ITEM 1.01 Entry into a Material Definitive Agreement

On October 12, 2007, IsoRay Medical, Inc. ("IsoRay"), the wholly owned subsidiary of IsoRay, Inc., entered into Amendment No. 1 (the "Amendment") to its License Agreement (the "Agreement") dated February 2, 2006 with International Brachytherapy, SA, a Belgian company ("IBt"). The Agreement provided IsoRay with access to IBt's proprietary polymer based seed encapsulation technology for use in brachytherapy procedures using Cesium-131 in the United States for a fifteen year term.

IsoRay has already paid an initial \$50,000 license fee and an additional payment of \$225,000 pursuant to the Agreement. A third payment of \$225,000 was made on October 12, 2007 pursuant to the Amendment. The Amendment eliminates the previously required royalty payments based on net sales revenue, and the parties intend to negotiate terms for future payments by IsoRay for polymer seed components to be purchased from IBt in the future at IBt's cost plus a to-be-determined profit percentage, although no agreement has been reached on these terms and there is no assurance that the parties will consummate an agreement pursuant to such terms.
