6

SPARTA COMMERCIAL SERVICES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JULY 31, 2005
(UNAUDITED)

NOTE A - SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

Basis of Presentation

The accompanying unaudited financial statements as of July 31, 2005 and for the three month periods ended July 31, 2005 and 2004 have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the "Commission"), including Form 10-QSB and Regulation S-B. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. The company believes that the disclosures provided are adequate to make the information presented not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and explanatory notes for the year

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

ended April 30, 2005 as disclosed in the Company's 10-KSB for that year as filed with the Commission.

The results of the three months ended July 31, 2005 are not necessarily indicative of the results to be expected for the full year ending April 30, 2006.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Sparta Commercial Services, LLC. All significant intercompany transactions and balances have been eliminated in the consolidated financial statements.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Recognition

The company originates leases on new and used motorcycles and other powersports vehicles from motorcycle dealers throughout the United States. The Company's leases are accounted for as either operating leases or direct financing leases. At the inception of operating leases, no lease revenue is recognized and the leased motorcycles, together with the initial direct costs of originating the lease, which are capitalized, appear on the balance sheet as "motorcycles under operating leases-net". The capitalized cost of each motorcycle is depreciated over the lease term, on a straight-line, basis down to the Company's original estimate of the projected value of the motorcycle at the end of the scheduled lease term (the "Residual"). Monthly lease payments are recognized as rental income. An acquisition fee classified as fee income on the financial statements is received and recognized in income at the inception of the lease. Direct financing leases are recorded at the gross amount of the lease receivable, and unearned income at lease inception is amortized over the lease term.

7

SPARTA COMMERCIAL SERVICES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JULY 31, 2005
(UNAUDITED)

NOTE A - SUMMARY OF ACCOUNTING POLICIES (continued)

The Company realizes gains and losses as the result of the termination of leases, both at and prior to their scheduled termination, and the disposition of the related motorcycle. The disposal of motorcycles, which reach scheduled termination of a lease, results in a gain or loss equal to the difference between proceeds received from the disposition of the motorcycle and its net book value. Net book value represents the residual value at scheduled lease termination. Lease terminations that occur prior to scheduled maturity as a result of the lessee's voluntary request to purchase the vehicle have resulted in net gains, equal to the excess of the price received over the motorcycle's net book value.

Early lease terminations also occur because of (i) a default by the lessee, (ii) the physical loss of the motorcycle, or (iii) the exercise of the lessee's early

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

termination. In those instances, the Company receives the proceeds from either the resale or release of the repossessed motorcycle, or the payment by the lessee's insurer. The Company records a gain or loss for the difference between the proceeds received and the net book value of the motorcycle.

The Company charges fees to manufacturers and other customers related to creating a private label version of the Company's financing program including web access, processing credit applications, consumer contracts and other related documents and processes. Fees received are amortized and booked as income over the length of the contract. At July 31, 2005, the Company had recorded deferred revenue related to these contracts of \$19,800.

Net Loss Per Share

The Company uses SFAS No. 128, "Earnings Per Share" for calculating the basic and diluted loss per share. We compute basic loss per share by dividing net loss and net loss attributable to common shareholders by the weighted average number of common shares outstanding. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential shares had been issued and if the additional shares were dilutive. Common equivalent shares are excluded from the computation of net loss per share if their effect is anti-dilutive.

Per share basic and diluted net loss attributable to common stockholders amounted to \$0.04 and \$0.06 for the three months ended July 31, 2005 and 2004, respectively. For the three months ended July 31, 2005 and 2004, 37,468,324 and 3,510,274 potential shares, respectively, were excluded from the shares used to calculate diluted earnings per share as their inclusion would reduce net loss per share.

8

SPARTA COMMERCIAL SERVICES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JULY 31, 2005
(UNAUDITED)

NOTE A - SUMMARY OF ACCOUNTING POLICIES (continued)

Reclassifications

Certain reclassifications have been made to conform to prior periods' data to the current presentation. These reclassifications had no effect on reported losses.

