Form 10-Q
October 31, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934
For the Quarterly Period Ended September 30, 2014
 Transition Report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934
For the Transition Period from _____ to _____.

Commission File No. 001-32632

UROPLASTY, INC.
(Exact name of registrant as specified in its Charter)

Minnesota, U.S.A. 41-1719250
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

5420 Feltl Road
Minnetonka, Minnesota, 55343
(Address of principal executive offices)

(952) 426-6140
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)
YES NO

As of September 30, 2014 the registrant had 22,131,518 shares of common stock outstanding.

UROPLASTY, INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

We have prepared our Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, have been condensed or omitted, pursuant to such rules and regulations, although we believe that our disclosures are adequate to make the information not misleading. The consolidated results of operations for any interim period are not necessarily indicative of results for a full year. These Condensed Consolidated Financial Statements, presented herein, should be read in conjunction with the audited consolidated financial statements and related notes included in our annual report on Form 10-K for the year ended March 31, 2014.

The Condensed Consolidated Financial Statements presented herein as of September 30, 2014 and March 31, 2014 and for the three- and six- month periods ended September 30, 2014 and 2013 reflect, in the opinion of management, all material adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the consolidated financial position, results of operations and cash flows for the interim periods.

We have identified certain accounting policies that we consider particularly important for the portrayal of our results of operations and financial position and which may require the application of a higher level of judgment by our management, and as a result are subject to an inherent level of uncertainty. These are characterized as “critical accounting policies” and address revenue recognition, accounts receivable, inventories, foreign currency translation and transactions, impairment of long-lived assets, share-based compensation, defined benefit pension plans and income taxes, each of which is described in our annual report on Form 10-K for the year ended March 31, 2014. Based upon our review, we have determined that these policies remain our most critical accounting policies for the six months ended September 30, 2014 and we have made no changes to these policies during fiscal 2015.

2. Newly Adopted Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2013-11, “Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists.” ASU No. 2013-11 provides financial statement presentation guidance on whether an unrecognized tax benefit must be presented as either a reduction to a deferred tax asset or separately as a liability. We adopted ASU No. 2013-11 on April 1, 2014 and the adoption of this update did not have a material impact on our financial statements.

In April 2014, the FASB issued ASU No. 2014-08, “Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity.” The amendments in this ASU change the criteria for reporting discontinued operations while enhancing disclosures in this area. It also addresses sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in GAAP. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations.

The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. This disclosure will provide users with information about the ongoing trends in a reporting organization's results from continuing operations. The amendments in ASU No. 2014-08 are effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2014. We do not believe the adoption of this update will have a material impact on our financial statements.

In May 2014, the FASB has issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." The guidance in this update supersedes the revenue recognition requirements in Topic 605, "Revenue Recognition." In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (for example, assets within the scope of Topic 360, Property, Plant, and Equipment, and intangible assets within the scope of Topic 350, Intangibles—Goodwill and Other) are amended to be consistent with the guidance on recognition and measurement (including the constraint on revenue) in this update. Under the new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in ASU No. 2014-09 are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. We do not believe the adoption of this update will have a material impact on our financial statements.

Index

3. Fair Value Measurements

Estimates of fair value for financial assets and liabilities are based on the framework established in the accounting guidance for fair value measurements. The framework defines fair value, provides guidance for measuring fair value and requires certain disclosures. The framework prioritizes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following three broad levels of inputs may be used to measure fair value under the fair value hierarchy:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Significant unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

If the inputs used to measure the financial assets and liabilities fall within more than one of the different levels described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The following table provides the assets carried at fair value measured on a recurring basis.

Asset Class	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
September 30, 2014				
Short-term investments:				
U.S. Government and Agency debt securities	\$-	\$ -	\$-	\$ -
March 31, 2014				
Short-term investments:				
U.S. Government and Agency debt securities	3,451,000	-	3,451,000	-

U.S. Government and U.S. Government Agency debt securities. Our debt securities consist of bonds, notes and treasury bills with risk ratings of AAA/Aaa and maturity dates within two years from date of purchase. The estimated fair value of these securities is based on valuations provided by external investment managers.

The carrying amounts reported in the Condensed Consolidated Balance Sheets for cash and cash equivalents, accounts receivable, inventories, other current assets, accounts payable and accrued liabilities approximate fair market value.

4. Accounts Receivable

The allowance for doubtful accounts and sales returns was \$35,000 at September 30, 2014 and \$44,000 at March 31, 2014.

