TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-15827

VISTEON CORPORATION

(Exact name of registrant as specified in its charter)

State of Delaware

(State or other jurisdiction of incorporation or organization)

One Village Center Drive, Van Buren Township, Michigan

(Address of principal executive offices)

Registrant's telephone number, including area code: (800)-VISTEON

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant: has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

As of April 30, 2014, the registrant had outstanding 48,419,579 shares of common stock.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Basis of Presentation

Description of Business: Visteon Corporation (the “Company” or “Visteon”) is a global supplier of automotive systems, modules and components to global automotive original equipment manufacturers (“OEMs”). Headquartered in Van Buren Township, Michigan, Visteon has a workforce of approximately 24,000 employees and a network of manufacturing operations, technical centers and joint ventures in every major geographic region of the world with its operations organized by global product lines including Climate, Electronics and Interiors.

Interim Financial Statements: The unaudited consolidated financial statements of the Company have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) have been condensed or omitted pursuant to such rules and regulations. These interim consolidated financial statements include all adjustments (consisting of normal recurring adjustments, except as otherwise disclosed) that management believes are necessary for a fair presentation of the results of operations, financial position and cash flows of the Company for the interim periods presented. Interim results are not necessarily indicative of full-year results.

Use of Estimates: The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions that affect amounts reported herein. Management believes that such estimates, judgments and assumptions are reasonable and appropriate. However, due to the inherent uncertainty involved, actual results may differ from those provided in the Company's consolidated financial statements.

Reclassifications: Certain prior period amounts have been reclassified to conform to the current period presentation.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and all subsidiaries that are more than 50% owned and over which the Company exercises control. Investments in affiliates of greater than 20% and for which the Company exercises significant influence but does not exercise control are accounted for using the equity method. All other investments in non-consolidated affiliates are accounted for using the cost method.

Restricted Cash: Restricted cash represents amounts designated for uses other than current operations and includes \$10 million of collateral for the Letter of Credit Facility with US Bank National Association, and \$15 million related to cash collateral for other corporate purposes at March 31, 2014.

Recent Accounting Pronouncements: In April 2014, the Financial Accounting Standards Board issued ASU No. 2014-8,

"Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity". This ASU changes the requirements for reporting discontinued operations to disposals of components of an entity that represent strategic shifts that have a major effect on an entity's operations and financial results. The standard also expands the disclosures for discontinued operations and requires new disclosures related to individually material disposals that do not qualify for discontinued operations reporting. The guidance is effective for interim and annual periods beginning after December 15, 2014, and should be applied prospectively. Early adoption is permitted. The Company is currently evaluating the impact of adoption on our consolidated financial statements.

NOTE 2. Yanfeng Transactions

On August 12, 2013, Visteon entered into a Master Agreement (the “Master Agreement”) with Huayu Automotive Systems Company Limited (“HASCO”), Yanfeng Visteon Automotive Trim Systems Co., Ltd. (“Yanfeng”) and Yanfeng Visteon Automotive Electronics Co., Ltd. (“YFVE”), pursuant to which, among other things, Visteon and HASCO agreed to modify their existing interests in automobile interiors and electronics joint ventures in the People’s Republic of China, including Yanfeng and YFVE.

On December 17, 2013, Visteon completed the sale of its 50% ownership interest in Yanfeng for cash proceeds of \$928 million (before applicable taxes). On November 7, 2013, Visteon made a cash payment of \$58 million to subscribe to an additional 11% ownership interest in YFVE, increasing Visteon's direct ownership interest in YFVE from a non-controlling 40% direct ownership interest to a controlling 51% direct ownership interest. From that date, the financial position, results of operations and cash flows of YFVE have been consolidated into the Company's financial statements as part of the Electronics business unit.

During the three months ended March 31, 2014 and in accordance with the Master Agreement, YFVE completed the sale of its ownership interests in certain joint ventures during the first quarter of 2014 to Yanfeng Visteon Electronics (China) Investment Co., Ltd. (“YFVIC”) for cash proceeds of \$33 million. No gains or losses were recorded on these transactions by YFVE due to the Company's 50% ownership interest in YFVIC. Differences between carrying value and proceeds on these investments, if any, have been deferred as a basis adjustment to the Company's investment in YFVIC.

Table of Contents

NOTE 3. Non-Consolidated Affiliates

The Company recorded equity in the net income of non-consolidated affiliates of \$2 million and \$44 million for the three-month periods ended March 31, 2014 and 2013, respectively. Investments in non-consolidated affiliates were \$189 million and \$228 million at March 31, 2014 and December 31, 2013, respectively. At March 31, 2014, non-consolidated affiliates accounted for under the equity method totaled \$150 million and non-consolidated affiliates accounted for under the cost method totaled \$39 million. Effective December 17, 2013 and in accordance with the Master Agreement, the Company, among other things, completed the sale of its 50% ownership interest in Yanfeng and changed from the equity method to the cost method of accounting for certain Yanfeng related Interiors joint ventures, including Yanfeng Visteon Jinqiao Automotive Trim Systems Co., Ltd.

The Company monitors its investments in the net assets of non-consolidated affiliates for indicators of other-than-temporary declines in value on an ongoing basis. If the Company determines that such a decline has occurred, an impairment loss is recorded, which is measured as the difference between carrying value and fair value. In April 2014, the Company completed the sale of its 50% ownership interest in Duckyang Industry Co., Ltd. ("Duckyang"), a Korean automotive interiors supplier. In connection with the transaction, the Company received total cash of approximately \$31 million, including \$6 million of dividends. The Company expects to record a pre-tax gain of approximately \$2 million on this transaction.

NOTE 4. Other Expenses

Other expenses consist of the following:

	Three Months Ended March 31	
	2014	2013
	(Dollars in Millions)	
Transformation costs	\$10	\$16
Restructuring expenses	2	20
	\$12	\$36

Transformation Activities

Business transformation costs of \$10 million and \$16 million were incurred during the three-month periods ended March 31, 2014 and 2013, respectively, related to financial and advisory services associated with continued execution of the Company's comprehensive value creation plan, including the following activities:

Climate consolidation - During the first quarter of 2013, Visteon completed the sale of certain subsidiaries and intellectual property of its global climate business to Halla Climate Control Corporation, a majority-owned subsidiary of the Company, for approximately \$410 million. With effect from February 1, 2013, this combined climate business has been operating under the name of Halla Visteon Climate Control Corporation ("HVCC"). HVCC is headquartered in South Korea.

Electronics optimization - On January 13, 2014, Visteon reached an agreement to acquire the automotive electronics business of Johnson Controls for cash of \$265 million. The acquisition is subject to certain regulatory and other consents and approvals and is expected to be completed in the second quarter of 2014. During the fourth quarter of 2013, the Company made a cash payment of \$58 million to subscribe to an additional 11% ownership interest in YFVE, resulting in a controlling 51% direct ownership interest. Additionally, the Company invested \$48 million during the fourth quarter of 2013, in a non-consolidated electronics holding company owned 50% by Visteon and 50% by Yanfeng.

Interiors strategy - On May 1, 2014, the Company reached an agreement for the sale of substantially all of its global Interiors operations for de minimis proceeds. The Company anticipates recording a pre-tax loss on the transaction, which is currently estimated to be in the range of \$250 million to \$300 million. The closing of the Interiors sale

transaction, which is expected to occur by December 31, 2014, is subject to various conditions, including regulatory and antitrust approvals, receipt of other third party consents and approvals and other customary closing conditions. In connection with the transaction, Visteon has agreed to contribute up to \$95 million to the business and has agreed to support the establishment of external credit facilities for the business and, if \$90 million of external credit facilities are not available to the business by the closing date, to provide a seller-backed revolving credit facility in the amount of any shortfall to support the liquidity of the business. Draws under any such seller-backed facility will only be available if certain of the external credit facilities are fully drawn, and any draws on the seller-backed facility generally must be repaid prior to the repayment of the external credit facilities. The seller-backed facility will have a maturity of three years and, if drawn, will be repaid once additional committed facilities are in place after the transaction closes.

7

Table of Contents

In connection with the preparation of the March 31, 2014, financial statements, the Company determined that an indicator of impairment existed in relation to the net assets of its Interiors business, which approximated \$220 million as of March 31, 2014. Accordingly, the Company performed a recoverability test utilizing a probability weighted analysis of cash flows associated with continuing to run and operate the Interiors business and estimated cash flows associated with the potential sale of the Interiors business. As a result of the analysis, the Company concluded that the assets were not recoverable. However, no impairment was recorded as of March 31, 2014, as the fair value of the underlying assets were determined to be in excess of the respective carrying value. As of March 31, 2014, the Company did not meet the specific criteria necessary for the Interiors assets to be considered held for sale.

In April 2014, Visteon completed the sale of its 50% ownership stake in Duckyang, a Korean automotive interiors joint venture for total cash of \$31 million. On December 17, 2013, Visteon completed the sale of its 50% ownership interest in Yanfeng, a significant interiors equity investee, for cash proceeds of \$928 million (before applicable taxes).

The Company's goal is to complete the disposal of its remaining Interiors business during 2014. Due to certain liabilities and capital requirements of the remaining business, Visteon may be required to contribute cash to such business in connection with any disposition and such amounts could be material.

Restructuring Activities

The Company previously announced a \$100 million restructuring program designed to reduce fixed costs and to improve operational efficiency by addressing certain under-performing operations. In connection with that program, the Company announced plans to restructure three European Interiors facilities, to consolidate its Climate operations and to realign its corporate and administrative functions directly to their corresponding operational beneficiary. Through March 31, 2014, the Company recorded approximately \$78 million of restructuring expenses under this program. The Company expects to record additional costs related to this program in future periods as underlying plans are finalized.

During the first quarter of 2013, the Company recorded \$20 million of restructuring expenses, primarily related to severance and termination benefits associated with approximately 140 employees, including \$14 million in connection with the reorganization of the Company's Climate operations in France and \$6 million related to the transformation of its corporate and administrative functions. The Company recorded \$2 million of additional restructuring expenses associated with these programs during the first quarter of 2014, which remain accrued as of March 31, 2014. The following is a summary of the Company's restructuring reserves and related activity for the three months ended March 31, 2014:

	Interiors	Climate	Electronics	Corporate	Total
	(Dollars in Millions)				
Balance at December 31, 2013	\$25	\$1	\$—	\$3	\$29
Expenses	—	1	—	1	2
Utilization	(6) (1) —	(3) (10
Balance at March 31, 2014	\$19	\$1	\$—	\$1	\$21

Restructuring reserve balances of \$21 million and \$29 million at March 31, 2014 and December 31, 2013, respectively, are classified as Other current liabilities on the consolidated balance sheets. The restructuring reserve balance of \$19 million related to the Company's Interiors business at March 31, 2014 is associated with employee severance and termination benefits in connection with three facilities in Europe and one facility in South America. The Company anticipates that the activities associated with these reserves will be substantially completed by the end of 2014.

Given the economically-sensitive and highly competitive nature of the automotive industry, the Company continues to closely monitor current market factors and industry trends taking action as necessary, including but not limited to, additional restructuring actions. However, there can be no assurance that any such actions will be sufficient to fully offset the impact of adverse factors on the Company or its results of operations, financial position and cash flows.

