Summary Term Sheet for Proposal No. 1

In Proposal No. 1, you are being asked to approve the sale of the Subsidiaries to Invitel. The terms of the Agreement mandate that the total purchase price to be paid is US \$30,000,000 of which US \$29,400,000 is payable at closing and the remaining US \$600,000 is payable upon delivery of a certificate prepared by an independent auditor identifying the net indebtedness of the Subsidiaries, which are required to be debt free including the full payment by Euroweb Hungary on or prior to the Closing Date of the US \$6,000,000 loan it received from Commerzbank Hungary ("Commerzbank") in connection with the Company's acquisition of Navigator Informatika Rt. ("Navigator"). The purchase price is to be reduced by the amount of any debt held in the Subsidiaries. The closing of the sale of the Subsidiaries, of which we cannot provide any guarantee, is expected to occur within seven business days of receipt of approval of the proposed transaction by the Hungarian Economic Competition Office in Hungary, the delivery of an audit report prepared by an independent auditor with respect to the Subsidiaries and the approval of the Agreement by the shareholders of the Company provided that such date is no later than June 30, 2006. If the Company fails to have the Agreement approved at a shareholders meeting by June 30, 2006, the Company will be obligated to reimburse Invitel for its expenses associated with the acquisition of the Subsidiaries not to exceed EUR 400,000. After the Subsidiaries are classified as discontinued operations, the Company's revenue for the year ended December 31, 2004 will be zero.

Reason for the Transaction

The Board of Directors believes the sale of the Subsidiaries, which are engaged in the business of providing Internet Service in Hungary and Romania, is the culmination of the Company's strategy that was first implemented in 1997 of identifying and developing companies within emerging industries for the purpose

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

of consolidation and sale if favorable market conditions exist. Although the Company primarily focuses on the operation and development of its core businesses, the Company pursues consolidations and sale opportunities as presented in order to develop its core businesses.

The Company commenced the consolidation strategy in various Central and Eastern European countries as follows:

- o in Hungary, with the acquisition of various Internet and telecommunications companies in 1997 that were eventually consolidated and named Euroweb Hungary, the acquisition of Elender Rt. in 2004 and the acquisition of Navigator in 2005;
- o in Romania, with the acquisition of several Internet and telecommunications companies in 2000 that were eventually consolidated and named Euroweb Romania;
- o in Slovakia, with the acquisition of several Internet and telecommunications companies from 1999 to 2000 that were eventually consolidated and named Euroweb Slovakia; and
- o in Czech Republic, with the acquisition of two Internet and telecommunications companies during 1999 and 2000 that were eventually consolidated and named Euroweb Czech Republic.

In 2004, the Company elected to sell its Internet Service assets located in the Czech Republic and Slovakia as the Company received offers it believed were above the market value of such assets. Further, the disposition of the two Subsidiaries, Euroweb Hungary and Euroweb Romania, for a purchase price of \$30,000,000 will allow the Company to redeploy capital to acquire additional assets in IT space and other as-yet unidentified industries that the Company deems profitable, as well as focus its expertise in the area of IT outsourcing in Central and Eastern Europe. If the opportunity presents itself, the Company will consider implementing its consolidation strategy with its remaining subsidiary and any other business that it enters. However, the Company does not presently have any plans, proposals or arrangements to redeploy its capital or engage in any acquisitions. The Company has not yet identified any specific new industries in which to invest.

For a more detailed discussion please see "Proposal No. 1 - Approval of the Sale of the Subsidiaries to Invitel" located on page 8.

6

Conditions to Closing of the Sale of the Subsidiaries

The completion of the proposed sale of the Subsidiaries depends upon the meeting of a number of conditions including the following:

- o The issuance by the Hungarian Economic Competition Office of its unconditional approval of the sale of the Subsidiaries to Invitel;
- o Approval of the Agreement by a majority of the stockholders of the Company at a special meeting of stockholders in which a quorum was present;
- o Delivery of an audit report prepared by an independent auditor with respect to the Subsidiaries and the absence of any event or circumstance revealed in the audit that could reasonably be expected

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

to have a material adverse effect on the financial condition of the Subsidiaries, of which Invitel was not aware; and

- o There shall be no material adverse change to the assets of the Subsidiaries.

Risks

The sale of the Subsidiaries will reduce the lines of business which we conduct. This decrease in diversification of our business could serve to magnify any downturns in the remaining business lines. In particular:

- o Our ability to adjust to changes in consumer demand or economic shifts could be materially impacted.
- o After classifying the Subsidiaries as discontinued operations (see "Accounting Treatment"), our revenue for the year ended December 31, 2004 will decrease to \$-0- from \$28,111,786 and our revenue for the nine months ended September 30, 2005 will decrease to \$0 from \$32,390,844.
- o After classifying the Subsidiaries as discontinued operations, our net loss from continuing operations for the year ended December 31, 2004 will increase to \$1,261,909 from a net loss of \$1,099,176 and our net loss from continuing operations for the nine months ended September 30, 2005 will increase to a loss of \$1,146,114 from an income of \$55,667.
- o Although we solicited a number of offers for the Subsidiaries, there can be no assurance that the value may not be higher in a sale to other purchasers.
- o The loss of expected synergies and a common customer base between Navigator Informatika Rt. and Euroweb Hungary, which may limit Navigator Informatika Rt.'s ability to generate revenue and may also have a goodwill impairment effect.
- o As a result of the sale of the Subsidiaries and the acquisition of Navigator, the Company may be deemed to have entered a new line of business and, as a result of the change of such business line, The Nasdaq Stock Market may request that we reapply for listing and satisfy all initial listing standards despite the fact that the Company will have continuing operations in Central and Eastern Europe.
- o If the Company fails to have the Agreement approved at a shareholders meeting by June 30, 2006, the Company will be obligated to reimburse Invitel for its expenses associated with the acquisition of the Subsidiaries not to exceed EUR 400,000 and this payment, combined with loss of proceeds from the failed sale of the Subsidiaries, may result in the Company experiencing financial difficulty with respect to its cash position.

For a more detailed discussion please see "Proposal No. 1 - Approval of the Sale of the Subsidiaries to Invitel" located on page 9.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Absence of Dissenters' Rights of Appraisals

Under the applicable provisions of General Corporation Law of the State of Delaware ("GCL"), Euroweb's stockholders will have no rights in connection with the proposed sale of the Subsidiaries to seek appraisal for the fair value of their shares of common stock.

For a more detailed discussion please see "Proposal No. 1 - Approval of the Sale of the Subsidiaries to Invitel" located on page 10.

PROPOSAL NO. 1

APPROVAL OF SALE OF THE SUBSIDIARIES TO INVITEL

Proposed Transaction

On December 19, 2005, the Company entered into the Agreement with Invitel. Pursuant to the Agreement, the Company has agreed to sell and, Invitel has agreed to purchase, 100% of the Company's interest in the Subsidiaries. The purchase price to be paid to the Company is US \$30,000,000 in cash of which US \$29,400,000 is payable at closing and the remaining US \$600,000 is payable upon delivery of a certificate prepared by an independent auditor identifying the net indebtedness of the Subsidiaries, The Subsidiaries are required to be debt free, which includes the full payment on or prior to the Closing Date of the US \$6,000,000 loan obtained by Euroweb Hungary from Commerzbank in connection with the Company's acquisition of Navigator Informatika Rt. The purchase price is to be reduced by the amount of any debt held in the Subsidiaries. The closing of the sale of the Subsidiaries, of which we cannot provide any guarantee, is expected to occur within seven business days of receipt of approval of the proposed transaction by the Hungarian Economic Competition Office in Hungary, the delivery of an audit report prepared by an independent auditor with respect to the Subsidiaries and the approval of the Agreement by the shareholders of the Company provided that such date is no later than June 30, 2006. If the Company fails to have the Agreement approved at a shareholders meeting by June 30, 2006, the Company will be obligated to reimburse Invitel for its expenses associated with the acquisition of the Subsidiaries not to exceed EUR 400,000. After the sale of the Subsidiaries would be classified as discontinued operations, the Company's revenue for the year ended December 31, 2004 will be zero.

Background of the Transaction

In April 2005, the Company's Board of Directors was notified that Invitel was looking for acquisition and consolidation opportunities in Hungary. On April 27, 2005, Invitel made a non-binding offer to purchase the Subsidiaries. From April 2005 through September 2005, Invitel made three non-binding offers. On December 15, 2005, Invitel submitted a binding offer that the Board of Directors of the Company accepted on December 17, 2005 and which culminated in the entering of the Agreement on December 19, 2005. In addition, the Company received several non-binding and binding offers from various parties. The Company eventually received and entered a binding offer from an international telecommunication company for the sale of the Subsidiaries on December 8, 2006. In connection with the receipt of the binding offer, the Company signed an exclusivity agreement with the international telecommunication company, which expired on December 16, 2005. After the expiration of the exclusivity agreement with the international telecommunications company on December 16, 2005, the

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Company entered into the Agreement with Invitel.

Business of the Company

We own and operate Internet Service Providers in Hungary and Romania through the Subsidiaries, Euroweb Hungary and Euroweb Romania. We are also engaged in the IT consulting business through our other subsidiary, Navigator Informatika Rt., which we acquired on October 7, 2005. We previously had operations in the Czech Republic and Slovakia through our subsidiaries Euroweb Czech and Euroweb Slovakia, which were sold on December 16, 2004 and April 15, 2005, respectively.

Our revenues generated by the Subsidiaries come from the following four sources:

- o Internet Service Provider (Internet access, content and web services, other services);
- o International/domestic leased line and Internet Protocol data services;
- o Voice over Internet Protocol services; and
- o Facilities (sale, rental and maintenance of dark fiber between the Hungarian border and the Romanian City of Timisoara).

Our other subsidiary, Navigator Informatika Rt., operates through its wholly owned subsidiaries, Navigator Info Kft. and Navigator Engineering Kft. and is engaged in information technology outsourcing, applications development and information technology consulting services primarily in the Hungarian market. Navigator's client base includes primarily large organizations both in the corporate and institutional (public) sector.

9

Business of Invitel

Founded in 1994, Invitel offers telephony, Internet, and data services to residential and business customers in Hungary. Invitel is the incumbent operator in 9 out of 54 primary service areas. In the rest of Hungary, Invitel is an alternative telecom operator with a national fibre backbone, metropolitan area networks and point-to-multi-point microwave access system.

Invitel's corporate headquarters is located at Invitel Tavkozlesi Szolgaltato Rt. Puskas Tivadar u. 8-10 H-2040 Budaros, Hungary (Tel: 0036 1 801 1355).

Reasons for the Transaction

The Board of Directors believes the sale of the Subsidiaries, which are engaged in the business of providing Internet Service in Hungary and Romania, is the culmination of the Company's strategy that was first implemented in 1997 of identifying and developing companies within emerging industries for the purpose of consolidation and sale if favorable market conditions exist. Although the

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Company primarily focuses on the operation and development of its core businesses, the Company pursues consolidations and sale opportunities as presented.

