NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited condensed consolidated financial statements for the quarter and six-month periods ended December 31, 2013 and the June 30, 2013 balance sheet, include the results of Truett-Hurst, Inc. and its subsidiaries: H.D.D. LLC (“LLC”) and its consolidated subsidiary, The Wine Spies, LLC (“Wine Spies”) (collectively, “we,” “Truett-Hurst,” “our,” “us,” “the Company”). Truett-Hurst consolidates the financial results of the LLC and its consolidated subsidiary, and records a non-controlling interest for the economic interest in the LLC and its consolidated subsidiary. Non-controlling interest’s represent the portion of equity ownership in subsidiaries that are not attributable to Truett-Hurst, Inc. The unaudited condensed consolidated financial statements for the quarters and six-month period ended December 31, 2012 reflect the results of the LLC and Wine Spies. Truett-Hurst, Inc.’s fiscal 2013 period is from June 26, 2013 to June 30, 2013 due to the completion of the Company’s initial public offering (“IPO”) on June 25, 2013. Unless the context suggests otherwise, references in this report to Truett-Hurst Inc. refer (1) prior to the June 2013 IPO of Truett-Hurst Inc. and related transactions, to the LLC and its consolidated subsidiary and (2) after our IPO and related formation transactions, to Truett-Hurst Inc. and its consolidated subsidiaries.

The accompanying unaudited condensed consolidated financial statements have been prepared by management in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. All intercompany transactions have been eliminated. Accordingly, the accompanying unaudited financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. We prepared the accompanying unaudited condensed consolidated financial statements on the same basis as the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013, and, in the opinion of management, these financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of the interim periods presented. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full fiscal year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013 filed with the SEC on September 27, 2013.

References to “FY” or “fiscal year” refer to our fiscal year ending on June 30 of the designated year or prior year. For example, “FY13” and “fiscal year 2013” each refer to the fiscal year ended June 30, 2013 and “FY14” and “fiscal year 2014” each refer to the fiscal year ended June 30, 2014. Other references to “years” mean calendar years.

Certain reclassifications have been made to these fiscal 2013 quarter condensed consolidated financial statements to conform to the current fiscal 2014 quarter presentation. Reclassifications had no material impact on previously reported results of operations, financial position or cash flows.

Unless otherwise indicated, the notes to the unaudited condensed consolidated financial statements relate to the discussion of our continuing operations.

Critical Accounting Policies and Estimates

Critical accounting policies are those we believe are most important to portraying our financial condition and results of operations and also require the greatest amount of subjective or complex judgments by management. The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Judgments and uncertainties regarding the application of these policies and estimates may result in materially different amounts being reported under various conditions or using different assumptions. There have been no material changes to the critical accounting policies and estimates previously disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013.

NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES, continued*Accounting Pronouncements*

We have reviewed all recently issued, but not yet effective, accounting pronouncements and we do not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of our operations.

NOTE 2 - ACCOUNTS RECEIVABLE PLEDGED UNDER FACTORING AGREEMENT

In November 2011, January 2012 and April 2012, we entered into three agreements with a factor borrowing a total of \$2.6 million in order to finance three transactions with a vendor. We agreed to assign and sell receivables related to these transactions to the factor at a rate of 100% of each receivable plus 1.25% per month of the unpaid principal amount of the loan. We were fully and unconditionally liable for the principal and interest on the loans; therefore, we accounted for the transfer of receivables as a secured financing. Interest expense includes finance costs associated with these factoring activities.

The addition of John D. Fruth to our board of directors, subsequent to the IPO, caused the factor agreement to become a related party transaction. The April 2012 agreement for the amount due of \$0.9 million at June 30, 2012 was paid subsequent to fiscal 2012 year end. Interest of \$nil was paid under these agreements for the quarter periods ended December 31, 2013 and 2012 and interest of \$nil and \$0.03 million was paid under these agreements for the six-month period ended December 31, 2013 and 2012, respectively.

