NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1. CORPORATE INFORMATION

China Eastern Airlines Corporation Limited (the “**Company**”), a joint stock company limited by shares, was incorporated in the People’s Republic of China (the “**PRC**”) on 14 April 1995. The address of the Company’s registered office is 66 Airport Street, Pudong International Airport, Shanghai, the PRC. The Company and its subsidiaries (together, the “**Group**”) are principally engaged in the operation of civil aviation, including the provision of passenger, cargo, mail delivery, tour operations and other extended transportation services.

The Company is majority owned by China Eastern Air Holding Company (“**CEA Holding**”), a state- owned enterprise incorporated in the PRC.

The Company’s shares are traded on The Shanghai Stock Exchange, The Stock Exchange of Hong Kong Limited and The New York Stock Exchange.

This condensed consolidated interim financial information was approved for issue by the Company’s Board on 30 August 2013.

This condensed consolidated interim financial information has not been audited.

2. BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2013 has been prepared in accordance with International Accounting Standard (“**IAS**”) 34 “Interim Financial Reporting”. The unaudited condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2012, which have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) as issued by the International Accounting Standard Board (“**IASB**”).

In preparing the interim financial information, the Directors have given careful consideration to the going concern status of the Group in the context of the Group’s current working capital deficit.

As at 30 June 2013, the Group's accumulated losses were approximately RMB4.35 billion; its current liabilities exceeded its current assets by approximately RMB33.56 billion.

Against this background, the Directors have taken active steps to seek additional sources of finance and improve the Group's liquidity position. As at 30 June 2013, the Group had total unutilised credit facilities of approximately RMB20.48 billion from certain banks.

With the credit facilities and based on the Group's history of obtaining finance and its relationships with its bankers and creditors, the Board considers that the Group will be able to obtain sufficient financing to enable it to operate, as well as to meet its liabilities as and when they become due, and the capital expenditure requirements. Accordingly, the Board believes that it is appropriate to prepare these financial information on a going concern basis without including any adjustments that would be required should the Company and the Group fail to continue as a going concern.

3. ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the condensed consolidated interim financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2012, except for the adoption of new standards and interpretations effective as of 1 January 2013.

The Group applies, for the first time, certain standards and amendments that require restatement of previous financial statements. These include IFRS 10 Consolidated Financial Statements, IFRS 11 Joint Arrangements, IAS 19 (Revised 2011) Employee Benefits, IFRS 13 Fair Value Measurement and amendments to IAS 1 Presentation of Financial Statements. As required by IAS 34, the nature and the effect of these changes are disclosed below. In addition, the application of IFRS 12 Disclosure of Interest in Other Entities would result in additional disclosures in the annual consolidated financial statements.

Several other new standards and amendments apply for the first time in 2013. However, they do not impact the annual consolidated financial statements of the Group or the interim condensed consolidated financial statements of the Group.

The nature and the impact of each new standard/amendment is described below:

IAS 1 Presentation of Items of Other Comprehensive Income – Amendments to IAS 1

The amendments to IAS 1 introduce a grouping of items presented in other comprehensive income (OCI). Items that could be reclassified (or recycled) to profit or loss at a future point in time (e.g., net movement on cash flow hedges and net loss or gain on available-for-sale financial assets) now have to be presented separately from items that will never be reclassified (e.g., actuarial gains and losses on defined benefit plans). The amendment affected presentation only and had no impact on the Group's financial position or performance.

IAS 1 Clarification of the Requirement for Comparative Information (Amendment)

The amendment to IAS 1 clarifies the difference between voluntary additional comparative information and the minimum required comparative information. An entity must include comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The additional voluntarily comparative information does not need to be presented in a complete

set of financial statements.

An opening statement of financial position (known as the ‘third balance sheet’) must be presented when an entity applies an accounting policy retrospectively, makes retrospective restatements, or reclassifies items in its financial statements, provided any of those changes has a material effect on the statement of financial position at the beginning of the preceding period. The amendment clarifies that a third balance sheet does not have to be accompanied by comparative information in the related notes. Under IAS 34, the minimum items required for interim condensed financial statements do not include a third balance sheet.

IAS 32 Tax Effects of Distributions to Holders of Equity Instruments (Amendment)

The amendment to IAS 32 Financial Instruments: Presentation clarifies that income taxes arising from distributions to equity holders are accounted for in accordance with IAS 12 Income Taxes. The amendment removes existing income tax requirements from IAS 32 and requires entities to apply the requirements in IAS 12 to any income tax arising from distributions to equity holders. The amendment did not have an impact on the interim condensed consolidated financial statements for the Group, as there is no tax consequences attached to cash or non-cash distribution.

– 10 –

IAS 34 Interim Financial Reporting and Segment Information for Total Assets and Liabilities (Amendment)

The amendment clarifies the requirements in IAS 34 relating to segment information for total assets and liabilities for each reportable segment to enhance consistency with the requirements in IFRS 8 Operating Segments. Total assets and liabilities for a reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity's previous annual consolidated financial statements for that reportable segment.

IAS 19 Employee Benefits (Revised 2011) (IAS 19R)

IAS 19R includes a number of amendments to the accounting for defined benefit plans, including actuarial gains and losses that are now recognised in other comprehensive income (OCI) and permanently excluded from profit and loss; expected returns on plan assets that are no longer recognised in profit or loss, instead, there is a requirement to recognise interest on the net defined benefit liability (asset) in profit or loss, calculated using the discount rate used to measure the defined benefit obligation, and; unvested past service costs are now recognised in profit or loss at the earlier of when the amendment occurs or when the related restructuring or termination costs are recognised. Other amendments include new disclosures, such as quantitative sensitivity disclosures.

