Notes to Consolidated Financial Statements

(dollars in thousands, except where designated and per share data)

Note 1. Basis of Presentation:

Turning Point Brands, Inc. (formerly known as North Atlantic Holding Company, Inc.), (the “Company”) is a holding company which owns NATC Holding Company, Inc. (“NATC Holding”) and its subsidiaries and Turning Point Brands, LLC (“TPLL”) and its subsidiary, Intrepid Brands, LLC (“Intrepid”). Except where the context otherwise requires, references to the Company include the Company, NATC Holding and its subsidiary, North Atlantic Trading Company, Inc. (“NATC”) and its subsidiaries, National Tobacco Company, L.P. (“NTC”), North Atlantic Operating Company, Inc. (“NAOC”), North Atlantic Cigarette Company, Inc. (“NACC”), National Tobacco Finance Corporation (“NTFC”), Fred Stoker & Sons, Inc., RBJ Sales, Inc. and Stoker, Inc. (collectively, “Stoker”) and TPLL and Intrepid.

The accompanying interim condensed consolidated financial statements have been prepared in accordance with our accounting practices described in our audited consolidated financial statements as of and for the year ended December 31, 2015, and are unaudited. In the opinion of management, the unaudited interim condensed consolidated financial statements included herein contain all adjustments necessary to present fairly our financial position, results of operations and cash flows for the periods indicated. Such adjustments, other than nonrecurring adjustments that have been separately disclosed, are of a normal, recurring nature. The operating results for interim periods are not necessarily indicative of results to be expected for a full year of future interim periods. The unaudited interim condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and accompanying notes as of and for the year ended December 31, 2015. The accompanying interim condensed consolidated financial statements are presented in accordance with the rules and regulations of the Securities and Exchange Commission and, accordingly, do not include all the disclosures required by generally accepted accounting principles in the United States (“U.S. GAAP”) with respect to annual financial statements.

Note 2. Summary of Significant Accounting Policies:

Consolidation: The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned. All significant intercompany transactions have been eliminated.

Revenue Recognition: The Company recognizes revenues and the related costs upon delivery to the customer, at which time there is a transfer of title and risk of loss to the customer in accordance with the Financial Accounting Standards Board Accounting Standards Codification[®] (“ASC”) 605-10-S99. The Company classifies customer rebates as sales deductions in accordance with the requirements of ASC 605-50-25.

Shipping Costs: The Company records shipping costs incurred as a component of selling, general and administrative expenses. Shipping costs incurred were approximately \$1.5 million and \$1.8 million for the three months ended March 31, 2016 and 2015, respectively.

Master Settlement Agreement Escrow Account: Pursuant to the Master Settlement Agreement (the “MSA”) entered into in November 1998 by most states (represented by their attorneys general acting through the National Association of Attorneys General) and subsequent states’ statutes, a “cigarette manufacturer” (which is defined to include a manufacturer of make-your-own (“MYO”) cigarette tobacco) has the option of either becoming a signatory to the MSA or opening, funding, and maintaining an escrow account to have funds available for certain potential tobacco-related liabilities, with sub-accounts on behalf of each settling state. The Company has chosen to open and fund an escrow account as its method of compliance. It is the Company’s policy to record amounts on deposit in the escrow account for prior years as a non-current asset. Each year’s annual obligation is required to be deposited in the escrow account by April 15 of the following year. In addition to the annual deposit, many states have elected to require quarterly

deposits for the previous quarter's sales. As of March 31, 2016 and December 31, 2015, NATC had on deposit approximately \$31.9 million and \$31.8 million, respectively.

Recent Accounting Pronouncements Adopted:

The Company adopted ASU 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Cost in 2016. This ASU requires that debt issuance costs related to a recognized debt liability be presented as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Based on the requirements of this ASU, the Company has retrospectively applied ASU 2015-03 to the December 31, 2015 Consolidated Balance Sheet, which has resulted in \$6.3 million being reclassified to direct deduction of the carrying amount of the debt.

The Company adopted ASU 2015-17, Income Taxes (Topic 740): Balance sheet classification of deferred taxes in 2016. This ASU requires that deferred tax liabilities and assets be classified as noncurrent in a classified balance sheet. The Company has retrospectively applied ASU 2015-17 to the December 31, 2015 Consolidated Balance Sheet, which has resulted in \$0.4 million of deferred tax liabilities being reclassified to a noncurrent deferred tax liability.

Subsequent Events:

See Note 16. Subsequent Events for a description of these events.

Note 3. Fair Value of Financial Instruments:

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of ASC 825, Financial Instruments. The estimated fair value amounts have been determined by the Company using the methods and assumptions described below. However, considerable judgment is required to interpret market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Cash and Cash Equivalents: Cash and cash equivalents are by definition short-term and the carrying amount is a reasonable estimate of fair value.

Long-term Debt

On January 13, 2014, NATC entered into (i) a \$170 million First Lien Term Loan Credit Agreement among NATC, the Company, NATC Holding, a wholly owned subsidiary of the Company to which the Company transferred its ownership of all outstanding capital stock of NATC, and Wells Fargo Bank, National Association, as administrative agent (the "First Lien Credit Agreement"), (ii) a \$80 million Second Lien Term Loan Credit Agreement among NATC, the Company, NATC Holding and Wells Fargo Bank, National Association, as administrative agent (the "Second Lien Credit Agreement"), and (iii) a \$40 million ABL Credit Agreement among NATC, NATC Holding and Wells Fargo Bank, National Association, as ABL Agent (the "ABL Credit Agreement").

