April ##, 2008

Dear Shareholders:

I am pleased to invite you to the NetSol Technologies, Inc. Annual Meeting, scheduled for May 2, 2008 at our corporate headquarters in Calabasas, CA. At this meeting, we will address the Company's financial performance for Fiscal Year 2007, our continuing goals for Fiscal Year 2008 as well as respond to your questions. Enclosed with this proxy statement is a proxy card, voting instructions and NetSol Technologies, Inc. Fiscal Year 2007 Form 10-KSB for the year ended June 30, 2007.

Fiscal 2007 represented a solid year of integration, execution and growth for NetSol Technologies, Inc. In this period, NetSol moved forward with its plans to organize all of the Company's global entities under one marquee brand and to present them as a seamlessly integrated company. At the same time, NetSol also streamlined its operations to take advantage of the cost benefits of its offshore development facilities.

Our company is now comprised of three divisions NetSol North America, NetSol Asia-Pacific (APAC) and NetSol Europe, Middle East and Africa (EMEA). These divisions allow for improved sales, marketing and implementation support in the local markets while taking advantage of the cost benefits of our Lahore, Pakistan based development facility. NetSol also continued the diversification of its IT outsourcing market verticals to include finance, e-government, enterprise business, IT security, and defense.

Increasingly, customers are looking beyond India when seeking low cost, high quality, IT offshoring and outsourcing solutions. Consequentially, NetSol is positioning itself to become a premiere player in the new wave of emerging market IT services and outsourcing companies that have spawned from destinations such as Pakistan, the Philippines and Eastern and Central Europe.

Fiscal Year 2007 Highlights and Review

For Fiscal year 2007 our goal was to extend our top line growth trajectory while trying to achieve GAAP profitability on first a quarterly basis. NetSol made great strides towards these goals as we were able to achieve a 57% year-over-year increase in revenues while maintaining our margins of greater than 50%. In addition, NetSol achieved GAAP profitability in the fourth quarter of fiscal 2007 generating \$1.3 million in net income. These results were driven by our successful efforts to reduce costs by offshoring development to our Lahore IT facility, growing our software business in addition to further penetrating new verticals such as through our joint venture effort with The Innovation Group (TIG). Due to NetSol's superior quality programming team, our relationship and business is granting stronger each day with TIG. The earnings from this joint venture has contributed over 9% of our total revenue. We anticipate continued growth in this venture while expressing interest from our US based customers in similar relationships.

On a geographic basis, for fiscal year 2007, Asia-Pacific provided 64% of total revenue versus 60% in fiscal 2006; North America provided 17% of total revenue as the Company established a major new presence in this key geography; and Europe provided 19% of total revenue versus 40% in fiscal 2006. NetSol also expanded its global footprint and breadth of customers and as of June 30, 2007, NetSol had close to 200 customers worldwide, versus less

than 140 in the same period in 2006.

Our LeaseSoft software suite remains our leading growth driver particularly in China and the Asia-Pacific region where our product suite has become the de facto standard in vehicle portfolio management. Fiscal 2007 also marked sales and marketing progress with our LeasePak product in North America including new customer penetration within the Fortune 500 universe of companies. By the end of fiscal 2007, our LeaseSoft offering supported customers and equipment finance portfolios in 17 countries as well as 9 currencies.

2

As a complement to our strong software sales in the APAC region NetSol also increased its attention in the local Pakistan market where demand for IT services is steadily increasing. One of the most important drivers in Pakistan is in e-Government services for public sector departments and ministries. Some of these offerings include motor transport management systems, land record management systems, enterprise content management and healthcare automation. Our first pilot project for land record moved forward and we remain one of the leading candidates for a major win in 2008. Another promising segment of the IT market is computer-based training, and unit management systems, specifically in the defense sector in Pakistan.

In North America, we managed to allocate 15 offshore developers to the business, leading to significant cost benefits to the division. This means that NetSol's offshore resources at fiscal year end represented approximately 50% of the North American division's development efforts. We also expanded NetSol North America's IT outsourcing offerings by commencing the rollout of our North American IT outsourcing and customized development services for the equipment finance technology market. Our local onshore North American LeasePak services combined with our offshore CMMI level-5 certified development resources to offer concentrated domain expertise and is a major differentiator for NetSol as compared to other offshore development providers. We believe these combined resources and capabilities position us well to further penetrate and succeed in the North American market. To help jump start our efforts, we launched our IT services at a NetSol users' group conference in June 2007, which was attended by all our U.S. clients, providing excellent visibility for our new offerings.

The EMEA division had several important customer wins including a leading French bank which selected LeaseSoft for its end-to-end effort finance solutions, as well as helping Kaupthing Singer and Friedlander go live with credit card facility enhancements. We also expanded our offshore resources team, increasing our development and test capabilities. To ensure that NetSol stays at the forefront of the captive finance market, we delivered a wide range of new products and modules in fiscal 2007, including LeaseSoft Porthole, LeaseSoft Document Manager, and LeaseSoft Auto Decision Engine, LeaseSoft EDI manager, and Evolve, an entry-level software package for brokerages and small- to medium-sized funders. We believe the EMEA division is well positioned to continue to penetrate the European brokering market segment, both organically and through strategic partnerships and alliances. Our joint venture with the Extended Innovation Group led to a 60% increase in revenues as compared to fiscal 2006.

Accolades Received

NetSol was recognized by the Federation of Pakistan Chambers of Commerce and Industry ("FPCCI") for Best Export Performance for the Information and Technology Services Sector for the period July 2005 to June 2006.

The purpose of the Annual Meeting and the matters to be acted on there are set forth in the accompanying Notice of Annual Meeting of Stockholders.