Table of Contents

NOTE 5. Inventories

Inventories are stated at the lower of cost, determined on a first-in, first-out basis, or market. A summary of inventories is provided below:

	March 31 2014	December 31 2013
	(Dollars in Millions)	
Raw materials	\$220	\$204
Work-in-process	200	191
Finished products	97	104
Valuation reserves	(28) (27
	\$489	\$472

NOTE 6. Property and Equipment

Property and equipment, net consists of the following:

	March 31 2014	December 31 2013
	(Dollars in Millions)	
Land	\$161	\$162
Buildings and improvements	303	301
Machinery, equipment and other	1,353	1,309
Construction in progress	137	145
Total property and equipment	1,954	1,917
Accumulated depreciation	(620) (580
	1,334	1,337
Product tooling, net of amortization	70	77
Property and equipment, net	\$1,404	\$1,414

Property and equipment is depreciated principally using the straight-line method of depreciation over the related asset's estimated useful life. Generally, buildings and improvements are depreciated over a 40-year estimated useful life, leasehold improvements are depreciated on a straight-line basis over the initial lease term period, and machinery, equipment and other are depreciated over estimated useful lives ranging from 3 to 15 years. Product tooling is amortized using the straight-line method over the estimated life of the tool, generally not exceeding six years. Depreciation and amortization expenses for property and equipment, including assets recorded under capital leases, are summarized as follows:

	Three Months Ended March 31	
	2014	2013
	(Dollars in Millions)	
Depreciation	\$50	\$53
Amortization	3	3
	\$53	\$56

Table of Contents

NOTE 7. Intangible Assets

Intangible assets, net are summarized as follows:

	Estimated Weighted Average Useful Life (years)	March 31, 2014			December 31, 2013

(Dollars in Millions)		
Balance at December 31, 2013	\$589	\$142
Amortization expense	—	13
Foreign currency and other	(9) (2
Balance at March 31, 2014	\$580	\$153

The Company recorded approximately \$13 million and \$11 million of amortization expense related to definite-lived intangible assets for the three-month periods ended March 31, 2014 and 2013, respectively. The Company currently estimates annual amortization expense to be \$50 million for 2014, \$49 million for 2015, \$49 million for 2016, \$47 million for 2017 and \$42 million for 2018. Indefinite-lived intangible assets, including goodwill and trade names are not amortized but are tested for impairment at least annually. No impairment was identified during the periods presented. Goodwill is summarized by product group in the table below.

NOTE 8. Debt

The Company's short and long-term debt consists of the following:

	March 31 2014	December 31 2013
	(Dollars in Millions)	
Short-term debt		
Current portion of 6.75% Senior notes	\$397	\$—
Current portion of other long-term debt	14	2
Short-term borrowings	100	104
Total short-term debt	\$511	\$106
Long-term debt		
6.75% Senior notes due April 15, 2019	\$—	\$396
HVCC USD term loan due May 30, 2016	100	100
HVCC KRW term loan due May 30, 2016	93	95
Other	19	33
Total long-term debt	\$212	\$624

Short-term debt

Short-term borrowings are primarily related to the Company's non-U.S. operations and are payable in various currencies. As of March 31, 2014, the Company had international affiliate short-term borrowings of \$100 million, approximately \$67 million of which is related to HVCC. As of December 31, 2013, the Company had international affiliate short-term borrowings of \$104 million, approximately \$68 million of which is related to HVCC. These borrowings are payable in both U.S. dollar and non-U.S. currencies including, but not limited to, the Euro, Korean Won, Turkish Lira, Russian Ruble and Chinese Yuan.

Short-term borrowings include an arrangement, through a subsidiary in France, to sell accounts receivable with recourse on an uncommitted basis. The amount of financing available is dependent on the amount of receivables less customary reserves. The Company pays a 25 basis points servicing fee on all receivables sold, as well as a financing fee of three-month Euribor plus 95 basis points on the advanced portion. At March 31, 2014, there were \$32 million outstanding borrowings under the facility with \$50 million of receivables pledged as security, which were recorded as Other current assets on the consolidated balance sheet. At December 31, 2013, there were \$31 million outstanding borrowings under the facility with \$52 million of receivables pledged as security.

Available borrowings on outstanding affiliate credit facilities as of March 31, 2014 is approximately \$296 million and certain of these facilities have pledged receivables, inventory or equipment as security.

6.75% Senior Notes Due April 15, 2019

The Company's 6.75% senior notes due April 15, 2019 (the "Senior Notes"), were issued under an Indenture (the "Indenture") among the Company, the subsidiary guarantors named therein, and The Bank of New York Mellon Trust Company, N.A., as trustee. The Indenture and the form of Senior Notes provide, among other things, that prior to April 15, 2014, the Company had the option to redeem up to 10% of the Senior Notes during any 12-month period from the issue date until April 15, 2014, for a 103% redemption price, plus accrued and unpaid interest to the redemption date. In March 2014, the Company issued a call notice to repurchase \$50 million, or 10%, of its Senior Notes. Accordingly, the Company reclassified this amount from long-term debt to short-term debt at March 31, 2014. Additionally, the Company had the option to redeem a portion or all of the Senior Notes beginning on April 15, 2014, for a 105.063% redemption price, plus accrued and unpaid interest to the redemption date. On April 9, 2014, in

conjunction with the closing of a new term loan facility, the Company exercised this right and issued a call notice to repurchase the remaining \$350 million of its Senior Notes in May 2014. Accordingly, the Company reclassified this amount from long-term debt to short-term debt at March 31, 2014.

Term Facility and Revolving Facility

On April 9, 2014, the Company entered into a new credit agreement (the “Credit Agreement”), by and among the Company as borrower, each lender from time to time party thereto, each letter of credit issuer from time to time party thereto and Citibank,

Table of Contents

N.A. as administrative agent (the “Administrative Agent”), which provides for (i) delayed draw term loans in an aggregate principal of \$600 million (the “Term Facility”) and (ii) a \$200 million revolving credit facility (the “Revolving Facility”). The Company and certain of its subsidiaries have granted a security interest in substantially all of their respective property, subject to certain limitations.

At the Company’s option, loans under the Term Facility and Revolving Facility may be maintained from time to time at an interest rate equal to the applicable rate (“Applicable Rate”) plus the applicable domestic rate (“Base Rate”) or the LIBOR-based rate (“Eurodollar Rate”). The Base Rate shall be a fluctuating rate per annum equal to the highest of (i) the rate equal to the weighted average of the rates on overnight federal funds transactions with members of the Federal Reserve System arranged by federal funds brokers, as published by the Federal Reserve Bank of New York on the following Business Day, plus 0.50%; (ii) the rate established by the Administrative Agent as its “prime rate” at its principal U.S. office and (iii) the Eurodollar Rate (which, for the purposes of establishing the Base Rate, shall not be less than 0.75%) plus 1%. The Eurodollar Rate shall be equal to the quotient obtained by dividing (a) the ICE Benchmark Administration Limited LIBOR Rate by (b) the difference between 1.00 and the reserve percentage under regulations issued from time to time by the Board of Governors of the Federal Reserve System of the United States for determining the maximum reserve requirement with respect to Eurocurrency funding. The Applicable Rate varies based on certain corporate credit ratings at the time of borrowing, and ranges from 1.75% to 1.00% for Base Rate loans and 2.75% to 2.00% for Eurodollar Rate loans.

Up to \$75 million of the Revolving Facility is available for the issuance of letters of credit, and any such issuance of letters of credit will reduce the amount available for loans under the Revolving Facility. Up to \$20 million of the Revolving Facility is available for swing line advances, and any such swing line advances will reduce the amount available for loans under the Revolving Facility. The Company may request increases in the limits under the Term Facility and the Revolving Facility and may request the addition of one or more term loan facilities under the Credit Agreement.

The Term Facility shall mature on April 9, 2021 (the “Term Facility Maturity Date”), and the Revolving Facility shall mature on April 9, 2019 (the “Revolving Facility Maturity Date”). Loans made under the Term Facility are due and payable in full on the Term Facility Maturity Date. Loans made under the Revolving Facility are due and payable in full on the Revolving Facility Maturity Date. Outstanding borrowings may be prepaid without penalty (other than borrowings made for the purpose of reducing the effective interest rate margin or weighted average yield of the loans) in \$100,000 increments over \$500,000 for loans maintained under the Base Rate and in \$250,000 increments over \$1,000,000 for loans maintained under the Eurodollar Rate. In the event the Company makes a prepayment of the term loans in connection with a repricing transaction at any time prior to the six month anniversary of the closing date, the Company must pay a prepayment premium equal to 1.0% of the principal amount of term loans prepaid or repaid to the applicable lenders under the Term Facility. There are mandatory prepayments of principal in connection with: (i) excess cash flow sweeps (in the amount of 50%, with step downs to 25% and 0% of the excess cash flow, depending on the then-applicable leverage), (ii) certain asset sales or other dispositions (including as a result of casualty or condemnation), (iii) certain refinancings of indebtedness and (iv) over-advances under the Revolving Facility. The Company is also required to repay quarterly 0.25% of the initial term loan drawn.

The Credit Agreement requires the Company and its subsidiaries to comply with customary affirmative and negative covenants, including financial covenants and contains customary events of default. The Term Facility and the Revolving Facility require that, as of the last day of any four consecutive fiscal quarters of the Company last ended (commencing as of June 30, 2014), the Company maintain a total net leverage ratio no greater than 3.00:1.00 (the “Financial Maintenance Covenant”). During any period when the Company’s corporate and family ratings meet certain specified ratings, certain of the negative covenants shall be suspended and the Financial Maintenance Covenant shall only be tested with respect to the Revolving Facility.

All obligations under the Credit Agreement and obligations in respect of certain cash management services and swap agreements with the lenders and their affiliates are unconditionally guaranteed by certain of the Company's subsidiaries. In connection with the Credit Agreement, on April 9, 2014, (i) the Company, certain of its subsidiaries and the Administrative Agent entered into a Security Agreement (the "Security Agreement") (ii) certain subsidiaries of the Company and the Administrative Agent entered into a Guaranty Agreement (the "Guaranty Agreement") and (iii) the Company, certain of its subsidiaries and the Administrative Agent entered into an Intellectual Property Security Agreement (the "Intellectual Property Security Agreement" and, together with the Security Agreement and the Guaranty Agreement, the "Security Documents"). Pursuant to the Security Documents, all obligations under the Credit Agreement are secured by a first-priority perfected lien (subject to certain exceptions) in substantially all of the property of the Company and the subsidiaries party to the Security Agreement, subject to certain limitations.

In connection with signing of the Credit Agreement, on April 9, 2014, the Company terminated its \$130 million revolving loan credit agreement dated October 1, 2010. As of March 31, 2014, there were no outstanding borrowings under this facility.

Table of Contents

HVCC Term Loans

During the first quarter of 2013, HVCC entered into and fully drew on two unsecured bilateral term loan credit agreements with aggregate available borrowings of approximately \$195 million. As of March 31, 2014, the USD equivalent of these agreements was \$193 million. Both credit agreements mature in May 2016, and are subject to financial covenants requiring total debt to EBITDA of not greater than 3.2x and a net interest coverage test of more than 3x. The Company was in compliance with such covenants at March 31, 2014.

Other Long-Term Debt

Other long-term debt also includes amounts associated with the Company's non-U.S. operations and are payable in various currencies. As of March 31, 2014 and December 31, 2013, the Company had long-term international affiliate debt outstanding of \$19 million and \$33 million, respectively. These balances are payable in both U.S. and non-U.S. currencies including, but not limited to, the Euro and Russian Ruble.

Letters of Credit

The Company has a \$15 million letter of credit facility with US Bank National Association. As of both March 31, 2014 and December 31, 2013, the Company had \$10 million of outstanding letters of credit issued under this facility secured by restricted cash. Additionally, the Company had \$22 million and \$21 million of locally issued letters of credit to support various customs arrangements and other obligations at its local affiliates of which \$15 million are secured by cash collateral at both March 31, 2014 and December 31, 2013, respectively.

NOTE 9. Employee Benefit Plans

Defined Benefit Plans

The components of the Company's net periodic benefit costs for the three-month periods ended March 31, 2014 and 2013 were as follows:

	U.S. Plans		Non-U.S. Plans	
	2014	2013	2014	2013
	(Dollars in Millions)			
Costs Recognized in Income				
Service cost	\$—	\$—	\$6	\$6
Interest cost	12	12	8	7
Expected return on plan assets	(15) (16) (6) (5
Amortization of losses	—	—	1	1
Net pension (income) expense	\$(3) \$(4) \$9	\$9

During the three-month period ended March 31, 2014, the Company made cash contributions to non-U.S. defined benefit pension plans of \$3 million. During 2014, the Company expects to make additional cash contributions to its U.S. and non-U.S. defined benefit pension plans of \$5 million and \$35 million, respectively. The Company's expected 2014 contributions may be revised.