The effect of the adoption of IAS 19R is explained in Note 21.

IFRS 7 Financial Instruments: Disclosures Offsetting Financial Assets and Financial Liabilities Amendments to IFRS 7

The amendment requires an entity to disclose information about rights to set-off financial instruments and related arrangements (e.g., collateral agreements). The disclosures would provide users with information that is useful in evaluating the effect of netting arrangements on an entity's financial position. The new disclosures are required for all recognised financial instruments that are set off in accordance with IAS 32. The disclosures also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether the financial instruments are set off in accordance with IAS 32. As the Group is not setting off financial instruments in accordance with IAS 32 and does not have relevant offsetting arrangements, the amendment does not have an impact on the Group.

IFRS 10 Consolidated Financial Statements and IAS 27 Separate Financial Statements

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaces the parts of previously existing IAS 27 Consolidated and Separate Financial Statements that dealt with consolidated financial statements and SIC-12 Consolidation – Special Purpose Entities. IFRS 10 changes the definition of control such that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all three criteria must be met, including: (a) an investor has power over an investee; (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and (c) the investor has the ability to use its power over the investee to affect the amount of the investor’s returns. IFRS 10 had no impact on the consolidation of investments held by the Group.

IFRS 11 Joint Arrangements and IAS 28 Investment in Associates and Joint Ventures

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities – Non- monetary Contributions by Venturers. IFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture under IFRS 11 must be accounted for using the equity method. IFRS 11 had no impact on the Group’s or the Company’s financial statements.

IFRS 12 Disclosure of Interests in Other Entities

IFRS 12 sets out the requirements for disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. None of these disclosure requirements are applicable for interim condensed consolidated financial statements, unless significant events and transactions in the interim period require that they are provided. Accordingly, the Group has not made such disclosures.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Group.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 Financial Instruments: Disclosures. Some of these disclosures are specifically required for financial instruments by IAS 34.16A(j), thereby affecting the interim condensed consolidated financial statements period.

In addition to the above-mentioned amendments and new standards, IFRS 1 First-time Adoption of International Financial Reporting Standards was amended with effect for reporting periods starting on or after 1 January 2013. The Group is not a first-time adopter of IFRS; therefore, this amendment is not relevant to the Group.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

4.

ESTIMATES

The preparation of interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2012.

Changes in accounting estimate

The Group monitors the sales advance of carriage on a periodic basis and recognises the traffic revenue once the related transportation responsibility is eliminated. Based on the enhanced monitoring on the international air traffic liabilities, it appears there is remote possibility for the Group to render the international transportation services for the unused tickets for more than two years. Consequently, the Group decided to change the point of time to recognise the traffic revenue for unused tickets relating to international transportation services. Before the change, the Group recognises the traffic revenue for unused tickets relating to international transportation services for more than three years. After the change, the Group recognises the traffic revenue for unused tickets relating to international transportation services for more than two years. The change of accounting estimate is prospectively applied in April 2013.

The main effects of changes in accounting estimate on the condensed consolidated interim financial information as at 30 June 2013 are as follows:

As at 30 June 2013

	Before changes Ending balance/ Transaction RMB'000	Changes in accounting estimate Recognition of unused tickets RMB'000	After changes Ending balance/ Transaction RMB'000
Sales in advance of carriage Revenue	3,056,757	(59,870)	2,996,887
– traffic revenues	38,136,558	59,870	38,196,428

5. FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and fuel price risk), credit risk and liquidity risk.

The interim condensed consolidated financial information do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2012.

There have been no changes in the risk management department since year end or in any risk management policies.

(b) Liquidity risk

The Group's primary cash requirements have been for day-to-day operations, additions of and upgrades to aircraft, engines and flight equipment and repayments of related borrowings. The Group finances its working capital requirements through a combination of funds generated from operations and bank loans (both short-term and long-term). The Group generally finances the acquisition of aircraft through long-term finance leases or bank loans.

The Group operates with a working capital deficit. As at 30 June 2013, the Group's net current liabilities amounted to RMB33,562 million (2012: RMB35,948 million). For the six months ended 30 June 2013, the Group recorded a net cash inflow from operating activities of RMB3,780 million (2012: inflow of RMB5,847 million), a net cash outflow from investing activities and financing activities of RMB2,612 million (2012: outflow of RMB4,350 million), and an increase in cash and cash equivalents of RMB1,168 million (2012: increase of RMB1,497 million).

The Directors of the Company believe that cash from operations and bank loans will be sufficient to meet the Group's operating cash flow requirements. Due to the dynamic nature of the underlying businesses, the Group's treasury policy aims at maintaining flexibility in funding by keeping credit lines available. The Directors of the Company believe that the Group has obtained sufficient general credit facilities from PRC banks for financing future capital commitments and for working capital purposes.

The table below analyses the Group's financial liabilities that will be settled into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

The Group enters into derivative financial instruments with various counterparties. Derivative financial instruments, including forward currency contracts and interest rate swaps, are measured using valuation techniques similar to forward pricing and swap models, using present value calculations. The models incorporate various market observable inputs including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves. The carrying amounts of forward currency contracts and interest rate swaps are the same as their fair values.

– 14 –

(d) Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments:

Level 1: fair values measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: fair values measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: fair values measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair value are not based on observable market data (unobservable inputs)

7. SEGMENT INFORMATION

(a) CODM, office of the General Manager, reviews the Group's internal reporting in order to assess performance and allocate resources.

