NOTES TO THE CONDENSED FINANCIAL STATEMENTS

For the Three Month Period Ended January 31, 2012

1. BASIS OF PRESENTATION - INTERIM FINANCIAL STATEMENTS

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the general instructions to Form 10-Q. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. These interim financial statements should be read in conjunction with our audited financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended October 31, 2011. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from those estimates. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the periods presented are not necessarily indicative of the results that may be expected for the year ending October 31, 2012 or any future period.

2. FASB ACCOUNTING STANDARDS CODIFICATION TOPIC 210 COMPREHENSIVE INCOME (FASB ASC 210)

In December 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2011-11, “*Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*” (“ASU 2011-11”). The amendments within ASU 2011-11 require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. ASU 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. Based on management’s review, it was determined that this ASU will have no material effect on the Company’s financial statements.

3. EARNINGS PER SHARE

Innovative Designs, Inc. (the “Company”) calculates net income (loss) per share in accordance with FASB Accounting Standard Codification (“ASC”) Topic 260 “*Earnings per Share*”. Basic earnings (loss) per share is calculated by dividing income (loss) by the weighted average number of common shares outstanding for the period. During the periods presented, the Company only has common stock outstanding. As a result diluted earnings per share was not

calculated.

4.

INVENTORY

Inventory consists principally of purchased finished goods. Inventory is stated at the lower of cost or market on a first-in, first-out basis. The Company has decided to discontinue the manufacturing of its hunting and swimming line of apparel. The Company has booked a reserve against this inventory at October 31, 2011 of approximately \$116,000. Based on the company's review of inventory, the Company decreased the reserve to \$65,000 during the quarter ended January 31, 2012. Management will continue to evaluate its obsolete inventory reserve throughout the year and make adjustments as needed.

5. DEPOSITS

The Company only has one manufacturer that produces the apparel on behalf of the Company, located in Indonesia. The Company will send deposits to the manufacturer for future production of the apparel. As of January 31, 2012, the Company had no deposits for the production of apparel.

6. INCOME TAXES

The Company accounts for income taxes in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 740 “*Income Taxes*”, which requires an asset and liability approach for financial reporting purposes. Deferred income taxes are provided for differences between the tax bases of assets and liabilities and the financial reporting amounts at the end of the period, and for net operating loss and tax credit carryforwards available to offset future taxable income. Changes in enacted tax rates or laws result in adjustments to recorded deferred tax assets and liabilities in the periods in which the tax laws are enacted or tax rates are changed.

The Company will continue to evaluate its income tax obligation throughout the year and will record a tax provision when it is necessary.

7. SHIPPING AND HANDLING COSTS

The Company pays shipping and handling costs on behalf of customers for purchased merchandise. The shipping and handling costs are billed back to the customer through the billing invoice. The shipping handling costs were approximately \$41,000 and \$37,000 for the quarters ending January 31, 2012 and 2011, respectively. These costs are included in selling and general and administrative expenses.

Net income	\$ 108,019	19.58 %	\$ 199,940	29.36 %	\$(91,921)	-45.97 %

Revenues for the quarter ended January 31, 2012, were \$551,771 compared to revenues of \$681,009 for the quarter ended January 31, 2011. The decrease was a result of our selling less of our cold weather product line as a result of the warm winter experienced in our market areas. Approximately 65 percent and 27 percent of our revenues for the period

were from our Artic Armor cold weather product line and our hunting apparel line, respectively.

Our selling, general and administrative expenses were \$215,684 for the three months ended January 31, 2012 compared to \$159,371 for the three months ended January 31, 2011. Part of the increase was a result of our paying our Chief Executive Officer \$40,000 as compensation in December 2011. We also incurred an increase in bank service charges of approximately \$14,000 for the period. We used more advertising during the period resulting in an increase of approximately \$5,600 for the period compared to the period ended January 31, 2011.

In February 2012, we announced in a press release that our House Wrap product had drawn the interest of several large homebuilders and that samples had been sent to them for evaluation.

INNOVATIVE DESIGNS, INC.

For the Three Month Period Ended January 31, 2012

Liquidity and Capital Recourses

During the quarter ended January 31, 2012, we funded our operations from revenues from sales.

Short Term: We will continue to fund our operations from sales and short term borrowings from shareholders and others and the possible sale of our securities. We currently have no commercial credit facilities available to us. We continue to pay our creditors when payments are due.

Long Term: The Company will continue to fund its operations from revenues, borrowings from private parties and the possible sale of our securities. We have ceased trying to obtain commercial lending. Should we not be able to rely on the private sources for borrowing, our operations would be severely effected as we would not be able to fund our purchase orders to our suppliers for finished goods.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information otherwise required by this Item.

ITEM 4 T. CONTROLS AND PROCEDURES

Management has developed and implemented a policy and procedures for reviewing, on a quarterly basis, our disclosure controls and procedures. During the fourth quarter ended October 31, 2011, our principle executive/financial officer concluded that these control and procedures were ineffective. During the fourth quarter ended October 31, 2011 and the first quarter ended January 31, 2012, the Company was not able to close the books and records in a timely fashion. Consequently, the Company was not able to file its Form 10K or its Form 10Q within the timeline established by the SEC. There were no reclassifications made during the first quarter of 2012. Management will take action to correct these procedures moving forward.

Changes in Internal Control Over Financial Reporting

During the most recent fiscal quarter, there were no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13(a)-15 or 15d-15 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