Page 10

Index

5. Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market (net realizable value). Inventories consist of the following:

	September 30, 2014	March 31, 2014
Raw materials	\$ 128,000	\$ 136,000
Work-in-process	17,000	25,000
Finished goods	381,000	356,000
	\$ 526,000	\$ 517,000

6. Net Loss per Common Share

The following potentially dilutive options to purchase shares of common stock and unvested restricted common stock at September 30 were excluded from diluted net loss per common share because of their anti-dilutive effect, and therefore, basic net loss per common share equals diluted net loss per common share for all periods presented in our Condensed Consolidated Statements of Operations:

	Number of options and unvested restricted stock	Range of stock option exercise prices
September 30, 2014	1,506,739	\$2.06 to \$2.50
September 30, 2013	1,802,564	\$0.77 to \$3.25

7. Share-based Compensation

As of September 30, 2014, we had one active plan for share-based compensation grants. Under the 2006 Amended Stock and Incentive Plan, if we have a change in control, all outstanding grants, including those subject to vesting or other performance targets, fully vest immediately. Under the plan, we reserved 3,450,000 shares of our common stock for share-based grants. As of September 30, 2014, we had 360,531 shares remaining that were available for grant.

We recognize share-based compensation expense in our Condensed Consolidated Statement of Operations based on the fair value at the time of grant of the share-based payment over the requisite service period. We incurred approximately \$661,000 and \$921,000 in share-based compensation expense for the six months ended September 30, 2014 and 2013, respectively.

As of September 30, 2014, we had approximately \$1,161,000 of unrecognized share-based compensation expense, net of estimated forfeitures, related to stock options that we expect to recognize over a weighted-average period of 1.9 years. We also had \$1,353,000 of unrecognized share-based compensation expense, net of estimated forfeitures, related to restricted shares that we expect to recognize over a weighted-average period of 2.2 years.

Options. We grant option awards with an exercise price equal to the closing market price of our stock at the date of the grant. Options granted under this plan generally expire over a period ranging from five to seven years from date of grant and vest at varying rates ranging up to three years.

We determined the fair value of our option awards using the Black-Scholes option pricing model. We used the following weighted-average assumptions to value the options granted during the six months ended September 30:

Page 11

Index

	2014	2013
Expected life in years	2.81	4.51
Risk-free interest rate	1.0 %	1.35 %
Expected volatility	66.41 %	89.43 %
Expected dividend yield	0 %	0 %
Weighted-average grant date fair value	\$1.21	\$1.65

The expected life selected for options granted during the six-months represents the period of time that we expect our options to be outstanding based on management's expectation of option holder exercise and termination behavior for similar grants. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury rate over the expected life at the time of grant. Expected volatilities are based upon historical volatility of our stock. We estimate the forfeiture rate for stock awards to be approximately zero percent for executive employees and directors and approximately 18% for non-executive employees based on our historical experience.

The following table summarizes the activity related to our stock options during the six months ended September 30, 2014:

	Number of shares	Weighted average exercise price	Weighted average remaining life in years	Aggregate intrinsic value
Outstanding at March 31, 2014	2,328,043	\$ 3.39	3.85	\$1,781,415
Options granted	131,300	2.98		
Options exercised	(85,000)	0.80		
Options surrendered	(163,018)	5.02		
Outstanding at September 30, 2014	2,211,325	\$ 3.34	3.75	\$117,780
Exercisable at September 30, 2014	1,402,997	\$ 3.74	2.50	\$39,994

The total fair value of stock options that vested during the six months ended September 30, 2014 and 2013 was \$620,000 and \$315,000, respectively.

Restricted Stock. Our 2006 Stock and Incentive Plan also permits our Compensation Committee to grant other stock-based benefits, including restricted shares. Restricted shares are subject to risk of forfeiture for termination of employment. The forfeiture risk generally lapses over a period of three to four years.

The following table summarizes the activity related to our restricted shares during the six months ended September 30, 2014:

	Number of Shares	Weighted average grant date fair value	Weighted average remaining life in years	Aggregate intrinsic value
Balance at March 31, 2014	146,262	\$ 3.38	2.23	\$540,000
Shares granted	405,625	3.25		

Edgar Filing: UROPLASTY INC - Form 10-Q

Shares vested	(50,436)	3.57		
Shares forfeited	(9,212)	3.94		
Balance at September 30, 2014	492,239	\$ 3.24	2.20	\$1,230,598

Page 12

Index

The aggregate intrinsic value shown above for the restricted shares represents the total pre-tax value based on the closing price of our common stock on the grant date.