The Company commenced the consolidation strategy in various Central and Eastern European countries as follows:

- o in Hungary, with the acquisition of various Internet and telecommunications companies in 1997 that were eventually consolidated and named Euroweb Hungary, the acquisition of Elender Rt. in 2004 and the acquisition of Navigator in 2005;
- o in Romania, with the acquisition of several Internet and telecommunications companies in 2000 that were eventually consolidated and named Euroweb Romania;
- o in Slovakia, with the acquisition of several Internet and telecommunications companies from 1999 to 2000, that were eventually consolidated and named Euroweb Slovakia; and
- o in Czech Republic, with the acquisition of two Internet and telecommunications companies during 1999 and 2000 that were eventually consolidated and named Euroweb Czech Republic.

In 2004, the Company elected to sell its Internet Service assets located in the Czech Republic and Slovakia as the Company received offers it believed were above the market value of such assets. Further, the disposition of the Subsidiaries, Euroweb Hungary and Euroweb Romania, for a purchase price of \$30,000,000 will allow the Company to redeploy capital to acquire additional assets in IT space and other as-yet unidentified industries that the Company deems profitable, as well as focus its expertise in the area of IT outsourcing in Central and Eastern Europe. If the opportunity presents itself, the Company will consider implementing its consolidation strategy with its remaining subsidiary and any other business that it enters. However, the Company does not presently have any plans, proposals or arrangements to redeploy its capital or engage in any acquisitions. The Company has not yet identified any specific new industries in which to invest.

Management considered the possibility of putting the Subsidiaries on the public auction block. Management decided against this for a number of reasons related to the specialized nature of the business and management's belief that only companies already in the relevant business area (i.e. the Subsidiaries' competitors) would be interested in purchasing the Subsidiaries. Specifically, management decided against a public auction for the following reasons:

- o The Internet Service industry is extremely competitive. Accordingly, protecting the primary assets consisting largely of intellectual properties is inherently a risk-filled proposition. The Company's management was extremely concerned that a "public" sale of the Subsidiaries would simply lead to competitors engaging in the due diligence process for no purpose other than to glean confidential information.

- o The Company was also of the view that public disclosure of the proposed sale would lead to key employees becoming unnecessarily

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

concerned and possibly leaving the Company's subsidiaries to find increased security elsewhere and in particular, with competitors of the Subsidiaries.

- o Based on the Company's private negotiations for the sale of the Subsidiaries with several parties, the Company believes that the price being paid by Invitel is the best price the Company could reasonably secure.

Prior to entering into the Agreement, during the past two years there has been no other negotiations, transactions or contacts between the Company and Invitel concerning any merger, consolidation, acquisition, tender offer, election of the Company's directors or the sale of a material amount of assets of the Company. There are no present or proposed material agreements, arrangements, understandings or relationships between the Company or any of its executive officers, directors, controlling persons or subsidiaries and Invitel or any of its executive officers, directors, controlling persons or subsidiaries.

Risks

The sale of the Subsidiaries will reduce the lines of business which we conduct. This decrease in diversification of our business could serve to magnify any downturns in the remaining business lines. In particular:

- o Our ability to adjust to changes in consumer demand or economic shifts could be materially impacted.
- o After classifying the Subsidiaries as discontinued operations (see "Accounting Treatment"), our revenue for the year ended December 31, 2004 will decrease to \$-0- from \$28,111,786 and our revenue for the nine months ended September 30, 2005 will decrease to \$0 from \$32,390,844.
- o After classifying the Subsidiaries as discontinued operations, our net loss from continuing operations for the year ended December 31, 2004 will increase to \$1,261,909 from a net loss of \$1,099,176 and our net loss from continuing operations for the nine months ended September 30, 2005 will increase to a loss of \$1,146,114 from an income of \$55,667.
- o Although we solicited a number of offers for the Subsidiaries, there can be no assurance that the value may not be higher in a sale to other purchasers.
- o The loss of expected synergies and a common customer base between Navigator Informatika Rt. and Euroweb Hungary, which may limit Navigator Informatika Rt.'s ability to generate revenue and may also have a goodwill impairment effect.
- o As a result of the sale of the Subsidiaries and the acquisition of Navigator, the Company may be deemed to have entered a new line of business and, as a result of the change of such business line, The Nasdaq Stock Market may request that we reapply for listing and satisfy all initial listing standards despite the fact that the Company will have continuing operations in Central and Eastern Europe.
- o If the Company fails to have the Agreement approved at a shareholders meeting by June 30, 2006, the Company will be obligated

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

to reimburse Invitel for its expenses associated with the acquisition of the Subsidiaries not to exceed EUR 400,000 and this payment, combined with loss of proceeds from the failed sale of the Subsidiaries, may result in the Company experiencing financial difficulty with respect to its cash position.

Absence of Dissenters' Rights of Appraisals

Under the applicable provisions of GCL, Euroweb's stockholders will have no rights in connection with the proposed sale of the Subsidiaries to seek appraisal for the fair value of their shares of common stock.

11

Votes Required

The approval of the sale of 100% of the Company's interest in the Subsidiaries as contemplated in the Agreement entered into by and between Invitel and the Company will require an affirmative vote of the majority of the votes cast in person or by proxy, provided that a quorum is present at the special meeting.

Interest of Related Parties in the Proposed Sale of the Subsidiaries to Invitel

During the initial stages of due diligence and negotiation, a third party expressed interest to the Company to purchase the Subsidiaries for US \$26,000,000. In order to provide management of the Company with the appropriate motivation to achieve the highest possible purchase price, the Company's Compensation Committee was granted the discretionary ability to pay a bonus to members of management that were associated with the Company receiving a purchase price in excess of US \$28,000,000 for the Subsidiaries. The bonus, which is at the discretion of the Compensation Committee, will be up to 20% of the purchase price received in excess of US \$28,000,000. Upon the Company closing on the sale of the Subsidiaries for US \$30,000,000 to Invitel, a bonus of up to US \$400,000 (or 20% of US \$2,000,000) may be paid by the Compensation Committee to select members of management. To the best of our knowledge, except for the Bonus, none of the Company's officers or directors have a financial interest in the proposed sale of the Subsidiaries to Invitel.

Accounting Treatment

Under accounting principles generally accepted in the United States of America, upon stockholder approval of the proposed sale, we expect to reflect the results of operations of the Subsidiaries as discontinued operations. The expected gain on the sale of the Subsidiaries, net of any applicable taxes, will be reflected in discontinued operations in the quarter during which the proposed sale closes.

Federal Income Tax Consequence

The proposed sale of the Subsidiaries should have no direct income tax consequences to the Company stockholders. The proposed sale of the Subsidiaries will be reported by the Company as a sale of assets for federal income tax purposes in the fiscal year ending December 31, 2006. The proposed sale of the Subsidiaries will be a taxable transaction for United States federal income tax purposes. Accordingly, the Company will recognize a gain or loss with respect to the proposed sale of the Subsidiaries in an amount equal to the difference

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

between the amount of the consideration received for each asset over the adjusted tax basis in the asset sold.

Regulatory Approvals

No United States Federal or state regulatory requirements must be complied with or approvals obtained as a condition of the proposed sale of the Subsidiaries other than federal securities laws. However, the sale of the Subsidiaries is contingent upon the issuance by the Hungarian Economic Competition Office of its unconditional approval of the sale of the Subsidiaries to Invitel. According to the deadlines defined in the Agreement, an application for the approval of the proposed transaction was filed on January 17, 2006 with the Hungarian Economic Competition Office.

Security Ownership of Certain Beneficial Owners and Management

The Board of Directors and Stockholders
Euoweb International Corp.

We have audited the accompanying consolidated balance sheet of Euoweb International Corp. and subsidiaries as of December 31, 2004, and the related consolidated statements of operations and comprehensive loss, stockholders' equity, and cash flows for the years ended December 31, 2004 and 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

1. Organization of Business

Euroweb International Corp. is a Delaware corporation which was organized on November 9, 1992. The largest shareholder of Euroweb International Corp. was KPN Telecom B.V. ("KPN"), a Netherlands corporation, with a 43.6% shareholding at

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

December 31, 2004.

Euroweb International Corp. owns and operates Internet service providers in Hungary, Slovakia and Romania (collectively referred to as the "Company"). The Company operates in one business segment. In January 2005 the Company decided to sell its operations in Slovakia (see Note 17, Subsequent Events).

Acquisition of remaining 51% of Euroweb Internet Szolgaltato Rt ("Euroweb Rt.").

The Hungarian operations are conducted through Euroweb Rt. In February 2004, the Company acquired the remaining 51% of Euroweb Rt. that it did not already own from Pantel Telecommunication Rt. ("Pantel Rt.") and Euroweb Rt. is fully consolidated in the financial statements for all periods presented (see Note 2 (q) below).

The consideration paid by the Company for the 51% interest comprised EUR 1,650,000 (USD \$2,105,000) in cash, and a guarantee that Euroweb Hungary Rt. will purchase at least HUF 600 million (approximately \$3 million) worth of services from Pantel Rt. in each of the three years ending December 31, 2006.

Acquisition of Elender Business Communications Rt. ("Elender Rt.")

On June 9, 2004, the Company acquired all of the outstanding shares of Elender Rt., an Internet Service Provider ("ISP") located in Hungary. Consideration paid of USD \$9,350,005 consisted of USD \$6,500,000 in cash and 677,201 of the Company's common shares valued at USD \$2,508,353 excluding registration cost, and USD \$341,652 in transaction costs (consisting primarily of professional fees incurred related to attorneys, accountants and valuation advisors). The results of Elender Rt. have been included in the Company's consolidated financial statements from the date of acquisition.

In accordance with the purchase method of accounting prescribed by SFAS No. 141 "Business Combinations" ("SFAS 141"), the Company allocated the consideration to the tangible net assets and liabilities and intangible assets acquired, based on their estimated fair values. The consideration has been allocated as follows:

Fair value of Elender Rt.'s recorded assets acquired and liabilities assumed	1,379,404
Identified intangibles - customer contracts	2,730,420
Excess purchase price over allocation to identifiable assets and liabilities (Goodwill)	5,240,181

Total Consideration	\$ 9,350,005
	=====

In performing this purchase price allocation of acquired intangible assets based in part on the valuation performed by an independent appraiser, the Company considered its intention for future use of the assets, analyses of historical financial performance and estimates of future performance of Elender Rt.'s services, among other factors. Acquired identifiable intangible assets obtained in the Company's acquisition of Elender Rt. relate to customer contracts which are being amortized over the estimated useful life of 2.5 years.