Stock Based Compensation

In December 2003, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of SFAS 123." This statement amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has chosen to continue to account

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25 and related interpretations. Accordingly, compensation expense for stock Warrants is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No. 148 in its financial reports from January 1, 2003. The Company has no awards of stock-based employee compensation during the quarter ended July 31, 2005.

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123R (revised 2004), "Share-Based Payment" which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation". Statement 123R supersedes APB opinion No. 25, "Accounting for Stock Issued to Employees", and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro-forma disclosure is no longer an alternative. On April 14, 2005, the SEC amended the effective date of the provisions of this statement. The effect of this amendment by the SEC is that the Company will have to comply with Statement 123R and use the Fair Value based method of accounting no later than the third quarter of 2006. Management is assessing the implications of this revised standard, which may materially impact the Company's results of operations in the third quarter of fiscal year 2006 and thereafter.

NOTE B - RELATED PARTY TRANSACTIONS

The Company entered into a purchase option agreement with American Motorcycle Leasing Corp., an entity controlled by the Company's President and a significant shareholder, on November 2, 2004 at a cost to Sparta Commercial Services of \$250,000. This agreement granted Sparta Commercial Services the right, for a two year period, to purchase portions of a certain portfolio of equipment leases that American Motorcycle Leasing Corp. owns. The portfolio is secured by a first priority security interest in favor of Citibank, N.A. or its assigns. The cost of \$250,000 has been charged to operations in fiscal 2005. Through July 31, 2005, payments against this obligation of \$94,500 were made.

In January 2005, the Company received a loan of \$25,000 from an officer. This loan is non-interest bearing and is payable on demand.

9

SPARTA COMMERCIAL SERVICES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JULY 31, 2005
(UNAUDITED)

NOTE C - STOCKHOLDERS' EQUITY

On December 27, 2004, the Company effected a one-for-two hundred reverse stock split followed by a forward split of twenty five-for-one of its authorized and outstanding shares of common stock, \$.001 par value. All references in the financial statements and notes to financial statements, numbers of shares and share amounts have been retroactively restated to reflect the stock splits.

Common Stock

During the three months ended July 31, 2005, the Company issued 288,464 shares of common stock, valued at \$118,270, as additional costs related to loans

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

received by the Company. This amount has been charged to financing cost during the quarter.

The Company will issue 176,281 shares of common stock as additional costs related to loans received by the Company. These costs have been accrued in the financial statements at a value of \$125,000 as of July 31, 2005.

The Company will issue 250,000 shares of common stock as payment of consulting fees. These fees have been accrued in the financial statements at a value of \$85,000 as of July 31, 2005.

Preferred Stock Series A

During the three months ended July 31, 2005, the Company issued 17,750 preferred shares at a stated value of \$100 per share and warrants to purchase 5,689,108 shares of common stock, exercisable for three years at \$0.195 per share, for aggregate gross proceeds of \$1,775,000 received from investors. In connection with the private placement, during the three months ended July 31, 2005, the Company issued as compensation to the placement agent warrants to purchase 1,137,822 shares of common stock, exercisable for five years at \$0.172 per share. The warrants, which were valued at \$406,665 using the Black-Scholes option pricing model, were recognized as an expense during the quarter.

In accordance with EITF 00-27, a portion of the proceeds were allocated to the class 'C' warrants based on their relative fair value, which totaled \$931,800 using the Black Scholes option pricing model. Further, we attributed a beneficial conversion feature of \$843,200 to the series 'A' preferred shares based upon the difference between the conversion price of those shares and the closing price of our common shares on the date of issuance. The assumptions used in the Black Scholes model are as follows: (1) dividend yield of 0%; (2) expected volatility of 188%, (3) weighted average risk-free interest rate of 3.65%, and (4) expected life of 2 years as the conversion feature and warrants are immediately exercisable. Both the fair value of the class 'C' warrants and the beneficial conversion feature were recorded as a dividend and are included in the accompanying financial statements.