8. Savings and Retirement Plans

We sponsor various retirement plans for eligible employees in the United States, the United Kingdom, and The Netherlands. Our retirement savings plan in the United States conforms to Section 401(k) of the Internal Revenue Code and participation is available to substantially all employees. We may also make discretionary contributions ratably to all eligible employees. We made discretionary contributions to the U.S. plan of \$137,000 and \$113,000 for the six months ended September 30, 2014, and 2013, respectively.

Our international subsidiaries have defined benefit retirement plans for eligible employees. These plans provide benefits based on the employee's years of service and compensation during the years immediately preceding retirement, termination, disability, or death, as defined in the plans.

The cost for our defined benefit retirement plans in The Netherlands and the United Kingdom includes the following components for the three- and six-month periods ended September:

	Three Months Ended September 30		Six Months Ended September 30	
	2014	2013	2014	2013
Gross service cost	\$36,000	\$31,000	\$71,000	\$62,000
Interest cost	35,000	34,000	73,000	69,000
Expected return on assets	(27,000)	(20,000)	(54,000)	(40,000)
Amortization	1,000	2,000	2,000	3,000
Net periodic retirement cost	\$45,000	\$47,000	\$92,000	\$94,000

9. Business Segment Information

We aggregate our operating segments into one reportable segment in accordance with the objectives and principles of the applicable guidance.

Net sales to customers outside the United States for the three months ended September 30, 2014 and 2013 represented 24% and 25%, respectively, of our consolidated net sales. Net sales to customers outside the United States for the six months ended September 30, 2014 and 2013 represented 27% and 26%, respectively, of our consolidated net sales.

Information regarding net sales to customers by geographic area for the three and six months ended September 30 is as follows:

	United States	United Kingdom	All Other Foreign Countries (1)	Consolidated
Three months ended September 30, 2014	\$4,896,000	\$627,000	\$932,000	\$6,455,000
Three months ended September 30, 2013	\$4,478,000	\$575,000	\$924,000	\$5,977,000

Edgar Filing: UROPLASTY INC - Form 10-Q

Six months ended September 30, 2014	\$9,429,000	\$1,287,000	\$2,123,000	\$12,839,000
Six months ended September 30, 2013	\$8,763,000	\$1,122,000	\$1,933,000	\$11,818,000

(1)No other country accounts for 10% or more of the consolidated net sales.

Page 13

Index

Information regarding geographic area in which we maintain long-lived assets is as follows:

	United States	All Other Foreign Countries (1)	Consolidated
September 30, 2014	\$385,000	\$568,000	\$ 953,000
March 31, 2014	\$379,000	\$619,000	\$ 998,000

(1)Substantially all maintained in The Netherlands

Accounting policies of the operations in the various geographic areas are the same as those described in Note 1. Net sales attributed to each geographic area are net of intercompany sales. No single customer represents 10% or more of our consolidated net sales. Long-lived assets consist of property, plant and equipment.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We recommend that you read this quarterly report on Form 10-Q in conjunction with our annual report on Form 10-K for the year ended March 31, 2014.

Forward-looking Statements

This Form 10-Q contains “forward-looking statements” relating to projections, plans, objectives, estimates, and other statements of future economic performance. These forward-looking statements are subject to known and unknown risks and uncertainties relating to our future performance that may cause our actual results, performance, or achievements, or industry results, to differ materially from those expressed or implied in any such forward-looking statements. Our business operates in highly competitive markets and our ability to achieve the results implied by our forward looking statements is subject to changes in general economic conditions, competition, reimbursement levels, customer and market preferences, government regulation, the impact of tax regulation, foreign exchange rate fluctuations, the degree of market acceptance of products, the uncertainties of potential litigation, as well as other risks and uncertainties detailed elsewhere herein and in our annual report filed on Form 10-K for the year ended March 31, 2014.

We do not undertake, nor assume any obligation, to update any forward-looking statement that we may make from time to time.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with U.S. generally accepted accounting principles, or GAAP, which require us to make estimates and assumptions in certain circumstances that affect amounts reported. In preparing these consolidated financial statements, we have made our best estimates and judgments of certain amounts, giving due consideration to materiality.