Defined Contribution Plans

Most U.S. salaried employees and certain non-U.S. employees are eligible to participate in defined contribution plans by contributing a portion of their compensation, which is partially matched by the Company. The expense related to matching contributions was approximately \$5 million and \$4 million for the three-month periods ended March 31, 2014 and 2013, respectively.

NOTE 10. Income Taxes

During the three months ended March 31, 2014, the Company recorded a provision for income tax of \$35 million, which includes income tax expense in countries where the Company is profitable, withholding taxes, changes in uncertain tax benefits, and the inability to record a tax benefit for pre-tax losses in the U.S. and certain other jurisdictions to the extent not offset by other categories of income. The Company recognized a benefit from income taxes of \$18 million during the three months ended March 31, 2013.

The increase in income tax expense reflects the non-recurrence of a \$54 million benefit, including interest and penalties, primarily

13

Table of Contents

attributable to reevaluating transfer pricing-related exposures in Europe and the United States due to audit closures in the first quarter of 2013. Pre-tax losses in jurisdictions where valuation allowances are maintained and no income tax benefits are recognized totaled \$48 million and \$92 million, for the three months ended March 31, 2014 and 2013, respectively, resulting in an increase in the Company's effective tax rate in those years.

The Company provides for U.S. and non-U.S. income taxes and non-U.S. withholding taxes on the projected future repatriations of the earnings from its non-U.S. operations at each tier of the legal entity structure. During the three-month periods ended March 31, 2014 and 2013, the Company recognized expense of \$4 million and \$7 million, respectively, reflecting the Company's forecasts which contemplate numerous financial and operational considerations that impact future repatriations.

The Company's provision for income taxes in interim periods is computed by applying an estimated annual effective tax rate against income before income taxes, excluding equity in net income of non-consolidated affiliates for the period. Effective tax rates vary from period to period as separate calculations are performed for those countries where the Company's operations are profitable and whose results continue to be tax-effected and for those countries where full deferred tax valuation allowances exist and are maintained. The Company is also required to record the tax impact of certain other non-recurring tax items, including changes in judgments about valuation allowances and effects of changes in tax laws or rates, in the interim period in which they occur.

The need to maintain valuation allowances against deferred tax assets in the U.S. and other affected countries will continue to cause variability in the Company's quarterly and annual effective tax rates. Full valuation allowances against deferred tax assets in the U.S. and applicable foreign countries will be maintained until sufficient positive evidence exists to reduce or eliminate them. The factors considered by management in its determination of the probability of the realization of the deferred tax assets include, but are not limited to, recent adjusted historical financial results, historical taxable income, projected future taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies. If, based upon the weight of available evidence, it is more likely than not the deferred tax assets will not be realized, a valuation allowance is recorded.

Unrecognized Tax Benefits

Gross unrecognized tax benefits were \$72 million at March 31, 2014, and \$73 million at December 31, 2013, of which approximately \$29 million and \$30 million, respectively, represent the amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate. The gross unrecognized tax benefit differs from that which would impact the effective tax rate due to uncertain tax positions embedded in other deferred tax attributes carrying a full valuation allowance. Since the uncertainty is expected to be resolved while a full valuation allowance is maintained, these uncertain tax positions should not impact the effective tax rate in current or future periods. During the three-month period ended March 31, 2014, the Company's decrease in its gross unrecognized tax benefits was primarily related to the completion of an income tax examination in France which resulted in a cash settlement of \$1 million during the quarter. The Company records interest and penalties on uncertain tax positions as a component of income tax expense and related amounts accrued at March 31, 2014 and December 31, 2013 were \$25 million and \$23 million, respectively.

With few exceptions, the Company is no longer subject to U.S. federal tax examinations for years before 2009 or state and local, or non-U.S. income tax examinations for years before 2003. Although it is not possible to predict the timing of the resolution of all ongoing tax audits with accuracy, it is reasonably possible that certain tax proceedings in Asia (including Korea) could conclude within the next twelve months and result in a significant increase or decrease in the balance of gross unrecognized tax benefits. Given the number of years, jurisdictions and positions subject to examination, the Company is unable to estimate the full range of possible adjustments to the balance of unrecognized tax benefits.

During 2012, South Korean tax authorities commenced a review of the Company's South Korean affiliates (including Halla) for tax years 2007 through 2012, and issued formal notice of assessments, including penalties, of approximately \$25 million for alleged underpayment of withholding tax on dividends paid and other items, including certain management service fees charged by Visteon. The Company's South Korean affiliates have paid approximately \$25 million to the tax authorities in 2013 and 2012, as required under South Korean tax regulations, to pursue the appeals process. The Company believes that it is more likely than not that it will receive a favorable ruling when all of the available appeals have been exhausted.

During 2012, Brazilian tax authorities issued tax assessment notices to Visteon Sistemas Automotivos (“Sistemas”) of approximately \$15 million related to the sale of its chassis business to a third party. During 2013, after attempts to reopen an appeal of the administrative decision failed, Sistemas opened a judicial proceeding against the government to address the notice which required a deposit in the amount of the assessment in order to suspend the debt and allow Sistemas to operate regularly before the tax authorities. The Company believes that the risk of a negative outcome is remote once the matter is fully litigated at the highest judicial level. These appeal payments in South Korea and Brazil, as well as contingent income tax refund claims

Table of Contents

associated with other jurisdictions, including applicable accrued interest income, totaled \$48 million as of March 31, 2014, and were included in Other non-current assets on the consolidated balance sheet.

NOTE 11. Stockholders' Equity and Non-controlling Interests

Changes in equity attributable to Visteon and equity attributable to non-controlling interests ("NCI") for the three months ended March 31, 2014 and 2013 are as follows:

	2014			2013		
	Visteon	NCI	Total	Visteon	NCI	Total
	(Dollars in Millions)					
Stockholders' equity beginning balance	\$1,920	\$953	\$2,873	\$1,385	\$756	\$2,141
Net income	19	29	48	69	15	84
Other comprehensive income (loss)						
Foreign currency translation adjustments	(11) (8) (19) (31) (10) (41
Benefit plans	1	—	1	9	(2) 7
Unrealized hedging gains	(2) (1) (3) (6) (4) (10
Total other comprehensive loss	(12) (9) (21) (28) (16) (44
Stock-based compensation, net	4	—	4	5	—	5
Share repurchase	—	—	—	(125) —	(125
Dividends declared to non-controlling interests	—	(61) (61) —	(22) (22
Stockholders' equity ending balance	\$1,931	\$912	\$2,843	\$1,306	\$733	\$2,039

HVCC, a 70% owned subsidiary of Visteon, declared a dividend of \$97 million during the three months ended March 31, 2014, of which, \$29 million was attributable to NCI in HVCC. During the first quarter of 2014 and in connection with the Master Agreement, YFVE, a 51% owned subsidiary of Visteon, declared a dividend of \$54 million, of which, \$26 million was attributable to NCI in YFVE. Neither of these dividends had been paid at March 31, 2014. HVCC Beijing, an 80% owned subsidiary of HVCC, declared and paid a dividend of \$28 million during the first quarter of 2014, of which, \$6 million was attributable to non-controlling ownership interests.

Share Repurchase Program

Since July 2012, the Company's board of directors has authorized a total of \$1.175 billion in share repurchases. As of March 31, 2014, \$875 million remained authorized and available for repurchase through December 31, 2015. The Company anticipates that additional repurchases of common stock, if any, would occur from time to time in open market transactions or in privately negotiated transactions depending on market and economic conditions, share price, trading volume, alternative uses of capital and other factors. On May 8, 2014, the Company announced an accelerated stock buyback ("ASB") program with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$500 million.

Non-controlling Interests

NCI in the Visteon Corporation economic entity are as follows:

	March 31 2014	December 31 2013
	(Dollars in Millions)	
HVCC	\$757	\$777
YFVE	118	139
Visteon Interiors Korea, Ltd.	22	22
Other	15	15

Total non-controlling interests	\$912	\$953
---------------------------------	-------	-------

Amounts reclassified from AOCI (c)	1	1	
Ending balance	26	(99)
Unrealized hedging gains (loss)			
Beginning balance	—	7	
Other comprehensive (loss) income before reclassification, net of tax (d)	(2) (1)
Amounts reclassified from AOCI (e)	—	(5)
Ending balance	(2) 1	
AOCI ending balance	\$(24) \$(118)

(a) Amount included in Other expenses in Consolidated Statement of Comprehensive Income.

(b) Net tax expense of \$0 million and \$2 million are related to benefit plans for the three months ended March 31, 2014 and 2013, respectively.

(c) Amount included in the computation of net periodic pension cost. See Note 9 Employee retirement benefits for additional details.

(d) Net tax benefit of \$1 million and \$4 million are related to unrealized hedging gains (loss) for the three months ended March 31, 2014 and 2013, respectively.

(e) Amount is included in Cost of sales in Consolidated Statement of Comprehensive Income.

NOTE 12. Earnings Per Share

The Company uses the two-class method in computing basic and diluted earnings per share. Basic earnings per share is calculated by dividing net income attributable to Visteon, after deducting undistributed income allocated to participating securities, by the weighted average number of shares of common stock outstanding. Diluted earnings per share is computed by dividing net income by the weighted average number of common and potential dilutive common shares outstanding after deducting undistributed income allocated to participating securities. Performance based share units are considered contingently issuable shares, and are included in the computation of diluted earnings per share based on the number of shares that would be issuable if the reporting date were the end of the contingency period and if the result would be dilutive.

Table of Contents

The table below provides details underlying the calculations of basic and diluted earnings per share:

	Three Months Ended March 31	
	2014	2013
	(In Millions, Except Per Share Amounts)	
Numerator:		
Net income attributable to Visteon	\$19	\$69
Denominator:		
Average common stock outstanding - basic	48.4	51.6
Dilutive effect of warrants and Performance Stock Units	1.2	0.3
Diluted shares	49.6	51.9

Basic and Diluted Earnings Per Share Data:

Earnings per share attributable to Visteon:

Basic	\$0.39	\$1.34
Diluted	\$0.38	\$1.33

The effect of certain common stock equivalents including warrants, performance-based share units, and stock options were excluded from the computation of weighted average diluted shares outstanding as inclusion of such items would be anti-dilutive, summarized below. All common stock equivalents were dilutive in the three months ended March 31, 2014.

	Three Months Ended March 31, 2013 (In Millions, Except Per Share Amounts)	
Number of warrants	1.5	
Exercise price	\$58.80	
Number of performance stock units	—	
Number of stock options	0.3	
Exercise price	\$44.55	- \$74.08

NOTE 13. Fair Value Measurements and Financial Instruments

Financial assets and liabilities are categorized, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs.

- Level 1 – Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.
- Level 2 – Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.
- Level 3 – Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The Company's fair value of debt was approximately \$742 million and \$755 million at March 31, 2014 and December 31, 2013, respectively. Fair value estimates were based on quoted market prices or current rates for the same or similar issues, or on the current rates offered to the Company for debt of the same remaining maturities. Accordingly, the Company's debt is classified as Level 1, "Market Prices" and Level 2, "Other Observable Inputs" in the fair value hierarchy, respectively.

Financial Instruments

The Company's net cash inflows and outflows exposed to the risk of changes in foreign currency exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. Where possible, the Company utilizes derivative financial instruments, including forward and option contracts, to protect the Company's cash flow from changes in exchange rates. Foreign

17

Table of Contents

currency exposures are reviewed monthly and any natural offsets are considered prior to entering into a derivative financial instrument. The Company's primary hedged foreign currency exposures include the Euro, Korean Won, Czech Koruna, Hungarian Forint, Indian Rupee and Mexican Peso. Where possible, the Company utilizes a strategy of partial coverage for transactions in these currencies.