The Annual Meeting has been called for the purpose of the following:

1. To consider and vote on the election of directors, each to hold office for a term of one year ending in 2009 or when their successors are elected;
2. To consider and vote upon the ratification of the appointment of Kabani & Company as the Company's independent auditors for the fiscal year 2008-9;

4. To consider and vote on a proposal to adopt the NetSol Technologies, Inc. 2008 Equity Incentive Plan;
5. To consider such other matters as may properly come before the Annual Meeting.

The board of directors solicits the accompanying proxy to those stockholders of record as of the close of business on March 14, 2008. These materials are expected to be first mailed to stockholders on or about April 2, 2008. The cost of making the solicitation includes the cost of preparing and mailing the Notice of Annual Meeting, Proxy Statement, proxy card and the payment of charges made by brokerage houses and other custodians, nominees and fiduciaries for forwarding documents to stockholders. In certain instances, directors and officers of the Company may make special solicitations of proxies either in person, telephone or by mail. Expenses incurred in connection with special solicitations are expected to be nominal. The Company will bear all expenses incurred in connection with the solicitation of proxies for the Annual Meeting.

VOTING AND REVOCATION OF PROXIES

A stockholder, giving a proxy, on the enclosed form, may revoke it at any time prior to the actual voting at the Annual Meeting by filing written notice of the termination of the appointment with an officer of the Company, by attending the Annual Meeting and voting in person, or by filing a new written appointment of a proxy with an officer of the Company. The revocation of a proxy will not affect any vote taken prior to the revocation. Unless a proxy is revoked or there is a direction to abstain on one or more proposals, it will be voted on each proposal and, if a choice is made with respect to any matter to be acted upon, in accordance with such choice. If no choice is specified, the proxies intend to vote the shares represented thereby to approve Proposals No. 1 through 4 as set forth in the accompanying Notice of Annual Meeting of Stockholders, and in accordance with their best judgment on any other matters that may properly come before the Annual Meeting.

VOTING SECURITIES

As of March 10, 2008, there were 25,238,818 shares of common stock issued and outstanding and 1,920 shares of Series A 7% Cumulative Convertible Preferred Stock (the "Preferred"). Each share of common stock is entitled to one vote. The Preferred Stock bears voting rights in an amount equal to the conversion value of the preferred stock into common stock, without giving effect to any anti-dilution provisions of the Preferred Stock. Conversion of the Preferred Stock is subject to beneficial ownership cap of 9.9% of the total number of shares of common stock of the Company then issued and outstanding. For purpose of this Annual Meeting, each share of Preferred Stock is entitled to the equivalent of 606.06 common stock votes, subject to the 9.9% cap.

INTERESTS OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

No director or executive officer holds a substantial interest, either directly or indirectly, in any matter to be acted upon.

VOTING AT THE MEETING

Only stockholders of record at the close of business on March 14, 2008 are entitled to notice of and to vote at the Annual Meeting or any adjournments thereof. Each share of Common Stock is entitled to one vote on the matters to be presented at the Annual Meeting.

A majority of the votes entitled to be cast on matters to be considered at the Annual Meeting, present in person or by proxy, will constitute a quorum at the Annual Meeting. If a share is represented for any purpose at the Annual Meeting, it is deemed to be present for all other matters. Abstentions and broker nonvotes will be counted for purposes of determining the presence or absence of a quorum. "Broker nonvotes" are shares held by brokers or nominees which are present in person or represented by proxy, but which are not voted on a particular matter because instructions have not been received from the beneficial owner. Under applicable Nevada law, the effect of broker nonvotes on a particular matter depends on whether the matter is one as to which the broker or nominee has discretionary voting authority. Under applicable Nevada law, as it applies to the proposals presented to stockholders at this annual meeting, Broker nonvotes shall be treated as an abstention and such Broker nonvotes shall be included in the total shares voted for the purpose of quorum requirements and determining whether a majority of stockholders have approved the transactions. Treatment of Broker nonvotes as abstentions results in these votes being treated as "no" votes in so far as a majority of all votes cast, including broker nonvotes, must be voted in favor for a proposal to be approved. A majority of votes in favor must be acquired in order for the proposals to be approved.

RETURNED PROXY CARDS WHICH DO NOT PROVIDE VOTING INSTRUCTIONS

Proxies that are signed and returned will be voted in the manner instructed by a stockholder. If you sign and return your proxy card with no instructions, the proxy will be voted "For" with respect to the item set forth in the Proposal.

SHARES HELD IN "STREET NAME"

If your shares are held in "street name", your broker can vote your shares only if you provide instructions on how to vote. You should instruct your broker to vote your shares in accordance with directions provided by your broker.

CHANGING YOUR VOTE

You may revoke your proxy at any time before the proxy is voted at the Annual Meeting. In order to do this, you must:

- send us written notice, stating your desire to revoke your proxy,
- send us a signed proxy that bears a later date than the one you intend to revoke, or,
- attend the Annual Meeting and vote in person. In this case, you must notify the Inspector of Elections or Secretary of the Company that you intend to vote in person.

ELECTION OF DIRECTORS

The Bylaws of the Company provide that the Company is authorized to have up to seven directors, and that stockholders will elect the directors of the Company at each annual meeting. Directors are elected to serve a one-year term. Directors being elected at the Annual Meeting will serve until the Company's next annual meeting of stockholders, or until their successors have been duly elected and qualified. Proposal No. Two

**RATIFICATION OF APPOINTMENT OF KABANI & COMPANY, INC. AS THE COMPANY'S
INDEPENDENT AUDITORS FOR FISCAL 2008-09**

The Audit Committee along with the Board of Directors has appointed Kabani & Company, Inc. ("Kabani") as independent auditors of the Company with respect to its operations for fiscal year 2008-09, and has further directed that management submit such appointment for ratification by the holders of the Common Stock at the annual meeting of Stockholders. In taking this action, the members of the Audit Committee along with the Board considered carefully Kabani's reputation in providing accounting services to other public and private companies in the software and retail industries, its independence with respect to the services to be performed, its general reputation for adherence to professional auditing standards and the performance of Kabani during the audit of the Company's consolidated financial statements for fiscal 2002 through current.

