

NORTHROP GRUMMAN CORP /DE/
Form 10-Q
October 28, 2015

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 30, 2015

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

Commission File Number 1-16411

NORTHROP GRUMMAN CORPORATION

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of
incorporation or organization)

2980 Fairview Park Drive, Falls Church, Virginia 22042

(Address of principal executive offices)

(703) 280-2900

(Registrant's telephone number, including area code)

80-0640649

(I.R.S. Employer

Identification No.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes

No *

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes

No *

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer

Accelerated filer *

Non-accelerated filer * (Do not check if a smaller reporting company)

Smaller reporting company *

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes *

No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of October 23, 2015, 182,383,040 shares of common stock were outstanding.

NORTHROP GRUMMAN CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION

Principles of Consolidation and Reporting

These unaudited condensed consolidated financial statements include the accounts of Northrop Grumman Corporation and subsidiaries (herein referred to as “Northrop Grumman,” the “company,” “we,” “us,” or “our”). Material intercompany accounts, transactions and profits are eliminated in consolidation. Investments in equity securities and joint ventures where the company has significant influence, but not control, are accounted for using the equity method.

The accompanying unaudited condensed consolidated financial statements are prepared in accordance with the rules of the Securities and Exchange Commission (SEC) for interim reporting purposes. These financial statements include adjustments of a normal recurring nature considered necessary by management for a fair presentation of the company's unaudited condensed consolidated financial position, results of operations and cash flows.

The results reported in these unaudited condensed consolidated financial statements are not necessarily indicative of results that may be expected for the entire year. These unaudited condensed consolidated financial statements should be read in conjunction with the information contained in the company's Annual Report on Form 10-K for the year ended December 31, 2014 (2014 Annual Report on Form 10-K).

The quarterly information is labeled using a calendar convention; that is, first quarter is consistently labeled as ending on March 31, second quarter as ending on June 30 and third quarter as ending on September 30. It is the company's long-standing practice to establish actual interim closing dates using a “fiscal” calendar, in which we close our books on a Friday near these quarter-end dates in order to normalize the potentially disruptive effects of quarterly closings on business processes. This practice is only used at interim periods within a reporting year.

Accounting Estimates

The accompanying unaudited condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The preparation thereof requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingencies at the date of the financial statements, as well as the reported amounts of sales and expenses during the reporting period. Estimates have been prepared using the most current and best available information; however, actual results could differ materially from those estimates.

Revenue Recognition

The majority of our sales are derived from long-term contracts with the United States (U.S.) Government for the production of goods, the provision of services, or in some cases, a combination of both. In accounting for these contracts, we utilize either the cost-to-cost or the units-of-delivery method of percentage-of-completion accounting, with cost-to-cost being the predominant method. The company estimates profit on contracts as the difference between total estimated sales and total estimated cost at completion and recognizes that profit either as costs are incurred (cost-to-cost) or as units are delivered (units-of-delivery). The company classifies sales as product or service depending upon the predominant attributes of the contract.

We recognize changes in estimated contract sales, costs or profits using the cumulative catch-up method of accounting. This method recognizes, in the current period, the cumulative effect of the changes on current and prior periods; sales and profit in future periods of contract performance are recognized as if the revised estimates had been used since contract inception. If it is determined that a loss will result from the performance of a contract, the entire amount of the estimable future loss is charged against income in the period the loss is identified. Loss provisions are first offset against any costs that are included in unbilled accounts receivable or inventoried costs, and any remaining amount is reflected in liabilities.

Significant changes in estimates on a single contract could have a material effect on the company's unaudited condensed consolidated financial position or results of operations. Where such changes occur, we generally disclose the nature, underlying conditions and financial impact of the change. No discrete event or adjustments to an individual contract were material to the accompanying unaudited condensed consolidated financial statements.

Table of Contents

NORTHROP GRUMMAN CORPORATION

The effect of aggregate net changes in contract estimates recognized using the cumulative catch-up method of accounting is as follows:

\$ in millions, except per share data	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Operating Income	\$ 112	\$ 194	\$ 461	\$ 556
Net Earnings ⁽¹⁾	73	126	300	361
Diluted earnings per share ⁽¹⁾	0.39	0.60	1.55	1.68

(1) Based on statutory tax rates

As of September 30, 2015, the recognized amounts related to contract claims and requests for equitable adjustment are not material individually or in aggregate. In addition, as of September 30, 2015, the company does not have any contract terminations in process that we anticipate would have a material effect on our unaudited condensed consolidated financial position, or our annual results of operations and/or cash flows.

Related Party Transactions

For all periods presented, the company had no material related party transactions.

Accounting Standards Updates

On May 28, 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. ASU 2014-09 supersedes existing revenue recognition guidance, including Accounting Standards Codification (ASC) No. 605-35, Revenue Recognition - Construction-Type and Production-Type Contracts. ASU 2014-09 outlines a single set of comprehensive principles for recognizing revenue under U.S. GAAP. Among other things, it requires companies to identify contractual performance obligations and determine whether revenue should be recognized at a point in time or over time. These concepts, as well as other aspects of ASU 2014-09, may change the method and/or timing of revenue recognition for certain of our contracts. On July 9, 2015, the FASB approved a one year deferral of the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017. ASU 2014-09 may be applied either retrospectively or through the use of a modified-retrospective method. We are currently evaluating both methods of adoption as well as the effect ASU 2014-09 will have on the company's consolidated financial position, annual results of operations and cash flows. Other accounting standards updates effective after September 30, 2015, are not expected to have a material effect on the company's unaudited condensed consolidated financial position, annual results of operations and/or cash flows.

Shareholders' Equity

The company records the difference between the cost of shares repurchased and their par value as well as tax withholding in excess of related stock compensation expense as a reduction of paid-in capital to the extent available and then as a reduction of retained earnings.

Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive loss are as follows:

\$ in millions	September 30, 2015	December 31, 2014
Unamortized benefit plan costs, net of tax benefit of \$3,217 as of September 30, 2015 and \$3,395 as of December 31, 2014	\$(5,028)	\$(5,316)
Cumulative translation adjustment	(72)	(41)
Net unrealized gain on marketable securities and cash flow hedges, net of tax	1	1
Total accumulated other comprehensive loss	\$(5,099)	\$(5,356)

Unamortized benefit plan costs consist primarily of net after-tax actuarial losses totaling \$5.3 billion and \$5.6 billion as of September 30, 2015 and December 31, 2014, respectively. Net actuarial gains or losses are re-determined annually or upon remeasurement events and principally arise from changes in the interest rate used to discount our benefit obligations and differences between expected and actual returns on plan assets.

Reclassifications from accumulated other comprehensive loss to net earnings related to the amortization of benefit plan costs were \$96 million and \$288 million, net of taxes, for the three and nine months ended September 30, 2015,

-6-

Table of Contents

NORTHROP GRUMMAN CORPORATION

respectively, and were \$35 million and \$108 million, net of taxes, for the three and nine months ended September 30, 2014, respectively. The reclassifications represent the amortization of net actuarial losses and prior service credits for the company's retirement benefit plans, and are included in the computation of net periodic pension cost. See Note 8 for further information.

Reclassifications from accumulated other comprehensive loss to net earnings, relating to cumulative translation adjustments, marketable securities and effective cash flow hedges for the three and nine months ended September 30, 2015 and 2014, respectively, were not material. Reclassifications for cumulative translation adjustments and marketable securities are recorded in other income, and reclassifications for effective cash flow hedges are recorded in operating income.

2. EARNINGS PER SHARE, SHARE REPURCHASES AND DIVIDENDS ON COMMON STOCK**Basic Earnings Per Share**

We calculate basic earnings per share by dividing net earnings by the weighted-average number of shares of common stock outstanding during each period.

Diluted Earnings Per Share

Diluted earnings per share includes the dilutive effect of awards granted to employees under stock-based compensation plans. The dilutive effect of these securities totaled 2.1 million shares and 2.2 million shares for the three and nine months ended September 30, 2015, respectively. The dilutive effect of these securities totaled 3.0 million and 3.2 million for the three and nine months ended September 30, 2014, respectively.

Share Repurchases

The table below summarizes the company's share repurchases:

Repurchase Program Authorization Date	Amount Authorized (in millions)	Total Shares Retired (in millions)	Average Price Per Share ⁽⁴⁾	Date Completed	Shares Repurchased (in millions) Nine Months Ended September 30	
					2015	2014
May 15, 2013 ⁽¹⁾	\$4,000	32.8	\$121.97	March 2015	2.7	16.9
December 4, 2014 ⁽²⁾	\$3,000	15.0	\$162.89		15.0	—
September 16, 2015 ⁽³⁾	\$4,000	—	\$—		—	—

On May 15, 2013, the company's board of directors authorized a share repurchase program of up to \$4.0 billion of (1) the company's common stock (2013 Repurchase Program). Repurchases under the 2013 Repurchase Program commenced in September 2013 and were completed in March 2015.

On December 4, 2014, the company's board of directors authorized a share repurchase program of up to \$3.0 billion of the company's common stock (2014 Repurchase Program). Repurchases under the 2014 Repurchase (2) Program commenced in March 2015 upon the completion of the company's 2013 Repurchase Program. As of September 30, 2015, repurchases under the 2014 Repurchase Program totaled \$2.4 billion and \$0.6 billion remained under this share repurchase authorization. By its terms, the 2014 Repurchase Program will expire when we have used all authorized funds for repurchases.