First Lien Credit Agreement

All of NATC's subsidiaries, as well as the Company and NATC Holding, are guarantors under the First Lien Credit Agreement. The First Lien Credit Agreement is secured by a first priority lien on substantially all of the assets of the borrowers and the guarantors (other than TPLLC) thereunder, including a pledge of the capital stock of NATC and its subsidiaries held by NATC Holding, NATC or any guarantor (other than TPLLC), other than certain excluded assets (the "Collateral"). The loans designated as LIBOR rate loans bear interest at LIBOR Rate then in effect (but not less than 1.25%) plus 6.50% and the loans designated as base rate loans bear interest at the (i) highest of (A) the Prime Rate, (B) the Federal Funds Rate plus 0.50%, (C) LIBOR for an interest period of one month plus 1.00% and (D) 2.25% per year plus (ii) 5.50%. The weighted average interest rate at March 31, 2016 was 7.78%. The First Lien Credit Agreement matures in January 2020.

Table of Contents

The First Lien Credit Agreement contains customary representations and warranties, events of default, affirmative covenants and negative covenants, which impose restrictions on, among other things, the ability of NATC and its subsidiaries to make investments, pay dividends, sell assets, and incur debt and additional liens. In addition, the First Lien Credit Agreement requires NATC to maintain a total leverage ratio as follows:

Period	Maximum Ratio
Closing Date through March 31, 2015	6.50 to 1.00
April 1, 2015 through September 30, 2016	6.25 to 1.00
October 1, 2016 through September 30, 2017	6.00 to 1.00
October 1, 2017 through September 30, 2018	5.75 to 1.00
October 1, 2018 and thereafter	5.50 to 1.00

NATC is required to make prepayments under the First Lien Credit Agreement upon the occurrence of certain events, including sales of certain assets, casualty events and the incurrence of additional indebtedness, subject to certain exceptions and reinvestment rights. NATC made a prepayment of approximately \$2.7 million during the first quarter of 2016.

Second Lien Credit Agreement

The Second Lien Credit Agreement has the benefit of a second priority security interest in the Collateral and is guaranteed by the same entities as the First Lien Credit Agreement. The Second Lien Credit Agreement, contains substantially similar representations and warranties, events of default and covenants as the First Lien Credit Agreement; provided, however, that the total leverage ratio required to be maintained by NATC under the Second Lien Credit Agreement is as follows:

Period	Maximum Ratio
Closing Date through March 31, 2015	6.75 to 1.00
April 1, 2015 through September 30, 2016	6.50 to 1.00
October 1, 2016 through September 30, 2017	6.25 to 1.00
October 1, 2017 through September 30, 2018	6.00 to 1.00
October 1, 2018 and thereafter	5.75 to 1.00

Under the Second Lien Credit Agreement the loans designated as LIBOR rate loans bear interest at a rate of at LIBOR Rate then in effect (but not less than 1.25%) plus 10.25% and the loans designated as base rate loans bear interest at (i) highest of (A) the Prime Rate, (B) the Federal Funds Rate plus 0.50%, (C) LIBOR for an interest period of one month plus 1.00% and (D) 2.25% per year plus (ii) 9.25%. The weighted average interest rate at March 31, 2016 was 11.5%. The Second Lien Credit Agreement matures in July 2020. In connection with the Company's initial public offering ("IPO) in May 2016, the Company prepaid \$20 million of the borrowings under the Second Lien Credit Agreement. See Note 16. Subsequent Events.

Table of Contents

ABL Credit Agreement

The ABL Credit Agreement provides for aggregate commitments of up to \$40 million, subject to a borrowing base, which is calculated as the sum of (i) 85% of eligible accounts receivable, plus (ii) the lesser of (A) the product of 70% multiplied by the value of eligible inventory and (B) the product of 85% multiplied by the net recovery percentage identified in the most recent inventory appraisal multiplied by the value of eligible inventory, plus (iii) the lesser of (A) the product of 75% multiplied by the value of eligible inventory and (B) the product of 85% multiplied by the net recovery percentage identified in the most recent inventory appraisal multiplied by the value of the eligible finished goods inventory, minus (iv) the aggregate amount of reserves established by the administrative agent.

The interest rates per annum applicable to loans under the ABL Credit Agreement are, at the option of NATC, equal to the applicable Base Rate or LIBOR Rate plus the applicable Interest Margin, as defined below:

Pricing Level	Average Excess Availability	Applicable Margin for Base Rate Loans (the “Base Rate Margin”)	Applicable Margin for LIBOR Rate Loans (the “LIBOR Rate Margin”)
I	> \$30,000,000	1.25%	2.25%
II	< \$30,000,000 but > \$15,000,000	1.50%	2.50%
III	< \$15,000,000	1.75%	2.75%

The ABL Credit Agreement matures in January 2019 and the balance outstanding at March 31, 2016 was \$1.0 million. The weighted average interest rate at March 31, 2016 was 5.00%.

PIK Toggle Notes

On January 13, 2014, the Company issued PIK Toggle Notes (“PIK Toggle Notes”) to Standard General Master Fund, L.P. After adjustment for the stock split effected in connection with our IPO of 10.43174381 to 1, the warrants have been adjusted to provide for the purchase of 442,558 of the Company’s common stock. The PIK Toggle Notes contains covenants which limit the ability of the Company to enter into transactions with affiliates and make dividends or other distributions or repurchase capital stock. The PIK Toggle Notes are unsecured and do not limit the Company’s ability to incur additional debt or liens.

