Approximate Date of Commencement of Proposed Sale to the Public: As soon as practicable after the effective date of this Registration Statement.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, as amended, check the following box:

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If delivery of the prospectus is expected to be made pursuant to Rule 434, check the following box.

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to Be Registered(1)	Proposed Maximum Offering Price Per Share (1)(2)	Proposed Maximum Aggregate Offering Price (2)	Amount of Registration Fee
Common Stock, \$0.001 par value, issuable upon conversion of callable secured convertible notes	10,895,884(3)	\$1.10	\$11,985,472.40	\$1,410.69
Common Stock, \$0.001 par value issuable upon exercise of warrants	1,000,000(4)	\$1.10	\$1,100,000.00	\$129.47
		Total Fee		\$1,540.16*

* Previously paid

(1) The shares of our Common Stock being registered hereunder are being registered for resale by the selling stockholders named in the prospectus. In accordance with Rule 416(a), the registrant is also registering hereunder an indeterminate number of shares that may be issued and resold to prevent dilution resulting from stock splits, stock dividends or similar transactions.

(2) Estimated solely for the purpose of computing the amount of the registration fee pursuant to Rule 457(c) under the Securities Act of 1933, based on the closing price of \$0.60 on the OTC Bulletin Board on March 24, 2006.

(3) Represents shares of our Common Stock issuable upon conversion of outstanding callable secured convertible notes in the aggregate principal amount of \$4,500,000. The number of shares of our Common Stock registered hereunder represents a good faith estimate by us of the number of shares of our Common Stock issuable upon the conversion of the callable secured convertible notes. For purposes of estimating the number of shares of our Common Stock to be included in this registration statement, we calculated a good faith estimate of the number of shares that we believe will be issuable upon conversion of the callable secured convertible notes to account for market fluctuations, anti-dilution and price protection adjustments. Should the conversion ratio result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

(4) Represents shares of our Common Stock issuable upon the exercise of outstanding five-year warrants. The exercise price of the warrants is \$5.00. In accordance with Rule 416(a), the registrant is also registering hereunder an indeterminate number of shares that may be issued and resold to prevent dilution resulting from stock splits, stock dividends or similar transactions. In addition, should a decrease in the exercise price as a result of an issuance or sale of shares below the then current market price result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. The selling stockholders may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, March 29, 2006

PROSPECTUS

11,895,884 SHARES

INNOFONE.COM, INCORPORATED
COMMON STOCK

This prospectus relates to the resale of up to 11,895,884 shares of our Common Stock, par value \$0.001 per share ("Common Stock") of which: (i) 10,895,884 shares are issuable upon conversion of outstanding callable secured convertible notes in the aggregate principal amount of \$4,500,000 (the "Notes"); and (ii) 1,000,000 shares of Common Stock issuable upon exercise of stock purchase warrants (the "Warrants"). The Notes and the Warrants were issued to AJW Partners, LLC ("Partners"), AJW Offshore, Ltd. ("Offshore"), AJW Qualified Partners LLC ("Qualified") and New Millenium Capital Partners, II, LLC ("Millenium") (Partners, Offshore, Qualified and Millenium are referred to collectively as "Selling Securityholders"). The Selling Securityholders may sell their common stock from time to time at prevailing market prices.

Our Common Stock is registered under Section 12(g) of the Securities Exchange Act of 1934, as amended, and is quoted on the over-the-counter market and prices are reported on the OTC Bulletin Board under the symbol "INFN." On March 24, 2006, the closing price as reported was \$0.60 per share. Since our Common Stock trades below \$5.00 per share, it is considered a "penny stock" and is subject to SEC rules and regulations that impose limitations on the manner in which it can be publicly traded.

The selling stockholders, and any participating broker-dealers may be deemed to be "underwriters" within the meaning of the Securities Act of 1933, as amended, and any commissions or discounts given to any such broker-dealer may be regarded as underwriting commissions or discounts under the Securities Act of 1933. The selling stockholders have informed us that they do not have any agreement or understanding, directly or indirectly, with any person to distribute their common stock. We agreed to pay the expenses of registering the foregoing shares of our Common Stock.

INVESTMENT IN THE COMMON STOCK OFFERED BY THIS PROSPECTUS INVOLVES A HIGH DEGREE OF RISK. YOU MAY LOSE YOUR ENTIRE INVESTMENT. CONSIDER CAREFULLY THE "RISK FACTORS" BEGINNING ON PAGE 7 OF THIS PROSPECTUS BEFORE INVESTING.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is March __, 2006

You should rely only on the information contained in or incorporated by reference in this prospectus. We have not, and the selling stockholders have not, authorized anyone, including any salesperson or broker, to give oral or written information about this offering, Innofone.com, Incorporated, or the shares of common stock offered hereby that is different from the information included in this prospectus. If anyone provides you with different information, you should not rely on it. We are not, and the selling stockholders are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained in this prospectus is accurate only as of the date on the front cover of this prospectus. Our business, financial condition, results of operations and prospects may have changed since that date.

This prospectus is not an offer to sell any securities other than the shares of common stock offered hereby. This prospectus is not an offer to sell securities in any circumstances in which such an offer is unlawful.

PROSPECTUS SUMMARY

Although it contains all material information, this summary is not complete and may not contain all of the information that you should consider before investing in our Common Stock. You should read the entire prospectus carefully, including the more detailed information regarding our company, the risks of purchasing our common stock discussed under "risk factors," and our financial statements and the accompanying notes. In this prospectus, "we", "us," "Company" and "our", refer to Innofone.com, Incorporated, unless the context otherwise requires. Unless otherwise indicated, the term "year," "fiscal year" or "fiscal" refers to our fiscal year ending June 30th. Unless we tell you otherwise, the term "common stock" as used in this prospectus refers to our Common Stock.

History

On August 8, 2005, Innofone.com, Incorporated ("Innofone," the "Company," "we," "us" and "our") entered into a stock purchase agreement with Mr. Alex Lightman, our President and Chief Executive Officer, to purchase 100% of the issued and outstanding shares of IPv6 Summit Inc. ("IPv6 Summit"), an entity engaged in developing new technology referred to as Internet Protocol version 6. At the time of the Agreement, Mr. Lightman was the President, Treasurer, Director and sole shareholder of IPv6 Summit and was not an officer or director of Innofone. Pursuant to the agreement, on October 12, 2005 we issued to Mr. Lightman a promissory note in the principal amount of \$1,000,000 with interest at the rate of four percent (4%) per annum. On October 17, 2005, we amended and restated Mr. Lightman's promissory note to provide for a repayment schedule which will coincide with our receipt of funds under our current financing arrangement with four investors. Further, we issued to Mr. Lightman approximately 33,333,000 shares of our restricted common stock. As a result of the stock purchase agreement, IPv6 Summit became our wholly owned subsidiary of the Company. Prior to this acquisition, we operated as a holding company for companies involved in technology and financial services.

Overview

The Internet as we know it today is based on Internet Protocol version 4, more commonly referred to as IPv4, a 32-year-old protocol. The IPv4 Internet is beginning to receive a major upgrade, with a new format for packets of data called Internet Protocol version 6, or IPv6. We believe that IPv6, sometimes called the New Internet, presents many new business opportunities, in roughly the same manner that the existing Internet did when it first hit the mainstream in the mid-1990s.

We offer three related services that are relevant to IPv6: consulting, training and conference management; we are in the process of developing a fourth service, testing. We believe that we have deep expertise in these areas and hope to further expand these services. We are also in the early stages of a developing IPv6-related technology and have hired a Director of Product Development. We envision our IPv6 technology will be utilized in connection with our consulting, training and conference management services. We currently derive 80% of our revenue from our conference management services and 20% of our revenues from our consulting services. We anticipate generating additional revenues from our consulting and training services in 2006. However, we have incurred losses since inception and our common stock is subject to certain rules and regulations pertaining to "penny stocks".

We began our conference services from our date of incorporation, July 2003 after our Chief Executive Officer and a former employee successfully organized the first IPv6 Summit in the United States that attracted over 300 people. Revenue comes from charging individuals and corporations an admission fee of approximately \$200 to \$500 per person for each event and from charging corporations from \$4,000 to \$18,000 each for sponsorship that include an exhibit booth. There are slight variations to these charges depending on how many benefits are included.

We began offering our training services with the US IPv6 Summit in December 2003 with a tutorial that preceded the three-day IPv6 Summit by adding a day of activity for people who needed initial training, and who wanted to know

more about security than could be described in the Summit format. We added a separate training event, the Federal Chief Information Officer workshop, in October 2005. Revenues from training services come from admission fees to the events and are in the hundreds of dollars per person.

We began offering our consulting services in August 2005 with the sales of consulting agreements by our Chief Executive Officer domestically to the US Department of Defense IPv6 Transition Office, as a subcontractor to SI International, and Juniper Networks and internationally to North Atlantic Treaty Organization. Revenues from consulting are based on man-days and/or negotiated fees typically in the tens of thousands of dollars per engagement, with engagements in discussion in the hundreds of thousands of dollars.

We are in the early phases of developing our testing services. No revenues have been received, though we have received interest from a large public company to provide free test equipment. Testing revenues will not be generated until our test center is built and the first customers contracted. Revenues will come from, a fixed price schedule with payments in the thousands to tens of thousands of dollars per product or service tested in our lab.

Transition to IPv6

Simply put, one of the limitations of today's Internet is a shortage of addresses, so that the hardware or software equivalents of "middle men" are put into the system to let many people use one address, not unlike the old telephone party lines, where many people had the same "number," and everyone could listen in. The party line system had the advantage that a lot of people could be connected with few switched lines, but led to problems, such as lack of security. There was no way to assure that one person would be speaking with only one person at the other end. When every phone user got his/her own address, it led to many great new capabilities - such as privacy, the ability to deliver new services such as telefax messages to a particular person, and the ability to go mobile with cell phones, and caller ID, which enabled people to screen their calls, accepting only those they wanted to at that moment.

Similarly, the IPv6 will give everyone his or her personal address (or thousands of them, as needed), which enables the potential for "end-to-end" connectivity. Each individual can know for certain who the specific receiver at the other end is, and this allows the system to check for service quality, and allows much easier mobile use and roaming. Furthermore, this connectivity facilitates multiple layers of individual security measures rather than today's firewalls or network address translation, which offer little protection once a hacker has broken through the protective wall. The difference between the New Internet and the existing one is thought by some to be as dramatic as the difference between the phones with individual numbers that we have today and the phones with party lines of yesteryear.

The first major customers for the New Internet in the US were the Department of Defense, which in June 2003 mandated a transition within the Department that would make it “IPv6-capable” by 2008, and the Office of Management and Budget, on behalf of the Federal Government, which recently also mandated transition to IPv6, and the hundreds of large companies that supply these two entities. Many, but not all, major technology companies have appointed IPv6 points of contact and developed IPv6-related marketing messages, including Microsoft, Cisco, Juniper, Nokia, Hewlett-Packard and about fifty others in the US.

In 2005, as in 1995, we believe that the IPv6 space was occupied by first movers that both take advantage of the opportunities offered by the new technology and have a sound business plan to offer needed products and services to the United States and global markets. It is forecast that IPv6 will see some of the same rapid rise as the existing Internet did between 1995 and 2000, quickly growing from millions to billions, and potentially trillions of dollars in global revenues impacted by the Internet. The Japanese government, for instance, which has done a great deal of research into the upcoming IPv6 market, estimates the market size of IPv6-ready goods/services in the year 2010 to be 170 trillion yen, or about \$1.55 trillion in US currency.

We will offer and manage our consulting, training and conference management services from two corporate offices: our corporate headquarters in Santa Monica, California, and our Eastern Office in Northern Virginia.

Recent Developments

We entered into a Securities Purchase Agreement (the “Agreement”) with four accredited investors on August 31, 2005 for the sale of (i) \$4,500,000 in callable secured convertible notes (the “Notes”) and (ii) warrants to buy 1,000,000 shares of our Common Stock (“Warrants”). Pursuant to the Agreement, the investors are obligated to provide us with an aggregate of \$4,500,000 as follows: (a) \$1,500,000 was disbursed on September 1, 2005; (b) \$1,500,000 will be disbursed upon the filing of a registration statement covering shares of our common stock underlying the Notes and Warrants; and (c) \$1,500,000 will be disbursed upon the effectiveness of the registration statement. This registration statement covers the shares of our common stock that we may be required to issue in the event that the selling security holders convert their notes or exercise their warrants.

On October 18, 2005, we completed the relocation of our corporate headquarters to 1431 Ocean Avenue, Suite 1100, Santa Monica, California 90401 from 3470 Olney-Laytonsville, Road, Suite 118, Olney, Maryland 20832.

On March 20, 2006, we entered into a transaction with Digital Presence, Inc., a recently formed Delaware corporation, whereby we agreed to purchase up to 66.67% of the total issued and outstanding common stock shares of Digital Presence, Inc. in return for cash investment of a total of \$300,000 made in three (3) installment payments commencing on execution and ending on or about June 15, 2006. Digital Presence, Inc. is an entity which was formed for the purpose of creating a scalable and addressable IPv6 identity registry for application in various industries and government. Digital Presence, Inc. will be managed by employees other than those of the Company but the Company has the ability to elect one (1) member of the Board of Directors of Digital Presence, Inc. and maintains other rights, preferences and privileges through the subject investment.

Our headquarters are located at 1431 Ocean Ave., Suite 1100, Santa Monica, CA 90401 and our telephone number at that address is (310) 458-3233. We maintain five web sites at www.usipv6.com, www.coalitionsummit.com, www.innofone.net, www.v6tranistion.com and www.v6training.com. Information on our web sites is not a part of this prospectus.

TERMS OF CALLABLE SECURED CONVERTIBLE NOTES

We entered into a Securities Purchase Agreement with four accredited investors on August 31, 2005 for the sale of (i) \$4,500,000 in callable secured convertible notes and (ii) warrants to buy 1,000,000 shares of our Common Stock. This prospectus relates to the resale of our Common Stock underlying these callable secured convertible notes and warrants. The investors are obligated to provide us with an aggregate of \$4,500,000 in three tranches as follows (the “Tranches”): (a) \$1,500,000 was disbursed on September 1, 2005; (b) \$1,500,000 will be disbursed upon the filing of this registration statement; and (c) \$1,500,000 will be disbursed upon this prospectus being declared effective.

The funds from the sale of the callable secured convertible notes will be primarily used for working capital needs. The callable secured convertible notes bear interest at 8% (unless our common stock is greater than \$2.50 per share for each trading day of a month, in which event no interest is payable during such month), mature within three years from the date of issuance, and are convertible into our Common Stock, at the investors' option, at a per share price equal to the lesser of \$3.50 or 30% discount to the average of the three lowest trading prices of the Common Stock during the 20 day trading day period prior to conversion. In the event of any trading market limitations, the callable secured convertible notes become immediately due and payable and we will pay an amount equal to 130% times the sum of (a) the then outstanding principal amount of the Note immediately following the maximum conversion date (the date that we issue 19.99% of our issued and outstanding shares), plus (b) accrued and unpaid interest on the unpaid principal amount of the Note to within fifteen (15) days of the maximum conversion date, plus (c) default interest, if any, on the amounts referred to in clause (a) and/or (b) above, plus (d) any optional amounts that may be added thereto at the maximum conversion date by the holder (the then outstanding principal amount of this Note immediately following the maximum conversion date), plus the amounts referred to in clauses (b), (c) and (d) above shall collectively be referred to as the “**Remaining Convertible Amount**”). In the event that the sum of (x) the aggregate number of shares of Common Stock issued upon conversion of the Notes issued pursuant to the Purchase Agreement plus (y) the aggregate number of shares of Common Stock that remain issuable upon conversion of the Notes and the other Notes issued pursuant to the Purchase Agreement, represents at least one hundred percent (100%) of the maximum share amount (the “**Triggering Event**”), we will use its best efforts to seek and obtain Shareholder Approval (or obtain such other relief as will allow conversions hereunder in excess of the Maximum Share Amount) as soon as practicable following the Triggering Event and before the maximum conversion date. As used herein, “**Shareholder Approval**” means approval by our shareholders of the Company to authorize the issuance of the full number of shares of Common Stock which would be issuable upon full conversion of the then outstanding Notes but for the Maximum Share Amount. In connection with the issuance of the Notes, we agreed to register two times the number of shares of common stock issuable upon conversion of the Notes.

We shall have the right, exercisable on not less than ten (10) Trading Days prior written notice to the investor's (which notice may not be sent to the investors until we are permitted to prepay the Notes pursuant to the Agreement, to prepay all or a portion of the outstanding Notes. In the event the Common Stock is trading above \$3.50 per share, we shall have the right, exercisable on not less than ten (10) Trading Days prior written notice to the Investors prepay all or a portion of the outstanding Notes provided that we make an additional payment to the Investors equal to the difference between the trading price on the day immediately prior to the date of the notice and \$3.50 per share for that number of shares under the Note (or such portion of the Note being prepaid) would have converted (the “**Additional Payment**”). Any notice of prepayment hereunder (an “**Optional Prepayment**”) shall be delivered to the Investors of the Notes at their registered addresses appearing on our books and records and shall state (1) that we are exercising our right to prepay all or a portion of the Notes issued on the Issue Date, (2) the date of prepayment and (3) the amount of the prepayment and the amount of any Additional Payment as applicable (the “**Optional Prepayment Notice**”). On the date fixed for prepayment (the “**Optional Prepayment Date**”), we shall make payment of the Optional Prepayment Amount (as defined below) to or upon the order of the Investors as specified by the Investors in writing to us at least one (1) business day prior to the Optional Prepayment Date. If we exercise our right to prepay the Notes, we shall make payment to the Investors of an amount in cash (the “**Optional Prepayment Amount**”) equal to either (i) 115% (for prepayments occurring within thirty (30) days of the Issue Date), (ii) 125% for prepayments occurring between

thirty-one (31) and sixty (60) days of the Issue Date, or (iii) 130% (for prepayments occurring after the sixtieth (60th) day following the Issue Date), multiplied by the sum of (w) the then outstanding principal amount of this Note plus (x) accrued and unpaid interest on the unpaid principal amount of this Note to the Optional Prepayment Date plus (y) Default Interest, if any, on the amounts referred to in clauses (w) and (x) plus (z) any amounts owed to the Investor under the Agreement or the Registration Rights Agreement (the then outstanding principal amount of this Note to the date of payment plus the amounts referred to in clauses (x), (y) and (z) shall collectively be known as the “**Optional Prepayment Sum**”). Notwithstanding notice of an Optional Prepayment, the Investors shall at all times prior to the Optional Prepayment Date maintain the right to convert all or any portion of the Notes in accordance with Article I and any portion of Notes so converted after receipt of an Optional Prepayment Notice and prior to the Optional Prepayment Date set forth in such notice and payment of the aggregate Optional Prepayment Amount shall be deducted from the principal amount of Notes which are otherwise subject to prepayment pursuant to such notice. If we deliver an Optional Prepayment Notice and fails to pay the Optional Prepayment Amount due to the Investors of the Notes within two (2) business days following the Optional Prepayment Date, we shall forever forfeit our right to redeem the Notes.