10

SPARTA COMMERCIAL SERVICES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JULY 31, 2005
(UNAUDITED)

NOTE C - STOCKHOLDERS' EQUITY (continued)

During the three months ended July 31, 2004, the Company sold rights to acquire securities of the Company to investors for aggregate gross proceeds of \$585,000. Pursuant to the terms of the rights, as the Company conducted a closing to a private placement transaction in 2004 utilizing a designated registered broker-dealer as a placement agent, on January 1, 2005, the rights have automatically converted into 5,850 preferred shares at a stated value of \$100 per share and warrants to purchase 1,875,001 shares of common stock, exercisable for three years at \$0.195 per share.

NOTE D - NOTES PAYABLE

Notes payable at July 31, 2005 and April 30, 2005 are as follows:

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

July 31
2005

Notes payables; 10% interest, unsecured, originally scheduled to expire on April 30, 2005, the note holders are entitled to an "Equity Kicker" equal to 128,206 restricted shares of common stock for each \$100,000 loaned, in the event of default, as penalty, the repayment after default of promissory note shall be collateralized by certain security interest as per the terms of the agreement. In April 2005, notes were extended until August 31, 2005 and beyond, with interest increased to 20% in certain instances, and the Equity Kicker equal to 192,308 restricted shares of common stock for each \$100,000 loaned in certain instances

JULY 31, 2005
(UNAUDITED)

NOTE E - GOING CONCERN MATTERS

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements the Company has realized minimal revenue from operations and has incurred significant operating losses since inception. These factors among others may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon management's ability to develop profitable operations. Management is devoting substantially all of its efforts to developing its business and raising capital and there can be no assurance that the Company's efforts will be successful. However, the planned principal operations have not commenced and no assurance can be given that management's actions will result in profitable operations or the resolution of its liquidity problems. The accompanying statements do not include any adjustments that might result should the Company be unable to continue as a going concern.

In order to improve the Company's liquidity, the Company's management is actively pursuing additional financing through discussions with investment bankers, financial institutions and private investors. This financing may be in the form of debt, convertible debt, or equity. There can be no assurance the Company will be successful in its effort to secure additional financing.

NOTE F - NON-CASH FINANCIAL INFORMATION

During the three months ended July 31, 2005, the Company:

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

- o Recorded a dividend on preferred stock of \$1,775,000 related to the fair value of the class `C' warrants issued with preferred stock and the related beneficial conversion feature.
- o Incurred costs of \$182,483 related to the sale of preferred stock. These costs were deducted from the proceeds.
- o Issued 288,464 shares of common stock, valued at \$118,270, as additional costs related to loans received by the Company.

12

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION, RESULTS OF OPERATIONS AND PLAN OF OPERATION

GENERAL

The following discussion of our financial condition and results of operations should be read in conjunction with (1) our interim unaudited financial statements and their explanatory notes included as part of this quarterly report, and (2) our annual audited financial statements and explanatory notes for the year ended April 30, 2005 as disclosed in our annual report on Form 10-KSB for that year as filed with the SEC.

"FORWARD-LOOKING" INFORMATION

This report on Form 10-QSB contains certain "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, which represent our expectations and beliefs, including, but not limited to statements concerning the Company's expected growth. The words "believe," "expect," "anticipate," "estimate," "project," and similar expressions identify forward-looking statements, which speak only as of the date such statement was made. These statements by their nature involve substantial risks and uncertainties, certain of which are beyond our control, and actual results may differ materially depending on a variety of important factors.

INTRODUCTORY STATEMENT

Unless otherwise stated, the discussion and analysis refers to the business of Sparta Commercial Services, Inc. and does not refer to the operations for our former business which was essentially a non-operating shell company.