In connection with the IPO, in May of 2016 the Company repurchased all of the outstanding PIK Toggle Notes in exchange for a combination of cash and shares of our common stock. See Note 16. Subsequent Events.

Restricted / Non-Restricted Condensed Consolidating Financial Statements

The payment of principal and interest on the First Lien Term Loan, Second Lien Term Loan and ABL are guaranteed by or obligations of NATC and its subsidiaries ("Issuer/Restricted"). TPLLC and its subsidiary ("Non-Restricted") are not guarantors of the First Lien Term Loan, Second Lien Term Loan and ABL. The separate financial statements of the Issuer/Restricted are not included herein because the Issuer/Restricted are the Company's wholly-owned consolidated subsidiaries and are jointly, severally, fully and unconditionally liable for the obligations represented by the First Lien Term Loan, Second Lien Term Loan and ABL. The Company believes that the consolidating financial information for the Issuer/Restricted and the Non-Restricted provide information that is more meaningful in understanding the financial position of the Issuer/Restricted than separate financial statements of the Issuer/Restricted.

The following consolidating financial information presents consolidating financial data for the Issuer/Restricted, Non-Restricted and an elimination column for adjustments to arrive at the information for the Company on a consolidated basis as of March 31, 2016 and December 31, 2015 and for the three months ended March 31, 2016 and 2015. The principal elimination entries set forth below eliminate investments in subsidiaries and intercompany balances and transactions.

Note 8. Income Taxes:

The Company has determined, that at March 31, 2016, its ability to realize future benefits of certain net deferred tax assets does not meet the “more likely than not” criteria in ASC 740, Income Taxes; therefore, a valuation allowance has been recorded. The Company’s income tax expense for the three months ended March 31, 2016 does not bear the normal relationship to income before income taxes because of net operating loss carryforwards that were utilized and were partially offset by certain minimum state income taxes. The Company’s income tax expense for the three months ended March 31, 2015 does not bear the normal relationship to income before income taxes because of net operating loss carryforwards which were utilized.

The Company follows the provisions of ASC 740-10-25, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. The Company has determined that they did not have any uncertain tax positions requiring recognition under the provisions of ASC 740-10-25. The Company’s policy is to recognize interest and penalties accrued on uncertain tax positions, if any, as part of interest expense. The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. In general, the Company is no longer subject to U.S. federal and state tax examinations for years prior to 2012.

Note 9. Pension and Postretirement Benefit Plans:

The components of Net Periodic Benefit Cost for the three months ended March 31, 2016 and 2015 are as follows:

NATC has a defined benefit pension plan covering its employees. Benefits for the hourly employees are based on a stated benefit per year of service, reduced by amounts earned in a previous plan. Benefits for salaried employees are based on years of service and the employees’ final compensation. This defined benefit plan is frozen.

NATC sponsored a defined benefit postretirement plan that covered hourly employees. This plan provides medical and dental benefits. This plan is contributory, with retiree contributions adjusted annually.

NATC expects to contribute approximately \$0.3 million to its postretirement plan in 2016 for the payment of benefits. Plan contributions and benefits have amounted to \$80 and \$83 for the three months ended March 31, 2016 and 2015, respectively. NATC expects to make no contributions to the pension plan in the year ending December 31, 2016.

Note 10. Share Incentive Plans:

On February 8, 2006, the Board of Directors of the Company adopted the North Atlantic Holding Company, Inc. 2006 Equity Incentive Plan (the “2006 Plan”) and approved a form of Restricted Stock Award Agreement (the “Form Award Agreement”) pursuant to which awards under the 2006 Plan may be granted to employees. The Form Award Agreement requires, as a condition of the award, that any and all stock options (vested or otherwise) previously

granted to these individuals will be immediately cancelled as of the date of the award. On March 15, 2006, the Board of Directors of the Company approved a form of Restricted Stock Award Agreement pursuant to which awards under the 2006 Plan may be granted to non-employee directors (the "Director Form Award Agreement"). The 2006 Plan provides for the granting of nonqualified stock options and restricted stock awards. Pursuant to the 2006 Plan, 2,654,910 shares of common stock of the Company are reserved for issuance as awards to employees, consultants and directors as compensation for past or future services or the attainment of certain performance goals. On August 7, 2014, the Board of Directors of the Company amended the 2006 Plan. The 2006 Plan shares were increased to a maximum of 3,651,110 shares that may be issued pursuant to awards under the 2006 Plan. In addition, the term of the 2006 Plan was extended an additional 10 years. The 2006 Plan was initially scheduled to terminate on August 6, 2026. Upon the adoption of the Company's 2015 Equity Incentive Plan in connection with the IPO (see Note 16. Subsequent Events) the Company determined that no additional grants would be made under the 2006 Plan, however all awards issued under the plan that have not been previously terminated or forfeited remain outstanding and continue unaffected. The Board of Directors of the Company may provide that awards under the 2006 Plan shall become vested in installments over a period of time or may specify that the attainment of certain performance measures will determine the degree of vesting, or a combination of both, as set forth in the applicable award agreements. Upon the occurrence of a change in control, the grantee shall be entitled to such consideration in respect of the outstanding shares subject to the 2006 Plan on the same terms and conditions as that provided to all other stockholders of the Company. As of March 31, 2016, 1,069,129 shares of restricted stock and 1,061,097 options have been granted to employees of NATC and 41,727 shares of restricted stock and 607,229 options have been granted to current and former non-employee directors of the Company under the 2006 Plan.