The Company estimated the fair values of the identified intangibles - customer contracts using the "income" valuation approach and discount rates ranging from 14% to 18%. The discount rates selected were based in part on the Company's weighted average cost of capital and determined after consideration of the Company's rate of return on debt and equity, and the risk associated with achieving forecasted cash flows.

The excess of the purchase price over the fair value of the identifiable tangible and intangible net assets acquired was assigned to goodwill. In

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

accordance with SFAS No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"), goodwill will not be amortized but will be tested for impairment at least annually.

F-7

Although the former owners of Elender Rt. received shares of common stock of the Company, each of the former owners of Elender Rt. currently holds less than 10% of the outstanding shares of common stock in the Company. Therefore, they are not considered related parties and those transactions are shown as third party transactions in the accompanying consolidated financial statements of the Company.

Sale of Euroweb Czech

On December 16, 2004, the Company sold all of its shares in its wholly-owned subsidiary, Euroweb Czech for cash of \$500,000. However, as a part of the transaction, the Company effectively forgave \$400,000 of loans receivable from Euroweb Czech. The Company believes that the sale of Euroweb Czech meets the criteria for presentation as a discontinued operation under the provisions of Statements of Financial Accounting Standard ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets, therefore all periods are restated to reflect Euroweb Czech Republic as discontinued operations.

The following unaudited pro-forma information presents a summary of consolidated results of operations of the Company, as if the acquisition of Elender Rt., the disposal of Euroweb Czech, and the planned disposal of Euroweb Slovakia (see Note 17 Subsequent Events), had occurred at January 1, 2003.

	December 31, 2004	December 31, 2003
Revenues	43,341,912	39,686,447
Net loss	(2,408,146)	(2,741,788)
Net loss per share	\$(0.45)	\$(0.51)

The above unaudited pro forma summarized results of operations are intended for informational purposes only and, in the opinion of management, are neither indicative of the financial position or results of operations of the Company had the acquisition and disposals actually taken place as of January 1, 2004 or 2003, nor indicative of the Company's future results of operations. The above unaudited pro forma summarized results of operations do not include potential cost savings from operating efficiencies or synergies that may result from the Company's acquisition of Elender Rt.

2. Summary of Significant Accounting Policies and Practices

(a) Principles of consolidation and basis of presentation

The consolidated financial statements comprise the accounts of the Company and its controlled subsidiaries. All material inter-company balances and transactions have been eliminated upon consolidation and all adjustments, consisting mainly of normal recurring accruals necessary for a fair presentation, have been made. The purchase of the remaining 51% of Euroweb Hungary has been accounted in a manner similar to a pooling-of-interest with prior periods being restated.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP").

(b) Use of estimates

The preparation of consolidated financial statements requires management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates and assumptions made by the Company include the period of benefit and recoverability of goodwill and other intangible assets. Actual results could differ from those estimates.

F-8

(c) Fair value of financial instruments

The carrying values of cash equivalents, investment in debt securities, notes and loans receivable, accounts payable, loans payable and accrued expenses approximate fair values.

(d) Revenue recognition

Revenue Recognition--The Company applies the provisions of SEC Staff Accounting Bulletin ("SAB") No. 104, Revenue Recognition in Financial Statements, which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB No. 104 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. In general, the Company recognizes revenue related to its billable services when (i) persuasive evidence of an arrangement exists, (ii) services have been rendered, (iii) the fee is fixed or determinable and (iv) collectibility is reasonably assured. Generally, these criteria are met monthly as the Company's service is provided on a month-to-month basis and collection for the service is generally made within 30 days of the service being provided.

Billable services revenues are recognized in the period in which fees are fixed or determinable and the related services are provided to the user. When the Company's subscribers pay in advance for services, revenue is recognized ratably over the period in which the related services are provided. Advance payments from users are recorded on the balance sheet as deferred revenue. In circumstances where payment is not received in advance, revenue is only recognized if collectibility is reasonably assured.

Access revenues consist of monthly fees charged to customers for dial-up Internet access services. Access revenues also consist of fees charged for high-speed, high-capacity access services including digital subscriber lines ("ADSL") and leased lines. Voice revenue relates to the transmission of voice information in digital form in discrete packets. Revenues are recognized on a monthly basis based on usage.

Data revenue refers to the provision of leased lines to business customers. Revenues are derived from monthly fixed fees and are recognized in the month earned.

Domain registration revenue is usually billed in advance for a period of between 0-2 years. It is recorded as deferred revenue on the balance sheet and is taken into income monthly on a straight-line basis.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Web design relates to services performed for customers who require assistance with setting up a web page. Revenue is recognized once the final product has been accepted by the customer. Any work-in-progress is classified as "other assets" on the balance sheet.

Hosting revenues consist of fees earned by leasing server space and providing web services to companies and individuals wishing to present a web or e-commerce presence. Revenues are derived from monthly fixed fees and are recognized in the month earned.

Revenues from prepaid calling card sales are recognized when the customer uses the cards and are based on the ratio of actual minutes used to minutes purchased. Once the prepaid calling cards expire, any remaining prepaid amounts are recognized as revenues.

In 2002, the Company entered into an agreement to provide transmission capacity to a customer pursuant to an indefeasible rights-of-use agreement ("IRU"). Since the Company's IRU does not involve a transfer of title and other factors, management believes the agreement does not qualify for up-front sales treatment despite collection in full of the \$920,000 arrangement fee. The Company has accounted for this transaction as an operating lease under Financial Accounting Standards Board Interpretation No. 13, "Accounting for Leases" ("FAS 13"). This accounting has resulted in a substantial amount of deferred revenue being recorded on the balance sheet. Revenue attributable to the transaction is being recognized on a straight-line basis over the term of the 20-year lease agreement (monthly \$3,833).

F-9

The Company is also obligated to maintain its network in efficient working order and in accordance with industry standards. The customer is obligated for the term of the agreement to pay for their allocable share of the costs for operating and maintaining the network.

(e) Cost of revenues (excluding depreciation and amortization)

Cost of revenues (excluding depreciation and amortization) comprise principally of telecommunication network expenses, costs of content services and cost of leased lines and are recognized as incurred.

(f) Foreign currency translation

The Company considers the United States Dollar ("US\$") to be the functional currency of the U.S. entity and unless otherwise stated, the respective local currency to be the functional currency of its subsidiaries. The reporting currency of the Company is the US\$ and accordingly, all amounts included in the consolidated financial statements have been translated into US\$.

The balance sheets of subsidiaries are translated into US\$ using the year end exchange rates. Revenues and expenses are translated at average rates in effect for the periods presented. The cumulative translation adjustment is reflected as a separate component of shareholders' equity, "other comprehensive income (loss)", on the consolidated balance sheet for Euroweb Hungary, Euroweb Romania and Euroweb Slovakia. Until December 31, 2003 the Company considered Romania a highly inflationary economy (under SFAS 52) and, therefore the U.S. dollar was used as the functional currency, with resulting gains/losses on translation being charged directly to the Statement of Operations.

Foreign currency transaction gains and losses are also included in the

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

consolidated results of operations for the periods presented.

(g) Cash and cash equivalents

Cash and cash equivalents at December 31, 2004 include cash at bank and short-term deposits of less than three months duration.

(h) Investment in securities

Investments in marketable debt securities are classified as available-for-sale and are recorded at fair value with any unrealized holding gains or losses included as a component of other comprehensive income until realized. Investments with remaining maturities of greater than one year are classified as long-term, while those with remaining maturities of less than one year are classified as short-term. A decline in the market value of available-for-sale securities below cost that is deemed to be other-than-temporary temporary results in a reduction in the carrying value amount to fair value. Such impairment is charged to earnings and a new cost basis for the security is established. In assessing whether an impairment is other-than-temporary, the Company considers several factors including, but not limited to, the ability and intent to hold the investment, reason and duration for the impairment and forecasted performance of the investee.

(i) Property and equipment

Property and equipment are stated at cost, less accumulated depreciation. Equipment purchased under capital lease is stated at the present value of minimum lease payments at the inception of the lease, less accumulated depreciation. The Company provides for depreciation of equipment using the straight-line method over the shorter of estimated useful lives of up to four years or the lease term. Total depreciation from continuing operations for the years ended December 31, 2004 and 2003 was \$ 1,933,632 and \$1,569,224 respectively.

F-10

Recurring maintenance on property and equipment is expensed as incurred.

Any gain or loss on retirements and disposals are included in the results of operations.

(j) Goodwill and Intangibles

Goodwill results from business acquisitions and represents the excess of purchase price over the fair value of net assets acquired. Amortization was computed over the estimated future period of benefit (generally five years) on a straight-line basis until December 31, 2001. On January 1, 2002 the Company adopted Statement of Financial Accounting Standard No. 142 ("SFAS 142"), "Goodwill and Other Intangible Assets," which establishes that goodwill and intangible assets acquired in a business combination and that have indefinite useful lives are no longer amortized but rather are tested at least annually for impairment. The first step of this test requires the Company to compare the carrying value of any reporting unit that has goodwill to the estimated fair value of the reporting unit. When the current fair value is less than the carrying value, the Company performs the second step of the impairment test. This second step requires the Company to measure the excess of the recorded goodwill over the current value of the goodwill by performing an exercise similar to a purchase price allocation, and to record any excess as an impairment.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Intangible assets that have finite useful lives (whether or not acquired in a business combination) are amortized over their estimated useful lives but also reviewed for impairment in accordance with FASB No. 144 "Accounting for Impairment or Disposal of Long Lived Assets". Intangibles currently consist of customer contracts which were acquired as a result of a purchase of assets and are being amortized over the estimated future period of benefit of 2.5 years. The assessment of recoverability and possible impairment are determined using estimates of undiscounted future cash flows, if an impairment has occurred. The Company then measures impairment based on the amount by which the carrying value of the customer lists exceeds its fair market value. Fair market value is determined primarily using the projected future cash flows discounted at a rate commensurate with the risk involved.

(k) Net loss per share

The Company has adopted Statement of Financial Accounting Standards No. 128, "Earnings per Share," ("SFAS No. 128"), which provides for the calculation of "basic" and "diluted" earnings per share. Basic earnings (loss) per share include no dilution and is computed by dividing income(loss) attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share reflects the potential effect of common shares issuable upon exercise of stock options and warrants in periods in which they have a dilutive effect. The Company had potentially dilutive common stock equivalents for the years ended December 31, 2004 and 2003, which were not included in the computation of diluted net loss per share because they were antidilutive.

(l) Comprehensive income

Comprehensive income includes all changes in equity except those resulting from investments by, and distributions to, owners. All items that are required to be recognized under current accounting standards as components of comprehensive income are required to be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company has chosen to present a Combined Statement of Operations and Comprehensive Loss.