On September 16, 2015, the company's board of directors authorized a new share repurchase program of up to \$4.0 (3) billion of the company's common stock (2015 Repurchase Program). By its terms, repurchases under the 2015 Repurchase Program will commence upon completion of the 2014 Repurchase Program and will expire when we have used all authorized funds for repurchases.

(4) Includes commissions paid.

Share repurchases take place from time to time, subject to market conditions and management's discretion, in the open market or in privately negotiated transactions. The company retires its common stock upon repurchase and has not made any purchases of common stock other than in connection with these publicly announced repurchase programs.

Dividends on Common Stock

In May 2015, the company increased the quarterly common stock dividend 14 percent to \$0.80 per share from the previous amount of \$0.70 per share.

-7-

Table of Contents

NORTHROP GRUMMAN CORPORATION

In May 2014, the company increased the quarterly common stock dividend 15 percent to \$0.70 per share from the previous amount of \$0.61 per share.

3. SEGMENT INFORMATION

At September 30, 2015, the company was aligned into four segments: Aerospace Systems, Electronic Systems, Information Systems and Technical Services.

The following table presents sales and operating income by segment:

\$ in millions	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Sales				
Aerospace Systems	\$2,563	\$2,543	\$7,573	\$7,465
Electronic Systems	1,767	1,733	5,131	5,121
Information Systems	1,472	1,511	4,531	4,650
Technical Services	695	691	2,185	2,120
Intersegment eliminations	(518)	(494)	(1,588)	(1,485)
Total sales	5,979	5,984	17,832	17,871
Operating income				
Aerospace Systems	303	402	940	1,016
Electronic Systems	275	274	787	833
Information Systems	146	150	462	465
Technical Services	64	66	199	202
Intersegment eliminations	(62)	(52)	(185)	(177)
Total segment operating income	726	840	2,203	2,339
Reconciliation to total operating income:				
Net FAS/CAS pension adjustment	97	(20)	261	200
Unallocated corporate expenses	(29)	(50)	(76)	(103)
Other	—	(1)	(1)	(2)
Total operating income	\$794	\$769	\$2,387	\$2,434
Net FAS/CAS Pension Adjustment				

The net FAS (GAAP Financial Accounting Standards)/CAS (U.S. Government Cost Accounting Standards) pension adjustment reflects the difference between pension expense included as cost in segment operating income and pension expense determined in accordance with GAAP. In the third quarter of 2014, Congress passed the Highway and Transportation Funding Act of 2014 (HATFA), which includes provisions that reduce the amount of CAS pension expense charged to our contracts. The legislation was retroactive to January 1, 2014. In the third quarter of 2014, we recognized a \$132 million cumulative reduction in 2014 CAS pension expense principally reflecting the year-to-date HATFA impact.

Current Quarter

The increase in net FAS/CAS pension adjustment for the three months ended September 30, 2015, as compared to the same period in 2014, is principally due to the absence in 2015 of the \$132 million reduction in CAS pension expense related to HATFA described above, partially offset by higher FAS expense in 2015, as a result of changes in our FAS discount rate and mortality assumptions as of December 31, 2014.

Year to Date

The increase in net FAS/CAS pension adjustment for the nine months ended September 30, 2015, as compared to the same period in 2014, is principally due to higher 2015 CAS expense resulting from changes in mortality assumptions and demographic experience, partially offset by an increase in 2015 FAS expense as a result of changes in our FAS discount rate and mortality assumptions as of December 31, 2014.

Table of Contents

NORTHROP GRUMMAN CORPORATION

Unallocated Corporate Expenses

Unallocated corporate expenses include the portion of corporate expenses not considered allowable or allocable under applicable CAS or the Federal Acquisition Regulation, and are therefore not allocated to the segments. Such costs consist of a portion of management and administration, legal, environmental, compensation costs, retiree benefits and certain unallowable costs such as lobbying activities. The decrease in unallocated corporate expenses for the three and nine months ended September 30, 2015, as compared to the same periods in 2014, is principally due to reductions in environmental and other corporate provisions.

4. INCOME TAXES

\$ in millions	Three Months Ended September 30		Nine Months Ended September 30		
	2015	2014	2015	2014	
Federal and foreign income tax expense	\$213	\$221	\$638	\$673	
Effective income tax rate	29.2	% 31.8	% 29.4	% 30.1	%

Current Quarter

The company's effective tax rate for the three months ended September 30, 2015 was lower than the comparable 2014 period primarily due to a \$21 million benefit recognized in 2015 for additional research credits claimed on our prior year tax return.

Year to Date

The company's effective tax rate for the nine months ended September 30, 2015 was comparable with the same period in 2014 and reflects a \$59 million benefit recognized in 2015 for additional research credits and a \$51 million benefit recorded in 2014 for the partial resolution of the Internal Revenue Service (IRS) examination of our 2007-2009 tax returns.

The company files income tax returns in the U.S. federal jurisdiction, and in various state and foreign jurisdictions. Certain matters related to our 2007-2011 tax returns are currently before the IRS Office of Appeals. The company believes it is reasonably possible that within the next twelve months we may settle certain matters on these open tax years. The combined resolution of these items, excluding interest, could result in a reduction of our unrecognized tax benefits up to \$75 million and a reduction of our income tax expense up to \$40 million.

Open tax years related to state and foreign jurisdictions remain subject to examination, but are not considered material.

5. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table presents comparative carrying value and fair value information for our financial assets and liabilities:

\$ in millions	September 30, 2015		December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Assets (Liabilities)				
Marketable securities				
Trading	\$295	\$295	\$331	\$331
Available-for-sale	5	5	5	5
Derivatives	4	4	1	1
Long-term debt, including current portion	\$(6,527)	\$(7,041)	\$(5,928)	\$(6,726)

There were no transfers of financial instruments between the three levels of the fair value hierarchy during the nine months ended September 30, 2015.

The carrying value of cash and cash equivalents approximates fair value.

Investments in Marketable Securities

The company holds a portfolio of marketable securities to partially fund non-qualified employee benefit plans consisting of securities that are classified as either trading or available-for-sale. These assets are recorded at fair

Table of Contents

NORTHROP GRUMMAN CORPORATION

value on a recurring basis and substantially all of these instruments are valued using Level 1 inputs, with an immaterial amount valued using Level 2 inputs. As of September 30, 2015 and December 31, 2014, marketable securities of \$300 million and \$336 million, respectively, were included in other non-current assets in the unaudited condensed consolidated statements of financial position.

Derivative Financial Instruments and Hedging Activities

The company's derivative portfolio consists primarily of foreign currency forward contracts. The notional value of the company's derivative portfolio at September 30, 2015 and December 31, 2014, was \$120 million and \$146 million, respectively. The portion of notional value designated as cash flow hedges at September 30, 2015 and December 31, 2014, was \$12 million and \$34 million, respectively.

Derivative financial instruments are recognized as assets or liabilities in the unaudited condensed consolidated financial statements and measured at fair value on a recurring basis. Substantially all of these instruments are valued using Level 2 inputs. Where model-derived valuations are appropriate, the company utilizes the income approach to determine the fair value and uses the applicable London Interbank Offered Rate (LIBOR) swap rates.

Unrealized gains or losses on the effective portion of cash flow hedges are reclassified from other comprehensive income to operating income upon the recognition of the underlying hedged transaction. Hedge contracts not designated for hedge accounting and the ineffective portion of cash flow hedges are recorded in other income. The derivative fair values and related unrealized gains/losses at September 30, 2015 and December 31, 2014, were not material.

Long-term Debt

The fair value of long-term debt is calculated using Level 2 inputs based on interest rates available for debt with terms and maturities similar to the company's existing debt arrangements.

Debt Issuance

In February 2015, the company issued \$600 million of unsecured senior notes due April 15, 2045 with a fixed interest rate of 3.85 percent (the Notes). Interest on the Notes is payable semi-annually in arrears. The Notes are subject to redemption at the company's discretion at any time, or from time to time, prior to maturity in whole or in part at the greater of the principal amount of the Notes or an applicable "make-whole" amount, plus accrued and unpaid interest. We are using the net proceeds from this offering for general corporate purposes, including the funding of a \$500 million voluntary contribution to our pension plans in the first quarter of 2015 and debt repayment.

