LUXOTTICA AND ESSILOR, A NEW GLOBAL PLAYER IN THE EYEWEAR MARKET

Read the message to employees from our Chairman, Leonardo Del Vecchio: This is the achievement of a life-time dream. With the announcement of our agreement with Essilor, we prepare ourselves to take a major step forward in the achievement of our vision: offering a product where integration between frames and lenses is the main reason for its success.

On Monday January 16, Delfin, the majority stakeholder in the Luxottica Group, and Essilor (the world's leading ophthalmic optics company) announced they had signed an agreement designed to create an integrated player in the eyewear industry. The marriage between Luxottica and Essilor would allow them to create a new group which would stand in an outstanding position to propose a comprehensive offering combining a strong brand portfolio, global distribution capabilities and complementary expertise in ophthalmic lenses, prescription frames and sunglasses.

With this agreement my dream to create a major global player in the eyewear industry, fully integrated and excellent in all its parts, comes finally true. Finally, after fifty years, two products which are naturally complementary, namely frames and lenses, will be designed, manufactured and distributed under the same roof, said Leonardo Del Vecchio, Chairman of Delfin and Executive Chairman of Luxottica Group, as he announced the deal.

Massimo Vian, CEO Product and Operations, described the deal as a fundamental page in the story of our company: We now have extraordinary opportunities to grow. It is a future not yet written that hinges on research and development, creativity, wealth of expertise and know-how. I am sure that you will seize this opportunity and play an active role in this very exciting challenge. Today, the best way to contribute to this new development phase is to remain focused on the execution of our business projects.

WHO IS ESSILOR

The world's leading ophthalmic optics company, Essilor designs, manufactures and markets a wide range of lenses to improve and protect eyesight. Its mission is to improve lives by improving sight. Its flagship brands are Varilux®, Crizal®, Transitions®, Eyezen, Xperio®, Foster Grant®, Bolon and Costa®. It also develops and markets equipment, instruments and services for eyecare professionals. Essilor reported consolidated revenue of more than 6.7 billion in 2015 and employs 61,000 people worldwide. It

markets its products in more than 100 countries and has 32 plants, 490

prescription laboratories and edging facilities, as well as five research and development centers around the world. By joining forces today, these two international players can now accelerate their global expansion to the benefit of customers, employees and shareholders as well as the industry as a whole, said Hubert Sagnières, Chairman and CEO of Essilor.