Forfeited	(388)	3.83	2.17
Outstanding, March 31, 2016	1,667,283	\$ 2.19	\$ 1.21

The total intrinsic value of options exercised and vested during the three months ended March 31, 2016 and 2015 was \$0 and \$7, respectively.

At March 31, 2016, the outstanding stock options' exercise price for 986,356 options is \$1.06 per share all of which are exercisable. The outstanding stock options' exercise price for 680,927 options is \$3.83 per share of which 628,984 options are exercisable. The weighted average of the remaining lives of the outstanding stock options is approximately 1.6 years for the options with the \$1.06 exercise price, and 6.5 years for the options with the \$3.83 exercise price. NATC estimates that the expected life of all stock options is ten years from the date of grant. For the \$1.06 per share options, the weighted average fair value of options was determined using the Black-Scholes model assuming a ten-year life from grant date; a current share price and exercise price of \$1.06; risk free interest rate of 4.366%; a volatility of 30%; and no assumed dividend yield. Based on these assumptions, the fair value of these options is approximately \$0.54 per share option granted. For the \$3.83 per share options, the weighted average fair value of options was determined using the Black-Scholes model assuming a ten-year life from grant date; a current share price and exercise price of \$3.83; risk-free interest rate of 3.57%; a volatility of 40%; and no assumed dividend yield. Based on these assumptions, the fair value of these options is approximately \$2.17 per share option granted.

The Company has recorded compensation expense related to the options based on the provisions of ASC 718 under which the fixed portion of such expense is determined as the fair value of the options on the date of grant and amortized over the vesting period. The Company recorded compensation expense of approximately \$12 and \$46 in the consolidated statements of income for the three months ended March 31, 2016 and 2015, respectively.

Effective August 7, 2014, the Company adopted the Intrepid Brands, LLC 2014 Option Plan (“2014 Plan”) for units of ownership in Intrepid. The purpose of the 2014 Plan is to promote the success and enhance the value of the Company by linking the personal interests of the service providers (including employees, consultants and managers) to those of Company equity holders and by providing such individuals with an incentive for outstanding performance to generate superior returns to Company equity holders. The 2014 Plan is further intended to provide flexibility to the Company in its ability to motivate, attract, and retain the services of employees, consultants and managers whose judgment, interest, and special effort the successful conduct of the Company's operation is largely dependent.

The Administration Committee shall determine the treatment to be afforded to a participant in the event of termination of employment for any reason including death, disability, or retirement. Forfeited	(3,990)	1.00	0.25

The Company recorded approximately \$29 in the statements of income for the three months ended March 31, 2015.

Table of Contents

In January of 2014, the Company issued warrants to purchase 11,000,000 units of membership interests in Intrepid (the "Intrepid Warrants") concurrent with the 7% Senior Notes (see Note 7). This represented 40% of the Intrepid Common Units outstanding on a fully diluted basis, at a purchase price of \$1.00 per unit. The warrants were exercisable beginning January 21, 2014 and they expire on December 31, 2023.

In connection with the IPO, in May of 2016 all outstanding Intrepid Warrants were repurchased for aggregate cash consideration of approximately \$5.5 million. See Note 16. Subsequent Events.

Note 12. Contingencies:

The Company is involved in various claims and actions that arise in the normal course of business. While the outcome of these legal proceedings cannot be predicted with certainty, it is the opinion of management that the resolution of the proceedings should not have a material adverse effect on the financial position, results of operations or cash flows of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion of the historical financial condition and results of operations in conjunction with our interim condensed consolidated financial statements and accompanying notes, which are included elsewhere in this Quarterly Report on Form 10-Q and with our annual consolidated financial statements and accompanying notes, which are included in our prospectus dated May 10, 2016, filed with the SEC in accordance with Rule 424(b) of the Securities Act on May 12, 2016 (the "Prospectus") and with the Risk Factors included in the Prospectus. In addition, this discussion includes forward-looking statements that are subject to risks and uncertainties that may result in actual results differing from statements we make. See "Cautionary Note Regarding Forward-Looking Statements." Factors that could cause actual results to differ include those risks and uncertainties that are discussed in "Risk Factors" in our Prospectus.

The following discussion relates to the interim unaudited financial statements of the Company included elsewhere in this Quarterly Report on Form 10-Q. In this discussion, unless the context requires otherwise, references to "our Company" "we," "our," or "us" refer to Turning Point Brands, Inc. and our consolidated subsidiaries. References to "TPB" refer to Turning Point Brands, Inc. without any of its subsidiaries. We were incorporated in 2004 under the name North Atlantic Holding Company, Inc. On November 4, 2015, we changed our name to Turning Point Brands, Inc. Many of the amounts and percentages in this discussion have been rounded for convenience of presentation.

Overview

We are a leading independent provider of Other Tobacco Products ("OTP") in the U.S. We sell a wide range of products across the OTP spectrum, including moist snuff, loose leaf chewing tobacco, premium cigarette papers, make-your-own ("MYO") cigar wraps and cigar smoking tobacco, cigars, liquid vapor products and tobacco vaporizer products. We do not sell cigarettes. We estimate that the OTP industry generated approximately \$10.0 billion in manufacturer revenue in 2014. In contrast to manufactured cigarettes, which have been experiencing declining sales for decades based on data published by the Alcohol and Tobacco Tax and Trade Bureau ("TTB"), the OTP industry is demonstrating increased consumer appeal. For instance, according to Management Science Incorporated ("MSAi"), OTP consumer units shipped to retail increased by approximately 2% from 2013 to 2014 and approximately 3% from 2014 to 2015.

