Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements and information contained in this report. Disclosure of important factors that could cause actual results to differ materially from the Company's plans, intentions or expectations are included under the heading "Risk Factors" in the Annual Information Form for the fiscal year ended December 31, 2011 ("AIF") and the management's discussion and analysis of results of operations and financial condition for the year ended December 31, 2011 ("MD&A"), each of which is included as an exhibit to this report.

Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements and information. ### **reporting requirements for disclosure of mineral properties**

Certain information in this Annual Report on Form 40-F and the exhibits hereto concerning our properties and operations has been prepared in accordance with Canadian standards under applicable Canadian securities laws, which differ from the requirements of U.S. securities laws. The terms "*Mineral Resource*", "*Measured Mineral Resource*", "*Indicated Mineral Resource*" and "*Inferred Mineral Resource*" used in the AIF and MD&A which are included as exhibits to this report are Canadian mining terms as defined in accordance with NI 43-101 under guidelines set out in the Definition Standards for Mineral Resources and Mineral Reserves adopted by the Canadian Institute of Mining,

Metallurgy and Petroleum Council on December 11, 2005 (“CIM Standards”).

While the terms “*Mineral Resource*”, “*Measured Mineral Resource*”, “*Indicated Mineral Resource*” and “*Inferred Mineral Resource*” are recognized and required by Canadian securities regulations, they are not recognized by the SEC.

Pursuant to United States standards as promulgated by the SEC under Industry Guide 7, mineralization may not be classified as a “reserve” unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. “*Inferred Mineral Resource*” has a great amount of uncertainty as to its existence, as to whether it can be mined and as to its economic and legal feasibility, except in rare cases. It cannot be assumed that all or any part of an “*Inferred Mineral Resource*” will ever be upgraded to a higher category. Under Canadian securities regulations, estimates of Inferred Mineral Resources may not form the basis of feasibility or other economic studies, except in rare cases. **Readers are cautioned not to assume that all or any part of a “*Measured Mineral Resource*” or “*Indicated Mineral Resource*” will ever be converted into Mineral Reserves. Readers are also cautioned not to assume that all or any part of an “*Inferred Mineral Resource*” exists, or is economically or legally mineable.** In addition, disclosure of “contained ounces” is permitted disclosure under Canadian regulations; however, the SEC only permits registrants to report SEC compliant reserves in ounces, and requires reporting of mineralization that does not qualify as reserves as in place tonnage and grade without reference to unit measures. As such, certain information contained in this report concerning descriptions of mineralization and resources under Canadian standards may not be comparable to similar information made public by United States companies subject to reporting and disclosure requirements of the SEC.

## **NYSE AMEX EQUITIES EXCHANGE CORPORATE GOVERNANCE REQUIREMENTS**

The Company’s common shares are listed on the NYSE Amex Equities Exchange (“NYSE Amex”). Section 110 of the NYSE Amex company guide permits it to consider the laws, customs and practices of foreign issuers in relaxing certain of its listing criteria, and to grant exemptions from NYSE Amex listing criteria based on these considerations. Any listed company seeking relief under these provisions is required to provide written certification from independent local counsel that the non-complying practice is not prohibited by home country law. A description of the significant ways in which the Company’s governance practices differ from those followed by domestic companies pursuant to NYSE Amex standards is as follows:

*Shareholder Vote Requirement:* One significant manner in which our governance practices differ from those followed by U.S. domestic companies pursuant to NYSE Amex standards concerns shareholder approval requirements. Section 713 of the NYSE Amex company guide requires a listed company to obtain the approval of its shareholders for certain types of securities issuances, including private placements that may result in the issuance of common shares (or securities convertible into common shares) equal to 20% or more of the presently outstanding shares for less than the greater of book or market value of the shares. In general, there is no such requirement under the rules of the Canadian Business Corporation Act or under the rules of the Toronto Stock Exchange unless the transaction results in the issuance of common shares (or securities convertible or exercisable into common shares) equal to 25% or more of the currently issued and outstanding shares of the listed company or a change of control. Furthermore, under certain circumstances, the Toronto Stock Exchange may, pursuant to Section 604(e) of the Toronto Stock Exchange company guide, grant waivers to its shareholder approval requirements where the listed company would suffer financial hardship in complying with such requirements. The conditions under which the Toronto Stock Exchange grants such waivers from its shareholder approval requirements may depart from similar NYSE Amex waivers or exemptions, if any. The Company will seek a waiver from the NYSE Amex’s shareholder approval requirements in circumstances where the securities issuance does not trigger such a requirement under the rules of the Canadian Business Corporation Act or under the rules of the Toronto Stock Exchange.

