PART I-FINANCIAL INFORMATION

Item 1. Financial Statements.

Registrant's financial statements are filed herewith following the signature page.

Item 2. Management's Discussion and Analysis or Plan of Operation.

This Form 10-QSB, press releases and certain information provided periodically in writing or orally by our officers or our agents contain statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act, as amended; Section 21E of the Securities Exchange Act of 1934; and the Private Securities Litigation Reform Act of 1995. The words "may", "would", "could", "will", "expect", "estimate", "anticipate", "believe", "intend", "plan", "goal", and similar expressions and variations thereof are intended to specifically identify forward-looking statements. These statements appear in a number of places in this Form 10-QSB and include all statements that are not statements of historical fact regarding the intent, belief or current expectations of us, our directors or our officers, with respect to, among other things: (i) our liquidity and capital resources; (ii) our financing opportunities and plans; (iii) our ability to attract customers to generate revenues; (iv) market and other trends affecting our future financial condition or results of operations; (v) our growth strategy and operating strategy; and (vi) the declaration and/or payment of dividends.

Investors and prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements as a result of various factors. The factors that might cause such differences include, among others, those set forth in Part I, Item 2 of this quarterly report on Form 10-QSB, entitled Management's Discussion and Analysis or Plan of Operation, including without limitation the risk factors contained in the Company's annual report on Form 10-KSB/A for period ending December 31, 2003. Except as required by law, we undertake no obligation to update any of the forward-looking statements in this Form 10-QSB after the date of this report.

General

Findex.com, Inc. ("Findex" or the "Company", and collectively referred to as "we", "us" or "our", in each case as required by the context) is a developer, publisher, and distributor/seller of off-the-shelf consumer and organizational software products. The common thread among the Company's products is a customer constituency that shares a devotion to or interest in Christianity and faith-based inspirational values. We are focused on becoming the premier provider of Bible study and related faith-based software products and content to the domestic and international markets through ongoing internal development of new products, expansion and upgrade of existing products, and strategic product line and/or corporate acquisitions and licensing.

Our religious software titles are currently divided among the following six categories:

- o Bible Study
- o Financial/Office Management Products for Churches and other Faith-Based Ministries
- o Print & Graphic Products
- o Pastoral Products
- o Children's Products
- o Language Tutorial Products.

Results Of Operations

Our software products have a significant seasonality to their revenues. More than 50% of our annual sales are expected to occur in the five months of September through January; the five months of April through August are generally expected to be the weakest, historically generating only about 33% of our annual sales.

The Company had a one-time, non-recurring write down to accrued royalties of approximately \$584,000 during the nine months ended September 30, 2003 and a write down to reserve for rebates payable from a change in accounting estimate of approximately \$266,000 during the nine months ended September 30, 2004. During the nine months ended September 30, 2003 and 2004, we wrote down distinctly different categories of obsolete inventory approximating \$61,000 and \$32,000 for these periods, respectively. In addition, during the quarter ended September 30, 2004 the Company recognized approximately a \$1,000,000 gain from extinguishment of debt which is classified as an extraordinary item and a non-recurring expense of approximately \$155,000 related to a settlement with an institutional private equity investor. The extinguishment of debt is a direct result from settling with various vendors and content providers for lump-sum payments at a reduced amount of balances owed. The non-recurring expense is a direct result of the Company coming to terms with such institutional private equity investor for early termination of a certain investment agreement, originally entered into in June 2001. These non-recurring items had no effect on the cash flow statement. Net of these one-time adjustments, our net income decreased approximately \$77,000 for the three months ended

Edgar Filing: FINDEX COM INC - Form 10QSB

September 30 from a net loss of approximately \$116,000 for 2003 to a net loss of approximately \$193,000 for 2004 and decreased approximately \$99,000 for the nine months ended September 30 from a net loss of approximately \$30,000 for 2003 to a net loss of approximately \$129,000 for 2004. By excluding our interest, taxes, depreciation, and amortization from net income, our EBITDA increased approximately \$603,000 for the three months ended September 30 from EBITDA loss of approximately \$43,000 for 2003 to EBITDA earnings of approximately \$560,000 for 2004 and increased approximately \$391,000 for the nine months ended September 30 from EBITDA earnings of approximately \$782,000 for 2003 to EBITDA earnings of approximately \$1,173,000 for 2004. These net income and EBITDA results include the adjustments noted above. Net of the adjustments, our EBITDA increased approximately \$71,000 for the nine months ended September 30 from an EBITDA earnings of approximately \$259,000 for 2003 to an EBITDA earnings of approximately \$330,000 for 2004.

Overall, interest expense for the three and nine months ended September 30, 2004 decreased by approximately \$14,000 and \$30,000 respectively compared to 2003. This is due to the Company reducing its trade payables and meeting the scheduled terms. Furthermore, the note liabilities interest was reduced due to the reclassification of the note payable in the fourth quarter of 2003. Amortization expense related to the software license decreased for the three and nine months ended September 30, 2004 compared to 2003 as a result of the final settlement with The Learning Company, which extended the life of the license indefinitely. Amortization expense related to software development costs increased approximately \$75,000 and \$225,000 for the three and nine months ended September 30, 2004 compared to 2003. This is a direct result from QuickVerse® 8.0 shipping in late December 2003 and Membership Plus® 8.0 shipping in January 2004.