The year ended April 30, 2005 was a period of development, as we continued to develop our products and market them to dealers and manufacturers. To date, we have generated limited sales revenues, have incurred expenses and have sustained losses. Consequently, our operations are subject to all the risks inherent in the establishment of a new business enterprise. The period from inception through April 30, 2005 was a developmental stage period for us, setting up credit procedures, setting our arrangements with vehicle distributors, obtaining personnel, seeking financing to support our developmental efforts, and seeking credit facilities. In fiscal year 2005, we began to obtain regulatory approval in several states, where required, prior to commencing active operations. We are actively signing up dealers to participate in our financing programs, including our private label financing programs. We have signed up four manufacturers to our private label programs, and are in negotiations with other manufacturers who have indicated an interest in a private label program. Presently, we do not have sufficient operating capital to fulfill our planned business operations for the next twelve months for a credit line reserve and for our general operating expenses. We estimate that we will need approximately \$1,500,000 in additional funds to fully implement our business plan during the next twelve months. Although the Company obtained a senior credit facility near the end of the

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

quarter, which allowed us to commence our initial active operations, we will need to obtain additional credit facilities to fully implement our business plan. We need the additional credit facilities so that we have the funding sources to originate leases and finance contracts across all credit profiles. Our current credit facility only allows for origination across three out of five credit profiles. We are presently in discussions with several institutions about obtaining additional credit facilities, however, our lack of working capital could negatively impact our ability to secure these facilities.

RESULTS OF OPERATIONS

COMPARISON OF THE THREE MONTHS ENDED JULY 31, 2005 TO THE THREE MONTHS ENDED JULY 31, 2004

For the three months ended July 31, 2005, we have generated limited sales revenues, have incurred significant expenses, and have sustained significant losses. We believe we will begin to earn increasing revenues from operations in the current fiscal year. We had no sales revenue during the three months ended July 31, 2004.

13

Revenues

Revenues totaled \$17,326 during the three months ended July 31, 2005 with no revenue during the three months ended July 31, 2004. Current period revenue was comprised primarily of \$10,376 in lease revenue, \$3,275 in dealer fees, and \$3,300 in private label fees.

Costs and Expenses

General and administrative expenses were \$586,732 during the three months ended July 31, 2005, compared to \$413,417 during the three months ended July 31, 2004, an increase of \$173,315, or 42%. Expenses incurred during the current three month period consisted primarily of the following expenses: Compensation and related costs, \$252,086; Accounting, audit and professional fees, \$59,141; Consulting fees, \$146,058; Rent, \$27,957; and Travel and entertainment, \$17,425. Expenses incurred during the comparative three month period consisted primarily of the following expenses: Compensation and related costs, \$141,749; Accounting, audit and professional fees, \$32,854; Consulting fees, \$39,325; and License fees, \$150,633.

In connection with its private placement transactions, the Company has expensed non-cash costs of \$406,665 during the three months ended July 31, 2005 related to warrants granted to the private placement agent, with no related expense during the comparative period. The Company also incurred a non-cash charge of \$243,270 during the three months ended July 31, 2005 related to shares of common stock issued or to be issued in connection with debt financing. There was no comparable expense during the three months ended July 31, 2004.

Net Loss

We incurred a net loss before preferred dividends of \$1,245,392 for our three month ended July 31, 2005 as compared to \$413,445 for the corresponding interim period in 2004. The \$831,947 or 201% increase in our net loss before preferred dividends for our three month interim period ended July 31, 2005 was attributable primarily to a \$173,315 increase in general and administrative

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

expense and an increase of \$649,935 in non-cash financing costs.

We also incurred preferred dividend expense of \$1,803,275 for our three month period ended July 31, 2005 with no comparable expense for the corresponding interim period in 2004. The increase in preferred dividend expense was attributable to the sale of convertible preferred stock that commenced in December, 2004 and concluded in July 2005. In addition to dividends payable on the outstanding preferred stock, preferred dividend expense includes an aggregate charge of \$1,775,000 related to warrants issued with the convertible preferred stock and a beneficial conversion feature associated with the preferred stock.