F-11

(m) Business segment reporting

The Company's operations fall into one industry segment: providing Internet access and additional value added services to business customers. Substantially all of the Company's revenues are derived from the provision of such services. The Company manages its operations, and accordingly determines its operating segments, on a geographic basis. Consequently, the Company has three operating segments: Euroweb Hungary, Euroweb Romania, and Euroweb Slovakia.

(n) Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets, net of appropriate valuation allowances, and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities, if any, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

(o) Stock-Based compensation

The Company applies the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations including FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25" to account for its fixed plan stock options. Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price. SFAS No. 123, "Accounting for Stock-Based Compensation," ("SFAS No. 123") and FASB Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure, an amendment of FASB Statement No. 123" established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. As allowed by existing standards, the Company has elected to continue to apply the intrinsic value-based method of accounting described above, and has adopted the disclosure requirements of SFAS No. 123, as amended.

Under the accounting provisions of SFAS No. 123, the Company's 2004 and 2003 net loss and net loss per share would have been increased to the pro forma amounts indicated below:

	2004	2003 (restated)
Net loss:		
Net loss as reported	\$ (734,454)	\$ (1,791,027)
Compensation expense	(943,164)	(110,482)
Pro forma net loss	(1,677,618)	(1,901,509)
Basic and diluted loss per share:		
As reported	\$ (0.15)	\$ (0.38)
Pro forma	(0.33)	(0.41)

(p) Recently Issued Accounting Standards

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Share-Based Payment. SFAS No. 123(R) requires an entity to recognize the grant-date fair value of stock options and other equity-based compensation issued to employees in the income statement, but expresses no preference for a type of valuation model. For small business issuers, the Statement is effective as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. Early adoption is encouraged for interim or annual periods for which financial statements or interim reports have not been issued. The Company is currently assessing the impact SFAS 123(R) may have on its financial statements.

F-12

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets: an amendment of APB Opinion No. 29, which is part of the short-term international convergence project between the FASB and IASB. SFAS 153 eliminates a company's ability to use the similar productive assets concept to account for nonmonetary exchanges at book value without recognizing a gain. Nonmonetary exchanges will have to be accounted for at fair value, with gain or loss recognized, if the transactions meet a commercial-substance criterion and fair value is determinable. SFAS 153 is effective for nonmonetary asset exchanges in fiscal periods beginning after June 15, 2005, and early application is permitted for nonmonetary asset exchanges occurring in fiscal periods beginning after December 16, 2004. The Company is currently assessing the impact SFAS 153 may have on its financial statements.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

In December 2004 the Financial Accounting Standards Board ("FASB") issued SFAS No. 151, Inventory Costs, which amends Chapter 4, Inventory Pricing, of Accounting Research Bulletin No. 43, Restatement and Revision of Accounting Research Bulletins. The Statement was issued as a result of the FASB's and International Accounting Standards Board's ("IASB") joint project to improve the comparability between U.S. and international accounting standards. SFAS 151 eliminates the so abnormal criterion in ARB 43 and requires companies to recognize abnormal freight, handling costs, and amounts of wasted material (spoilage) as current-period charges. Additionally, the Statement clarifies that fixed production overhead cost should be allocated to inventory based on the normal capacity of the production facility. SFAS 151 is effective for inventory costs incurred during annual periods beginning after June 15, 2005. The Company is currently assessing the impact SFAS 151 may have on its financial statements.

FASB Statement No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, was issued in May 2003. This Statement establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. The Statement also includes required disclosures for financial instruments within its scope. For the Company, the Statement was effective as of January 1, 2004, except for mandatory redeemable financial instruments. For certain mandatorily redeemable financial instruments, the Statement will be effective on January 1, 2005. The effective date has been deferred indefinitely for certain other types of mandatorily redeemable financial instruments. The Company currently does not have any financial instruments that are within the scope of this Statement.

On April 30, 2003, the FASB issued FASB Statement No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities, which amends FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities, to address (1) decisions reached by the Derivatives Implementation Group, (2) developments in other Board projects that address financial instruments, and (3) implementation issues related to the definition of a derivative. The Company does not believe that FAS 149 will have any impact on its financial statements.

(q) Business Combination following the "as-if" pooling-of-interest method of accounting

On February 12, 2004, the Company entered into a Share Purchase Agreement with a related party, Pantel Rt. ("Pantel") to acquire the remaining 51% of Euroweb Hungary shares that the Company did not already own. Pantel's majority shareholder is also KPN. As this was a transaction between entities under common control (at the date of the acquisition, KPN owned 50.17% of the voting common shares of the Company and 75% of the voting common shares of Pantel Rt.), the transaction was recorded in a manner similar to a pooling-of-interest, and accordingly the historical consolidated financial statements have been restated to include the financial position, results of operations and cash flows of Euroweb Hungary for all periods presented. Since the purchase consideration was in excess of Euroweb Hungary's book value by \$2,142,556 it is accounted for as a distribution to KPN which resulted in a deduction from retained earnings at the closing of the transaction. There were no intercompany transactions requiring elimination in any period.

Most (approximately 87%) of the Customer contracts relate to an Elender Rt. contract to provide internet access to schools in Hungary. The remaining items are leased line contracts of Elender Rt. These contracts are being amortized over a period of 2.5 years from the date of acquisition (June 2004).

Goodwill and Impairment Charges

The Gross book value of Goodwill relates to the following reporting units under SFAS 142: Euroweb Romania (\$2,455,223), Euroweb Slovakia (\$4,413,173), and Euroweb Hungary (\$6,578,891). The Goodwill of Euroweb Slovakia was fully impaired by December 31, 2003, and the Goodwill of Euroweb Romania had been impaired down to \$566,000. The Goodwill relating to Euroweb Hungary arose on the acquisition of Elender Rt. (\$5,240,181) which has now been merged into Euroweb

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Hungary and is considered as one reporting unit for purposes of SFAS 142. The other Goodwill of \$1,338,710 relating to Euroweb Hungary arose from several acquisitions and had been fully impaired by December 31, 2003.

At the beginning of 2005 the Company performed its annual impairment test relating to the goodwill as of December 31, 2004. The Company compared the fair value of the reporting units (Euroweb Romania and Euroweb Hungary) to their carrying amounts, noting that in each case the fair value was higher than the carrying amount, and that no impairment charge was required.

In 2003 impairments of \$563,000 for Euroweb Slovakia, \$324,957 for Euroweb Romania, and \$92,581 for Euroweb Czech were recorded. The 2003 Euroweb Czech impairment is included in the 'loss from discontinued operations' line item in the accompanying Consolidated Statement of Operations.

The net book value of goodwill of \$5,806,181 as of December 31, 2004 relates to Euroweb Romania (\$566,000) and Euroweb Hungary (\$5,240,181).

6. Leases

Capital leases

The Company is committed under various capital leases, which expire over the next three years. The amount of assets held under capital leases included in property and equipment is as follows:

	2004
Leased Internet equipment gross value	128,560
Leased vehicles gross value	355,791
Total gross book value leased assets	484,351
Less accumulated depreciation	(90,570)
Total net book value leased assets	\$ 393,781

The following is a schedule of future minimum capital lease payments (with initial or remaining lease terms in excess of one year) as of December 31, 2004:

2005	284,463
2006	94,201
2007	54,159
Total minimum lease payments	432,823
Less interest costs	(37,086)
Present value of future minimum lease payments	395,737
Less: current installments	(247,378)
Non-current portion of lease obligations	\$ 148,359

The current portion of lease obligations are included in 'Other current liabilities' on the Balance Sheet.

Operating leases

The Company's subsidiary in Slovakia (as Lessee) has a five year non-cancelable lease agreement for office premises. Remaining minimal rental payments total

Edgar Filing: EUOWEB INTERNATIONAL CORP - Form PRER14A

approximately \$380,000; \$138,000 in each of 2005 and 2006, and \$104,000 in 2007.

The Company's subsidiary in Hungary (as Lessee) has a seven year non-cancelable lease agreement for office premises. Remaining minimal rental payments total approximately EUR 1,282,176; EUR 320,544 in each of 2005, 2006, 2007 and 2008.

In 2002, the Company (as Lessor) entered into a twenty year Indefeasible Right of Use agreement to provide transmission capacity and collected the \$920,000 lease payment in full in the same year (Note 2(d)).

7. Bank loans, overdraft, and notes payable

On June 1, 2004, Elender Rt. (which has now been merged with Euroweb Hungary) entered into a bank loan agreement with Commerzbank (Budapest) Rt. The agreement consists of a loan facility of HUF 300 million (approximately \$1.67 million) of which approximately \$1,070,000 was outstanding at December 31, 2004. The loan is being repaid in quarterly installments of HUF 14.5 million (approximately \$80,000), commencing November 30, 2004. The interest rate is BUBOR (Budapest Interbank Offered Rate) + 1.35%.

In addition, the bank also provided an overdraft facility of HUF 150 million (approximately \$830,000) to Elender Rt. The Company did not need to utilize this facility as at December 31, 2004. The interest rate is BUBOR (Budapest Interbank Offered Rate) + 1%.

Notes payable of approximately \$808,000 relate to outstanding liabilities to three previous shareholders of Elender Rt.: Vitonas Investments Limited, Certus Kft. and Rumed 2000 Kft. The outstanding amount is payable in four equal quarterly installments of HUF 36.438 million (approximately \$202,000), with the final payment on December 31, 2005.

8. Related party loan payable

During 2002 Pantel Rt., a related party, provided a loan of HUF 245,000,000 (approximately \$ 1.36 million using 2004 exchange rate) to a subsidiary of the Company. The loan bears interest at a rate of 13% and is repayable in five equal installments from December 2004 semi-annually until the end of 2006. The year-end balance reflects the payment made in December 2004.

9. Discontinued Operations and disposal of subsidiaries

On December 16, 2004, the Company sold all of its shares in its wholly-owned subsidiary, Euroweb Czech for cash of \$500,000. However, as a part of the transaction, the Company effectively forgave \$400,000 of loans receivable from Euroweb Czech. The Company believes that the sale of Euroweb Czech meets the criteria for presentation as a discontinued operation under the provisions of Statements of Financial Accounting Standard ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets, therefore all periods are restated to reflect Euroweb Czech Republic as discontinued operations. The Company recognized a gain of approximately US \$409,000 on the sale of Euroweb Czech.