So long as the Notes are outstanding we may not, without the investor's prior written consent: (a) pay any dividends, whether in cash or stock, (b) engage in any stock repurchases; (c) borrow any additional money (subject to several exceptions); (d) sell, lease or dispose of any significant portion of our assets outside the ordinary course of business; or (e) make any loans in excess of \$10,000.

The warrants are exercisable until five years from the date of issuance. The conversion price of the callable secured convertible notes and the exercise price of the warrants will be adjusted in the event that we issue common stock at a price below the fixed conversion price, below market price, with the exception of any securities issued in connection with the Securities Purchase Agreement. The conversion price of the callable secured convertible notes and the exercise price of the warrants may be adjusted in certain circumstances, such as, if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the selling stockholder's position. The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock. In addition, we have granted the investors a security interest in substantially all of our assets and intellectual property.

The warrants have an exercise price of \$5.00 per share. The selling stockholders will be entitled to exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event that the selling stockholder exercises the warrants on a cashless basis, then we will not receive any proceeds. In addition, the exercise price of the warrants will be adjusted in the event we issue common stock at a price below market, with the exception of any securities issued as of the date of the warrants or issued in connection with the callable secured convertible notes issued pursuant to the Securities Purchase Agreement, dated August 8, 2005.

Upon the issuance of shares of common stock below the market price, the exercise price of the warrants will be reduced accordingly. The market price means: (i) the average of the last reported sale prices for our shares of our Common Stock for the five trading days immediately preceding such issuance as set forth on our principal trading market; (ii) if the OTCBB is not the principal trading market, the average of the last reported sale prices on the principal trading market for the Common Stock during the same period or (iii) if the market value cannot be calculated then the fair market value as reasonably determined in good faith by our board of directors, or at the option of a majority-in-interest of the holders of the outstanding warrants, by an independent investment bank. The exercise price shall be determined by multiplying the exercise price in effect immediately prior to the dilutive issuance by a fraction. The numerator of the fraction is equal to the sum of the number of shares outstanding immediately prior to the offering plus the quotient of the amount of consideration received by us in connection with the issuance divided by the market price in effect immediately prior to the issuance. The denominator of such issuance shall be equal to the number of shares outstanding after the dilutive issuance.

In connection with the Securities Purchase Agreement, we agreed to give the investors certain registration rights pursuant to a Registration Rights Agreement. Pursuant to this agreement, we were obligated to file with the Securities and Exchange Commission with sixty days of closing of the transaction, a registration statement covering the shares of common stock issuable upon conversion of the notes and the shares of common stock issuable upon exercise of the warrants. We have agreed to use our best efforts to cause the registration statement to be declared effective with one hundred and eighty days after filing. In the event that we are unable to have the Registration Statement declared effective within this time frame, we may be required to pay to the investors an amount equal to the then outstanding principal amount of the notes multiplied by two hundredths (.02) times the sum of: (a) the number of months (pro rated for partial months) after the filing date or the end of the one hundred and eighty day period and prior to the date the Registration Statement is declared effective, (b) the number of months (pro rated for partial months) that sales of all of the shares registered cannot be made after the Registration Statement is declared effective and (c) the number of months (pro rated for partial months) that the Common Stock is not listed or included for quotation on the OTCBB, Nasdaq, Nasdaq Small Cap, NYSE, or Amex or that trading has been halted after the Registration Statement has been declared effective. If thereafter, sales could not be made pursuant to the Registration Statement for an additional period of one (1) month, we shall pay an additional \$5,000 for each \$250,000 of outstanding principal under the Notes. Further, any amounts owing to the investors shall be paid in cash or, at our option, in shares of Common Stock priced at the lesser of \$3.50 per share or 30% discount to the Market Price.

A complete copy of the Securities Purchase Agreement and related documents are filed with the SEC as exhibits to our Current Report on Form 8-K relating to this prospectus or incorporated by reference therein.

SUMMARY FINANCIAL INFORMATION

The following tables set forth the summary financial information for our company as provided in the year end financial statements of IPv6 Summit and the six months ended December 31, 2005 on a condensed consolidated basis to include Innofone.com. You should read this information together with the financial statements and the notes thereto appearing elsewhere in this prospectus and the information under "Management's Discussion and Analysis of Financial Condition and Results of Operations."

CONDENSED CONSOLIDATED STATEMENT OF OPERATIONS DATA

	For the Six Months Ended December 31, 2005 (Unaudited)	For the Year Ended June 30, 2005 (Audited)
Revenues	\$ 404,690	\$ 545,588
Cost of Revenues	\$ 76,958	\$ 118,164
Selling General Administrative Expense	\$ 1,524,516	\$ 466,913
Net loss	\$ (1,991,429)	\$ (55,469)
Basic Net loss per share	(0.04)	(0.03)
Weighted average common shares outstanding	53,818,964	2,000,000

Condensed Consolidated Balance Sheet Data

	As of December 31, 2005 (Unaudited)	As of June 30, 2005 (Audited)
Total Current Assets	\$ 2,034,317	\$ 82,389
Current liabilities	\$ 1,003,746	\$ 60,782
Total Liabilities	\$ 4,726,341	\$ 60,782
Stockholders' equity (deficit)	\$ (2,688,299)	\$ 21,607

RISK FACTORS

You should carefully consider the risks described below before buying shares of our Common Stock in this offering. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may impair our business operations. If any of the adverse events described in this risk factors section actually occur, our business, results of operations and financial condition could be materially adversely affected, the trading price of our common stock could decline and you might lose all or part of your investment. We have had operating losses to date and cannot assure that we will be profitable in the foreseeable future. We make various statements in this section which constitute "forward-looking" statements under Section 27A of the Securities Act.

RISKS RELATED TO OUR BUSINESS

WE HAVE INCURRED HISTORICAL LOSSES AND WE MAY NOT BE ABLE TO GENERATE PROFITS, SUPPORT OUR OPERATIONS, OR ESTABLISH A RETURN ON INVESTED CAPITAL.

We incurred net losses in fiscal 2005 of \$681,000. In addition, we expect to increase our infrastructure and operating expenses to fund our anticipated growth. For the six months ended December 31, 2005, we incurred net losses of \$1,991,429. We may not be able to generate profits in 2006 or thereafter and may not be able to support our operations, or otherwise establish a return on invested capital. We cannot assure you that any of our business strategies will be successful or that significant revenues or profitability will ever be achieved or, if they are achieved, that they can be consistently sustained or increased on a quarterly or annual basis.

WE EXPECT OUR OPERATING LOSSES TO CONTINUE AND WE CAN NOT ASSURE YOU THAT WE WILL EVER GENERATE SIGNIFICANT REVENUES.

The Company expects to incur increased operating expenses during the next year. The amount of net losses and the time required for the Company to reach and sustain profitability are uncertain. The likelihood of the Company's success must be considered in light of the problems, expenses, difficulties, and delays frequently encountered in connection with a new business, including, but not limited to uncertainty as to development and acquisitions and the time required for the Company's planned production to become available in the marketplace. There can be no assurance that the Company will ever generate significant revenues or achieve profitability at all or on any substantial basis which could cause a decrease in your entire investment in our shares.

WE HAVE A LIMITED AMOUNT OF CASH AND ARE LIKELY TO REQUIRE ADDITIONAL CAPITAL TO CONTINUE OUR OPERATIONS. THEREFORE, FAILURE TO OBTAIN ADDITIONAL CAPITAL MAY RESULT IN US HAVING TO CURTAIL OUR BUSINESS.

We have a limited amount of available cash and will likely require additional capital to successfully implement our business plan. Although we will raise aggregate gross proceeds of up to \$4.5 million upon the effectiveness of this registration statement, these funds will be sufficient to sustain our operations for only twelve to eighteen months. Upon effectiveness of this registration statement, we will receive the third and final tranche of our financing from the investors which we estimate will provide nine to ten months of operating capital. At fixed expense rates, we estimate that approximately \$3.5 million will be required in capital for twelve months of operations. Further, we estimate that the implementation of our current business plan for the next twelve months will require an additional \$11.5m in capital. There can be no assurance that we will be able to obtain additional funding when needed, or that such funding, if available, will be obtainable on terms acceptable to us. Moreover, we are subject to certain restrictions in the Securities Purchase Agreement which may limit or prohibit us from raising additional funds through future equity and debt financings. In the event that our operations do not generate sufficient cash flow, or we cannot obtain additional funds if and when needed, we may be forced to curtail or cease our activities, which would likely result in the loss to investors of all or a substantial portion of their investment.

WE RELY HEAVILY ON OUR MANAGEMENT, THE LOSS OF WHICH COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, OPERATING RESULTS AND FINANCIAL CONDITION.

Our future success is dependent on having capable seasoned executives with the necessary business knowledge and relationships to execute our business plan. Accordingly, the services of our management and our board of directors are deemed essential to maintaining the continuity of our operations. If we were to lose their services, our business could be materially adversely affected. We have executed an employment agreement with Mr. Alex Lightman, our Chief Executive Officer, President, and Principal Accounting Officer, and Mr. Dale Geesey, our Vice President of Consulting. We also have executed an employment agreement with Mr. Gerard Casale, our Corporate Counsel and Vice President of Business Affairs. Our performance will also depend on our ability to find, hire, train, motivate and retain other executive officers and key employees.

We must continually implement and improve our services, operations, operating procedures and quality controls on a timely basis, as well as expand, train, motivate and manage our work force in order to accommodate anticipated growth and compete effectively in our market segment. Successful implementation of our strategy also requires that we establish and manage a competent, dedicated work force and employ additional key employees. There can be no assurance that our personnel, systems, procedures and controls will be adequate to support our existing and future operations. Any failure to implement and improve such operations could have a material, adverse effect on our business, operating results and financial condition.

Further, our future success depends on the continued services of executive management. We currently maintain key-man insurance on certain executives, including Mr. Alex Lightman, our Chief Executive Officer, President, and Principal Accounting Officer. Our future success is also dependent on our ability to identify, hire, train and retain other qualified managerial and other employees. Competition for these individuals is intense and increasing. The loss of any of their services would be detrimental to us and could have an adverse effect on our business development

WE OPERATE IN A HIGHLY COMPETITIVE ENVIRONMENT WHICH COULD SIGNIFICANTLY AFFECT OUR BUSINESS INITIATIVES WHICH COULD ADVERSELY AFFECT YOUR INVESTMENT IN OUR SHARES.

We have competitors in each of our three business divisions. Our conference division competes with IPv6 Forum; our training division competes with Sunset Learning and Nativ6, and our consulting division competes with Booz Allen Hamilton, ST International, SRI and Lockheed Martin. Our competitors may be able to adapt more quickly to changes in customer needs or to devote greater resources than we can to developing and expanding our services. Such competitors could also attempt to increase their presence in our markets by forming strategic alliances with other competitors, by offering new or improved products or services by increasing their efforts to gain and retain market share through competitive pricing. As the market for our services matures, price competition and penetration into the market will intensify. There can be no assurance that we will be able to continue to compete successfully with existing or new competitors. Such competition may adversely affect our gross profits, margins and results of operations.

RISK FACTORS AFFECTING OUR FUTURE RESULTS OF OPERATIONS

Due to our limited operating history, it is difficult to predict accurately future revenues. This may result in one or more future quarters where our financial results may fall below the expectation of management and investors. However firmly management may believe in its prospects, we could fail. Operating results may vary, depending upon a number of factors, many of which are outside our control. Material factors expected to impact our operating results include, legal costs expansion activities, increased interest and expenses for borrowings and possible hiring of additional full time employees. Every investor should evaluate the risks, uncertainties, expenses and difficulties frequently encountered by companies in the early stage of development.

WE ARE ATTEMPTING TO EXPAND OUR BUSINESS AND ANY FAILURE TO DO SO COULD MATERIALLY AND ADVERSELY AFFECT OUR BUSINESS

We expect that expansion will be required to address potential growth. This need for expansion will continue to place a significant strain on our management and financial resources. Our business strategy includes entering into business partnerships and acquiring future businesses. We may be unable to complete suitable business partnerships and acquisitions on commercially reasonable terms, if at all. Competition could impair our ability to successfully pursue these aspects of this business strategy. Failure to manage growth or successfully pursue aspects of our business strategy could prevent us from generating revenues.

Business partnerships or acquisitions could disrupt ongoing business, distract management and employees and increase expenses. If we make an acquisition, we could face difficulties assimilating that company's personnel and operations. Key personnel of the acquired company may decide not to work for us. Acquisition of additional services or technologies also involves risk of incompatibility and lack of integration into existing operations. If we finance the acquisitions by issuing equity securities, this could dilute existing stockholders positions. Additionally, funding instruments may have rights, preferences or privileges senior to those of our stockholders, which would impact an investment in our shares.

WE HAVE LIMITED HISTORICAL FINANCIAL DATA WHICH MAKE IT DIFFICULT TO EVALUATE AN INVESTMENT IN OUR SHARES

As a result of its limited operating history, we have limited historical financial data upon which to forecast revenues and results of operation. The actual effect of these factors on the price of stock will be difficult to assess. Results of operation may fall well below the expectations of and the trading price of our common stock may drop, which would materially and adversely affect any investment in our shares.

OFFICERS AND DIRECTORS BENEFICIALLY OWN APPROXIMATELY 55.7% MAJORITY OF SHARES

The executive officers and directors of the Company currently beneficially own approximately 55.7% of the outstanding Common Stock representing a majority. Accordingly, such persons will effectively control the Board of Directors of the Company and will direct the affairs of the Company. Upon the conversion of the notes and the exercise of the warrants, the officers and directors of the company will beneficially own 46.7% of the outstanding common stock.

RISKS RELATED TO HOLDING OUR SECURITIES

THERE ARE A LARGE NUMBER OF SHARES UNDERLYING OUR CALLABLE SECURED CONVERTIBLE NOTES AND WARRANTS THAT MAY BE AVAILABLE FOR FUTURE SALE AND THE SALE OF THESE SHARES MAY DEPRESS THE MARKET PRICE OF OUR COMMON STOCK.

As of August 2005, we had callable secured convertible notes outstanding or an obligation to issue callable secured convertible notes that may be converted into an estimated 10,895,884 shares of our Common Stock at current market prices, and outstanding warrants or an obligation to issue warrants to purchase 1,000,000 shares of our Common Stock. In addition, the number of shares of our Common Stock issuable upon conversion of the outstanding callable secured convertible notes may increase if there is an event of default or if the market price declines. Upon the effectiveness of this registration statement, all of the shares, including all warrants, may be sold without restriction. Further, shares of our common stock may be shorted which could depress the price of our stock. The sale of these shares may cause the market price of our Common Stock to decrease.

THE ISSUANCE OF SHARES UPON CONVERSION OF THE CALLABLE SECURED CONVERTIBLE NOTES AND EXERCISE OF OUTSTANDING WARRANTS MAY CAUSE IMMEDIATE AND SUBSTANTIAL DILUTION TO OUR EXISTING STOCKHOLDERS.

The issuance of shares upon conversion of the callable secured convertible notes and exercise of warrants may result in substantial dilution to the interests of other stockholders since the selling stockholders may ultimately convert and sell the full amount issuable on conversion. The investors may convert their Notes at either \$3.50 per share or at a thirty percent (30%) discount to the market price, whichever is lower. The conversion of the Notes and exercise of the Warrants will represent approximately 16.1% of our issued and outstanding common stock. Although the selling stockholders may not convert their callable secured convertible notes and/or exercise their warrants if such conversion or exercise would cause them to own more than 4.99% of our outstanding common stock, this restriction does not prevent the selling stockholders from converting and/or exercising some of their holdings and then subsequently converting the remainder of their holdings. In this way, the selling stockholders may sell more than 4.99% while never holding more than the foregoing limit at any one time. There is no upper limit on the number of shares that may be issued which may in effect further dilute the proportionate equity interest and voting power of holders of our common stock, including investors in this offering.

IF THERE IS AN EVENT OF DEFAULT, THE CONTINUOUSLY ADJUSTABLE CONVERSION PRICE FEATURE OF OUR CALLABLE SECURED CONVERTIBLE NOTES BECOME APPLICABLE, WHICH COULD HAVE A DEPRESSIVE EFFECT ON THE PRICE OF OUR COMMON STOCK.

Upon an event of default, the callable secured convertible notes become immediately due and payable and we will pay an amount equal to the greater of (i) 130% times the sum of (w) the then outstanding principal amount of such note plus (x) accrued and unpaid interest on the unpaid on the unpaid principal amount of such note to the Mandatory Prepayment Date plus (y) Default Interest, if any, on the amounts referred to in clauses (w) and/or (x) plus (z) the Default Sum; or (ii) the Parity Value of the Default Sum to be repaid. The significant downward pressure on the price of our Common Stock as the selling stockholder converts and sells material amounts could have an adverse effect on our stock price. In addition, not only the sale of shares issued upon conversion or exercise of notes and warrants, but also the mere perception that these sales could occur, may adversely affect the market price of our Common Stock.

IF WE ARE REQUIRED FOR ANY REASON TO REPAY OUR OUTSTANDING CALLABLE SECURED CONVERTIBLE NOTES, WE WOULD BE REQUIRED TO DEplete OUR WORKING CAPITAL, IF AVAILABLE, OR RAISE ADDITIONAL FUNDS. OUR FAILURE TO REPAY THE CALLABLE SECURED CONVERTIBLE NOTES, IF REQUIRED, COULD RESULT IN LEGAL ACTION AGAINST US, WHICH COULD REQUIRE THE SALE OF SUBSTANTIAL ASSETS.

On August 31, 2005, we entered into a Security Purchase Agreement involving the sale of an aggregate of \$4,500,000 principal amount of callable secured convertible notes and stock purchase warrants to buy 1,000,000 shares of our Common Stock. The callable secured convertible notes are due and payable, with 8% interest, on August 31, 2008, unless sooner converted into shares of our common stock, but in no event sooner than 90 days from the date of issuance. In addition, any event of default such as our failure to repay the principal or interest when due, our failure to issue shares of common stock upon conversion by the holder, our failure to timely file a registration statement or have such registration statement declared effective, breach of any covenant, representation or warranty in the Securities Purchase Agreement or related convertible note, the assignment or appointment of a receiver to control a substantial part of our property or business, the filing of a money judgment, writ or similar process against us in excess of \$50,000, the commencement of a bankruptcy, insolvency, reorganization or liquidation proceeding against us and the delisting of our common stock could require the early repayment of the callable secured convertible notes, including a default interest rate of 15% on the outstanding principal balance of the notes if the default is not cured within the specified grace period. We anticipate that the full amount of the callable secured convertible notes will be converted into shares of our common stock, in accordance with the terms of the callable secured convertible notes. If we are required to repay the callable secured convertible notes, we would be required to use our limited working capital and raise additional funds. If we were unable to repay the notes when required, the note holders could commence legal action against us and foreclose on all of our assets to recover the amounts due. Any such action would require us to

curtail or cease operations.

WE ARE SUBJECT TO PENNY STOCK REGULATIONS AND RESTRICTIONS.

Our common stock is approved for quotation on the NASD OTC Bulletin Board. Since our common stock trades below \$5.00 per share (the last reported bid price for our common stock on March 20, was \$0.55), it is considered a "penny stock" and is subject to SEC rules and regulations that impose limitations on the manner in which it can be publicly traded.