As of March 31, 2014 and December 31, 2013, the Company had forward contracts to hedge changes in foreign currency exchange rates with notional amounts of approximately \$660 million and \$625 million, respectively. Fair value estimates of these contracts are based on quoted market prices and other observable inputs. A portion of these instruments have been designated as cash flow hedges with the effective portion of the gain or loss reported in the AOCI component of Stockholders' equity in the Company's consolidated balance sheets. The ineffective portion of these instruments is recorded as Cost of sales in the Company's consolidated statements of comprehensive income.

Foreign currency hedge instruments are measured at fair value on a recurring basis under an income approach using industry-standard models that consider various assumptions, including time value, volatility factors, current market and contractual prices for the underlying and non-performance risk. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data, or are supported by observable levels at which transactions are executed in the marketplace. Accordingly, the Company's foreign currency instruments are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

Financial Statement Presentation

The Company presents its derivative positions and any related material collateral under master netting agreements on a net basis. Derivative financial instruments designated and non-designated as hedging instruments are included in the Company's consolidated balance sheets at March 31, 2014 and December 31, 2013 as follows:

Risk Hedged	Assets		Liabilities		March 31 2014	December 31 2013	
	Classification	March 31 2014	December 31 2013	Classification			March 31 2014

Table of Contents

Gains and losses on derivative financial instruments recorded in Cost of sales for the three-month periods ended March 31, 2014 and 2013 were as follows:

	Recorded in AOCI, net of tax		Reclassified from AOCI into Income		Recorded in Income	
	Three Months Ended March 31		Three Months Ended March 31		Three Months Ended March 31	
	2014	2013	2014	2013	2014	2013
	(Dollars in Millions)					
Foreign currency risk – Cost of sales						
Cash flow hedges	\$ (2)	\$ (6)	\$ —	\$ 5	\$ —	\$ —
Non-designated cash flow hedges	—	—	—	—	(2)	1
	\$ (2)	\$ (6)	\$ —	\$ 5	\$ (2)	\$ 1

Concentrations of Credit Risk

Financial instruments including cash equivalents, marketable securities, derivative contracts, and accounts receivable, expose the Company to counter-party credit risk for non-performance. The Company's counterparties for cash equivalents, marketable securities and derivative contracts are banks and financial institutions that meet the Company's requirement of high credit standing. The Company's counterparties for derivative contracts are investment and commercial banks with significant experience using such derivatives. The Company manages its credit risk through policies requiring minimum credit standing and limiting credit exposure to any one counter-party and through monitoring counter-party credit risks. The Company's concentration of credit risk related to derivative contracts at March 31, 2014 and December 31, 2013 is not material. With the exceptions below, the Company's credit risk with any individual customer does not exceed ten percent of total accounts receivable at March 31, 2014 and December 31, 2013, respectively.

	March 31 2014	December 31 2013
Ford and its affiliates	22%	20%
Hyundai Mobis Company	15%	15%
Hyundai Motor Company	7%	9%

Management periodically performs credit evaluations of its customers and generally does not require collateral.

NOTE 14. Commitments and Contingencies

Litigation and Claims

In 2003, the Local Development Finance Authority of the Charter Township of Van Buren, Michigan (the "Township") issued approximately \$28 million in bonds finally maturing in 2032, the proceeds of which were used at least in part to assist in the development of the Company's U.S. headquarters located in the Township. During January 2010, the Company and the Township entered into a settlement agreement (the "Settlement Agreement") that, among other things, reduced the taxable value of the headquarters property to current market value and facilitated certain claims of the Township in the Company's chapter 11 proceedings. The Settlement Agreement also provided that the Company would continue to negotiate in good faith with the Township in the event that property tax payments was inadequate to permit the Township to meet its payment obligations with respect to the bonds. In September 2013, the Township notified the Company in writing that it is estimating a shortfall in tax revenues of between \$25 million and \$36 million, which could render it unable to satisfy its payment obligations under the bonds, but made no specific monetary demand of the Company. The Company disputes the factual and legal assertions made by the Township and intends to vigorously defend the matter should the Township seek to commence a legal proceeding against the Company. The Company is not able to estimate the possible loss or range of loss in connection with this matter.

On March 29, 2012, the Korean Supreme Court ruled that regular bonuses should be included for purposes of calculating the ordinary wage of applicable employees, which was contrary to previous legal precedent and the position of the Korean Ministry of Employment and Labor. On December 18, 2013, the Korean Supreme Court issued an en banc decision clarifying that (i) regular bonuses, should be included for purposes of calculating such ordinary wage, and (ii) certain incentive pay and family allowances may also be included for purposes of calculating such ordinary wage if they were paid to employees as consideration for the labor actually provided by them. The court also indicated that employers could be excused from liability for excluding such regular bonuses from ordinary wages where an express or implied management-labor agreement or practice to exclude such amounts

Table of Contents

existed and to require such payment would cause “serious managerial difficulty.” The Company is evaluating the potential financial impact of these new court rulings, and is not able to determine at this time whether it will have a material impact on the results of operations and cash flows of its South Korean subsidiaries. In addition, on May 24, 2013, Halla Visteon Climate Control Union in Korea, representing 891 hourly employees of HVCC, filed a legal petition with Seoul Southern District Court, claiming unpaid statutory benefits for the past three years based on the initial Supreme Court ruling. The plaintiffs have informed the court on March 31, 2014 that they will submit a revised claim amount in May 2014 based on the Supreme Court en banc decision. The Company is in the process of evaluating these claims, but at this time is not able to estimate the possible loss or range of loss in connection with this matter.

In November 2013, the Company and HVCC, jointly filed an Initial Notice of Voluntary Self-Disclosure statement with the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”) regarding certain sales of automotive HVAC components by a minority-owned, Chinese joint venture of HVCC into Iran. The Company updated that notice in December 2013, and subsequently filed a voluntary self-disclosure regarding these sales with OFAC in March 2014. In May 2014, the Company voluntarily filed a supplementary self-disclosure identifying additional sales of automotive HVAC components by the Chinese joint venture, as well as similar sales involving an HVCC subsidiary in China, totaling approximately \$12 million, and requesting additional time to investigate additional Chinese operations of HVCC. OFAC is currently reviewing the results of the Company’s investigation. Following that review, OFAC may conclude that the disclosed sales resulted in violations of U.S. economic sanctions laws and warrant the imposition of civil penalties, such as fines, limitations on our ability to export products from the United States, and/or referral for further investigation by the U.S. Department of Justice. Any such fines or restrictions may be material to the Company’s financial results in the period in which they are imposed. Additionally, disclosure of this conduct and any fines or other action relating to this conduct could harm the Company’s reputation and have a material adverse effect on our business, operating results and financial condition. Although the Company has completed its own internal investigation into these sales, it cannot predict when OFAC will conclude its own review of our voluntary self-disclosures or whether it may impose any of the potential penalties described above.

Toyota Industries Corporation (“TICO”) filed a patent infringement claim with the Seoul Central District Court on March 18, 2014, requesting HVCC to discontinue production of its RS compressors and dispose of inventories and manufacturing facilities. HVCC received the original of TICO's claim submission on March 31, 2014, and is planning to file for a patent invalidation trial before the Korean Intellectual Property Tribunal in response. The Company is in the process of evaluating these claims, but at this time is not able to estimate the possible loss or range of loss in connection with this matter.

During January 2014, HVCC provided documents and information to the Korean Fair Trade Commission regarding certain subcontracting transactions and practices. HVCC received a notice from such commission on March 13, 2014, declaring they have not detected any violations of the Fair Transactions in Subcontracting Act.

The Company's operations in Brazil are subject to highly complex labor, tax, customs and other laws. While the Company believes that it is in compliance with such laws, it is periodically engaged in litigation regarding the application of these laws. As of March 31, 2014, the Company maintained accruals of approximately \$10 million for claims aggregating approximately \$156 million. The amounts accrued represent claims that are deemed probable of loss and are reasonably estimable based on the Company's assessment of the claims and prior experience with similar matters.

Several current and former employees of Visteon Deutschland GmbH (“Visteon Germany”) filed civil actions against Visteon Germany in various German courts beginning in August 2007, seeking damages for the alleged violation of German pension laws that prohibit the use of pension benefit formulas that differ for salaried and hourly employees without adequate justification. Several of these actions have been joined as pilot cases. In a written decision issued in

April 2010, the Federal Labor Court issued a declaratory judgment in favor of the plaintiffs in the pilot cases. To date, more than 750 current and former employees have filed similar actions or have inquired as to or been granted additional benefits, and an additional 600 current and former employees are similarly situated. The Company's remaining reserve for unsettled cases is approximately \$8 million and is based on the Company's best estimate as to the number and value of the claims that will be made in connection with the pension plan. However, the Company's estimate is subject to many uncertainties which could result in Visteon Germany incurring amounts in excess of the reserved amount of up to approximately \$9 million.

On May 28, 2009, the Company filed voluntary petitions in the Court seeking reorganization relief under the provisions of chapter 11 of the Bankruptcy Code and continued to operate as debtors-in-possession until emergence on October 1, 2010. Substantially all pre-petition liabilities and claims relating to rejected executory contracts and unexpired leases have been settled under the plan of reorganization, however, the ultimate amounts to be paid in settlement of each those claims will continue to be subject to the uncertain outcome of litigation, negotiations and Bankruptcy Court decisions for a period of time after the emergence date.

Table of Contents

In December of 2009, the Court granted the Debtors' motion in part authorizing them to terminate or amend certain other postretirement employee benefits, including health care and life insurance. On December 29, 2009, the IUE-CWA, the Industrial Division of the Communications Workers of America, AFL-CIO, CLC, filed a notice of appeal of the Court's order with the District Court. By order dated March 31, 2010, the District Court affirmed the Court's order in all respects. On April 1, 2010, the IUE filed a notice of appeal. On July 13, 2010, the Circuit Court reversed the order of the District Court as to the IUE-CWA and directed the District Court to, among other things, direct the Court to order the Company to take whatever action is necessary to immediately restore terminated or modified benefits to their pre-termination/modification levels. On July 27, 2010, the Company filed a Petition for Rehearing or Rehearing En Banc requesting that the Circuit Court review the panel's decision, which was denied. By orders dated August 30, 2010, the Court ruled that the Company should restore certain other postretirement employee benefits to the appellant-retirees and also to salaried retirees and certain retirees of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America ("UAW").

On September 1, 2010, the Company filed a Notice of Appeal to the District Court of the Court's decision to include non-appealing retirees, and on September 15, 2010, the UAW filed a Notice of Cross-Appeal. On July 25, 2012, the District Court ruled in favor of the Company on both appeals, and the UAW has appealed this ruling to the Circuit Court. The Company reached an agreement with the original appellants in late-September 2010, which resulted in the Company not restoring other postretirement employee benefits of such retirees. On September 30, 2010, the UAW filed a complaint, which it amended on October 1, 2010, in the United States District Court for the Eastern District of Michigan seeking, among other things, a declaratory judgment to prohibit the Company from terminating certain other postretirement employee benefits for UAW retirees after October 1, 2010. The parties reached a preliminary settlement agreement in January 2013, but it was later terminated by the plaintiffs. On October 22, 2013, the U.S. District Court for the Eastern District of Michigan issued an order denying the Company's motion to dismiss the UAW's complaint and granted its motion to transfer the case to the U.S. District Court for the District of Delaware. As of March 31, 2014, the Company maintains an accrual for claims that are deemed probable of loss and are reasonably estimable.

While the Company believes its accruals for litigation and claims are adequate, the final amounts required to resolve such matters could differ materially from recorded estimates and the Company's results of operations and cash flows could be materially affected.

Product Warranty and Recall

Amounts accrued for product warranty and recall claims are based on management's best estimates of the amounts that will ultimately be required to settle such items. The Company's estimates for product warranty and recall obligations are developed with support from its sales, engineering, quality and legal functions and include due consideration of contractual arrangements, past experience, current claims and related information, production changes, industry and regulatory developments and various other considerations. The Company can provide no assurances that it will not experience material claims in the future or that it will not incur significant costs to defend or settle such claims beyond the amounts accrued or beyond what the Company may recover from its suppliers.