Revenues

We recognize software revenue net of estimated returns and allowances for returns, price discounts and rebates, upon shipment of product, which is when title passes, provided that collection of the resulting receivable is probable and we have no significant obligations. Revenue from inventory out on consignment is recognized when the consignee sells the product. Revenue associated with advance payments from customers is deferred until products are shipped. Revenue for software distributed electronically via the Internet is recognized upon delivery.

Product return reserves are based upon a percentage of total retail and direct sales for the period and may increase or decrease as actual returns are processed. Product returns or price protection concessions that exceed our reserves could materially adversely affect our business and operating results and could increase the magnitude of quarterly fluctuations in our operating and financial results. Product returns from distributors and Christian bookstores are allowed primarily in exchange for new products or for credit towards purchases as part of a stock-balancing program. These returns are subject to certain limitations that may exist in the contract that we have with them. Under certain circumstances, such as termination or when a product is defective, distributors and bookstores could receive a cash refund if returns exceed amounts owed. Returns from sales made directly to the consumer are accepted within 45 days of purchase and are issued a cash refund.

Software products are sold separately, without future performance such as upgrades or maintenance, and are sold with post contract customer support (PCS) services, customer service and technical support assistance. In connection with the sale of certain products, we provide a limited amount of free technical support assistance to our customers. We do not defer the recognition of revenue associated with sales of these products, since the cost of providing this free technical support is insignificant. We accrue the estimated associated costs of providing this free support upon product shipment. We also offer several plans under which customers are charged for technical support assistance. For plans where we collect fees in advance, we recognize revenue over the period of service, which is generally one year.

Shipping and handling costs in connection with our software products are expensed as incurred and included in cost of goods sold.

Gross revenues increased approximately \$269,000 for the three months ended September 30 from approximately \$856,000 for 2003 to approximately \$1,125,000 for 2004 and increased approximately \$1,026,000 for the nine months ended September 30 from approximately \$2,872,000 for 2003 to approximately \$3,898,000 for 2004. Such increase is due to the Company's release of an enhanced version of our flagship product, QuickVerse®, in late fourth quarter of 2003 and the release of an enhanced version of our top financial and data management product, Membership Plus®, during the first quarter of 2004. The Company also released an enhanced version of our QuickVerse® PDA in late third quarter of 2004. Although there were new product releases during the first three quarters of 2003, the retail value of the products were significantly lower than the QuickVerse® and Membership Plus® titles and ranged from \$19.95 to \$39.95.

Sales returns and allowances only increased approximately \$2,000 for the three months ended September 30 from approximately \$95,000 for 2003 to approximately \$97,000 for 2004 and increased approximately \$92,000 for the nine months ended September 30 from approximately \$276,000 for 2003 to approximately \$368,000 for 2004 and decreased as a percentage of gross sales from approximately 11.0% and 9.6% for the three and nine months ended September 30, 2003 to approximately 8.6% and 9.4% for the three and nine months ended September 30, 2004, respectively. The decrease for sales returns and allowances as a percentage for the three months ended September 30 is a direct result of selling some product to be liquidated after the new version of product line is released, and the liquidated product is not subject to return. The slight decrease for the nine months ended September 30 is attributable to maintaining our current product lines on the retail shelves and not issuing price protections in anticipation for the next product version release and continues with the downward trend for the year.

Cost of Sales

Edgar Filing: FINDEX COM INC - Form 10QSB

Cost of sales consists primarily of royalties to third party providers of intellectual property, the direct costs and manufacturing overhead required to reproduce, package and ship the software products, and the amortized software development costs. The direct costs and manufacturing overhead decreased from approximately 21% of gross revenues for the three months ended September 30, 2003 to approximately 19% of gross revenues for the three months ended September 30, 2004 and increased from approximately 18% of gross revenues for the nine months ended September 30, 2003 to approximately 19% of gross revenues for the nine months ended September 30, 2004. The decrease for the three months reflects our ability to purchase more materials in larger volumes at a reduced price per unit as well as our ability to outsource to several new vendors with competitive prices. The overall increase for the nine months reflects a steady 19% of gross revenues for the year 2004 and results from the increase in the amortization of software development costs while the direct costs continue to decrease. The amortization recognized during the three and nine months ended September 30, 2003 resulted from several new software releases in 2003 and the continued amortization of those products released in 2002. Furthermore, the amortization increase for the three and nine months ended September 30, 2004 corresponds with the December 2003 release of QuickVerse® 8.0 and the January 2004 release of Membership Plus® 8.0. The direct costs and manufacturing overhead percentage is expected to continue at the 2004 levels as working capital remains more consistent and as more development projects are implemented.