Our portfolio of brands includes some of the most widely recognized names in the OTP industry, such as Zig-Zag[®], Beech-Nut[®], Stoker[®], Trophy[®], Havana Blossom[®], Durango[®], Our Pride[®] and Red Cap[™].

We generate revenues from the sale of our products primarily to wholesale distributors who in turn resell them to retail operations, as well as from the sale of our products directly to retail operations. Our net sales, which include federal excise taxes, consist of gross sales, net of cash discounts, returns, and selling and marketing allowances.

Our principal operating expenses include the cost of raw materials used to manufacture the limited number of our products which we manufacture; the cost of finished products, which are purchased goods; federal excise taxes; restructuring and impairment expenses; legal expenses and compensation expenses, including benefits and costs of salaried personnel. Our other principal expenses include interest expense and amortization of deferred financing costs and other expenses.

Recent Developments

On May 10, 2016, we priced the initial public offering (the "IPO") of our voting common stock. In the IPO, we sold 6,210,000 shares of our voting common stock (including 810,000 shares pursuant to the underwriters option to purchase additional shares to cover over-allotments (the "Over-allotment Option")) at a price per share of \$10.00. The IPO closed on May 13, 2016 and the sale of shares pursuant to the exercise of the Over-Allotment Option closed on

May 19, 2016.

The Company raised a total of approximately \$62.1 million in gross proceeds from the IPO, or \$58.2 million in net proceeds after deducting underwriting commissions and other associated costs. We used the proceeds from the IPO together with cash on hand to pay fees and expenses related to the IPO, repurchase outstanding warrants and options issued by our subsidiary, Intrepid Brands LLC (“Intrepid”), repay approximately \$34 million of our floating rate PIK Toggle Notes due 2021 (the “PIK Toggle Notes”) and to repay approximately \$20 million of the borrowings outstanding under our second lien credit facility.

In connection with the IPO, we exchanged (i) all of the PIK Toggle Notes that were not repaid in cash with a portion of the proceeds from the IPO for 3,168,438 shares of Common Stock and (ii) all of our outstanding 7% Senior Notes for 1,289,819 shares of our common stock.

As noted above, in connection with the IPO and related transactions we were able to significantly reduce our leverage. The following table provides outstanding balances under our debt facilities and instruments as of March 31, 2016 and also provides the outstanding balances under these facilities and instruments after giving effect to the IPO and related transactions:

• Our ability to further penetrate markets with our existing products;

• Our ability to introduce new products and product lines that complement our core business;

• Decreasing interest in tobacco products among consumers;

• Price sensitivity in our end-markets;

Marketing and promotional initiatives, which cause variability in our month-to-month results;

General economic conditions, including consumer access to disposable income;

Cost of complying with regulation, including newly passed “deeming regulations”;

Counterfeit and other illegal products in our end-markets; and

Currency fluctuations.

Table of Contents

There have been no material changes to our critical accounting policies and estimates from the information provided in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our Prospectus, dated May 10, 2016 related to the IPO.

Recent Accounting Pronouncements Adopted:

The Company adopted ASU 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Cost in 2016. This ASU requires that debt issuance costs related to a recognized debt liability be presented as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Based on the requirements of this ASU, the Company has retrospectively applied ASU 2015-03 to the December 31, 2015 Consolidated Balance Sheet which has resulted in \$6.3 million being reclassified to direct deduction of the carrying amount of the debt.

The Company adopted ASU 2015-17, Income Taxes (Topic 740): Balance sheet classification of deferred taxes in 2016. This ASU requires that deferred tax liabilities and assets be classified as noncurrent in a classified balance sheet. The Company has retrospectively applied ASU 2015-17 to the December 31, 2015 Consolidated Balance Sheet which has resulted in \$0.4 million of deferred tax liabilities being reclassified to a noncurrent deferred tax liability.

Comparison of Three Months Ended March 31, 2016 to the Three Months Ended March 31, 2015

Net Sales. Company net sales for the three months ended March 31, 2016 were \$49.9 million, a decrease of \$1.2 million or 2.4% from the corresponding period of the prior year. This decrease was caused by decreases in the Smoking Products and NewGen segments, partially offset by an increase in net sales in the Smokeless Products segment.

Net sales for the Smokeless Products segment for the current period increased \$0.8 million or 4.7% to \$18.3 million from the corresponding period of the prior year. For the 2016 first quarter, Smokeless case volume increased slightly, while the average of all our individual smokeless list prices per case increased slightly when compared to 2015.

Net sales for the Smoking Products segment decreased \$0.2 million or 0.7% to \$27.9 million compared to the corresponding period of the prior year. For the quarter, Smoking Product case volume decreased slightly, while the average of all our individual smoking list prices per case increased compared to the 2015 quarter.

Net sales of the NewGen Products segment decreased \$1.8 million or 33.6% to \$3.6 million in comparison to the corresponding period of the prior year. NewGen case volume for the 2016 quarter decreased, while the average of all our individual NewGen Products list prices per case increased slightly when compared to the 2015 quarter. Industry sales into traditional retail declined sharply as consumer migration to the vape shops and accessory shops continued.

Cost of Sales. For the three months ended March 31, 2016, cost of sales decreased to \$25.2 million from \$26.4 million for the three months ended March 31, 2015, a decrease of \$1.2 million, or 4.6%, principally due to a decrease in cost of sales in the Smoking Products segment and NewGen products segment, partially offset by increases in cost of sales in the Smokeless Products segments.