The following table provides a reconciliation of changes in the product warranty and recall claims liability, inclusive of amounts of discontinued operations for the selected periods:

	Three Months Ended March 31

Ending balance	\$48	\$53	

Environmental Matters

The Company is subject to the requirements of federal, state, local and foreign environmental and occupational safety and health laws and regulations and ordinances. These include laws regulating air emissions, water discharge and waste management. The Company is also subject to environmental laws requiring the investigation and cleanup of environmental contamination at properties it presently owns or operates and at third-party disposal or treatment facilities to which these sites send or arranged to send hazardous

Table of Contents

waste. The Company is aware of contamination at some of its properties. These sites are in various stages of investigation and cleanup. The Company currently is, has been, and in the future may become the subject of formal or informal enforcement actions or procedures.

Costs related to environmental assessments and remediation efforts at operating facilities, previously owned or operated facilities, or other waste site locations are accrued when it is probable that a liability has been incurred and the amount of that liability can be reasonably estimated. Estimated costs are recorded at undiscounted amounts, based on experience and assessments, and are regularly evaluated. The liabilities are recorded in Other current liabilities and Other non-current liabilities in the consolidated balance sheets. At March 31, 2014, the Company had recorded a reserve of approximately \$1 million for environmental matters. However, estimating liabilities for environmental investigation and cleanup is complex and dependent upon a number of factors beyond the Company's control and which may change dramatically. Accordingly, although the Company believes its reserve is adequate based on current information, the Company cannot provide any assurance that its ultimate environmental investigation and cleanup costs and liabilities will not exceed the amount of its current reserve.

Other Contingent Matters

Various legal actions, governmental investigations and proceedings and claims are pending or may be instituted or asserted in the future against the Company, including those arising out of alleged defects in the Company's products; governmental regulations relating to safety; employment-related matters; customer, supplier and other contractual relationships; intellectual property rights; product warranties; product recalls; and environmental matters. Some of the foregoing matters may involve compensatory, punitive or antitrust or other treble damage claims in very large amounts, or demands for recall campaigns, environmental remediation programs, sanctions, or other relief which, if granted, would require very large expenditures. The Company enters into agreements that contain indemnification provisions in the normal course of business for which the risks are considered nominal and impracticable to estimate.

Contingencies are subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Reserves have been established by the Company for matters discussed in the immediately foregoing paragraph where losses are deemed probable and reasonably estimable. It is possible, however, that some of the matters discussed in the foregoing paragraph could be decided unfavorably to the Company and could require the Company to pay damages or make other expenditures in amounts, or a range of amounts, that cannot be estimated at March 31, 2014, and that are in excess of established reserves. The Company does not reasonably expect, except as otherwise described herein, based on its analysis, that any adverse outcome from such matters would have a material effect on the Company's financial condition, results of operations or cash flows, although such an outcome is possible.

NOTE 15. Segment Information

The Company's reportable segments are as follows:

Climate - The Company's Climate product line includes climate air handling modules, powertrain cooling modules, heat exchangers, compressors, fluid transport and engine induction systems.

Electronics - The Company's Electronics product line includes audio systems, infotainment systems, driver information systems, powertrain and feature control modules, climate controls, and electronic control modules.

Interiors - The Company's Interiors product line includes instrument panels, cockpit modules, door trim and floor consoles. On May 1, 2014, the Company reached an agreement for the sale of substantially all of its global Interiors operations for de minimis proceeds.

Financial results for the Company's reportable segments have been prepared using a management approach, which is consistent with the basis and manner in which financial information is evaluated by the Company's chief operating

decision-making group in allocating resources and in assessing performance. The Company's chief operating decision making group, comprised of the Chief Executive Officer and Chief Financial Officer, evaluates the performance of the Company's segments primarily based on net sales, before elimination of inter-company shipments, Adjusted EBITDA (non-GAAP financial measure) and operating assets.

Electronics	439	365
Interiors	303	317
Eliminations	(28) (54
Total consolidated sales	\$ 1,982	\$ 1,856

Segment Adjusted EBITDA

The Company defines Adjusted EBITDA as net income attributable to the Company, plus net interest expense, provision for income taxes and depreciation and amortization, as further adjusted to eliminate the impact of equity in net income of non-consolidated affiliates, net income attributable to non-controlling interests, asset impairments, gains or losses on divestitures, discontinued operations, net restructuring expenses and other reimbursable costs, non-cash stock-based compensation expense, certain employee charges and benefits, reorganization items and other non-operating gains and losses.

Through December 31, 2013, the Company's definition of Adjusted EBITDA was inclusive of net income attributable to non-controlling interests and equity in net income of non-consolidated affiliates. Following the December 17, 2013, disposition of its 50% ownership interest in Yanfeng, the Company modified its definition of Adjusted EBITDA to exclude net income attributable to non-controlling interests and equity in net income of non-consolidated affiliates as management believes this measure is most reflective of the operational performance of the Company's operating segments. Accordingly, Adjusted EBITDA for historical periods has been recast on basis consistent with the current definition.

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. Adjusted EBITDA is not a recognized term under U.S. GAAP and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants.

Segment Adjusted EBITDA for the three-month periods ended March 31, 2014 and 2013 is summarized below:

NOTE 16. Condensed Consolidating Financial Information of Guarantor Subsidiaries

The Indenture and the form of the Senior Notes provide, among other things, that the Senior Notes are senior unsecured obligations of the Company and each of the Company's existing and future wholly owned domestic restricted subsidiaries that guarantee debt under the Company's revolving loan credit agreement guarantee the Senior Notes. The Indenture and the form of Senior Notes also provide that prior to April 15, 2014, the Company had the option to redeem up to 10% of the Senior Notes during any 12-month period from the issue date until April 15, 2014, for a 103% redemption price, plus accrued and unpaid interest to the redemption date. In March 2014, the Company issued a call notice to repurchase \$50 million, or 10%, of its Senior Notes. Additionally, the Company had the option to redeem a portion or all of the Senior Notes beginning on April 15, 2014, for a 105.063% redemption price, plus accrued and unpaid interest to the redemption date. On April 9, 2014, in conjunction with the closing of a new term loan facility, the Company exercised this right and issued a call notice to repurchase the remaining \$350 million of its Senior Notes in May 2014. On April 9, 2014, the Company terminated its \$130 million revolving loan credit agreement dated October 1, 2010.

Guarantor Financial Statements

Certain subsidiaries of the Company (as listed below, collectively the "Guarantor Subsidiaries") have guaranteed fully and unconditionally, on a joint and several basis, the obligation to pay principal and interest under the Company's revolving loan credit agreement and the Senior Notes. The Guarantor Subsidiaries include: Visteon Electronics Corporation; Visteon European Holdings, Inc.; Visteon Global Treasury, Inc.; Visteon International Business Development, Inc.; Visteon International Holdings, Inc.; Visteon Global Technologies, Inc.; Visteon Systems, LLC; and VC Aviation Services, LLC.

The guarantor financial statements are comprised of the following condensed consolidating financial information:

- The Parent Company, the issuer of the guaranteed obligations;
 - Guarantor subsidiaries, on a combined basis, as specified in the Indentures related to the Senior Notes;
 - Non-guarantor subsidiaries, on a combined basis;
- Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions between or among the Parent Company, the guarantor subsidiaries and the non-guarantor subsidiaries, (b) eliminate the investments in subsidiaries, and (c) record consolidating entries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis ("MD&A") is intended to help the reader understand the results of operations, financial condition and cash flows of Visteon Corporation ("Visteon" or the "Company"). MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, filed with the Securities and Exchange Commission on February 25, 2014, and the financial statements and accompanying notes to the financial statements included elsewhere herein.

Executive Summary

Description of Business

Visteon is a global supplier of climate, electronics and interiors systems, modules and components to automotive original equipment manufacturers ("OEMs") including BMW, Chrysler, Daimler, Ford, General Motors, Honda, Hyundai, Kia, Nissan, PSA Peugeot Citroën, Renault, Toyota and Volkswagen. The Company has an international network of manufacturing operations, technical centers and joint venture operations, supported by approximately 24,000 employees dedicated to the design, development, manufacture and support of its product offerings and its global customers.

Financial Results Summary

Visteon recorded net sales of \$1,982 million for the first quarter of 2014, an increase of \$126 million from the same period in 2013. The increase in sales for the three months ended March 31, 2014, was primarily due to higher production volumes and favorable product mix for the Climate product group and the acquisition of a controlling ownership interest in Yanfeng Visteon Electronics Co., Ltd. ("YFVE") with effect from November 2013. The Company's sales for the three months ended March 31, 2014, were distributed by product group, geographic region, and customer as follows:

The Company's sales are significantly impacted by global light vehicle production volumes. A summary of global light vehicle production levels for the three-month periods ended March 31, 2014 and 2013 are presented below by geographic region.

	Three Months Ended March 31			
	2014	2013	Change

ASEAN	1.0	1.1	(11.1))%

Source: IHS Automotive

Gross margin was \$195 million, or 9.8% of sales, for the three months ended March 31, 2014, compared to \$154 million, or 8.3% of sales, for the same period of 2013. The increase was primarily attributable to the acquisition of a controlling ownership interest in YFVE with effect from November 2013, higher production volumes and favorable cost performance, partially offset by unfavorable foreign currency.

Table of Contents

Net income attributable to Visteon was \$19 million for the three-month period ended March 31, 2014. Equity in net income of non-consolidated affiliates was lower in the first quarter of 2014, by \$42 million reflecting the December 17, 2013 sale of the Company's 50% ownership interest in Yanfeng, which was largely offset by higher gross margin of \$41 million. Net income attributable to Visteon for the three-month period ended March 31, 2014, decreased by \$50 million when compared to the same period in 2013, largely due to the non-recurrence of a significant income tax benefit recognized in the first quarter of 2013.

The Company generated \$96 million of cash from operating activities during the three months ended March 31, 2014, a decrease of \$26 million when compared to the same period of 2013. Total cash, including restricted cash, was \$1,753 million as of March 31, 2014, \$51 million higher than December 31, 2013. The Company's total debt was \$723 million, \$7 million lower than December 31, 2013. As of March 31, 2014, the Company had \$1,030 million of cash in excess of total debt.

Strategic Transformation

In September 2012, the Company announced a comprehensive shareholder value creation plan founded on the pillars of industrial logic, customer focus and financial discipline. To date, substantial progress has been made under the comprehensive shareholder value creation plan including the following accomplishments since January 1, 2014:

Electronics optimization - On January 13, 2014, Visteon reached an agreement to acquire the automotive electronics business of Johnson Controls for cash of \$265 million. The acquisition is subject to certain regulatory and other consents and approvals and is expected to be completed in the second quarter of 2014.

Interiors strategy - On May 1, 2014, the Company reached an agreement for the sale of substantially all of its global Interiors operations for de minimis proceeds. The Company anticipates recording a pre-tax loss on the transaction, which is currently estimated to be in the range of \$250 million to \$300 million. The closing of the Interiors sale transaction is expected to occur by December 31, 2014, and is subject to various conditions, including regulatory and antitrust approvals, receipt of other third party consents and approvals and other customary closing conditions. In April 2014, Visteon completed the sale of its 50% ownership stake in Duckyang, a Korean automotive interiors joint venture for total cash of \$31 million.

In connection with the preparation of the March 31, 2014, financial statements, the Company determined that an indicator of impairment existed in relation to the net assets of its Interiors business, which approximated \$220 million as of March 31, 2014. Accordingly, the Company performed a recoverability test utilizing a probability weighted analysis of cash flows associated with continuing to run and operate the Interiors business and estimated cash flows associated with the potential sale of the Interiors business. As a result of the analysis, the Company concluded that the assets were not recoverable. However, no impairment was recorded as of March 31, 2014, as the fair value of the underlying assets were determined to be in excess of the respective carrying value. As of March 31, 2014, the Company did not meet the specific criteria necessary for the Interiors assets to be considered held for sale.