These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the associated risks. Potential investors in our common stock are urged to obtain and read this disclosure carefully before purchasing any shares that are deemed to be "penny stock." Also under these regulations, certain brokers who recommend a penny stock to persons other than established customers or certain accredited investors must make a special written suitability determination regarding the purchaser and receive the purchaser's written agreement to a transaction prior to sale. These procedures require the broker-dealer to:

- § obtain from the investor information concerning his or her financial situation, investment experience and investment objectives;
- § reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions;
- § provide the investor with a written statement setting forth the basis on which the broker-dealer has made the determination of suitability; and
- § receive a signed and dated copy of the statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives.

These regulations have the effect of limiting the trading activity of our common stock and reducing the liquidity of an investment in our common stock.

Stockholders should be aware that, according to SEC Release No. 34-29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse.

Our "penny stock" designation may adversely affect the development or continuation of the public market for our common stock.

BROKER-DEALER REQUIREMENTS MAY AFFECT TRADING AND LIQUIDITY.

Section 15(g) of the Securities Exchange Act of 1934, as amended, and Rule 15g-2 promulgated thereunder by the SEC require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in our common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be "penny stocks." Moreover, Rule 15g-9 requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker-dealer

made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for holders of our common stock to resell their shares to third parties or to otherwise dispose of them in the market or otherwise.

OUR COMMON STOCK MAY BE VOLATILE, WHICH SUBSTANTIALLY INCREASES THE RISK THAT YOU MAY NOT BE ABLE TO SELL YOUR SHARES AT OR ABOVE THE PRICE THAT YOU MAY PAY FOR THE SHARES.

Because of the limited trading market expected to develop for our common stock, and because of the possible price volatility, you may not be able to sell your shares of common stock when you desire to do so. The inability to sell your shares in a rapidly declining market may substantially increase your risk of loss because of such illiquidity and because the price for our common stock may suffer greater declines because of its price volatility.

The price of our common stock that will prevail in the market after this offering may be higher or lower than the price you may pay. Certain factors, some of which are beyond our control, that may cause our share price to fluctuate significantly include, but are not limited to, the following:

- variations in our quarterly operating results;
- loss of a key relationship or failure to complete significant transactions;
- additions or departures of key personnel; and
- fluctuations in stock market price and volume.

Additionally, in recent years the stock market in general, and the over-the-counter markets in particular, have experienced extreme price and volume fluctuations. In some cases, these fluctuations are unrelated or disproportionate to the operating performance of the underlying company. These market and industry factors may materially and adversely affect our stock price, regardless of our operating performance.

In the past, class action litigation often has been brought against companies following periods of volatility in the market price of those companies' common stock. If we become involved in this type of litigation in the future, it could result in substantial costs and diversion of management attention and resources, which could have a further negative effect on your investment in our stock.

MANY OF OUR SHARES OF COMMON STOCK WILL IN THE FUTURE BE AVAILABLE FOR RESALE. ANY SALES OF OUR COMMON STOCK, IF IN SIGNIFICANT AMOUNTS, ARE LIKELY TO DEPRESS THE MARKET PRICE OF OUR SHARES.

Assuming all of the 11,895,884 shares of common stock we are offering under this prospectus are sold in our offering, and all of the shares of common stock issued and issuable to the selling stockholders are sold, we would have 17,482,108 shares that are freely tradable without the requirement of registration under the Securities Act of 1933. 68,089,744 shares of our common stock are "restricted securities" as defined under Rule 144 of the Securities Act of 1933 and 5,586,224 remaining shares are a part of the public float for a total of 73,675,968 shares. Of these shares, approximately 55.7% of our shares are owned by our officers, directors or other "affiliates." These individuals may only sell their shares, absent registration, in accordance with the provisions of Rule 144.

Restricted securities may only be publicly sold pursuant to registration under the Securities Act of 1933, or pursuant to Rule 144 or some other exemption that may be available from the registration requirements of the Securities Act of 1933. Rule 144 entitles each person holding restricted securities for a period of one year, and affiliates who own non-restricted shares of our common stock, to sell every three months in ordinary brokerage transactions an amount of shares which does not exceed the greater of 1% of the shares of our common stock outstanding or, assuming the shares of common stock are then traded on Nasdaq, the average weekly trading volume during the four calendar weeks prior to said sale. Any substantial sales pursuant to Rule 144, including the potential sale of our affiliates' shares of our common stock, may have an adverse effect on the market price of shares of our common stock, and may hinder our ability to arrange subsequent equity or debt financing or affect the terms and time of such financing.

Special Note Regarding Forward-Looking Statements

This prospectus contains “forward-looking statements” and information relating to our business that are based on our beliefs as well as assumptions made by us or based upon information currently available to us. When used in this prospectus, the words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “plan,” “project”, “should” and similar are intended to identify forward-looking statements. These forward-looking statements include, but are not limited to, statements relating to our performance in “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operation”. These statements reflect our current views and assumptions with respect to future events and are subject to risks and uncertainties. Actual and future results and trends could differ materially from those set forth in such statements due to various factors. Such factors include, among others: general economic and business conditions; industry capacity; industry trends; competition; changes in business strategy or development plans; project performance; the commercial viability of our products and offerings; availability, terms, and deployment of capital; and availability of qualified personnel. These forward-looking statements speak only as of the date of this prospectus. Subject at all times to relevant federal and state securities law disclosure requirements, we expressly disclaim any obligation or undertaking to disseminate any update or revisions to any forward-looking statement contained herein to reflect any change in our expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares of our common stock by the selling stockholders. An aggregate of 1,000,000 shares of common stock offered by this prospectus are issuable upon the exercise of warrants by the Selling Securityholders. Any proceeds from the exercise of these warrants will be used for working capital purposes. In addition, we have received gross proceeds of \$1,500,000 from the sale of the callable secured convertible notes and will receive an additional \$1,500,000 upon filing of this registration statement and an additional \$1,500,000 upon effectiveness of this registration statement. The proceeds received from the sale of the callable secured convertible notes will be used for working capital (approximately 60%), payment of general corporate and operating purposes, including sales and marketing efforts and payment of consulting and legal fees (approximately 20%) and repayment of debt (approximately 20%). Pursuant to the Securities Purchase Agreement, we are restricted from using the proceeds of the sale of Notes and warrants for (i) any loan to or investment in any entity except a subsidiary; (ii) the satisfaction of any portion of our debt; or (iii) the redemption of any common stock. Notwithstanding, we have received a waiver from the investors to allow us to (a) repay the promissory note issued to Mr. Lightman, our Chief Executive Officer, President, and Principal Accounting Officer and (b) make an investment in Digital Presence, Inc. Mr. Lightman's note bears interest at four percent (4%) per year and matures on October 17, 2006. The proceeds from the sale of Mr. Lightman's note were used in part to purchase the assets of IPv6 Summit.

MARKET FOR OUR SHARES

Our common stock is currently quoted on the National Association of Securities Dealers Over the Counter Bulletin Board under the symbol "INFN" ("OTC Bulletin Board"). The common stock had previously been quoted on the OTC Bulletin Board and was delisted on September 1, 1999. From September 1, 1999 until the re-listing on the OTC Bulletin Board on March 27, 2001, our common stock was quoted in the over-the-counter Pink Sheets market in the United States.

The closing price of our common stock on the OTC Bulletin Board on March 24, 2006 was \$0.60 per share.

The price ranges of quotations in the Company's common stock during the last two fiscal years and the subsequent interim period are as follows:

<u>2006</u>	<u>High</u>	<u>Low</u>
-------------	-------------	------------

1/1/06	.60	.24
3/24/06		

<u>2005</u>	<u>High</u>	<u>Low</u>
-------------	-------------	------------

1/1/05 - 3/31/05	.85	.85
4/1/05 - 6/30/05	1.69	1.50
7/1/05 - 9/30/05	2.50	2.36
10/1/05 - 12/31/05	1.64	.42

<u>2004</u>		
-------------	--	--

1/1/04 - 3/31/04	2.50	2.35
4/1/04 - 6/30/04	2.50	2.35
7/1/04 - 9/30/04	2.50	2.35

As of March 24, 2006, we had issued and outstanding 61,780,084 shares of common stock, held by approximately 145 holders of record. There have been no cash dividends declared by us since our inception. Further, there are no restrictions that would limit our ability to pay dividends on our common equity or that would be likely to do so in the future.

The source of these high and low prices was the OTC Bulletin Board. These quotations reflect inter-dealer prices, without retail mark-up, markdown or commissions and may not represent actual transactions. The high and low prices listed have been rounded up to the next highest two decimal places.

The market price of our common stock is subject to significant fluctuations in response to variations in our quarterly operating results, general trends in the market for the products we distribute, and other factors, over many of which we have little or no control. In addition, broad market fluctuations, as well as general economic, business and political conditions, may adversely affect the market for our common stock, regardless of our actual or projected performance.

We currently have no compensation plans.

On August 31, 2005, we entered into a Securities Purchase Agreement, dated as of August 31, 2005 (“Agreement”), with AJW Partners, LLC (“Partners”), AJW Offshore, Ltd. (“Offshore”), AJW Qualified Partners (“Qualified”) and New Millenium Capital Partners, II, LLC (“Millenium”) (Partners, Offshore, Qualified and Millenium are collectively referred to as the “Purchasers”). The Agreement provides for the sale by us to the Purchasers of Secured Convertible Term Notes (the “Notes”) issued by us in the aggregate principal amount of Four Million Five Hundred Thousand Dollars (\$4,500,000) (“Principal Amount”). The Principal Amount is to be funded by the Purchasers in three tranches (\$1.5 million was funded on September 1, 2005, \$1.5 million upon filing the Registration Statement and \$1.5 million upon effectiveness of the Registration Statement). The offering of Notes under the Agreement was made pursuant to Section 4(2) of the Securities Act of 1933, as amended. The Notes bear interest at 8% per annum, unless our common stock is greater than \$2.50 per share for each trading day of a month, in which event no interest is payable during such month. The Notes are convertible into our common stock at the lesser of \$3.50 or a 30% discount to the average of the three lowest trading prices of the common stock during the 20 trading day period prior to conversion. In connection with the subject offering, we issued an aggregate of 1,000,000 warrants (333,333 upon each tranche of financing) to purchase common stock at a price of \$5.00 per share. The warrants are exercisable for a period of five years. The conversion of the Notes are subject to an effective Registration Statement. Further, we have the right to redeem the Notes under certain circumstances and the right to prevent conversions in any month where the stock price is less than \$3.50 per share. The Notes are secured by all of our assets. In connection with the loan, Mr. Alex Lightman, our Chief Executive Officer, President, and Principal Accounting Officer pledged 3,000,000 shares of his common stock as additional security. The proceeds of the offering will be used primarily for working capital and for repayment of the promissory note issued to Mr. Alex Lightman which is permitted pursuant to a waiver obtained from the investors allowing us to repay this debt notwithstanding certain provisions of the Agreement. The purchasers represented to us that they are “accredited investors.” No commissions were paid in connection with the transaction.

On October 17, 2005, we amended and restated our promissory note originally issued to Mr. Alex Lightman on October 12, 2005, in connection with our Stock Purchase Agreement dated August 8, 2005. The principal face amount of the note is \$1,000,000 and bears interest at the rate of four percent (4%) per annum. The note was amended and restated to provide for a repayment schedule which is to coincide with the timing that the Company receives the Traunches.

Innofone.com, Incorporated
Notes to the Unaudited Proforma Financial Statements
June 30, 2005

On August 8, 2005, Innofone.com, Incorporated (“Innofone,” the “Company”) entered into a stock purchase agreement with Mr. Alex Lightman, President and Chief Executive Officer of IPv6 Summit, Inc., to purchase 100% of the issued and outstanding shares of IPv6 Summit Inc. (“IPv6 Summit”), an entity engaged in developing new technology referred to as Internet Protocol version 6. At the time of the Agreement, Mr. Lightman was the President, Treasurer, Director and sole shareholder of IPv6 Summit and was not an officer or director of Innofone. Pursuant to the agreement, on October 12, 2005 the Company issued to Mr. Lightman a promissory note in the principal amount of \$1,000,000 with interest at the rate of four percent (4%) per annum. On October 17, 2005, we amended and restated Mr. Lightman's promissory note to provide for a repayment schedule which will coincide with our receipt of funds under our current financing arrangement with four investors. Further, the Company issued to Mr. Lightman approximately 33,333,000 shares of the Company's restricted common stock. As a result of the stock purchase agreement, IPv6 Summit became a wholly owned subsidiary of the Company. Prior to this acquisition, the Company had no operations, assets or liabilities and IPv6 Summit was a privately held operating company. The transaction with IPv6 Summit is considered to be a capital transaction in substance, rather than a business combination. Inasmuch, the transaction with IPv6 Summit is equivalent to the issuance of shares by a private company (IPv6 Summit) for the non-monetary assets of a non-operational public company, accompanied by a recapitalization. The accounting for the transaction with IPv6 Summit is to that resulting from a reverse acquisition, except goodwill is not recorded. Accordingly, the historical financial information of the accompany financial statements are that of IPv6 Summit which the 33,333,000 shares issued by the Company are considered the historical outstanding shares of IPv6 for accounting purposes. The partial consideration of the \$1,000,000 promissory note has been accounted for as a distribution as if IPv6 Summit had returned capital to its previous sole shareholder in the form of a distribution. The Company's operating activities are conducted through its wholly owned subsidiary, IPv6 Summit, Inc.

The adjustments to the historical financial statements reflect the effect of the recording of the reverse merger of the Company and the previously privately-held IPv6 Summit, Inc. The reported results of operations and financial condition are those of IPv6 Summit, Inc. since the Company has no operations or capital transactions other than the above-described acquisitions which this transaction has been accounted for as reverse acquisition. The adjustments combine the balance sheets of both entities and reflect the stockholders' equity/deficit as if the transaction had occurred at the date of the pro forma statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

The information set forth in this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") contains certain "forward-looking statements" including, among others (i) expected changes in the Company's revenues and profitability, (ii) prospective business opportunities and (iii) the Company's strategy for financing its business. Forward-looking statements are statements other than historical information or statements of current condition. Some forward-looking statements may be identified by use of terms such as "believes", "anticipates", "intends" or "expects". These forward-looking statements relate to the plans, objectives and expectations of the Company for future operations. Although the Company believes that its expectations with respect to the forward-looking statements are based upon reasonable assumptions within the bounds of its knowledge of its business and operations, in light of the risks and uncertainties inherent in all future projections, the inclusion of forward-looking statements in this report should not be regarded as a representation by the Company or any other person that the objectives or plans of the Company will be achieved.

1. Overview

You should read the following MD&A in conjunction with the Consolidated Financial Statements and Notes thereto, and the other financial data appearing elsewhere in this prospectus.

The Internet as we know it today is based on Internet Protocol version 4, more commonly referred to as IPv4, a 32-year-old protocol. The IPv4 based Internet is beginning to receive a major upgrade, with a new format established in computer operating systems for packets of data called Internet Protocol version 6, or IPv6 (also called the "New Internet" when referring to a fully implemented IPv6 network environment). Simply put, one of the limitations of today's Internet is a shortage of addresses, so that the hardware or software equivalents of "middle men" are put into the system to let many people use one address, not unlike the old telephone party lines, where many people had the same "number," and everyone could listen in. The party line system had the advantage that a lot of people could be connected with few switched lines, but led to problems, such as lack of security. There was no way to assure that one person would be speaking with only one person at the other end. When every phone user received their own address, it led to many great new capabilities - such as enhanced privacy, the ability to deliver new services such as telefax messages to a particular person, and the ability to go mobile with cell phones, and caller ID, which enabled people to screen their calls, accepting only those they wanted to at that moment.

The advantages of IPv6 over the existing IPv4 are significant and can be summarized as that which provides greater security, mobility, and *ad hoc* networking capability [which is a temporary network link initiated for a particular purpose]. These advantages are described further at our website at <http://www.usipv6.com> and briefly as follows. IPv6 will give everyone his or her personal address (or thousands of them, as needed), which enables the potential for "end-to-end" connectivity. Each individual can know for certain who the specific receiver at the other end is which in turn allows the system to check for service quality and much easier mobile use and roaming. Furthermore, this connectivity facilitates multiple layers of individual security measures rather than today's firewalls or Network Address Translation, which offer little protection once a hacker has broken through the protective wall.

One new feature of IPv6 is the vast increase of trillions of Internet addresses, resulting in what will seem to be almost unlimited Internet Protocol (IP) address availability and which will enable each customer to have many such addresses for each cell phone, game console, home appliance, consumer electronics and automobiles in the household and/or at the office. Doing this today in the IPv4 environment is difficult and costly.

IPv6 is also more secure for wired and wireless communications in part because greater identity is possible with more addresses and in part because currently there are no known cases of spoofing an IPv6 address as occurs in IPv4. While being more secure, IPv6 will also provide greater access to mobile wireless online service, television and voice over Internet protocol (or "VoIP") given its structure resulting in more mobile online users with greater overall trust in a secure network. Ultimately, even advanced online connections such as smart tags which utilize Radio Frequency Identification (RFID) to enable real-time inventory tracking will be able to be deployed in IPv6 efficiently and broadly. To do so under an IPv4 system would not be practical from a cost perspective.

We believe that IPv6 will present many new business opportunities in roughly the same manner that the existing Internet did when it first reached the mainstream in the mid-1990s. We intend to start addressing such business opportunities by initially focusing on training, consulting, testing and conference management, all related specifically to IPv6. By developing expertise and leadership in each of these areas, Innofone will gain the credibility needed in a newly developing IPv6 environment to allow later rapid growth in areas such as product development, services and strategic acquisitions. We are currently filling a void in our areas of expertise related to IPv6 in the United States. There are few competitors providing services to American businesses seeking advice on how to transition from IPv4 to IPv6. There are few competitors which understand the U.S. government's role in supporting IPv6. There are few competitors providing credible testing facilities for IPv6 enabled products. There are few competitors providing training to employees in American businesses on the IPv6 environment and its advantages, product possibilities and/or network solutions. By doing business in these areas with sparse competition and by holding regular summit conferences throughout the country, the Company intends to take and maintain the lead in all business specifically related to IPv6.

The Company currently offers and manages these services from two corporate centers: our corporate headquarters offices in Santa Monica, California and virtually through our Eastern seaboard based employees located in Northern Virginia. We intend to launch a Virginia office in the first quarter of 2006.

2. Business Combination

On August 8, 2005, the Innofone.com entered into a stock purchase agreement with Mr. Alex Lightman, our Chief Executive Officer and President, to purchase 100% of the issued and outstanding shares of IPv6 Summit Inc. ("IPv6 Summit"), an entity engaged in providing conference management services related to Internet Protocol version 6 or IPv6. At the time of the Agreement, Mr. Lightman was the President, Treasurer, Director and sole shareholder of IPv6 Summit, and was neither an officer nor a director of the Company. Pursuant to the Agreement, on October 12, 2005, which was amended on October 17, 2005, we issued to Mr. Lightman a promissory note in the principal face amount of \$1,000,000 with interest at the rate of 4% per annum. Further, we issued to Mr. Lightman approximately 33,333,000 shares of our restricted common stock. As a result of the stock purchase agreement, IPv6 Summit became a wholly-owned subsidiary of the Company. IPv6 Summit has been accounted for as the accounting acquirer similar to a reverse merger transaction and the historical accounting information of IPv6 Summit is now that of Innofone.

