Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

1. **Summary of Significant Accounting Policies**

Nature of Business

Francesca's Holdings Corporation (the "Company") is a holding company incorporated in 2007 under the laws of the State of Delaware. The Company's business operations are conducted through its wholly-owned indirect subsidiary Francesca's Collections, Inc. ("Francesca's Collections"), a corporation formed and existing under the laws of the State of Texas. Francesca's Collections is wholly-owned by Francesca's LLC (the "Parent"), a limited liability company formed and existing under the laws of the State of Delaware. Parent is a wholly-owned subsidiary of the Company.

The Company operates a national chain of retail locations designed and merchandised to feel like independently owned, upscale boutiques and provide its customers with an inviting, intimate and fun shopping experience. The Company offers a diverse and uniquely balanced mix of apparel, jewelry, accessories and gifts at attractive prices. At April 28, 2012, the Company operated 327 boutiques, which are located in 43 states throughout the United States, and its e-commerce website.

On July 27, 2011, the Company completed an initial public offering ("IPO") of 11,500,000 shares of common stock at a price to the public of \$17 per share, of which 2,941,176 shares were sold by the Company and 8,558,824 shares were sold by the selling stockholders (including 616,109 by members of the Company's management). Upon completion of the offering, the Company received net proceeds of approximately \$44.2 million, after deducting the underwriting discount of \$3.5 million and related fees and expenses of \$2.3 million. On July 27, 2011, net proceeds from the offering, together with \$41.0 million of indebtedness under a new revolving credit facility and \$6.8 million of cash on hand, were used to repay the \$92.0 million (including accrued interest of \$0.6 million) outstanding under the senior secured credit facility. The senior secured credit facility was then terminated. See Note 5 for more information.

In February 2012, certain of the Company's stockholders sold 11,336,476 shares of common stock in a follow-on offering. The Company did not receive any proceeds from this offering and incurred \$0.6 million of offering expenses, which were recorded in the fourth quarter of fiscal year 2011.

In April 2012, certain of the Company's stockholders sold 9,000,000 shares of common stock in a follow-on offering. The Company did not receive any proceeds from this offering and incurred \$0.5 million of offering expenses, which

are included in selling, general and administrative expenses in the accompanying unaudited consolidated statements of operations for the thirteen weeks ended April 28, 2012.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial statements and are in the form prescribed by the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, these unaudited financial statements include all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the Company's financial position, results of operations and cash flows at the dates and for the periods presented. The financial information as of January 28, 2012 was derived from the Company's audited consolidated financial statements and notes thereto as of and for the fiscal year ending January 28, 2012, included in the Company's Annual Report on Form 10-K filed with the SEC on March 21, 2012.

These unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes for the fiscal year ended January 28, 2012 included in the Company's Annual Report on Form 10-K filed with the SEC on March 21, 2012.

Due to seasonal variations in the retail industry, interim results are not necessarily indicative of results that may be expected for any other interim period or for a full year.

Principles of Consolidation

The accompanying unaudited consolidated financial statements include the accounts of the Company and all its subsidiaries. All inter-company balances and transactions have been eliminated in consolidation.

Table of Contents

Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

Fiscal Year

The Company maintains its accounts on a 52- or 53-week year ending on the Saturday closest to January 31st. Fiscal year 2012 is a 53-week year. The fiscal quarters ended April 28, 2012 and April 30, 2011 refer to the thirteen-week periods ended as of those dates.

Reclassifications

Certain prior year amounts in the consolidated statements of cash flows have been reclassified to facilitate comparability with the current year presentation.

Management Estimates and Assumption

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, net of estimated sales return, and expenses during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in GAAP and International Financial Reporting Standards ("IFRS')." This pronouncement was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and IFRS. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for level 3 fair value measurements. The Company adopted this guidance at the beginning of fiscal year 2012. This adoption had no impact on the Company's financial position, results of operations or cash flows.

2.

Earnings Per Share

Basic earnings per common share amounts are calculated using the weighted-average number of common shares outstanding for the period. Diluted earnings per common share amounts are calculated using the weighted-average number of common shares outstanding for the period and include the dilutive impact of stock options and restricted stock grants using the treasury stock method.

The following table summarizes the potential dilution that could occur if options to acquire common stock were exercised or if the restricted stock grants have fully vested and reconciles the weighted-average common shares outstanding used in the computation of basic and diluted earnings per share:

	Thirteen Weeks Ended	
	April 28, 2012	April 30, 2011
	(in thousands, except per share data)	
Numerator:		
Net income	\$ 8,742	\$ 3,918
Denominator:		
Weighted-average common shares outstanding - basic	43,573	40,466
Options and other dilutive securities	1,129	501
Weighted-average common shares outstanding - diluted	44,702	40,967
Per common share:		
Basic earnings per common share	\$ 0.20	\$ 0.10
Diluted earnings per common share	\$ 0.20	\$ 0.10

Stock options to purchase common stock in the amount of 0.1 million in the thirteen weeks ended April 28, 2012 were not included in the computation of diluted earnings per share due to its anti-dilutive effect.

Table of Contents

Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

3. **Fair value of Financial Instruments**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The carrying amount reflected in the consolidated balance sheets of financial assets and liabilities, which includes cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, approximated their fair values. The carrying amount of these financial assets and liabilities approximates fair value because of their short maturities. The carrying amount of the Company's debt approximates its fair value at April 28, 2012, January 28, 2012 and April 30, 2011 due to the variable component of the interest on debt.

