**Incorporation by Reference**

The information contained in this Report on Form 6-K, excluding the information set forth in Exhibit No. 1, shall be incorporated by reference in the prospectuses relating to the Registrant's securities contained in the Registrant's Registration Statements on Form F-3 (File Nos. 333-228295, 333-228294 and 333-220373), as such prospectuses may be amended or supplemented from time to time.

Westpac today provided an update on accounting provisions for remediation associated with authorised representatives in relation to certain ongoing advice service fees.

Based on the information currently available, Westpac today said that its net profit attributable to owners of Westpac in First Half 2019 will be reduced by \$357 million for accounting provisions associated with this matter.

The \$510 million provision (pre-tax) is based on a range of accounting assumptions relating to potential payments of \$297 million (pre-tax), interest costs of \$138 million (pre-tax) and \$75 million (pre-tax) in remediation program costs. That part of the current estimated provision which relates to potential payments represents around 31% of the ongoing advice service fees collected over the period which compares to 28% estimated for salaried planners.

The final cost of remediation will not be known until all relevant information is available and payments have been made.

We are yet to finalise our remediation approach which may change following industry and regulator discussions. This may alter the estimates used in determining this provision.