For the three months ended March 31, 2016, cost of sales in the Smokeless Products segment increased to \$9.1 million from \$8.6 million for the three months ended March 31, 2015, an increase of \$0.5 million, or 6.0%, principally due to an incremental increase in net sales of products with a higher manufacturing cost.

For the three months ended March 31, 2016, cost of sales in the Smoking Products segment decreased to \$13.6 million from \$14.4 million for the three months ended March 31, 2015, a decrease of \$0.8 million, or 5.6%, principally due to an incremental decrease in net sales of which there was a decrease in sales volume of cigarillos and MYO tobacco products, which have higher manufacturing costs than other products in the segment.

For the three months ended March 31, 2016, cost of sales in the NewGen products segment decreased to \$2.5 million from \$3.4 million for the three months ended March 31, 2015, a decrease of \$0.9 million, or 26.8%, principally due to a reduction in sales volume of vaporizers and e-cigarettes.

Gross Profit. Gross profit for the three months ended March 31, 2016 totaled \$24.6 million, which was flat in comparison to the corresponding period of the prior year. Gross margin improved from 48.3% in the corresponding period of the prior year to 49.4% in the three months ended March 31, 2016.

Gross profit of the Smokeless Products segment increased 3.4% or \$0.3 million to \$9.2 million compared to the corresponding period of the prior year. Gross margin for this segment decreased to 50.2% of net sales for the current period from 50.8% in the corresponding period of the prior year due primarily to the mix / shift from chewing tobacco to moist snuff tobacco products.

Gross profit of the Smoking Products segment gross profit increased \$0.6 million or 4.4% to \$14.3 million when compared to the corresponding period of the prior year. Gross margin of the Smoking Products segment increased to 51.3% of net sales for the current period in comparison to 48.8% for the corresponding period in 2015, principally as

the result of favorable mix / shifts within the segment. Promotional activity in the Cigarillo non-tipped HTL (homogenized tobacco leaf) market remained elevated with greater than 90% of all volumes sold carrying some type of price-off incentive.

Gross profit in the NewGen segment decreased \$0.9 million or 45.0% to \$1.1 million when compared to the corresponding period of the prior year. Gross margin of the NewGen segment decreased to 31.0% of net sales for the current period in comparison to 37.4% for the corresponding period of the prior year. The decrease in gross margin was primarily due to a mix shift within the segment to lower margin products.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses for the three months ended March 31, 2016 were \$13.7 million compared to \$12.7 million for the corresponding period of the prior year. The 8.4% increase for the three months ended March 31, 2016 was primarily the result of an increase in compensation associated with the salesforce expansion, incremental moist snuff tobacco merchandising and promotion, and legal expenses related to strategic initiatives and the IPO.

Table of Contents

Interest Expense and Financing Costs. Interest expense and financing costs for each of the three months ended March 31, 2016 and 2015 was \$8.5 million.

Income Tax Expense. The Company's income tax expense for the three months ended March 31, 2016 does not bear the normal relationship to income before income taxes because of net operating loss carryforwards which were utilized and were partially offset by certain minimum state income taxes. The Company's income tax expense for the three months ended March 31, 2015 does not bear the normal relationship to income before income taxes because of the use of income tax loss carryforwards.

Net Income. Due to the factors described above, net income for the three months ended March 31, 2016 and 2015 was \$2.2 million and \$3.4 million, respectively.

EBITDA and Adjusted EBITDA:

To supplement our financial information presented in accordance with generally accepted accounting principles in the United States, or U.S. GAAP, we use non-U.S. GAAP financial measures, including EBITDA and Adjusted EBITDA. We believe Adjusted EBITDA provides useful information to management and investors regarding certain financial and business trends relating to our financial condition and results of operations. Adjusted EBITDA is used by management to compare our performance to that of prior periods for trend analyses and planning purposes and is presented to our board of directors. We believe that EBITDA and Adjusted EBITDA are appropriate measures of operating performance because they eliminate the impact of expenses that do not relate to business performance.

In addition, our credit agreements contain financial covenants that use Adjusted EBITDA calculations.

We define "EBITDA" as net income before depreciation and amortization, interest expense and provision for income taxes. We define "Adjusted EBITDA" as net income before depreciation and amortization, interest expense, provision for income taxes, loss on extinguishment of debt, other non-cash items and other items that we do not consider ordinary course in our evaluation of ongoing operating performance.

Non-U.S. GAAP measures should not be considered a substitute for, or superior to, financial measures calculated in accordance with U.S. GAAP. Adjusted EBITDA excludes significant expenses that are required by U.S. GAAP to be recorded in our financial statements and is subject to inherent limitations. In addition, other companies in our industry may calculate this non-U.S. GAAP measure differently than we do or may not calculate it at all, limiting its usefulness as a comparative measure. The table below provides a reconciliation between net income and Adjusted EBITDA.

Long-Term Debt

The Company's long-term indebtedness currently consists of our ABL, First Lien Credit Agreement and Second Lien Credit Facility. In connection with the IPO we repurchased and retired all of our PIK Toggle Notes and 7% Senior Notes for a combination of cash and shares of our common stock. See "—Recent Developments." As of March 31, 2016, we were in compliance with the financial and restrictive covenants in our existing debt instruments. ABL Credit Agreement

The ABL Credit Agreement provides for aggregate commitments of up to \$40 million, subject to a borrowing base, equal to the sum of (i) 85% of eligible accounts receivable, plus (ii) the lesser of (A) the product of 70% multiplied by the value of eligible inventory and (B) the product of 85% multiplied by the net recovery percentage identified in the most recent inventory appraisal multiplied by the value of eligible inventory, plus (iii) the lesser of (A) the product of 75% multiplied by the value of eligible inventory and (B) the product of 85% multiplied by the net recovery percentage identified in the most recent inventory appraisal multiplied by the value of the eligible finished goods inventory, minus (iv) the aggregate amount of reserves established by the administrative agent.