Stockholder ratification of the selection of Kabani as the Company's independent auditors is not required by the Company's Bylaws or otherwise. The Board, however, is submitting the selection of Kabani to the stockholders for ratification as a matter of good corporate practice. Therefore, there will be present at the Annual Meeting a proposal for the ratification of this appointment, which the Board of Directors believes is advisable and in the best interests of the stockholders. If the appointment of Kabani is not ratified, the Board of Directors will consider the matter of the appointment of independent public accountants.

Audit Fees

Kabani & Co. audited the Company's financial statements for the fiscal years ended June 30, 2007 and June 30, 2006. The aggregate fees billed by Kabani & Co. for the annual audit and review of financial statements included in the Company's Form 10-KSB or services that are normally provided by Kabani & Company that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the year ended June 30, 2007 was \$105,000, and for the year ended June 30, 2006 was \$135,500.

Audit Related Fees

The aggregate fees billed by Kabani & Co. during fiscal 2007 including assurance and related audit services not covered in the preceding paragraph was \$40,000. These "Audit Related Fees" were primarily for services in connection with the review of quarterly financial statements and the Company's filing of a Registration Statement and amendments thereto on Form S-3. The aggregate fees billed by Kabani & Company during fiscal 2006 including assurance and related audit services not covered in the preceding paragraph was \$31,500. These "Audit Related Fees" were primarily for services in connection with the review of quarterly financial statements and the Company's filing of a Registration Statement on Form S-8.

Tax Fees

Tax fees for fiscal year 2007 were \$12,500 and consisted of the preparation of the Company's federal and state tax returns for the fiscal years 2006. Tax fees for fiscal year 2006 were \$21,500 and consisted of the preparation of the Company's federal and state tax returns for the fiscal years 2004 and 2005.

All Other Fees

There were no other fees billed by Kabani & Co. or services rendered to NetSol during the fiscal years ended June 30, 2007 and 2006, other than as described above.

Pre-Approval Procedures

The Audit Committee and the Board of Directors are responsible for the engagement of the independent auditors and for approving, in advance, all auditing services and permitted non-audit services to be provided by the independent auditors. The Audit Committee maintains a policy for the engagement of the independent auditors that is intended to maintain the independent auditor's independence from NetSol. In adopting the policy, the Audit Committee considered the various services that the independent auditors have historically performed or may be needed to perform in the future. The policy, which is to be reviewed and re-adopted at least annually by the Audit Committee:

- (i) Approves the performance by the independent auditors of certain types of service (principally audit-related and tax), subject to restrictions in some cases, based on the Committee's determination that this would not be likely to impair the independent auditors' independence from NetSol;
- (ii) Requires that management obtain the specific prior approval of the Audit Committee for each engagement of the independent auditors to perform other types of permitted services; and,
- (iii) Prohibits the performance by the independent auditors of certain types of services due to the likelihood that their independence would be impaired.

Any approval required under the policy must be given by the Audit Committee, by the Chairman of the Committee in office at the time, or by any other Committee member to whom the Committee has delegated that authority. The Audit Committee does not delegate its responsibilities to approve services performed by the independent auditors to any member of management.

The standard applied by the Audit Committee in determining whether to grant approval of an engagement of the independent auditors is whether the services to be performed, the compensation to be paid therefore and other related factors are consistent with the independent auditors' independence under guidelines of the Securities and Exchange Commission and applicable professional standards. Relevant considerations include, but are not limited to, whether the work product is likely to be subject to, or implicated in, audit procedures during the audit of NetSol's financial statements; whether the independent auditors would be functioning in the role of management or in an advocacy role; whether performance of the service by the independent auditors would enhance NetSol's ability to manage or control risk or improve audit quality; whether performance of the service by the independent auditors would increase efficiency because of their familiarity with NetSol's business, personnel, culture, systems, risk profile and other factors; and whether the amount of fees involved, or the proportion of the total fees payable to the independent auditors in the period that is for tax and other non-audit services, would tend to reduce the independent auditors' ability to exercise independent judgment in performing the audit.

THE BOARD RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF KABANI & COMPANY, INC. AS THE COMPANY'S INDEPENDENT AUDITORS FOR FISCAL 2008-09.

Proposal No. 3

APPROVAL TO AMEND THE ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF CAPITAL STOCK FROM 50,000,000 TO 100,000,000

The articles of incorporation of the Company currently authorize 50,000,000 shares of capital stock of which 45,000,000 shares shall be shares of Common Stock, \$.001 par value (the “Common Stock”) and 5,000,000 shares shall be of Preferred Stock, \$.001 par value (“Preferred Stock”).

The Company proposes to amend the first paragraph of Article III of the Articles of Incorporation to read as follows:

“Section 3: The Corporation shall be authorized to issue 100,000,000 shares of capital stock, of which 95,000,000 shares shall be shares of Common Stock, \$.001 par value (“Common Stock”) and 5,000,000 shares shall be shares of Preferred Stock, \$.001 par value (“Preferred Stock”).

The remainder of section 3 shall remain unchanged by this amendment and shall read as follows:

“The board of directors of the Corporation (the “Board of Directors”) is expressly authorized to provide for issuance of all or any shares of the Preferred Stock in one or more series, and to fix for each such series such voting powers, full or limited, or no voting powers, and such designations, preferences and relative participating, optional or other special rights and such qualifications, limitations or restrictions thereof, as shall be stated and expressed in the resolution or resolutions adopted by the Board of Directors providing for the issuance of such series and as may be permitted by the Nevada Revised Statutes (as amended from time to time, the “NRS”), including, without limitation, the authority to provide that any such class or series may be (i) subject to redemption at any time or times and at such price or prices; (ii) entitled to receive dividends (which may be cumulative or non-cumulative) at such rates, on such conditions, and at such times, and payable in preference to, or in such relation to, the dividends payable on any other class or classes or any other series; (iii) entitled to such rights upon the dissolution of, or upon any distribution of the assets of, the Corporation; (vi) entitled to vote separately or together with any other series or class of stock of the Corporation; or (v) convertible into, or exchangeable for, shares of any other class or classes of stock, or of any other series of the same or any other class or classes of stock, of the Corporation at such price or prices or at such rates of exchange and with such adjustments; all as may be stated in such resolution or resolutions.”