The Group has one reportable operating segment, reported as "airline transportation operations", which comprises the provision of passenger, cargo, mail delivery and ground service.

Other services including tour operations, aviation training, air catering and other miscellaneous services are not included within the airline transportation operations segment, as their internal reports are separately provided to the CODM. The results of these operations are included in the "other segments" column.

Inter-segment transactions are entered into under normal commercial terms and conditions that would be available to unrelated third parties.

In accordance with IFRS 8, segment disclosure has been presented in a manner that is consistent with the information used by the Group's CODM. The Group's CODM monitors the results, assets and liabilities attributable to each reportable segment based on financial results prepared under the PRC Accounting Standards for Business Enterprises (the "PRC Accounting Standards"), which differ from IFRS in certain aspects. The amount of each material reconciling items from the Group's reportable segment revenue, profit, assets and liabilities arising from different accounting policies are set out in Note 7(c) below.

The segment results for the six months ended 30 June 2013 are as follows:

*Unallocated assets primarily represent investments in associates and joint ventures, and available-for-sale financial assets. Unallocated results primarily represent the share of results of associates and joint ventures.

- (b) **The Group's business segments operate in three main geographical areas, even though they are managed on a worldwide basis.**

The Group's revenues by geographical areas are analysed based on the following criteria:

1) Traffic revenue from services within the PRC (excluding the Hong Kong Special Administrative Region ("Hong Kong"), Macau Special Administrative Region ("Macau") and Taiwan, (collectively known as "Regional")) is classified as domestic operations. Traffic revenue from inbound and outbound services between overseas markets excluding Regional is classified as international operations.

2) Revenue from ticket handling services, ground services, cargo handling service and other miscellaneous services are classified on the basis of where the services are performed.

	(Unaudited)	
	Six months ended 30 June	
	2013	2012
	RMB'000	RMB'000
Domestic (the PRC, excluding Hong Kong, Macau and Taiwan)	27,829,110	27,033,403
International	11,721,512	11,579,840
Regional (Hong Kong, Macau and Taiwan)	1,928,632	1,789,537
Total	41,479,254	40,402,780

The major revenue-earning assets of the Group are its aircraft, all of which are registered in the PRC. Since the Group's aircraft are deployed flexibly across its route network, there is no suitable basis of allocating such assets and the related liabilities by geographic areas and hence segment assets and capital expenditure by geographic areas have not been presented.

Consolidated total liabilities		107,743,907	102,153,489

Notes:

(i) The difference represents the different classification of business tax and expired sales in advance of carriage under PRC Accounting Standards and IFRS.

The difference is attributable to the differences in the useful lives and residual values of aircraft and engines adopted for depreciation purpose in prior years under PRC Accounting Standards and IFRS. Despite the (ii) depreciation policies of these assets have been unified under IFRS and the PRC Accounting Standards in recent years, the changes were applied prospectively as changes in accounting estimates which results in the differences in the carrying amounts and related depreciation charges under IFRS and PRC Accounting Standards.

In accordance with the PRC Accounting Standards, certain employees' post-retirement benefits are recognised (iii) upon actually incurred. Under IFRS, such post-retirement benefits under defined benefit schemes are required to be recognised over the employees' service period using projected unit credit method.

The determination of the fair values of the acquisition costs and identifiable assets and liabilities of Shanghai (iv) Airlines acquired is different under IFRS and the PRC Accounting Standards, which resulted in differences in the intangibles/goodwill recognised arising from the acquisition.

Prior to 2008, the Company and certain of its subsidiaries (the "Pudong Subsidiaries") located in Pudong District, Shanghai, were entitled to a reduced rate of 15% pursuant to the preferential tax policy in Pudong District, Shanghai. Under the Corporate Income Tax Law of the People's Republic of China (the "New CIT Law"), which was approved by the National People's Congress on 16 March 2007 and became effective from 1 January 2008, the Company and the Pudong Subsidiaries are entitled to a transitional arrangement to gradually increase the applicable corporate income tax rate to 25% over five years from 2008.

For the year ended 30 June 2013, the corporate income tax rate applicable to the Company and the Pudong Subsidiaries was 25% (2012: 25%). Other subsidiaries of the Company, except for those incorporated in Hong Kong, which are subject to Hong Kong corporate income tax rate of 16.5% (2012: 16.5%), are generally subject to the PRC standard corporate tax rate of 25% (2012: 25%) under the New CIT Law.

Pursuant to the "Notice of the Ministry of Finance, the State Administration of Taxation and the General Administration of Customs on Issues Concerning Relevant Tax Policies for Enhancing the Implementation of Western Region Development Strategy" (Cai Shui [2011] No.58), and other series of tax regulations, the enterprises, located in the western regions and engaged in the industrial activities as listed in the "Catalogue of Encouraged Industries in Western Regions", will be entitled to a reduced income tax rate of 15% from 2011 to 2020 upon approval from tax

authorities. China Eastern Yunnan Airlines Co., Ltd. (“CEA Yunnan”), a subsidiary of the Group, obtained approval from tax authorities and enjoys a reduced tax rate of 15% from 1 January 2011.

The Group operates international flights to overseas destinations. There was no material overseas taxation for the six months ended 30 June 2013, as there are avoidance of double tax treaties between the PRC and the corresponding jurisdictions (including Hong Kong) relating to aviation businesses.

11. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the unaudited consolidated profit attributable to equity shareholders of the Company of approximately RMB622 million (2012: RMB866 million) and the weighted average number of shares of 11,602,676,000 (2012: 11,276,539,000) in issue during the six months ended 30 June 2013.

The Company has no potentially dilutive option or other instruments relating to ordinary shares.

12. DIVIDEND

The Board has not recommended any interim dividend for the six months ended 30 June 2013 (2012: Nil).

13. PROFIT APPROPRIATION

No appropriation to the statutory reserves has been made during the six months ended 30 June 2013. Such appropriations will be made at year end in accordance with PRC regulations and the Articles of Association of individual group companies.

14. INTANGIBLE ASSETS

21. POST-RETIREMENT BENEFIT OBLIGATIONS

The Group operates a defined benefit pension plan in China.

IAS 19R has been applied retrospectively from 1 January 2012. As a result, expected returns on plan assets of defined benefit plans are not recognised in profit or loss. Instead, interest on net defined benefit obligation is recognised in profit or loss, calculated using the discount rate used to measure the net pension obligation or asset.

Also, unvested past service costs can no longer be deferred and recognised over the future vesting period. Instead, all past service costs are recognised at the earlier of when the amendment occurs and when the Group recognises related restructuring or termination costs. Until 2012, the Group's unvested past service costs were recognised as an expense on a straight-line basis over the average period until the benefits become vested. Upon transition to IAS 19R, past service costs are recognised immediately if the benefits have vested immediately following the introduction of, or changes to, a pension plan.

MANAGEMENT DISCUSSION AND ANALYSIS

Review of Operations

In the first half of 2013, facing the unfavourable factors such as the sluggish global economy, slowdown of growth of the PRC domestic economy, decreased business passenger demand, the continuously low demand for Japan routes, together with the passengers' preference for railway over airline transportation becoming more common and the short-term effects of the avian influenza (H7N9) in Eastern China, the Group, under the premise of ensuring flight safety, adjusted the allocation of its flight capacity and the structure of its route network in a timely manner, strengthened its marketing efforts and maintained stringent cost control to facilitate its strategic transformation. In the first half of 2013, the Group achieved revenues of RMB42,276 million, representing an increase of 2.92% from the same period last year. Net profit attributable to the equity shareholders of the Company was RMB622 million, representing a decrease of 28.16% from the same period last year.

In the first half of 2013, in response to the changes in demand of the air passenger market, the Group allocated its flight capacity accordingly, optimising its route network, decreasing the flight capacity of Japan routes and allocating more flight capacity to Europe, America, Australia and South-East Asia routes. In the first half of 2013, ASK (available seat – kilometres) was 72,946 million passenger-kilometres, representing an increase of 11.90% from the same period last year. The Group carried 37.7955 million passengers, representing an increase of 9.19% over the same period last year, and achieved a passenger load factor of 79.31%, representing an increase of 0.24 percentage points over the same period last year. Passenger revenue increased by 3.28% to RMB34,665 million as compared with that of the same period last year.

In the first half of 2013, with the continued downturn of the global freight transport market, the Group adapted to the changes in market demand by reducing its freight fleet, focusing on facilitating the transformation of its logistic segment and developed its core business for each business sectors such as logistic integrator and express business after the transformation. In the first half of 2013, the Group had an AFTK (available freight tonne – kilometres) of 3,838 million tonne – kilometres, representing an increase of 4.58% from the same period last year. Freight carried was 661.66 million kilogrammes, representing a decrease of 3.03% from the same period last year. Freight load factor was 59.87%, representing a decrease of 1.90 percentage points from the same period last year. Freight traffic revenue was RMB3,531 million, representing a decrease of 11.8% from the same period last year.

OPERATIONS

Safety Development

Based on the principle of “Ensuring Safety and Promoting Development”, the Group further strengthened its efforts to troubleshoot hidden and potential risks, implemented safety responsibilities, reinforced training on flying skills and strengthened the Group’s safety management to ensure flight safety, aviation security and ground safety. In the first half of 2013, the Group recorded a total of 742,187 hours and 329,581 safe flights, representing an increase of 9.89% and 7.2%, respectively, as compared to the corresponding period last year.

Optimisation of Fleet

In the first half of 2013, the Group introduced a total of twenty passenger aircraft, including models such as A330 Series for long-and-medium haul, A320 Series and B737NG for medium-and-short haul, retired three freighters including models such as MD-11 and A300- 600R and added one business aircraft under custody.

As at 30 June 2013, the Group operated a total of 446 aircraft, including 417 passenger aircraft, 16 freighters and 13 business aircraft under custody.

Hub Development

The Group strived to further expand the coverage of its hub network by strengthening the development of its core hub in Shanghai and regional hubs in Kunming and Xi’an. The Group continued to optimise its express and quasi-express routes to enhance its control over the domestic route market, which is connected to its Shanghai hub. Additional flight capacity was allocated to its hub in Kunming to establish Kunming as a portal to South Asia, South East Asia and West Asia. Time slots for the Xi’an hub were optimised to increase the number of flights of the Group’s branches to Northwest China via Xi’an to further strengthen this hub. In the first half of 2013, the Group accounted for 48.8%, 37.4%, 45.0% and 31.3% of the total market share at Shanghai Hongqiao International Airport, Shanghai Pudong International Airport, Kunming Airport and Xi’an Airport, respectively, in terms of total flight departures and arrivals, and accounted for 47.7%, 35.5%, 41.8% and 31.4% of the total market share at Shanghai Hongqiao International Airport, Shanghai Pudong International Airport, Kunming Airport and Xi’an Airport, respectively, in terms of passenger throughput.