3. Current Business Operations

On October 18, 2005, we completed the relocation of our corporate headquarters to 1431 Ocean Avenue, Suite 1100, Santa Monica, California 90401 from 3470 Olney-Laytonsville, Road, Suite 118, Olney, Maryland 20832. We currently employ seven individuals in our Santa Monica, California headquarters offices and employ three individuals on the Eastern seaboard in and around the Northern Virginia area.

The Company currently operates one wholly owned subsidiary, IPv6 Summit, Inc., based in Santa Monica, California and one division styled as "v6 Transition" which is based in Clifton, Virginia and managed by Dale Geesey our Vice President of Consulting.

The Company anticipates seeking certain other strategic acquisitions over the next twelve months in an effort to increase overall operations. Our ability to execute this goal will be largely based upon whether we can raise adequate capital to successfully close such acquisitions.

IPv6 Summit, Inc. is currently our primary source of revenue and focus of operations. IPv6 Summit, Inc. organizes and produces conference events related to IPv6 technology and the transition from IPv4 to IPv6.

v6 Transition has begun organizing trainings, workshops, and consulting services related to IPv6. v6 Transition has announced a three-year series of Federal Chief Information Officer IPv6 Workshops with the first event having taken place in Arlington, Virginia on October 11, 2005. The v6 Transition division has started three consulting projects, two of which are dedicated to providing best practices consulting and IPv6 transition services to international military alliances formed through NATO and one providing services for Juniper Networks, a leading router manufacturer. One contract was successfully concluded in this quarter. The other consulting contracts are to be completed in the next fiscal quarter.

We continue to increase the total staff of the Eastern Office and have hired Charles Fullerton as Practice Director for our v6 Transition consulting arm.

Significantly, we completed the sixth international IPv6 event, the US IPv6 Summit 2005, during December 6-9, 2005 at the Hyatt Regency in Reston, Virginia. The event attracted a Company record 671 attendees and over a dozen corporate sponsors. Some of the keynote speakers included four star Admiral and Vice-Chairman of the Joint Chiefs of Staff, Edmund Giambastiani, Jr. and CIO of the Joint Chiefs of Staff, General Dennis Moran.

A final core activity of this quarter was planning and research related to further development of our strategy for potential mergers and acquisitions of technology companies.

4. Future Business Operations

We anticipate that our principal business activities for the coming months will include the refinement of our strategic approach to realizing the potential of the IPv6 industry and as such intend to focus on the following areas of business growth:

1. Organic growth, via our existing business divisions:

- A. Conferences, including the U.S. IPv6 Summit, Coalition Summit for IPv6, and New Internet Track at International CES, as well as anticipated events in Asia and/or Europe starting in 2006/2007.
- B. Training, including the one day Federal Chief Information Officer IPv6 Transition Workshops and anticipated five day and customized trainings for both technology and business aspects of IPv6.
- C. Consulting, including IPv6 Transition Plans, Project Plans and approximately a dozen other possible types of IPv6 related consulting engagements.
- D. Testing, including the proposed establishment of what could become the first for-profit IPv6 test business in the US, in association with a leading test equipment manufacturer.

2. Product Development and new Organic Growth Areas. The Company has initiated the development of an internal research and development capability that we anticipate will generate a new product at regular intervals starting in mid-2006. The Company also intends to develop new centers for revenue in the first quarter of 2006 related to IPv6.

3. Strategic Mergers and Acquisitions: The Company is considering several potential private companies which Management believes could lead to the consummation of certain transactions that could result in the positioning of the Company for accelerated growth in specific areas, such as video-over-IPv6, search engine marketing and optimization, and digital rights management that will be potentially enhanced by using IPv6.

5. Results of Operations

On August 8, 2005, Innohone.com purchased 100% of the issued and outstanding shares of IPv6 Summit, Inc. As a result, IPv6 Summit has been accounted for as the accounting acquirer similar to a reverse merger in that the historical accounting information is that of IPv6 Summit. Accordingly, the results of operation discussion for the three and six months ended December 31, 2005 and 2004 are that of IPv6 Summit.

Revenues and Cost of Revenues

The Company derives revenues primarily from attendance fees of summit conferences held, corporate sponsorships related to such summits, and consulting fees. Attendance fees are recognized when the conference has been held. Cost of revenues primarily relate to summit conference room rentals, food accommodations and advertising. Additional contracts were signed for workshops and consulting engagements. For the three and six months ended December 31, 2005, the revenues were \$354,670 and \$404,690 compared to the prior year's same periods of \$225,801 and \$236,801. Increase in revenues compared to the prior year for both three and six months ended December 31, 2005 primarily related to an increase of approximately 90% or \$60,000 in conference admission fees and \$89,000 of income related to consulting revenues earned during the three months ended December 31, 2005 that were not earned in same periods of the prior year.

There were no conferences held in the first quarter of 2005. The Company plans to hold approximately 3 summit conferences in the next 12 months. Additionally in the next 12 months, the Company plans on holding four Federal CIO IPv6 transitional workshops, training bootcamps for network engineers and provide IPv6 consulting to private companies and federal government agencies.

The Company believes the IPv6 consulting services will become a significant part of the Company's overall revenues in the future, with revenues derived from corporate and government clients. The revenues in the first quarter are from such consulting contracts.

Selling, General and Administrative Expenses

Selling, general and administrative expenses totaled \$936,409 and \$1,524,516 for the three and six months ended December 31, 2005, an increase of \$793,134 and \$1,314,469 compared to the same periods in the prior year. The increase primarily related to costs incurred to secure new debt financing, legal fees associated with the acquisition, and increased salaries.

Net Loss

Net loss totaling \$300,544 and \$1,991,429 for the three and six months ended December 31, 2005, increased by \$356,451 and \$1,985,677 compared to the same periods of the prior year as result of the factors previously mentioned above.

6. Liquidity and Capital Resources

As of December 31, 2005, we had total current assets of approximately \$2,034,000 and total current liabilities of \$1,004,000, resulting in a working capital surplus of \$1,030,000. Our cash balance as of December 31, 2005 totaled \$1,871,000. Our cash flow from operating activities for the six months ended December 31, 2005 resulted in a deficit of \$1,144,000. Our cash flow from financing activities for the six months ended December 31, 2005 resulted in a surplus of \$3,000,000 from borrowings related to a Securities Purchase Agreement.

The Company's primary needs for liquidity and capital resources are the funding of salaries, other administrative expenses related to the management of the Company and retirement of certain debts.

We entered into a Securities Purchase Agreement (the "NIR Agreement") with four accredited investors on August 31, 2005 for the sale of (i) \$4,500,000 in callable secured convertible notes (the "Notes") and (ii) warrants to buy 1,000,000 shares of our Common Stock (the "Warrants"). Pursuant to the NIR Agreement, the investors are obligated to provide us with an aggregate of \$4,500,000 in tranches as follows: (a) \$1,500,000 was disbursed on September 1, 2005; (b) \$1,500,000 was disbursed upon the filing of the Registration Statement covering the shares of common stock underlying the Notes and Warrants; and (c) \$1,500,000 will be disbursed upon the effectiveness of the Registration Statement. As of December 31, 2005, we have received a total of \$3,000,000 related to the NIR Agreement.

The cash received pursuant to the NIR Agreement to date is sufficient to sustain our operations for 12 months. In the event that the Company receives the full amount under the NIR Agreement, such funds will sustain our operations for 24 months. The Company may be required to seek additional financing regardless of the amount of funds received pursuant to the NIR Agreement.

On October 17, 2005 we amended and restated our promissory note issued to Mr. Alex Lightman, our Chief Executive Officer and President, dated October 12, 2005, in connection with our Stock Purchase Agreement dated August 8, 2005. The principal face amount of the note is \$1,000,000 and bears interest at the rate of four percent (4%) per annum. The note was amended and restated to provide for a repayment schedule that is to coincide with the timing that the Company receives the tranches. Specifically, we will make monthly installment payments equal to \$83,333.33 for each successive month starting on the date of execution of the note and ending January 17, 2006. Upon the filing of the registration statement and receipt of the second tranche, we have begun to make monthly installment payments of \$83,333.33 for the four (4) successive months thereafter. Further, upon the effectiveness of the Registration Statement and receipt of the third tranche, we will make monthly installment payments of \$83,333.33 for the four (4) successive months thereafter. As of December 31, 2005, the remaining balance related to the promissory note with Mr. Lightman totaled \$720,000.

7. Critical Accounting Policies and Estimates

The preparation of our financial statements requires our management to make estimates and assumptions that affect the reported amounts on our financial statements. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

The Notes to the financial statements included in this filing contain a discussion of our significant accounting policies and recent accounting pronouncements applicable to us.

8. Recent Accounting Pronouncements

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." The Statement amends and clarifies accounting for derivative instruments, including certain

derivative instruments embedded in other contracts entered into or modified after June 30, 2003. The guidance should be applied prospectively. The provisions of this Statement that relate to SFAS 133 Implementation Issues that have been effective for fiscal quarters that began prior to June 15, 2003, should continue to be applied in accordance with respective effective dates. In addition, certain provisions relating to forward purchases or sales of when-issued securities or other securities that do not yet exist, should be applied to existing contracts as well as new contracts entered into after June 30, 2003. The adoption of SFAS No. 149 is not expected to have an impact on the Company's financial statements.

In May 2003, the FASB issued Statement of Accounting Standards No. 150 "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" (SFAS No. 150). SFAS No. 150 establishes standards for classification and measurement in the statement of financial position of certain financial instruments with characteristics of both liabilities and equity. It requires classification of a financial instrument that is within its scope as a liability (or an asset in some circumstances). SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Company's adoption of SFAS 150 did not have a material effect on the results of operations or financial position.

In May 2003, the consensus on EITF Issue No. 01-08, "Determining Whether an Arrangement Contains a Lease," was issued. The guidance in the consensus applies to the purchase or sale of goods and services under various types of contracts, including outsourcing arrangements. Based on the criteria in the consensus, both parties to an arrangement are required to determine whether the arrangement includes a lease within the scope of SFAS No. 13, "Accounting for Leases." The new requirement applies prospectively to new or modified arrangements for reporting periods beginning after May 28, 2003. Accordingly, as of August 1, 2003, the Company accounted for new or modified arrangements based on this guidance. Adoption of this standard did not have an impact on our financial statements.

On December 18, 2003 the SEC issued Staff Accounting Bulletin No. 104, Revenue Recognition ("SAB 104"), which supersedes SAB 101, Revenue Recognition in Financial Statements. SAB 104's primary purpose is to rescind accounting guidance contained in SAB 101 related to multiple element revenue arrangements, which was superseded as a result of the issuance of EITF 00-21, Accounting for Revenue Arrangements with Multiple Deliverables. The adoption of SAB 104 did not have a material impact on our financial position or results of operations.

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Share-Based Payment, which is an amendment to SFAS No. 123, Accounting for Stock-Based Compensation and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. SFAS 123(R) requires the measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. No compensation cost is recognized for equity instruments for which employees do not render service. We will adopt SFAS 123(R) effective on July 1, 2005, requiring compensation cost to be recognized as expense for the portion of outstanding unvested awards, and any new awards made thereafter, based on the grant-date fair value of those awards.

In December 2004, the FASB issued SFAS No. 153, Exchange of Non-monetary Assets. SFAS No. 153 amends APB Opinion No. 29, Accounting for Non-monetary Transactions, to eliminate the exception for non-monetary exchanges of similar productive assets. The Company will be required to apply this statement to non-monetary exchanges after December 31, 2005. The adoption of this standard is not expected to have a material effect on the Company's financial position or results of operations.

BUSINESS

History

On August 8, 2005, Innofone.com, Incorporated (“Innofone,” the “Company,” “we,” “us” and “our”) entered into a stock purchase agreement with Mr. Alex Lightman, our President and Chief Executive Officer, to purchase the total issued and outstanding shares of IPv6 Summit Inc. (“IPv6 Summit”), an entity engaged in developing new technology referred to as Internet Protocol version 6. At the time of the Agreement, Mr. Lightman was the President, Treasurer, Director and sole shareholder of IPv6 Summit and was not an officer or director of Innofone. Pursuant to the agreement, on October 12, 2005 we issued to Mr. Lightman a promissory note in the principal amount of \$1,000,000 with interest at the rate of four percent (4%) per annum and issued to him approximately 33,333,000 shares of our restricted common stock in exchange for 100% of the issued and outstanding shares of IPv6 Summit. On October 17, 2005, we amended and restated the note to provide for the repayment to coincide with our receipt of the tranches as indicated herein. As a result of the stock purchase agreement, IPv6 Summit became our wholly owned subsidiary. Prior to this acquisition, we operated as a holding company for companies involved in technology and financial services.

Overview

The Internet as we know it today is based on Internet Protocol version 4, more commonly referred to as IPv4, a 32-year-old protocol. The IPv4 Internet is beginning to receive a major upgrade, with a new format for packets of data called Internet Protocol version 6, or IPv6. We believe that IPv6, sometimes called the New Internet, presents many new business opportunities, in roughly the same manner that the existing Internet did when it first hit the mainstream in the mid-1990s.

We offer three related services that are relevant to IPv6; consulting, training and conference management. We are in the process of developing a fourth service, testing. We believe that we have deep expertise in these areas and hope to further expand these services at a strategic time. We are also in the early stages of developing IPv6-related technology and have hired a Director of Product Development. We envision our IPv6 technology will be utilized in connection with our consulting, training and conference management services. We currently derive 80% of our revenues from our conference management services and 20% of our revenues from our consulting services. We anticipate generating additional revenues from our consulting and training services in 2006.

We began our conference services from our date of incorporation, July 2003 after our Chief Executive Officer and a former employee successfully organized the first IPv6 Summit in the United States that attracted over 300 people. Revenue comes from charging individuals and corporations an admission fee of approximately \$200 to \$500 per person for each event and from charging corporations from \$4,000 to \$18,000 each for sponsorship that include an exhibit booth. There are slight variations in these charges depending on how many benefits are included.

We began offering our training services with the US IPv6 Summit in December 2003 with the tutorial that preceded the three-day IPv6 Summit by adding a day of activity for people who needed initial training, and who wanted to know more about security than could be described in the Summit format. We added a separate training event, the Federal Chief Information Officer workshop, in October 2005. Revenues from training services come from admission fees to the events and are in the hundreds of dollars per person.

We began offering our consulting services in August 2005 with the sales of consulting agreements by our Chief Executive Officer domestically to the US Department of Defense IPv6 Transition Office, as a subcontractor to SI International and to Juniper Networks and internationally to North Atlantic Treaty Organization. Revenues from consulting are based on man-days and/or negotiated fees typically in the tens of thousands of dollars per engagement, with engagements in discussion in the hundreds of thousands of dollars.

We are in the early phases of developing our testing service. No revenues have been received, though we have received interest from a large public company to provide free test equipment. Testing revenues will not be generated until our test center is built and the first customers contracted. Revenues will come from, a fixed price schedule with payments in the thousands to tens of thousands of dollars per product or service tested in our lab.

The first major customers for the New Internet in the US were the Department of Defense, which in June 2003 mandated a transition within the department that would make it "IPv6-capable" by 2008, and the Office of Management and Budget, on behalf of the Federal Government, which recently also mandated transition to IPv6, and the hundreds of large companies that supply these two entities. Many, but not all, major technology companies have appointed IPv6 points of contact and developed IPv6-related marketing messages, including Microsoft, Cisco, Juniper, Nokia, Hewlett-Packard and about fifty others in the US.

In 2005, as in 1995, we believe that the IPv6 will be seized by first movers that both take advantage of the opportunities offered by the new technology and have a sound business plan to offer needed products and services to the U.S. and global markets. It is forecast that the IPv6 will see some of the same rapid rise as the existing Internet did between 1995 and 2000, quickly growing from millions to billions, and potentially trillions of dollars in global revenues impacted by the Internet. The Japanese government, for instance, which has done a great deal of research into the upcoming IPv6 market, estimates the market size of IPv6-ready goods/services in the year 2010 to be 170 trillion yen, or about \$1.55 trillion in US currency.

IPv6: The New Internet

The advantages of IPv6 over the existing protocol are significant and can be summarized as "security, mobility, and ad hoc networking." These advantages are described in many articles and in over 244 presentations posted at <http://www.usipv6.com>, one of our websites. In summary, some of the major new features are:

- g) A vast increase of trillions of Internet addresses, resulting in what will seem to be almost unlimited Internet Protocol (IP) address availability, which will enable each customer to have many such addresses, inexpensively - for cell phones, game consoles, home appliances, consumer electronics and automobiles (getting such addresses with today's Internet is difficult, and costly in most parts of the world);
- h) More secure wired and wireless communications (this is one reason the military has mandated this protocol, to send top secret information) in part because greater identity is possible with more addresses;
 - i) Mobile wireless online access (this is more difficult to do with IPv4);
 - j) Television and voice over the Internet Protocol, or VoIP (very difficult and expensive to do well with IPv4 without multicast);
- k) The online connection of many wireless devices, such as security cameras. Some forecasts estimate over one trillion Internet connected devices by 2015, an impossibility with only an IPv4 platform; and
- l) Online connection of smart tags such as Radio Frequency Identification (RFID), which could enable tracking inventory and products as an essential part of any Enterprise Resource Program (ERP).

Simply put, one of the limitations of today's Internet is a shortage of addresses, so that the hardware or software equivalents of "middle men" are put into the system to let many people use one address, not unlike the old telephone party lines, where many people had the same "number," and everyone could listen in. The party line system had the advantage that a lot of people could be connected with few switched lines, but led to problems, such as lack of security. There was no way to assure that one person would be speaking with only one person at the other end. When every phone user got his/her own address, it led to many great new capabilities - such as privacy, the ability to deliver new services such as telefax messages to a particular person, and the ability to go mobile with cell phones, and caller ID, which enabled people to screen their calls, accepting only those they wanted to at that moment.

Similarly, the New Internet will give everyone his or her personal address (or thousands of them, as needed), which enables the potential for “end-to-end” connectivity. Each individual can know for certain who the specific receiver at the other end is, and this allows the system to check for service quality, and allows much easier mobile use and roaming. The difference between IPv6 and IPv4 is thought by some to be as dramatic as the difference between the phones with individual numbers that we have today and the phones with party lines of yesteryear.

Corporate Headquarters in Southern California (Santa Monica, CA)

Although we maintained an office in Maryland, we moved our headquarters to Southern California on or about October 18, 2005. Our California headquarters is responsible for our overall management as well as marketing communications and support materials. It is anticipated that we will hire a Vice President of Business Development who will manage our Santa Monica office in the future. Further, the Vice President of Consulting, and when hired, the Vice President of Business Development will identify and secure consulting opportunities within the different customer communities, by phone calls and other communications, attending conferences, and advertisements. This office will also house consultants for the Southern California customer area, including military bases and major aerospace firms such as Northrop Grumman.