4. **Income Taxes**

The provision for income taxes is based on the current estimate of the annual effective tax rate. The effective income tax rates for the thirteen weeks ended April 28, 2012 and April 30, 2011 were 39.5% and 39.2%, respectively. The difference between our effective tax rate and statutory rate primarily relates to state taxes.

During the thirteen weeks ended April 30, 2011, the Company elected bonus depreciation for certain fixed asset additions in fiscal year 2010 based on clarification from the Internal Revenue Services in Rev Proc. 2011-26 issued on March 29, 2011. The election resulted in a reduction of approximately \$0.6 million of deferred tax assets and income tax payable.

5. **Credit Facility**

New Revolving Credit Facility

On July 27, 2011, Francesca's Collections, Inc. (the "Borrower") entered into an Amended and Restated Credit Agreement (the "new revolving credit facility") with Royal Bank of Canada, as Administrative Agent, and KeyBank National Association, as Syndication Agent, which provided \$65.0 million of revolving credit facility (including borrowing capacity available for letters of credit). The new revolving credit facility is scheduled to terminate on July 27, 2016. As described in Note 1, on July 27, 2011, net proceeds from the Company's initial public offering, together with \$41.0 million of indebtedness under the new revolving credit facility and \$6.8 million of cash on hand,

were used to repay the \$92.0 million (including accrued interest of \$0.6 million) outstanding under the prior senior secured credit facility. The prior senior secured credit facility was then terminated. In addition, in connection with the new revolving credit facility, the Company recorded \$1.5 million of debt issue costs that will be amortized over the term of the new revolving credit facility. At April 28, 2012, \$53.0 million was available under the new revolving credit facility for future borrowings.

All obligations under the new revolving credit facility are unconditionally guaranteed by, subject to certain exceptions, Parent and each of Borrower's existing and future direct and indirect wholly owned domestic subsidiaries. All obligations under the new revolving credit facility, and the guarantees of those obligations (as well as cash management obligations and any interest rate hedging or other swap agreements), are secured by substantially all of the Borrower's assets as well as the assets of each subsidiary guarantor.

The borrowings under the new revolving credit facility bear interest at a rate equal to an applicable margin plus, at the Company's option, either (a) in the case of base rate borrowings, a rate equal to the highest of (i) the prime rate of Royal Bank of Canada, (ii) the federal funds rate plus 1/2 of 1% and (iii) the LIBOR for an interest period of one month plus 1.00%; or (b) in the case of LIBOR borrowings, a rate equal to the higher of (i) 1.50% and (ii) the LIBOR for the interest period relevant to such borrowing. The applicable margin for borrowings under the new revolving credit facility will range from 1.25% to 2.25% with respect to base rate borrowings and from 2.25% to 3.25% with respect to LIBOR borrowings, in each case based upon the achievement of specified levels of the ratio of consolidated total debt to consolidated EBITDA. Additionally, the Borrower will be required to pay a fee to the lenders under the new revolving credit facility on the unused amount at a rate ranging from 0.25% to 0.45%, based on the achievement of specified levels of the ratio of consolidated total debt to consolidated EBITDA. The Borrower is also required to pay customary letter of credit fees. During the thirteen weeks ended April 28, 2012, the average interest rate for the LIBOR borrowings was 3.8%.

The new revolving credit facility requires the Borrower to maintain a maximum consolidated total lease adjusted leverage ratio and a minimum consolidated interest coverage ratio, in each case, on the last day of any fiscal quarter and includes a maximum capital expenditure in any fiscal year. The Borrower's ability to pay dividends to the Company is subject to restrictions including a maximum secured leverage ratio. If the Borrower's debt under the new revolving credit facility exceeds that ratio, it is restricted from paying dividends. At April 28, 2012, this ratio was within the required limit, thus, the Borrower would have been allowed to pay dividends.

The Borrower is in compliance with the debt covenants of its new revolving credit facility as of April 28, 2012.

Table of Contents

Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

Senior Secured Credit Facility

On November 17, 2010, the Borrower entered into a senior secured credit facility (the "prior senior secured credit facility") with a syndicate of financial institutions, which provided financing of up to \$100.0 million consisting of a \$95.0 million term loan facility and a \$5.0 million revolving credit facility each with a maturity date of November 17, 2013. As described in Note 1, on July 27, 2011, the prior senior secured credit facility was terminated. In connection with the termination, the Company wrote-off the unamortized debt issuance costs of \$1.6 million associated with the prior senior secured credit facility in the second quarter of fiscal year 2011.

All obligations under the prior senior secured credit facility were unconditionally guaranteed by, subject to certain exceptions, Parent and each of the Borrower's existing and future direct and indirect wholly-owned domestic subsidiaries. All obligations under the prior senior secured credit facility, and the guarantees of those obligations (as well as cash management obligations and any interest hedging or other swap agreements), were secured by substantially all of the Borrower's assets as well as those of the subsidiary guarantor. The borrowings under the prior senior secured credit facility bore interest at a rate equal to an applicable margin plus the base rate or LIBOR rate, at the Borrower's option. The loans were LIBOR-based and had an interest rate of 7.75% from the time of issuance through its termination on July 27, 2011. The Company was in compliance with the debt covenants of the prior senior secured credit facility during the period it was outstanding.