The interest rates per annum applicable to loans under the ABL Credit Agreement are, at the option of North Atlantic Trading Company, Inc. ("NATC"), the borrower under the facility, equal to the applicable Base Rate or LIBOR Rate plus the applicable Interest Margin, as defined below in the ABL Credit Agreement.

The ABL Credit Agreement matures in January 2019 and the balance outstanding at March 31, 2016 was \$1.0 million. The weighted average interest rate on March 31, 2016 is 5.0%. As of March 31, 2016, we have the ability to borrow an additional \$22.9 million.

The Company is subject to financial covenants under the ABL Credit Agreement and is required to maintain a consolidated fixed charge coverage ratio of at least 1.10 to 1.00 for each applicable period. The Company is subject to similar negative and affirmative covenants, and events of default as the first lien and second lien term loans described below. As of March 31, 2016, we were in compliance with all such covenants.

Table of Contents

First Lien Term Loan

On January 13, 2014, we entered into the First Lien Credit Agreement with Wells Fargo Securities, LLC and Jefferies Finance LLC, as Joint Lead Arrangers and Joint Bookrunners, and Wells Fargo Bank, National Association as Administrative Agent for a \$170.0 million first lien term loan, which matures on January 13, 2020. NATC is the borrower and the first lien term loan is guaranteed by the Company and the Guarantors under the ABL.

The borrowings under the First Lien Credit Agreement are secured by a first priority lien on substantially all of the assets of the borrower and the guarantors of this facility (other than TPLLC), including a pledge of the capital stock of NATC and its subsidiaries held by Holdings, NATC or any Guarantor (other than Holdings), other than certain excluded assets. The aggregate outstanding amounts under the first lien term loan are paid in consecutive quarterly installments on the last business day of each March, June, September and December.

The loans designated as LIBOR rate loans bear interest at the LIBOR Rate then in effect (but not less than 1.25%) plus 6.50% and the loans designated as base rate loans bear interest at the (i) highest of (A) the Prime Rate, (B) the Federal Funds Rate plus 0.50%, (C) LIBOR for an interest period of one month plus 1.00% and (D) 2.25% per year plus (ii) 5.50%. We are required to make mandatory prepayments in certain circumstances including in connection with certain debt issuances by NATC or any of its subsidiaries or in connection with certain asset dispositions. We are permitted to voluntarily prepay the obligations at any time and from time to time without any penalty or premium. The First Lien Credit Agreement requires principal payments of \$1.650 million in each of the years of 2015, 2016, 2017 and 2018, respectively, and \$1.238 million in 2019. As of March 31, 2016, the weighted average interest rate on the first lien term loan was 7.78%.

The first lien term loan contains certain financial covenants that require NATC to maintain a consolidated fixed charge coverage ratio of not be less than 1.25 to 1.00 at the end of any fiscal quarter, and a consolidated total leverage ratio ranging from 6.25 to 1.00 from April 1, 2015 through September 30, 2016, decreasing to a ratio of 5.50 to 1.00 from October 1, 2018 to maturity.

The First Lien Credit Agreement contains negative covenants that, among other things, limit the incurrence of additional indebtedness, the distribution of dividends, transactions with affiliates, asset sales, acquisitions, mergers, prepayments of other indebtedness, the incurrence of liens and encumbrances, capital expenditures, restricted payments, and other matters customarily restricted in such agreements. The First Lien Credit Agreement also contains customary affirmative covenants including, among others, the provision of financial statements, maintenance of property, licenses and insurance. The First Lien Credit Agreement also contains an affirmative covenant requiring us to maintain in effect the Bolloré distribution and license agreements. The First Lien Credit Agreement also contains customary events of default, including payment defaults, breach of representations and warranties, covenant defaults, cross-acceleration, cross-defaults to certain other indebtedness, bankruptcy and insolvency, the occurrence of a change of control and judgment defaults. As of March 31, 2016, we were in compliance with all such covenants. If any events of default occur and are not cured within applicable grace periods or waived, the outstanding loans may be accelerated and the lenders' commitments may be terminated. The occurrence of the bankruptcy and insolvency event of default will result in the automatic termination of commitments and acceleration of outstanding amounts under the First Lien Credit Agreement.

Second Lien Term Loan

On January 13, 2014, we entered into the Second Lien Credit Facility, with NATC as borrower, between the same parties as the First Lien Credit Agreement for an \$80.0 million second lien term loan, which matures on July 13, 2020. The Second Lien Credit Facility is guaranteed by the same guarantors as the first lien term loan and is secured by a second priority lien over the same collateral.

In connection with the IPO, we prepaid \$20 million of the borrowings outstanding under the facility in May 2016. See “—Recent Developments.”

Under the Second Lien Credit Facility, the loans designated as LIBOR rate loans bear interest at the LIBOR Rate then in effect (but not less than 1.25%) plus 10.25% and the loans designated as base rate loans bear interest at (i) the highest of (A) the Prime Rate, (B) the Federal Funds Rate plus 0.50%, (C) LIBOR for an interest period of one month plus 1.00% and (D) 2.25% per year plus (ii) 9.25%. There is no maximum interest rate other than that permitted by applicable law. We are required to make mandatory prepayments in certain circumstances including in connection with certain debt issuances by NATC or any of its subsidiaries or in connection with certain asset dispositions. We are permitted to voluntarily prepay the obligations without any penalty or premium at any time after the third anniversary of the closing date. For the first three years following the closing date, we must pay a prepayment premium, beginning at 3.0% of the amount being prepaid, refinanced or assigned, which reduces to 2.0% following the first anniversary and to 1.0% following the second anniversary. As of March 31, 2016, the weighted average interest rate was 11.5%.

