Notes to Consolidated Financial Statements

NOTE 1. Management Statement

In the opinion of the Company, the accompanying unaudited Consolidated Financial Statements reflect all adjustments necessary for a fair presentation of the financial position of the Company as of September 30, 2005 and December 31, 2004, as well as the results of operations and changes in financial position for the three-month and nine-month, year-to-date periods ended September 30, 2005 and 2004. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed statements be read in conjunction with the Independent Auditor's Report and Financial Statements contained in the Company's most recent Annual Report on Form 10-KSB, as of December 31, 2004.

Certain reclassifications of September 30, 2004 balances have been made to conform to the September 30, 2005 presentation; there was no impact on net income or stockholders' equity. The number of weighted average shares outstanding, the effect of dilutive securities on earnings per share and the calculation of earnings per share have been adjusted for the three-month and nine-month, year-to-date periods ending September 30, 2004 to reflect the effect of a five-percent stock dividend effective for shareholders of record as of May 16, 2005 and paid on June 15, 2005.

NOTE 2. Securities

Most of the securities are classified as available-for-sale and are stated at fair value, and unrealized holding gains and losses, net of related deferred taxes, are reported as a separate component of stockholders' equity. Realized gains or losses on available-for-sale securities sales are reported as part of non-interest income based on the net proceeds and the adjusted carrying amount of the securities sold, using the specific identification method. Pre-tax, a realized net loss of \$22 and a realized net gain of \$36,745 are included in the financial results for the three-month and nine-month, year-to-date periods ending September 30, 2004; there have been no securities sales in 2005. Carrying amounts and fair values at September 30, 2005 and December 31, 2004 were as follows (dollars in thousands):

NOTE 4. Allowance for Loan Losses

The Company's subsidiary, Inland Northwest Bank (the "Bank") maintains an allowance for loan losses at a level considered adequate by management to provide for reasonably anticipated credit losses in the Bank's loan portfolio. Future credit losses are estimated through an analysis of various factors affecting the performance of the loan portfolio, including: individual review of problem loans, including an evaluation of the quality of underlying collateral; current business conditions and the Bank's historical loan loss experience; the term, in years, that the average loan is expected to remain on the Bank's books; and other factors that management determines to be relevant at the time of the analysis. In accordance with accounting and regulatory requirements, the portion of the allowance relating to unused loan commitments and other off-balance sheet items is reclassified to "Accrued interest payable and other liabilities." Changes in the allowance for loan losses during the three-month and nine-month, year-to-date periods ended September 30, 2005 and 2004 were as follows (dollars in thousands):

NOTE 5. Borrowed Funds

The Bank has three unsecured operating lines of credit with KeyBank of Washington for \$10,200,000, with two lines totaling \$10,100,000, maturing July 1, 2006, and the remaining \$100,000 line maturing on July 1, 2007. In addition, the Bank maintains a line of credit with U.S. Bank for \$1,500,000, maturing July 31, 2006, and Zions Bank for \$1,500,000 with no stated maturity. There was \$695,000 outstanding on these lines at September 30, 2005 and zero outstanding at December 31, 2004. The Bank also has a line of credit with the Federal Home Loan Bank of Seattle (FHLB) for \$36,446,000 at September 30, 2005, with \$22,748,000 available in overnight funds and long-term funds. This line is collateralized by all assets of the Bank. There were \$6,915,657 and \$5,214,270 of outstanding long-term advances on the Federal Home Loan Bank line at September 30, 2005 and December 31, 2004, respectively. There was zero outstanding on overnight funds on the FHLB line at September 30, 2005 and December 31, 2004.

Other borrowed funds outstanding on September 30, 2005 are related to a ground lease, with a purchase option, that the Bank entered into in early 2005 (a copy of the ground lease was filed as Exhibit 10.1.10 to the Company's Annual Report on Form 10-KSB filed on March 24, 2005). As a "capitalized" lease, the value of the property, \$600,404, is included as an asset on the consolidated statement of financial condition in "Premises and equipment, net" and the net present value of future payments is included as a liability in "Borrowed funds, other." Other borrowed funds outstanding on December 31, 2004 related to certain non-recourse loan participation sold agreements between the Bank and other financial institutions. Those participation agreements contained call options that provided the Bank contractual rights to repurchase the participated interest in the loans at any time. In accordance with SFAS-140, the participated interest was included as a structured note in "Borrowed funds, other" on the consolidated statement of financial condition.

NOTE 6. Junior Subordinated Debentures

In June 2005, the Company completed the issuance of \$5.155 million (\$5,155,000) of debentures in connection with a private placement of pooled trust preferred securities by Northwest Bancorporation Capital Trust I. The trust preferred securities, in the amount of \$5 million (5,000,000), were issued by a special purpose business trust owned by the Company and sold to pooled investment vehicles sponsored and marketed by investment banking firms. This subordinated debt has been recorded as a liability on the statement of financial condition; subject to limitations under current Federal Reserve guidelines, this subordinated debt qualifies as Tier 1 capital for regulatory capital purposes. Under the terms of the transaction, the trust preferred securities and debentures have a maturity of thirty years and are redeemable by the Company after five years, with certain exceptions. The holders of the trust preferred securities are entitled to receive cumulative cash distributions at a fixed annual rate of 5.95% during the first five years; thereafter, the rate is variable. After the first five years, the interest rate is reset quarterly to equal three-month LIBOR plus 1.70%.

The following tables are a summary of current trust preferred securities at September 30, 2005 and December 31, 2004 (dollars in thousands):