6. INVESTIGATIONS, CLAIMS AND LITIGATION

Litigation

On May 4, 2012, the company commenced an action, Northrop Grumman Systems Corp. v. United States, in the U.S. Court of Federal Claims. This lawsuit relates to an approximately \$875 million firm fixed price contract awarded to the company in 2007 by the U.S. Postal Service (USPS) for the construction and delivery of flats sequencing systems (FSS) as part of the postal automation program. The FSS have been delivered. The company's lawsuit is based on various theories of liability. The complaint seeks approximately \$63 million for unpaid portions of the contract price, and approximately \$115 million based on the company's assertions that, through various acts and omissions over the life of the contract, the USPS adversely affected the cost and schedule of performance and materially altered the company's obligations under the contract. The United States responded to the company's complaint with an answer, denying most of the company's claims and counterclaims, seeking approximately \$410 million, less certain amounts outstanding under the contract. The principal counterclaim alleges that the company delayed its performance and caused damages to the USPS because USPS did not realize certain costs savings as early as it had expected. On April 2, 2013, the U.S. Department of Justice informed the company of a False Claims Act complaint relating to the FSS contract that was filed under seal by a relator in June 2011 in the U.S. District Court for the Eastern District of Virginia. On June 3, 2013, the United States filed a Notice informing the Court that the United States had decided not to intervene in this case. The relator alleged that the company violated the False Claims Act in a number of ways with respect to the FSS contract, alleged damage to the USPS in an amount of at least approximately \$179 million annually, alleged that he was improperly discharged in retaliation, and sought an unspecified partial refund of the

contract purchase price, penalties, attorney's fees and other costs of suit. The relator later voluntarily dismissed his retaliation claim and reasserted it in a separate arbitration, which he also ultimately voluntarily dismissed. On September 5, 2014, the court granted the company's motion for summary judgment and ordered the relator's False Claims Act case be dismissed with prejudice. On December 19, 2014, the company filed a motion for partial summary judgment asking the court to dismiss the principal counterclaim referenced above. On June 29, 2015, the Court heard argument and denied that motion without prejudice to filing a later motion to

-10-

Table of Contents

NORTHROP GRUMMAN CORPORATION

dismiss. Although the ultimate outcome of these matters (“the FSS matters,” collectively), including any possible loss, cannot be predicted or estimated at this time, the company intends vigorously to pursue and defend the FSS matters. On August 8, 2013, the company received a court-appointed expert’s report in litigation pending in the Second Federal Court of the Federal District in Brazil brought by the Brazilian Post and Telegraph Corporation (ECT), a Brazilian state-owned entity, against Solystic SAS (Solystic), a French subsidiary of the company, and two of its consortium partners. In this suit, commenced on December 17, 2004, and relatively inactive for some period of time, ECT alleges the consortium breached its contract with ECT and seeks damages of approximately R\$111 million (the equivalent of approximately \$27 million as of September 30, 2015), plus interest, inflation adjustments and attorneys’ fees, as authorized by Brazilian law, which amounts could be significant over time. The original suit sought R\$89 million (the equivalent of approximately \$22 million as of September 30, 2015) in damages. In October 2013, ECT asserted an additional damage claim of R\$22 million (the equivalent of approximately \$5 million as of September 30, 2015). In its counterclaim, Solystic alleges ECT breached the contract by wrongfully refusing to accept the equipment Solystic had designed and built and seeks damages of approximately €31 million (the equivalent of approximately \$35 million as of September 30, 2015), plus interest, inflation adjustments and attorneys’ fees, as authorized by Brazilian law. The Brazilian court retained an expert to consider certain issues pending before it. On August 8, 2013 and September 10, 2014, the company received reports from the expert, which contain some recommended findings relating to liability and the damages calculations put forth by ECT. Some of the expert’s recommended findings were favorable to the company and others were favorable to ECT. In November 2014, the parties submitted comments on the expert’s most recent report. On June 16, 2015, the court published a decision denying the parties’ request to present oral testimony. At some future point, the court is expected to issue a decision on the parties’ claims and counterclaims that could accept or reject, in whole or in part, the expert’s recommended findings.

The company is one of several defendants in litigation brought by the Orange County Water District in Orange County Superior Court in California on December 17, 2004, for alleged contribution to volatile organic chemical contamination of the County’s shallow groundwater. The lawsuit includes counts against the defendants for violation of the Orange County Water District Act, the California Super Fund Act, negligence, nuisance, trespass and declaratory relief. Among other things, the lawsuit seeks unspecified damages for the cost of remediation, payment of attorney fees and costs, and punitive damages. Trial on the statutory claims (those based on the Orange County Water District Act, the California Super Fund Act and declaratory relief) concluded on September 25, 2012. On October 29, 2013, the court issued its decision in favor of the defendants on the statutory claims. On May 9, 2014, the court granted defendants’ dispositive motions on the remaining tort causes of action. Notice of entry of judgment was filed on July 1, 2014. The Orange County Water District filed a notice of appeal on August 28, 2014. The Orange County Water District filed its opening brief on October 14, 2015. The company’s response is due on December 14, 2015. The company is a party to various investigations, lawsuits, claims and other legal proceedings, including government investigations and claims, that arise in the ordinary course of our business. The nature of legal proceedings is such that we cannot assure the outcome of any particular matter. However, based on information available to the company to date, and other than with respect to the FSS matters discussed separately above, the company does not believe that the outcome of any matter pending against the company is likely to have a material adverse effect on the company’s unaudited condensed consolidated financial position as of September 30, 2015, or its annual results of operations or cash flows.

7. COMMITMENTS AND CONTINGENCIES**Guarantees of Subsidiary Performance Obligations**

From time to time in the ordinary course of business, the company guarantees obligations of its subsidiaries under certain contracts. Generally, the company is liable under such an arrangement only if its subsidiary is unable to perform under its contract. Historically, the company has not incurred any substantial liabilities resulting from these guarantees.

In addition, the company’s subsidiaries may enter into joint ventures, teaming and other business arrangements (collectively, Business Arrangements) to support our products and services in domestic and international markets. The

company generally strives to limit its exposure under these arrangements to its subsidiary's investment in the Business Arrangements or to the extent of such subsidiary's obligations under the applicable contract. In some cases, however, we may be required to guarantee performance by the Business Arrangements and, in such cases, the company generally strives to obtain cross-indemnification from the other members of the Business Arrangements.

-11-

Table of Contents

NORTHROP GRUMMAN CORPORATION

At September 30, 2015, the company is not aware of any existing event of default that would require it to satisfy any of these guarantees.

U.S. Government Cost Claims

From time to time, the company is advised of claims by the U.S. Government concerning certain potential disallowed costs, plus, at times, penalties and interest. When such findings are presented, the company and the U.S. Government representatives engage in discussions to enable the company to evaluate the merits of these claims, as well as to assess the amounts being claimed. Where appropriate, provisions are made to reflect the company's estimated exposure for matters raised by the U.S. Government. Such provisions are reviewed periodically using the most recent information available. The company believes it has adequately reserved for disputed amounts that are probable and estimable, and the outcome of any such matters would not have a material adverse effect on its unaudited condensed consolidated financial position as of September 30, 2015, or its annual results of operations and/or cash flows.

Environmental Matters

The estimated cost to complete remediation at certain current or formerly owned or leased sites has been accrued where the company believes, based on the facts and circumstances known to the company, it is probable we will incur costs to address environmental impacts and the costs are reasonably estimable. As of September 30, 2015, management estimates the range of reasonably possible future costs for environmental remediation is between \$351 million and \$794 million, before considering the amount recoverable through overhead charges on U.S. Government contracts. At September 30, 2015, the amount within that range accrued for probable environmental remediation costs was \$368 million, of which \$111 million is recorded in other current liabilities and \$257 million is recorded in other non-current liabilities. A portion of the environmental remediation costs is expected to be recoverable through overhead charges on U.S. Government contracts and, accordingly, such amounts are deferred in inventoried costs and other non-current assets. As of September 30, 2015, \$58 million is deferred in inventoried costs and \$129 million is deferred in other non-current assets. These amounts are evaluated for recoverability on a routine basis. Although management cannot predict whether new information gained as our environmental remediation projects progress, or as changes in facts and circumstances occur, will materially affect the estimated liability accrued, we do not anticipate future remediation expenditures associated with our currently identified projects will have a material adverse effect on the company's unaudited condensed consolidated financial position as of September 30, 2015, or its annual results of operations and/or cash flows.

Financial Arrangements

In the ordinary course of business, the company uses standby letters of credit and guarantees issued by commercial banks and surety bonds issued principally by insurance companies to guarantee the performance on certain obligations. At September 30, 2015, there were \$236 million of stand-by letters of credit and guarantees and \$152 million of surety bonds outstanding.

Indemnifications

The company has retained certain environmental, income tax and other potential liabilities in connection with certain of its divestitures. The settlement of these liabilities is not expected to have a material adverse effect on the company's unaudited condensed consolidated financial position as of September 30, 2015, or its annual results of operations and/or cash flows.

Operating Leases

Rental expense for operating leases for the three and nine months ended September 30, 2015, was \$75 million and \$232 million, respectively, and was \$84 million and \$229 million for the three and nine months ended September 30, 2014, respectively. These amounts are net of immaterial amounts of sublease rental income.

Credit Facility

In July 2015, the company amended its \$1.8 billion five-year credit facility dated August 29, 2013 by reducing the aggregate principal amount available under the facility to \$1.6 billion and extending the maturity to July 2020 (2015 Credit Agreement).

The 2015 Credit Agreement contains generally customary terms and conditions, including covenants restricting the company's ability to sell all or substantially all of its assets, merge or consolidate with another entity or undertake other fundamental changes and incur liens. The company also generally cannot permit the ratio of its debt to capitalization (as set forth in the 2015 Credit Agreement) to exceed 65 percent.