Royalties to third party providers of intellectual property increased approximately \$111,000 and \$74,000 for the three and nine months ended September 30 from approximately \$47,000 and \$199,000 for 2003 to approximately \$158,000 and \$273,000 for 2004, respectively. The royalty rate as a percentage of gross revenues increased from approximately 6% of gross revenues for the three months ended September 30, 2003 to approximately 14% for the three months ended September 30, 2004, whereas the royalty rate as a percentage of gross revenues for the nine months ended September 30, 2003 and 2004 remained at 7% of gross revenues. The increase of royalties for the three months reflects a steady increase of retail sales for the year of 2004. During the same time period in 2003, our sales were primarily focused on upgrade sales and pre-booking orders for the QuickVerse® 8.0 release in late December 2003. Furthermore, during the third quarter of 2004 we sold some product to a liquidator at a reduced price, which increased the effective royalty rate.

Software development costs are expensed as incurred until technological feasibility has been established, at which time development costs are capitalized until the software title is available for general release to customers. Capitalized costs are amortized on a product-by-product basis using the greater of straight-line amortization over the estimated life of the product or on the ratio of current revenues from the product to the total projected revenue over the life of the product. Generally, we consider technological feasibility to have been established with the release of a beta version for testing. Software development costs are summarized in the table below. The increase in capitalization from 2003 to 2004 reflects that QuickVerse® 8.0, and other projects, were nearing the end of their development during 2003 while several new projects including an upgraded version of QuickVerse, Membership Plus, and QuickVerse PDA were being developed during 2004. The increase in amortization from 2003 to 2004 reflects the release of QuickVerse® 8.0 and Membership Plus® 8.0 during the 4th quarter of 2003 and the 1st quarter of 2004.

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2003	2004	2003	2004
Beginning balance	\$ 385,746	\$ 504,497	\$ 280,502	\$ 584,706
Capitalized	152,998	237,148	366,101	415,196
Amortized (cost of sales)	64,358	139,369	172,217	397,626
Ending balance	<u>\$ 474,386</u>	<u>\$ 602,276</u>	<u>\$ 474,386</u>	<u>\$ 602,276</u>
Research and development expense (General and administrative)	<u>\$ 18,500</u>	<u>\$ 532</u>	<u>\$ 116,294</u>	<u>\$ 44,228</u>

Sales, General and Administrative

Sales expenses increased approximately \$104,000 and \$279,000 for the three and nine months ended September 30 from approximately \$190,000 and \$512,000 for 2003 to approximately \$294,000 and \$791,000 for 2004. Included in sales expenses, commissions to a third-party telemarketing firm increased approximately \$219,000 during the nine months ended September 30 as our sales focus to the direct consumer increased along with the number of new and enhanced product releases during late 2003 and early 2004; Fulfillment costs from a third-party warehouse increased approximately \$24,000 during the nine months ended September 30 as we had an increased amount of retail sales during the first quarter of 2004 due to the enhanced releases of QuickVerse® and Membership Plus®; Advertising costs also increased approximately \$32,000 during the nine months ended September 30 with the new and enhanced product releases earlier in the year and more focus on internet advertisements to target the direct consumer; Marketing and Customer Service costs increased approximately \$4,000 as we continue to expand our sales efforts and focus more towards the consumer instead of the retail store.

Edgar Filing: FINDEX COM INC - Form 10QSB

Research and development costs include salaries and benefits of personnel and third parties conducting research and development of software products. Software development costs expensed as research and development are listed in the table above. The decrease in 2004 reflects the earlier stages of new development projects as well as the shortened time period for the new development projects for the year of 2004. Research and development expenses are expected to increase in future periods as we continue to add new products and versions to our product mix.

Personnel costs increased approximately \$252,000 from approximately \$917,000 for the nine months ended September 30, 2003 to approximately \$1,169,000 for the nine months ended September 30, 2004. This increase is primarily from the addition of staff members and the associated health care costs. The Company also recognized approximately \$14,000 of expense related to 635,000 restricted common shares issued to employees and approximately \$36,000 in expense for upper management year-end bonus accrual. Furthermore, the capitalization of direct and indirect labor and related overhead charges as software development costs (see Cost of Sales above) decreased by approximately \$73,000 from approximately \$150,000 for the nine months ended September 30, 2003 to approximately \$77,000 for the nine months ended September 30, 2004. This decrease is due to the shortened development time period for the new development projects that began during the year 2004. It is anticipated that personnel costs will increase in future periods as operating capital is available to fund full staffing of our product development team and expansion of the technical support and direct marketing staff. In addition, interest and penalty fees related to back payroll taxes increased approximately \$95,000 for the nine months ended September 30, 2004.