For additional information about the Company's shareholder value creation plan, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2013, for specific objectives of plan and cumulative progress through December 31, 2013.

Share Repurchase Program

Since July 2012, the Company's board of directors has authorized a total of \$1.175 billion in share repurchases. As of March 31, 2014, \$875 million remains authorized and available for repurchase through December 31, 2015. The Company anticipates that additional repurchases of common stock, if any, would occur from time to time in open market transactions or in privately negotiated transactions depending on market and economic conditions, share price, trading volume, alternative uses of capital and other factors. On May 8, 2014, the Company announced an accelerated

stock buyback ("ASB") program with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$500 million.

Consolidated Results of Operations - Three Months Ended March 31, 2014 and 2013

The Company's consolidated results of operations for the three months ended March 31, 2014 and 2013 were as follows:

	Three Months Ended March 31		
	2014	2013	Change
	(Dollars in Millions)		
Sales	\$1,982	\$1,856	\$126
Cost of sales	1,787	1,702	85
Gross margin	195	154	41
Selling, general and administrative expenses	94	86	8
Interest expense, net	8	10	(2)
Equity in net income of non-consolidated affiliates	2	44	(42)
Other expenses	12	36	(24)
Provision for (benefit from) income taxes	35	(18)) 53
Net income	\$48	\$84	\$(36)
Net income attributable to Visteon Corporation	\$19	\$69	\$(50)
Adjusted EBITDA*	\$170	\$141	\$29

* Adjusted EBITDA is a Non-GAAP financial measure, as further discussed below.

Sales

Sales for the three-month period ended March 31, 2014, totaled \$1,982 million, which represents an increase of \$126 million compared with the same period of 2013. Sales increased \$75 million due to favorable customer volumes and product mix in the Company's Climate product group. The acquisition of a controlling ownership interest in YFVE increased sales \$87 million. Unfavorable currency of \$5 million decreased sales, primarily attributable to the Indian Rupee, Thai Baht, Japanese Yen, Argentinian Peso and Brazilian Real, partially offset by the Euro and Korean Won currencies. Other reductions of \$31 million were associated with customer pricing, net of design savings.

Cost of Sales

Cost of sales increased \$85 million for the three-month period ended March 31, 2014, when compared with the same period in 2013. The increase includes \$65 million attributable to increased production volumes and changes in product mix, representing the variable nature of material and labor costs. The acquisition of a controlling ownership interest in YFVE increased cost of sales \$60 million. Foreign currency increased cost of sales by \$12 million including year over year impacts of the mix of receivables and payables denominated in currencies other than functional currencies. These increases were partially offset by \$52 million of efficiencies including material, design, and usage economics and other costs.

Gross Margin

The Company's gross margin was \$195 million for the three-month period ended March 31, 2014, compared to \$154 million for the same period of 2013. The increase in gross margin included \$27 million from YFVE, \$21 million attributable to favorable cost performance and \$10 million from favorable volume and mix. These increases were partially offset by \$17 million of unfavorable currency.

Selling, General and Administrative Expenses

Selling, general, and administrative expenses were \$94 million and \$86 million during the three-month period ended March 31, 2014 and 2013, respectively. The increase included \$5 million from YFVE and the non-recurrence of cost recoveries associated with divested businesses of \$4 million.

Interest Expense, Net

Interest expense for the three-month period ended March 31, 2014, of \$10 million included \$7 million associated with the Company's 6.75% Senior Notes due April 15, 2019, and \$3 million associated with affiliate debt, commitment fees and amortization of debt

32

Table of Contents

issuance costs. During the three-month period ended March 31, 2013, interest expense was \$13 million, including \$8 million on the 6.75% Senior Notes due April 15, 2019, \$3 million associated with affiliate debt, and \$2 million for commitment fees and amortization of debt issuance costs. Interest income of \$2 million for the three-month period ended March 31, 2014, decreased by \$1 million when compared to \$3 million for the same period of 2013 due to lower rates on foreign cash balances.

Equity in Net Income of Non-Consolidated Affiliates

Equity in net income of non-consolidated affiliates decreased \$42 million comparing the three-month periods ended March 31, 2014 and 2013. The decrease was primarily attributable to the sale of the Company's 50% ownership interest in Yanfeng during the fourth quarter of 2013.

Other Expenses

Other expenses consist of the following:

	Three Months Ended March 31	
	2014	2013
	(Dollars in Millions)	
Restructuring expense	\$2	\$20
Transformation costs	10	16
	\$12	\$36

During the first quarter of 2013, the Company recorded \$20 million of restructuring expenses, primarily related to severance and termination benefits associated with approximately 140 employees, including \$14 million in connection with the reorganization of the Company's Climate operations in France and \$6 million related to the transformation of its corporate and administrative functions. The Company recorded \$2 million of additional restructuring expenses associated with these programs during the first quarter of 2014, which remain accrued as of March 31, 2014.

The Company's restructuring reserve and activity is summarized below for the three-month period ended March 31, 2014.

	Interiors	Climate	Electronics	Corporate	Total
	(Dollars in Millions)				
Restructuring reserve - December 31, 2013	\$25	\$1	\$—	\$3	\$29
Expenses	—	1	—	1	2
Utilization	(6) (1) —	(3) (10
Restructuring reserve - March 31, 2014	\$19	\$1	\$—	\$1	\$21

Additionally, the Company recorded transformation costs of \$10 million and \$16 million for the three months ended March 31, 2014 and 2013, respectively, related to financial and advisory services associated with continued execution of its comprehensive shareholder value creation plan.

Income Taxes

The Company's provision for income taxes of \$35 million for the three-month period ended March 31, 2014, represents an increase of \$53 million when compared with an income tax benefit of \$18 million in the same period of 2013. The increase in income tax expense reflects the non-recurrence of a \$54 million benefit, including interest and penalties, primarily attributable to reevaluating transfer pricing-related exposures in Europe and the United States due to audit closures in the first quarter of 2013.

Net Income

Net income attributable to Visteon was \$19 million for the three-month period ended March 31, 2014, compared to \$69 million for the same period of 2013, for a decrease of \$50 million. The decrease was largely due to the non-recurrence of an income tax benefit, including interest and penalties, attributable to reevaluating transfer pricing-related exposures in Europe and the United States in connection with audit closures in the first quarter of 2013.

Adjusted EBITDA (a non-GAAP financial measure, as defined below) was \$170 million and \$141 million, for the three-month periods ended March 31, 2014 and 2013, respectively. The Company defines Adjusted EBITDA as net income attributable to the

33

Table of Contents

Company, plus net interest expense, provision for income taxes and depreciation and amortization, as further adjusted to eliminate the impact of equity in net income of non-consolidated affiliates, net income attributable to non-controlling interests, asset impairments, gains or losses on divestitures, discontinued operations, net restructuring expenses and other reimbursable costs, non-cash stock-based compensation expense, certain employee charges and benefits, reorganization items and other non-operating gains and losses.

Through December 31, 2013, the Company's definition of Adjusted EBITDA was inclusive of net income attributable to non-controlling interests and equity in net income of non-consolidated affiliates. Following the December 17, 2013, disposition of its 50% ownership interest in Yanfeng, the Company modified its definition of Adjusted EBITDA to exclude net income attributable to non-controlling interests and equity in net income of non-consolidated affiliates as management believes this measure is most reflective of its operational performance. Accordingly, Adjusted EBITDA for historical periods has been recast on basis consistent with the current definition.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants. Adjusted EBITDA, as determined and measured by the Company should not be compared to similarly titled measures reported by other companies. The reconciliation of Adjusted EBITDA to net income attributable to Visteon for the three-month periods ended March 31, 2014 and 2013 is as follows:

	Three Months Ended March 31		
	2014	2013	Change
	(Dollars in Millions)		
Adjusted EBITDA	\$ 170	\$ 141	\$ 29
Interest expense, net	8	10	(2)
Provision for (benefit from) income taxes	35	(18)	53
Depreciation and amortization	66	67	(1)
Net income attributable to non-controlling interests	29	15	14
Equity in net income of non-consolidated affiliates	(2)	(44)	42
Other expenses	12	36	(24)
Non-cash, stock-based compensation expense	3	6	(3)
Net income attributable to Visteon Corporation	\$ 19	\$ 69	\$(50)

Segment Results of Operations - Three Months Ended March 31, 2014 and 2013

Sales by Segment

	Climate	Electronics	Interiors	Eliminations	Total
	(Dollars in Millions)				
Three months ended March 31, 2013	\$ 1,228	\$ 365	\$ 317	\$(54)	\$ 1,856

Three months ended March 31, 2014	\$ 1,268	\$ 439	\$ 303	\$(28)	\$ 1,982

Climate sales increased during the three months ended March 31, 2014, by \$40 million. Higher production volumes in Asia and Europe, increased sales by \$61 million. Favorable currency resulted in an increase of \$2 million, primarily related to the Euro, Chinese Yuan and Korean Won, partially offset by the Argentinian Peso, Brazilian Real, Indian Rupee and Thai Baht. Other reductions of \$23 million were associated with customer pricing, net of design changes.

Table of Contents

Electronics sales increased during the three months ended March 31, 2014, by \$74 million. The acquisition of a controlling ownership interest in YFVE with effect from November 2013, increased sales by \$87 million, net of inter-segment sales of \$36 million. Unfavorable currency, primarily related to the Indian Rupee, Japanese Yen, and Brazilian Real, partially offset by the Euro, decreased product sales by \$4 million. Other changes, totaling \$7 million, reflected customer pricing, partially offset by increases in revenue related to commodity pricing and design changes.

Interiors sales decreased during the three months ended March 31, 2014, by \$14 million, including unfavorable volume and product mix of \$10 million primarily reflecting lower sales for certain South America business, partially offset by production improvements in Europe. Unfavorable currency related to the Argentinian Peso, Indian Rupee and Brazilian Real, partially offset by the Euro decreased sales by \$3 million.

Cost of Sales by Segment

	Climate	Electronics	Interiors	Eliminations	Total
	(Dollars in Millions)				
Three months ended March 31, 2013	\$1,116	\$328	\$312	\$(54)	\$1,702

Other	14	(7)	(6)	—	1
Three months ended March 31, 2014	\$1,163	\$366	\$286	\$(28)	\$1,787

Climate material costs increased by \$26 million, including \$54 million related to higher production volumes, partially offset by \$28 million of manufacturing efficiencies and purchasing improvements. Labor and overhead increased by \$9 million, including \$11 million related to production volumes and currency and \$2 million related to higher manufacturing costs, net of efficiencies. Other increases of \$14 million primarily related to currency impacts of the mix of receivables and payables denominated in currencies other than functional currencies.

Electronics material costs decreased by \$17 million, including impacts of \$12 million related to lower production volumes. Cost of sales increased \$60 million, net of inter-segment eliminations of \$36 million, for the acquisition of a controlling ownership interest in YFVE with effect from November 2013. Other decreases of \$7 million primarily related to the impact of manufacturing efficiencies, purchasing improvements, and timing of engineering recoveries.

Interiors material costs decreased by \$21 million, including \$19 million related to lower production volumes and currency. Other costs decreased by \$6 million, representing cost performance improvements in connection with restructuring programs implemented during 2013.

Adjusted EBITDA by Segment

Adjusted EBITDA by segment for the three months ended March 31, 2014 and 2013 is presented in the table below:

	Three Months Ended March 31

Three months ended March 31, 2014	\$117	\$57	\$9	183
Reconciling Item:				
Corporate				(13
Total) \$170

Adjusted EBITDA for the Climate segment for the three months ended March 31, 2014, decreased by \$8 million compared to the same period of 2013. The decrease in Climate Adjusted EBITDA primarily reflected currency impacts of the mix of receivables and payables denominated in currencies other than functional currencies. Increased volume of \$4 million associated with net new business including Hyundai in Asia and Europe. Material, design and other cost efficiencies were partially offset by customer price productivity net of design changes.