6. Stock-based Compensation

At April 28, 2012, the Company has three equity plans (collectively "Stock Plans") under which stock options, phantom shares, restricted stock or other stock-based awards may be granted to employees, directors or consultants of the Company. Stock-based compensation cost is measured at the grant date fair value and is recognized as an expense on a straight-line basis over the employee's requisite service period (generally the vesting period of the equity grant). The Company estimates forfeitures for option grants that are not expected to vest. The stock-based compensation cost recognized in the thirteen weeks ended April 28, 2012 and April 30, 2011 totaled \$0.7 million and \$0.3 million, respectively.

Stock Options

Edgar Filing: Francesca's Holdings CORP - Form 10-Q

The following table presents stock options granted, exercised, expired and aggregate intrinsic value under the existing Stock Plans for the thirteen weeks ended April 28, 2012.

	Number of Shares	Weighted Average Exercise Price (Per share data)	Weighted Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value (In thousands)
Outstanding as of January 28, 2012	3,185,112	\$ 8.68		
Options granted	—	—		
Options exercised	(106,000)	3.28		
Options forfeited or expired	—	—		
Outstanding as of April 28, 2012	3,079,112	\$ 8.87	8	\$ 64,305
Exercisable at April 28, 2012	1,360,778	\$ 4.87	7	\$ 33,852

For stock option exercises during the thirteen weeks ended April 28, 2012, cash received, intrinsic value and excess tax benefit totaled \$0.3 million, \$2.8 million and \$1.0 million, respectively.

The following table summarizes information regarding non-vested outstanding options as of April 28, 2012.

	Options	Weighted Average Fair Value at Grant Date
Non-vested as of January 28, 2012	1,748,720	\$ 7.06
Granted	—	—
Vested	30,386	4.35
Cancelled	—	—
Non-vested as of April 28, 2012	1,718,334	\$ 7.11

Table of Contents

Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

As of April 28, 2012 there was approximately \$10.4 million of unrecognized compensation cost related to non-vested stock options that is expected to be recognized over a weighted-average period of 4 years.

Restricted Stock Awards

On August 5, 2011, the Company granted 9,600 restricted stock awards, with an aggregate fair value of \$0.2 million, to certain employees under the 2011 Francesca's Holdings Equity Incentive Plan. These restricted stock awards vest in three equal annual installments on each anniversary from the grant date subject to continuous employment of the grantee. The Company determined the fair value of the award based on the closing price of the Company's stock on the grant date. At April 28, 2012, there were 8,300 shares of unvested restricted stock outstanding.

7. **Commitment and Contingencies**

Operating Leases

The Company leases boutique space and office space under operating leases expiring in various years through the fiscal year ending 2023. Certain of the leases provide that the Company may cancel the lease, with penalties as defined in the lease, if the Company's boutique sales at that location fall below an established level. Certain leases provide for additional rent payments to be made when sales exceed a base amount. Certain operating leases provide for renewal options for periods from three to five years at their fair rental value at the time of renewal.

Minimum future rental payments under non-cancellable operating leases as of April 28, 2012, are approximately as follows:

Fiscal year	Amount
	(In thousands)
Remainder of 2012	\$ 15,795

2013	20,641
2014	19,636
2015	18,806
2016	17,824
Thereafter	69,146
	\$ 161,848

Legal Proceedings

From time to time, the Company is subject to various claims and legal proceedings arising in the ordinary course of business. While the outcome of any such claim cannot be predicted with certainty, in the opinion of management, the outcome of these matters will not have a material adverse effect on the Company's business, results of operations or financial conditions.

8.

Segment Reporting

The Company determines its operating segments on the same basis used internally to evaluate performance. The Company's reporting segments are the operation of boutiques and the e-commerce website, which have been aggregated into one reportable financial segment. The Company aggregates its operating segments because (i) the merchandise offered at boutique locations and through the e-commerce business is largely the same, (ii) management believes that the majority of its e-commerce customers are also customers of boutique locations and (iii) the merchandise margin of both segments is similar. All of the Company's identifiable assets are located in the United States.

Table of Contents**Francesca's Holdings Corporation****Notes to Unaudited Consolidated Financial Statements**

The following is sales information regarding the Company's major merchandise categories:

	Thirteen Weeks Ended	
	April 28,	April 30,
	2012	2011
	(in thousands)	
Apparel	\$ 32,874	\$ 22,780

Accessories	9,865	6,104
Gift	6,031	4,494
Shipping	75	46
	61,754	41,540
Allowance for returns	(432)	(275)
Net sales	\$ 61,322	\$ 41,265

9. **Subsequent Events**

Subsequent to April 28, 2012, the Borrower made principal payments in the aggregate amount of \$3.0 million on the new revolving credit facility, bringing the outstanding principal balance to \$9.0 million.

On May 13, 2012, the Board of Directors terminated the employment of the Company's Executive Vice President and Chief Financial Officer ("CFO"). In connection with such termination, the outstanding unexercised stock options previously granted, under the Francesca's Holdings Corporation 2010 Stock Incentive Plan, to the CFO totaling 177,404 were cancelled.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This report contains forward-looking statements concerning our business, operations and financial performance and condition as well as our plans, objectives and expectations for our business operations and financial performance and condition, which are subject to risks and uncertainties. All statements other than statements of historical fact included in this report are forward-looking statements. These statements may include words such as "aim", "anticipate", "assume", "believe", "can have", "could", "due", "estimate", "expect", "goal", "intend", "likely", "may", "objective", "plan", "potential", "should", "target", "will", "would" and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events or trends. For example, all statements we make relating to our estimated and projected earnings, sales, costs, expenditures, cash flows, growth rates, market share and financial results, our plans and objectives for future operations, growth or initiatives, strategies or the expected outcome or impact of pending or threatened litigation are forward-looking statements.