Our net loss attributable to common stockholders increased to \$3,048,667 for our three month period ended July 31, 2005 as compared to \$413,445 for the corresponding period in 2004. The \$2,635,222 increase in net loss attributable to common stockholders for our three month period ended July 31, 2005 was due to the \$831,947 increase in our net loss before preferred dividends, increased by the aforesaid \$1,803,275 increase in preferred dividend expense.

LIQUIDITY AND CAPITAL RESOURCES

As of July 31, 2005, the Company had a working capital deficit of \$80,547. The Company generated a deficit in cash flow from operations of \$863,560 for the three months ended July 31, 2005. This deficit is primarily attributable to the Company's net loss from operations of \$1,245,392, partially offset by depreciation and amortization of \$12,233 and the fair value attributed to stock and warrants issued of \$524,935, and to changes in the balances of current assets and liabilities. Accounts payable and accrued expenses increased by \$60,371, and prepaid expenses and deposits increased by \$220,000.

Cash flows used in investing activities for the three months ended July 31, 2005 was \$128,568, primarily due to the purchase of property and equipment of \$17,582, payments for motorcycles of \$61,114 and investments in leases of \$43,372.

14

The Company met its cash requirements during the period through net proceeds from the issuance of equity of \$1,592,517, partially offset by payments on bridge loans of \$150,000. Additionally, the Company has received limited revenues from leasing and financing motorcycles and other vehicles, its recently launched private label programs and from dealer sign-up fees.

While we have raised capital to meet our working capital and financing needs in the past, additional financing is required in order to meet our current and projected cash flow deficits from operations and development. We are seeking financing, which may take the form of debt, convertible debt or equity, in order to provide the necessary working capital. We currently have no commitments for financing. There is no guarantee that we will be successful in raising the funds required.

We estimate that we will need approximately \$1,500,000 in additional funds to fully implement our business plan during the next twelve months for a credit line reserve and for our general operating expenses. There can be no assurance that additional private or public financing, including debt or equity financing, will be available as needed, or, if available, on terms favorable to the Company. Any additional equity financing may be dilutive to shareholders and such additional equity securities may have rights, preferences or privileges that are senior to those of the Company's existing common or preferred stock. Furthermore, debt financing, if available, will require payment of interest and

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

may involve restrictive covenants that could impose limitations on the operating flexibility of the Company. However, if we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources, on terms acceptable to us, this could have a material adverse effect on our business, results of operations, liquidity and financial condition, and we will have to adjust our planned operations and development on a more limited scale.

AUDITOR'S OPINION EXPRESSES DOUBT ABOUT THE COMPANY'S ABILITY TO CONTINUE AS A "GOING CONCERN"

The independent auditors report on our April 30, 2005 and 2004 financial statements included in the Company's Annual Report states that the Company's historical losses and the lack of revenues raise substantial doubts about the Company's ability to continue as a going concern, due to the losses incurred and its lack of significant operations. If we are unable to develop our business, we have to discontinue operations or cease to exist, which would be detrimental to the value of the Company's common stock. We can make no assurances that our business operations will develop and provide us with significant cash to continue operations.

PLAN OF OPERATIONS

Addressing the Going Concern Issues

In order to improve the Company's liquidity, the Company's management is actively pursuing additional financing through discussions with investment bankers, financial institutions and private investors. There can be no assurance the Company will be successful in its effort to secure additional financing.

We continue to experience net operating losses. Our ability to continue as a going concern is subject to our ability to develop profitable operations. We are devoting substantially all of our efforts to developing our business and raising capital. Our net operating losses increases the difficulty in meeting such goals and there can be no assurances that such methods will prove successful.

The primary issues management will focus on in the immediate future to address this matter include:

- o seeking additional credit lines from institutional lenders;
- o seeking institutional investors for debt or equity investments in our company; and
- o initiating negotiations to secure short term financing through promissory notes or other debt instruments on an as needed basis.