F-15

On April 13, 2004, the Company sold its 100% shareholding in Neophone Rt. (a non-operational subsidiary) for approximately \$60,000, realizing a gain of \$28,751. In 2003, Euroweb Hungary sold two subsidiaries for approximately \$ 5,000. A gain of \$ 109,621 was recorded on the sales due to the fact that both subsidiaries had net liabilities at the time of sale.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

10. Income taxes

Deferred Tax Assets and Liabilities

Upon the acquisition of Elender Rt., the Company recognized a net Deferred Tax Liability of \$294,005 related to the excess of fair value of net assets over carrying values. As most of the excess relates to the recognition of customer contracts (Note 5) which is being amortized over a period of 2.5 years from acquisition, the Deferred Tax Liability is being reduced proportionately. \$83,576 was expensed in 2004. Elender Rt. had tax loss carryforwards of approximately \$1.9 million (resulting in a potential Deferred Tax Asset of \$312,005) which could be carried forward post acquisition. An amount up to the value of the Deferred Tax Liability (\$294,005) was recognized as a Deferred Tax Asset at acquisition and the remaining deferred tax asset of \$18,000 is covered by a valuation allowance (subsequent recognition of the benefits of this valuation allowance will be credited against Goodwill from the Elender acquisition). This amount has been reduced at year-end to \$253,425.

The deferred income tax expense of zero in 2004 is a result of a \$83,576 deferred income tax benefit due to the excess of acquisition of Elender Rt., and is offset by a deferred income tax expense of \$83,576 to reduce Deferred Tax Assets.

The loss from continuing operations before income taxes by tax jurisdiction for the years ended December 31 2004 and 2003 was as follows:

	2004	2003
	-----	-----
Loss from continuing operations before income taxes:		
Domestic	\$ (1,670,486)	(1,370,658)
Foreign	633,677	17,155
	-----	-----
Total	\$ (1,036,809)	\$ (1,353,503)
	=====	=====

The current income tax expense of \$62,367 (2003: 61,590) is attributable to income/loss from continuing operations and relates entirely to current foreign tax.

F-16

The difference between the total expected tax expense (benefit) and tax expense for the years ended December 31, 2004 and 2003 is accounted for as follows:

	2004		2003	
	Amount	%	Amount	%
	-----	-----	-----	-----
Computed expected tax Benefit	\$ (352,515)	(34.00)	\$ (460,191)	(34.00)
Foreign Tax Rate Differential	696,053	67.13	50,922	3.76
Utilization of net operating losses not previously recognized	(55,732)	(5.38)	(51,529)	(3.81)

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Change in tax rates	--	--	194,390	14.36
Non-deductible expenses	17,178	1.66	333,383	24.63
Change in Valuation Allowance	(242,617)	(23.40)	(5,385)	(0.40)
Total Expense	\$ 62,367	6.02%	\$ 61,590	4.55%

The change in the tax rates in 2003 results from the fact that the corporate tax rate in Hungary was 18% for 2003 and prior years, but in 2003, the Hungarian parliament enacted a tax rate of 16% for 2004 and subsequent years. The net impact of the change in tax rates has no material impact on the financial statements as the Company has provided a full valuation allowance for deferred tax assets (see below).

The tax effects of temporary differences that give rise to significant portions of deferred tax assets at December 31, 2004 and 2003 are as follows:

	2004	2003
Deferred Tax Assets:		
Net Operating Loss Carryovers	\$ 5,328,292	\$ 5,241,133
Other	--	76,351
Capital Loss Carryovers	--	63,801
Gross Deferred Tax Assets	5,328,292	5,381,385
Valuation Allowance	(5,074,867)	(5,381,385)
Net Deferred Tax Assets	253,425	--
Deferred Tax Liabilities (Intangibles)	(253,425)	--
Net Deferred Tax Assets	\$ --	\$ --

The valuation allowance was \$6,384,117 at January 1, 2003. During 2004, the valuation allowance decreased by \$306,518, while during 2003 it decreased by \$1,002,732.

F-17

The Company has unused net operating loss carryforwards at December 31, 2004 of approximately \$20 million available to offset future taxable income. Of this amount, approximately \$10 million of losses that arose in the first three years of operation in Hungary can be carried forward indefinitely based on current Hungarian Tax Legislation. Of the remaining \$10 million of losses, \$1.9 million expire in various years from 2005-2010, \$1.6 million expires in 2011, and the remaining \$6.5 million expire in various years from 2016 through 2024. The Tax Acts of some jurisdictions contain provisions which may limit the net operating loss carryforwards available to be used in any given year if certain events occur, including significant changes in ownership interests. The Company has not assessed the impact of these provisions on the availability of Company loss carryovers since the deferred tax assets are fully offset by the valuation allowance.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

dependent upon the generation of future taxable income during the periods in which those temporary differences and tax loss carryforwards become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes that it is more likely than not that the Company will realize the benefit of these deductible differences, net of existing valuation allowances at December 31, 2004.

11. Stockholders' Equity

On April 28, 2004, the Company granted 125,000 options to the Chief Executive Officer and an additional 195,000 options to five employees and 45,000 options to two consultants of the Company (see Note 14(a)). As the Company follows APB 25 with respect to accounting for grants made to employees, no compensation expense was recorded for the options granted to the Chief Executive Officer and the five employees. However, the Company will recognize total compensation charges of approximately \$162,000 for the grants made to the two consultants, which will be expensed over the vesting period of three years (compensation expense for the year ended December 31, 2004 was \$94,212).

In connection with the acquisition of Elender Rt. (Note 1), the Company issued 677,201 of common shares. The Company is in the process of registering these common shares.

12. Related party transactions

General: The largest customer of the Company since early 2001 has been Pantel Rt. ("Pantel"), a Hungary-based alternative telecommunications provider. As at December 31, 2004, KPN was the majority owner of Pantel and the largest shareholder of the Company. Pantel operates within the region and has become a significant trading partner for Euroweb Romania through the provision of a direct fiber cable connection, which enables companies to transmit data to a variety of destinations by utilizing the international connections of Pantel. Due to the increase in revenues from International/domestic leased line and VOIP services provided in conjunction with Pantel, some of the representatives of the Company work at the premises of Pantel in order to improve the effectiveness of the co-operation on international projects and daily operational issues. Csaba Toro, Chief Executive Officer of Euroweb International Corp., was also the Chief Executive Officer of Pantel until February 2003.

Transactions: Euroweb Hungary and Euroweb Romania have engaged in transactions with Pantel:

(a) Pantel provides the following services to the subsidiaries of the Company:

- Internet bandwidth
- National leased and telephone lines within Hungary
- VOIP services
- Consulting services

The total amount of these services purchased from Pantel was \$6,198,505 during 2004 (2003: \$5,796,350). Additionally, consulting services amounted to \$292,864 in 2003, there was no such services in 2004. In 2004, Pantel Rt. charged interest of \$154,761 (2003: zero).

F-18

(b) The Company and its subsidiaries provided the following services to Pantel:

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

- International leased lines and local loops in Hungary and Romania
- International IP and VOIP services
- Certain consultants are hired by the Company, but also work on projects for Pantel. In these cases, Pantel is recharged a portion of the consulting fees

The total value of these services sold was approximately \$8,503,939 in 2004 (2003: \$5,740,709).

Direct sales to Pantel were 23% of total consolidated revenue in 2004 (2003: 26%). However, the dependency on Euroweb Romania on Pantel is even more significant. Some third party sales involve Pantel as the subcontractor/service provider for the international/domestic lines, and some third party customers were introduced to the Company by Pantel (i.e. their relationship with Pantel is stronger than their relationship with Euroweb Romania).

Effective dependency on Pantel: Direct sales to Pantel and Pantel-related sales represent approximately 30% of total consolidated revenues of the Company and approximately 80% of total sales of Euroweb Romania. There is no such sales dependency in the case of Euroweb Hungary and Euroweb Slovakia.

Pricing: Agreements are made at market prices or a portion of the margin based on the financial investment into the specific services by each of the parties. The Company considers alternative suppliers for individual projects, when appropriate.

There were no other significant related party transactions in 2004 or 2003.

13. Commitments and Contingencies

(a) Employment Agreements

A fixed-term employment agreement with the Chief Executive Officer which provided for aggregate annual compensation of \$96,000 through December 31, 2005 was amended in 2004. The amended agreement provides for an annual salary of \$200,000 and a bonus of up to \$150,000 in each of 2005 and 2006, as well as an annual car allowance of \$30,000.

Two fixed-term employment agreements for Officers of the Company provide for an aggregate monthly compensation of \$ 18,750 until December 31, 2005.

(b) Lease agreements

The Company's subsidiaries have entered into various capital leases for vehicles and internet equipment, as well as non-cancelable agreements for office premises. Refer to Note 6 (Leases).

(c) 20 years' usage rights

In 2002, Euroweb Romania provided an Indefeasible Right of Use for transmission capacity on 12 pairs of fiber (see Note 6) over a period of 20 years, commencing in 2003. For the duration of the agreement, Euroweb Romania is obliged to use all reasonable endeavours to ensure the Cable System is maintained in efficient working order and in accordance with industry standards.

F-19

(d) Legal Proceedings

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

There are no known significant legal procedures that have been filed and are outstanding against the Company.

(e) Elender Rt. acquisition

On June 9, 2004 the Company acquired all of the outstanding shares of Elender Business Communications Rt., a leading ISP in Hungary, for USD 6,500,000 in cash and 677,201 of the Company's shares of common stock. Under the terms of this agreement, the Company has placed 248,111 unregistered shares of newly issued (in the name of the Company) common stock with an escrow agent as security for approximately \$1.5 million loans payable to former shareholders of Elender. The shares will be returned to the Company from escrow once the outstanding loans have been fully repaid. However, if there is a default on the outstanding loan, then the shares will be issued to the other party and the Company is then obliged to register these shares.

Pursuant to section 1 of the Registration Rights Agreement signed on June 1, 2004 with the Sellers of Elender Rt., if the shares of the Company's common stock were not registered within 120 days of Closing (Closing was on June 9, 2004) for reasons attributable to the Company, a penalty of \$ 2,000 per day is payable until the shares are registered. The Company is in the process of registering the shares of common stock issued in connection with the Elender Rt. acquisition. The Company has made a provision of \$170,000 to accrue for potential penalties under this Clause until December 31, 2004.

(f) Euroweb Hungary purchase guarantee

In February 2004, the remaining 51% of Euroweb Hungary was purchased from Pantel Rt. The Consideration paid by the Company for the 51% interest consisted of EUR 1,650,000 (USD \$2,105,000) in cash, and a purchase commitment that Euroweb Hungary Rt. will purchase at least HUF 600 million (approximately \$3 million) worth of services from Pantel Rt. in each of 2004-2006. In the event that Euroweb Hungary and its subsidiaries do not satisfy this commitment, Pantel Rt. may charge a penalty equal to 25% of the commitment amount less any services purchased. Purchases in 2004 exceeded this amount.

(g) Indemnities provided upon sale of subsidiaries

On April 13, 2004, the Company sold its 100% shareholding in Neophone Rt. (a non-operational subsidiary) for approximately \$60,000. Under the terms of the sale the Company has indemnified the Buyer for any unaccrued costs, fines, penalties and lawsuits which relate to a period prior to the sale. No claims have been made to date.