These forward-looking statements are based on current expectations, estimates, forecasts and projections about our business and the industry in which we operate and our management's beliefs and assumptions. These statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors that are in many cases beyond our control. All of our forward-looking statements are subject to risks and uncertainties that may cause our actual results to differ materially from our expectations. Factors that may cause such differences include, but are not limited to, the risks described under "Item 1A. Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 and filed with the Securities and Exchange Commission ("SEC") on March 21, 2012, including:

- our ability to identify and respond to new and changing fashion trends, customer preferences and other related factors;
- our ability to maintain a broad and shallow merchandise assortment;
- failure to execute successfully our growth strategy;
- disruptions to our information systems in the ordinary course or as a result of systems upgrades;
- changes in consumer spending and general economic conditions;
- increasing cost of raw materials and other inputs used in the production of our merchandise;

changes in the competitive environment in our industry and the markets we serve, including increased competition from other retailers;

failure of our new boutiques or existing boutiques to achieve sales and operating levels consistent with our expectations;

- the success of the malls and shopping centers in which our boutiques are located;
 - our dependence on a strong brand image;
- failure of our e-commerce business to grow consistent with our growth strategy;
- our dependence upon key senior management or our inability to hire or retain additional personnel;
 - disruptions in our supply chain and distribution facility;
 - our indebtedness and lease obligations;
- our reliance upon independent third-party transportation providers for all of our merchandise shipments;
- hurricanes, natural disasters, unusually adverse weather conditions, boycotts and unanticipated events;
 - the seasonality of our business;

increases in costs of fuel, or other energy, transportation or utilities costs and in the costs of labor and employment;

- the impact of governmental laws and regulations and the outcomes of legal proceedings;
- restrictions imposed by our indebtedness on our current and future operations;
- our failure to maintain effective internal controls;
- our inability to protect our trademarks or other intellectual property rights; and

- increased costs as a result of being a public company.

Table of Contents

The above is not a complete list of factors or events that could cause actual results to differ from our expectations, and it is not possible for us to predict all of them. For a discussion of these risks and other risks and uncertainties that could cause actual results to differ materially from those contained in our forward-looking statements, please refer to “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 and filed with the SEC on March 21, 2012. We derive many of our forward-looking statements from our own operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in this report as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

Potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on the forward-looking statements. These forward-looking statements speak only as of the date of this report. Except as required by law, we undertake no obligation to update or revise any forward-looking statements publicly whether as a result of new information, future developments or otherwise.

Overview

francesca’s collection® is one of the fastest growing specialty retailers in the United States. Our retail locations are designed and merchandised to feel like independently owned, upscale boutiques and provide our customers with an inviting, intimate and fun shopping experience. We believe we offer compelling value with a diverse and uniquely balanced mix of high-quality, trend-right apparel, jewelry, accessories and gifts at attractive prices. We tailor our assortment to appeal to our core 18-35 year-old, fashion conscious, female customer, although we find that women of all ages are attracted to our eclectic and sophisticated merchandise selection and boutique setting. We carry a broad selection but limited quantities of individual styles and introduce new merchandise to our boutiques five days a week in order to create a sense of scarcity and newness, which helps drive customer shopping frequency and loyalty.

Our strong financial results for the quarter demonstrates our highly effective broad and shallow merchandising strategy and the successful execution of our boutique growth plan. Our net sales increased 48.6% to \$61.3 million in the thirteen weeks ended April 28, 2012 from \$41.3 million in the thirteen weeks ended April 30, 2011. Over the same period, income from operations increased by 74.1% to \$14.7 million from \$8.4 million. Net income increased 123.1% to \$8.7 million, or \$0.20 per diluted share, in the first quarter of fiscal year 2012 compared to net income of \$3.9 million, or \$0.10 per diluted share, in the first quarter of fiscal year 2011.

As of April 28, 2012, we have increased our boutique count to 327 boutiques in 43 states from 249 boutiques in 38 states as of April 30, 2011. This corresponds to a new boutique unit growth of 31.3% and boutique square footage growth of 28.7%. To complete our planned boutique openings for the fiscal year 2012, we plan to open 31 boutiques and an outlet boutique for the remainder of the fiscal year. We expect to continue our strong growth in the future.

Results of Operations

The following data represents the amounts shown in our unaudited consolidated statements of operations, both in dollars and as a percentage of net sales, and operating data for the thirteen weeks ended April 28, 2012 and April 30, 2011.

	Thirteen Weeks Ended	
	April 28,	April 30,
	2012	2011
	(in thousands, except percentages)	
Net sales	\$ 61,322	\$ 41,265
Cost of goods sold and occupancy costs	28,779	19,641
Gross profit	32,543	21,624
Selling, general and administrative expenses	17,885	13,205
Income from operations	14,658	8,419
Interest expense	(255)	(2,008)
Other income	37	34
Income before income tax expense	14,440	6,445
Income tax expense	5,698	2,527
Net income	\$ 8,742	\$ 3,918

Table of Contents

	Thirteen Weeks Ended			
	April 28, 2012		April 30, 2011	
	(in thousands, except percentages)			
Percentage of Sales ⁽⁴⁾:				
Net sales	100.0	%	100.0	%
Cost of goods sold and occupancy costs	46.9	%	47.6	%
Gross profit	53.1	%	52.4	%

Operating data:				
Comparable boutique sales growth for period (1)	15.5	%	14.7	%
Number of boutiques open at end of period	327		249	
Net sales per average square foot for period (not in thousands)(2)	\$ 144		\$ 127	
Average square feet (in thousands)(3)	427		325	
Total gross square feet at end of period (in thousands)	455		353	

A boutique is included in comparable boutique sales on the first day of the fifteenth full month following the boutique's opening. When a boutique that is included in comparable boutique sales is relocated, we continue to (1) consider sales from that boutique to be comparable boutique sales. If a boutique is closed for thirty days or longer for a remodel or as a result of weather damage, fire or the like, we no longer consider sales from that boutique to be comparable boutique sales. E-commerce sales are excluded from comparable boutique sales.