Table of Contents

We are subject to substantially similar negative and affirmative covenants, and events of default as under the First Lien Credit Agreement. With respect to the financial covenants, we have the same fixed charge coverage ratio requirements, however, NATC is required to maintain a consolidated total leverage ratio under the Second Lien Credit Facility ranging from 6.50 to 1.00 from April 1, 2015 through September 30, 2016, reducing to a maximum ratio of 5.75 to 1.00 from October 1, 2018 to maturity. As of March 31, 2016, we were in compliance with all such covenants.

PIK Toggle Notes and Standard General Warrants

On January 13, 2014, TPB issued the PIK Toggle Notes to Standard General in an aggregate principal amount of \$45.0 million and issued the warrants, which were valued at \$1.7 million, to purchase 42,424 of our common stock at \$.01 per share, in connection therewith. After adjustment for the stock split effected prior to the IPO, the warrants provide for the purchase of 442,558 shares of the Company's common stock. The PIK Toggle Notes had an original issue discount of \$1.7 million and were initially valued at \$43.3 million.

The PIK Toggle Notes accrued interest based on the LIBOR Rate then in effect (but not less than 1.25%) plus 13.75%, reset quarterly. We chose to pay interest in kind for all interest payments for the three months ended March 31, 2016 and the years ended December 31, 2015 and 2014. The outstanding principal amount of the PIK Toggle Notes at March 31, 2016 was \$61.2 million.

In connection with the IPO, in May of 2016 we repurchased all of the outstanding PIK Toggle Notes in exchange for a combination of cash and shares of our common stock. See “—Recent Developments.”

As of March 31, 2016, 442,558 Standard General Warrants remained issued and outstanding.

7% Senior Notes

In January of 2014, TPB conducted a rights offering to certain of our stockholders that qualified as “accredited investors” under the Securities Act, pursuant to which TPB issued our 7% Senior Notes to various stockholders, including Standard General and members of management, for a principal amount of \$11.0 million and issued the noteholders Intrepid Warrants to purchase 11,000,000 units of membership interests in Intrepid Brands. The Intrepid Warrants represented 40% of the Intrepid Brands common units outstanding on a fully diluted basis, and are exercisable at a purchase price of \$1.00 per unit. As a result of the Intrepid Warrants, the 7% Senior Notes had an original issue discount of \$2.8 million and were initially valued at \$8.2 million.

Interest was payable on the 7% Senior Notes on the last business day of June and December in each year, provided that we may elect to exercise an option. We elected to pay interest in kind (“PIK Interest”) on the 7% Senior Notes for all interest in 2015 and 2014. The outstanding principal amount of the 7% Senior Notes was \$12.6 million as of March 31, 2016. We may redeem the 7% Senior Notes at any time without penalty or premium. As of March 31, 2016, we were in compliance with all of the covenants under the 7% Senior Notes.

In connection with the IPO, in May of 2016 we repurchased all of the outstanding 7% Senior Notes in exchange for shares of our common stock and all outstanding Intrepid Warrants for cash. See “—Recent Developments.”

Credit Line with Standard General

The Company has entered into an agreement with Standard General for a \$50.0 million line of credit that we may use to finance acquisitions that are approved by Standard General L.P. in its sole discretion. The line of credit will terminate and all borrowings under the line will mature on May 13, 2021. Borrowings under the line of credit will bear interest at a floating rate equal to LIBOR plus a margin of 6.5% with a LIBOR floor of 1.0%. TPB will be the borrower under the facility and none of its present subsidiaries will guarantee the facility.

Off-balance Sheet Arrangements

As of March 31, 2016, NATC had two outstanding foreign exchange forward contracts for the purchase of 1.1 million Euros.

During the year ended December 31, 2015, we executed various forward contracts for the purchase of 11.5 million Euros with maturity dates from May 13, 2015 to July 11, 2016. On December 31, 2015, we had foreign currency contracts to purchase a total amount of 5.1 million Euros.

The effect of a hypothetical 10% change in Euro and US exchange rates applicable to our business would not have had a material impact on our consolidated financial statements.

Contractual Obligations

As of March 31, 2016, there had been no material changes outside the ordinary course to our contractual obligations from December 31, 2015 as reported in our Prospectus dated May 10, 2016 and filed with the SEC.

Inflation

The Company believes that any effect of inflation at current levels will be minimal. Historically, we have been able to increase prices at a rate equal to or greater than that of inflation and believe that we will continue to be able to do so for the foreseeable future. In addition, we have been able to maintain a relatively stable variable cost structure for our products due, in part, to our successful procurement and reformulation activities with regard to our tobacco products and, in part, to our existing contractual agreement for the purchase of our premium cigarette papers.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various claims and actions that arise in the normal course of business. While the outcome of these legal proceedings cannot be predicted with certainty, it is the opinion of management that the resolution of the proceedings should not have a material adverse effect on our financial position, results of operations or cash flows of the Company.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in “Risk Factors” contained in our Prospectus dated May 10, 2016 related to the IPO. There have been no material changes to the Risk Factors set forth in the Prospectus.