Electronics Adjusted EBITDA for the three months ended March 31, 2014, increased by \$31 million compared to the same period of 2013. The YFVE consolidation during the fourth quarter of 2013, increased Adjusted EBITDA by \$27 million. Other material, design and other cost efficiencies were partially offset by customer pricing, net of design changes. Adjusted EBITDA for the first quarter of 2014, included \$12 million of favorable impacts related to the timing of commercial settlements and prototype recoveries , primarily related to YFVE.

Interiors Adjusted EBITDA for the three months ended March 31, 2014, increased by \$13 million compared to the same period of 2013. The increase in Interiors Adjusted EBITDA includes volume of \$5 million primarily related to European volume improvements, partially offset by lower sales in certain South America business. Other included cost performance improvements in connection with restructuring programs implemented during 2013, as well as other material, design and cost efficiencies, partially offset by customer price productivity net of design changes.

Liquidity

The Company's primary liquidity needs are related to the funding of general business requirements, including working capital, capital expenditures, debt service, employee retirement benefits and restructuring actions. The Company's primary sources of liquidity are cash flows from operations, existing cash balances, asset sales, and borrowings under available credit facilities, if necessary. To the extent the Company generates discretionary cash flow, it will be evaluated for and may be used for optional prepayments of existing indebtedness, strategic acquisitions, additional share repurchases, and/or general corporate purposes.

Credit Facilities

On March 11, 2014, the Company issued a call notice to repurchase \$50 million, or 10%, of its 6.75% senior notes due April 15, 2019 (the "Senior Notes"). The Senior Notes were issued under an Indenture (the "Indenture") among the Company, the subsidiary guarantors named therein, and The Bank of New York Mellon Trust Company, N.A., as trustee. The Indenture and the form of Senior Notes provide, among other things, that prior to April 15, 2014, the Company had the option to redeem up to 10% of the Senior Notes during any 12-month period from the issue date until April 15, 2014, for a 103% redemption price, plus accrued and unpaid interest to the redemption date. On April 10, 2014, the Company made a cash settlement payment of approximately \$52 million in connection with this

redemption. Pursuant to the Indenture, the Company also had the option to redeem a portion or all of the Senior Notes beginning on April 15, 2014, for a 105.063% redemption price, plus accrued and unpaid interest to the redemption date. On April 9, 2014, the Company issued a call notice to repurchase the remaining \$350 million of its Senior Notes to be redeemed in cash on May 9, 2014.

On April 9, 2014, the Company entered into a new credit agreement, which provides for (i) delayed draw term loans in an aggregate principal amount of \$600 million that mature on April 9, 2021, and (ii) a \$200 million revolving credit facility that matures on April 9, 2019. In connection with the execution of the new credit agreement, the Company terminated its \$130 million asset-based revolving loan credit agreement dated October 1, 2010, under which there were no outstanding borrowings or letter of credit

Table of Contents

obligations at March 31, 2014. Up to \$75 million of the Revolving Facility is available for the issuance of letters of credit, and any such issuance of letters of credit will reduce the amount available for loans under the Revolving Facility. Up to \$20 million of the Revolving Facility is available for swing line advances, and any such swing line advances will reduce the amount available for loans under the Revolving Facility. The Company may request increases in the limits under the Term Facility and the Revolving Facility and may request the addition of one or more term loan facilities under the Credit Agreement. The facilities were rated as BB- and B1 by S&P and Moody's, respectively.

Availability under outstanding affiliate credit facilities as of March 31, 2014, is approximately \$296 million and certain of these facilities have pledged receivables, inventory or equipment as security. The affiliate credit facilities include an arrangement, through a subsidiary in France, to sell accounts receivable on an uncommitted basis. The amount of financing available is contingent upon the amount of receivables less certain reserves. As of March 31, 2014, there was \$32 million of outstanding borrowings under this facility with \$50 million of receivables pledged as security, which were recorded as Other current assets on the consolidated balance sheet. Access to additional capital through the debt or equity markets is influenced by the Company's credit ratings. At March 31, 2014, the Company's corporate credit ratings were B1 by Moody's with a stable outlook and B+ by S&P with a positive outlook.

Cash Balances

As of March 31, 2014, the Company had total cash balances of \$1.75 billion, including restricted cash of \$25 million. Cash balances totaling \$659 million were located in jurisdictions outside of the United States, of which approximately \$270 million is considered permanently reinvested for funding ongoing operations outside of the U.S. If such permanently reinvested funds are needed for operations in the U.S., the Company would be required to accrue additional tax expense, primarily related to foreign withholding taxes. During the three months ended March 31, 2014, the Company received \$35 million of cash from asset sales and business divestitures, including \$33 million proceeds generated from the sale of four YFVE interiors joint ventures to the non-consolidated Yanfeng Visteon Electronics (China) Investment Co. Ltd. ("YFVIC") owned 50% by the Company.

Share Repurchase Program

As of March 31, 2014, \$875 million remained authorized and available for share repurchases through December 31, 2015. The Company anticipates that repurchases of common stock, if any, would occur from time to time in open market transactions, non-discretionary programs or in privately negotiated transactions depending on market and economic conditions, share price, trading volumes, alternative uses of capital and other factors. On May 8, 2014, the Company announced an accelerated stock buyback ("ASB") program with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$500 million.

Electronics Acquisition

In connection with the Company's shareholder value creation strategy, Visteon continues to invest in the optimization of its Electronics business. On January 13, 2014, Visteon reached an agreement to acquire the automotive electronics business of Johnson Controls for cash of \$265 million, subject to adjustment. The acquisition is subject to certain regulatory and other consents and approvals and is expected to be completed in the second quarter of 2014.

Interiors Divestiture

On May 1, 2014, the Company reached an agreement for the sale of substantially all of its global Interiors operations for de minimis proceeds. The closing of the Interiors sale transaction is expected to occur by December 31, 2014, and is subject to various conditions, including regulatory and antitrust approvals, receipt of other third party consents and

approvals and other customary closing conditions. In connection with the transaction, Visteon has agreed to contribute up to \$95 million to the business and has agreed to support the establishment of external credit facilities for the business and, if \$90 million of external credit facilities are not available to the business by the closing date, to provide a seller-backed revolving credit facility in the amount of any shortfall to support the liquidity of the business. Draws under any such seller-backed facility will only be available if certain of the external credit facilities are fully drawn, and any draws on the seller-backed facility generally must be repaid prior to the repayment of the external credit facilities. The seller-backed facility will have a maturity of three years and, if drawn, will be repaid once additional committed facilities are in place after the transaction closes.

Additionally, during April 2014 the Company completed the sale its 50% ownership interest in Duckyang Industries Co., Ltd., for total cash proceeds of \$31 million, including \$6 million of dividends. The Company's goal is to complete the disposal of its remaining Interiors business during 2014. Due to certain liabilities and capital requirements of the remaining business, Visteon may be required to contribute cash to such business in connection with any disposition, which amounts could be material.

Table of Contents

Restructuring and Other

At March 31, 2014, the Company had restructuring accruals totaling \$21 million which are expected to be settled in cash during 2014. These accruals include \$17 million associated with activities related to the Company's previously announced \$100 million restructuring program designed to reduce fixed costs and to improve operational efficiency by addressing certain under-performing operations. The Company anticipates that it will record additional restructuring and other charges related to this program of up to \$22 million in future periods as related plans are finalized. The Company estimates cash requirements for restructuring programs during the full year ending December 31, 2014, to be approximately \$50 million.

During 2012, South Korean tax authorities commenced a review of the Company's South Korean affiliates (including Halla) for tax years 2007 through 2012 and issued formal notice of assessments, including penalties, of approximately \$25 million for alleged underpayment of withholding tax on dividends paid and other items, including certain management service fees charged by Visteon. The Company's South Korean affiliates have paid approximately \$25 million to the tax authorities in 2013 and 2012, as required under South Korean tax regulations, to pursue the appeals process. The Company believes that it is more likely than not that it will receive a favorable ruling when all of the available appeals have been exhausted. Also during 2012, Brazilian tax authorities issued tax assessment notices to Visteon Sistemas Automotivos ("Sistemas") of approximately \$15 million related to the sale of its chassis business to a third party. During 2013, after attempts to reopen an appeal of the administrative decision failed, Sistemas opened a judicial proceeding against the government to address the notice which required a deposit in the amount of the assessment in order to suspend the debt and allow Sistemas to operate regularly before the tax authorities. The Company believes that the risk of a negative outcome is remote once the matter is fully litigated at the highest judicial level. These appeal payments in South Korea and Brazil, as well as contingent income tax refund claims associated with other jurisdictions, including applicable accrued interest income, totaled \$48 million as of March 31, 2014, and were included in Other non-current assets on the consolidated balance sheet.

As of March 31, 2014, the Company had accrued dividends payable to non-controlling interests of \$55 million. The Company expects these dividends to be paid during the three months ended June 30, 2014.

The Company expects to make cash contributions to its U.S. retirement plans of \$5 million in 2014. Contributions to non-U.S. retirement plans are expected to be \$38 million during 2014. Estimated cash contributions for 2015 through 2017, under current regulations and market assumptions are approximately \$155 million.

Cash Flows

Operating Activities

The Company generated \$96 million of cash from operating activities during the three months ended March 31, 2014, compared to \$122 million during the same period of 2013, for a decrease of \$26 million. Higher trade accounts payable disbursements during the three months ended March 31, 2014, as compared to the same period of 2013, related to favorable timing of contractual payment due dates contributed approximately \$40 million to the decrease. Higher employee benefit related payments of \$20 million and the non-recurrence of changes in receivable terms for certain customers in Asia of \$16 million also contributed to the decrease. These decreases were partially offset by incremental value-added tax collections of \$20 million and the non-recurrence of a \$20 million payment to the Korean tax authority that occurred in 2013. The remaining difference was driven by higher collections as compared to payments related to increased profitability from higher production volumes and favorable cost performance including the impact of YFVE.

Investing Activities

Cash used by investing activities during the three months ended March 31, 2014, totaled \$20 million, compared to a use of \$46 million for the same period in 2013. Cash used by investing activities during the three months ended March 31, 2014, included \$52 million of capital spending partially offset by \$35 million of proceeds from asset sales which included proceeds from the sale of various interests owned by YFVE. Cash used by investing activities during the three months ended March 31, 2013, included \$63 million of capital spending partially offset by \$17 million of proceeds from asset sales including the Company's 50% ownership interest in Visteon TYC Corporation.

Financing Activities

Cash used by financing activities during the three months ended March 31, 2014, totaled \$20 million, compared to \$90 million provided by financing activities for the same period in 2013. Cash used by financing activities during the three months ended March 31, 2014, included \$16 million of dividends paid to non-controlling interests and a net decrease in other affiliate debt of

Table of Contents

\$5 million. Financing activities during the three months ended March 31, 2013, included \$195 million of proceeds related to the two HVCC unsecured bilateral term loan credit agreements completed in January 2013, and an increase in other affiliate debt, partially offset by \$125 million in share repurchases related to an accelerated stock buyback program.

Debt and Capital Structure

The Company's 6.75% senior notes due April 15, 2019 (the "Senior Notes"), were issued under an Indenture (the "Indenture") among the Company, the subsidiary guarantors named therein, and The Bank of New York Mellon Trust Company, N.A., as trustee. The Indenture and the form of Senior Notes provide, among other things, that prior to April 15, 2014, the Company had the option to redeem up to 10% of the Senior Notes during any 12-month period from the issue date until April 15, 2014, for a 103% redemption price, plus accrued and unpaid interest to the redemption date. In March 2014, the Company issued a call notice to repurchase \$50 million, or 10%, of its Senior Notes. Additionally, the Company had the option to redeem a portion or all of the Senior Notes beginning on April 15, 2014, for a 105.063% redemption price, plus accrued and unpaid interest to the redemption date. On April 9, 2014, in conjunction with the closing of a new term loan facility, the Company exercised this right and issued a call notice to repurchase the remaining \$350 million of its Senior Notes in May 2014.