(2) Net sales per average square foot are calculated by dividing net sales for the period by the average square feet during the period (see footnote 3 below).

Because of our rapid growth, for purposes of providing a sales per square foot measure, we use average square feet during the period as opposed to total gross square feet at the end of the period. For individual quarterly periods, average square feet is calculated as (a) the sum of total gross square feet at the beginning and end of the period, divided by (b) two. For periods consisting of more than one fiscal quarter, average square feet is calculated as (3)(a) the sum of total gross square feet at the beginning of the period and total gross square feet at the end of each fiscal quarter within the period, divided by (b) the number of fiscal quarters within the period plus one (which, for a fiscal year, is five). There may be variations in the way in which some of our competitors and other retailers calculate sales per square foot or similarly titled measures. As a result, average square feet and net sales per average square foot for period may not be comparable to similar data made available by other retailers.

(4) Percentage totals in the above table may not equal the sum of the components due to rounding.

The following table summarizes the number of boutiques open at the beginning and end of the periods indicated.

	Thirteen Weeks Ended	
	April 28, 2012	April 30, 2011
Number of boutiques open at beginning of period	283	207
Boutiques added	44	42
Boutiques closed	—	—
Number of boutiques open at the end of period	327	249

We determine our operating segments on the same basis that we use internally to evaluate performance. Our reporting segments are our boutiques and e-commerce business, which have been aggregated into one reportable financial segment. We aggregate our operating segments because (i) the merchandise offered at our boutique locations and through our e-commerce business is largely the same, (ii) we believe that the majority of our e-commerce customers are also customers of our boutique locations and (iii) the merchandise margin of both segments is similar.

Table of Contents***Thirteen Weeks Ended April 28, 2012 Compared to Thirteen Weeks Ended April 30, 2011******Net Sales***

Net sales increased 48.6% to \$61.3 million in the thirteen weeks ended April 28, 2012 from \$41.3 million in the thirteen weeks ended April 30, 2011. This increase resulted primarily from a 44.9% increase in transaction count, which in turn was primarily attributable to the increase in the number of boutiques in operation. Comparable boutique sales increased 15.5%, or \$5.6 million, while non-comparable boutique sales contributed \$14.5 million of the sales increase for the thirteen weeks ended April 28, 2012 as compared to the thirteen weeks ended April 30, 2011. Such increase was partially offset by an increase in the allowance for sales returns, amounting to \$0.2 million, primarily driven by increased sales. There were 207 comparable boutiques and 120 non-comparable boutiques open at April 28, 2012 compared to 145 and 104, respectively, at April 30, 2011.

The following table presents sales by merchandise category. As shown in the table, sales increased in all of our merchandise categories.

	Thirteen Weeks Ended		
	April 28, 2012	April 30, 2011	Change
	(In thousands)		
Apparel	\$32,874	\$22,780	\$10,094
Jewelry	12,909	8,116	4,793

Gift	6,031	4,494	1,537
Shipping	75	46	29
	61,754	41,540	20,214
Allowance for returns	(432)	(275)	(157)
Net sales	\$61,322	\$41,265	\$20,057

Cost of Goods Sold and Occupancy Costs

Cost of goods sold and occupancy costs increased 46.5% to \$28.8 million in the thirteen weeks ended April 28, 2012 from \$19.6 million in the thirteen weeks ended April 30, 2011. Cost of merchandise and freight expenses increased by \$6.1 million, primarily driven by the increased sales volume. Occupancy costs increased by \$2.6 million principally due to the increase in the number of boutiques in operation during the thirteen weeks ended April 28, 2012 compared to the same period of the prior year. Allowance for shrinkage increased by \$0.5 million, primarily due to increased sales. As a percentage of net sales, cost of goods sold and occupancy costs decreased to 46.9% in the thirteen weeks

ended April 28, 2012 from 47.6% in the thirteen weeks ended April 30, 2011 primarily due to leveraging of occupancy costs.

Gross Profit

Gross profit increased 50.5% to \$32.5 million in the thirteen weeks ended April 28, 2012 from \$21.6 million in the thirteen weeks ended April 30, 2011. Gross margin measures gross profit as a percentage of our net sales. Gross margin increased 70 basis points to 53.1% for the thirteen weeks ended April 28, 2012 from 52.4% for the thirteen weeks ended April 30, 2011 primarily due to leveraging of occupancy costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 35.4% to \$17.9 million in the thirteen weeks ended April 28, 2012 from \$13.2 million in the thirteen weeks ended April 30, 2011. Of the total increase, \$2.5 million was attributable to the increase in selling expenses, principally caused by the increase in the number of boutiques in operation in the thirteen weeks ended April 28, 2012 compared to the same period of the prior year. Specifically, payroll and related expenses increased by \$2.3 million, credit card merchant fees increased by \$0.1 million and boutique and office supplies expense increased by \$0.1 million. General and administrative expenses increased by \$2.1 million due to the costs of adding corporate office and distribution employees to support the larger boutique base and increased net sales as well as additional costs incurred to meet the ongoing requirements for a public company. Specifically, payroll and related expenses increased by \$1.3 million, professional fees increased by \$0.3 million, partly due to \$0.5 million of offering expenses incurred in connection with a follow-on offering completed in April 2012, and freight expense increased by \$0.2 million. As a percentage of net sales, selling, general and administrative expense decreased to 29.2% in the thirteen weeks ended April 28, 2012 as compared to 32.0% in the thirteen weeks ended April 30, 2011. This decrease was primarily driven by leverage in selling, general and administrative expenses.