Marketing Business

The Group flexibly adjusted its sales strategies based on changes in market demand by actively exploring and expanding its marketing channels with a focus on the development of corporate clients and continued to develop customer services. In the first half of 2013, the Group added 639 corporate clients, for a total of 4,680 corporate clients. The Group promoted the development of frequent flyers by launching various member activities for frequent flyers to encourage members' participation. As at the end of June 2013, the total number of frequent flyers members amounted to 19.85 million. The Company also stepped up its effort in direct sales. As a result, the proportion of income from direct sales has increased significantly. The Company has also actively promoted various marketing products and developed value-added services and products by cooperating across different industries, including an air-bus transportation product known as "Air-Bus Service", which was jointly launched with Shanghai Pudong International Airport. In addition, various transit marketing products were launched by the Group, which implemented a "72-hours visa-free" policy. The Group has also jointly promoted overseas tourism services with overseas institutions such as Tourism Australia and Tourism Queensland.

Cost Control

The Group further strengthened its centralised management of funds and improved its capital usage efficiency; stepped up its effort in route optimisation and enhanced its efforts on flight weight reduction and fuel savings to continuously reduce costs and improve efficiency; and continued to diversify its financing channels. In the first half of 2013, the Company completed a non-public issuance of A shares and H shares to China Eastern Air Holding Company (“**CEA Holding**”) (the controlling shareholder of the Company) and its subsidiaries, (CES Finance Co., Ltd) (“**CES Finance**”) and (CES Global Holding (Hong Kong) Limited) (“**CES Global**”), which raised approximately RMB3.582 billion, and optimised the Group’s asset and liability structure. The Company also issued RMB corporate bonds of RMB4.8 billion, offshore RMB- denominated bonds of RMB2.2 billion and super-short-term commercial paper of RMB4 billion, which reduced its finance costs.

Service Brand

Adhering to the philosophy of “Customer-Oriented and Dedicated Service”, the Group optimised its service processes and enhanced its service quality, with a view to establishing CEA’s service image of “Accurate, Dedicate, Refine and Excellent”. In the first half of 2013, the Group also upgraded its service facilities in various aspects, including completing the change of uniform of frontline staff. It also brought new experience to passengers by changing pre-flight boarding music and promoting the use of aromatic scents in the flight cabin. In addition, the Group’s new VIP lounge in Hangzhou commenced operations, and ground VIP lounges in several major markets have been renovated. Meanwhile, the Company also introduced customised service products, such as “ (Eastern Premium)” and “Customised Cuisine”.

Information Technology

The Group took a proactive approach towards the construction of e-commerce channels by upgrading both the official domestic and international websites of the Group. In response to new trends such as mobile applications, the Company launched external service platforms such as the China Eastern Mobile website and an official WeChat account. Meanwhile, the Group enhanced the promotion of self-services by adding self-service check-ins in many airports in China. The Company believes that these services have provided passengers with a better experience, as they are able to use various e-channels, including the Company’s official website, “Mobile E” mobile phone application, SMS or WeChat platforms and Weibo.

Transformation and Development

The Group made strenuous effort to push forward its transformation from an air passenger and freight carrier to an integrated aviation services and logistics services provider. For the passenger transport transformation, the Company has focused on enhancing customer value, introduced value-added service marketing products such as customised services, carried forward its research on a business model of acting as a third party integration platform, and accelerated the development of a retail air mall. For freight transport transformation, the integrated logistics service business of (Eastern Airlines Logistics Co., Ltd.) is able to provide logistics solutions to nearly 60 customers, w introducing an innovative commercial business model of “Freight Expressway + E-commerce + Trading” for its freight expressway business, which has provided a strong platform for the construction of a public logistics system.

Alliance and Cooperation

By proactively utilising the SkyTeam Alliance platform and route network of SkyTeam member airlines, the Company was able to expand the Group’s route network to provide services to more than 1,000 destinations in 187 countries around the world. It has also commenced code-sharing operations with 10 SkyTeam member airlines, covering 323 routes. In addition, the Company has also extensively cooperated with SkyTeam members to jointly operate routes and work together on frequent flyers, alliance fares, VIP services and ground support.

In the first half of 2013, the Group started its code-sharing cooperation with 7 non-SkyTeam member airlines, covering 155 routes, including Japan Airlines Corporation and Qantas Airways Limited (“**Qantas**”).

In addition, Jetstar Hong Kong Limited (“**Jetstar Hong Kong**”), the joint venture low-cost airline established by the Group and Qantas in Hong Kong, introduced Go Harvest Investments Limited (“**Shun Tak Investor**”), a wholly-owned subsidiary of Shun Tak Holdings Limited, a local shareholder in Hong Kong and a third party, in the first half of 2013. Each of the three parties held one-third of the equity interest of Jetstar Hong Kong, which is currently in the process of applying for an aviation services licence.

Social Responsibilities

While pursuing sustainable enterprise development, the Group has adopted a social responsibility philosophy with respect to corporate decision making and operations, which seeks to unify corporate development and social responsibility.

On 20 April 2013, subsequent to the earthquake in Ya'an City, Sichuan Province, the Group immediately established a frontline command centre for earthquake relief efforts, urgently transferred flight capacity to relieve stranded passengers, established a "dedicated channel" for search and rescue use, and actively engaged in earthquake relief efforts.