8. RETIREMENT BENEFITS

The cost to the company of its retirement plans is shown in the following table:

\$ in millions	Three Months Ended September 30				Nine Months Ended September 30			
	Pension Benefits		Medical and Life Benefits		Pension Benefits		Medical and Life Benefits	
	2015	2014	2015	2014	2015	2014	2015	2014
Components of net periodic benefit cost								
Service cost	\$121	\$114	\$8	\$8	\$363	\$343	\$26	\$25
Interest cost	306	314	24	25	918	944	71	75
Expected return on plan assets	(494)	(467)	(22)	(21)	(1,481)	(1,402)	(67)	(63)
Amortization of:								
Prior service credit	(15)	(14)	(7)	(12)	(45)	(44)	(21)	(32)
Net loss from previous years	170	81	6	3	511	245	20	9
Other	—	1	—	—	—	1	—	—
Net periodic benefit cost	\$88	\$29	\$9	\$3	\$266	\$87	\$29	\$14
Employer Contributions								

The company sponsors defined benefit pension and post-retirement plans, as well as defined contribution plans. We fund our defined benefit pension plans annually in a manner consistent with the Employee Retirement Income Security Act of 1974, as amended by the Pension Protection Act of 2006. Additionally, in the first quarter of 2015, we made a voluntary pension contribution of \$500 million.

Contributions made by the company to its retirement plans are as follows:

\$ in millions	Three Months Ended September 30		Nine Months Ended September 30	
	2015	2014	2015	2014
Defined benefit pension plans	\$20	\$20	\$564	\$59
Post-retirement benefit plans	19	17	44	43
Defined contribution plans	77	63	227	210

9. STOCK COMPENSATION PLANS AND OTHER COMPENSATION ARRANGEMENTS

Stock Awards

In February 2015, the company granted certain employees 0.2 million restricted stock rights (RSRs) and 0.4 million restricted performance stock rights (RPSRs) under the company's long-term incentive stock plan, with a grant date aggregate fair value of \$87 million. The RSRs will typically vest on the third anniversary of the grant date, while the RPSRs will vest and pay out based on the achievement of financial metrics for the three-year period ending December 31, 2017.

Cash Awards

In February 2015, the company granted certain employees cash units (CUs) and cash performance units (CPUs) with a minimum aggregate payout amount of \$34 million and a maximum aggregate payout amount of \$190 million. The CUs will vest and settle in cash on the third anniversary of the grant date, while the CPUs will vest and settle in cash based on the achievement of financial metrics for the three-year period ending December 31, 2017.

NORTHROP GRUMMAN CORPORATION

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Northrop Grumman Corporation
Falls Church, Virginia

We have reviewed the accompanying condensed consolidated statement of financial position of Northrop Grumman Corporation (the "Corporation") and subsidiaries as of September 30, 2015, and the related condensed consolidated statements of earnings and comprehensive income for the three-month and nine-month periods ended September 30, 2015 and 2014, and of cash flows and changes in shareholders' equity for the nine-month periods ended September 30, 2015 and 2014. These interim financial statements are the responsibility of the Corporation's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of financial position of Northrop Grumman Corporation and subsidiaries as of December 31, 2014, and the related consolidated statements of earnings and comprehensive (loss) income, cash flows, and changes in shareholders' equity for the year then ended (not presented herein); and in our report dated February 2, 2015, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated statement of financial position as of December 31, 2014, is fairly stated, in all material respects, in relation to the consolidated statement of financial position from which it has been derived.

NORTHROP GRUMMAN CORPORATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

Northrop Grumman Corporation (herein referred to as "Northrop Grumman," the "company," "we," "us," or "our") is a leading global security company. We offer a broad portfolio of capabilities and technologies that enable us to deliver innovative products, systems and solutions for applications that range from undersea to outer space and into cyberspace. We provide products, systems and solutions in unmanned systems; cyber; command, control, communications and computers (C4), intelligence, surveillance and reconnaissance (C4ISR); strike aircraft; and logistics and modernization to government and commercial customers worldwide. We participate in many high-priority defense and government programs in the United States (U.S.) and abroad. We conduct most of our business with the U.S. Government, principally the Department of Defense (DoD) and intelligence community. We also conduct business with foreign, state and local governments and commercial customers.

At September 30, 2015, the company was aligned into four sectors: Aerospace Systems, Electronic Systems, Information Systems and Technical Services. In October 2015, the company announced changes effective January 1, 2016, which are intended to better align our business with the evolving needs of our customers and enhance innovation across the company. The changes include the streamlining of our business sectors from four to three. Two new sectors will be created by merging elements of our current Electronic Systems, Information Systems and Technical Services sectors. A new Mission Systems sector will be composed of our existing Electronic Systems sector and the businesses from our current Information Systems sector focused on the development of new capabilities for our military and intelligence customers. The services portfolio in the Information Systems sector will combine with the Technical Services sector to form the new Technology Services sector. Among other operations being realigned, the military and civil space hardware business in Azusa, California, currently reporting to Electronic Systems, will move to the Aerospace Systems sector and the electronic attack business currently in Aerospace Systems will move to the Mission Systems sector. This realignment is not reflected in any of the accompanying financial information. The following discussion should be read along with the unaudited condensed consolidated financial statements included in this Form 10-Q, as well as our 2014 Annual Report on Form 10-K, which provides a more thorough discussion of our systems, products and solutions; political and economic environment; industry outlook; and business trends. See further discussions in the Consolidated Operating Results and Segment Operating Results sections that follow.

Political and Economic Environment

The following is an update of events relating to the company's political and economic environment since the filing of our 2014 Annual Report on Form 10-K.

On February 2, 2015, the President delivered his FY 2016 budget to Congress. The FY 2016 budget seeks an increase in defense and non-defense spending, including \$534 billion for the DoD's annual budget and an additional \$51 billion for Overseas Contingency Operations. While the President's FY 2016 defense budget is in line with projections included in his FY 2015 budget, it is approximately \$34 billion more than the spending caps provided for in the Budget Control Act (BCA). The Administration and Congress continue to debate the defense budget and strategies to address the BCA's spending caps.

The Temporary Debt Limit Extension Act suspended the statutory limit on the amount of permissible federal debt (the debt ceiling) until March 15, 2015. On March 16, 2015, the Treasury Department began taking "extraordinary measures" to finance the government. If the debt ceiling is not raised, it is anticipated that the debt ceiling will be reached later this year with potentially significant consequences for the U.S. Government's ability to pay amounts owed.

On September 30, 2015 the President signed a continuing resolution which funds the government at FY 2015 levels until December 11, 2015. It is unclear when or if annual appropriations bills will be enacted for FY 2016. The U.S. Government may operate under a continuing resolution for all of FY 2016, restricting new contract or program starts for that year, and we may face a government shutdown of unknown duration.

Operating Performance Assessment and Reporting

We manage and assess our business based on our performance on contracts and programs (typically two or more closely-related contracts). Sales from our portfolio of long-term contracts are primarily recognized using the cost-to-cost method of percentage of completion accounting, but in some cases we utilize the units-of-delivery method of percentage of completion accounting. As a result, sales tend to fluctuate in concert with costs incurred across our large portfolio of contracts. Due to Federal Acquisition Regulation (FAR) rules that govern our U.S. Government

-15-

Table of Contents

NORTHROP GRUMMAN CORPORATION

business and related Cost Accounting Standards (CAS), most types of costs are allocable to U.S. Government contracts, and we do not focus on individual cost groupings (such as manufacturing, engineering and design labor costs, subcontractor costs, material costs, overhead costs and general and administrative costs), as much as we do on total contract cost, which is the key driver of our sales and operating income.

In evaluating our operating performance, we look primarily at changes in sales and operating income, including the effects of meaningful changes in operating income as a result of changes in contract estimates. Where applicable, significant fluctuations in operating performance attributable to individual contracts or programs, or changes in a specific cost element across multiple contracts, are described in our analysis. Based on this approach and the nature of our operations, the discussion below of results of operations first focuses on our four segments before distinguishing between products and services. Changes in sales are generally described in terms of volume, deliveries or other indicators of sales activity, and contract mix. For purposes of this discussion, volume generally refers to increases or decreases in sales or cost from production/service activity levels or delivery rates. Performance generally refers to changes in contract operating margin rates for the period, as well as the continuing effect of prior cumulative catch-up adjustments.

CONSOLIDATED OPERATING RESULTS

Selected financial highlights are presented in the table below:

	Three Months Ended		Nine Months Ended		
	September 30		September 30		
\$ in millions, except per share amounts	2015	2014	2015	2014	
Sales	\$5,979	\$5,984	\$17,832	\$17,871	
Operating costs and expenses	5,185	5,215	15,445	15,437	
Operating income	794	769	2,387	2,434	
Operating margin rate	13.3	% 12.9	% 13.4	% 13.6	%
Federal and foreign income tax expense	213	221	638	673	
Effective income tax rate	29.2	% 31.8	% 29.4	% 30.1	%
Net earnings	516	473	1,531	1,563	
Diluted earnings per share	2.75	2.26	7.89	7.28	
Net cash provided by operating activities	\$557	\$933	\$529	\$1,103	
Sales					

Sales for the three and nine months ended September 30, 2015, decreased \$5 million and \$39 million, respectively, as compared with the same periods in 2014.

Sales for the three and nine months ended September 30, 2014 include the benefit of \$75 million realized in connection with agreements reached with the U.S. Government to settle certain claims relating to use of the company's intellectual property and a terminated program, which is reflected in product sales at the Aerospace Systems segment.

The table below shows the variances in segment sales from the prior year period:

\$ in millions	Three Month Variance			Nine Month Variance		
Aerospace Systems	\$20	1	%	\$108	1	%
Electronic Systems	34	2	%	10	—	
Information Systems	(39) (3	%)	(119) (3	%)
Technical Services	4	1	%	65	3	%
Intersegment sales elimination	(24) 5	%	(103) 7	%
Total sales variance	\$(5) —		\$(39) —	

For further information by segment refer to Segment Operating Results below, and for product and service detail, refer to the Product and Service Analysis section that follows Segment Operating Results.