NOTE 6 GOODWILL AND INTANGIBLE ASSETS, net

Pursuant to the membership interest purchase agreement dated August 1, 2012, we purchased 50% of the outstanding membership interests in Wine Spies. The operating agreement of Wine Spies, also dated August 1, 2012, entitles the LLC to a 50% allocation of Wine Spies gains and losses. We hold three of the four management control positions and have accounted for the acquisition as a business combination. The LLC consolidates Wine Spies and records a non-controlling interest for the economic interest in the Wine Spies. We recorded the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition. The fair values assigned to the identifiable intangible assets acquired were based on estimates and assumptions determined by management and totaled \$0.5 million. The intangibles are being amortized over their estimated lives ranging from four to ten years. We recorded the excess of consideration transferred over the aggregate fair values as goodwill in the amount of \$0.1 million. The purchase consideration was \$0.3 million, consisting of cash and a non-interest bearing note, which was paid in full March 1, 2013.

Intangible asset balances are summarized as follows:

NOTE 8 COMMITMENTS AND CONTINGENCIES*Leases*

In February 2011, we entered into a lease agreement for a tasting room and winery. The lease is for five years, commencing on March 1, 2011 and ending on February 29, 2016, and contains one option to extend for an additional period of five years. We have the right of first refusal in the event the lessor desires to sell the leased property. Annual rent for the tasting room is \$0.1 million, due monthly. The winery rent is subject to adjustment based on the actual number of cases produced each year; however, future payments are based on a minimum number of cases, as specified in the agreement. Beginning on September 1, 2012 and annually thereafter, tasting room and winery rent is increased by 3%. Lease expense is accounted for on a straight-line basis. At December 31, 2013, future lease payment commitments totaled approximately \$0.6 million. Lease expense for the quarter periods ended December 31, 2013 and 2012 was \$0.07 million, respectively. Lease expense for the six-month periods ended December 31, 2013 and 2012 was \$0.1 million, respectively.

In October 2013, we entered into a lease agreement for administrative office space. The lease commences on October 15, 2013 and ends on October 31, 2016, and contains three one year renewal options with adjustment to market rents. Annual rent for fiscal 2014 totals \$0.02 million, due monthly with the first lease payment commencing January 2014. At December 31, 2013, future lease payment commitments totaled approximately \$0.1 million.

Credit Facilities

In June 2012, a bank extended the maturity date for a loan in order to allow us to finalize a new financing facility with a different bank. On July 16, 2012, we executed credit facilities with a bank totaling \$13.0 million to provide funds

for working capital needs, to refinance existing debt, and to purchase new equipment. The credit facilities are collateralized by substantially all of our assets, require compliance with certain financial covenants and are guaranteed by certain members of the LLC. For information regarding guarantors see “Security Agreements and Limited Guaranties” below. The facilities include a line of credit for \$9.0 million that was funded in July 2012 that carries an interest rate of 1.75% above LIBOR and is due on or before May 31, 2014; \$0.1 million to fund previously purchased capital equipment that was funded in August 2012 at a fixed interest rate of 3.75% and due on January 15, 2018; an incremental \$0.4 million capital equipment line to purchase new equipment that was funded in January 2013 at a fixed rate of interest of 3.75% and is due on January 15, 2018; a \$0.1 million foreign exchange facility that has not yet been funded, that carries a 10% credit percentage and allows us to enter into any spot or forward transaction to purchase from or sell to our bank a foreign currency and is due on or before May 31, 2014; and a real estate loan for \$3.4 million that was funded in August 2012, that carries an interest rate of 2.25% above LIBOR. These funds were used to settle \$5.5 million of amounts due in the June 30, 2012 consolidated financial statements.

NOTE 8 COMMITMENTS AND CONTINGENCIES, continued

At September 30, 2012 and December 31, 2012, we were not in compliance with certain financial covenants included in our credit facility. In March 2013, in connection with the bank issuance of a waiver for the financial covenants, we amended and restated a LLC member warrant to allow for the immediate exercise of the warrant for a 3% member interest. The original common stock warrant, issued in May 2012, was for 20% of the contributed members' equity interest equal to \$0.5 million. The obligation was satisfied with the exercise of the warrant in March 2013 for \$0.5 million.

Additionally, related party obligations of \$0.7 million were subordinated and \$0.4 million of newly issued, convertible, subordinated debt was received from four members of the LLC. The debt bears interest at 10% per annum, with interest and principal due before March 1, 2014. Upon completion of the IPO on June 25, 2013, all amounts were released from subordination and paid in full.

The loan agreement contains usual and customary provisions, including, without limitation:

limitation on incurring senior indebtedness;

limitation on making loans and advances;

limitation on investments, acquisitions, and capital expenditures;

limitation on liens, mergers and sales of assets; and

limitations on new activities of Truett-Hurst.