– 40 –

The Group regards “Energy-Saving and Low-Carbon for Green Growth” as a major component of its social responsibilities. Over 90% of the Group’s flights refuelled and flew according to its “low-carbon flying” program. The Group also enhanced the environmental performance of its fleet by eliminating and surrendering the lease of older aircraft and introducing new, more fuel-efficient aircraft. In April 2013, the Group successfully completed a trial flight using a proprietary biological jet fuel, which was the first of its kind in China.

The Company was awarded the National Labor Medal, the “2012 Brand Golden Fair Award – Annual Corporate Social Responsibilities Brand”, as well as the “Best Managed Company in China – Mid-Cap Company Award” in 2012 by Hong Kong Asia Money. It was also recognised as one of the Top 10 Companies with the Best Corporate Social Responsibility ($\&\#31038;\&\#26371;$ $\&\#25490;\&\#34892;\&\#27036;\&\#21069;10\&\#24375;$;) by Fortune China Magazine.

FINANCIAL OVERVIEW

Operating Revenues

In the first half of 2013, the Group had revenues of RMB42,276 million, representing an increase of 2.92% from the same period last year. Of total revenues, traffic revenues were RMB38,196 million, representing an increase of 1.67% from the same period last year. In the first half of 2013, the total traffic volume of the Group was 7,448 million tonne-kilometres, representing an increase of 8.57% from the same period last year.

In the first half of 2013, passenger revenues increased by 3.28%, to RMB34,665 million, compared to the same period last year, which accounted for 90.76% of the Group’s traffic revenues. Passenger traffic volume was 57,855 million passenger kilometres, representing an increase of 12.24% from the same period last year.

Passenger traffic volume on domestic routes was 39,474 million passenger kilometres, representing an increase of 9.93% from the same period last year. Compared to the same period last year, domestic passenger revenues increased by 1.75% to RMB23,918 million, accounting for 69% of total passenger revenues.

Passenger traffic volume on international routes was 16,425 million passenger kilometres, representing an increase of 19.56% from the same period last year. Compared to the same period last year, international passenger revenues increased by 6.64% to RMB9,063 million, accounting for 26.14% of total passenger revenues.

Passenger traffic volume on regional routes was 1,956 million passenger kilometres, representing an increase of 2.99% from the same period last year. Compared to the same period last year, regional passenger revenues increased by 8.08% to RMB1,685 million, accounting for 4.86% of total passenger revenues.

In the first half of 2013, cargo and mail traffic revenues were RMB3,531 million, representing a decrease of 11.80% from the same period last year, and accounted for 9.24% of the Group's traffic revenue. Cargo and mail traffic volume was 2,298 million tonne-kilometres, representing an increase of 1.37% from the same period last year.

In the first half of 2013, other revenues of the Group amounted to RMB3,428 million, representing an increase of 29.65% compared to the same period last year, which was primarily attributable to the increase in revenue from the expansion of the business scale of certain subsidiaries of the Company.

Operating Expenses

The total operating costs of the Group for the first half of 2013 increased by 7.43% to RMB42,141 million compared to the same period last year.

In the first half of 2013, the Group's expenditures on aircraft fuel was RMB14,978 million, representing an increase of 2.09% compared to the same period last year and accounting for 35.54% of its operating costs. This increase was mainly attributable to approximately 11% increase in the aviation fuel consumption of the Group, partially offset by a decrease of 9.18% in average fuel prices both compared to the same period last year.

In the first half of 2013, the Group's take-off and landing charges were RMB4,579 million, representing an increase of 6.29% from the same period last year, which was primarily attributable to the year-on-year increase in the number of take-offs and landings of the Group's aircraft.

In the first half of 2013, the Group's depreciation and amortisation expenses were RMB3,964 million, representing an increase of 9.11% compared to the same period last year, which was primarily attributed to the addition of new aircraft and engines by the Group, resulting in a greater base for depreciation and amortisation.

In the first half of 2013, the Group's wages, salaries and benefits expenses were RMB4,649 million, representing an increase of 6.04% compared to the same period last year. This was mainly due to the adjustment of the social security base for Group employees and an increase in flying hours.

In the first half of 2013, the Group's aircraft maintenance expenses were RMB2,301 million, representing an increase of 5.86% compared to the same period last year. This increase was primarily attributable to an increase of aircraft under operating leases and an increase in flying hours which resulted in increased per-hour fee rate of maintenance for aircraft under operating leases.

In the first half of 2013, the Group's food and beverages expenses were RMB1,089 million, representing an increase of 14.15% compared to the same period last year, which was primarily attributable to the increase in number of passengers.

In the first half of 2013, the Group's aircraft operating lease rentals were RMB2,149 million, representing an increase of 3.95% compared to the same period last year. This increase was primarily attributable to the increased number of aircraft under operating leases during the first half of 2013.

In the first half of 2013, the Group's sales and marketing expenses were RMB1,873 million, representing an increase of 8.86% compared to the same period last year. This increase was primarily attributable to increased handling fees of agency businesses and an increase in reservation fees due to the growth in the number of passengers.

In the first half of 2013, the amount of civil aviation infrastructure levies payable to the Civil Aviation Administration of China was RMB751 million, representing an increase of 11.19% compared to the same period last year. This increase was primarily due to an increase in miles flown by the Company in 2013.

In the first half of 2013, the Group's other operating expenses were RMB5,192 million, representing an increase of 27.74% compared to the same period last year. This increase was primarily attributable to an increase in costs and expenses following the expansion of the business scale of certain subsidiaries of the Company.

Other Operating Income

In the first half of 2013, the Group's other operating income was RMB652 million, representing a decrease of 24.63% compared to the same period last year. This increase was mainly due to a decrease in operating subsidies received from the government by the Group.