Table of Contents

NORTHROP GRUMMAN CORPORATION

Operating Costs and Expenses

Operating costs and expenses primarily comprise labor, material, subcontractor and overhead costs, and are generally allocated to contracts as incurred. In accordance with industry practice and the regulations that govern cost accounting requirements for government contracts, most general management and corporate expenses incurred at the segment and corporate locations are considered allowable and allocable costs. Allowable and allocable general and administrative costs are allocated on a systematic basis to contracts in progress.

Operating costs and expenses comprise the following:

\$ in millions	Three Months Ended September 30		Nine Months Ended September 30	
	2015	2014	2015	2014
Product costs	\$2,633	\$2,614	\$7,743	\$7,815
Service costs	1,889	2,021	5,763	5,910
General and administrative expenses	663	580	1,939	1,712
Operating costs and expenses	\$5,185	\$5,215	\$15,445	\$15,437

Current Quarter

Operating costs and expenses as a percentage of sales declined for the three months ended September 30, 2015 as compared with the same period in 2014, which increased our operating margin rate to 13.3 percent from 12.9 percent in the prior year period. The reduction in operating costs and expenses as a percentage of sales was driven by a \$117 million increase in our net FAS/CAS pension adjustment and a \$21 million decrease in unallocated corporate expenses, which more than offset \$114 million of lower segment operating income, as described in the Segment Operating Results section below.

Year to Date

Operating costs and expenses as a percentage of sales increased for the nine months ended September 30, 2015 as compared with the same period in 2014, which reduced our operating margin rate to 13.4 percent from 13.6 percent in the prior year period. The increase in operating costs and expenses as a percentage of sales was driven by \$136 million of lower segment operating income, which more than offset a \$61 million increase in our net FAS/CAS pension adjustment and a \$27 million reduction in unallocated corporate expenses, as described in the Segment Operating Results section below.

General and Administrative Expenses

General and administrative expenses as a percentage of sales for the three and nine months ended September 30, 2015 were 11.1 percent and 10.9 percent, respectively, and were 9.7 percent and 9.6 percent for the three and nine months ended September 30, 2014, respectively. The increases in both periods principally reflect higher independent research and development (IR&D) as we continue to invest in future business opportunities.

For product and service detail, refer to the Product and Service Analysis section that follows Segment Operating Results.

Operating Income

We define operating income as sales less operating costs and expenses, which includes general and administrative expenses. Changes in estimated contract operating margin at completion, resulting from changes in estimated sales, operating costs and expenses, are recorded using the cumulative catch-up method of accounting, which in aggregate can have a significant effect on our reported sales and operating income in each of our reporting periods. Cumulative catch-up adjustments are presented in the table below:

\$ in millions	Three Months Ended September 30		Nine Months Ended September 30	
	2015	2014	2015	2014
Favorable adjustments	\$189	\$254	\$707	\$736
Unfavorable adjustments	(77) (60) (246) (180
Net favorable adjustments	\$112	\$194	\$461	\$556

Table of Contents

NORTHROP GRUMMAN CORPORATION

Net cumulative catch-up adjustments by segment are presented in the table below:

\$ in millions	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Aerospace Systems	\$66	\$114	\$288	\$309
Electronic Systems	27	54	106	188
Information Systems	12	20	50	54
Technical Services	10	12	33	33
Eliminations	(3) (6) (16) (28
Net favorable adjustments	\$112	\$194	\$461	\$556
Federal and Foreign Income Tax Expense				

The effective tax rates for the three and nine months ended September 30, 2015, were 29.2 percent and 29.4 percent, respectively, compared with 31.8 percent and 30.1 percent, respectively, for the three and nine months ended September 30, 2014.

Current Quarter

The company's effective tax rate for the three months ended September 30, 2015 was lower than the comparable 2014 period primarily due to a \$21 million benefit recognized in 2015 for additional research credits claimed on our prior year tax return.

Year to Date

The company's effective tax rate for the nine months ended September 30, 2015 was comparable with the same period in 2014 and reflects a \$59 million benefit recognized in 2015 for additional research credits and a \$51 million benefit recorded in 2014 for the partial resolution of the Internal Revenue Service (IRS) examination of our 2007-2009 tax returns.

Subsequent Event

On October 27, 2015, the IRS approved a change in accounting method requested by the company. This change is expected to increase our fourth quarter 2015 federal income tax expense by approximately \$25 million due to lower deductions for domestic production activities. It is also expected to increase our fourth quarter 2015 unallocated corporate expense for state income taxes by approximately \$45 million.

Net Earnings**Current Quarter**

Net earnings for the three months ended September 30, 2015 increased \$43 million, or 9 percent, principally due to the absence in 2015 of a \$62 million cumulative reduction in net earnings recognized in the third quarter of 2014 as a result of the Highway and Transportation Funding Act of 2014 (HATFA) legislation described below.

Year to Date

Net earnings for the nine months ended September 30, 2015 decreased \$32 million, or 2 percent, principally due to lower segment operating income, partially offset by an increase in net FAS/CAS pension adjustment and a reduction in income tax expense.

Diluted Earnings Per Share**Current Quarter**

Diluted earnings per share for the three months ended September 30, 2015, increased \$0.49, or 22 percent, as compared with the same period in 2014, reflecting higher net earnings and lower weighted-average shares outstanding resulting from shares repurchased during 2014 and 2015.

Year to Date

Diluted earnings per share for the nine months ended September 30, 2015, increased \$0.61, or 8 percent, as compared with the same period in 2014, reflecting lower weighted-average shares outstanding resulting from shares repurchased during 2014 and 2015, partially offset by lower net earnings.

Net Cash from Operating Activities

Current Quarter

For the three months ended September 30, 2015, net cash provided by operating activities decreased \$376 million, as compared with the same period in 2014, principally due to changes in trade working capital.

-18-

Table of Contents

NORTHROP GRUMMAN CORPORATION

Year to Date

For the nine months ended September 30, 2015, net cash provided by operating activities decreased \$574 million, as compared with the same period in 2014, principally driven by a \$500 million voluntary pre-tax pension contribution and changes in trade working capital.

SEGMENT OPERATING RESULTS

At September 30, 2015, the company was aligned into four segments: Aerospace Systems, Electronic Systems, Information Systems and Technical Services. This section discusses segment sales, operating income and operating margin rates. A reconciliation of segment sales to total sales is provided in Note 3 to the unaudited condensed consolidated financial statements in Part I, Item 1. A reconciliation of segment operating income to total operating income, as well as a discussion of the reconciling items, is provided in Note 3 to the unaudited condensed consolidated financial statements in Part I, Item 1. For purposes of the discussion in this Segment Operating Results section, references to operating income and operating margin rate reflect segment operating income and segment operating margin rate.

Segment Operating Income

Segment operating income, as reconciled below, is a non-GAAP measure and is used by management as an internal measure for financial performance of our operating segments. Segment operating income reflects total earnings from our four segments including allocated pension expense recognized under CAS and excludes unallocated corporate items, including FAS pension expense.

	Three Months Ended		Nine Months Ended			
	September 30		September 30			
\$ in millions	2015	2014	2015	2014		
Segment operating income	\$726	\$840	\$2,203	\$2,339		
Segment operating margin rate	12.1	% 14.0	% 12.4	% 13.1	%	%

Current Quarter

Segment operating income for the three months ended September 30, 2015 decreased \$114 million, or 14 percent, and segment operating margin rate decreased to 12.1 percent from 14.0 percent. Segment operating margin and segment operating margin rate declined in the third quarter of 2015 when compared to the third quarter of 2014 principally due to the \$75 million benefit recognized in the third quarter of 2014 in connection with the settlements described in the Consolidated Operating Results section above and the \$37 million benefit recognized in the third quarter of 2014 resulting from lower CAS pension costs due to the HATFA legislation described below.

Year to Date

Segment operating income for the nine months ended September 30, 2015 decreased \$136 million, or 6 percent, and segment operating margin rate decreased to 12.4 percent from 13.1 percent. Segment operating margin and segment operating margin rate declined in 2015 when compared to 2014 principally due to the \$75 million benefit recognized in the third quarter of 2014 in connection with the settlements described in the Consolidated Operating Results section above and the \$37 million benefit recognized in the third quarter of 2014 resulting from lower CAS pension costs due to the HATFA legislation described below.

The table below reconciles segment operating income to total operating income by including the impact of net FAS/CAS pension adjustments, as well as certain corporate-level expenses, which are not considered allowable or allocable under applicable CAS or the FAR.

Table of Contents

NORTHROP GRUMMAN CORPORATION

\$ in millions	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Segment operating income	\$726	\$840	\$2,203	\$2,339
CAS pension expense	185	9	527	287
Less: FAS pension expense	(88) (29) (266) (87
Net FAS/CAS pension adjustment	97	(20) 261	200
Unallocated corporate expenses	(29) (50) (76) (103
Other	—	(1) (1) (2
Total operating income	\$794	\$769	\$2,387	\$2,434
Net FAS/CAS Pension Adjustment				

For financial statement purposes, we account for our employee pension plans in accordance with GAAP under FAS. However, the cost of these plans is charged to our contracts in accordance with the FAR and the related CAS that govern such plans. The net FAS/CAS pension adjustment reflects the difference between pension expense included as cost in segment operating income and pension expense determined in accordance with GAAP. In the third quarter of 2014, Congress passed HATFA, which includes provisions that reduce the amount of CAS pension expense charged to our contracts. The legislation was retroactive to January 1, 2014. In the third quarter of 2014, we recognized a \$132 million cumulative reduction in 2014 CAS pension expense principally reflecting the year-to-date HATFA impact.