Under the terms of the sale agreement for Euroweb Czech (see Note 9), the Buyer has a right to make claims against the Company for up to \$200,000 under representation and warranties provisions of the sale agreement. This provision is applicable for claims made within 12 months of closing. No claims have been made to date.

14. Stock Option Plan and Employee Options

a) Stock Option Plan

The Company's Stock Option Plan expired in 2003, although unexpired options issued under this Plan are exercisable until expiry. At December 31, 2004, options for 26,000 (December 31, 2003: 46,000) Common Stock were outstanding and exercisable (by the Chief Executive Officer) under this Stock Option Plan.

In 2004, the Board of Directors established the "2004 Incentive Plan" or "the Plan", with an aggregate of 800,000 shares of common stock authorized for issuance under the Plan. The Plan provides that incentive and nonqualified

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

options may be granted to key employees, officers, directors and consultants of the Company for the purpose of providing an incentive to those persons. The Plan may be administered by either the Board of Directors or a committee of two directors appointed by the Board (the "Committee"). The Board or Committee determines, among other things, the persons to whom stock options are granted, the number of shares subject to each option, the date or dates upon which each option may be exercised and the exercise price per share.

F-20

Options granted under the Plan are generally exercisable for a period of up to ten years from the date of grant. No Option shall be transferable, except by will or the laws of descent and distribution. Incentive options granted to a Principal Stockholder must have an exercise price of not less than 110% of the fair market value of the underlying stock on the date of the grant. The Company will not grant a nonqualified option with an exercise price less than 85% of the fair market value of the underlying common stock on the date of the grant.

Under the Plan, the Company on April 26, 2004 granted 125,000 options to the Chief Executive Officer and an additional 195,000 options to five employees and 45,000 options to two consultants of the Company. All of these options have an exercise price equal to the market price on day of grant (\$4.78), vest over a period of between 3-4 years and relate to future services to be performed. As the Company follows APB 25 with respect to accounting for grants made to employees, no compensation expense will be recorded for the options granted to the Chief Executive Officer and the five employees. However, the Company will recognize total compensation charges of approximately \$162,000 for the grants made to the two consultants, which is being expensed over the vesting period of three years.

(b) Other Options

The Company has issued exercisable options pursuant to employment agreements. As of December 31, 2004 (and 2003) fully vested options are outstanding and exercisable for 63,000 shares pursuant to the employment agreement with the Chief Executive Officer. The options were granted on April 2, 1999 (with exercise price equal to stock price at date of grant) and expire on April 2, 2005. The options are exercisable at \$ 10.00 per share.

On October 13 2003, the Company granted two Directors 100,000 options each, at an exercise price (equal to the fair value on that day) of \$4.21 per share, with 25,000 options vesting on each April 13 of 2004-2007.

(c) Accounting for stock-based options

SFAS No. 123, "Accounting for Stock-Based Compensation," ("SFAS No. 123"), requires the Company to provide pro forma information regarding net income and earnings per share as if compensation cost for the Company's stock options had been determined in accordance with the fair value-based method prescribed in SFAS No. 123. The Company estimates the fair value of each stock option at the grant date by using the Black-Scholes option-pricing model.

The amount calculated as total compensation expense under SFAS No. 123 is \$632,766 for the 200,000 options granted to directors on October 13, 2003, and \$1.3 million for the 365,000 options granted on April 26, 2004 (calculated at grant date using Black-Scholes valuation model with volatility of 88%, interest rate of 4%, expected life of 6 years and a no-dividend assumption). Under the accounting provisions of SFAS No. 123, this compensation expense is recorded over the vesting period of the options (3-4 years) and the Company's 2004 and 2003 net loss and net loss per share would have increased to the pro forma

15. Stock Warrants

As at December 31, 2003 the total number of shares for which warrants have been issued and are exercisable (at \$ 11 per share) was 10,000. These warrants expired unexercised on May 2, 2004. No warrants were issued in 2004.

16. Geographic information

The Company's operations fall into one industry segment: providing Internet access and additional value added services to business customers. The Company

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

manages its operations, and accordingly determines its operating segments, on a geographic basis. Consequently, the Company has three operating segments: Euroweb Hungary, Euroweb Romania, and Euroweb Slovakia. The performance of geographic operating segments is monitored based on net income or loss from operations (before income taxes, interest, and foreign exchange gains/losses). The accounting policies of the segments are the same as those described in the summary of accounting policies in Note 2. There are no inter-segment sales revenues.

17. Subsequent events

(a) Status of Pantel Rt. as a related party

On February 28, 2005, it was announced that the sale of KPN NV's 75.1% interest in the Pantel business to the Hungarian Telephone and Cable Corp. had been completed. Therefore, Pantel is no longer considered a related party effective March 1, 2005.

(b) Euroweb Slovakia

In January 2005, the Company decided that the operations of Euroweb Slovakia were no longer considered part of the core assets of the Company. In light of this decision, the Company, in January 2005, approached a potential buyer interested in acquiring internet service providers in Slovakia. The Company is currently negotiating the sale of Euroweb Slovakia with this potential buyer. The Company intends to treat Euroweb Slovakia as a discontinued operation for purposes of US GAAP reporting in future periods, with appropriate restatement of comparative prior period amounts. The following table presents the carrying amounts of the major classes of assets and liabilities of Euroweb Slovakia as at December 31, 2004:

	2004

Current assets	1,480,522
Long-term assets	234,557
Total assets	\$ 1,715,079
Current liabilities	1,244,310
Long-term liabilities	6,701
Total liabilities	\$ 1,251,011
Net equity	\$ 464,068

(c) Announced sale of the Company's shares by KPN

Pursuant to a Stock Purchase Agreement dated as of January 28, 2005, between KPN Telecom B.V. (the largest shareholder of the Company), and CORCYRA d.o.o. ("CORCYRA"), CORCYRA purchased 289,855 shares of the Company's common stock from KPN Telecom B.V. and has also agreed to purchase KPN Telecom B.V.'s remaining shares of the Company's common stock by April 30, 2006.

(d) Potential acquisition

In March 2005, the Company signed a Letter of Intent relating to a potential acquisition. The finalisation of the transaction terms is subject to the completion of due diligence procedures (currently underway) and agreement on terms which will be detailed in a formal purchase agreement. The purchase consideration, if the transaction goes ahead, is expected to comprise a combination of cash and Company stock.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Navigator Informatika Rt.
Budapest, Hungary

We have audited the accompanying combined balance sheet of Navigator Informatika Rt. and subsidiaries (the "Company") as of December 31, 2004, and the related combined and consolidated statements of income, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Navigator Informatika Rt. and subsidiaries as of December 31, 2004, and the results of their operations and their cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

1. Organization and Business

Navigator Informatika Rt. ("Navigator") was incorporated on July 17, 2001. On December 1, 2004, Navigator purchased 100% of the shares of Navigator Info Kft. and its wholly owned subsidiary Navigator Engineering Kft, for THUF 280,000 in a transaction under the common control of Wallis Rt., the parent company of all entities involved in this transaction. Navigator Informatika Rt. and its subsidiaries are referred to as the "Company."

The Company provides a full range of information technology outsourcing services. The information technology ("IT") outsourcing services provided by the Company primarily comprise IT maintenance, procurement, consultancy and related services.

On October 7, 2005, Euoweb International Corp. and one of its subsidiaries purchased 100% of the outstanding shares of common stock of Navigator from Marivaux Investments Limited and Graeton Holdings Limited for USD 8.5 million (THUF 1,758,650 as of October 7, 2005) cash and 441,566 shares of common stock of Euoweb International Corporation.

2. Summary of Significant Accounting Policies

Accounting Principles

The financial statements and accompanying notes have been prepared in conformity with accounting principles generally accepted in the United States of America.

Basis of Presentation

The financial statements comprise the accounts of Navigator, Navigator Info Kft. (the wholly-owned subsidiary of Navigator) and Navigator Engineering Kft. (the wholly-owned subsidiary of Navigator Info Kft.) Navigator acquired Navigator Info Kft. in December 2004 for THUF 280,000 in a transaction under the common control of Wallis Rt. Accordingly, the transaction was accounted in a manner similar to a pooling-of-interests, with all prior periods being restated

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

as if the entities were combined for all periods presented. The purchase consideration was in excess of the value of Navigator Info Kft. net assets recorded by Navigator upon the transaction. The excess consideration over recorded net assets, of THUF 240,000, was accounted for as a distribution to Wallis Rt., which resulted in a deduction from retained earnings.

On August 12, 2004, Wallis Rt. indirectly acquired 100% of the shares of AM-IT Rt. (which was subsequently renamed to Navigator) from an unrelated third party. Pursuant to Statement of Financial Accounting Standards ("SFAS") No. 141, Business Combinations, at this date, the assets and liabilities of Navigator were measured at their fair values. The purchase price adjustments and goodwill were pushed down to Navigator in accordance with Staff Accounting Bulletin No. 54. "Push-down" is a basis of accounting that reflects the parent company's cost in the separate financial statements of a purchased subsidiary. Accordingly, as of August 12, 2004, the assets and liabilities of Navigator were stepped up to reflect the accounting basis of Wallis Rt. in Navigator's assets and liabilities.

Total consideration	365,000
	=====

In determining the fair value of the acquired customer contract, the Company considered its intention for future use of the asset and analyses of historical financial performance and estimates of future performance of Navigator Rt.'s services. The Company used an income-based valuation approach, using discount rates ranging from 16% to 18%. The contract is being amortized over the estimated remaining useful life of 4.5 years. In allocating the purchase price, the THUF 59,040 excess of fair value over purchase price

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

consideration was allocated as a pro-rata reduction of the values assigned to non-current assets. The carrying value of the net assets prior to the above-described step-up was THUF 125,000. The increase in the recorded values of those assets upon the step-up was THUF 240,000, which amount was recorded as additional paid-in capital.

All material intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

All financial instruments are carried at amounts that approximate fair value.

Cash and Cash Equivalents

Cash and cash equivalents include cash at bank and short-term deposits with maturities of three months or less at the date of purchase.

Inventory

Inventory, comprised of IT hardware for resale, is carried at the lower of cost or market. Deposits paid by the Company for inventory are recorded as prepayments until the Company takes title to the inventory.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Equipment purchased under capital leases is stated at the present value of minimum lease payments at the inception of the lease less accumulated depreciation. Leased assets are depreciated using a straight-line method over the estimated useful lives of the leased asset.

The Company provides for depreciation of property and equipment using the straight-line method over the following estimated useful lives:

Software	3 years
Computer equipment	3-5 years
Other furniture equipment and fixtures	5-7 years
Server room removable fixtures	17 years

Recurring maintenance on property and equipment is expensed as incurred.

Long-lived Assets

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

The Company periodically reviews long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives of those assets are no longer appropriate. Each impairment test is based on a comparison of the undiscounted cash flows to the recorded value of the asset. If the undiscounted cash flows exceeds the recorded value of the asset, the asset is written down to its estimated fair value based on a discounted cash flow analysis.