We have identified in our annual report on Form 10-K for the year ended March 31, 2014, our “critical accounting policies,” which are certain accounting policies that we consider important to the portrayal of our results of operations and financial position and which may require the application of a higher level of judgment by our management, and as a result are subject to an inherent level of uncertainty. Management made no significant changes to our critical

accounting policies during the six months ended September 30, 2014.

Overview

We are a medical device company that develops, manufactures and markets innovative, proprietary products for the treatment of voiding dysfunctions. Our primary focus is on two products: the Urgent PC[®] Neuromodulation System (“Urgent PC System”), which we believe is the only commercially available Food and Drug Administration (“FDA”) cleared, minimally-invasive, neuromodulation system that delivers percutaneous tibial nerve stimulation (“PTNS”) for office-based treatment of overactive bladder (“OAB”) and the associated symptoms of urinary urgency, urinary frequency, and urge incontinence; and Macroplastique[®] Implants (“Macroplastique”), an injectable, urethral bulking agent for the treatment of adult female stress urinary incontinence primarily due to intrinsic sphincter deficiency (“ISD”). Our Urgent PC System has CE Mark for the treatment of OAB as well as the treatment of fecal incontinence. Macroplastique also has CE Mark for the treatment of adult female stress urinary incontinence as well as male stress incontinence, fecal incontinence, vocal cord rehabilitation and vesicoureteral reflux.

Page 14

Index

We believe physicians prefer our products because they offer effective therapies for patients that can be administered in office or outpatient surgical-based settings and, to the extent reimbursement is available, provide the physicians a profitable revenue stream. We believe patients prefer our products because they are minimally invasive treatment alternatives that do not have the side effects associated with pharmaceutical treatment options nor the higher adverse events associated with other alternate treatment options.

Our sales are and have been significantly influenced by the availability of third-party reimbursement for PTNS treatments. Effective January 2011, the American Medical Association (“AMA”) granted a Category 1 Current Procedural Terminology (“CPT”) code for PTNS treatments. As a result, we have continued to expand our U.S. field sales and support organization and as of September 30, 2014, we employed 43 sales representatives, 9 field based clinical support specialists and 6 Regional Sales Directors.

We have focused our efforts on expanding reimbursement coverage with Medicare carriers and private payers by instituting a comprehensive program to educate their medical directors regarding the clinical effectiveness, cost effectiveness and patient benefits of PTNS treatments using our Urgent PC System. Effective August 10, 2014, National Government Services (NGS), which represents 10 states with approximately 10 million covered lives, issued a positive coverage decision for PTNS for the treatment of urinary urgency, urinary frequency and urge incontinence. With this positive coverage decision, access to PTNS treatments is now available to all 50 million Medicare beneficiaries across the country. In addition, we estimate that private payers insuring approximately 133 million lives provide coverage for PTNS treatments.

We expect to continue to emphasize sales of our Urgent PC System in the United States and internationally. In fiscal 2014 and continuing in fiscal 2015, we implemented new sales strategies and refocused the sales organization. We will continue to emphasize generating greater patient and physician awareness of our Urgent PC System, and on training physicians in the proper use and clinical benefits of our Urgent PC System for OAB. As part of this process, we hired three additional clinical support specialists during fiscal 2015 and expect to hire three more in the second half of fiscal 2015. We have started to expand our call point beyond our historical focus on urologists. Specifically, we are expanding our call point to include gynecologists and urogynecologists as well as exploring opportunities in the senior living market as we look to accelerate the growth of our Urgent PC System. We do not expect to see significant growth in our Macroplastique business, because we believe it is a small, mature market that is more competitively penetrated than the market for OAB treatment using PTNS.

Another key focus in fiscal 2015 will be investments in research and development to build our product pipeline. Enrollment for our pilot clinical trial for fecal incontinence in the United States using our Urgent PC System is completed. We have been advised by the FDA that a pivotal trial using Urgent PC for fecal incontinence will need an endpoint of at least six months. Accordingly, we plan to evaluate six month outcomes data for all thirty patients enrolled in our U.S. fecal incontinence pilot study and also evaluate the six month outcomes from a large randomized trial – the CONFIDeNT study of percutaneous tibial nerve stimulation for fecal incontinence in the United Kingdom that is currently in progress. Based on this development, we will defer making a decision on whether or not we will invest in a U.S. pivotal study for fecal incontinence until we have had an opportunity to thoroughly review the six month data, which will be sometime in early calendar year 2015. We are also researching other potential indication expansions in the pelvic health area, as well as exploring opportunities to expand our product portfolio through business development activities. Our focus will be on capitalizing upon our leverage at the call point created by our strong distribution channel.