Direct legal costs increased approximately \$42,000 for the nine months ended September 30, 2004 as the disputes with TLC and Zondervan were finalized in March 2004. However, approximately \$44,000 of legal costs were related to the stock offering costs incurred during the three months ended September 30, 2004. Rent expense increased approximately \$13,000 as we opened a new product development facility located in Naperville, IL. Travel costs increased approximately \$14,000 as we increased our sales staff and our sales efforts to our retail customers as new product lines and enhancements were introduced during late 2003 and early 2004. Telecommunication costs increased approximately \$52,000 from an increase in technical support and customer service calls due to the two new major product releases in late December 2003 and early 2004. Corporate service fees increased approximately \$61,000 for the nine months ended September 30, 2004. These fees are related to the recent hire of an outside consultant, the expense for an issuance of a warrant to purchase 600,000 common shares allocated over the term of the consulting contract, and the expense for a previous issuance of a warrant to purchase 250,000 common shares. Bad debt expense increased approximately \$6,000 during 2004 due to the increased amount of outstanding accounts receivable.

Obsolete Inventory

The Company wrote-off distinctly different categories of obsolete inventory with a carried cost totaling approximately \$61,000 during the nine months ended September 30, 2003 and approximately \$32,000 for the nine months ended September 30, 2004. The 2004 inventory write-off was a direct result of settlement negotiations with Zondervan. These have been recognized as an expense.

Rebate Reserve Adjustment

The Company adjusted the reserve for rebates to more properly reflect open rebate programs and the estimated balance of each that management expects to pay. The remaining reserve balance was estimated based on historical response rates.

Amortization

Amortization of the software license decreased approximately \$14,000 and \$42,000 for the three and nine months ended September 30, 2004. Upon final settlement with The Learning Company in October of 2003, the term of the software license agreement was extended indefinitely and provided the Company with the exclusive worldwide right to market, sell, and continue to develop those titles it covers. This effectively changed the substance from an amortizable intangible asset with a finite useful life to an unamortizable intangible asset with an indefinite useful life. Amortization expense, determined using the straight-line method, was calculated through the settlement date of October 20, 2003. Amortization expense for 2004 reflects the launch of our new website during the second quarter.

Income Tax Benefits

Our effective tax rate differs from the statutory federal rate due to differences between income and expense recognition prescribed by the Internal Revenue Code and Generally Accepted Accounting Principles. We utilize different methods and useful lives for depreciating property and equipment. Changes in estimates (reserves) are recognized as an expense for financial reporting but are not deductible for income tax purposes. Software development costs are capitalized and amortized for financial reporting purposes and deducted as research and development costs for income tax purposes.

We have recognized a net deferred tax asset whose realization depends on generating future taxable income. Because of this uncertainty, we have recorded a valuation allowance to offset the net deferred tax asset. Generally accepted accounting principles require that our valuation allowance completely offset our deferred tax assets because of the Going Concern opinion given by our auditors on our 2003 audited financial statements. If the Going Concern were removed, we would evaluate the amount of deferred tax asset that would be realized and adjust the valuation allowance accordingly. This potential adjustment may result in a net increase to our deferred tax assets and recognition of additional

Edgar Filing: FINDEX COM INC - Form 10QSB

deferred income tax benefits. The resulting deferred tax liability reflects income taxes payable in future periods on the net deductible differences related to the software license agreement. We currently have net operating loss carryforwards, for income tax purposes, of approximately \$8,400,000. The carryforwards are the result of income tax losses generated in 2000 (\$2,973,000 expiring in 2020), 2001 (\$5,191,000 expiring in 2021) and 2002 (\$236,000 expiring in 2022). During fiscal year 2004, we will need to achieve a minimum annual taxable income, before deduction of operating loss carryforwards, of approximately \$442,000 to fully utilize the current loss carryforwards. We believe this is achievable through continued careful expense management and introduction of new products and enhanced versions of our existing products.

Management expects the deductible temporary differences (reserves) to reverse sometime beyond the next fiscal year.

Extraordinary Item

During the quarter ended September 30, 2004, the Company recognized approximately a \$1,000,000 gain from extinguishment of debt which is classified as an extraordinary item. The extinguishment of debt is a direct result from settling with various vendors and content providers for lump-sum payments ranging from approximately 17% to approximately 60% of balances owed. Income taxes allocated and subtracted from the total gain were approximately \$237,000, or approximately 24%.

Liquidity and Capital Resources

As of September 30, 2004, Findex had approximately \$1,189,000 in current assets, \$1,333,000 in current liabilities and a retained deficit of approximately \$7,188,000. This continues to create an uncertainty about our ability to continue as a going concern. We had a net loss before income taxes of approximately \$366,000 and \$66,000 for the three and nine months ended September 30, 2004.

Net cash provided by operating activities was approximately \$467,000 and used by operating activities was approximately \$795,000 for the nine months ended September 30, 2003 and 2004, respectively. Cash provided by operating activities is not currently adequate to meet our current software development and debt service needs.

Net cash used in investing activities was approximately \$405,000 and \$472,000 for the nine months ended September 30, 2003 and 2004, respectively. The increase in cash used for investing activities results from capitalizing costs associated with software development, upgrading our website to expand our e-commerce capability, and equipment acquisitions. Software development activities and equipment acquisitions will continue on an ongoing basis while costs associated with upgrading our website ceased during May 2004 with the launching of our new site.