Eastern Seaboard Offices (Northern Virginia)

The Vice President of Consulting is establishing our Washington, DC area offices. He will recruit and support appropriate expert consultants for the regional customer community, and support them with promotional and other materials. The Eastern Office is located nearby Washington, D.C., an area that has a heavy concentration of targeted customers, both government offices and companies that supply Information Technology (IT) products and services to those offices.

This office will support the consultant staff for the Eastern United States, and will be used for meetings with customers. The office suite will have a conference room capable of holding 20-30 people, with a projector and large screen, and high speed IPv4 and IPv6 Internet connectivity, so that IPv6 capabilities such as Television delivered over the Internet (IPTV) and IPv6-enabled video security cameras can be demonstrated.

We will offer and manage our consulting, training, and conference management services from two corporate offices: our corporate headquarters in Santa Monica, California, and our Eastern Office in Northern Virginia.

Consulting Division

Our consulting division, directed by our VP of Consulting Services, serves major clients that need help with IPv6, especially executives of government agencies that suddenly must come up with plans on how to switch to the New Internet, and have to come up with detailed budgets and plans for doing so. The Company will also serve the executive management of the aerospace and IT companies that do business with the government.

Our Consulting Division seeks to provide consulting services aimed at assisting with the transition from IPv4 to IPv6. However, we do not currently have consulting agreements with any third parties but we anticipate that such consulting contracts will be either directly with the end client (usually the case with public corporations) or, in the case of certain government offices, as a subcontractor to a company that has an existing “open ordering agreement” with such an offices. We are very familiar with this process and have consulted to clients both directly and as a subcontractor to other companies. We will attempt to obtain our own open ordering agreement contracts, both via SETAs and by getting onto the Government Services Administration (GSA) schedule; we anticipate that both of these will take 1-2 years to complete. Our Consulting Division has year-to-date revenues of \$204,000.

An important part of the consulting process will be identifying potential clients that need training, and recommending them to our Training Division. Likewise, the consultants will promote our conferences and other services, as will all of its employees.

In addition to conducting presentations and briefings, both on-site at customer facilities and off-site at hotels and other facilities, we may rent space from certain consultants. Also, the consultants will recommend various products, such as Panasonic IPv6-enabled video cameras for security, that may be available for sale on our website. At present and subject to change, our role will be purely that of a pass-through; we will not conduct the sale, shipping or customer support of these products. Although we will receive a commission on sales, our main interest for the products available on our website will be the convenience of the customer. There will usually be several brands of an IPv6 product available on the website, so that we do not show favoritism to one supplier (and perhaps lose competitors as sponsors for its conferences).

The consultants will price their services by job or by time. They will deliver white papers (technical background documents) and reports, as well as videos and multimedia presentations. In addition to face-to-face contact with customers, the consultants will also generate video presentations of certain basic technical materials, and will make these available to remote customer sites. All consultant work by us for the foreseeable future will be unclassified. We will investigate applying for clearances if necessary for government work, and whether the additional costs of secured offices, locking safes, etc. can be justified.

Training Division

Our Training Division performs two types of training services - one in the form of executive training (including introductions to the technology and outlines of new business opportunities) and the other in the form of business management training (including project management, and conformance of proposals with IPv6 contractual requirements) and technologist, system administration and engineer training (with certificates similar to those awarded for Cisco or Microsoft system mastery).

We estimate that the Eastern Office will eventually support a manager and up to ten training personnel, and the headquarters offices in Santa Monica will have a manager and up to eight trainers, a combination of employees and independent contractors. The Santa Monica Headquarters will coordinate the generation of courseware and other training materials, especially during the beginning of Year 1 (when basic courseware for classes has to be generated) and at the beginning of Year 3 (when online courseware will be generated in order to leverage trainers for a wider audience).

Most training courses will be of a one-week duration, but there will also be two-day Boot Camps (typically on weekends), and one-day and part-day trainings for management and executives.

Conference Management Division

Our Conference Management Division focuses on establishing conferences related to IPv6.

Conference Management will be conducted mainly from the Santa Monica office, with the assistance of consultants that are local to conference locations, such as Press Relations managers for areas such as Washington, D.C. or Bonn, Germany. We do not currently have any agreements with any local consultants but typically retain them around the time of our conference to assist in aspects of conference including temporary workers to work the conferences. In addition to expanding the two events in Reston, VA (by adding more materials oriented towards upcoming military programs and toward the consumer electronics market), we plan to add a yearly event in California, which should attract the many aerospace and IT companies on the West Coast, as well as the military bases in the area.

Additional specialized conferences planned for the US will address the market areas of NCO (Network Centric Operations), RFIDs, Transition to IPv6, Contracts issues, and Consumer Electronics; they will be held in different cities, including New York, Chicago, San Jose, Las Vegas, and Washington, D.C.

We have booked a conference in Amsterdam scheduled for Spring 2006 at the Amsterdam RMI Center between October 3, 2006 and October 5, 2006. We will likely add two overseas events, one for Asia (to be held in Japan, Korea, or Singapore), and one for Europe, to be held in Germany (either Bonn or Berlin are central to NATO, and are only driving distance away for the European branches of certain US military units, many of which are in the Frankfurt or Bonn-Cologne area. It may prove wise to hold conferences in the United Kingdom as well, but this is not as central a location for many of the known clients, or actual payment customers, at this time.

Testing Division

Through our v6 Transition division, we are in the process of establishing a world-class IPv6 Test and Certification Center in the Northern Virginia area. Once fully operational, the Test Center will provide numerous services to Federal, Department of Defense and commercial entities. The services provided will include:

- . Product testing and certification;
- . Interoperability testing;

- Performance testing; and
- Demonstration and proof-of-concept.

The Test Center will provide a neutral facility where customers and vendors can identify and demonstrate solutions required to support the transition to IPv6. Through its partnership with Spirent Federal, the Test Center will have the broad range of equipment necessary to support a full range of testing services.

Our Corporate Strategy

Our corporate strategy has five thrust areas:

Conduct and publicize the major IPv6 conference.

The goodwill that is being built up at these conferences is key to achieving corporate goals. The government and corporate executives who are featured as speakers build up goodwill because they have been invited to speak. We believe the conferences help the audience see us as an authority figure and one of the positive, constructive, community building leaders in the IPv6 area. We gain deep knowledge of the status of organizations regarding IPv6, and who needs help (such as consulting and training), as well as what best practices for IPv6 adoption are being developed and working in the field. The past conferences have also incorporated training sessions, where we obtained experience in what training was necessary and desired by the community. Finally, the list of attendees at the conferences represent a unique database for us of both executives and working-level technologists, as well as marketing and other staffers.

Support completion of the IPv6 standard.

We have a relationship to the IPv6 Association; a neutral body that could help formulate and provide input to the issues of what “IPv6-capable” means and how it will be implemented, with respect to the IETF and other standards bodies. The precise formulation of standards for IPv6 implementation in specific applications (such as use in cellphones, wireless video cameras, home appliances or video transmission) by an internationally accepted expert group that is not prone to favor a particular manufacturer is important to us in several ways. First, such standards must exist and be unambiguous so that our consultants are able to clearly define to clients what specific standards they have to get their company to meet. Second, our Training arm must have such standards to relate to in order to train its clients to levels that are universally understood and accepted, and in order to issue Certificates of Completion after students have achieved a defined level of expertise.

Be a first mover.

We are starting out early in our quest to become the premier consulting/training/conference entity in the IPv6 space, in order to hit the “golden hour” in 2-3 years when we believe IPv6 demand and applications will start to really take off in the US (in part because the government will be transitioning to IPv6 during this time on a massive basis). We are seeking to establish a dominate foothold now because the IPv6 space is not, as of yet, overly populated with competitors. We believe this prime time period where the market share is ripe for the taking will be long gone by the 2010 time period.

Build a solid base, and look for targets of opportunity.

We will build a business base of steady growth in a strategic and profitable area, and will then acquire a target of opportunity that offers fast leveraged growth in a related area. Part of this effort will be the support of the IPv6 industry by promotion (such as Conferences) and by garnering political support (such as Congressional Hearings). In this way, we believe that we will not just help the growth of IPv6, but will have our “hand on the pulse” of the Industry, to know what related services will soon be sought very actively.

Seek Growth through Acquisition.

We are currently in discussions with parties to make strategic acquisitions to augment our business. Currently we are negotiating a term sheet to acquire an Internet search company. We have not entered into any agreements or binding letters of intent for any such acquisition. Current acquisition criteria include, among other things: revenue (preferably

over \$1 million), earnings, and technology and/or content related to the Internet that could potentially be enhanced by adding IPv6 capabilities. We intend to expand beyond being just a conference and consulting business by seeking to acquire strong companies with similar corporate cultures that each can either benefit directly from the implementation of IPv6, having an existing subscriber base capable of leveraging IPv6, and/or enable a broader usage of IPv6.

Competition

We have three major business divisions, all of them related to IPv6 technology: Consulting (this includes consulting to corporate executives, as well as offering IPv6-related equipment from 3rd parties on our website), training and conference management. The only other company in the US that specializes in IPv6 consulting at present is Native6, Inc. of Seattle, which is essentially a small two-man company that we believe is not financially structured for the sort of growth that we anticipate (see: <http://www.native6.com>). Some of our other competitors in IPv6 consulting are SI International, Book Allen Hamilton, SRI and Lockheed Martin and we believe we are ranked fifth in terms of revenues. We believe that our chief competitors in IPv6 training are Sunset Learning (which does not specialize in IPv6; its main business is Cisco-related training - see: <http://www.sunsetlearning.com>) and Native6, Inc. and is ranked third among these competitors in terms of revenues. The competitors for IPv6 conferences are: IGI (Information Gatekeepers, Inc. - see: <http://www.igigroup.com>), which has recently started to put on small IPv6 technical conferences in the US; the IPv6 Forum, a loosely organized group based in Luxembourg which supports small technical conferences put on worldwide, usually by affiliated local groups (for instance, its California conference is organized by IGI, mentioned above); and, Consul Intel, a small company that conducts a yearly IPv6 conference in Spain (see: <http://www.consulintel.es>). We believe that we are one of the top ranked conference providers in terms of revenues.

Intellectual Property

We have pending trademark and servicemark applications with the United States Patent and Trademark Office (“USPTO”) for the marks “IPv6 Summit”, “New Internet” and “North American IPv6 Summit.” The USPTO had issued an office action as of September 27, 2005 indicating certain requests for clarification and deficiencies and need for amendment of the subject marks. Although we are confident that such servicemarks will be awarded as filed, there is no certainty that the USPTO will award any of the trademarks as applied for or as may be requested in the future.

Employees

As of the date of this prospectus, we have 8 employees in the Santa Monica office and three employees in the Virginia office.

None of our employees are covered by a collective bargaining agreement. We have never experienced a work stoppage and we believe that we have satisfactory working relations with our employees.

ITEM 2. DESCRIPTION OF PROPERTY

The Company does not own any real estate. The company currently rents approximately 2,400 square feet of space at 1431 Ocean Avenue, Suite 1100, Santa Monica, California 90401. The lease is currently on a month-to-month basis and the Company is paying approximately \$5,000 per month for four offices. The current arrangement for our Virginia office is based on “seat space” and not square footage. We rent four seat spaces, including amenities (i.e. phone, furniture, printer/office supply space, meeting room access, kitchen) for \$3,000 per month.

We believe that the premises leased are adequate for our current and near term requirements.

ITEM 3. LEGAL PROCEEDINGS

We are not currently involved in any real or threatened legal proceedings.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted for stockholders' vote during the fourth quarter of the fiscal year 2005.

MANAGEMENT

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT.

The following table sets forth the name, age and position of each of the members of our board of directors, executive officers and promoters as of March 24, 2006:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Alex Lightman	43	Chief Executive Officer, President, Principal Accounting Officer and Director
Peter Maddocks	49	Director
Frederick Dale Geesey	36	Vice President of Consulting
Paul Shephard	50	Chief Operating Officer and Secretary

The principal occupations and brief summary of the background of each executive officer and director of the Company is as follows:

Mr. Alex Lightman has been our President, CEO and a director since August 2005. Upon the resignation of Ms. Karen Rosotowski in January 2006, Mr. Lightman took on the position of Principal Accounting Officer until such time as a suitable replacement can be found. From June 2003 to July 2005 he was the founding CEO and Chairman of IPv6 Summit, Inc., a leading organizer of international IPv6 events and consultants to government and industry on IPv6 applications, training, and promotion. From May 1999 to Present Mr. Lightman has been the CEO of Charmed Technology, (www.charmed.com). He is the founding director of The 4G Society and the first Cal- (IT)² Scholar at the California Institute for Telecommunications and Information Technology, a joint program of UCSD and UCI (www.calit2.net). Mr. Lightman has nearly 20 years of high technology management experience and, in addition, has experience in politics (including work for a US Senator), consulting, the oil drilling industry, and the renewable energy industry. He also produced the 100 Brave New Unwired World fashion shows, featuring wearable and pervasive computing, which included many of Lightman's own inventions and designs, such as the patented Charmed Viewer display and the first Internet jewelry. Harvard Business School featured Lightman and Charmed in a case study that recognized Lightman's pioneering innovation of presenting computers as fashion. Both the show and Lightman's designs are now copied worldwide. Mr. Lightman is the author of Brave New Unwired World (Wiley, 2002) and a 1983 graduate of the Massachusetts Institute of Technology. He has attended graduate school at the Kennedy School of Government (Harvard University) and the University of Phoenix.

Mr. Lightman devotes approximately ninety percent (90%) of his time to us and the remaining ten percent (10%) on outside endeavors, including Charmed Technology and 4G Society. Mr. Lightman's term of office is for two years.

Mr. Peter Maddocks has been a Director and Chief Financial Officer since August 2005. In October 2005, Mr. Maddocks resigned as Chief Financial Officer. From October 2001 to January 2004, Mr. Maddocks was a Management Consultant of Abbey National Bank Italy. From May 1999 to September 2001, Mr. Maddocks was a Management Consultant of Standard Chartered Grindlays Private Banking Group. Mr. Maddocks was a Vice President for leading financial services companies with 20+ years experience in finance, planning and control roles in the Retail, Corporate and Private Banking industry segments (Citi, ANZ, Abbey). Mr. Maddocks has significantly participated in the establishment and growth of new and re engineered global businesses and functions with various banking groups. Responsibilities have included heading the Global Financial Control function for a major new business launch, Regional Financial Controller SE Europe, design and implementation of financial and non-financial management control systems, budget management and development of policies and procedures. Mr. Maddocks has maintained constant interaction with Senior Executives via participation in various committees and matrix reporting

structures. Maddocks has operated both in senior management roles and as an external consultant. He is a Chartered Accountant and speaks fluent Italian. He is a resident of Kent, England.

Mr. Frederick Dale Geesey has been the Vice President of Consulting since September 2005. From 2004 to August 2005, Mr. Geesey was the Director of Army IPv6 Programs of SI International, Inc. Dale has worked closely with the Department of Defense ("DoD") in their IPv6 transition activities and recently supported the development of the DoD's IPv6 Transition Plan and response to congressional inquiries regarding the DoD's transition to IPv6. He directly supported the DoD IPv6 Transition Office and the Army's IPv6 transition team in the development of their overall IPv6 transition strategy, program planning and technical solutions. Mr. Geesey has been a participant of several DoD IPv6 technical working groups in the areas of network infrastructure, Information Assurance and Testing. From 2003 to 2004, Mr. Geesey was the Director of Government Markets of Intrado, Inc. From 2002 to 2003, Mr. Geesey was the President and COO of Auspex Technologies, LLC. From 2000 to 2002, Mr. Geesey was the Senior Director, Product Management/Engineering, of Cambrian Communications, LLC. Mr. Geesey holds a Bachelor's degree in Electrical Engineering from Old Dominion University, a Master's degree in Electrical Engineering from George Mason University and a Masters of Business Administration from California Coast University. Mr. Geesey's term of office is one year.

Mr. Paul Shephard has been our Secretary and Chief Operating Officer and since August 2005. From July 2003 to August 2005, Mr. Shephard was the secretary of IPv6 Summit, Inc. From October 2002 to July 2003, Mr. Shephard was a marketing consultant for Charmed Technology. From October 2000 to October 2002, Mr. Shephard was the secretary of Pacific Goldstar, Inc. Mr. Shephard holds an Associate in Arts in Business Administration at Santa Monica College. Mr. Shephard is an “at will” employee.

ITEM 10. EXECUTIVE COMPENSATION

The following table sets forth the aggregate cash compensation paid by the Company to: (i) its Chief Executive Officer, Chairman; and (ii) its most highly compensated officers whose cash compensation exceeded \$100,000 for services performed from August 8, 2005, the date we completed our acquisition of IPv6 Summit, through March 24, 2006.

Name and Principal Position	Year	Salary(\$)	Bonus(\$)	Other Annual Compensation(\$)	Restricted Stock Award(s)(\$)	Securities Underlying Options SARs(#)	All Other LTIP Payouts(\$)	Other Compensation(\$)
Alex Lightman (1)	2005	\$ 131,606	\$ 43,000					
Peter Maddocks (2)	2005	--	--	\$ 25,000(2)	--	200,000(3)	--	--
Dale Geesey (3)	2005	\$ 42,205	\$ 12,468		--	--	--	--
Paul Shephard (4)	2005	\$ 17,897						

*The Company hired its executive officers on or about August 8, 2005 as a result of the Stock Purchase Agreement. Accordingly, none of the executive officers have earned full year annual compensation or long term compensation. This table reflects annual compensation paid to the executive officers from August 8, 2005 to date.

- (1) Mr. Lightman is expected to earn an annual salary of approximately \$295,000 during the next fiscal year.
- (2) Mr. Maddocks has been paid a one-time advance payment of \$25,000 for his board representation for the next fiscal year.
- (3) Mr. Geesey is expected to earn an annual salary of \$150,000 during the next fiscal year. Pursuant to Mr. Geesey’s employment agreement, he is eligible to receive options to purchase 200,000 shares of our restricted common stock commencing on the effective date that we initiate any Stock Option Plan.
- (4) Mr. Shephard is expected to earn an annual salary of approximately \$80,000 for the next fiscal year.

COMPENSATION PLANS

We do not have any option, annuity, retirement, pension or deferred compensation plan or other arrangements under which an executive officer is entitled to participate without similar participation by other employees.

DIRECTOR COMPENSATION

We do not have any agreement to compensate our directors at this time, however we have paid a one-time advance payment of \$25,000 to Mr. Maddocks for his board representation for the next fiscal year.

EMPLOYMENT AGREEMENTS

On September 22, 2005, the Company entered into an employment agreement with Frederick Dale Geesey, our Vice President of Consulting. The term of the agreement is for one year and provides for an annual base salary of \$150,000 with certain performance based target bonuses consisting of (a) a cash target bonus equal to 35% of total annual salary, as determined by the Board of Directors and (b) a performance bonus paid in cash equal to 35% of total annual salary for each and every merger and/or acquisition made by us. The target bonus and the performance bonus may not exceed 100% of annual salary. The agreement also provides for the issuance of options to purchase 200,000 shares of restricted common stock. The options vest over a period of three years.