Results of Operations

Three and six months ended September 30, 2014 compared to three and six months ended September 30, 2013.

Net Sales: During the three months ended September 30, 2014, consolidated net sales of \$6,455,000 represented a \$478,000, or an 8% increase, over net sales of \$5,977,000 for the three months ended September 30, 2013. The increase in consolidated net sales for the three months ended September 30, 2014 was due to global sales growth of 17% of our Urgent PC System. During the six months ended September 30, 2014, consolidated net sales of \$12,839,000 represented a \$1,021,000, or a 9% increase, over net sales of \$11,818,000 for the six months ended September 30, 2013. The increase in consolidated net sales for the six months ended September 30, 2014 was due to global sales growth of 18% of our Urgent PC System.

Page 15

Index

Net sales in the U.S. of our Urgent PC System increased 16% to \$3,527,000 for the three months ended September 30, 2014, up from \$3,051,000 for the same period last year. Net sales to customers in the U.S. of our Urgent PC System were \$6,657,000 during the six months ended September 30, 2014, represented an increase of \$832,000, or 14%, over net sales of \$5,825,000 for the six months ended September 30, 2013. Net sales increased as a result of improved sales execution within the U.S. resulting in new account conversions, a higher number of active customers and higher utilization by our active customers.

Urgent PC System sales to customers outside of the U.S. were \$725,000 for the three months ended September 30, 2014, an increase of 28% from \$567,000 in the same period last year. Urgent PC System sales to customers outside of the U.S. were \$1,655,000 for the six months ended September 30, 2014, an increase of 39% from \$1,194,000 in the same period last year. The increase in sales is attributed to the increase in adoption of the product by our customers, primarily in markets where we sell to hospitals directly.

Global sales of our Macroplastique product declined 4%, or \$79,000, to \$1,924,000 for the three months ended September 30, 2014, and declined 4%, or \$174,000, to \$4,004,000 for the six months ended September 30, 2014. Net sales decreased as a result of continued focus on our Urgent PC System.

Net sales in the U.S. of our Macroplastique product decreased 1%, or \$15,000, to \$1,340,000 for the three months ended September 30, 2014, compared to \$1,355,000 for the three months ended September 30, 2013. Net sales in the U.S. of our Macroplastique product decreased 5%, or \$129,000, to \$2,714,000 for the six months ended September 30, 2014, compared to \$2,843,000 for the six months ended September 20, 2013. The sales decrease is attributed to the shift in sales focus from Macroplastique to Urgent PC.

Macroplastique sales to customers outside of the U.S. declined 10% to \$584,000 in the second fiscal quarter over the corresponding year ago period, and declined 3% to \$1,290,000 for the six months ended September 30, 2014, over the corresponding year ago period. The sales decrease is attributed primarily to the shift in sales focus from Macroplastique to Urgent PC.

Sales for our PTQ Implants, VOX Implants and our distributed products, which are sold internationally, decreased 19% to \$234,000 for the three months ended September 30, 2014, compared to \$288,000 for the three months ended September 30, 2013. The sales of these products declined 17% to \$426,000 for the six months ended September 30, 2014, compared to \$515,000 for the three months ended September 30, 2013.

Net sales to customers in the U.S. of \$4,897,000 during the three months ended September 30, 2014, represented an increase of \$419,000, or 9%, over net sales of \$4,478,000 for the three months ended September 30, 2013. Net sales to customers in the U.S. of \$9,429,000 during the six months ended September 30, 2014, represented an increase of \$666,000, or 8%, over net sales of \$8,763,000 for the six months ended September 30, 2013.

Net sales to customers outside the U.S. for the three months ended September 30, 2014 increased 4% to \$1,558,000, compared to \$1,499,000 for the three months ended September 30, 2013. Net sales to customers outside the U.S. for the six months ended September 30, 2014 increased 12% to \$3,410,000, compared to \$3,055,000 for the six months ended September 30, 2013.

Gross Profit: Gross profit was \$5,701,000, or 88.3% of net sales during the three months ended September 30, 2014, and \$5,235,000, or 87.6% of net sales for the three months ended September 30, 2013. Gross profit was \$11,295,000, or 88.0% of net sales during the six months ended September 30, 2014, and \$10,328,000, or 87.4% of net sales for the six months ended September 30, 2013. The increase in gross profit percentage for the three month period and the six month period ended September 30, 2014 is attributed primarily to the favorable product mix.