Net cash used by financing activities was approximately \$13,000 and provided by financing activities was approximately \$1,715,000 for the nine months ended September 30, 2003 and 2004, respectively. Cash used by financing activities reflects final settlement on our accounts receivable line of credit, payments made on debt obligations, and stock offering costs associated with the Barron Partners, LP equity financing. Cash provided by financing activities reflects proceeds from issuance of stock for Barron Partners, LP and convertible debentures.

On March 19, 2001, we entered into an Accounts Receivable Financing Agreement with Alliance Financial Capital, Inc. (AFC). Pursuant to this agreement, AFC agrees to purchase selected accounts receivable on a discounted basis, including, without limitation, full power to collect, compromise, sue for, assign, or in any manner enforce collection thereof. The agreement provides for advances of 60% toward the purchase of the invoices with a credit line of \$250,000. The terms call for 40% to be held in a reserve account from the collection of each invoice. Invoices not paid by the customer within 90 days of shipment are required to be repurchased by us out of the reserve account. The agreement carries a 12-month term with a minimum monthly fee equal to one half of one percent (.5%). The term renews automatically in 12-month increments unless a written request for termination is received by AFC at least 30 days before the renewal date. During the nine months ended September 30, 2004, we transferred accounts receivable totaling \$300,965 to a lender for cash advances of \$179,151. As accounts are paid, the collected funds (less the amount advanced and appropriate fees) are disbursed to the Company. The transfer agreement includes a repurchase requirement and, accordingly, the proceeds were accounted for as a secured borrowing. At September 30, 2004, the balance of receivables transferred and included in trade receivables was \$0. The remaining secured borrowing balance included in accrued expenses was \$0. On July 20, 2004, we terminated the Accounts Receivable Financing Agreement with AFC.

On July 19, 2004, we completed an equity financing in the amount of \$1,750,000 through a private placement with Barron Partners, LP (Barron). Under the terms of the agreement, Barron purchased 21,875,000 restricted common shares at a price of \$.08 per share. In addition, according to the terms of the agreement, Barron is entitled to receive two warrants to purchase common stock. The first warrant would entitle Barron to purchase up to 10,937,500 common shares at an initial price of \$.18 per share and the second warrant would entitle Barron to purchase up to 10,937,500 additional common shares at an initial price of \$.60 per share. The original terms of the agreement called for the exercise price associated with each of the warrants to be subject to downward adjustment based on the occurrence or non-occurrence of certain events. An amendment to the Barron Partners, LP Stock Purchase Agreement was entered into on September 30, 2004 which removed these provisions.

Although there can be no assurance, we believe that through this combination of capital and revenues generated from direct-to-consumer sales, we will have sufficient sources of capital to meet our operating needs. However, any substantial delays in receipt of or failure to obtain such capital and delays in product releases will prevent us from operating as a going concern, given our limited revenues and capital reserves.

Edgar Filing: FINDEX COM INC - Form 10QSB

The Company was in arrears with the Internal Revenue Service for back payroll taxes and had been paying the payroll taxes in monthly installments previously approved by the Internal Revenue Service. Subsequent to the financing received in July of 2004, the Company paid all back payroll taxes that were due to the Internal Revenue Service.

In July 2004, the Company made the final payment to The Zondervan Corporation for \$100,000 plus 5% simple interest. This payment completes all of the Company's obligations that were previously outlined in the settlement with The Zondervan Corporation and The Learning Company dated October 2003 (see Note 13 - Commitments and Contingencies). In addition, according to the settlement agreement, the term of the software license agreement with Parsons Technology, Inc., a subsidiary of The Learning Company, has been extended indefinitely, and provides the Company with the exclusive worldwide right to market, sell, and continue to develop those titles it covers.

Item 3. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

Based on their most recent evaluation of our disclosure controls and procedures, which was completed within 90 days of the filing of this Form 10-QSB, the Company's Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Exchange Act Rules 13a-14(c) and 15d-14(c) promulgated under the Securities Exchange Act of 1934, as amended) are effective.

(b) Changes In Internal Controls Over Financial Reporting

There have been no changes in the Company's internal controls over financial reporting during the fiscal quarter ended September 30, 2004 that have materially affected, or which are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings.

In March 2004, the Company finalized a joint settlement with The Zondervan Corporation and The Learning Company in connection with pending litigation surrounding royalties owed by Findex. Pursuant to the settlement, Findex was required to make certain payments to the Zondervan Corporation, which obligations, as of July 2004, were satisfied in full. A stipulation of such settlement has been duly entered and the matter has been discontinued.

There is no other litigation pending against the Company or its subsidiaries that is considered material or that constitutes more than ordinary routine litigation incidental to the business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In July 2004, the holders of 11,400 shares of our Series A convertible preferred stock and the holders of 40,000 shares of our Series B convertible preferred stock each elected to convert such shares into 218,000 and 266,667 shares of our common stock, respectively. In addition, the holders of the Series A convertible preferred stock elected to convert \$4,125 of unpaid accumulated dividends on their shares into 56,353 common shares. The issuance of such securities was the result of private transactions not involving a public offering and was exempt from the registration provisions of the Securities Act pursuant to Section 3(a)(9) thereof and Rule 506 of Regulation D promulgated thereunder. There were no underwriters or placement agents involved in this issuance and no commissions were paid.