To address these issues, we are negotiating the potential sale of securities with investment banking companies to assist us in raising capital. We are also presently in discussions with several institutions about obtaining additional credit facilities.

15

Product Research and Development

We do not anticipate incurring significant research and development expenditures during the next twelve months.

Acquisition or Disposition of Plant and Equipment

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

We do not anticipate the sale of any significant property, plant or equipment during the next twelve months. We do not anticipate the acquisition of any significant property, plant or equipment during the next twelve months.

Number of Employees

From our inception through the period ended April 30, 2005, we have relied on the services of outside consultants for services and currently have nine employees. In order for us to attract and retain quality personnel, we anticipate we will have to offer competitive salaries to future employees. If we fully implement our business plan, we anticipate our employment base may increase by approximately 50% during the next twelve months. As we continue to expand, we will incur additional cost for personnel. This projected increase in personnel is dependent upon our generating revenues and obtaining sources of financing. There is no guarantee that we will be successful in raising the funds required or generating revenues sufficient to fund the projected increase in the number of employees.

INFLATION

The impact of inflation on the costs of the Company, and the ability to pass on cost increases to its customers over time is dependent upon market conditions. The Company is not aware of any inflationary pressures that have had any significant impact on the Company's operations over the past quarter, and the Company does not anticipate that inflationary factors will have a significant impact on future operations.

CRITICAL ACCOUNTING POLICIES

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect our reported assets, liabilities, revenues, and expenses, and the disclosure of contingent assets and liabilities. We base our estimates and judgments on historical experience and on various other assumptions we believe to be reasonable under the circumstances. Future events, however, may differ markedly from our current expectations and assumptions. While there are a number of significant accounting policies affecting our consolidated financial statements; we believe the following critical accounting policy involves the most complex, difficult and subjective estimates and judgments:

Revenue Recognition

We originate leases on new and used motorcycles and other powersports vehicles from motorcycle dealers throughout the United States. Our leases are accounted for as either operating leases or direct financing leases. At the inception of operating leases, no lease revenue is recognized and the leased motorcycles, together with the initial direct costs of originating the lease, which are capitalized, appear on the balance sheet as "motorcycles under operating leases-net". The capitalized cost of each motorcycle is depreciated over the lease term, on a straight-line basis, down to the original estimate of the projected value of the motorcycle at the end of the scheduled lease term (the "Residual"). Monthly lease payments are recognized as rental income. An acquisition fee classified as fee income on the financial statements is received and recognized in income at the inception of the lease. Direct financing leases are recorded at the gross amount of the lease receivable, and unearned income at lease inception is amortized over the lease term.

We realize gains and losses as the result of the termination of leases, both at and prior to their scheduled termination, and the disposition of the related motorcycle. The disposal of motorcycles, which reach scheduled termination of a lease, results in a gain or loss equal to the difference between proceeds received from the disposition of the motorcycle and its net book value. Net book value represents the residual value at scheduled lease termination. Lease terminations that occur prior to scheduled maturity as a result of the lessee's voluntary request to purchase the vehicle have resulted in net gains, equal to the excess of the price received over the motorcycle's net book value.

Early lease terminations also occur because of (i) a default by the lessee, (ii) the physical loss of the motorcycle, or (iii) the exercise of the lessee's early termination. In those instances, the Company receives the proceeds from either the resale or release of the repossessed motorcycle, or the payment by the lessee's insurer. We record a gain or loss for the difference between the proceeds received and the net book value of the motorcycle.

We charge fees to manufacturers and other customers related to creating a private label version of our financing program including web access, processing credit applications, consumer contracts and other related documents and processes. Fees received are amortized and booked as income over the length of the contract.