Possible Benefits

The Board of Directors believes that an increase in the number of shares of authorized capital stock would benefit us and our stockholders by giving us needed flexibility in our corporate planning in responding to developments in our business, including possible financing and acquisition transactions, common stock splits or dividends and for other general corporate purposes. Having such authorized shares available for issuance in the future would provide us with greater flexibility and, if necessary, allow common stock to be issued in the future without expense or delay.

Possible Effects

Unless otherwise required by applicable law or regulation, the shares of common stock to be authorized will be issued without further authorization by vote or consent of the stockholders and on such terms and for such consideration as may be determined by the Board of Directors. Further issuances could have a dilutive effect on the ownership of current stockholders. Other than may otherwise be stated in this proxy statement, the Company has no current plan to issue additional shares of common stock. Accordingly, we do not anticipate the increase in authorized stock to have an effect, including a dilutive effect, upon the shareholders.

The amendment of the articles requires the affirmative vote of a majority of shares represented and voting, in person or by proxy, at the Annual Meeting.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE AMENDMENT OF ARTICLES OF INCORPORATION TO INCREASE THE AUTHORIZED CAPITAL STOCK FROM 50,000,000 TO 100,000,000.

PROPOSAL NO. 4

**APPROVAL OF THE
NETSOL TECHNOLOGIES, INC. 2008 EQUITY INCENTIVE PLAN**

On March 6, 2008, subject to shareholder approval, our Board approved and adopted our 2008 Equity Incentive Plan (our 2008 Plan). Among other things, our 2008 Plan: (i) provides us with flexibility to motivate, attract, and retain the services of employees upon whom our success depends and to provide them with an equity interest in our Company in order to motivate superior performance and grants of equity-based awards, including options, stock appreciation rights, restricted stock awards or performance share awards or any other right or interest relating to shares or cash, to eligible participants, and (ii) reserves 1,000,000 shares of common stock for availability for awards under our 2008 Plan. No options or other performance awards, deferred share awards, stock appreciation rights or restricted stock awards are outstanding under our 2008 Plan. Any grants made pursuant to our 2008 Plan will be subject to shareholder approval of the plan and any such conditionally-awarded grants may not be exercised prior to such shareholder approval.

Our Board of Directors believes that our 2008 Plan is in the best interests of our Company and our shareholders and will bolster our recruitment, retention and incentivization of employees, consultants and directors and will support and encourage our continued growth.

OUR BOARD OF DIRECTORS RECOMMENDS THAT OUR SHAREHOLDERS VOTE "FOR" THE APPROVAL OF OUR 2008 EQUITY INCENTIVE PLAN.

The affirmative vote of the holders of a majority of the shares of our common stock present, in person or by proxy, and entitled to vote at our annual meeting of shareholders is required to approve our 2008 Plan. Our 2008 Plan is included as *Appendix A* to this proxy statement.

The principal features of our 2008 Plan are summarized below. This summary is qualified in its entirety by reference to the full text of our 2008 Equity Incentive Plan in *Appendix A* to this proxy statement.

Summary of our 2008 Plan

General. The purpose of our 2008 Plan is to provide us with flexibility to motivate, attract, and retain the services of employees upon whom our success depends and to provide them with an equity interest in our Company in order to motivate superior performance. Our 2008 Plan currently provides for the grant of equity-based awards, including options, stock appreciation rights, restricted stock awards or performance share awards or any other right or interest relating to shares or cash, to eligible participants.

Shares Subject to our 2008 Plan. The aggregate number of shares reserved and available for award under our 2008 Plan is 1,000,000 (the Share Reserve). Our 2008 Plan contemplates the issuance of common stock upon exercise of options or other awards granted to eligible persons under our 2008 Plan. Shares issued under our 2008 Plan may be both authorized and unissued shares or previously issued shares acquired by us. Upon termination or expiration of an unexercised option, stock appreciation right or other stock-based award under our 2008 Plan, in whole or in part, the number of shares of common stock subject to such award again become available for grant under our 2008 Plan. Any shares of restricted stock forfeited as described below will become available for grant. The maximum number of shares that may be granted to any one participant in any calendar year may not exceed 500,000 shares.

In the event of any change in capitalization of our Company, such as a stock split, merger, consolidation, separation, spin off, or other distribution of stock or property of our Company, any reorganization, any partial or complete liquidation of our Company or any extraordinary cash or stock dividend, the Compensation Committee (the

Committee) will make appropriate substitutions or adjustments in the aggregate number and kind of shares reserved for issuance under our 2008 Plan, in the share limitations for awards set forth in our 2008 Plan and in the number of shares subject to and exercise price of outstanding awards, or will make such other equitable substitution or adjustments as it may determine to be appropriate.

Administration. Our 2008 Plan is administered by the Committee, which has the power to determine the terms and conditions of awards. In addition, the Committee has the authority to amend, modify or terminate our 2008 Plan. No action by the Committee may affect any shares previously issued or any award previously granted under our 2008 Plan without the participant's written consent.

Stock Options. Options granted under our 2008 Plan are not generally transferable and must be exercised within 10 years, subject to earlier termination upon termination of the option holder's employment, but in no event later than the expiration of the option's term.