In July 2004, the Company issued 295,692 non-restricted common shares in settlement of an agreement with an institutional private equity investor. These shares were valued at \$.10 per share, and the Company recognized \$29,569 of expense related to this issuance. As part of this settlement, a warrant dated March 26, 2001 to purchase 510,000 common shares exercisable at \$0.23 per share was cancelled. The issuance of such securities was the result of a private transaction not involving a public offering and was exempt from the registration provisions of the Securities Act pursuant to Section 4(2) and/or Rule 506 of Regulation D promulgated thereunder. There were no underwriters or placement agents involved in this issuance and no commissions were paid.

In July 2004, the Company issued 21,875,000 restricted common shares for a total amount of \$1,750,000 through a private placement with a New York based private investment partnership. In addition to the shares, according to the terms of the agreement, the investor is entitled to receive two warrants to purchase common stock. The first warrant would entitle the investor to purchase up to 10,937,500 common shares at an initial price of \$0.18 per share, and the second warrant would entitle the investor to purchase up to 10,937,500 additional common shares at an initial price of \$0.60 per share. The issuance of such securities was the result of a private transaction not involving a public offering and was exempt from the registration provisions of the Securities Act pursuant to Section 4(2) and/or Rule 506 of Regulation D promulgated thereunder. There were no underwriters or placement agents involved in this issuance and no commissions were paid.

FindEx.com, Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2004
(UNAUDITED)

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The accompanying unaudited condensed consolidated financial statements reflect all adjustments that, in the opinion of management, are considered necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. The results of operations for such periods are not necessarily indicative of the results expected for the full fiscal year or for any future period. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements of Findex.com, Inc. included in our Form 10-KSB/A for the fiscal year ended December 31, 2003.

Inventory

Inventory, including out on consignment, consists primarily of software media, manuals and related packaging materials and is recorded at the lower of cost or market value, determined on a first-in, first-out basis and adjusted on a per-item basis.

Amortization

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, intangible assets with an indefinite useful life are not amortized. Intangible assets with a finite useful life are amortized on the straight-line method over the estimated useful lives. Our software license was originally amortized over an estimated useful life of 10 years. During the year ended December 31, 2002, the Company reached a tentative settlement agreement with The Learning Company (TLC) which called for the extension of the estimated life of the license from 10 years to 50 years. On October 20, 2003, the Company reached settlement in a dispute with The Zondervan Corporation and TLC. The settlement, amongst other things, extended the life of the agreement indefinitely and provides the Company with the exclusive worldwide right to market, sell, and continue to develop those titles it covers. This effectively changed the substance from an amortizable intangible asset with a finite useful life to an unamortizable intangible asset with an indefinite useful life.

Software Development Costs

In accordance with SFAS No. 86, Accounting for the Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed, software development costs are expensed as incurred until technological feasibility has been established, at which time such costs are capitalized until the product is available for general release to customers. Capitalized costs are amortized on a product-by-product basis using the greater of the straight-line method over the estimated product life or on the ratio of current revenues to total projected product revenues. The Company generally considers technological feasibility is established with the release of a beta version for testing. Total capitalized software development costs at September 30, 2004 were \$1,374,901, less accumulated amortization of \$772,625. Research and development costs incurred and charged to expense were \$532 and \$18,500 for the three months ended September 30, 2004 and 2003, respectively and \$44,228 and \$116,294 for the nine months ended September 30, 2004 and 2003, respectively.

Edgar Filing: FINDEX COM INC - Form 10QSB

NOTE 2 INVENTORIES

At September 30, 2004, inventories consisted of the following:

Raw materials	\$ 73,100
Finished goods	89,700

	\$162,800

F-4

NOTE 3 NOTES PAYABLE

At September 30, 2004, notes payable consisted of the following:

Note payable to an individual, due August 2005, with annual interest at 7.5% Unsecured. Convertible at the option of the holder into 1,000,000 restricted common shares	120,000
Note payable to an individual, due August 2005, with annual interest at 7.5% Unsecured. Convertible at the option of the holder into 1,000,000 restricted common shares	120,000

	\$240,000

NOTE 4 LONG-TERM NOTE PAYABLE

At September 30, 2004, long-term note payable consisted of the following:

Unsecured term note payable to a corporation due October 2004 in monthly installments of \$5,285, including interest at 8%	\$34,071

NOTE 5 STOCKHOLDERS EQUITY

Common Stock

In April 2004, the Company issued a total of 1,519,349 restricted common shares to the executive management team as payment of the 2003 accrued performance bonus.

In April 2004, the Company resolved to issue 637,500 restricted common shares to the non-executive employees as additional compensation pursuant to an incentive and retention bonus program. In July, 2004, the Company removed 2,500 restricted common shares from the resolution due to voluntary separation from service by a part-time employee. These shares were valued at \$.022 per share.

In June 2004, the Company issued 324,074 restricted common shares to the outside Board of Directors in lieu of cash compensation for the period from July 2003 through August 2004. These shares were valued at \$.081 per share.