On September 6, 2005, the Company entered into an employment agreement with Gerard Casale, Esq., our Corporate Counsel. The agreement provides for an initial part time term during which Mr. Casale shall be our Corporate General Counsel with an annual salary of \$142,500 and shall be issued 50,000 shares of restricted common stock. On December 1, 2005, Mr. Casale became our General Counsel, Vice President of Business and Legal Affairs with an annual salary of \$285,000 and was issued 100,000 shares of our restricted common stock.

On October 31, 2005, we entered into an employment agreement (the "Agreement") with Mr. Alex Lightman, our Chief Executive Officer, President and Principal Accounting Officer. Pursuant to the Agreement, Mr. Lightman will serve as Chief Executive Officer and Chairman of the Board and will receive annual base compensation of \$295,000. Mr. Lightman will also be eligible for executive bonus compensation as follows: (a) a Target Bonus paid in cash equal to 35% of the total cash value of his annual salary, as determined by the Board of Directors, 50% of which may be paid in shares of the Company's common stock; and (b) a Performance Bonus paid in cash equal to 35% of the total cash value of his annual salary for each and every merger and/or acquisition made by the Company of a non-affiliated third party entity (such potential target must provide no less than \$1,000,000 of estimated annual accretive EBITDA to the Company). The total amount of the Target Bonus and Performance Bonus paid to Mr. Lightman shall not exceed 100% of his annual compensation in any 12 month period. Mr. Lightman is also eligible to participate in any other bonus or incentive programs established by the Company. The term of the Agreement is for two years and may renew for additional two year periods thereafter unless notice of non-renewal is given within six months of the end of the then current term.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The following table sets forth certain information regarding the beneficial ownership of the Company's Common Stock by each person or group that is known by the Company to be the beneficial owner of more than five percent of its outstanding Common Stock, each director of the Company, each person named in the Summary Compensation Table, and all directors and executive officers of the Company as a group as of March 24, 2006. Unless otherwise indicated, the company believes that the persons named in the table below, based on information furnished by such owners, have sole voting and investment power with respect to the Common Stock beneficially owned by them, where applicable. As of March 24, 2006, there were 61,780,084 shares of common stock issued and outstanding.

Name/Address of Beneficial Owner	Position with Company	Amount and Nature of Beneficial Ownership of Class A common Stock (1)	Percentage of Securities (1)
Alexander Lightman(2)/*	Chief Executive Officer and President	34,053,000	55.12%
Peter Maddocks*	Director	0	0
Dale Geesey*	VP of Consulting	45,314	**
Paul Shephard	Secretary	0	0
Abby International Holdings, Ltd.(3) c/o UK Administration Office, Suite 363 78 Marylebone High Street London, W1U5AP United Kingdom	—	20,500,000	33.18%
All executive officers and Directors as a group (4 persons)		34,098,314	55.19%

* Address of all holders is c/o Innofone.com, Incorporated, 1431 Ocean Avenue, Suite 1100, Santa Monica, California 90401.

** Less than one percent.

(1) Pursuant to the rules of the Securities and Exchange Commission, a person is deemed to "beneficially own" shares of common stock over which the person has or shares investment or voting power, or has the right to acquire such power within 60 days. The percentage of common stock owned is calculated based on the number of shares of common stock outstanding, plus in the case of each person the number of shares of common stock issuable only to such person upon the exercise of options or warrants and the conversion of convertible debt securities.

(2) Includes 27,000,000 shares owned by Equitocracy Trust. Mr. Lightman is the trustee of Equitocracy Trust and is deemed the beneficial owner of such shares.

(3) We were informed that on August 19, 2005, Abby International entered into two Stock Purchase Agreements, each with Mr. Frederic Richardson, the former President and CEO of Innofone.com, providing for the sale to Abbey of an aggregate of 20,500,000 shares of our common stock. Approximately 17,000,000 shares of common stock were to be sold by Mr. Richardson and the remaining 3,500,000 shares of common stock were to be sold by Alliance Housing Partners, an entity that Mr. Richardson controls. The sales were contingent upon certain conditions.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On August 8, 2005, we entered into a stock purchase agreement with Mr. Alex Lightman to purchase the total issued and outstanding shares of IPv6 Summit Inc., an entity engaged in developing new technology referred to as Internet Protocol version 6. Pursuant to the agreement, we agreed to pay Mr. Lightman \$1,000,000 in the form of a promissory note and issue to him approximately 33,333,000 shares of our restricted common stock in exchange for 100% of the issued and outstanding shares of IPv6. As a result of the stock purchase agreement, IPv6 Summit Inc. became a wholly owned subsidiary of the Company and Mr. Lightman became our President and Chief Executive Officer. Prior to this acquisition, we operated as a holding company for companies involved in technology and financial services.

On August 31, 2005, Mr. Lightman pledged 3 million shares to support obligations under the Notes issued to AJW Partners, LLC, AJW Offshore Ltd., AJW Qualified Partners and New Millenium Capital Partners, II, LLC on August 31, 2005. Specifically, pursuant to a Guaranty and Pledge Agreement, Mr. Lightman has agreed to unconditionally guarantee the timely and full satisfaction of all of our obligations, whether matured or unmatured, now or hereafter existing or created and becoming due and payable to the investors under the Notes.

On October 17, 2005 we amended and restated our promissory note issued to Mr. Alex Lightman, our Chief Executive Officer, President, and Principal Accounting Officer, on October 12, 2005, in connection with our Stock Purchase Agreement dated August 8, 2005. The principal face amount of the note is \$1,000,000 and bears interest at the rate of four percent (4%) per annum. The note was amended and restated to provide for a repayment schedule which is to coincide with the timing that the Company receives the Traunches. Specifically, we will make monthly installment payments equal to \$83,333.33 for each successive month starting on the date of execution of the note and ending January 17, 2006. Upon the filing of this registration statement and receipt of the second Traunche, we will make monthly installment payments of \$83,333.33 for the four (4) successive months thereafter. Further, upon the effectiveness of this registration statement and receipt of the third Traunche, we will make monthly installment payments of \$83,333.33 for the four (4) successive months thereafter. As of March 2006, we have repaid approximately \$500,000 of Mr. Lightman's note.

DESCRIPTION OF SECURITIES

The Company's authorized capital stock consists of 950,000,000 shares of common stock, par value of \$0.001 per share, of which 61,780,084 issued and outstanding as of March 24, 2006. The holders of shares of our common stock are entitled to elect all of the directors and to one vote per share on all matters submitted to shareholder vote. Holders of our common stock are entitled to receive ratably dividends, subject to the rights of the holders of Preferred Stock (if any), as may be declared by our Board of Directors out of funds legally available therefore.

All of the shares of our authorized capital stock, when issued for such consideration as our board of directors may determine, shall be fully paid and non-assessable. Our board of directors has the discretion and may, by adoption of a resolution, designate one or more series of preferred stock and has the power to determine the conversion and/or redemption rights, preferences and privileges of each such series of preferred stock provided that such conversion and/or redemption rights, preferences and privileges of any series of preferred stock does not subordinate or otherwise limit the conversion and/or redemption rights, preferences and/or privileges of any previously issued series of preferred stock. Our Certificate of Incorporation and bylaw's currently do not provide for the delaying, deferring or preventing of a change.

Disclosure of Commission Position of Indemnification for Securities Act Liabilities

Our articles of incorporation provide that we will indemnify an officer, director, or former officer or director, to the full extent permitted by law. We have been advised that in the opinion of the Securities and Exchange Commission indemnification for liabilities arising under the Securities Act of 1933 is against public policy as expressed in the Securities Act of 1933, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the court's decision.

TRANSFER AGENT

The Company's transfer agent is Interwest Transfer Company, Inc.

SHARES ELIGIBLE FOR RESALE

Future sales of a substantial number of shares of our common stock in the public market could adversely affect market prices prevailing from time to time. Under the terms of this offering, the shares of common stock offered may be resold without restriction or further registration under the Securities Act of 1933, except that any shares purchased by our "affiliates," as that term is defined under the Securities Act of 1933, may generally only be sold in compliance with Rule 144 under the Securities Act of 1933.

SALE OF RESTRICTED SHARES. Certain shares of our outstanding common stock were issued and sold by us in private transactions in reliance upon exemptions from registration under the Securities Act of 1933 and have not been registered for resale. There are 5,586,224 shares of our common stock that are not restricted by Rule 144 because they are in the public float. Resales of the remainder of our issued and outstanding shares of common stock are restricted under Rule 144. There are 68,089,774 shares of our common stock that are restricted, including shares subject to outstanding warrants to purchase, or notes convertible into, common stock (excluding any conversions of notes to date). Such shares may be sold only pursuant to an effective registration statement filed by us or an applicable exemption, including the exemption contained in Rule 144 promulgated under the Securities Act of 1933.

In general, under Rule 144 as currently in effect, a shareholder, including one of our affiliates, may sell shares of common stock after at least one year has elapsed since such shares were acquired from us or our affiliate. The number of shares of common stock which may be sold within any three-month period is limited to the greater of: (i) one percent of our then outstanding common stock, or (ii) the average weekly trading volume in our common stock during the four calendar weeks preceding the date on which notice of such sale was filed under Rule 144. Certain other requirements of Rule 144 concerning availability of public information, manner of sale and notice of sale must also be satisfied. In addition, a shareholder who is not our affiliate, who has not been our affiliate for 90 days prior to the sale, and who has beneficially owned shares acquired from us or our affiliate for over two years may resell the shares of common stock without compliance with many of the foregoing requirements under Rule 144.

SELLING STOCKHOLDERS

We agreed to register for resale shares of common stock by the selling stockholders listed below. The selling stockholders may from time to time offer and sell any or all of their shares that are registered under this prospectus. All expenses incurred with respect to the registration of the common stock will be borne by us, but we will not be obligated to pay any underwriting fees, discounts, commissions or other expenses incurred by the selling stockholders in connection with the sale of such shares.

The following table sets forth information with respect to the maximum number of shares of common stock beneficially owned by the selling stockholders named below and as adjusted to give effect to the sale of the shares offered hereby. The shares beneficially owned have been determined in accordance with rules promulgated by the SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. The information in the table below is current as of the date of this prospectus. All information contained in the table below is based upon information provided to us by the selling stockholders and we have not independently verified this information. The selling stockholders are not making any representation that any shares covered by the prospectus will be offered for sale. The selling stockholders may from time to time offer and sell pursuant to this prospectus any or all of the common stock being registered.

Except as indicated below, none of the selling stockholders has held any position or office with us, nor are any of the selling stockholders associates or affiliates of any of our officers or directors. Except as indicated below, no selling stockholder is the beneficial owner of any additional shares of common stock or other equity securities issued by us or any securities convertible into, or exercisable or exchangeable for, our equity securities. No selling stockholder is a registered broker-dealer or an affiliate of a broker-dealer.

For purposes of this table, beneficial ownership is determined in accordance with SEC rules, and includes voting power and investment power with respect to shares and shares owned pursuant to warrants exercisable within 60 days. The "Number of Shares Beneficially Owned After the Offering" column assumes the sale of all shares offered.

As explained below under "Plan of Distribution," we have agreed with the selling stockholders to bear certain expenses (other than broker discounts and commissions, if any) in connection with the registration statement, which includes this prospectus.

Name	Number of Shares Beneficially Owned Prior to Offering ⁽¹⁾⁽²⁾	Number of Shares Offered	Number of Shares Beneficially Owned After the Offering
AJW Partners, LLC (3)/(4)	1,427,506	1,427,506	0
AJW Offshore, Ltd (3)/(5)	6,066,901	6,066,901	0
AJW Qualified Partners LLC(3)/(6)	4,223,039	4,223,039	0
New Millennium Capital Partners II LLC (3)/(7)	178,438	178,438	0

(1) Unless otherwise indicated, the selling stockholders have sole voting and investment power with respect to their shares of common stock. The inclusion of any shares in this table does not constitute an admission of beneficial ownership for the selling stockholders.

(2) The actual number of shares of Common Stock offered in this prospectus, and included in the registration statement of which this prospectus is a part, includes such additional number of shares of common stock as may be issued or issuable upon conversion of the callable secured convertible notes and exercise of the related warrants by reason of any stock split, stock dividend or similar transaction involving the common stock, in accordance with Rule 416 under the Securities Act of 1933, as amended. However the selling stockholders have contractually agreed to restrict their ability to convert their callable secured convertible notes or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock as determined in accordance with Section 13(d) of the Exchange Act. Accordingly, the number of shares of common stock set forth in the table for the selling stockholders exceeds the number of shares of common stock that the selling stockholders could own beneficially at any given time through their ownership of the callable secured convertible notes and the warrants. In that regard, the beneficial ownership of the common stock by the selling stockholder set forth in the table is not determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended.

(3) Some of the selling stockholders are affiliates of each other because they are under common control. AJW Partners, LLC is a private investment fund that is owned by its investors and managed by SMS Group, LLC. SMS Group, LLC, of which Mr. Corey is Ribotsky is the fund manager, has voting and investment control over the shares listed below owned by AJW Partners, LLC. AJW Partners, LLC intends to transfer shares to certain of its affiliates. AJW Offshore, Ltd., formerly known as AJW/New Millennium Offshore, Ltd. and a designee of AJW Partners, LLC, is a private investment fund that is owned by its investors and managed by First Street Manager II, LLC. First Street Manager II, LLC, of which Corey S. Ribotsky is the fund manager, has voting and investment control over the shares owned by AJW Offshore, Ltd. AJW Qualified Partners, LLC, formerly known as Pegasus Capital Partners, LLC and a designee of AJW Partners, LLC, is a private investment fund that is owned by its investors and managed by AJW Manager, LLC, of which Corey S. Ribotsky and Lloyd A. Groveman are the fund managers, have voting and investment control over the shares listed below owned by AJW Qualified Partners, LLC. New Millennium Capital Partners II, LLC, a designee of AJW Partners, LLC, a private investment fund that is owned by its investors and managed by First Street Manager II, LLC. First Street Manager II, LLC, of which Corey S. Ribotsky is the fund manager, has voting and investment control over the shares owned by New Millennium Capital Partners II, LLC.

(4) Includes 1,307,506 shares of common stock issuable upon conversion of the Note and 120,000 shares of common stock issuable upon exercise of warrants.

(5) Includes 5,556,901 shares of common stock issuable upon conversion of the Note and 510,000 shares of common stock issuable upon exercise of warrants.

(6) Includes 3,868,039 shares of common stock issuable upon conversion of the Note and 355,000 shares of common stock issuable upon exercise of warrants.

(7) Includes 163,438 shares of common stock issuable upon conversion of the Note and 15,000 shares of common stock issuable upon exercise of warrants.

TERMS OF CALLABLE SECURED CONVERTIBLE NOTES

To obtain funding for our ongoing operations, we entered into a Securities Purchase Agreement with four accredited investors on August 31, 2005 for the sale of (i) \$4,500,000 in callable secured convertible notes and (ii) warrants to buy 1,000,000 shares of our Common Stock. This prospectus relates to the resale of our Common Stock underlying these callable secured convertible notes and warrants. The investors are obligated to provide us with an aggregate of \$4,500,000 in three tranches as follows (the "Tranches"): (a) \$1,500,000 was disbursed on September 1, 2005; (b) \$1,500,000 will be disbursed upon the filing of this registration statement; and (c) \$1,500,000 will be disbursed upon this prospectus being declared effective.

The funds from the sale of the callable secured convertible notes will be primarily used for working capital needs. The callable secured convertible notes bear interest at 8% (unless our common stock is greater than \$2.50 per share for each trading day of a month, in which event no interest is payable during such month), mature within three years from the date of issuance, and are convertible into our Common Stock, at the investors' option, at a per share price equal to the lesser of \$3.50 or 30% discount to the average of the three lowest trading prices of the Common Stock during the 20 day trading day period prior to conversion. The callable secured convertible notes become immediately due and payable and we will pay an amount equal to 130% times the sum of (a) the then outstanding principal amount of the Note immediately following the maximum conversion date (the date that we issue 19.99% of our issued and outstanding shares), plus (b) accrued and unpaid interest on the unpaid principal amount of the Note to within fifteen (15) days of the maximum conversion date, plus (c) default interest, if any, on the amounts referred to in clause (a) and/or (b) above, plus (d) any optional amounts that may be added thereto at the maximum conversion date by the holder (the then outstanding principal amount of this Note immediately following the maximum conversion date), plus the amounts referred to in clauses (b), (c) and (d) above shall collectively be referred to as the "**Remaining Convertible Amount**"). In the event that the sum of (x) the aggregate number of shares of Common Stock issued upon

conversion of the Notes issued pursuant to the Purchase Agreement plus (y) the aggregate number of shares of Common Stock that remain issuable upon conversion of the Notes and the other Notes issued pursuant to the Purchase Agreement, represents at least one hundred percent (100%) of the maximum share amount (the “**Triggering Event**”), we will use its best efforts to seek and obtain Shareholder Approval (or obtain such other relief as will allow conversions hereunder in excess of the Maximum Share Amount) as soon as practicable following the Triggering Event and before the maximum conversion date. As used herein, “**Shareholder Approval**” means approval by our shareholders of the Company to authorize the issuance of the full number of shares of Common Stock which would be issuable upon full conversion of the then outstanding Notes but for the Maximum Share Amount. In connection with the issuance of the Notes, we agreed to register two times the number of shares of common stock issuable upon conversion of the Notes.

We shall have the right, exercisable on not less than ten (10) Trading Days prior written notice to the investor’s (which notice may not be sent to the investors until we are permitted to prepay the Notes pursuant to the Agreement, to prepay all or a portion of the outstanding Notes. In the event the Common Stock is trading above \$3.50 per share, we shall have the right, exercisable on not less than ten (10) Trading Days prior written notice to the Investors prepay all or a portion of the outstanding Notes provided that we make an additional payment to the Investors equal to the difference between the trading price on the day immediately prior to the date of the notice and \$3.50 per share for that number of shares under the Note (or such portion of the Note being prepaid) would have converted (the “**Additional Payment**”). Any notice of prepayment hereunder (an “**Optional Prepayment**”) shall be delivered to the Investors of the Notes at their registered addresses appearing on our books and records and shall state (1) that we are exercising our right to prepay all or a portion of the Notes issued on the Issue Date, (2) the date of prepayment and (3) the amount of the prepayment and the amount of any Additional Payment as applicable (the “**Optional Prepayment Notice**”). On the date fixed for prepayment (the “**Optional Prepayment Date**”), we shall make payment of the Optional Prepayment Amount (as defined below) to or upon the order of the Investors as specified by the Investors in writing to us at least one (1) business day prior to the Optional Prepayment Date. If we exercise our right to prepay the Notes, we shall make payment to the Investors of an amount in cash (the “**Optional Prepayment Amount**”) equal to either (i) 115% (for prepayments occurring within thirty (30) days of the Issue Date), (ii) 125% for prepayments occurring between thirty-one (31) and sixty (60) days of the Issue Date, or (iii) 130% (for prepayments occurring after the sixtieth (60th) day following the Issue Date), multiplied by the sum of (w) the then outstanding principal amount of this Note plus (x) accrued and unpaid interest on the unpaid principal amount of this Note to the Optional Prepayment Date plus (y) Default Interest, if any, on the amounts referred to in clauses (w) and (x) plus (z) any amounts owed to the Investor under the Agreement or the Registration Rights Agreement (the then outstanding principal amount of this Note to the date of payment plus the amounts referred to in clauses (x), (y) and (z) shall collectively be known as the “**Optional Prepayment Sum**”). Notwithstanding notice of an Optional Prepayment, the Investors shall at all times prior to the Optional Prepayment Date maintain the right to convert all or any portion of the Notes in accordance with Article I and any portion of Notes so converted after receipt of an Optional Prepayment Notice and prior to the Optional Prepayment Date set forth in such notice and payment of the aggregate Optional Prepayment Amount shall be deducted from the principal amount of Notes which are otherwise subject to prepayment pursuant to such notice. If we deliver an Optional Prepayment Notice and fails to pay the Optional Prepayment Amount due to the Investors of the Notes within two (2) business days following the Optional Prepayment Date, we shall forever forfeit our right to redeem the Notes.