Current Quarter

The increase in net FAS/CAS pension adjustment for the three months ended September 30, 2015, as compared to the same period in 2014, is principally due to the absence in 2015 of the \$132 million reduction in CAS pension expense related to HATFA described above, partially offset by higher FAS expense in 2015, as a result of changes in our FAS discount rate and mortality assumptions as of December 31, 2014.

Year to Date

The increase in net FAS/CAS pension adjustment for the nine months ended September 30, 2015, as compared to the same period in 2014, is principally due to higher 2015 CAS expense resulting from changes in mortality assumptions and demographic experience, partially offset by an increase in 2015 FAS expense as a result of changes in our FAS discount rate and mortality assumptions as of December 31, 2014.

Unallocated Corporate Expenses

Unallocated corporate expenses include the portion of corporate expenses not considered allowable or allocable under applicable CAS or the FAR, and are therefore not allocated to the segments. Such costs consist of a portion of management and administration, legal, environmental, compensation costs, retiree benefits and certain unallowable costs such as lobbying activities. The decrease in unallocated corporate expenses for the three and nine months ended September 30, 2015, as compared to the same periods in 2014, is principally due to reductions in environmental and other corporate provisions.

AEROSPACE SYSTEMS

\$ in millions	Three Months Ended		Nine Months Ended		
	September 30		September 30		
	2015	2014	2015	2014	
Sales	\$2,563	\$2,543	\$7,573	\$7,465	
Operating income	303	402	940	1,016	
Operating margin rate	11.8	% 15.8	% 12.4	% 13.6	%
Current Quarter					

Aerospace Systems sales for the three months ended September 30, 2015 increased \$20 million, or 1 percent, as compared with the same period in 2014 due to higher volume on manned military aircraft and unmanned programs, partially offset by lower volume on other programs. The increase in manned military aircraft programs is mainly due to higher production volume on the F-35 and E-2D Advanced Hawkeye programs, partially offset by fewer F/A-18

deliveries. Higher unmanned sales reflect increased volume for a number of programs, including Triton and Global

-20-

Table of Contents

NORTHROP GRUMMAN CORPORATION

Hawk. The increase in sales between periods was partially offset by the benefit of \$75 million in settlements recognized in the third quarter of 2014 as described in the Consolidated Operating Results section above.

Operating income for the three months ended September 30, 2015 decreased \$99 million, or 25 percent, and operating margin rate decreased to 11.8 percent from 15.8 percent. Operating income and margin rate decreased in the third quarter of 2015 when compared to the third quarter of 2014 principally due to the benefits recognized in 2014 associated with the settlements and HATFA legislation described above.

Year to Date

Aerospace Systems sales for the nine months ended September 30, 2015 increased \$108 million, or 1 percent, as compared with the same period in 2014 due to higher volume on unmanned systems, manned military aircraft and space programs, partially offset by lower volume on other programs. Higher unmanned sales reflect increased volume on a number of programs, including Global Hawk. The increase in manned military aircraft programs is mainly due to higher production volume on the E-2D Advanced Hawkeye and F-35 programs, partially offset by fewer F/A-18 deliveries. The increase in space programs was mainly due to higher volume for restricted work, partially offset by lower volume on the Advanced Extremely High Frequency program. The increase in sales between periods was partially offset by the benefit of \$75 million in settlements recognized in the third quarter of 2014 as described in the Consolidated Operating Results section above.

Operating income for the nine months ended September 30, 2015 decreased \$76 million, or 7 percent, and operating margin rate decreased to 12.4 percent from 13.6 percent. Operating income and margin rate decreased in 2015 when compared to 2014 principally due to the benefits recognized in 2014 associated with the settlements and HATFA legislation described above.

ELECTRONIC SYSTEMS

\$ in millions	Three Months Ended		Nine Months Ended		
	September 30		September 30		
	2015	2014	2015	2014	
Sales	\$1,767	\$1,733	\$5,131	\$5,121	
Operating income	275	274	787	833	
Operating margin rate	15.6	% 15.8	% 15.3	% 16.3	%

Current Quarter

Electronic Systems sales for the three months ended September 30, 2015 increased \$34 million, or 2 percent, as compared with the same period in 2014. The increase was primarily driven by higher volume on navigation and maritime systems and space programs, partially offset by lower volume on land and self protection systems and airborne tactical sensor programs.

Operating income for the three months ended September 30, 2015 was comparable with the same period in 2014. Operating margin rate decreased slightly to 15.6 percent from 15.8 percent primarily due to lower CAS costs recognized in 2014 resulting from the HATFA legislation described above, partially offset by improved performance in 2015.

Year to Date

Electronic Systems sales for the nine months ended September 30, 2015 was consistent with the same period in 2014. Sales include higher volume on navigation and maritime systems and space programs, partially offset by lower volume on land and self protection systems, airborne tactical sensor programs and intercompany activities.

Operating income for the nine months ended September 30, 2015 decreased \$46 million, or 6 percent, and operating margin rate decreased to 15.3 percent from 16.3 percent. Operating income and margin rate for 2015 decreased primarily due to business mix changes, which resulted in lower volume for mature fixed price production programs and higher volume for cost-type development programs, less favorable performance in land and self protection systems and lower CAS costs recognized in 2014 resulting from the HATFA legislation described above.

Table of Contents

NORTHROP GRUMMAN CORPORATION

INFORMATION SYSTEMS

\$ in millions	Three Months Ended September 30		Nine Months Ended September 30		
	2015	2014	2015	2014	
Sales	\$1,472	\$1,511	\$4,531	\$4,650	
Operating income	146	150	462	465	
Operating margin rate	9.9	% 9.9	% 10.2	% 10.0	%

Information Systems sales for the three months ended September 30, 2015 decreased \$39 million, or 3 percent, as compared with the same period in 2014. The decrease was driven by lower volume on command and control (C2) programs, including the Consolidated Afloat Network and Enterprise Services (CANES) program, and the impact of in-theater force reductions.

Operating income for the three months ended September 30, 2015 decreased \$4 million, or 3 percent, and operating margin rate was consistent with the prior period. The decrease in operating income was primarily driven by the lower sales volume described above.

Year to Date

Information Systems sales for the nine months ended September 30, 2015 decreased \$119 million, or 3 percent, as compared with the same period in 2014. The decrease was driven by lower volume on C2 and civil programs, partially offset by higher volume on the F-35 program and on intelligence, surveillance and reconnaissance (ISR) and integrated air and missile defense (IAMD) programs. The decrease in C2 was principally due to lower volume on CANES and the impact of in-theater force reductions. The decline in civil programs was mainly due to lower volume on the Emergency Communications Transformation Program. The increase in ISR programs is primarily due to expanded scope on the Solutions for the Information Technology Enterprise - Enterprise Application Development and Integration Services program. The increase in IAMD programs is principally due to higher volume on the Ground-Based Midcourse Defense Development and Sustainment and Joint National Integration Center Research and Development programs.

Operating income for the nine months ended September 30, 2015 decreased \$3 million, or 1 percent, as compared with the same period in 2014, primarily due to the lower sales volume described above. Operating margin rate increased to 10.2 percent from 10.0 percent due to program completions and improved performance across the portfolio, partially offset by lower CAS costs recognized in 2014 resulting from the HATFA legislation described above.

TECHNICAL SERVICES

\$ in millions	Three Months Ended September 30		Nine Months Ended September 30		
	2015	2014	2015	2014	
Sales	\$695	\$691	\$2,185	\$2,120	
Operating income	64	66	199	202	
Operating margin rate	9.2	% 9.6	% 9.1	% 9.5	%

Technical Services sales for the three months ended September 30, 2015 increased \$4 million, or 1 percent, as compared with the same period in 2014. The increase was principally due to higher volume on mission solutions & readiness (MS&R) programs, partially offset by lower volume on integrated logistics and modernization (IL&M) programs, including the InterContinental Ballistic Missile (ICBM) program.

Operating income for the three months ended September 30, 2015 decreased \$2 million, or 3 percent, and operating margin rate decreased to 9.2 percent from 9.6 percent. The declines in both operating income and operating margin rate were due in part to lower income from an unconsolidated joint venture than in the prior year period.

Year to Date

Technical Services sales for the nine months ended September 30, 2015 increased \$65 million, or 3 percent, as compared with the same period in 2014. The increase was principally due to higher volume on MS&R programs,

-22-

Table of Contents

NORTHROP GRUMMAN CORPORATION

partially offset by lower volume on IL&M programs. The increase in MS&R was primarily due to higher volume on the Saudi Arabian Ministry of National Guard Training Support program (through our interest in a joint venture for which we consolidate the financial results). The decrease in IL&M includes ramp-down activities on the ICBM program.

Operating income for the nine months ended September 30, 2015 decreased \$3 million, or 1 percent, and operating margin rate decreased to 9.1 percent from 9.5 percent. The declines in both operating income and operating margin rate were due in part to lower income from an unconsolidated joint venture than in the prior year period.