In July 2004, the holders of 11,400 shares of Preferred Series A and the holders of 40,000 shares of Preferred Series B elected to convert such shares into 218,000 common shares and 266,667 common shares, respectively. In addition, the holders converted \$4,125 unpaid accumulated Preferred Series A dividends into 56,353 common shares.

Edgar Filing: FINDEX COM INC - Form 10QSB

In July 2004, the Company issued 295,692 non-restricted common shares in settlement of an agreement with an institutional private equity investor. These shares were valued at \$.10 per share. A warrant dated March 26, 2001 to purchase 510,000 common shares exercisable at \$0.23 per share was cancelled in the settlement.

In July 2004, the Company issued 21,875,000 restricted common shares for proceeds of \$1,750,000 through a private placement with a New York based private investment partnership. In addition, according to the terms of the agreement, the investor is entitled to receive two warrants to purchase common stock. The first warrant would entitle the investor to purchase up to 10,937,500 common shares at an initial price of \$0.18 per share, and the second warrant would entitle the investor to purchase up to 10,937,500 additional common shares at an initial price of \$0.60 per share.

In July 2004, the Company removed 48,387 previously resolved but un-issued common shares associated with an unexecuted 2001 stock subscription agreement.

Common Stock Options

In July 2004, the Company cancelled 100,000 vested stock options with an exercise price of \$0.11 per share, 190,200 vested stock options with an exercise price of \$1.00 per share and 525,000 vested stock options with an exercise price of \$1.03 per share. There was no effect on the financial statements resulting from these cancellations.

F-5

NOTE 6 NONRECURRING ITEMS

APB Opinion No. 30 requires material events or transactions that are either unusual or infrequent, but not both, to be presented in the income statement as separate elements of income from continuing operations.

During the quarter ended September 30, 2004, the Company settled an agreement with an institutional private equity investor for early termination of the agreement. The Company issued 295,692 common shares valued at \$.10 per share and paid a cash lump sum of \$125,000. A total of \$154,569 has been treated as expenses incurred in a withdrawn public offering.

During the quarters ended March 31, 2004 and 2003 and September 30, 2003, the Company wrote-off distinctly different categories of obsolete inventory with a carried cost totaling \$32,396, \$31,892 and \$28,900, respectively. The 2004 obsolete inventory was a direct result of the March 2004 settlement with The Zondervan Corporation (see Note 13). These have been recognized as an expense.

During the quarter ended June 30, 2003, the Company recorded an adjustment to the balance of accrued royalties as of December 31, 2002 in the amount of \$583,628. This adjustment resulted from an internal audit of the royalty calculations as affected by the product sales provided by TLC during the second quarter of 2001. These reduced sales numbers also resulted in the June 30, 2001 bad debt provision totaling \$2,391,000 from net balances owed the Company by TLC. The royalty liabilities had been accrued based on FindEx sales to TLC as originally reported. This has been recognized as an expense recovery and included in operating expenses.

NOTE 7 REBATE RESERVE ADJUSTMENT

During the quarter ended June 30, 2004, the Company recorded an adjustment to the rebates reserve in the amount of \$266,301. The reserve balance properly reflects open rebate programs and the estimated balance of each that management expects to pay. This adjustment resulted from an internal review of the amount owed and our ability to reach the intended rebate recipients and properly reflects historical response rates.

NOTE 8 INCOME TAXES

We compute our provision for or benefit from income taxes by applying the estimated annual effective tax rate to income or loss from recurring operations and other taxable items. Our effective tax rate for each of the three and nine months ended September 30, 2003 was approximately 6%. Our effective tax rates for the three and nine months ended September 30, 2004 were approximately 5% and 24%. Our effective tax rates for these periods differed from the federal statutory rate primarily due to the net effects of the benefits received from software development costs, website costs, and software license fees.

NOTE 9 EXTRAORDINARY ITEM

Edgar Filing: FINDEX COM INC - Form 10QSB

During the quarter ended September 30, 2004, we settled with various vendors and content providers for lump-sum payments ranging from approximately 17% to approximately 60% of balances owed. The difference between the balance owed and the settlement amount, totaling \$1,000,662, has been treated as gain from extinguishment of debt in accordance with SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, and classified as an extraordinary item in accordance with SFAS No. 145, Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections. Income taxes allocated and subtracted from the total gain were \$237,500, or approximately 24%.

NOTE 10 PRIOR PERIOD ADJUSTMENT

During the period ended March 31, 2004, the Company adjusted retained earnings to reflect the correction of an error in recording our liability for product rebates. During the year ended December 31, 2000, the Company discontinued the use of a third-party to process rebate claims. Rebate program details were obtained from the third party and a liability recorded for the unpaid rebate claims. It was recently discovered that the unpaid rebate claims were duplicated between reports received from the third party processor and the liability recorded upon the Company's assumption of the rebate claim fulfillment. The adjustment decreased accounts payable by \$98,947, decreased deferred tax assets by \$39,451, increased the deferred tax asset valuation allowance by \$39,451, and decreased the accumulated deficit by \$98,947.