In addition, the loan agreement contains negative and financial covenants, including, without limitation, a minimum current assets to current liabilities ratio (measured quarterly), debt to effective tangible net worth ratio (measured quarterly) and debt service coverage ratio (measured annually). At December 31, 2013, we were in compliance with all negative and financial covenants.

Related Party Notes Payable

We executed a \$0.2 million unsecured promissory note payable to a member of the LLC, in connection with our repurchase of his Put Interest. The note bears interest at 4.5% per annum and is payable monthly in principal and interest payments of \$0.01 million, with any unpaid principal and interest due and payable on May 3, 2015.

In connection with the Chief Executive Officer ("CEO") of the LLC and Truett-Hurst, Inc.'s departure from a former employer and termination of his non-compete agreement, we agreed to reimburse \$0.3 million, payable monthly in principal and interest payments of \$0.01 million. This amount accrued interest at a rate of 0.43% per annum and matured in November 2012. All amounts due under this agreement have been paid in full.

We executed a \$0.4 million note payable to certain members and directors of the LLC and Truett-Hurst, Inc., in connection with operating capital needs. The note bore interest at 6.5% per annum, with the entire principal balance

and unpaid accrued interest due and payable on June 30, 2012. In June 2012, the note was paid in full with funds borrowed under the loan agreement.

Supply Contract

On February 26, 2013, we executed a supply of goods agreement for our paper wine bottle. The term of the agreement is seven years and the minimum purchase commitment for the first two years is \$0.8 million for each year. Minimum purchase amounts for years three through seven are to be agreed upon six-months before the commencement of each of those years, respectively. Under the terms of this arrangement, we have exclusive rights to certain geographic regions, as long as minimum purchase levels are maintained. Additionally, the agreement commits us to an annual marketing spend of the lesser of 5% of our net sales of wine supplied in the products, or \$1.0 million. At December 31, 2013, future commitments for finished goods total approximately \$2.3 million.

We enter into short and long-term contracts to supply a portion of our future grapes and bulk wine inventory requirements with third parties and related party growers. Future minimum inventory commitments at December 31, 2013 are as follows:

Years ending June 30:	Third Parties (in thousands)	Related Parties	Total
2015	\$ 3,597	\$ 612	\$ 4,209
2016	2,760	224	2,984
Total	\$ 6,357	\$ 836	\$ 7,193

For the quarter periods ended December 31, 2012, grape inventory purchases under the agreements with related parties totaled \$1.1 million. For the quarter periods ended December 31, 2013, grape inventory purchases under the agreements with related parties were reduced by \$0.1 million due to a change in the classification of a related party to a third party. For the six-month periods ended December 31, 2013 and 2012, grape, bulk wine, and finished goods inventory purchases under the agreements with related parties totaled \$0.7 million, \$1.4 million, respectively.

Litigation

We may be subject to various litigation matters arising in the ordinary course of business from time to time. However, we are not aware of any current pending legal matters or claims, individually or in the aggregate, that are expected to have a material adverse impact on our consolidated financial position, results of operations, or cash flows.

NOTE 8 COMMITMENTS AND CONTINGENCIES, continued*Indemnification*

From time to time we enter into certain types of contracts that contingently require us to indemnify various parties against claims from third parties. These contracts primarily relate to (i) certain real estate leases, under which we may be required to indemnify property owners for environmental and other liabilities, and other claims arising from our use of the applicable premises, (ii) certain agreements with our officers, directors, and employees, under which we may be required to indemnify such persons for liabilities arising out of their employment relationship, (iii) contracts under which we may be required to indemnify customers against third-party claims that our product infringes a patent, copyright, or other intellectual property right, and (iv) procurement or license agreements, under which we may be required to indemnify licensors or vendors for certain claims that may be brought against them arising from our acts or omissions with respect to the supplied products or technology.

Generally, a maximum obligation under these contracts is not explicitly stated. Because the obligated amounts associated with these types of agreements are not explicitly stated, the overall maximum amount of the obligation cannot be reasonably estimated. Historically, we have not been required to make payments under these obligations, and no liabilities have been recorded at December 31, 2013 and June 30, 2013, for these obligations on our balance sheets.

NOTE 10 STOCK-BASED COMPENSATION

We have granted restricted stock awards and have the right to grant stock options and other stock-based awards to employees, directors and non-employees under our 2012 Stock Incentive Plan. For a complete discussion of 2012 Stock Incentive Plan, please refer to the Note 14 - "Stock-based Compensation" to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended June 30, 2013.