Revenue Recognition

The Company recognizes revenue when persuasive evidence of an arrangement exists, the product or service has been delivered, fees are fixed or determinable, collection is probable and all other significant obligations have been fulfilled. Revenues from maintenance services are recognized in the month in which the services are provided, either based on performance or on fixed monthly fees. The Company defers revenue recognition for payments on contracts for which services have not been performed.

9

Navigator Informatika Rt. and subsidiaries Notes to the Combined and Consolidated Financial Statements In thousands of Hungarian Forint, except share data

The Company also generates non-recurring revenue from consulting fees for implementation, installation, configuration, testing and training related to the use of third party licensed products. The Company recognizes revenue for these services as they are performed, if contracted on a time and materials basis, or using the percentage of completion method, if contracted on a fixed fee basis and when the cost of the consulting project can be reliably estimated. Percentage of completion is measured based on cost incurred to date compared to total estimated cost at completion.

When the cost to complete a project cannot be reliably estimated, the Company recognizes revenue using the completed contract method until such time that the cost to complete the project can be reliably estimated.

Cost of Revenues

Cost of revenues principally comprises cost of fixed assets sold during the course of IT outsourcing projects, cost of materials required to perform IT outsourcing activities and cost of project-dedicated sub-contractors.

Foreign Currency Translation

The Company considers the Hungarian Forint ("HUF") to be its functional currency.

Gains and losses from foreign currency transactions and the translation of monetary assets or liabilities not denominated in Hungarian forints are included in the income statements in the period in which they occur.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities, net of appropriate valuation allowances, are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities, if

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

any, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123(R)"). SFAS 123(R) requires an entity to recognize the grant-date fair value of stock options and other equity-based compensation issued to employees in the income statement. The Company has concluded that SFAS No.123 (revised 2004) currently has no impact on its financial statements, as the Company does not provide equity-based compensation to employees.

10

Navigator Informatika Rt. and subsidiaries Notes to the Combined and Consolidated Financial Statements In thousands of Hungarian Forint, except share data

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets: an amendment of APB Opinion No. 29" ("SFAS 153"). SFAS 153 eliminates a company's ability to use the similar productive assets concept to account for nonmonetary exchanges at book value without recognizing a gain.

Nonmonetary exchanges will have to be accounted for at fair value, with gain or loss recognized, if the transactions meet a commercial-substance criterion and fair value is determinable. SFAS 153 is effective for nonmonetary asset exchanges in fiscal periods beginning after June 15, 2005, and early application is permitted for nonmonetary asset exchanges occurring in fiscal periods beginning after December 16, 2004. The Company does not believe that SFAS 153 will have any impact on its financial statements.

In December 2004, the FASB issued SFAS No. 151, "Inventory Costs - an amendment of ARB No. 43, Chapter 4" ("SFAS 151"). SFAS 151 amends Accounting Research Bulletin No. 43, Chapter 4, "Inventory Pricing" ("ARB 43") to eliminate the "so abnormal" criterion in ARB 43 and requires companies to recognize abnormal freight, handling costs, and amounts of wasted material (spoilage) as current-period charges.

Additionally, SFAS 151 clarifies that fixed production overhead cost should be allocated to inventory based on the normal capacity of the production facility. SFAS 151 is effective for inventory costs incurred during annual periods beginning after June 15, 2005. The Company currently does not have any inventory that is within the scope of SFAS 151.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections" which replaces Accounting Principles Board Opinions No. 20 "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." This statement applies to all voluntary changes in accounting principle and changes resulting from adoption of a new accounting pronouncement that does not specify transition requirements. SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle should be recognized in the period of the accounting change. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 with early implementation permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this statement was issued. SFAS 154 is effective for the Company as of January 1, 2006 and is not expected to have a material impact on the Company's financial statements.

7. Related Party Transactions

The Company has entered into transactions with related parties both during the course of its normal operating activities and during the course of acquiring certain assets and assuming certain liabilities of Wallitrade Kft., as well as the purchase of the shares of Navigator Info Kft. These transactions are summarized below:

Related Party Loans Receivable

As of December 31, 2004, THUF 38,474 of the balance of total related party loans receivable relates to a short-term loan provided to Wallitrade Kft., a party related by common ownership. The loan was granted in November 2004 and bears interest at the base rate of the Hungarian National Bank.

The remaining amount of THUF 21,067 relates to the cash pool financing arrangement described below.

Cash Pool Financing

The Company has a cash pool agreement with Wallis Rt., the Company's ultimate parent, whereby all surplus cash at bank of the Company and other companies directly and indirectly owned by Wallis Rt. (collectively, "Wallis Group") are sent to a head office account on a daily basis. If there are funds drawn on an external overdraft facility, then cash is sent by Wallis Rt. to the particular subsidiary in order to minimize interest costs to Wallis Group. As of

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

January 1, 2004, the Company had transferred THUF 37,965 to Wallis Rt. under this cash pool agreement. As of December 31, 2004, THUF 38,410 was received from Wallis Rt. in order to maintain a zero position in Navigator's external bank overdraft facility, while Navigator's subsidiaries had transferred cash at bank of THUF 21,067 to Wallis Rt. - resulting in net borrowings of the Company from Wallis Rt. of THUF 17,343 as of December 31, 2004. The charge for the cash pool financing is one-month BUBOR.

Related Party Loan Payable

In September 2001, a related party provided a loan of THUF 30,000 to the Company to finance working capital. The interest rate of the loan was BUBOR (Budapest Interbank Offered Rate) +1%. The balance as of December 31, 2004 was THUF 18,000. The balance was fully repaid in March 2005.

Purchase of Wallitrade assets

In December 2004, the Company signed an agreement to purchase part of the net assets of Wallitrade Kft. from Wallis Group in several stages.

The first stages were completed in December 2004, and the following assets were purchased:

	THUF
Inventory	23,200
Fixed assets	157,500

Total	180,700

Note 14 (Subsequent events) details the completion of the purchase of part of Wallitrade's net assets in 2005.

Acquisition of Shares in Navigator Info Kft.

The Company acquired all of the issued shares of Navigator Info Kft. for consideration of THUF 280,000 in December 2004. As the acquisition was made from an entity under common control (all of the companies were owned directly or indirectly by Wallis Rt. at the time of the acquisition in December 2004), the transactions were accounted in a manner similar to a pooling of interests (see note 2).

Operating Transactions

The Company provides IT outsourcing services to related parties. Total revenues generated from these services were THUF 60,900 (exclusive of VAT) during 2004.

Commitment Related to Advance Payment for Inventory

As part of its IT outsourcing relationship with a large customer, the

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form PRER14A

Company concluded an agreement in 2004 whereby it agreed to procure IT assets for resale to the customer. A deposit with the supplier for THUF 80,763 was made in December 2004. The assets were delivered to the Company in February 2005 and installed by the Company at the customer's site in the same month, when the remaining payment of THUF 193,200 was paid by the Company to the supplier.

Subsidy

In 2003, the Company was granted a government subsidy of THUF 16,800 in connection with a government related project. The Company used the funds to subsidize sub-contractor costs in connection with the establishment of a government portal. The Company has a commitment to maintain the portal until May 2007, and the government has the right to demand the entire amount of the funds (with interest at twice the Hungarian National Bank rate) if the Company does not fulfill its obligations until May 2007.

12. Income Taxes

The statutory corporate tax rate in Hungary was 16% as of December 31, 2004. Neither the Company nor its subsidiaries have any tax net operating loss carryforwards from prior years.

The corporate income taxes of THUF 4,807 arise from the fact that the reported loss before income taxes of THUF 30,795 includes THUF 22,704 of fixed asset write-offs and THUF 19,800 of customer list amortization, which are not deductible under Hungarian taxation rules, and THUF 16,100 of provision for doubtful accounts which are deductible when the receivables are written off.

The Company recognized a deferred tax liability of THUF 47,451 in connection with the recognition of the customer contract (note 6). The balance at December 31, 2004 represents the deferred tax liability of THUF 43,423 relating to the excess of carrying values of customer contracts over their respective tax bases. The deferred tax liability will be recognised in the statements of operations as the customer contract is amortized over its remaining term until February 2009. The Company has no other significant deferred tax assets or liabilities.

13. Dependency on Certain Customers

49% of the consolidated sales revenue in 2004 is derived from one customer, which was a former owner of the Company. 78% of the 2004 annual sales revenue was generated from the four most significant customers of the Company. As of December 31, 2004, trade receivables of THUF 124,774 were due from Antenna Hungaria, the former owner of the Company, while the other three largest customers owed a total of THUF 62,093.

Edgar Filing: EUOWEB INTERNATIONAL CORP - Form PRER14A

three month BUBOR +2.5%, in order to finance the payment for the Wallitrade net assets noted above. The loan is repayable in 14 quarterly instalments of THUF 14,380 plus quarterly interest starting on May 31, 2005. The shares of the Company were pledged as collateral for this loan, as well as a general lien established on all of the assets of the Company.

In addition to the long-term loan agreement, the Company also concluded an overdraft facility with the Bank for THUF 130,000 on July 20, 2005. Additionally, on September 1, 2005, the Company concluded a short-term loan facility agreement with the Bank for THUF 30,000 to fund working capital. 1. Basis of Presentation

Navigator Informatika Rt. ("Navigator") is a Hungarian Corporation, which was owned until October 7, 2005 by Marivaux Investments Limited ("Marivaux") and Graeton Holdings Limited ("Graeton"), which are both registered under the laws of the Cyprus. Marivaux and Graeton [were][are] both [indirectly] owned by Wallis Rt. Navigator Informatika Rt., and its wholly owned subsidiaries, Navigator Info Kft. and Navigator Engineering Kft., are engaged in information technology outsourcing, applications development and information technology consulting services primarily in the Hungarian market.

The accompanying unaudited condensed financial statements of Navigator are stated in Hungarian Forints ("HUF") (the currency in Hungary) and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission regarding interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, these financial statements include all adjustments, consisting mainly of normal recurring accruals, necessary for a fair presentation of the results for the interim periods presented. Results for the interim periods are not necessarily indicative of the results for a full fiscal year. These unaudited condensed financial statements should be read in conjunction with Navigator's audited financial statements and notes thereto as of and for the year ended December 31, 2004.