F-6

NOTE 11 EARNINGS (LOSS) PER COMMON SHARE

Earnings per common share are computed by dividing net income by the weighted average number of common shares and common stock equivalents outstanding during the year. Common stock equivalents are the net additional number of shares that would be issuable upon the exercise of the outstanding common stock options and warrants, assuming that the Company reinvested the proceeds to purchase additional shares at market value. A total of 4,440,000 and 4,483,200 potentially dilutive securities for the three and nine months ended September 30, 2004 and 2003, respectively, have been excluded from the computation of diluted earnings per share, as their inclusion would be anti-dilutive.

The following table shows the amounts used in computing earnings per share and the effect on income and the average number of shares of dilutive potential common stock:

Three months ended September 30	2003	2004
Loss before extraordinary item	\$ (145,340)	\$ (347,571)
Preferred stock dividends	--	(56,353)
Available to common shareholders	\$ (145,340)	\$ (403,924)

Note 12 - STOCK-BASED COMPENSATION

Edgar Filing: FINDEX COM INC - Form 10QSB

The Stock Incentive Plan (the "Plan") authorizes the issuance of various forms of stock-based awards including incentive and nonqualified stock options, stock appreciation rights attached to stock options, and restricted stock awards to directors, officers and other key employees of the Company. Stock options are granted at an exercise price as determined by the Board at the time the Option is granted and shall not be less than the par value of such shares of Common Stock. Stock options vest quarterly over three years and have a term of ten years.

The Company applies APB Opinion No. 25 and related interpretations in accounting for its stock options. Accordingly, no compensation cost has been recognized for outstanding stock options. Had compensation cost for the Company's outstanding stock options been determined based on the fair value at the grant date (calculated using the Black-Scholes Option-Pricing Model) for those options consistent with SFAS No. 123, the Company's net income and primary and diluted earnings per share would have differed as reflected by the pro forma amounts indicated below:

	Three months ended September 30,		Nine months ended September 30,	
	2003	2004	2003	2004
Net income (loss), as reported	\$ (145,340)	\$ 415,591	\$ 492,436	\$ 713,356
Pro Forma compensation charge under SFAS	(14,323)	--	(47,219)	(26,519)
Pro Forma net income (loss)	\$ (159,663)	\$ 415,591	\$ 445,217	\$ 686,837
Earnings per share:				
Basic - as reported	\$ (0.01)	\$ 0.01	\$ 0.03	\$ 0.03
Basic - pro forma	\$ (0.01)	\$ 0.01	\$ 0.02	\$ 0.02
Diluted - as reported	\$ (0.01)	\$ 0.01	\$ 0.03	\$ 0.02
Diluted - pro forma	\$ (0.01)	\$ 0.01	\$ 0.02	\$ 0.02

NOTE 13 COMMITMENTS AND CONTINGENCIES

The Company is subject to legal proceedings and claims that arise in the ordinary course of its business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position of the Company.

In March 2004, the Company finalized the settlement with The Zondervan Corporation and The Learning Company. The Settlement Agreement was effective October 20, 2003 and called for FindEx to pay Zondervan a total of \$500,000, plus 5% simple interest, in installments of \$150,000, plus interest, due November 15, 2003 and January 30, 2004, and installments of \$100,000, plus interest, due April 30, 2004 and July 30, 2004, all of which have been paid. This agreement was secured by all rights, title and interest in QuickVerse® together with all proceeds produced by QuickVerse®. In addition, according to the agreement, the term of the software license agreement with Parsons Technology, Inc., a subsidiary of The Learning Company, has been extended indefinitely and provides the Company with the exclusive worldwide right to market, sell, and continue to develop those titles it covers.

The Company was in arrears with the Internal Revenue Service for back payroll taxes and had been paying the payroll taxes in monthly installments previously approved by the Internal Revenue Service. In July of 2004, the Company paid all back payroll taxes that were due to the Internal Revenue Service and remain current with all payroll tax deposits and filings.

NOTE 14 RISKS AND UNCERTAINTIES

The Company's future operating results may be affected by a number of factors. The Company is dependent upon a number of major inventory and intellectual property suppliers. If a critical supplier had operational problems or ceased making material available to the Company, operations could be adversely affected. The Company is also dependent upon a few major customers. If any of these customers experienced operational problems or ceased placing orders with the Company, operations could also be adversely affected.

F-9

NOTE 15 GOING CONCERN

Edgar Filing: FINDEX COM INC - Form 10QSB

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has a negative current ratio and total liabilities in excess of total assets. Those factors create an uncertainty about the Company's ability to continue as a going concern. Management of the Company has secured investment capital, reduced liabilities, and is pursuing further development of the Company's flagship software titles. The ability of the Company to continue as a going concern is dependent on the success of the Company's flagship software titles and the successful development of new titles and platforms. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 16 SUBSEQUENT EVENTS

In October 2004, the Company filed Schedule 14C with the Securities and Exchange Commission to increase the number of our authorized common shares from 50,000,000 to 120,000,000.