So long as the Notes are outstanding we may not, without the investor's prior written consent: (a) pay any dividends, whether in cash or stock, (b) engage in any stock repurchases; (c) borrow any additional money (subject to several exceptions); (d) sell, lease or dispose of any significant portion of our assets outside the ordinary course of business; or (e) make any loans in excess of \$10,000.

The warrants are exercisable until five years from the date of issuance. The conversion price of the callable secured convertible notes and the exercise price of the warrants will be adjusted in the event that we issue common stock at a price below the fixed conversion price, below market price, with the exception of any securities issued in connection with the Securities Purchase Agreement. The conversion price of the callable secured convertible notes and the

exercise price of the warrants may be adjusted in certain circumstances, such as, if we pay a stock dividend, subdivide or combine outstanding shares of common stock into a greater or lesser number of shares, or take such other actions as would otherwise result in dilution of the selling stockholder's position. The selling stockholders have contractually agreed to restrict their ability to convert or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock. In addition, we have granted the investors a security interest in substantially all of our assets and intellectual property.

The warrants have an exercise price of \$5.00 per share. The selling stockholders will be entitled to exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event that the selling stockholder exercises the warrants on a cashless basis, then we will not receive any proceeds. In addition, the exercise price of the warrants will be adjusted in the event we issue common stock at a price below market, with the exception of any securities issued as of the date of the warrants or issued in connection with the callable secured convertible notes issued pursuant to the Securities Purchase Agreement, dated August 8, 2005.

Upon the issuance of shares of common stock below the market price, the exercise price of the warrants will be reduced accordingly. The market price means: (i) the average of the last reported sale prices for our shares of our Common Stock for the five trading days immediately preceding such issuance as set forth on our principal trading market; (ii) if the OTCBB is not the principal trading market, the average of the last reported sale prices on the principal trading market for the Common Stock during the same period or (iii) if the market value cannot be calculated then the fair market value as reasonably determined in good faith by our board of directors, or at the option of a majority-in-interest of the holders of the outstanding warrants, by an independent investment bank. The exercise price shall be determined by multiplying the exercise price in effect immediately prior to the dilutive issuance by a fraction. The numerator of the fraction is equal to the sum of the number of shares outstanding immediately prior to the offering plus the quotient of the amount of consideration received by us in connection with the issuance divided by the market price in effect immediately prior to the issuance. The denominator of such issuance shall be equal to the number of shares outstanding after the dilutive issuance.

In connection with the Securities Purchase Agreement, we agreed to give the investors certain registration rights pursuant to a Registration Rights Agreement. Pursuant to this agreement, we were obligated to file with the Securities and Exchange Commission with sixty days of closing of the transaction, a registration statement covering the shares of common stock issuable upon conversion of the notes and the shares of common stock issuable upon exercise of the warrants. We have agreed to use our best efforts to cause the registration statement to be declared effective with one hundred and eighty days after filing. In the event that we are unable to have the Registration Statement declared effective within this time frame, we may be required to pay to the investors an amount equal to the then outstanding principal amount of the notes multiplied by two hundredths (.02) times the sum of: (a) the number of months (pro rated for partial months) after the filing date or the end of the one hundred and eighty day period and prior to the date the Registration Statement is declared effective, (b) the number of months (pro rated for partial months) that sales of all of the shares registered cannot be made after the Registration Statement is declared effective and (c) the number of months (pro rated for partial months) that the Common Stock is not listed or included for quotation on the OTCBB, Nasdaq, Nasdaq Small Cap, NYSE, or Amex or that trading has been halted after the Registration Statement has been declared effective. If thereafter, sales could not be made pursuant to the Registration Statement, for an additional period of one (1) month, we shall pay an additional \$5,000 for each \$250,000 of outstanding principal under the Notes. Further, any amounts owing to the investors shall be paid in cash or, at our option, in shares of Common Stock priced at the lesser of \$3.50 per share or 30% discount to the Market Price.

A complete copy of the Securities Purchase Agreement and related documents are filed with the SEC as exhibits to our Current Report on Form 8-K relating to this prospectus or incorporated by reference therein.

PLAN OF DISTRIBUTION

The selling stockholders and any of their respective pledges, donees, assignees and other successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
 - purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
 - an exchange distribution in accordance with the rules of the applicable exchange;
 - privately negotiated transactions;
 - short sales after this registration statement becomes effective;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
 - through the writing of options on the shares;
 - a combination of any such methods of sale; and
 - any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act of 1933, if available, rather than under this prospectus. The selling stockholders will have the sole and absolute discretion not to accept any purchase offer or make any sale of shares if they deem the purchase price to be unsatisfactory at any particular time.

The selling stockholders may also engage in short sales against the box after this registration statement becomes effective, puts and calls and other transactions in our securities or derivatives of our securities and may sell or deliver shares in connection with these trades.

The selling stockholders or their respective pledgees, donees, transferees or other successors in interest, may also sell the shares directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principal or both, which compensation as to a particular broker-dealer might be in excess of customary commissions. Market makers and block purchasers purchasing the shares will do so for their own account and at their own risk. It is possible that a selling stockholder will attempt to sell shares of common stock in block transactions to market makers or other purchasers at a price per share which may be below the then market price. The selling stockholders cannot assure that all or any of the shares offered in this prospectus will be issued to, or sold by, the selling stockholders. The selling stockholders and any brokers, dealers or agents, upon effecting the sale of any of the shares offered in this prospectus, may be deemed to be "underwriters" as that term is defined under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, or the rules and regulations under such acts. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the

shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

Discounts, concessions, commissions and similar selling expenses, if any, attributable to the sale of shares will be borne by a selling stockholder. The selling stockholders may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares if liabilities are imposed on that person under the Securities Act of 1933.

The selling stockholders may from time to time pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgee or secured parties may offer and sell the shares of common stock from time to time under this prospectus after we have filed an amendment to this prospectus under Rule 424(b)(3) or any other applicable provision of the Securities Act of 1933 amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus and may sell the shares of common stock from time to time under this prospectus after we have filed an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933 amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

We are required to pay all fees and expenses incident to the registration of the shares of common stock. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act of 1933.

Each of the selling stockholders acquired the securities offered hereby in the ordinary course of business and have advised us that they have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their shares of common stock, nor is there an underwriter or coordinating broker acting in connection with a proposed sale of shares of common stock by any selling stockholder. If we are notified by any selling stockholder that any material arrangement has been entered into with a broker-dealer for the sale of shares of common stock, if required, we will file a supplement to this prospectus. If the selling stockholders use this prospectus for any sale of the shares of common stock, they will be subject to the prospectus delivery requirements of the Securities Act of 1933.

The anti-manipulation rules of Regulation M under the Securities Exchange Act of 1934 may apply to sales of our common stock and activities of the selling stockholders.

LEGAL MATTERS

The validity of the issuance of the common stock offered hereby will be passed upon for us by Gersten Savage LLP, New York, New York.

EXPERTS

The financial statements of Innohone.com, Incorporated as of and for the period from June 30, 2005 appearing in this prospectus have been audited by Hochman & Denzinger and the financial statements of IPv6 Summit, Inc. appearing in this prospectus have been audited by DeJoya Griffith & Company, LLC, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given upon the authority of such firms as experts in accounting and auditing.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC under the Securities Act of 1933 a registration statement on Form SB-2 with respect to the shares being offered in this offering. This prospectus does not contain all of the information set forth in the registration statement, certain items of which are omitted in accordance with the rules and regulations of the SEC. The omitted information may be inspected and copied at the Public Reference Room maintained by the SEC at Room 1580, 100 F Street N.E., Washington, D.C. 20549. You can obtain information about operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports,

proxy and information statements, and other information regarding issuers that file electronically with the SEC at <http://www.sec.gov>. Copies of such material can be obtained from the public reference section of the SEC at prescribed rates. Statements contained in this prospectus as to the contents of any contract or other document filed as an exhibit to the registration statement are not necessarily complete and in each instance reference is made to the copy of the document filed as an exhibit to the registration statement, each statement made in this prospectus relating to such documents being qualified in all respect by such reference.

For further information with respect to us and the securities being offered hereby, reference is hereby made to the registration statement, including the exhibits thereto and the financial statements, notes, and schedules filed as a part thereof.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTING FIRM

To the Board of Directors
IPv6 Summit, Inc.
Santa Monica, California

We have audited the balance sheet of IPv6 Summit, Inc. (the "Company") as of June 30, 2005 and the related statements of operations, stockholder's equity and cash flows for the year ended June 30, 2005 and for the period from July 9, 2003 (Date of Inception) through June 30, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosure in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presently fairly, in all material respects, the financial position of IPv6 Summit, Inc. as of June 30, 2005 and the results of their operations and their cash flows for the years ended June 30, 2005 and 2004, in conformity with accounting principles generally accepted in the United States.

**IPv6 SUMMIT, INC. FINANCIAL STATEMENTS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. DESCRIPTION OF BUSINESS, HISTORY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of business - IPv6 Summit, Inc., a Nevada corporation (hereinafter referred to as the “Company”) located in Santa Monica, California was incorporated on July 9, 2003. IPv6 stands for Internet Protocol version 6 and is the successor protocol to the current Internet, Internet Protocol version 4, which was introduced in June 1973 and turned 32 years old this summer. IPv4 is a 32-bit protocol, while IPv6 is a 128-bit protocol allowing for 3.4×10^{38} power new IP addresses, and thus allowing for a vast increase in connecting people, places, and things to the Internet.

The Company is among the leading organizers of IPv6 conference events in the world by virtue of being the only company to have successfully organized six IPv6 Summits, with an average of over 500 attendees each. In Japan and China, the only countries with comparable IPv6 markets, the event organizers are subsidized by their national governments, and their events are free to most attendees. Our sponsorship revenue can be compared with that of other organizers by counting the number of sponsors in each category and multiplying it by published prices. By our own estimates, we generate more sponsorship revenue, and more attendee revenues, than any other IPv6 organizer.

The Company derives revenue from Sponsorships, Conference Attendee Fees, Training Fees, and Consulting to Governments. New sources of revenue during the 2005-2007 will be derived from Consulting to Corporations, Software Revenue, Subscription Revenue and Information Revenue. Subscription revenue will be derived from offering broadband IPv6 wireline and wireless services, as an IPv6-centric ISP and WISP, including Voice over IPv6 and Video over IPv6. Information Revenue will be derived from setting up one of the largest IPv6 information portals, building on the existing multiple gigabytes of IPv6 related information on <http://www.usipv6.com>

Year-end - The Company’s year-end is June 30.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue and expense recognition - The Company recognizes revenue from services provided once all of the following criteria for revenue recognition have been met: 1) pervasive evidence of an agreement exists, 2) the services have been delivered, 3) the price is fixed and determinable and not subject to refund or adjustment and 4) collection of the amounts due is reasonably. Overhead and administrative costs are recognized when incurred and direct event costs and expenses are recognized during the period in which the event they are associated with occurs.

Inventory- The Company has no inventory as of June 30, 2005.

Fixed assets - Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided principally on the straight-line method over the estimated useful lives of the assets, which are generally 3 years. The cost of repairs and maintenance is charged to expense as incurred. Expenditures for property betterments and renewals are capitalized. Upon sale or other disposition of a depreciable asset, cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in other income (expense).

The Company periodically evaluates whether events and circumstances have occurred that may warrant revision of the estimated useful life of fixed assets or whether the remaining balance of fixed assets should be evaluated for possible impairment. The Company uses an estimate of the related undiscounted cash flows over the remaining life of the fixed assets in measuring their recoverability.

Goodwill and intangible assets -

In July 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations" and No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment.

According to this statement, goodwill and intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment by applying a fair-value based test. Fair value for goodwill is based on discounted cash flows, market multiples and/or appraised values as appropriate. Under SFAS No. 142, the carrying value of assets are calculated at the lowest level for which there are identifiable cash flows.

F-7

The Company has no Goodwill or Intangible Assets and thus the Company did not record any amortization expense related to goodwill or intangibles for the years ended June 30, 2005 and 2004.

SFAS 142 requires the Company to compare the fair value of the reporting unit to its carrying amount on an annual basis to determine if there is potential impairment. If the fair value of the reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board issued SFAS 123 (R), "Share-Based Payment." This Statement is a revision to SFAS 123, "Accounting for Stock-Based Compensation", and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." SFAS 123(R) requires the measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. No compensation cost is recognized for equity instruments for which employees do not render service. We will adopt SFAS 123(R) effective on July 1, 2005, requiring compensation cost to be recognized as expense for the portion of outstanding unvested awards, and any new awards made thereafter, based on the grant-date fair value of those awards.

Income taxes - The Company accounts for its income taxes in accordance with Statement of Financial Accounting Standards No. 109, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date.

Advertising costs - The Company recognizes advertising expenses in accordance with Statement of Position 93-7 "Reporting on Advertising Costs." Accordingly, the Company expenses the costs of producing advertisements at the time production occurs, and expenses the costs of communicating advertisements in the period in which the advertising space or airtime is used. The Company has recorded no significant advertising costs for the years ended June 30, 2005 and 2004.

Research and development costs - Research and development costs are charged to expense as incurred.

2. FIXED ASSETS

Fixed assets consist of the following as of June 30, 2005:

Equipment	\$	9,004
Less: accumulated depreciation		4,164
Fixed assets, net	\$	4,840

3.

COMMITMENTS AND CONTINGENCIES

Office lease - The Company lease three office suites at 1431 Ocean Avenue in Santa Monica, California on a month-to-month basis. The current monthly lease payment for the four suites total \$2,468 per month. Lease payments for the year ended June 30, 2005 and 2004 totaled \$20,300 and \$11,425, respectively.

4.

SUBSEQUENT EVENTS

On August 08, 2005, Alex Lightman, the sole shareholder of IPv6 Summit, Inc., entered into a Stock Purchase Agreement with Innofone.com, for the sale of 100 % of the issued outstanding and shares of IPv6 Summit, Inc. to Innofone.com. The fundamental terms of the purchase agreement provide for the Innofone.com to deliver a promissory note in the sum of \$1,000,000 (One Million Dollars) as partial consideration of the purchase price and to issue 33,333,000 (Thirty Three Million Three Hundred and Thirty Three Thousand) shares of restricted common stock of Innofone.com to satisfy the balance of the purchase price in full. As a result, IPv6 Summit, Inc. will become a wholly owned subsidiary of the Innofone.com. Alexander Lightman will become the Chairman and Chief Executive officer of the company. He will be awarded a five-year employment agreement at an annual salary of \$400,000.00 per year. This Agreement is pending subject to completion and delivery of audit.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**To the Board of Directors and Shareholders of:
INNOFONE.COM, INCORPORATED**

We have audited the accompanying balance sheets of **INNOFONE.COM, INCORPORATED** as at June 30, 2005 and 2004, and the related statements of operations, shareholders' deficit and cash flows for each of the three years in the period ended June 30, 2005. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). These standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these financial statements referred to above present fairly, in all material respects, the financial position of the Company as at June 30, 2005 and 2004, and the results of its operations and their cash flows for each of the three years in the period ended June 30, 2005, in conformity with United States generally accepted accounting principles.

As more fully described in note 6, the 2004 financial statements have been restated.

INNOFONE.COM, INCORPORATED

Notes to Financial Statements

June 30, 2005 and 2004

(Stated in United States Dollars)

1. **NATURE OF OPERATIONS**

The Company was incorporated in Nevada on December 19, 1995 and is in the process of attempting to raise capital for future operations. As the Company does not have any assets, it would require new capital to fund any future ventures.

2. **SIGNIFICANT ACCOUNTING POLICIES**

These financial statements have been prepared by management in conformity with accounting principles generally accepted in the United States of America and include the following significant accounting policies:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the period in which they become known.

Income Taxes

The Company accounts for its income taxes under the liability method specified by Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities as measured by the enacted tax rates which will be in effect when these differences reverse. Deferred tax expense is the result of changes in deferred tax assets and liabilities.

In assessing the realizability of future tax assets, management considers whether it is more likely than not that some portion or all of the future tax assets will not be realized. The ultimate realization of future tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of future tax liabilities, projected future taxable income and tax planning strategies in making this assessment. As the Company does not currently have any operations or assets, they are not anticipating the recovery of any tax assets and therefore, have not reflected any future tax asset.

F-15

INNOFONE.COM, INCORPORATED**Notes to Financial Statements**

June 30, 2005 and 2004

(Stated in United States Dollars)

3. **CAPITAL STOCK**

The number of outstanding shares of the Company as at June 30, 2005 is computed as follows:

	Common
Outstanding shares as at June 30, 2002	100,022,505
Shares issued in exchange for consulting fees	23,357,826
Shares issued in exchange for legal fees	500,000
Reverse stock split: 175 shares for one share	(123,172,444)
Share issuance on conversion of debt	2,300,000
Share issuance on exchange for consulting fees	3,021,800
Reverse stock split: 20 shares for one share	(5,728,203)
Outstanding shares as at June 30, 2003	301,484
Shares issuance on exchange for sales, general and administrative services	7,060,000
Outstanding shares as at June 30, 2004	7,361,484
Shares previously issued that were cancelled in the year	(126,214)
Shares issuance in exchange for sales, general and administrative services (note 4)	20,000,000
Outstanding shares as at June 30, 2005	27,235,270

The Company's authorized capital stock consists of 950,000,000 shares of common stock and 25,000,000 shares of preferred stock each with a par value of \$0.001 per share. There are no outstanding preferred shares at year end.

4. **RELATED PARTY TRANSACTIONS**

During the year the Company issued 13,750,000 restricted shares and 6,250,000 regular shares to the sole director and majority shareholder for services and reimbursement of costs.

5. **BASIC NET LOSS PER SHARE**

Basic net loss per share figures are calculated using the weighted average number of common shares outstanding computed on a daily basis. The effect of the conversion of the preferred shares on an if-converted basis and stock options has an anti-dilutive effect.

6.

RESTATEMENT

Subsequent to the issuance of the financial statement for the year ended June 30, 2005 that were filed with the U.S. Securities and Exchange Commission on October 14, 2005, the Company made the following adjustments to the financial statements:

a) Non-cash transactions have been excluded from investing and financing activities on the statement of cash flows.