General and Administrative Expenses (G&A): G&A expenses of \$1,288,000 during the three months ended September 30, 2014, decreased \$1,103,000 from \$2,391,000 during the same period in 2013. In the three month period ended September 30, 2013 there were one-time charges for legal and accounting fees pertaining to the review of certain internal control issues and executive management changes. The decrease in G&A expenses were driven by a decrease in legal and accounting fees of \$375,000 and a decrease in personnel costs of \$728,000.

G&A expenses of \$2,866,000 during the six months ended September 30, 2014, decreased \$1,105,000 from \$3,971,000 during the same period in 2013. In the six month period ended September 30, 2013 there were one-time charges for legal and accounting fees pertaining to the review of certain internal control issues and executive management changes. The decrease in G&A expenses were driven by a decrease in legal and accounting fees of \$709,000 and personnel costs of \$396,000.

Page 16

Index

Research and Development Expenses (R&D): R&D expenses of \$651,000 during the three months ended September 30, 2014, increased \$222,000 from \$429,000 during the same period in 2013. The increase is attributed primarily to higher enrollments in human clinical studies and higher personnel costs.

R&D expenses of \$1,560,000 during the six months ended September 30, 2014, increased \$652,000 from \$908,000 during the same period in 2013. The increase is attributed primarily to higher enrollments in human clinical studies, higher personnel costs and severance expense.

Selling and Marketing Expenses (S&M): S&M expenses of \$4,819,000 during the three months ended September 30, 2014, increased \$496,000, from \$4,323,000, during the same period in 2013. The increase is attributed primarily to a \$554,000 increase in sales personnel costs, as forty-three sales territories were fully staffed as of September 30, 2014, versus thirty-nine territories staffed a year ago, as well as the addition of three clinical specialists in the second quarter of fiscal 2015.

S&M expenses of \$10,091,000 during the six months ended September 30, 2014, increased \$1,141,000, from \$8,950,000, during the same period in 2013. The increase is attributed primarily to a \$1,088,000 increase in sales personnel costs, as forty-three sales territories were fully staffed as of September 30, 2014, versus thirty-nine territories staffed a year ago, as well as the addition of three clinical specialists in the first half of fiscal 2015. Increased activity for conferences and training in the first half of fiscal 2015 as compared to the first half of fiscal 2014 also contributed to the increase.

Amortization of Intangibles: Amortization of intangibles was \$8,000 and \$8,000 for the three months ended September 30, 2014 and 2013, respectively. Amortization of intangibles was \$17,000 and \$15,000 for the six months ended September 30, 2014 and 2013, respectively.

Other Income (Expense): Other income (expense) includes interest income and foreign currency exchange gains and losses. Net other income was \$0 and \$4,000 for the three months ended September 30, 2014 and 2013, respectively. Net other income was \$4,000 and \$11,000 for the six months ended September 30, 2014 and 2013, respectively.

Income Tax Expense: During the three months ended September 30, 2014 and 2013, we recorded income tax expense of \$15,000 and \$16,000, respectively. During the six months ended September 30, 2014 and 2013, we recorded income tax expense of \$35,000 and \$31,000, respectively. Income tax expense is attributed to our European subsidiaries and to the payment of minimum taxes in the U.S.

Non-GAAP Financial Measures: The following table reconciles our operating loss calculated in accordance with GAAP in the U.S. to non-GAAP financial measures that exclude non-cash charges for share-based compensation, depreciation and amortization from gross profit, operating expenses and operating loss. The non-GAAP financial measures used by management and disclosed by us are not a substitute for, or superior to, financial measures and consolidated financial results calculated in accordance with GAAP, and you should carefully evaluate our reconciliations to non-GAAP. We may calculate our non-GAAP financial measures differently from similarly titled measures used by other companies. Therefore, our non-GAAP financial measures may not be comparable to those used by other companies. We have described the reconciliations of each of our non-GAAP financial measures described above to the most directly comparable GAAP financial measures.

We use these non-GAAP financial measures, and in particular non-GAAP operating loss, for internal managerial purposes because we believe such measures are one important indicator of the strength and the operating performance of our business. Analysts and investors frequently ask us for this information. We believe that they use these measures to evaluate the overall operating performance of companies in our industry, including as a means of comparing period-to-period results and as a means of evaluating our results with those of other companies.