Net Exchange Gains/(Losses) and Finance Costs

In the first half of 2013, the Group's net exchange gains were RMB1,174 million, representing an increase of 615.07%, which was primarily attributable to the continuing appreciation of the Renminbi against US Dollar during the period. Finance costs amounted to RMB773 million, representing a decrease of 8.74% as compared to the same period last year.

Profit

The net profit attributable to the equity shareholders of the Company for the half year ended 30 June 2013 was RMB622 million, representing a decrease of 28.16%. Earnings per share attributable to equity shareholders of the Company was RMB0.0535. The weighted average number of ordinary shares of the Company issued and outstanding as at 30 June 2013 was 11,602,676,000 shares.

Liquidity, Source of Capital and Capital Structure

The Group generally finances its working capital requirements through business operations and short-term bank loans. As at 30 June 2013 and 2012, the Group's cash and cash equivalents amounted to RMB3,672 million and RMB5,361 million, respectively. Net cash inflow generated from the Group's operating activities was RMB3,780 million and RMB5,847 million, respectively, for the same periods. Other than expenditures for operating costs, the Group's primary cash requirements in the first half of 2013 were for acquisitions of, and improvements in, aircraft and flight equipment, and for the payment of related indebtedness. During the period ended 30 June 2013 and 2012, the Group's net cash outflow from investment activities was RMB10,775 million and RMB3,862 million, respectively. During the period ended 30 June 2013, net cash inflow from the Group's financing activities was RMB8,163 million. During the period ended 30 June 2012, net cash outflow from the Group's financing activities was RMB488 million.

The Group generally operates with net current liabilities. As at 30 June 2013, the Group's current liabilities exceeded its current assets by RMB33,562 million. The Group has been and believes it will continue to be capable of financing its working capital by obtaining loans from domestic and foreign banks in China.

The Group monitors its capital on the basis of its debt ratio, which is calculated as total liabilities divided by total assets. As at 30 June 2013, the debt ratio of the Group was 80.55%.

As at 30 June 2013 and 31 December 2012, the Group's borrowings payable within one year were RMB22,684 million and RMB22,640 million, respectively. As at 30 June 2013, the Group's borrowings payable from one to two years, from three to five years and beyond five years were RMB4,007 million, RMB14,245 million and RMB11,345 million, respectively, as compared to RMB7,273 million, RMB7,906 million and RMB7,918 million, respectively, as at 31 December 2012.

The Group's obligations under finance leases as at 30 June 2013 and 31 December 2012 were RMB20,137 million and RMB21,858 million, respectively. As at 30 June 2013, the Group's lease obligations payable within two years, from three to five years and beyond five years were RMB5,273 million, RMB7,451 million and RMB7,413 million, respectively, as compared to RMB5,309 million, RMB7,925 million and RMB8,624 million, respectively, as at 31 December 2012.

As at 30 June 2013, the Group's borrowings comprised USD-denominated borrowings equivalent to RMB35,608 million, RMB-denominated borrowings of RMB16,413 million and JPY-denominated borrowings of RMB260 million. Fixed-rate borrowings accounted for 27.4% of the total borrowings, and floating-rate borrowings accounted for 72.6% of the total borrowings. As at 31 December 2012, the Group's borrowings comprised USD-denominated borrowings equivalent to RMB31,605 million and RMB-denominated borrowings of RMB13,827 million. Fixed-rate borrowings accounted for 22.91% of the total borrowings, and floating-rate borrowings accounted for 77.09% of the total borrowings.

As at 30 June 2013, the Group's obligations under finance leases comprised USD-denominated obligations equivalent to RMB17,341 million, SGD-denominated obligations equivalent to RMB1,121 million, HKD-denominated obligations equivalent to RMB1,116 million and JPY-denominated obligations equivalent to RMB559 million. The Group's obligations under finance leases comprised only floating-rate obligations. As at 31 December 2012, the Group's obligations under finance leases comprised USD-denominated obligations equivalent to RMB18,752 million, SGD-denominated obligations of RMB1,249 million, HKD-denominated obligations equivalent to RMB1,190 million and JPY-denominated obligations of RMB668 million.

Exchange Rate Fluctuation Risk

Since 21 July 2005, the PRC government has adjusted the Renminbi exchange rate system and established a floating exchange rate system by which the exchange rate would be adjusted and managed based on market supply and demand, with reference to a basket of foreign currencies. The fluctuation in the Renminbi exchange rate is affected by domestic and international economic, political conditions and general currency supply and demand dynamics. As such, future Renminbi exchange rates may fluctuate and be materially different from current exchange rates.

The Group operates its business in many countries and territories and generates revenues in different currencies. As such, its foreign currency liabilities are generally much higher than its foreign currency assets. The Group's major liability (purchases or leases of aircraft) is mainly priced and settled in US dollars. In addition, fluctuations in foreign exchange rates will affect the Group's costs incurred from foreign purchases such as aircraft, flight equipment, jet fuel and take-off and landing charges in foreign airports. As at 30 June 2013, the Group's total interest-bearing liabilities denominated in foreign currencies, equivalent to Renminbi, amounted to RMB56,005 million, of which US dollar liabilities accounted for 94.54% of the total amount. Therefore, significant fluctuations in foreign exchange rates could expose the Group to foreign exchange gains/losses arising from the translation of foreign currency denominated liabilities, which will also affect the profitability and development of the Group. The Group typically uses hedging contracts for foreign currencies to reduce the foreign exchange risks for foreign currency revenue generated from ticket sales, and expenses to be paid in foreign currencies. The Group's foreign currency hedging mainly involves the sales of Japanese Yen and the purchase of US dollars at fixed exchange rates. As at 30 June 2013, foreign currency hedging contracts held by the Group amounted to a notional amount of USD28 million (31 December 2012: USD58 million), and will expire between 2013 and 2017.