A summary of the effect of the restatement is as follows:

	Year Ended June 30, 2004		
	As Reported	Restatement	As Restated
Net income (loss) for year	(\$348,628)	(\$316,572)	(\$665,200)
Accounts payable and accrued liabilities	(316,572)	316,572	-

	Year Ended June 30, 2003		
	As Reported	Restatement	As Restated
Accounts payable and accrued liabilities	(\$104,000)	\$ 104,000	\$ -
Due to officers and directors	104,000	(104,000)	-
Issuance of capital stock	650,000	(650,000)	-
Convertible debt	(500,000)	500,000	-
Note payable	(150,000)	150,000	-

b) The Company in 2004 has corrected the reclassification of debt forgiveness from a related party in accordance with Accounting Principles Board Opinion No. 26, "Early Extinguishment of Debt", paragraph 20.

A summary of the effect of the restatement is as follows:

	Year Ended June 30, 2004		
	As Reported	Restatement	As Restated
Net loss from operations	(\$455,200)	(\$210,000)	(\$665,200)

INNOFONE.COM, INCORPORATED
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2005

1. DESCRIPTION OF BUSINESS, HISTORY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of business - Innohone.com, Inc. (the "Company") incorporated on December 19, 1995. On August 19, 2005, the Company consummated a Stock Purchase Agreement (the "Agreement") with Alexander Lightman to acquire 100% of the outstanding capital stock of IPv6 Summit, Inc. ("IPv6"). The fundamental terms of the purchase agreement provide for the Company to deliver a promissory note in the sum of \$1,000,000 as partial consideration of the purchase price and to issue 33,333,000 shares of restricted common stock of the Company to satisfy the balance of the purchase price in full (the "IPv6 Transaction"). As a result, IPv6 has become a wholly owned subsidiary of the Company. Prior to the IPv6 Transaction, the Company was non-operating public company with no operations or assets; 28,005,270 shares of common stock issued and outstanding; and IPv6 was a privately held operating company. The IPv6 Transaction is considered to be a capital transaction in substance, rather than a business combination. Inasmuch, the IPv6 Transaction is equivalent to the issuance of shares by a private company (IPv6) for the non-monetary assets of a non-operational public company, accompanied by a recapitalization. The accounting for IPv6 Transaction is similar to that resulting from a reverse acquisition, except goodwill is not recorded. Accordingly, the historical financial information of the accompany financial statements are that of IPv6 which the 33,333,000 shares issued by the Company are considered the historical outstanding shares of IPv6 for accounting purposes. The partial consideration of \$1,000,000 promissory note has been accounted for as a distribution as if IPv6 had returned capital to its previous sole shareholder in the form of a distribution. The Company's operating activities are conducted through its wholly owned subsidiary, IPv6 Summit, Inc.

IPv6 Summit, Inc., a Nevada corporation located in Santa Monica, California was incorporated on July 9, 2003. The Company is among the leading organizers of IPv6 conference events in the world. IPv6 stands for Internet Protocol version 6 and is the successor protocol to the current Internet, Internet Protocol version 4, which was introduced in June 1973 and turned 32 years old this summer. IPv4 is a 32-bit protocol, while IPv6 is a 128-bit protocol allowing for 3.4×10 to the 38th power new IP addresses, and thus allowing for a vast increase in connecting people, places, and things to the Internet.

The Company derives revenue from Sponsorships, Conference Attendee Fees, Training Fees, and Consulting to Governments. New sources of revenue during the 2005-2007 will be derived from Consulting to Corporations, Software Revenue, Subscription Revenue and Information Revenue.

Year end - The Company's year end is June 30.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue and expense recognition - The Company recognizes revenue from services provided once all of the following criteria for revenue recognition have been met: 1) pervasive evidence of an agreement exists, 2) the services have been delivered, 3) the price is fixed and determinable and not subject to refund or adjustment and 4) collection of the amounts due is reasonably. Overhead and administrative costs are recognized when incurred and direct event costs and expenses are recognized during the period in which the event they are associated with occurs.

Fixed assets - Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided principally on the straight-line method over the estimated useful lives of the assets, which are generally 3 years. The cost of repairs and maintenance is charged to expense as incurred. Expenditures for property betterments and renewals are capitalized. Upon sale or other disposition of a depreciable asset, cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in other income (expense).

The Company periodically evaluates whether events and circumstances have occurred that may warrant revision of the estimated useful life of fixed assets or whether the remaining balance of fixed assets should be evaluated for possible impairment. The Company uses an estimate of the related undiscounted cash flows over the remaining life of the fixed assets in measuring their recoverability.

Goodwill and intangible assets - In July 2001, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 141, “Business Combinations” and No. 142, “Goodwill and Other Intangible Assets.” SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment.

According to this statement, goodwill and intangible assets with indefinite lives are no longer subject to amortization, but rather an annual assessment of impairment by applying a fair-value based test. Fair value for goodwill is based on discounted cash flows, market multiples and/or appraised values as appropriate. Under SFAS No. 142, the carrying value of assets are calculated at the lowest level for which there are identifiable cash flows.

The Company has no Goodwill or Intangible Assets and thus the Company did not record any amortization expense related to goodwill or intangibles as of December 31, 2005.

SFAS 142 requires the Company to compare the fair value of the reporting unit to its carrying amount on an annual basis to determine if there is potential impairment. If the fair value of the reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board issued SFAS 123 (R), "Share-Based Payment." This Statement is a revision to SFAS 123, "Accounting for Stock-Based Compensation", and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." SFAS 123(R) requires the measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. No compensation cost is recognized for equity instruments for which employees do not render service. We will adopt SFAS 123(R) effective on July 1, 2005, requiring compensation cost to be recognized as expense for the portion of outstanding unvested awards, and any new awards made thereafter, based on the grant-date fair value of those awards.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150"). This statement requires that certain financial instruments that, under previous guidance, issuers could account for as equity, be classified as liabilities in statements of financial position. Most of the guidance in SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Company's adoption of SFAS 150 did not have a material effect on the results of operations or financial position.

Income taxes - The Company accounts for its income taxes in accordance with Statement of Financial Accounting Standards No. 109, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date.

Advertising costs - The Company recognizes advertising expenses in accordance with Statement of Position 93-7 "Reporting on Advertising Costs." Accordingly, the Company expenses the costs of producing advertisements at the time production occurs, and expenses the costs of communicating advertisements in the period in which the advertising space or airtime is used. The Company has recorded approximately \$97,000 and \$43,000 of advertising costs for the six months ended December 31, 2005 and 2004, respectively.

Research and development costs - Research and development costs are charged to expense as incurred.

Earnings (loss) per share

The Company reports earnings (loss) per share in accordance with SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since the effect of the assumed exercise of options and warrants to purchase common shares would have an anti-dilutive effect.

2. FIXED ASSETS

Fixed assets consist of the following as of December 31, 2005:

Equipment	\$	12,290
Less: accumulated depreciation		8,565
Fixed assets, net	\$	3,725

3. DUE TO RELATED PARTIES

Due to related parties as of December 31, 2005 are comprised of the following:

Note payable to Alex Lightman related to Stock Purchase Agreement(see Note 1 for detailed discussion), interest rate at 4%, payable in monthly installment payments of \$83,333 (principal only) for each successive month starting on the date of execution of the note contingent upon certain conditions having been met, and ending October 17, 2006 which any unpaid principal and interest would be due at that date	\$	720,000
Advances from Alex Lightman, due on demand, unsecured and bears no interest		13,468
Advances from a company owned by Alex Lightman, due on demand, unsecured and bears no interest		2,000
	\$	735,468

4. CONVERTIBLE DEBENTURE

On August 31, 2005, the Company entered into a Securities Purchase Agreement, dated as of August 31, 2005 (“Agreement”), by and among the Company, AJW Partners, LLC (“Partners”), AJW Offshore, Ltd. (“Offshore”), AJW Qualified Partners (“Qualified”) and New Millenium Capital Partners, II, LLC (“Millenium”). Partners, Offshore, Qualified and Millenium are collectively referred to as the “Purchasers”. The Agreement provides for the sale by the Company to the Purchasers of Secured Convertible Term Notes (the “Notes”) issued by the Company in the aggregate principal amount of \$4,500,000 (“Principal Amount”). The Principal Amount is to be funded by the Purchasers in three tranches \$1,500,000 on September 1, 2005, \$1.5 million upon filing the Registration Statement and \$1.5 million upon effectiveness of the Registration Statement. The offering of Notes under the Agreement was made pursuant to Section 4(2) of the Securities Act of 1933, as amended. The Notes matures August 31, 2008, bear interest at 8% per annum, unless the common stock of the Company is greater than \$3.50 per share for each trading day of a month, in which event no interest is payable during such month, and principal and interest due at maturity. The Notes are convertible into common stock of the Company at the lesser of \$3.50 or a 30% discount to the average of the three lowest trading prices of the common stock during the 20 trading day period prior to conversion. In connection with the subject offering, the Company issued an aggregate of 1,000,000 warrants (333,333 upon each tranche of financing) to purchase common stock at a price of \$5.00 per share. The warrants are exercisable for a period of five years. The Company has the right to redeem the Notes under certain circumstances and the right to prevent conversions in any month where the stock price is less than \$3.50 per share. The conversion of the Notes are subject to an effective Registration Statement to be filed by the Company. In the event the Company is unable to have the Registration Statement declared effective within the timeframe of the Agreement, we may be required to pay to the Note Holders an amount equal to the then outstanding principal amount of the Notes multiplied by two hundredths (.02) times the sum of: (a) the number of months (prorated for partial months) after the filing date or the end of the one hundred and eighty day period and prior to the date the Registration Statement is declared effective, (b) the number of months (prorated for partial months) that sales of all of the shares registered cannot be made after the Registration Statements is declared effective and (c) the number of months (prorated for partial months) that the common stock is not listed or included for quotation on the OTCBB, NASDAQ Small Cap, NYSE or AMEX or that trading has been halted after the Registration has been declared effective. If thereafter, sales could not be made pursuant to the Registration Statement, for an additional period of one month, the Company shall pay an additional \$5,000 for each \$250,000 of outstanding principal under the Notes. As of December 31, 2005, the management of the Company believes the Registration Statement will be declared effective within the timeframe of the Agreement. Further, any amounts owing to the investors shall be paid in cash or, at the Company's option, in shares of Common Stock priced at the lesser of \$3.50 per share or 30% discount to the Market Price.

The Company has determined the convertible debenture represents an embedded derivative due to the indeterminate number of shares that may be issued as part of the conversion feature of the host debt which would be required to be bifurcated from the underlying debt as derivative liability in accordance SFAS No. 133. Additionally, the warrants related to the convertible debenture are considered tainted due to the indeterminate number of shares associated with the conversion feature of the host debt which would be accounted for as a derivative instrument (“warrant liability”). As a result, the entire principal balance of the convertible debenture has been allocated to derivative and warrant liability when initially recording this transaction. Both embedded derivative and warrant liability will be adjusted to the fair value of the underlying securities at end of each period. The recorded fair values of both the derivative and warrant liability can fluctuate significantly based upon the fluctuations in the market value of the underlying securities, as well as the volatility of the stock price during the term used for observation and the term remaining for the warrants. The adjustment to fair value for both the derivative and warrant liability will result in either a unrealized gain or loss and recorded in the income statement as a component of Other Income (Expense). The estimated fair value of the warrant liability has been determined using Black-Scholes option pricing model using the following assumptions: exercise price of \$5.00, historical stock price volatility, risk free interest rate of 3.5%; dividend yield of 0% and 1.5 year term. The estimated fair value of the derivative liability was determined by taking the total amount advanced from the host debt and determined the potential number of shares to be converted based upon the terms of the debt agreement and

arriving at an intrinsic value based upon the closing price of the underlying securities which was then allocated on a pro rate basis along with the estimated fair value of the warrant liability. The Company will accrete principal over the term of the convertible debenture since the entire principal balance of the convertible debenture has been allocated between the derivative and warrant liability. As of December 31, 2005, the Company has accreted principal \$752,056 with unaccreted principal of \$2,247,944. In connection with the loan, Alex Lightman the Company's President pledged 3,000,000 shares of his common stock as additional security. Additionally, the Company has agreed to pay a finder's fee to an unrelated third party related to this convertible debenture at a rate of 8% of the gross proceeds plus warrant for common stock totaling 34,286 shares. As of December 31, 2005, the Company had paid a total of \$240,000 in cash and \$102,000 in stock warrants as a finder's fee which had been expensed and reflected as part of selling, general and administrative expense in the accompanying statements of operations for the six months ended December 31, 2005.

F-27

The following table summarizes the various components of the convertible debentures as of December 31, 2005:

Convertible debenture	\$ 752,056
Derivative liability	2,925,396
Warrant liability	45,143
	3,722,595
Cumulative unrealized gain from adjustment of derivative and warrant liabilities to fair value of underlying securities	29,461
Accretion of principal related to convertible debenture	(752,056)
Total convertible debenture	\$ 3,000,000

5. STOCKHOLDERS' EQUITY

In August 2005, the Company had issued warrants for 34,286 shares of common stock with an exercise price of \$3.50 to an entity for services provided. The warrants have been valued at \$102,000 using the Black-Scholes option pricing model and the following assumptions: term of 3 years, a risk free interest rate of 3.5%, a dividend yield of 0% and volatility of 162%. The entire amount of \$102,000 has been expensed as of December 31, 2005.

In September 2005, the Company had issued 50,000 shares of common stock for services provided with a total value of \$62,500 which had been expensed as of December 31, 2005.

In November 2005, the Company had issued 100,000 shares of common stock for services provided with a total value of \$89,250 which had been expensed as of December 31, 2005.

6. SUBSEQUENT EVENTS

In February 2006, the Company had issued 120,000 shares of common stock for services provided with a total value of \$37,200.

F-29

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Under Nevada law, a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he:

(a) Is not liable pursuant to NRS 78.138; or

(b) Acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

The termination of any action, suit or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, does not, of itself, create a presumption that the person is liable pursuant to NRS 78.138 or did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, or that, with respect to any criminal action or proceeding, he had reasonable cause to believe that his conduct was unlawful.

Under our Articles of Incorporation and Bylaws, the corporation shall indemnify any individual made a party to a proceeding because he is or was an officer, director, employee or agent of the corporation against liability incurred in the proceeding, all pursuant to and consistent with the provisions of NRS 78.751, as amended from time to time.

The expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding shall be paid by the corporation as they are incurred and in advance of the final disposition of the action, suit or proceeding, but only after receipt by the corporation of an undertaking by or on behalf of the officer or director on terms set by the Board of Directors, to repay the expenses advanced if it is ultimately determined by a court of competent jurisdiction that he is not entitled to be indemnified by the corporation.

The indemnification permitted herein is intended to be to the fullest extent permissible under the laws of the State of Nevada, and any amendments thereto.

Insofar as indemnification for liabilities arising under the Securities Act might be permitted to directors, officers or persons controlling our company under the provisions described above, we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

ITEM 25. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION

The following table sets forth an estimate of the costs and expenses, other than the underwriting discounts and commissions, payable by the registrant in connection with the issuance and distribution of the common stock being registered.

SEC registration fee	\$	1,540.16
Legal fees and expenses		30,000.00
Accountants' fees and expenses		--
Printing expenses		1,500.00
Total	\$	33,040.16

All amounts except the SEC registration fee are estimated. All of the expenses set forth above are being paid by us.

ITEM 26. RECENT SALES OF UNREGISTERED SECURITIES

On August 31, 2005, the Company entered into a Securities Purchase Agreement, dated as of August 31, 2005 ("Agreement"), by and among the Company and AJW Partners, LLC. ("Partners"), AJW Offshore, Ltd. ("Offshore"), AJW Qualified Partners ("Qualified") and New Millenium Capital Partners, II, LLC ("Millenium"). Partners, Offshore, Qualified and Millenium are collectively referred to as the "Purchasers". The Agreement provides for the sale by the Company to the Purchasers of Secured Convertible Term Notes (the "Notes") issued by the Company in the aggregate principal amount of Four Million Dollars (\$4,500,000) ("Principal Amount"). The Principal Amount is to be funded by the Purchasers in three tranches (\$1.5 million on September 1, 2005, \$1.5 million upon filing the Registration Statement and \$1.5 million upon effectiveness of the Registration Statement). The offering of Notes under the Agreement was made pursuant to Section 4(2) of the Securities Act of 1933, as amended. The Notes bear interest at 8% per annum, unless the common stock of the Company is greater than \$3.50 per share for each trading day of a month, in which event no interest is payable during such month. The Notes are convertible into common stock of the Company at the lesser of \$3.50 or a 30% discount to the average of the three lowest trading prices of the common stock during the 20 trading day period prior to conversion. In connection with the subject offering, the Company issued an aggregate of 1,000,000 warrants (333,333 upon each tranche of financing) to purchase common stock at a price of \$5.00 per share. The warrants are exercisable for a period of five years. The conversion of the Notes are subject to an effective Registration Statement to be filed by the Company. The Company has the right to redeem the Notes under certain circumstances and the right to prevent conversions in any month where the stock price is less than \$3.50 per share. The Notes are secured by all of the Company's assets. In connection with the loan, Mr. Alex Lightman, our Chief Executive Officer and President, pledged 3,000,000 shares of his common stock as additional security. The proceeds of the offering will be used primarily for working capital and for repayment of the promissory note issued to Mr. Alex Lightman. The purchases represented to the Company that they are "accredited investors." No commissions were paid in connection with the transaction.

In connection with our Stock Purchase Agreement, dated August 8, 2005, we issued securities to Mr. Alex Lightman in exchange for 100% of the issued and outstanding shares of IPv6 Summit, Inc. Specifically, we issued a promissory note in the principal face amount of \$1,000,000 and issued 33,333,000 shares of our restricted common stock. On October 17, 2005, we amended and restated our promissory note originally issued to Mr. Alex Lightman on October 12, 2005. The principal face amount of the note is \$1,000,000 and bears interest at the rate of four percent (4%) per annum. The note was amended and restated to provide for a repayment schedule which is to coincide with the timing that the Company receives the Traunches.

(2) Previously filed with Registration Statement on Form SB-2 on October 27, 2005 and Incorporated herein by reference.

ITEM 28. UNDERTAKINGS

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the registrant pursuant to any provision of the certificate of incorporation, bylaws, contract arrangements, statute, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933, and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) It will file, during any period in which it offers or sells securities, a post-effective amendment to this Registration Statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) Include any additional or changed material information on the plan of distribution;

(2) For determining liability under the Securities Act of 1933, it will treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering; and

(3) It will file a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For determining any liability under the Securities Act of 1933, it will treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the small business issuer under Rule 424(b)(1) or (4) or 497(h) under the Securities Act of 1933, as part of this registration statement as of the time the Commission declared it effective.

(5) For determining any liability under the Securities Act of 1933, it will treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

SIGNATURES

In accordance with the requirements of the Securities Act of 1933, as amended, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form SB-2/A and authorized this registration statement to be signed on its behalf by the undersigned, in the City of Santa Monica, California, on March 29, 2006.
