fund the cash pool for the annual incentive bonus and therefore did not fund the annual incentive bonus pool in 2014. As a result, no cash bonuses were paid to our named executive officers or any other employees for 2014 performance. Pursuant to the terms of their agreements with our company described below, Ms. Bramson received a \$100,000 bonus and Mr. Price received a \$50,000 bonus for 2014.

Long-Term Equity Incentive Awards. For 2014, our annual equity-based incentive compensation awards for executive officers and senior management employees were in the form of restricted stock awards and stock options. The amount of annual equity-based awards granted to executive officers who were not new hires during 2014 reflected the executive's position within our company, their individual performance and equity-based awards by comparable companies for comparable positions, with the goal to bring the executive within the 25th percentile of such comparable companies. The vesting schedule for our annual equity-based awards is 25% per year, with vesting beginning on the first anniversary of the grant date. The vesting schedule is designed to encourage executives to continue in the employ of our company. Each executive forfeits the unvested portion, if any, of the equity-based awards if the executive's service to our company is terminated for any reason, except as may otherwise be determined by our Board. Our three new named executive officers in 2014 received equity grants in connection with

their hiring.

Upon the commencement of his employment, Mr. Price received a stock option to purchase 75,000 shares of our common stock at an exercise price equal to the closing price of the common stock on the date of grant, vesting over three years in equal annual installments, and a restricted stock award of 25,000 shares, vesting in full on the first anniversary of the date of grant. If these events occur, the employee will be entitled to a cash payment equal to a percentage of his or her then current annual base salary, continued benefits and any earned or accrued, but

At the end of such 18-month period, all unexercised, vested stock options shall remain exercisable and shall not terminate until 90 days following the end of such 18-month period, and any remaining unvested equity awards will be forfeit. If Mr. Macari breaches certain covenants under the Separation Agreement, we may suspend vesting of the equity awards and payment of any consideration to Mr. Macari and seek to recover consideration paid to Mr. Macari, and Mr. Macari will be deemed to have resigned from his position as a director of our company. Mr. Macari remains a director of our company, provided that he has agreed to resign from our Board of Directors on the earlier of (i) a deemed resignation in connection with the breach by him of certain covenants under the Separation Agreement, (ii) his voluntary resignation and (iii) the date eighteen months from the Separation Date.