On August 12, 2004, Wallis Rt. indirectly acquired 100% of the shares of AM-IT Rt. (which was subsequently renamed to Navigator) from an unrelated third party. Pursuant to Statement of Financial Accounting Standards ("SFAS") No. 141, Business Combinations, at this date, the assets and liabilities of Navigator were recorded at their fair values and excess unallocated purchase consideration recorded as goodwill. The purchase price adjustments and goodwill were pushed down to Navigator in accordance with SAB 54. "Push-down" is a basis of accounting that reflects the parent company's cost in the separate financial statements of a purchased subsidiary. Accordingly, as of August 12, 2004, Navigator stepped up the values of its consolidated assets and liabilities to reflect the accounting basis of Wallis Rt. in Navigator's assets and liabilities based on their estimated fair values. The consideration has been allocated as follows:

On April 6, 2005, the Company entered into a long-term loan agreement with Commerzbank Bank Rt (the "Bank") for THUF 201,250, with an interest rate of three month BUBOR +2.5%. The loan is repayable in 14 quarterly instalments of THUF 14,375 plus quarterly interest starting on May 31, 2005. In addition to the long-term loan agreement, the Company also entered into an overdraft facility with the Bank for THUF 130,000 on July 20, 2005.

Additionally, on September 1, 2005, the Company entered into a two-month loan facility agreement with the Bank for THUF 30,000 to fund working capital. The Company did not draw down funds under this agreement until October 2005.

EXHIBIT D

EUROWEB INTERNATIONAL CORPORATION

UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited pro forma condensed consolidated financial statements (the "unaudited pro forma financial statements") give effect to:

- o the sale of 100% of the interest of Euroweb International Corporation ("Euroweb") in each of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania")
- o the sale of 100% of Euroweb Slovakia a.s. ("Euroweb Slovakia"); and
- o the acquisition of 100% of Navigator Informatika Rt. ("Navigator")

Sale of 100% of the interest of Euroweb in Euroweb Hungary and Euroweb Romania

The unaudited pro forma financial statements give effect to the sale of 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The sale is expected to be completed prior to June 30, 2006. Euroweb Hungary and Euroweb Romania are together expected to be sold for approximately \$30,000,000 cash, less estimated transaction costs, severances, success fees and estimated guarantee provisions of approximately \$1,700,000.

Euroweb International Corporation ("Euroweb") believes that the sale of Euroweb Hungary and Euroweb Romania meets the criteria for presentation as a discontinued operation under the provisions of Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." The unaudited pro forma financial statements reflect the pro forma impact of the sale of Euroweb Hungary and Euroweb Romania on the financial position and results of operations of Euroweb for all of the historical periods presented. The estimated gain of \$16,251,443 on the sale of Euroweb Hungary and Euroweb Romania is not reflected in the unaudited pro forma condensed consolidated statements of operations due to the non-recurring nature of the gain.

Sale of 100% of Euroweb Slovakia

The unaudited pro forma financial statements give effect to the sale of 100% of Euroweb Slovakia. The sale was completed on April 15, 2005 and Euroweb Slovakia has already been reported in discontinued operations in the historic financial statements of Euroweb for the nine months ended September 30, 2005 and 2004 included in Euroweb's Form 10-QSB for the quarter ended September 30, 2005. Euroweb is not yet required to prepare financial statements for any historic

Edgar Filing: EUOWEB INTERNATIONAL CORP - Form PRER14A

complete fiscal year that includes Euroweb Slovakia in discontinued operations. Therefore, the unaudited pro forma financial statements reflect the pro forma impact of the sale of Euroweb Slovakia on the results of operations of Euroweb for the years ended December 31, 2004 and 2003.

1

Acquisition of 100% of Navigator Informatika Rt. ("Navigator")

The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2004 and the nine months ended September 30, 2005 and the unaudited pro forma condensed consolidated balance sheet as of September 30, 2005 also give effect to the acquisition by Euroweb of 100% of Navigator. Pro forma effect is given to this acquisition only for the most recent fiscal year presented in the unaudited pro forma financial statements and the subsequent interim period.

Euroweb acquired Navigator for approximately \$8,700,000 in cash consideration (including estimated direct transaction costs of \$200,000) and 441,566 shares of Euroweb common stock with a fair value of \$1,752,134, less estimated registration costs of \$70,000. The acquisition, which was closed on October 7, 2005, will be accounted for using the purchase method of accounting. Under this method, the purchase price has been allocated to the assets acquired and liabilities assumed based on preliminary estimates. The final purchase price allocation will be calculated based on the transaction value and the fair values of the identifiable assets and liabilities of Navigator as of October 7, 2005 (the date of closing of the purchase). Euroweb expects to finalize these matters in early 2006. Therefore, the actual amount of goodwill, as well as other balance sheet items, could differ from the amounts disclosed in the unaudited pro forma financial statements and actual amounts disclosed in future statements of operations of the Euroweb, such as intangible asset amortization and income taxes, may differ from the corresponding amounts disclosed in the unaudited pro forma condensed consolidated statements of operations.

The unaudited pro forma condensed consolidated balance sheet gives effect to the disposition of Euroweb Hungary and Euroweb Romania and the acquisition of Navigator Rt. as if it occurred on September 30, 2005. The unaudited pro forma condensed consolidated statements of operations give effect to the dispositions of Euroweb Hungary, Euroweb Romania and Euroweb Slovakia as though the dispositions had been in effect for all periods presented. The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2004 and the nine months ended September 30, 2005 give effect to the acquisition of Navigator as if it occurred on January 1, 2004. The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2003 and the nine months ended September 30, 2004 do not give effect to the acquisition of Navigator.

The pro forma adjustments described in the accompanying notes are based upon available information and certain assumptions that management believes are reasonable. The unaudited pro forma condensed consolidated statements of operations are for illustrative purposes only and are not necessarily indicative of the actual results of operations that would have occurred had the transactions described above occurred on the dates indicated, nor are they necessarily indicative of future operating results. The unaudited pro forma financial statements are only a summary and should be read in conjunction with the historical consolidated financial statements and related notes of the Euroweb, in its Form 10-KSB for the year ended December 31, 2004 and its Form 10-QSB for the nine month period ended September 30, 2005, and of Navigator in the Current Report on Form 8-K/A of Euroweb filed with the SEC on December 20, 2005.

Edgar Filing: EUOWEB INTERNATIONAL CORP - Form PRER14A

All pro forma amounts are presented in U.S. dollars, the reporting currency of Euroweb.

There were no material business transactions between Euroweb and Navigator during the periods presented.

- (K) Pro forma adjustments related to the sales of Euroweb Hungary, Euroweb Romania and Euroweb Slovakia and the purchase of Navigator, on the basis described in the introduction to these unaudited pro forma financial statements:
 - 1) Represents the cash proceeds of \$30,000,000 received upon the sale of Euroweb Hungary and Euroweb Romania.

 - 3) Represents the \$6,000,000 loan obtained by Euroweb Hungary under an agreement entered into with Commerzbank Hungary Rt. The loan bears interest at Budapest interbank offered rate ("BUBOR") plus 2.5% and is repayable beginning with instalments of \$166,493 on March 31, 2006 and June

30, 2006, followed by quarterly repayments of \$354,513 through June 30, 2010.

- 4) Reflects the early repayment of the \$6,000,000 Commerzbank loan described in 3), above, at the date of closing of the sale of Euroweb Hungary and Euroweb Romania as those entities are required under the terms of the sale to be free of debt.
- 5) Reflects the repayment of \$2,500,000 intercompany loan from Euroweb Hungary to Euroweb International at the date of closing originated from the Navigator acquisition
- 6) Represents the increase in fair value of a customer contract historically recognised by Navigator and the recognition of additional customer contracts as intangible assets upon acquisition of Navigator by Euroweb. The total amount assigned to customer contracts in the preliminary purchase price allocation is \$3,435,504, which is being amortized over the remaining terms of the contracts, ranging from one to four years.
- 7) Reflects the excess of estimated purchase price over the estimated fair value of net assets acquired as goodwill, which was calculated as set forth below:

9

The estimated purchase price has been calculated as follows:

	USD

Cash paid upon closing of the purchase	8,350,000
Cash deposit paid prior to closing of the purchase	150,000
Share-based consideration (441,566 shares of common stock of Euroweb at a share price of \$3.968)	1,752,134
Direct purchase costs accrued at September 30, 2005	121,808
Estimated additional direct purchase costs	78,192
Estimated total purchase consideration (a)	10,452,134

Following closing of the purchase of Navigator Rt., Euroweb will determine the fair value of the net tangible assets and the identifiable intangible assets acquired and allocate the estimated purchase price based on the purchase method of accounting. This unaudited pro forma information is based upon management's estimates, which are based, in part, on the preliminary results of an independent valuation, and is subject to material changes upon receipt of a final valuation. The preliminary estimated purchase price is allocated as follows:

	USD	USD
	-----	-----
Book value of net assets assumed		526,142
Fair value adjustments		
Customer contracts (note 13)	2,331,351	
Deferred tax (note 14)	(371,307)	

Total fair value adjustments		1,960,044

- 8) Represents the \$150,000 cash element of the purchase price paid as a deposit prior to closing of the purchase of Navigator Rt.
- 9) Represents direct costs of the purchase of Navigator Rt. incurred prior to September 30, 2005.
- 10) Represents estimated additional direct costs of the purchase of Navigator Rt.
- 11) Represents the amount of the subsequent registration of the 441,566 shares of common stock of Euroweb issued as part-consideration for Navigator. The present value of such costs is estimated to be not materially different from the amount estimated to be paid.
- 12) Represents the deferred tax liability of \$549,679 relating to the excess of carrying values of customer contracts over their respective tax bases. The deferred tax liability will be recognised in the statements of operations as the customer contracts are amortized over their remaining terms.
- 13) Reflects the elimination of Navigator's shareholders' equity accounts from the pro forma consolidated Euroweb shareholders equity upon consummation of the purchase of all Navigator shares.

10

- 14) Represents the element of the purchase price payable in shares of common stock of Euroweb, less estimated registration costs computed based on 441,566 shares and a share price of \$3.968, being the weighted average of opening and closing prices for a period from two days before to two days after July 26, 2005, the announcement date of the purchase of Navigator by Euroweb.
- 15) Adjustment to reflect the estimated pro forma gain on the sale of Euroweb Hungary and Euroweb Romania, after estimated direct transaction costs, success fees, severances and provision on estimated warranty claims of \$1,700,000 to be paid or payable in connection with the sale and net of the estimated tax liability (expected to be zero). Because the estimated pro forma gain assumes the sale was consummated on September 30, 2005, the estimated pro forma gain will ultimately differ from the actual gain that will occur at the closing date of sale.
- 16) Represents the increase to amortization charges as a result of the increased estimated fair value of identified customer contracts over their estimated useful lives of one to four years.
- 17) Represents the amortization of the deferred tax liability relating to the excess of carrying values of customer contracts over their respective tax bases
- 18) Adjustment to reflect the estimated direct transaction costs, success fees, severances and provision on estimated warranty claims of \$1,700,000 to be paid or payable in connection with the sale

No adjustments have been made to reflect any income tax effect of the pro forma adjustments since Euroweb has significant net