On April 9, 2014, the Company entered into a new credit agreement, by and among the Company as borrower, each lender from time to time party thereto, each letter of credit issuer from time to time party thereto and Citibank, N.A. as administrative agent, which provides for (i) delayed draw term loans in an aggregate principal of \$600 million and (ii) a \$200 million revolving credit facility. The Company and certain of its subsidiaries have granted a security interest in substantially all of their respective property, subject to certain limitations.

Additional information related to the Company's debt is set forth in Note 8, "Debt" to the consolidated financial statements included herein under Item 1. For additional information, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2013, for specific debt agreements and additional information related to covenants and restrictions.

Off-Balance Sheet Arrangements

The Company has a \$15 million Letter of Credit ("LOC") Facility with US Bank National Association, which expires on September 30, 2015. Under the terms of the LOC facility, the Company must maintain a collateral account with U.S. Bank equal to 103% of the aggregated stated amount of the issued LOCs (or 110% for non-U.S. currencies) with reimbursement for any draws. As of March 31, 2014, the Company had \$10 million of outstanding letters of credit issued under this facility and secured by restricted cash. In addition, the Company had \$22 million of locally issued letters of credit to support various customs arrangements and other obligations at its local affiliates of which \$15 million are secured by cash collateral.

Fair Value Measurements

The Company uses fair value measurements in the preparation of its financial statements, which utilize various inputs including those that can be readily observable, corroborated or generally unobservable. The Company utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Company applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. The primary financial instruments that are recorded at fair value in the Company's financial statements are derivative instruments.

The Company's use of derivative instruments creates exposure to credit loss in the event of nonperformance by the counterparty to the derivative financial instruments. The Company limits this exposure by entering into agreements directly with a variety of major financial institutions with high credit standards and that are expected to fully satisfy their obligations under the contracts. Fair value measurements related to derivative assets take into account the non-performance risk of the respective counterparty, while derivative liabilities take into account the non-performance risk of Visteon and its foreign affiliates. The hypothetical gain or loss from a 100 basis point change in non-performance risk would be less than \$1 million for the fair value of foreign currency derivatives as of March 31, 2014.

Recent Accounting Pronouncements

See Note 1 "Basis of Presentation" to the accompanying consolidated financial statements under Item 1 "Financial Statements" of this Quarterly Report on Form 10-Q for a discussion of recent accounting pronouncements.

Table of Contents

Forward-Looking Statements

Certain statements contained or incorporated in this Quarterly Report on Form 10-Q which are not statements of historical fact constitute “Forward-Looking Statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (the “Reform Act”). Forward-looking statements give current expectations or forecasts of future events. Words such as “anticipate”, “expect”, “intend”, “plan”, “believe”, “seek”, “estimate” and other words and terms of similar meaning in connection with discussions of future operating or financial performance signify forward-looking statements. These statements reflect the Company’s current views with respect to future events and are based on assumptions and estimates, which are subject to risks and uncertainties including those discussed in Item 1A under the heading “Risk Factors” and elsewhere in this report. Accordingly, undue reliance should not be placed on these forward-looking statements. Also, these forward-looking statements represent the Company’s estimates and assumptions only as of the date of this report. The Company does not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the statement is made and qualifies all of its forward-looking statements by these cautionary statements.

You should understand that various factors, in addition to those discussed elsewhere in this document, could affect the Company’s future results and could cause results to differ materially from those expressed in such forward-looking statements, including:

- Visteon’s ability to satisfy its future capital and liquidity requirements; Visteon’s ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to Visteon; Visteon’s ability to comply with covenants applicable to it; and the continuation of acceptable supplier payment terms.
- Visteon’s ability to satisfy its pension and other postretirement employee benefit obligations, and to retire outstanding debt and satisfy other contractual commitments, all at the levels and times planned by management.
- Visteon’s ability to access funds generated by its foreign subsidiaries and joint ventures on a timely and cost effective basis.
- Changes in the operations (including products, product planning and part sourcing), financial condition, results of operations or market share of Visteon’s customers.
- Changes in vehicle production volume of Visteon’s customers in the markets where it operates, and in particular changes in Ford’s and Hyundai Kia’s vehicle production volumes and platform mix.
- Increases in commodity costs or disruptions in the supply of commodities, including steel, resins, aluminum, copper, fuel and natural gas.
- Visteon’s ability to generate cost savings to offset or exceed agreed upon price reductions or price reductions to win additional business and, in general, improve its operating performance; to achieve the benefits of its restructuring actions; and to recover engineering and tooling costs and capital investments.
- Visteon’s ability to compete favorably with automotive parts suppliers with lower cost structures and greater ability to rationalize operations; and to exit non-performing businesses on satisfactory terms, particularly due to limited flexibility under existing labor agreements.
- Restrictions in labor contracts with unions that restrict Visteon’s ability to close plants, divest unprofitable, noncompetitive businesses, change local work rules and practices at a number of facilities and implement cost-saving measures.
- The costs and timing of facility closures or dispositions, business or product realignments, or similar restructuring actions, including potential asset impairment or other charges related to the implementation of these actions or other adverse industry conditions and contingent liabilities.
- Significant changes in the competitive environment in the major markets where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.
- Legal and administrative proceedings, investigations and claims, including shareholder class actions, inquiries by regulatory agencies, product liability, warranty, employee-related, environmental and safety claims and any recalls of products manufactured or sold by Visteon.

Changes in economic conditions, currency exchange rates, changes in foreign laws, regulations or trade policies or political stability in foreign countries where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.

Shortages of materials or interruptions in transportation systems, labor strikes, work stoppages or other interruptions to or difficulties in the employment of labor in the major markets where Visteon purchases materials, components or supplies to manufacture its products or where its products are manufactured, distributed or sold.

Changes in laws, regulations, policies or other activities of governments, agencies and similar organizations, domestic and foreign, that may tax or otherwise increase the cost of, or otherwise affect, the manufacture, licensing, distribution, sale, ownership or use of Visteon's products or assets.

Table of Contents

- Possible terrorist attacks or acts of war, which could exacerbate other risks such as slowed vehicle production, interruptions in the transportation system or fuel prices and supply.
- The cyclical and seasonal nature of the automotive industry.
- Visteon's ability to comply with environmental, safety and other regulations applicable to it and any increase in the requirements, responsibilities and associated expenses and expenditures of these regulations.
- Visteon's ability to protect its intellectual property rights, and to respond to changes in technology and technological risks and to claims by others that Visteon infringes their intellectual property rights.
- Visteon's ability to quickly and adequately remediate control deficiencies in its internal control over financial reporting.
- Other factors, risks and uncertainties detailed from time to time in Visteon's Securities and Exchange Commission filings.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary market risks to which the Company is exposed include changes in foreign currency exchange rates, interest rates and certain commodity prices. The Company manages these risks through derivative instruments and various operating actions including fixed price contracts with suppliers and cost sourcing arrangements with customers. The Company's use of derivative instruments is limited to hedging activities and such instruments are not used for speculative or trading purposes, as per clearly defined risk management policies. Additionally, the Company's use of derivative instruments creates exposure to credit loss in the event of nonperformance by the counter-party to the derivative financial instruments. The Company limits this exposure by entering into agreements directly with a variety of major financial institutions with high credit standards and that are expected to fully satisfy their obligations under the contracts. Additionally, the Company's ability to utilize derivatives to manage market risk is dependent on credit conditions and market conditions given the current economic environment.

Foreign Currency Risk

The Company's net cash inflows and outflows exposed to the risk of changes in exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. Where possible, the Company utilizes derivative financial instruments to manage foreign currency exchange rate risks. Forward and option contracts may be utilized to protect the Company's cash flow from adverse movements in exchange rates. Foreign currency exposures are reviewed periodically and any natural offsets are considered prior to entering into a derivative financial instrument. The Company's primary hedged operating exposures include the Euro, Korean Won, Czech Koruna, Hungarian Forint, Indian Rupee and Mexican Peso. Where possible, the Company utilizes a strategy of partial coverage for transactions in these currencies. As of March 31, 2014, the net fair value of foreign currency forward contracts was a liability of \$4 million while at December 31, 2013, the net fair value of forward contracts was an asset of \$4 million.

The hypothetical pre-tax gain or loss in fair value from a 10% favorable or adverse change in quoted currency exchange rates would be approximately \$66 million and \$63 million as of March 31, 2014 and December 31, 2013, respectively. These estimated changes assume a parallel shift in all currency exchange rates and include the gain or loss on financial instruments used to hedge loans to subsidiaries. Because exchange rates typically do not all move in the same direction, the estimate may overstate the impact of changing exchange rates on the net fair value of the Company's financial derivatives. It is also important to note that gains and losses indicated in the sensitivity analysis would generally be offset by gains and losses on the underlying exposures being hedged.

In addition to the transactional exposure described above, the Company's operating results are impacted by the translation of its foreign operating income into U.S. dollars. The Company does not enter into foreign exchange contracts to mitigate this exposure.

Interest Rate Risk

The Company is subject to interest rate risk, principally in relation to fixed rate debt. The Company may use derivative financial instruments to manage exposure to fluctuations in interest rates. However, as of March 31, 2014, the Company had no outstanding interest rate derivative instruments.

Approximately 58% of the Company's borrowings were effectively on a fixed rate basis as of both March 31, 2014, and December 31, 2013. The Company continues to evaluate its interest rate exposure and may use swaps or other derivative instruments again in the future.

Commodity Risk

The Company's exposures to market risk from changes in the price of production material are managed primarily through negotiations with suppliers and customers, although there can be no assurance that the Company will recover all such costs. The Company continues to evaluate derivatives available in the marketplace and may decide to utilize derivatives in the future to manage select commodity risks if an acceptable hedging instrument is identified for the

Company's exposure level at that time, as well as the effectiveness of the financial hedge among other factors.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in periodic reports filed with the SEC under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As noted in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, management excluded Yanfeng Visteon Automotive Electronics Co., Ltd. ("YFVE") from its assessment of the effectiveness of the Company's disclosure controls and procedures as the Company acquired an additional 11% ownership interest in YFVE resulting in a 51% controlling equity interest in November 2013.

As of March 31, 2014, an evaluation was performed under the supervision and with the participation of the Company's management, including its Chief Executive and Financial Officers, of the effectiveness of the design and operation of disclosure controls and procedures, excluding YFVE. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2014.

Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarterly period ended March 31, 2014, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. The Company is integrating YFVE into the Company's operations, compliance programs and internal control processes. Specifically, as permitted by SEC rules and regulations, the Company has excluded YFVE from management's evaluation of internal controls over financial reporting as of December 31, 2013.

Part II

Other Information

Item 1. Legal Proceedings

See the information above under Note 14, "Commitments and Contingencies," to the consolidated financial statements which is incorporated herein by reference.

Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. See also, "Forward-Looking Statements" included in Part I, Item 2 of this Quarterly Report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes information relating to purchases made by or on behalf of the Company, or an affiliated purchaser, of shares of the Company's common stock during the first quarter of 2014:

Edgar Filing: VISTEON CORP - Form 10-Q

Period	Total Number of Shares (or Units) Purchased (1)	Average Price Paid per Share (or Unit)	Total Number of Shares (or units) Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (2) (in millions)
Jan. 1, 2014 to Jan. 31, 2014	272	\$80.83	—	\$875
Feb. 1, 2014 to Feb. 28, 2014	3,718	\$83.51	—	\$875
Mar. 1, 2014 to Mar. 31, 2014	—	\$0.00	—	\$875
Total	3,990	\$83.33	—	\$875

43

Table of Contents

This column includes 3,990 shares surrendered to the Company by employees to satisfy tax withholding (1) obligations in connection with the vesting of restricted share and stock unit awards made pursuant to the Visteon Corporation 2010 Incentive Plan.

On August 11, 2013, the board of directors increased its share repurchase program authorization by \$875 million to (2) a total authorization to repurchase up to \$1 billion of the Company's common stock thereafter until December 31, 2015.