*Proxy Delivery Requirement:* The NYSE Amex requires the solicitation of proxies and delivery of proxy statements for all shareholder meetings, and requires that these proxies shall be solicited pursuant to a proxy statement that conforms to SEC proxy rules. The Company is a “foreign private issuer” as defined in Rule 3b-4 under the Exchange Act, and the equity securities of the Company are accordingly exempt from the proxy rules set forth in Sections 14(a), 14(b), 14(c) and 14 (f) of the Exchange Act. The Company solicits proxies in accordance with applicable rules and regulations in Canada.

The foregoing is consistent with the laws, customs and practices in Canada.

## DISCLOSURE CONTROLS AND PROCEDURES

The Company conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, or Exchange Act) as of December 31, 2011. This evaluation was conducted under the supervision and with the participation of management, including the Company's principal executive officer and principal financial officer. Based upon this evaluation, the Company's principal executive officer and principal financial officer have concluded that, as of December 31, 2011, the Company's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by the Company in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the SEC. The Company also concluded that its disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported to senior management, including the CEO and CFO, on a timely basis so that appropriate decisions can be made regarding annual and interim financial statement disclosure. An evaluation of the effectiveness of the design and operation of disclosure controls and procedures was conducted as of December 31, 2011, by the Company's management, including the CEO and CFO. ## MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

### *Management's Report on Internal Control Over Financial Reporting*

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Internal control over financial reporting is a process designed by, or under the supervision of, the Company's principal executive officer and principal financial officer and effected by the Company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with IFRS. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

Management conducted an evaluation of the design and operation of the Company's internal control over financial reporting as of December 31, 2011, based on the criteria set forth in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2011.

The Company's Independent Registered Chartered Accountants have issued an attestation report on the Company's internal control over financial reporting as of December 31, 2011, included with the Audited Financial Statements, which are filed as Exhibit 99.3 and incorporated by reference in this Annual Report on Form 40-F.

### *Changes in Internal Control Over Financial Reporting*

During the period covered by this annual report on Form 40-F, no change occurred in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

During 2011, the Company restated balances within the March 31, 2011 condensed consolidated interim financial statements. Management, with the participation of the Chief Executive Officer and Chief Financial Officer, re-evaluated the effectiveness of internal controls over financial reporting at both December 31, 2010 and March 31, 2011. Based on the reassessment, the Chief Executive Officer and the Chief Financial Officer concluded that as of December 31, 2010 the internal controls over financial reporting were effective. For the period ended March 31, 2011, they concluded that a deficiency existed which resulted in the restatement of balances during that period but that this did not represent a material weakness and internal controls over financial reporting were effective. During the three

months ended June 30, 2011 Management amended procedures related to the accounting for flow-through shares to include procedures to capture all activity associated with flow-through share offerings including the renunciation of tax benefits.

Other than as described above, there have been no significant changes in internal controls over financial reporting during the period ended December 31, 2011 that could have affected or are likely to materially affect the Company's internal controls over financial reporting.

*Inherent Limitations on Effectiveness of Controls*

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Additionally, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **NOTICES PURSUANT TO REGULATION BTR**

There were no notices required by Rule 104 of Regulation BTR that the Company sent during the year ended December 31, 2011 concerning any equity security subject to a blackout period under Rule 101 of Regulation BTR.

## **AUDIT COMMITTEE**

The Company's Board of Directors has a separately designated standing Audit Committee of the Board of Directors. The members of the Company's Audit Committee are identified in the Annual Information Form, attached herewith as Exhibit 99.1 and incorporated by reference herein. In the opinion of the Company's Board of Directors, all members of the Audit Committee are independent (as determined under Rule 10A-3 of the Exchange Act and the rules of the NYSE Amex Equities Exchange) and are financially literate. In addition, the Company's Board of Directors has determined that David W. Peat, chairman of the Audit Committee, is an "audit committee financial expert" as defined in Item 407(d)(5) of Regulation S-K.

## **CODE OF ETHICS**

The Code of Business Conduct and Ethics provides the entire organization with the same frame of reference for dealing with sensitive and complex issues such as conflicts of interest, use of information, confidentiality of personal information, confidentiality of business information, corporate opportunities, use of inside information, fair trading, protection and use of company assets, accounting practices, records retention, compliance with laws, rules and regulations, duty to report and consequences.

In addition, in 2004, the Company formally adopted a Code of Ethics (the "Code") pursuant to Section 406 of Sarbanes Oxley Act of 2002 and the rules and regulations of the NYSE Amex Equities Exchange in order to provide written standards and guidance to the Company's directors, principal executive officer, principal financial officer, principal accounting officer or controller or those performing similar functions and any "executive officers" (as defined under Rule 16a-1(f) of the Exchange Act of the Company not named above. The purpose of the Code is to promote:

The Code is located on its website at [www.brigusgold.com](http://www.brigusgold.com).