On December 28, 2012, we granted restricted stock to an officer of our company which vests over three years and had a fair value at date of grant of \$0.1 million for a 1% interest in the LLC. The objective of FASB ASC Topic 718

Compensation *Stock Compensation* (“ASC Topic 718”) is to recognize the employee services received in exchange for the equity issued over the period the services are provided at the fair value of the equity issued. We recorded employee stock-based compensation expense of \$0.01 million and \$0.02 million for the quarters and six-month periods ended December 31, 2013, respectively. On December 28, 2013, 14,000 shares vested and were released to the grantee.

NOTE 10 STOCK-BASED COMPENSATION, continued

On February 4, 2013, we granted restricted stock to an independent contractor who serves as our Creative Director. The award vests over three years, and had a fair value at the date of grant of \$0.9 million for a 5% interest in the LLC. The objective of ASC Topic 718 is to recognize the employee services received in exchange for the equity issued over the period the services are provided at the fair value of the equity issued. Additionally, FASB ASC Subtopic 505-50, *Equity - Equity Based Payments to Non-Employees* defines the measurement date as the earlier of the date at which the commitment for performance is reached, or the date at which the performance is complete is the day that the fair value of the equity award is expensed. We recorded non-employee stock-based compensation expense of \$0.08 million and \$0.2 million for the quarters and six-month periods ended December 31, 2013, respectively.

On December 9, 2013, we granted restricted stock to certain directors of our company which vests over three years and has a fair value at date of grant of \$0.03 million. The fair value of restricted stock was measured on the date of grant using the price of the Company's common stock on that date. Share-based compensation expense for restricted stock issued to employees is recognized on a straight-line basis over the requisite service period according to ASC Topic 718.

The following table summarizes restricted stock unit activity:

	Number of Shares	Aggregate Intrinsic Value
	(in thousands, except shares)

For FY14, an aggregate of 246,928 restricted stock were granted to certain employees, non-employees and members of the board of directors and were included in the computation of diluted earnings per common share.

For FY14, an aggregate of 4,102,644 LLC units were held by LLC owners who entered into an exchange agreement under which they have the right to exchange their LLC units for shares of the Company's Class A common stock on a one-for-one basis at fair value, subject to customary conversion rate adjustments for stock splits, stock dividends and reclassifications. In accordance with ASC 260, *Earnings Per Share*, all outstanding unvested share-based payments that contain rights to non-forfeitable dividends participate in the undistributed earnings with the common stockholders and are therefore participating securities. The shares of Class B common stock do not share in our earnings and are therefore not participating securities. Accordingly, basic and diluted net earnings per share of Class B common stock have not been presented. Basic net loss per share information is not applicable for reporting periods prior to June 26, 2013, the completion of our initial public offering.

NOTE 12 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability, otherwise known as the "exit price," in an orderly transaction between market participants at the measurement date. We use the three tier fair value hierarchy as a basis for our assumptions. The hierarchy of inputs used for measuring fair value are as follows: Level 1 observable inputs such as quoted prices in active markets; Level 2 inputs other than quoted prices in active markets that are observable either directly or indirectly in active markets; Level 3 unobservable inputs in which there is little or no market data and as a result, management assumptions are developed.

The carrying values of cash, accounts receivable, accounts payable, accrued expenses and long-term debt approximate fair value.

In October 2012, we executed an interest rate swap obligation that was measured using observable inputs such as the LIBOR and Ten-year Treasury interest rates, and therefore has been categorized as Level 2. Future volatility of the interest rate swap obligation could have a material impact in future periods. This derivative is not designated as a hedging instrument and has been recorded at fair value on our consolidated balance sheets. Changes in the fair value

of this instrument have been recognized in our consolidated statements of operations in other income (expense).

The following tables set forth our fair values at December 31, 2013 and at June 30, 2013 by level within the fair value hierarchy:

NOTE 13 TAXES

The effective tax rate for the quarters and six-month periods ended December 31, 2013 was 16.5% and 18.7%, respectively. The tax provision for the current year period is based on an estimate of our annualized income tax rate. Our effective tax rate includes a rate benefit attributable to the fact our subsidiaries operate as a limited liability company which is not subject to federal or state income tax. Accordingly, a portion of our earnings are not subject to corporate level taxes. The Company did not have an effective tax rate for the quarters and six-month periods ended December 31, 2012 due to the completion of the Company's IPO on June 25, 2013.