Each option granted under our 2008 Plan must be evidenced by a written agreement between us and the optionee specifying the number of shares subject to the option and the other terms and conditions of the option, consistent with the requirements of our 2008 Plan. The exercise price of each option may not be less than the fair market value of a share of our common stock on the date of grant (except in connection with the assumption or substitution for another option in a manner qualifying under Section 424(a) of the Internal Revenue Code of 1986, as amended (the Code)). Incentive stock options granted to any participant who owns 10% or more of our outstanding common stock (a Ten Percent Shareholder) must have an exercise price equal to or exceeding 110% of the fair market value of a share of our common stock on the date of the grant and must not be exercisable for longer than five years.

Options become vested and exercisable at such times or upon such events and subject to such terms, conditions, performance criteria or restrictions as specified by the Committee. The maximum term of any option granted under our 2008 Plan is ten years, provided that an incentive stock option granted to a Ten Percent Shareholder must have a term not exceeding five years. Unless otherwise determined by the Committee, an option generally will remain exercisable for 90 days following the optionee's termination of service, except that if service terminates as a result of the optionee's normal retirement, death or disability, the option generally will remain exercisable for its remaining term. The Committee, in its discretion, may provide longer post-termination exercise periods, but in any event the option must be exercised no later than its expiration date.

Stock options are not assignable or transferable by the optionee other than by will or by the laws of descent and distribution. Notwithstanding the foregoing, to the extent permitted by the Committee, in its discretion, and as set forth in the option award agreement, an option is assignable or transferable subject to the applicable limitations described in the General Instructions to Form S-8 Registration Statement under the Securities Act of 1933 (which includes transfers to family members, family trusts or pursuant to domestic relations orders, but excludes transfers of options for consideration).

Performance Awards. Under our 2008 Plan, a participant may also be awarded a "performance award," which means that the participant may receive cash, stock or other awards contingent upon achieving performance goals established by the Committee. The Committee may also make "deferred share" awards, which entitle the participant to receive our stock in the future for services performed between the date of the award and the date the participant may receive the stock. The vesting of deferred share awards may be based on performance criteria and/or continued service with our Company. A participant who is granted a "stock appreciation right" under the Plan has the right to receive all or a percentage of the fair market value of a share of stock on the date of exercise of the stock appreciation right minus the grant price of the stock appreciation right determined by the Committee (but in no event less than the fair market value of the stock on the date of grant). Finally, the Committee may make "restricted stock" awards under our 2008 Plan, which are subject to such terms and conditions as the Committee determines and as are set forth in the award agreement related to the restricted stock. Unless the Committee otherwise provides, upon termination of a participant's employment during the period when the restrictions apply, the participant's restricted stock is forfeited to us.

Section 162(m) of the Code limits our federal income tax deduction for compensation paid to our Chief Executive Officer and our three most highly paid executive officers (other than the Chief Financial Officer) for the applicable taxable year. The limit is \$1,000,000 per officer per year, with certain exceptions. This deductibility cap does not apply to "performance-based compensation," if approved in advance by our shareholders. Our 2008 Plan provides that all or a portion of an award that is subject to performance-based vesting may be designed to qualify as deductible "performance-based compensation." The performance criteria for that portion of any award that is intended to qualify as deductible performance-based compensation will be a measure based on performance criteria, either individually, alternatively or in any combination, applied to either our Company as a whole or to a subsidiary, division

or other area of our Company, and measured either annually or cumulatively over a period of years, on an absolute basis or relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Committee which may include the following: Awards other than Options and SARs made pursuant to the Plan may be made subject to the attainment of performance goals relating to one or more: (a) cash flow; (b) earnings (including gross margin, earnings before interest and taxes ("EBIT"), earnings before taxes ("EBT"), earnings before interest, taxes, depreciation, amortization and stock option expense ("EBITDASO"), and net earnings); (c) ethical conduct; (d) market share; (e) earnings per share; (f) growth in earnings or earnings per share; (g) stock price; (h) return on equity or average shareholders' equity; (i) total shareholder return; (j) return on capital; (k) return on assets or net assets; (l) return on investment; (m) revenue; (n) income or net income; (o) operating income or net operating income; (p) operating profit or net operating profit; (q) operating margin; (r) return on operating revenue; (s) overhead or other expense reduction; (t) growth in shareholder value relative to the two-year moving average of the S&P 500 Index; (u) growth in shareholder value relative to the two-year moving average of the Dow Jones Industrial Average; (v) credit rating; (w) strategic plan development and implementation; (x) succession plan development and implementation; (y) retention of executive talent; (z) improvement in workforce diversity; (aa) return on average shareholders' equity relative to the ten year treasury yield; (bb) capital resource management plan development and implementation; (cc) improved internal financial controls plan development and implementation; (dd) corporate tax savings; (ee) corporate cost of capital reduction; (ff) investor relations program development and implementation; (gg) corporate relations program development and implementation; (hh) executive performance plan development and implementation; and (ii) tax provision rate for financial statement purposes. The Committee may adjust the performance results to take into account extraordinary, unusual, non-recurring, or non-comparable items. No award of restricted stock, deferred stock or other awards granted under our 2008 Plan (other than stock options and stock appreciation rights) that is intended to satisfy the requirements for "performance based compensation" under Section 162(m) of the Code will be payable unless the Committee certifies in writing that the applicable performance goals have been satisfied.

Change in Control. In the event of certain changes in control of NetSol Technologies, the Committee has the discretion to provide that any award under our 2008 Plan that may be exercised will become fully vested and exercisable, and/or that all restrictions on any awards under our 2008 Plan will lapse as the Committee determines, which may be prior to the change of control.

Termination or Amendment. Our 2008 Plan will continue in effect until the first to occur of (i) its termination by the Committee or (ii) the date on which all shares available for issuance under our 2008 Plan have been issued and all restrictions on such shares under the terms of our 2008 Plan and the agreements evidencing awards granted under our 2008 Plan have lapsed. However, no incentive stock option may be granted under our 2008 Plan after May 2, 2018.