PRODUCT AND SERVICE ANALYSIS

The following table presents product and service sales and operating costs and expenses by segment:

\$ in millions	Three Months Ended September 30				Nine Months Ended September 30			
	2015		2014		2015		2014	
Segment Information:	Sales	Operating Costs and Expenses	Sales	Operating Costs and Expenses	Sales	Operating Costs and Expenses	Sales	Operating Costs and Expenses

(1) The reconciliation of segment operating income to total operating income, as well as a discussion of the reconciling items, is included in Note 3 to the unaudited condensed consolidated financial statements in Part I, Item 1.

Product Sales and Costs

Current Quarter

Product sales for the three months ended September 30, 2015, increased \$147 million, or 4 percent, as compared with the same period in 2014. The increase was driven primarily by higher volume on combat avionics and tactical sensor programs at Electronic Systems and higher volume on manned military aircraft programs at Aerospace Systems.

These increases were partially offset by the benefit of \$75 million in settlements recorded in the third quarter of 2014 as described in the Consolidated Operating Results section above.

Product costs for the three months ended September 30, 2015, increased \$223 million, or 7 percent, as compared with the same period in 2014. The increase was primarily driven by the higher product sales described above.

Year to Date

Product sales for the nine months ended September 30, 2015 increased \$148 million, or 1 percent, as compared with the same period in 2014. The increase was driven primarily by higher product sales at Electronic Systems and Aerospace Systems. The increase at Electronics Systems was driven by higher volume on space and combat avionics

programs, partially offset by international programs. The increase at Aerospace Systems was driven by higher

-23-

Table of Contents

NORTHROP GRUMMAN CORPORATION

volume on unmanned and space programs, partially offset by lower volume on manned military aircraft and other programs, including the benefit of \$75 million in settlements recognized in the third quarter of 2014 as described in the Consolidated Operating Results section above.

Product costs for the nine months ended September 30, 2015, increased \$261 million, or 3 percent, as compared with the same period in 2014. The increase was primarily driven by the higher product sales described above and lower product operating margin rates at Electronic Systems, which were principally due to business mix changes as described in the Segment Operating Results section above.

Service Sales and Costs

Current Quarter

Service sales for the three months ended September 30, 2015, decreased \$128 million, or 5 percent, as compared with the same period in 2014. The decrease was primarily driven by lower service sales at Electronic Systems and Aerospace Systems. The decrease at Electronic Systems was primarily driven by lower volume on land and self protection systems programs. The decrease at Aerospace Systems was primarily driven by lower volume on unmanned and other programs, partially offset by increased volume on manned military aircraft programs.

Service costs for the three months ended September 30, 2015, decreased \$100 million, or 4 percent, as compared with the same period in 2014. The decrease was primarily driven by the lower service sales described above.

Year to Date

Service sales for the nine months ended September 30, 2015, decreased \$84 million, or 1 percent, as compared with the same period in 2014. The decrease was primarily due to lower service sales at Information Systems and Electronic Systems, partially offset by higher service sales at Aerospace Systems. The decrease at Information Systems was primarily due to lower volume on C2 programs and the impact of in-theater force reductions. The decrease at Electronic Systems was primarily due to lower services sales on tactical sensor and other programs. The increase at Aerospace Systems was primarily driven by higher service sales on manned military aircraft programs, partially offset by lower service sales on other programs.

Service costs for the nine months ended September 30, 2015, decreased \$69 million, or 1 percent, as compared with the same period in 2014. The decrease was consistent with the change in service sales described above.

BACKLOG

Total backlog includes both funded backlog (firm orders for which funding is authorized and appropriated) and unfunded backlog. Unexercised contract options and indefinite delivery indefinite quantity (IDIQ) contracts are not included in backlog until the time the option or IDIQ task order is exercised or awarded. For multi-year service contracts with non-U.S. Government customers having no stated contract values, backlog includes only the amounts committed by the customer. Backlog is converted into sales as costs are incurred or deliveries are made.

Backlog consisted of the following as of September 30, 2015, and December 31, 2014:

\$ in millions	September 30, 2015		Total Backlog	December 31, 2014
	Funded	Unfunded		Total Backlog
Aerospace Systems	\$8,742	\$8,999	\$17,741	\$20,063
Electronic Systems	7,471	2,101	9,572	9,715
Information Systems	3,185	2,794	5,979	6,115
Technical Services	2,393	205	2,598	2,306
Total backlog	\$21,791	\$14,099	\$35,890	\$38,199

New Awards

The estimated value of contract awards recorded during the nine months ended September 30, 2015 was \$15.5 billion. New awards during this period include \$1.1 billion for the F-35 program, \$791 million for the Saudi Arabian Ministry of National Guard Training Support program (through our interest in a joint venture for which we consolidate the financial results), \$589 million for the E-2D Advanced Hawkeye program, \$389 million for the Global Hawk program

and \$341 million for the F/A-18 program.

-24-

Table of Contents

NORTHROP GRUMMAN CORPORATION

Subsequent Event

On October 27, 2015, the U.S. Air Force announced it was awarding us a contract for Engineering and Manufacturing Development and early production for the Long Range Strike Bomber (LRS-B). The time period within which the unsuccessful offeror could file a protest and trigger an automatic stay of contract performance has not yet expired. The LRS-B award is not included in third quarter 2015 new awards or backlog.

LIQUIDITY AND CAPITAL RESOURCES

We endeavor to ensure the most efficient conversion of operating income into cash for deployment in our business and to maximize shareholder value. In addition to our cash position, we use various financial measures to assist in capital deployment decision-making, including cash provided by operating activities, free cash flow, net debt-to-equity and net debt-to-capital. We believe these measures are useful to investors in assessing our financial performance and condition.

In February 2015, the company issued \$600 million of unsecured senior notes due April 15, 2045 with a fixed interest rate of 3.85 percent (the Notes). Interest on the Notes is payable semi-annually in arrears. The Notes are subject to redemption at the company's discretion at any time, or from time to time, prior to maturity in whole or in part at the greater of the principal amount of the Notes or an applicable "make-whole" amount, plus accrued and unpaid interest. We are using the net proceeds from this offering for general corporate purposes, including the funding of a \$500 million voluntary contribution to our pension plans in the first quarter of 2015 and debt repayment.

In July 2015, the company amended its \$1.8 billion five-year credit facility dated August 29, 2013 by reducing the aggregate principal amount available under the facility to \$1.6 billion and extending the maturity to July 2020 (2015 Credit Agreement). The 2015 Credit Agreement contains generally customary terms and conditions. At September 30, 2015, the company was in compliance with all covenants under the 2015 Credit Agreement and there was no balance outstanding.

In October 2015, the company completed its previously announced goal of repurchasing 60 million shares of common stock by the end of 2015.

Cash balances and cash generated from operating activities, supplemented by borrowings under credit facilities and/or in the capital markets, if needed, are expected to be sufficient to fund our operations for at least the next 12 months.

The table below summarizes key components of cash from operating activities:

\$ in millions	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Net earnings	\$516	\$473	\$1,531	\$1,563
Non-cash items ⁽¹⁾	157	201	453	416
Changes in assets and liabilities:				
Trade working capital	(152) 287	(1,121) (831
Retiree benefits	60	(3) (318) 5
Other, net	(24) (25) (16) (50
Net cash provided by operating activities	\$557	\$933	\$529	\$1,103

⁽¹⁾ Includes depreciation and amortization, stock-based compensation (including related excess tax benefits) and deferred income taxes

Free Cash Flow

Free cash flow is defined as cash from operating activities less capital expenditures. We believe free cash flow is a useful measure for investors to consider as it represents the cash flow the company has available after capital spending to invest for future growth, strengthen the balance sheet and/or return to shareholders through dividends and share repurchases. Free cash flow is a key factor in our planning for and consideration of strategic acquisitions, the payment of dividends and stock repurchases.

Free cash flow is not a measure of financial performance under GAAP, and may not be defined and calculated by other companies in the same manner. This measure should not be considered in isolation, as a measure of residual

Table of Contents

NORTHROP GRUMMAN CORPORATION

cash flow available for discretionary purposes, or as an alternative to operating results presented in accordance with GAAP as indicators of performance.

The table below reconciles cash from operating activities to free cash flow from operations:

\$ in millions	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2015	2014	2015	2014
Net cash provided by operating activities	\$557	\$933	\$529	\$1,103
Less: capital expenditures	(102)	(109)	(334)	(285)
Free cash flow	\$455	\$824	\$195	\$818

Current Quarter

Free cash flow for the three months ended September 30, 2015, decreased \$369 million, as compared to the same period in 2014, principally due to changes in trade working capital.

Year to Date

Free cash flow for the nine months ended September 30, 2015, decreased \$623 million, as compared to the same period in 2014, principally driven by a \$500 million voluntary pre-tax pension contribution, changes in trade working capital and higher capital expenditures.

CRITICAL ACCOUNTING POLICIES, ESTIMATES AND JUDGMENTS

There have been no material changes to our critical accounting policies, estimates or judgments from those discussed in our 2014 Annual Report on Form 10-K.

ACCOUNTING STANDARDS UPDATES

See Note 1 to our unaudited condensed consolidated financial statements in Part I, Item 1.