Stock-Based Compensation

In December 2003, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of SFAS 123." This statement amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25 and related interpretations. Accordingly, compensation expense for stock warrants is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No. 148 in its financial reports for the period from January 1, 2003 through April 30, 2003 and will adopt the interim disclosure provisions for its financial reports for the subsequent periods. The Company has stock based awards of compensation to employees of \$82,500 granted and outstanding during the period from October 1, 2001 (date of inception) through April 30, 2005.

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123R (revised 2004), "Share-Based Payment" which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation". Statement 123R supersedes APB opinion No. 25, "Accounting for Stock Issued to Employees", and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro-forma disclosure is no longer an alternative. On April 14, 2005, the SEC amended the effective date of the provisions of this statement. The effect of this amendment by the SEC is that the Company will have to comply with Statement 123R and use the Fair Value based method of accounting no later than the third quarter of 2006. Management is

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

assessing the implications of this revised standard, which may materially impact the Company's results of operations in the third quarter of fiscal year 2006 and thereafter.

Website Development Costs

We have incurred costs to develop a proprietary web-based private label financing program for processing including web access, processing credit applications, consumer contracts and other related documents and processes. The Company has elected to recognize the costs of developing its website and related intellectual property the website development costs in accordance with Emerging Issue Task Force ("EITF") No. 00-02, "Accounting for Website Development Costs." As such, the Company expenses all costs incurred that relate to the planning and post implementation phases of development of its website. Direct costs incurred in the development phase are capitalized and recognized over the estimated useful life. Costs associated with repair or maintenance for the website are included in cost of net revenues in the current period expenses.

17

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not maintain off-balance sheet arrangements nor does it participate in non-exchange traded contracts requiring fair value accounting treatment.

TRENDS, RISKS AND UNCERTAINTIES

We have sought to identify what we believe to be the most significant risks to our business, but we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise. Investors should carefully consider all of such risk factors before making an investment decision with respect to our Common Stock.

CAUTIONARY FACTORS THAT MAY AFFECT FUTURE RESULTS

We have sought to identify what we believe are significant risks to our business, but we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise.

Potential Fluctuations in Annual Operating Results

Our annual operating results may fluctuate significantly in the future as a result of a variety of factors, most of which are outside our control, including: the demand for our products and services; seasonal trends in purchasing, the amount and timing of capital expenditures and other costs relating to the commercial and consumer financing; price competition or pricing changes in the market; technical difficulties or system downtime; general economic conditions and economic conditions specific to the consumer financing sector.

Our annual results may also be significantly impacted by the impact of the accounting treatment of acquisitions, financing transactions or other matters. Particularly at our early stage of development, such accounting treatment can have a material impact on the results for any quarter. Due to the foregoing factors, among others, it is likely that our operating results may fall below our expectations or those of investors in some future quarter.

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

Dependence Upon Management

Our future performance and success is dependant upon the efforts and abilities of our Management. To a very significant degree, we are dependent upon the continued services of Anthony L. Havens, our President and Chief Executive Officer and member of our Board of Directors. If we lost the services of either Mr. Havens, or other key employees before we could get qualified replacements, that loss could materially adversely affect our business. We do not maintain key man life insurance on any of our Management.

Our officers and directors are required to exercise good faith and high integrity in our Management affairs. Our Articles of Incorporation provide, however, that our officers and directors shall have no liability to our shareholders for losses sustained or liabilities incurred which arise from any transaction in their respective managerial capacities unless they violated their duty of loyalty, did not act in good faith, engaged in intentional misconduct or knowingly violated the law, approved an improper dividend or stock repurchase, or derived an improper benefit from the transaction. Our Articles and By-Laws also provide for the indemnification by us of the officers and directors against any losses or liabilities they may incur as a result of the manner in which they operate our business or conduct the internal affairs, provided that in connection with these activities they act in good faith and in a manner that they reasonably believe to be in, or not opposed to, the best interests of Sparta, and their conduct does not constitute gross negligence, misconduct or breach of fiduciary obligations. To further implement the permitted indemnification, we have entered into Indemnity Agreements with our officers and directors.