Table of Contents

Income from Operations

Income from operations increased by 74.1%, to \$14.7 million, or 23.9% of net sales, in the thirteen weeks ended April 28, 2012 from \$8.4 million, or 20.4% of net sales, in the thirteen weeks ended April 30, 2011. This increase was principally due to an increase of \$10.9 million in gross profit partially offset by a \$4.7 million increase in selling, general and administrative expenses.

Interest Expense

Interest expense decreased by 87.3% to \$0.3 million in the thirteen weeks ended April 28, 2012 from \$2.0 million in the thirteen weeks ended April 30, 2011 primarily due to the lower average outstanding balance and interest rate during the first quarter of fiscal year 2012 compared to the same period of the prior year.

Provision for Income Taxes

The increase in provision for income taxes of \$3.2 million in the thirteen weeks ended April 28, 2012 compared to the thirteen weeks ended April 30, 2011 was primarily due to the increase in pre-tax income. The effective tax rate of 39.5% in the thirteen weeks ended April 28, 2012 was comparable to the effective tax rate of 39.2% in the thirteen weeks ended April 30, 2011.

Net Income

Net income increased 123.1% to \$8.7 million in the thirteen weeks ended April 28, 2012 from \$3.9 million in the thirteen weeks ended April 30, 2011. This increase was primarily due to an increase of \$10.9 million in gross profit and decrease of \$1.8 million in interest expense partially offset by an increase of \$4.7 million in selling, general and administrative expenses and increase in provision for income taxes of \$3.2 million.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations and borrowings under our revolving credit facility. Our primary cash needs are for capital expenditures in connection with opening new boutiques and remodeling existing boutiques, investing in improved technology and distribution facility enhancements, funding normal working

capital requirements and payments of interest and principal under our revolving credit facility. We also occasionally use cash or our credit facility to issue letters of credit to support merchandise imports or for other corporate purposes. The most significant components of our working capital are cash and cash equivalents, merchandise inventories, accounts payable and other current liabilities. Our working capital position benefits from the fact that we generally collect cash from sales to customers the day of or, in the case of credit or debit card transactions, within several days of the related sales and we typically have up to 30 days to pay our vendors.

While we believe we have sufficient liquidity and capital resources to meet our current operating requirements and expansion plans, we may elect to pursue additional expansion opportunities within the next year which could require additional debt or equity financing. If we are unable to secure additional financing at favorable terms, or if such financing is unavailable due to credit-market conditions, in order to pursue such additional expansion opportunities, our ability to pursue such opportunities could be materially adversely affected.

We were in compliance with all covenants under our revolving credit facility as of April 28, 2012. At April 28, 2012, we had \$8.2 million of cash and cash equivalents and \$53.0 million in borrowing availability under our new revolving credit facility. There were no letters of credit outstanding at April 28, 2012.

We expect that our cash flow from operations along with borrowings under our revolving credit facility and tenant allowances for new boutiques will be sufficient to fund capital expenditures and our working capital requirements for, at least, the next twelve months.

Cash Flow

A summary of our operating, investing and financing activities are shown in the following table:

	Thirteen Weeks Ended	
	April 28, 2012	April 30, 2012
	(In thousands)	
Provided by operating activities	\$ 9,433	\$ 7,950
Used for investing activities	(6,620)	(6,662)
Provided by (used by) financing activities	(8,638)	(998)
Net increase (decrease) in cash and cash equivalents	\$ (5,825)	\$ 290

Table of Contents***Operating Activities***

Operating activities consist primarily of net income adjusted for non-cash items, including depreciation and amortization, deferred taxes, the effect of working capital changes and tenant allowances received from landlords.

Net cash provided by operating activities increased by \$1.5 million to \$9.4 million in the thirteen weeks ended April 28, 2012 from \$8.0 million in the thirteen weeks ended April 30, 2011. This increase was primarily due to higher net income as a result of our significant sales growth, adjusted for non-cash expenses, including amortization and depreciation, deferred income taxes and stock-based compensation. Additionally, accounts payable, accrued liabilities and deferred rent increased in the thirteen weeks ended April 28, 2012 compared to the same period of the prior year. Such increase was partially offset by the increases in merchandise inventory, accounts receivable, prepaid expenses and other assets over the same period. These changes were principally caused by the increase in the number of boutiques in operation in the thirteen weeks ended April 28, 2012 as compared to thirteen weeks ended April 30, 2011.

Investing Activities

Investing activities consist primarily of capital expenditures for new boutiques, improvements to existing boutiques, as well as investment in information technology and our distribution facility.

