On August 1, 2007, a majority of the holders of the Company’s voting capital stock approved the Amendment.

The shareholder approval was granted by written consent, in lieu of a special meeting of the shareholders. The controlling shareholders have not consented to or considered any other corporate action. AMENDMENT TO THE CERTIFICATE OF INCORPORATION

On August 1, 2007, holders of a majority of the Company's capital stock approved an amendment to the Company's Certificate of Incorporation, to increase the number of authorized shares of the Company's Common Stock from 30,000,000 to 45,000,000. As of August 1, 2007, the Company had 24,215,518 shares of Common Stock issued and outstanding. The Amendment will allow the Company to issue warrants to purchase up to 692,308 shares of Common Stock to certain investors pursuant to a Securities Purchase Agreement dated August 2, 2007 by the Company and the investors named therein. The Board also believes that the increase in authorized common shares will provide the Company greater flexibility with respect to the Company's capital structure for such purposes as additional equity financing, and stock-based acquisitions.

Increase In Authorized Common Stock

The terms of the additional shares of Common Stock will be identical to those of the currently outstanding shares of Common Stock. However, because holders of Common Stock have no preemptive rights to purchase or subscribe for any unissued stock of the Company, the issuance of additional shares of Common Stock will reduce the current stockholders' percentage ownership interest in the total outstanding shares of Common Stock. This amendment and the creation of additional shares of authorized Common Stock will not alter the current number of issued shares. The relative rights and limitations of the shares of Common Stock will remain unchanged under this amendment.

As of the Record Date, a total of 24,215,518 shares of Common Stock are issued and outstanding. The increase in the number of authorized but unissued shares would enable the Company, without further stockholder approval, to issue shares from time to time as may be required for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes.

The proposed increase in the authorized number of shares of Common Stock could have a number of effects on the Company's stockholders depending upon the exact nature and circumstances of any actual issuances of authorized but unissued shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of the Company more difficult. For example, additional shares could be issued by the Company so as to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company, even if the persons seeking to obtain control of the Company offer an above-market premium that is favored by a majority of the independent stockholders. Similarly, the issuance of additional shares to certain persons allied with the Company's management could have the effect of making it more difficult to remove the Company's current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. The Company does not have any other provisions in its Certificate of Incorporation, bylaws, employment agreements, credit agreements or any other documents that have material anti-takeover consequences. Additionally, the Company has no plans or proposals to adopt other provisions or enter into other arrangements, except as disclosed below, that may have material anti-takeover consequences. The board of directors is not aware of any attempt, or contemplated attempt, to acquire control of the Company, and this proposal is not being presented with the intent that it be utilized as a type of anti-takeover device.

Other than the issuance of warrants to purchase up to 692,308 shares of Common Stock pursuant to a Securities Purchase Agreement dated August 2, 2007 by the Company and the investors named therein, there are currently no other plans, arrangements, commitments or understandings for the issuance of the additional shares of Common Stock which are proposed to be authorized.

The proposed form of Amendment attached as Exhibit A hereto becomes effective upon filing with the Delaware Secretary of State.

DESCRIPTION OF CAPITAL STOCK

Common Stock

As of the Record Date, there were 30,000,000 shares of Common Stock authorized with a par value of \$0.0001 per share, of which 24,215,518 shares were issued and outstanding. Each holder of the Company's Common Stock is entitled to one vote for each share held of record on all matters submitted to the vote of stockholders, including the election of directors.

Holders of Common Stock of the Company have no preemptive rights to acquire or subscribe to any of the additional shares of Common Stock.

The holders of Common Stock are entitled to receive pro rata dividends, when and as declared by the board of directors in its discretion, out of funds legally available. As a result, the payment of such dividends will depend on the Company's financial condition, results of operations, capital requirements and such other factors as the board of directors deems relevant. The Company has not declared any dividends since incorporation and does not anticipate doing so in the foreseeable future.

Preferred Stock

As of the Record Date, the Company has 5,000,000 shares of Preferred Stock with a par value of \$0.0001 per share, of which no shares were issued and outstanding. The board of directors has sole discretion in designating the preferences, limitations and relative rights of the Preferred Stock.