As at 30 June 2013 and 2012, the Group recorded foreign exchange gains of RMB1,174 million and foreign exchange losses of RMB228 million, respectively.

Pledges on Assets and Contingent Liabilities

The Group generally finances the purchases of aircraft with finance leases and bank loans, which are secured by its assets. As at 30 June 2013, the value of the Group's assets pledged for certain bank loans was RMB19,071 million, representing a decrease of 15.44% from RMB22,554 million as at the end of 2012.

Employees

As at 30 June 2013, the Group had 67,298 employees, the majority of whom were located in the PRC. The wages of the Group's employees generally consisted of basic salaries and performance bonuses. In the first half of 2013, the Group was not involved in any major labour disputes with its employees, nor did it experience any significant turnover of employees or encounter any difficulties in recruiting new employees.

Outlook for the Second Half of 2013

The Group would like to caution readers of this announcement that this 2013 interim results announcement contains certain forward-looking statements, including descriptions of the Group's future operating plans for the second half of 2013 and beyond, and a general outlook of international and domestic economies and the aviation industry. Such forward-looking statements are subject to many uncertainties and risks that are beyond the control of the Group. Actual events may be materially different from these forward-looking statements.

In the second half of 2013, overall demand in the aviation market is expected to improve as compared to the first half of the year. However, the Group is expected to continue experiencing adverse conditions, including: slowdown of macroeconomic growth; decrease in business passenger demand; continued passengers' preference for railway over airline transportation; and the expected lack of recovery of the Japan air routes.

In the second half of 2013, the Group will focus on: (1) reinforcing foundations of safety management and implementing safety responsibilities to ensure continued safe operation; (2) allocating flight capacity during peak seasons, optimising its route network to enhance its marketing with respect to passenger and freight transport operations, while maintaining stringent cost controls; (3) based on its information technology construction, accelerating the innovation of business models and continuing with the transformation and development of passenger and freight transport operations; (4) strengthening its efforts to improve service management, enhancing its service assurance capabilities, improving its service quality and upgrading the Company's brand.

FLEET PLAN

The fleet of the Group in the future will mainly comprise of models such as B777 Series for long haul, A330 Series for long-and-medium haul, and A320 Series and B737NG for medium- and-short haul. During the six months ended 30 June 2013, the Company has adopted a code of conduct on no less exacting terms than the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 of the Listing Rules (“**Model Code**”) regarding the securities transactions of the directors of the Company (the “**Directors**”). Having made specific enquiries to all the Directors, it is the Company’s understanding that the Directors have complied with the required standards of conduct as set forth in the Model Code and its code of conduct regarding Directors’ securities transactions.

4. Corporate Governance Practices

The Board has reviewed the relevant provisions and corporate governance practices under the codes of corporate governance practices adopted by the Company, and is of the view that the Company’s corporate governance practices for the six months ended 30 June 2013 met the requirements under the code provisions in the Corporate Governance Code and Corporate Governance Report set out in the Listing Rules.

To further strengthen the awareness of compliance among the Directors, supervisors and senior management of the Company, and to enhance their understanding and application of the relevant rules, in January and June 2013, the Company invited experts from securities regulatory authorities and senior partners from renowned law firms to conduct seminars on the latest regulatory laws and regulations and relevant case studies in relation to securities. At the same time, in order to continue strengthening the comprehensive understanding of the Directors, supervisors and senior management of the Company on their respective duties and responsibilities, the Company has systematically reviewed the relevant rules and regulations regarding the duties and responsibilities of directors, supervisors and senior management of a listed company as promulgated by regulatory bodies including the China Securities Regulatory Commission, Shanghai Stock Exchange, Hong Kong Stock Exchange and New York Stock Exchange in the past year. The Company has compiled the “Guidelines on Duties of the Directors, Supervisors and Senior Management of China Eastern Airlines Corporation Limited (2013)”, which is based on the “Guidelines on Duties of the Directors, Supervisors and Senior Management of China Eastern Airlines Corporation Limited” issued last year.

5. Material Litigation and Arbitration

The family members of the 32 victims in an aircraft accident who sued the Company in the U.S. and China (the aircraft was then owned and operated by China Eastern Air Yunnan Company), which occurred in Baotou on 21 November 2004, have reached a settlement with the Company and has applied to the Beijing Second Intermediate People’s Court and the U.S. District Court to withdraw their actions. On 31 May 2013, the Beijing Second Intermediate People’s Court accepted the withdrawal, and all the proceedings in China with respect to this case have been closed. On 9 July 2013, the Company’s trial counsel submitted an application for withdrawal to the U.S. District Court, which will hold a hearing on this application in the near term. The Company believes that the outcome of this litigation will not have a material adverse effect on the financial condition and operating performance of the Company.

For the period ended 30 June 2013, the Group was not involved in any material litigation or arbitration.

6. Audit and Risk Management Committee

The Audit and Risk Management Committee has reviewed the accounting principles and methods adopted by the Group with Company’s management, and has discussed with the Board the relevant internal control and financial reporting issues, including a review of the unaudited interim financial statements for the six months ended 30 June 2013.

The Audit and Risk Management Committee does not have any differences in opinion on the accounting principles and methods adopted by the Group.