	Thirteen Weeks Ended	
	April 28, 2012	April 30, 2011
	(In thousands)	
Capital expenditures for:		
New boutiques	\$ 5,884	\$ 6,168
Existing boutiques	101	237
Technology	280	48
Corporate and distribution	355	234
Proceeds from sale of property and equipment	—	(25)
Net cash used in investing activities	\$ 6,620	\$ 6,662

Our total capital expenditures for the thirteen weeks ended April 28, 2012 and April 30, 2011 were \$6.6 million and \$6.7 million, respectively, with new boutiques accounting for most of our spending at \$5.9 million and \$6.2 million, respectively, over the same period. Spending for new boutiques included amounts associated with boutiques that will open subsequent to the end of each fiscal quarter. The Company opened 44 boutiques in the thirteen weeks ended April 28, 2012 compared to 42 boutiques in the thirteen weeks ended April 30, 2011. The average cost of the leasehold improvements, equipment, furniture and fixtures, excluding tenant allowances, for new boutiques opened in the thirteen weeks ended April 28, 2012 and April 30, 2011 was \$183,000 and \$174,000, respectively. The increase in

the average capital expenditures for new boutiques was primarily due an increase in the cost of leasehold improvements, signage and technological enhancements. We expect that costs of opening new boutiques will continue to increase in future years. However, we expect that any such increases will not be material and should not adversely impact our expansion plans or pay back and return on our net investment. The average tenant allowance per new boutique was \$94,000 and \$78,000 in the thirteen weeks ended April 28, 2012 and April 30, 2011, respectively. Tenant allowances are amortized as a reduction in rent expense over the term of the lease. The average collection period for these allowances is approximately six months after boutique opening. As a result, we fund the cost of new boutiques with cash flow from operations, build-out allowances from our landlords, or borrowings under our revolving credit facility. We expect that our cash flow from operations along with borrowings under our revolving credit facility and tenant allowances for new boutiques will be sufficient to fund our capital expenditures for the rest of fiscal year 2012.

Management anticipates that capital expenditures for the remainder of fiscal year 2012 will be approximately \$13.4 million to \$14.9 million. Majority of this amount will be spent on new boutique openings at approximately \$8.0 million to \$8.5 million. Our technology initiatives are expected to require \$1.4 million to \$1.9 million during the remainder of fiscal year 2012. We also expect to spend approximately \$3.7 million in connection with the relocation of our headquarters and distribution facility to a nearby existing building. The remaining capital expenditures are expected to be used for miscellaneous investments in our existing boutiques, corporate office and distribution center enhancements.

Financing Activities

Financing activities consist principally of borrowings and payments under our revolving credit facility as well as proceeds from the exercise of stock options and the related tax consequence.

Net cash used by financing activities was \$8.6 million during the thirteen weeks ended April 28, 2012 compared to \$1.0 million during the thirteen weeks ended April 30, 2011. The \$7.6 million increase was primarily due to higher principal payments on our revolving credit facility in the first quarter of fiscal year 2012 as compared to the same period of the prior year.

Table of Contents

Revolving Credit Facility

On July 27, 2011, Francesca's Collections, Inc., our indirect wholly-owned subsidiary, entered into a revolving credit facility in the aggregate amount of \$65.0 million that matures on July 27, 2016. The revolving credit facility includes borrowing capacity available for letters of credit. At April 28, 2012, we had \$53.0 million in borrowing availability under our revolving credit facility.

All obligations under the revolving credit facility are unconditionally guaranteed by, subject to certain exceptions, Francesca's LLC, our direct wholly-owned subsidiary and the parent of Francesca's Collections, Inc., and each of Francesca's Collections' existing and future direct and indirect wholly owned domestic subsidiaries. There are currently no subsidiary guarantors for the revolving credit facility because Francesca's Collections does not currently have any subsidiaries. All obligations under the revolving credit facility, and the guarantees of those obligations (as well as cash management obligations and any interest rate hedging or other swap agreements), are secured by substantially all of Francesca's Collections' assets as well as the assets of any subsidiary guarantor.

The borrowings under the revolving credit facility bear interest at a rate equal to an applicable margin plus, at our option, either (a) in the case of base rate borrowings, a rate equal to the highest of (1) the prime rate of Royal Bank of Canada, (2) the federal funds rate plus 1/2 of 1%, and (3) the LIBOR for an interest period of one month plus 1.00%, or (b) in the case of LIBOR borrowings, a rate equal to the higher of (1) 1.50% and (2) the LIBOR for the interest period relevant to such borrowing. The applicable margin for borrowings under the revolving credit facility ranges from 1.25% to 2.25% with respect to base rate borrowings and from 2.25% to 3.25% with respect to LIBOR borrowings, in each case based upon the achievement of specified levels of a ratio of consolidated total debt to consolidated EBITDA. Additionally, we are required to pay a fee to the lenders under the revolving credit facility on the un-borrowed amount at a rate ranging from 0.25% to 0.45%, based on the achievement of specified levels of a ratio of consolidated total debt to consolidated EBITDA. We are also required to pay customary letter of credit fees. During the thirteen weeks ended April 28, 2012, the average interest rate for our LIBOR borrowings was 3.8%.

The revolving credit facility contains customary affirmative and negative covenants, including limitations on the ability of Francesca's Collections and its subsidiaries, to (i) incur additional debt; (ii) create liens; (iii) make certain investments, loans and advances; (iv) sell assets; (v) pay dividends or make distributions or make other restricted payments; (vi) prepay other indebtedness; (vii) engage in mergers or consolidations; (viii) change the business conducted by Francesca's Collections and its subsidiaries; (ix) engage in certain transactions with affiliates; (x) enter into agreements that restrict dividends from subsidiaries; and (xi) amend certain charter documents and material agreements governing subordinated and junior indebtedness.