The Committee may terminate or amend our 2008 Plan at any time, provided that without shareholder approval, our 2008 Plan cannot be amended to increase the Share Reserve, change the class of persons eligible to receive incentive stock options or effect any other change that would require shareholder approval under any applicable law. No termination or amendment may affect any outstanding award unless expressly provided by the Committee, and, in any event, may not adversely affect an outstanding award without the consent of the participant unless necessary to comply with any applicable law.

The foregoing summary of certain provisions of our 2008 Plan is qualified by reference to the text of our 2008 Plan attached as *Appendix A* to this proxy statement.

Summary of Federal Income Tax Consequences of our 2008 Plan

The following summary describes the typical U.S. federal income tax consequences of awards granted under our 2008 Plan based upon provisions of the Code, as in effect on the date hereof, current regulations promulgated and proposed thereunder, and existing public and private administrative rulings of the Code, all of which are subject to change (possibly with retroactive effect). This is not intended to be a complete analysis and discussion of the federal income tax treatment of awards under our 2008 Plan, and does not discuss estate or gift taxes or the income tax laws of any municipality, state, or foreign country. Our Company generally will be entitled to withhold any required taxes in connection with the exercise or payment of an award, and may require the participant to pay such taxes as a condition to exercise of an award.

Stock Options. ISOs and non-qualified stock options (NQSOs) are treated differently for federal income tax purposes. ISOs are intended to satisfy the requirements of Section 422 of the Code. NQSOs need not satisfy such requirements.

A participant is not taxed on the grant or, except as described in the next sentence, the exercise of an ISO. The difference between the exercise price and the fair market value of the shares on the exercise date, however, will be a preference item for purposes of the alternative minimum tax, and thus a participant could be subject to the alternative minimum tax as a result of the exercise of an ISO. If a participant holds the shares acquired upon exercise of an ISO for at least two years following the option grant date and at least one year following exercise, the participant's gain, if any, upon a subsequent disposition of such shares is long-term capital gain. The measure of the gain is the difference between the proceeds received on disposition and the participant's basis in the shares (which generally equals the exercise price).

If a participant disposes of shares acquired pursuant to exercise of an ISO before satisfying the one and two-year holding periods described above, then: (i) if the proceeds received exceed the exercise price of the ISO, the participant will recognize capital gain equal to the excess, if any, of the proceeds received over the fair market value of the shares on the date of exercise, and will recognize ordinary income equal to the excess, if any, of the lesser of the proceeds received or the fair market value of the shares on the date of exercise over the exercise price of the ISO; or (ii) if the proceeds received are less than the exercise price of the ISO, the participant will recognize a capital loss equal to the excess of the exercise price of the ISO over the proceeds received. Capital gains recognized upon a disqualifying disposition will be taxable as long term capital gains if the participant held the shares for more than one year after the exercise of the ISO, or otherwise as short-term capital gains if the participant held the shares for less than one year after the exercise of the ISO. Capital losses recognized upon a disqualifying disposition will offset long term capital gains if the participant held the shares for more than one year after the exercise of the ISO, or otherwise will offset up to \$3,000 of long-term or short-term capital gains each year with the remainder carried forward if the participant held the shares for less than one year after the exercise of the ISO.

Our Company is not entitled to an income tax deduction on the grant or exercise of an ISO or on the participant's disposition of the shares after satisfying the holding period requirements described above. If the holding periods are not satisfied, our Company will be entitled to a deduction in the year the participant disposes of the shares in an amount equal to the ordinary income recognized by the participant.

The recipient of an NQSO will not realize any taxable income upon the grant of the option. Upon exercise of such option, the participant will realize ordinary income in an amount generally measured by the excess, if any, of the fair market value of the shares on the date of exercise over the option exercise price. Our Company will generally be entitled to a deduction in the same amount as the ordinary income realized by the participant. Upon the sale of such shares, the participant will realize short-term or long-term capital gain or loss, depending upon the length of time the shares are held. Such gain or loss will be measured by the difference between the sale price of the shares and the fair market value on the date of exercise. Special rules will apply in cases where a recipient of an award pays the exercise or purchase price of the award or applicable withholding tax obligations under our 2008 Plan by delivering previously owned shares or by reducing the number of shares otherwise issuable pursuant to the award. The surrender or withholding of such shares will in certain circumstances result in the recognition of income with respect to such shares or a carryover basis in the shares acquired, and may constitute a disposition for purposes of applying the ISO holding periods discussed above.

Stock Appreciation Rights. There will be no federal income tax consequences to either the participant or our Company on the grant of a stock appreciation right or while the right remains outstanding. Upon the exercise of such right, the participant will recognize ordinary income in an amount equal to the amount of cash and/or the fair market value, at the date of such exercise, of the shares received by such participant as a result of such exercise. Our Company will generally be entitled to a corresponding tax deduction.

Restricted Stock. The federal income tax consequences of a grant of restricted stock depend upon whether or not a participant elects to be taxed at the time of the grant of such shares under Section 83(b) of the Code (an 83(b) election). If no 83(b) election is made, the participant will not recognize taxable income at the time of the grant of the restricted stock. When the restrictions on the shares lapse, the participant will recognize ordinary taxable income in an amount equal to the fair market value of the restricted stock at that time. If the 83(b) election is made, the participant will recognize taxable income at the time of the grant of restricted stock in an amount equal to the fair market value of such shares at that time, determined without regard to any of the restrictions. If the shares are forfeited before the restrictions lapse, the participant will be entitled to no deduction on account thereof.

The participant's tax basis in the restricted stock is the amount recognized by him or her as income attributable to such shares. Gain or loss recognized by the participant on a subsequent disposition of any such shares is capital gain or loss if the shares are otherwise capital assets.

Our Company will be entitled to a tax deduction in the same amount as the income recognized by the participant as a result of the grant of restricted stock or lapse of restrictions in the taxable year in which the participant recognizes such income.