18

Continued Control of Current Officers and Directors

The present officers and directors own approximately 67% of the outstanding shares of common stock, and therefore are in a position to elect all of our Directors and otherwise control the Company, including, without limitation, authorizing the sale of equity or debt securities of Sparta, the appointment of officers, and the determination of officers' salaries. Shareholders have no cumulative voting rights.

Management of Growth

We may experience growth, which will place a strain on our managerial, operational and financial systems resources. To accommodate our current size and manage growth if it occurs, we must devote management attention and resources to improve our financial strength and our operational systems. Further, we will need to expand, train and manage our sales and distribution base. There is no guarantee that we will be able to effectively manage our existing operations or the growth of our operations, or that our facilities, systems, procedures or controls will be adequate to support any future growth. Our ability to manage our operations and any future growth will have a material effect on our stockholders.

If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board which would limit the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

Companies trading on the OTC Bulletin Board, such as us, must be reporting issuers under Section 12 of the Securities Exchange Act of 1934, as amended, and must be current in their reports under Section 13, in order to maintain price

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

quotation privileges on the OTC Bulletin Board. If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board. As a result, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

19

ITEM 3. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer, who is also presently serving as our Principal Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective.

There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the fiscal quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

20

PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

During the year ended April 30, 2005, we sold promissory notes with rights to acquire common stock to accredited investors in transaction deemed exempt from registration pursuant to Section 4(2) of the Securities Act. During the quarter ended July 31, 2005, we issued 288,464 shares of common stock pursuant to certain provisions of the notes. We are also committed to issue an additional 176,281 shares of common stock related to these notes, and we expect to issue these shares during the second quarter. Additionally, during August 2005, we agreed to issue an aggregate of 651,124 shares of common stock to repay \$150,000 of principal amount of notes and \$12,781 of related accrued interest.

In July 2005, we completed a private placement to raise up to \$3,000,000 through the sale of up to 30 units of our securities at \$100,000 per unit. Each unit consisted of (i) 1,000 shares of series A convertible, redeemable preferred stock and (ii) warrants to purchase 320,513 shares of common stock, exercisable for three years at \$0.195 per share. The preferred stock has a stated value of \$100 per share, carries a 6% annual cumulative dividend, payable semi-annually in arrears, and is convertible into shares of common stock at the rate of one preferred share into 641 shares of common stock. The private placement was conducted by a placement agent on a best efforts basis. The units were offered solely to accredited investors. We agreed to file a registration statement, at our expense, for the resale of common stock underlying the units within 90 days of the final closing of the private placement. In transactions with accredited investors deemed exempt from registration pursuant to Section 4(2) of the Securities Act, from December 2004 through April 30, 2005, we sold 12.25 units, with a subscription for 0.05 units subsequently rescinded, and, from May 2005 to July 2005, we sold an additional 17.75 units, for gross proceeds of \$2,995,000. The placement agent received 10% of the cash proceeds from the private placement and reimbursement for expenses, and warrants to purchase 1,923,079 shares of common stock, exercisable for five years at \$0.172 per share from the date of

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

issuance. We used the net proceeds for working capital purposes.

In July 2005, we sold one accredited investor in a transaction deemed exempt from registration pursuant to Section 4(2) of the Securities Act, for the sum of \$5,000, 50 shares of Series A convertible, redeemable preferred stock and warrants to purchase 6,026 shares of common stock, exercisable for three years at \$.0195 per share. The preferred stock has a stated value of \$100 per share, carries a 6% annual cumulative dividend, payable semi annually in arrears, and is convertible into shares of common stock at a rate of one preferred share into 641 shares of common stock. We used the proceeds for working capital purchases.

In July 2005, in a transaction deemed to be exempt from registration under the Securities Act in reliance on Section 4(2) of the Securities Act, we entered into an agreement with an individual for business consulting services for a term of one year pursuant to which we agreed to issue 250,000 shares of common stock as compensation.
