26 November 2012

To the shareholders of the Company

Dear Sir or Madam,

MAJOR TRANSACTION

PURCHASE OF SIXTY AIRBUS A320 SERIES AIRCRAFT

1. INTRODUCTION

Reference is made to the Announcement regarding, among others, the Company's purchase of the Airbus Aircraft from Airbus SAS pursuant to the Purchase Agreement.

- 3 -

LETTER FROM THE BOARD

The Purchase Agreement constitutes a major transaction of the Company under Chapter 14 of the Listing Rules and is subject to the approval of the shareholders of the Company.

2. THE PARTIES

The Company is principally engaged in the business of civil aviation.

Airbus SAS, to the knowledge of the Directors, is principally engaged in the business of aircraft manufacturing and selling aircraft.

To the best knowledge, information and belief of the Directors having made all reasonable enquiry, Airbus SAS and its ultimate beneficial owner(s) are third parties independent of the Company and connected persons (as defined in the Listing Rules) of the Company, and are not connected persons of the Company.

3. THE PURCHASE AGREEMENT

On 23 November 2012, the Company (as the purchaser) entered into the Purchase Agreement with Airbus SAS (as the seller) regarding the Acquisition.

Based on the information provided by Airbus SAS, the total asset value of the Airbus Aircraft, as determined by reference to the relevant catalog price in 2012 supplied by Airbus SAS, amounts in aggregate to approximately USD5.392 billion (equivalent to approximately RMB34.239 billion).

Consideration

The aircraft basic price of the Airbus Aircraft in aggregate is approximately USD5.392 billion (equivalent to approximately RMB34.239 billion) based on the relevant price catalog in 2012. Such aircraft basic price comprises the airframe price and engine price.

The Purchase Agreement was negotiated and entered into in accordance with customary business and industry practice, under which Airbus SAS has granted to the Company substantive price concessions with regard to the Airbus Aircraft. Such price concessions were determined after arm's length negotiations between the Company and Airbus SAS and as a result, the Consideration is significantly lower than the aircraft basic price of the Airbus Aircraft mentioned above.

Based on the Consideration, the relevant "percentage ratio" calculated under Rule 14.07 of the Listing Rules at the material time is above 25% but less than 100%. Accordingly, the Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange.

In respect of the Acquisition, the Company understands its disclosure obligations normally required under Chapter 14 of the Listing Rules, and has therefore on a number of occasions raised the issue with Airbus SAS in order to seek its consent to the Company's disclosing certain otherwise required information (including the Consideration) in the Announcement and this circular. Nonetheless, Airbus SAS, for business reasons and from

LETTER FROM THE BOARD

a commercial perspective, did not accede to the Company's request in this respect, and insisted on the preservation of the confidentiality carried with such information to the extent possible. The Company has made an application to the Stock Exchange for a waiver from strict compliance with the relevant provisions (including Listing Rules 14.58(4) and 14.66(4)) under the Listing Rules in respect of the disclosure of the Consideration.

The Company confirms that the extent of the price concessions granted to the Company under the Purchase Agreement is comparable to price concessions granted to the Company under the previous agreements regarding the purchase of brand new aircraft from Airbus SAS. The price concessions granted to the Company under the Purchase Agreement will mainly affect the depreciation of aircraft in the future operation cost of the Company. The Company believes that the price concessions obtained by the Company under the Purchase Agreement have no material impact on the Company's future operating costs taken as a whole.

The Company has also taken into account the current economic environment, the industry performance and the Company's financial position, and considers that the extent of the price concessions granted to the Company under the Purchase Agreement are fair and reasonable and in the interests of its shareholders.

Payment terms and source of funding

The Consideration is payable by cash in United States dollars in installments, and is, as currently contemplated, being funded through the Company's working capital, bank loans from commercial banks and other sources of financing available to the Company.

Delivery

The Airbus Aircraft are expected to be delivered to the Company in stages from 2014 to 2017.

Reasons for entering into the Purchase Agreement and benefits expected to accrue to the Company

The Airbus Aircraft will primarily be used to satisfy the increasing demand for domestic medium and short-haul passenger air transportation routes, to increase the Company's capacity in domestic routes, and to enhance the routes network of the Company. The purchase of the Airbus Aircraft will further strengthen the Company's competitiveness in the domestic civil aviation market and increase its operational capacity in domestic routes of the Company.

Without considering the adjustments to be made to the aircraft fleet of the Company as a result of the market conditions and the age of the aircraft, the Acquisition will increase the ATKs of the Company by approximately 12.05% (based on the ATKs of the Company as at 31 December 2011).

The Acquisition has been approved by the Directors, and is subject to approval by the shareholders of the Company. The Acquisition is also subject to approvals by the relevant regulatory authority(ies) in the PRC in compliance with relevant regulatory requirements.

LETTER FROM THE BOARD

The Directors believe that the terms of the Purchase Agreement (including the price concessions under the Purchase Agreement) are fair and reasonable and in the interests of the Company's shareholders as a whole.

Financial impact of the Acquisition

As mentioned above, part of the Consideration is, as currently contemplated, being funded through bank loans from commercial banks. The Acquisition may therefore result in an increase in the Company's debt-to-equity ratio, but as the Consideration is payable by installments, it is not expected to have substantial impact on the Company's cash-flow position or its business operations.

The Acquisition is not expected to result in any material impact on the earnings, assets and liabilities of the Group.

4. IMPLICATIONS UNDER THE LISTING RULES

The Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange and is subject to the approval of the shareholders of the Company.

CEA Holding, which directly holds 4,831,375,000 A shares of the Company and indirectly holds 1,927,375,000 H shares of the Company representing in aggregate approximately 59.94% of the issued share capital of the Company, does not have any interest or benefit under the Acquisition. No shareholder of the Company (including CEA Holding) would be required to abstain from voting at any general meeting of the Company, if convened, to approve the Acquisition.

The Acquisition has accordingly been approved in writing by CEA Holding pursuant to Rule 14.44 of the Listing Rules, and no general meeting of the Company is required to be convened.

5. ADDITIONAL INFORMATION

Your attention is also drawn to the additional information set out in the appendices to this circular.

TRADING AND FINANCIAL PROSPECTS

Trading prospects

The operations of the Group as an air transport enterprise that performs public service functions are closely linked to the political and economic development both at home and abroad. As such, the Group's operations as well as that of the aviation industry are, to a significant extent, subject to the risks associated with unforeseen occurrences of geopolitical events and other significant events.

In the future, the Company intends to become a premium airline that is globally competitive. In addition, the Group intends to transform from a traditional air passenger and freight carrier to an integrated, modern aviation services provider.

In 2012, the aviation industry of the PRC is expected to face significant pressures as a result of complex and changing domestic and international operating environments, significant cost increases and a general downturn in the global aviation industry. In addition, with the slowdown of the PRC economy, the domestic PRC aviation industry will be further affected. To counter these developments, the Company will seek to proactively implement its operational plans and promote the transformation of the Company to an integrated, modern aviation services provider, which it believes will improve operating results while maintaining stability.