Deferred Stock/Other Stock Awards. Participants will not have taxable income upon the grant of deferred stock or other stock awards. Recognition of taxable income is postponed until the restrictions on the awards lapse. At that time, the participant will recognize taxable income equal to the then fair market value of the shares or other property issuable in payment of such award, and such amount will be the tax basis for such shares. Our Company will be entitled to a tax deduction in the same amount as the income recognized by the participant as a result of the lapse of restrictions in the taxable year in which the participant recognizes such income.

Other Tax Issues. As noted above, Section 162(m) of the Code limits our federal income tax deduction for compensation paid to the Chief Executive Officer and any of the three other most highly compensated executive officers (other than the Chief Financial Officer) for the applicable taxable year. In certain instances, our Company may be denied a compensation deduction for awards granted to certain executive officers that do not qualify as "performance-based compensation" to the extent their aggregate compensation exceeds \$1,000,000 in a given year.

As noted above, the Committee may, in its sole discretion, accelerate the payment or vesting or release any restrictions on any awards in the event of a change in control of our Company (as defined in our 2008 Plan) or in the event of certain tender offers. If a participant's award vests because of a change in (i) the ownership or effective control of our Company or (ii) the ownership of a substantial portion of the assets of our Company and the participant is an officer, shareholder or highly-compensated employee of our Company, such acceleration could be subject to the "golden parachute" provisions of Sections 280G and 4999 of the Code. In that event, our Company could be denied all or part of its tax deduction and the participant could be subject to excise tax.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis will describe the Compensation Committee's compensation objectives and policies for our Named Executive Officers, including executive pay decisions and processes and all elements of NetSol Technologies' executive compensation program.

NetSol Technologies' Named Executive Officers, a group comprised of the Chief Executive Officer, the Chief Financial Officer, and three other executive officers in 2007, are the following five individuals:

Najeeb Ghauri	Chief Executive Officer
Salim Ghauri	President of Asia Pacific and Middle East Operations
Tina Gilger	Chief Financial Officer
Patti L. W. McGlasson	Secretary and General Counsel
Naeem Ghauri	President of European Operations

Compensation Philosophy and Objectives

The Compensation Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns executives' interests with those of the stockholders by rewarding performance at or above established goals, with the ultimate objective of increasing stockholder value. The philosophy of the Compensation Committee is to evaluate both performance and compensation to ensure that we maintain our ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Compensation Committee believes executive compensation packages should include both cash and equity-based compensation that reward performance as measured against established goals.

Setting Executive Compensation

Management develops our compensation plans by utilizing publicly available compensation data in the media services and technology industries. We believe that the practices of these groups of companies provide us with appropriate compensation benchmarks, because these groups of companies are in similar businesses and tend to compete with us for executives and other employees. For benchmarking executive compensation, we typically review the compensation data we have collected from these groups of companies, as well as a subset of the data from those companies that have a similar number of employees as the Company. For purposes of determining executive compensation, we have not engaged consultants to help us analyze this data or to compare our compensation programs with the practices of the companies represented in the compensation data we review.

Based on management's analyses and recommendations, the Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended to establish base salaries and total executive compensation (taking into consideration the executive's experience and abilities) that are competitive with those companies with a similar number of employees represented in the compensation data we review.

We work within the framework of this pay-for-performance compensation philosophy to determine each component of an executive's initial compensation package based on numerous factors, including:

- the individual's particular background, track record and circumstances, including training and prior relevant work experience;

- the individual's role with us and the compensation paid to similar persons in the companies represented in the compensation data that we review;
- the demand for individuals with the individual's specific expertise and experience;
- performance goals and other expectations for the position; and,
- uniqueness of industry skills.

The terms of each executive officer's compensation are derived from employment agreements negotiated between the Company and the executive. Each executive's employment agreement is generally negotiated to cover a one to three-year period, and prescribes the base salary and other annual payments, if any, to the executive. Employment agreements for all executive officers are approved by the Board of Directors and the Compensation Committee. Employment agreements for other executives are approved by the Company's Chief Executive Officer.

2007 Executive Compensation Components

For the fiscal year ended June 30, 2007, the principal components of compensation that our named executive officers were eligible to receive were:

- Base salary;
- Long Term Equity Incentive Compensation;
- Performance-based incentive compensation (discretionary bonus); and,
- Perquisites and other personal benefits.

Base Salary

An executive's base salary is evaluated together with components of the executive's other compensation to ensure that the executive's total compensation is consistent with our overall compensation philosophy.

The base salaries were established in arms-length negotiations between the executive and the Company, taking into account their extensive experience, knowledge of the industry, track record, and achievements on behalf of the Company.

Base salaries are adjusted annually by the Compensation Committee.

Annual Bonus

Our compensation program includes eligibility for bonuses as rewarded by the Compensation Committee. All executives are eligible for annual performance-based cash bonuses in accordance with Company policies.

During our fiscal year ended 2007, Mr. Najeeb Ghauri was awarded a cash bonus of \$50,000. Ms. Gilger was awarded a cash bonus of \$7,004. Ms. McGlasson was awarded a cash bonus of \$6,536. Mr. Salim Ghauri was awarded a cash bonus of \$50,000 and Mr. Naeem Ghauri was awarded a cash bonus of \$50,000.

Long-Term Equity Incentive Compensation

We believe that long-term performance is achieved through an ownership culture that encourages long-term participation by our executives in equity-based awards. Our various Employee Stock Option Plans allow us to grant stock options to employees. We currently make initial equity awards of stock options to new executives and certain non-executive employees in connection with their employment with the Company. Annual grants of options, if any, are approved by the Compensation Committee.

Equity Incentives. Executives and certain non-executive employees who join us may be awarded stock option grants after they join the Company. These grants have an exercise price equal to the fair market value of our common stock on the grant date. The stock option awards are intended to provide the executive with incentive to build value in the organization over an extended period of time. The size of the stock option award is also reviewed in light of the executive's track record, base salary, other compensation and other factors to ensure that the executive's total compensation is in line with our overall compensation philosophy. A review of all components of compensation is

conducted when determining equity awards to ensure that total compensation conforms to our overall philosophy and objectives.