Our non-GAAP operating loss during the three months ended September 30, 2014 and 2013 was approximately \$661,000 and \$917,000, respectively. The decrease in non-GAAP operating loss for the three months ended September 30, 2014 over the corresponding period a year ago is attributed to the increase in sales and gross profit percent, offset slightly by the increase in operating spending. Our non-GAAP operating loss during the six months ended September 30, 2014 and 2013 was essentially the same at \$2.4 million for both periods. The non-GAAP operating loss for the six months ended September 30, 2014 includes an increase in operating spending, offset by the increase in net sales and gross profit percent.

Liquidity and Capital Resources

Cash Flows.

At September 30, 2014, our cash and cash equivalents and short-term investments balances totaled \$9,540,000.

At September 30, 2014, we had working capital of approximately \$9,971,000.

For the six months ended September 30, 2014, we used \$2,476,000 of cash in operating activities, compared to \$2,243,000 of cash used during the six months ended September 30, 2013. We used this cash primarily to fund the operating loss, net of non-cash charges for depreciation, amortization of intangibles and share-based compensation, of \$2,439,000 during the six months ended September 30, 2014, and \$2,417,000 during the six months ended September 30, 2013.

During the six months ended September 30, 2014, and 2013, we generated \$3,450,000 and \$5,940,000, respectively, of net cash from the maturity of marketable securities.

For the six months ended September 30, 2014, we used \$128,000 to purchase property, plant and equipment compared with approximately \$209,000 for the same period a year ago. The decrease is related to the purchase of new computer equipment for our sales force which occurred in the first quarter of fiscal 2014.

Sources of Liquidity.

We believe the \$9,540,000 of cash and short-term investments we maintained at September 30, 2014, is adequate to meet our needs for the next twelve months, and depending upon our cash from operations and profitability, substantially longer.

Commitments and Contingencies.

We discuss our commitments and contingencies in our annual report on Form 10-K for the year ended March 31, 2014. Our operating lease commitments include a long-term lease with Liberty Property Limited Partnership for an 18,258 square foot facility for our U.S. headquarters located at 5420 Feltl Road, Minnetonka, Minnesota. The lease, which had an original expiration date of in April 2014, was amended in January 2014. The amended lease began on May 1, 2014, has a term of 62 months and requires average annual minimum lease payments of approximately \$154,000.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to our annual report on Form 10-K for the fiscal year ended March 31, 2014 for a complete discussion on our market risk. There has been no material changes in market risk during the fiscal quarter ended September 30, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures.

Under the supervision and with the participation of our management, including, our President and Chief Executive Officer and Chief Financial Officer (“CEO and CFO”), we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Securities Exchange Act of 1934 as amended (the “Exchange Act”). Based on this evaluation, our CEO and CFO concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in ensuring that the information required to

be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and that such information is accumulated and communicated to our management, including our CEO and CFO, in a manner that allows timely decisions regarding required disclosure.

Page 19

Changes In Internal Control Over Financial Reporting.

There were no changes in our internal control over financial reporting during the three months ended September 30, 2014 that have materially affected, or are reasonably likely to material affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not involved in any material active legal actions, however, from time to time may be subject to various pending or threatened legal actions and proceedings, including those that arise in the ordinary course of our business. Such matters are subject to many uncertainties and to outcomes that are not predictable with assurance and that may not be known for extended periods of time.

ITEM 1A. RISK FACTORS

We are affected by risks specific to us as well as factors that affect all businesses operating in a global market. The significant factors known to us that could materially adversely affect our business, financial condition, or operating results or could cause our actual results to differ materially from our anticipated results or other expectations, including those expressed in any forward-looking statement made in this report, are described in our annual report on Form 10-K (Item 1A. Risk Factors), for the fiscal year ended March 31, 2014. There has been no material change in those risk factors during the three months ended September 30, 2014.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURE

Not applicable.

ITEM 5. OTHER INFORMATION

As previously reported on a current report on Form 8-K dated October 15, 2014, the Board of Directors appointed Kenneth H. Paulus as a director. On October 30, 2014 and as a result of his appointment to the Board, the Board made a 14,475 share restricted stock grant to Mr. Paulus under the 2006 Amended Stock and Incentive Plan that will vest six months from the date of grant.