In addition, the revolving credit facility requires Francesca's Collections to comply with the following financial covenants:

A maximum ratio of (i) lease-adjusted consolidated total debt (as defined in the credit agreement) to (ii) consolidated EBITDA of 4.25 to 1.00.

A minimum ratio of (i) consolidated EBITDA to (ii) interest expense of 4.00 to 1.00.

Maximum capital expenditures of \$25.0 million per fiscal year, with any unused portion allowed to be carried over to the next two fiscal years subject to a 50.0% cap.

We are in compliance with the financial covenants under our revolving credit facility as of April 28, 2012. Further, Francesca's Collections' ability to pay dividends is subject to restrictions including a maximum secured leverage ratio. If Francesca's Collections' debt under the revolving credit facility exceeds that ratio, it is restricted from paying dividends. At April 28, 2012, this ratio was within the required limit, thus, Francesca's Collections would have been allowed to pay dividends.

The revolving credit facility also contains customary events of default, including: (i) failure to pay principal, interest, fees or other amounts under the revolving credit facility when due taking into account any applicable grace period; (ii) any representation or warranty proving to have been incorrect in any material respect when made; (iii) a cross default with respect to other material indebtedness; (iv) bankruptcy and insolvency events; (v) unsatisfied material final judgments; (vi) a "change of control"; (vii) certain defaults under the Employee Retirement Income Security Act of 1974; (viii) the invalidity or impairment of any loan document or any security interest; and (ix) the subordination provisions of any material subordinated debt or junior debt shall cease to be in full force.

Table of Contents

Prior Senior Secured Credit Facility

On November 17, 2010, Francesca's Collections entered into a \$100.0 million senior secured credit facility with a syndicate of financial institutions. The prior senior secured credit facility consisted of a \$95.0 million term loan facility and a \$5.0 million revolving credit facility, each with a scheduled maturity date of November 17, 2013. On July 27, 2011, net proceeds from our IPO, together with \$41.0 million of indebtedness under our revolving credit facility and \$6.8 million of cash on hand, were used to repay the \$92.0 million (including accrued interest of \$0.6 million) outstanding under the prior senior secured credit facility. The prior senior secured credit facility was then terminated. We wrote-off the unamortized debt issuance costs of \$1.6 million associated with the prior senior secured credit facility and reported a loss on early extinguishment of debt in such amount in the second quarter of fiscal year 2011. During the period amounts were outstanding under the prior senior secured credit facility, it accrued interest at the rate of 7.75%. We were in compliance with the financial covenants under the prior senior secured credit facility.

Critical Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, as well as the related disclosures of contingent assets and liabilities at the date of the financial statements. A summary of the Company's significant accounting policies is included in Note 1 to the Company's annual consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended January 28, 2012 and filed with the SEC on March 21, 2012.

Certain of the Company's accounting policies and estimates are considered critical, as these policies and estimates are the most important to the depiction of the company's consolidated financial statements and require significant, difficult, or complex judgments, often about the effect of matters that are inherently uncertain. Such policies are summarized in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 filed with the SEC on March 21, 2012. As of April 28, 2012, there were no significant changes to any of our critical accounting policies and estimates.

Contractual Obligations

Except as set forth below, there have been no significant changes to our contractual obligations and commercial commitments as disclosed in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 and filed with the SEC on March 21, 2012, other than those which occur in the normal course of business.

As of April 28, 2012, the outstanding principal balance under our revolving credit facility was reduced to \$12.0 million, which matures on July 27, 2016. Estimated interest payments for the remaining term of our revolving credit facility also decreased due to the lower outstanding balance.

Off Balance Sheet Arrangements

We are not party to any off balance sheet arrangements.

Subsequent Events

Subsequent to April 28, 2012, the Borrower made principal payments in the aggregate amount of \$3.0 million on our revolving credit facility, bringing the outstanding principal balance to \$9.0 million.

On May 13, 2012, the Board of Directors terminated the employment of the Company's Executive Vice President and Chief Financial Officer ("CFO"). In connection with such termination, the outstanding unexercised stock options previously granted, under the Francesca's Holdings Corporation 2010 Stock Incentive Plan, to the CFO totaling 177,404 were cancelled.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our principal exposure to market risk relates to changes in interest rates. Our revolving credit facility carries floating interest rates that are tied to LIBOR, the federal funds rate and the prime rate, and therefore, our statements of operations and our cash flows will be exposed to changes in interest rates to the extent that we do not have effective hedging arrangements in place. We historically have not used interest rate swap agreements to hedge the variable cash flows associated with the interest on our prior senior secured credit facility. At April 28, 2012, the interest rate on our borrowings under the new revolving credit facility was 3.75%. Based on a sensitivity analysis at April 28, 2012, assuming the loan balance would be outstanding for a full fiscal year, a 100 basis point increase in interest rates would increase our annual interest by approximately \$0.1 million. We do not use derivative financial instruments for speculative or trading purposes; however, this does not preclude our adoption of specific hedging strategies in the future.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and regulations and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

At the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our Disclosure Committee and management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the company's disclosure controls and procedures were effective as of April 28, 2012.

There were no changes in our internal control over financial reporting during the quarter ended April 28, 2012 that materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings and claims, including employment claims, wage and hour claims, intellectual property claims, contractual and commercial disputes and other matters that arise in the ordinary course of business. While the outcome of these and other claims cannot be predicted with certainty, we do not believe that the outcome of these matters will have a material adverse effect on our business, results of operations or financial condition.

ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors as previously disclosed in Item 1A contained in Part I of our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 and filed with the SEC on March 21, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULT UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