Perquisites and Other Personal Benefits

We provide named executive officers with perquisites and other personal benefits that we and the Compensation Committee believe are reasonable and consistent with our overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Compensation Committee periodically reviews the levels of perquisites and other personal benefits provided to executive officers.

26

We maintain benefits and perquisites that are offered to all employees, including health insurance and dental insurance. Benefits and perquisites may vary in different country locations and are consistent with local practices and regulations.

Termination Based Compensation

Upon termination of employment, all executive officers are entitled to receive severance payments under their employment agreements. In determining whether to approve, and as part of the process of setting the terms of, such severance arrangements, the Compensation Committee recognizes that executives and officers often face challenges securing new employment following termination. Further, the Committee recognizes that many of the named executives and officers have participated in the Company since its founding and that this participation has not resulted in a return on their investments. Termination and Change in Control Payments considered both the risk and the dedication of these executives' service to the Company.

Our Chief Executive Officer, President of EMEA and President of APAC have employment agreements that provide, if his employment is terminated without cause or if the executive terminates the agreement with Good Reason, he is entitled to (a) all remaining salary to the end of the date of termination, plus salary from the end of the employment term through the end of the third anniversary of the date of termination, and (b) the continuation by the Company of medical and dental insurance coverage for him and his family until the end of the employment term and through the end of the third anniversary of the date of termination. Provided, however, if such benefits cannot be continued for this extended period, the Executive shall receive cash (including a tax-equivalency payment for Federal, state and local income and payroll taxes assuming Executive is in the maximum tax bracket for all such purposes) where such benefits may not be continued. These agreements further provide for vesting of all options and restrictive stock grants, if any.

The Secretary of the Company has an employment agreement that provides, if she is terminated without cause or if the executive terminates the agreement with Good Reason, she is entitled to (a) all remaining salary to the end of the date of termination, plus salary from the end of the employment term through the end of the first anniversary of the date of termination, and (b) the continuation by the Company of medical and dental insurance coverage for her and her family until the end of the employment term and through the end of the first anniversary of the date of termination. Provided, however, if such benefits cannot be continued for this extended period, the Executive shall receive cash (including a tax-equivalency payment for Federal, state and local income and payroll taxes assuming Executive is in the maximum tax bracket for all such purposes) where such benefits may not be continued. These agreements further provide for vesting of all options and restrictive stock grants, if any.

Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. We believe that compensation paid under the management incentive plans are generally fully deductible for federal income tax purposes.

Accounting for Stock-Based Compensation

Beginning on July 1, 2006, we began accounting for stock-based payments, including awards under our Employee Stock Option Plans, in accordance with the requirements of Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, or SFAS 123(R).

Discussion of Summary Compensation Table

The terms of our executive officers' compensation are derived from our employment agreements with them and the annual performance review by our Compensation Committee. The terms of Mr. Najeeb Ghauri, Mr. Naeem Ghauri and Mr. Salim Ghauri's employment agreements with the Company were the result of negotiations between the Company and the executives and were approved by our Compensation Committee and Board of Directors. The terms of Ms. McGlasson's employment agreement with the Company were the result of negotiations between our Chief

Executive Officer and Ms. McGlasson and were approved by our Compensation Committee and Board of Directors. The terms of Ms. Gilger's employment were the result of negotiations between our Chief Executive Officer and Ms. Gilger and were approved by our Compensation Committee and Board of Directors.

Employment Agreement with Najeeb Ghauri

Effective January 1, 2007, the Company entered into an Employment Agreement with our Chief Executive Officer, Najeeb Ghauri. Pursuant to the Employment Agreement between Mr. Ghauri and the Company (the "CEO Agreement"), the Company agreed to employ Mr. Ghauri as its Chief Executive Officer from the date of the CEO Agreement through December 31, 2009. This Agreement was amended on February 11, 2008. Under the CEO Agreement, as amended, Mr. Ghauri is entitled to an annualized base salary of \$300,000 and is eligible for annual bonuses at the discretion of the Compensation Committee. In the February 11, 2008 amendment, the Compensation Committee approved the grant of bonuses based on certain benchmarks and accelerators. The bonus of \$100,000 is payable if and only if the Company achieves company-wide gross revenues of \$32,230,000 for the fiscal year ending June 30, 2008 and an earnings per share of at least \$0.22. Additional bonuses may be earned if certain "accelerator goals" are achieved. The bonus is accelerated to 200% of the bonus amount if revenue of \$35,000,000 is attained and earnings per share of at least \$0.27; and, to 300% if revenue of \$40,000,000 is attained and earnings per share of at least \$0.32. Once the minimum bonus benchmarks are attained, the additional bonuses may be earned based on a percentage of accelerator goals achieved. The Company retained the right to increase the base compensation as it deems necessary. In addition, Mr. Ghauri is entitled to participate in the Company's stock option plans, is entitled to two weeks of paid vacation per calendar year and is to receive a car allowance totaling \$3,000 per month for the term of the CEO Agreement. The February 11, 2008 amendment grants options to purchase up to 750,000 shares of common stock to be issued from the 2005 Employee Stock Option Plan to vest equally over twenty-four months beginning on the grant date. These options are only granted in the event the minimum bonus benchmark is achieved. The exercise price of the Options will be \$2.62 for 250,000 shares and \$3.90 for 500,000 shares. Finally, during the term of the CEO Agreement, the Company shall pay the amount of premiums or other costs incurred for the coverage of Mr. Ghauri, his spouse and dependent family members under the Company's health and related benefit plans.

The CEO Agreement also includes provisions respecting severance, non-solicitation, non-competition, and confidentiality obligations.