FORWARD-LOOKING STATEMENTS AND PROJECTIONS

This Form 10-Q and the information we are incorporating by reference contains statements, other than statements of historical fact, that constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as “expect,” “intend,” “may,” “could,” “plan,” “project,” “forecast,” “believe,” “estimate,” “anticipate,” “trends,” “goals,” and similar expressions generally identify these forward-looking statements.

Forward-looking statements include, among other things, statements relating to our future financial condition, results of operations and cash flows. Forward-looking statements are based upon assumptions, expectations, plans and projections that we believe to be reasonable when made, but which may change over time. These statements are not guarantees of future performance and inherently involve a wide range of risks and uncertainties that are difficult to predict. Specific risks that could cause actual results to differ materially from those expressed or implied in these forward-looking statements include, but are not limited to, those identified and discussed more fully in the section entitled “Risk Factors” in our 2014 Annual Report on Form 10-K. They include:

- our dependence on a single customer, the U.S. Government
- delays or reductions in appropriations for our programs and U.S. Government funding
- investigations, claims and/or litigation
- our international business
- the improper conduct of employees, agents, business partners or joint ventures in which we participate
- the use of accounting estimates for our contracts
- cyber and other security threats or disruptions
- changes in actuarial assumptions associated with our pension and other post-retirement benefit plans
- the performance and financial viability of our suppliers and the availability and pricing of raw materials and components
- competition within our markets

Table of Contents

NORTHROP GRUMMAN CORPORATION

- changes in procurement and other laws and regulations applicable to our industry
- natural and/or environmental disasters
 - the adequacy of our insurance coverage, customer indemnifications or other liability protections
- the products and services we provide related to nuclear operations
- changes in business conditions that could impact recorded goodwill or the value of other long-lived assets
- our ability to develop new products and technologies and maintain technologies, facilities, equipment and a qualified workforce
- our ability to meet performance obligations under our contracts
- unforeseen environmental costs
- our ability to protect our intellectual property rights
- changes in our tax provisions or exposure to additional tax liabilities
- the spin-off of our former Shipbuilding business

Additional information regarding these risks and other important factors can be found in the section entitled “Risk Factors” in our 2014 Annual Report on Form 10-K and as disclosed in this report and from time to time in our other filings with the SEC.

You are urged to consider the limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of forward-looking statements. These forward-looking statements speak only as of the date this report is first filed or, in the case of any document incorporated by reference, the date of that document. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

CONTRACTUAL OBLIGATIONS

Other than the debt issuance, including associated interest, described in Note 5 of Part I, Item 1, and the credit facility amendment described in Note 7 of Part I, Item 1, there have been no material changes to our contractual obligations from those discussed in our 2014 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to our market risks from those discussed in our 2014 Annual Report on Form 10-K.

Item 4. Controls and Procedures

DISCLOSURE CONTROLS AND PROCEDURES

Our principal executive officer (Chairman, Chief Executive Officer and President) and principal financial officer (Corporate Vice President and Chief Financial Officer) have evaluated the company’s disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act)) as of September 30, 2015, and have concluded that these controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. These disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit is accumulated and communicated to management, including the principal executive officer and the principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the three months ended September 30, 2015, no change occurred in our internal controls over financial reporting that materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We have provided information about certain legal proceedings in which we are involved in our 2014 Annual Report on Form 10-K, and updated that information in Note 6 to the unaudited condensed consolidated financial statements in Part I, Item 1 of this report.

We are a party to various investigations, lawsuits, claims and other legal proceedings, including government investigations and claims, that arise in the ordinary course of our business. These types of matters could result in fines; penalties; compensatory, treble or other damages; or non-monetary relief. U.S. Government regulations also provide that certain allegations against a contractor may lead to suspension or debarment from future U.S. Government contracts or suspension of export privileges for the company or one or more of its components. Suspension or debarment could have a material adverse effect on the company because of our reliance on government contracts and authorizations. The nature of legal proceedings is such that we cannot assure the outcome of any particular matter. However, based on information available to us to date and other than as noted in our 2014 Annual Report on Form 10-K, as updated by Note 6 to the unaudited condensed consolidated financial statements in this report, we do not believe that the outcome of any matter currently pending against the company is likely to have a material adverse effect on the company's unaudited condensed consolidated financial position as of September 30, 2015, its annual results of operations and/or cash flows. For further information on the risks we face from existing and future investigations, lawsuits, claims and other legal proceedings, please see Risk Factors in Part I, Item 1A of our 2014 Annual Report on Form 10-K.

Item 1A. Risk Factors

The following is an update to one of our risk factors described in our 2014 Annual Report on Form 10-K and should be read in conjunction with the risk factors therein. For a discussion of our risk factors please see the section entitled "Risk Factors" in our 2014 Annual Report on Form 10-K.

Significant delays or reductions in appropriations for our programs and U.S. Government funding more broadly may negatively impact our business and programs and could have a material adverse effect on our financial position, results of operations or cash flows.

U.S. Government programs are subject to annual congressional budget authorization and appropriation processes. For many programs, Congress appropriates funds on a fiscal year basis even though the program performance period may extend over several years. Consequently, programs are often partially funded initially and additional funds are committed only as Congress makes further appropriations. If we incur costs in excess of funds obligated on a contract, we may be at risk for reimbursement of those costs unless and until additional funds are obligated to the contract. We cannot predict the extent to which total funding and/or funding for individual programs will be included, increased or reduced as part of the annual budget process ultimately approved by Congress or in separate supplemental appropriations or continuing resolutions, as applicable. Plans adopted by the U.S. Government, along with pressures on, and uncertainty surrounding, the federal budget, sequestration, the appropriations process, use of continuing resolutions (with restrictions, e.g., on new starts) and the permissible federal debt limit, could adversely affect the funding for individual programs and delay purchasing or payment decisions by our customers. In the event government funding for our significant programs becomes unavailable, or is reduced or delayed, our contract or subcontract under such programs may be terminated or adjusted by the U.S. Government or the prime contractor. The Temporary Debt Limit Extension Act suspended the statutory limit on the amount of permissible federal debt (the debt ceiling) until March 15, 2015. On March 16, 2015, the Treasury Department began taking "extraordinary measures" to finance the government. If the existing debt ceiling is not raised, we may be required to continue to perform for some period of time on certain of our U.S. Government contracts even if the U.S. Government is unable to make timely payments. An extended debt ceiling breach could negatively affect the U.S. Government's timely payment of our billings, resulting in delayed cash collection, and have significant consequences for our company, our employees, our suppliers and the defense industry.

On September 30, 2015 the President signed a continuing resolution which funds the government at FY 2015 levels until December 11, 2015. It is unclear when or if annual appropriations bills will be enacted for FY 2016. The U.S. Government may operate under a continuing resolution for all of FY 2016, restricting new contract or program starts for that year and we may face a government shutdown of unknown duration.

The budget environment, including sequestration as currently mandated, and uncertainty surrounding the appropriations processes, remain significant long-term risks. Considerable uncertainty exists regarding how future budget and program decisions will unfold and what challenges budget reductions will present for the defense

Table of Contents

NORTHROP GRUMMAN CORPORATION

industry. We believe continued budget pressures will have serious negative consequences for the security of our country, the defense industrial base, including Northrop Grumman, and the customers, employees, suppliers, investors, and communities that rely on companies in the defense industrial base. Members of Congress continue to discuss various options to address sequestration in future budget planning, but we cannot predict the outcome of these efforts. It is likely budget and program decisions made in this environment will have long-term implications for our company and the entire defense industry.

Long term funding for certain programs in which we participate may be reduced, delayed or cancelled. In addition, budget cuts could adversely affect the viability of our subcontractors and suppliers, and our employee base. While we believe that our business is well-positioned in areas that the Department of Defense (DoD) has indicated are areas of focus for future defense spending, the long-term impact of the Budget Control Act, other defense spending cuts, and the ongoing fiscal debates remain uncertain.

Significant delays or reductions in appropriations, long term funding under a continuing resolution, an extended debt ceiling breach or government shutdown, and/or future budget and program decisions may negatively impact our business and programs and could have a material adverse effect on our financial position, results of operations and/or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities – The table below summarizes our repurchases of common stock during the three months ended September 30, 2015:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share ⁽²⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased under the Plans or Programs (\$ in millions)
July	1,781,400	\$166.35	1,781,400	\$1,206
August	1,622,650	169.57	1,622,650	930
September	2,245,529	165.97	2,245,529	4,558
Total	5,649,579	\$167.12	5,649,579	\$4,558

On December 4, 2014, the company's board of directors authorized a share repurchase program of up to \$3.0 billion of the company's common stock (2014 Repurchase Program). Repurchases under the 2014 Repurchase Program commenced in March 2015. As of September 30, 2015, repurchases under the 2014 Repurchase Program totaled \$2.4 billion and \$0.6 billion remained under this share repurchase authorization. By its terms, the 2014 Repurchase Program will expire when we have used all authorized funds for repurchases.

On September 16, 2015, the company's board of directors authorized a new share repurchase program of up to \$4.0 billion of the company's common stock (2015 Repurchase Program). By its terms, repurchases under the 2015 Repurchase Program will commence upon completion of the 2014 Repurchase Program and will expire when we have used all authorized funds for repurchases.

(2)Includes commissions paid.

Share repurchases take place from time to time, subject to market conditions and management's discretion, in the open market or in privately negotiated transactions. The company retires its common stock upon repurchase and has not made any purchases of common stock other than in connection with these publicly announced repurchase programs.