We had no unrecognized tax benefits at December 31, 2013 and did not incur any income tax related interest expense or penalties related to uncertain tax positions.

NOTE 14 SIGNIFICANT CUSTOMER INFORMATION, SEGMENT REPORTING AND GEOGRAPHIC INFORMATION

In accordance with ASC Topic 280, Segment Reporting, our chief operating decision-maker has been identified as the CEO, who reviews sales, cost of sales, and gross profit to make decisions about allocating our resources and assessing our performance. Operating and other expenses are not allocated between operating segments; therefore, operating and net income information for the respective segments is not available. In addition, discreet financial information related to segment specific assets is not available.

Our primary reporting segments are identified by each distribution channel: wholesale, direct to consumer and internet. Wholesale sales include our retail exclusive brand label model and four fully-owned brands sold and marketed through the traditional three-tier distribution system. Direct to consumer sales of our own brands occur through our tasting rooms and wine clubs. Internet sales occur through Wine Spies and are principally comprised of brands not owned by us. Sales and cost of sales are reported by segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other parts of this Quarterly Report on Form 10-Q contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact, regarding our strategy, future operations, financial position, prospects, plans, opportunities, and objectives constitute "forward-looking statements." The words "may," "will," "expect," "plan," "anticipate," "believe," "estimate," "potential," or "continue" and similar types of expressions identify such statements, although not all forward-looking statements contain these identifying words. These statements are based upon information that is currently available to us and or management's current expectations, speak only as of the date hereof, and are subject to risks and uncertainties. We expressly disclaim any obligation, except as required by federal securities laws, or undertaking to update or revise any forward-looking statements contained herein to reflect any change or expectations with regard thereto or to reflect any change in events, conditions, or circumstances on which any such forward-looking statement is based, in whole or in part. Our actual results may differ materially from the results discussed in or implied by such forward-looking statements. Important factors that could cause such differences include, but are not limited to, a reduction in the supply of grapes and bulk wine available to us; significant competition; any change in our relationships with retailers which could harm our business; we may not achieve or maintain profitability in the future; the loss of key employees; a reduction in our access to, or an increase in the cost of, the third-party services we use to produce our wine; credit facility restrictions on our current and future operations; failure to protect, or infringement of, trademarks and proprietary rights; these factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. Risks that may affect our operating results include, but are not limited to, those discussed in the "Risk Factors" section of our Annual Report on Form 10-K for fiscal 2013 filed with the Securities Exchange Commission ("SEC") on September 27, 2013. Readers should carefully review the risk factors described in the Annual Report on Form 10-K for fiscal 2013 and in other documents that we file from time to time with the SEC.

The following management's discussion and analysis of financial condition and results of operations for the quarters and six-month periods ended December 31, 2013 and the June 30, 2013 balance sheet, include the results of Truett-Hurst, Inc. and its subsidiaries: H.D.D. LLC ("LLC") and its consolidated subsidiary, The Wine Spies, LLC ("Wine Spies") (collectively, "we," "Truett-Hurst," "our," "us," or "the Company"). We consolidate the financial results of the LLC and its consolidated subsidiary, and record non-controlling interest for the economic interest in the LLC and its consolidated subsidiary. Non-controlling interest's represent the portion of equity ownership in subsidiaries that are not attributable to Truett-Hurst, Inc. The unaudited condensed consolidated financial statements for the quarters and six-month periods ended December 31, 2012 reflect the results of the LLC and Wine Spies. Truett-Hurst, Inc.'s fiscal 2013 period is from June 26, 2013 to June 30, 2013 due to the completion of the Company's initial public offering ("IPO") on June 25, 2013. Unless the context suggests otherwise, references in this report to Truett-Hurst Inc. refer (1) prior to the June 2013 IPO of Truett-Hurst Inc. and related transactions, to the LLC and its consolidated subsidiary and (2) after our IPO and related formation transactions, to Truett-Hurst Inc. and its consolidated subsidiaries.

Certain reclassifications have been made to these fiscal 2013 quarter condensed consolidated financial statements to conform to the current fiscal 2014 quarter presentation. Reclassifications had no material impact on previously

reported results of operations, financial position or cash flows.

References to “FY” or “fiscal year” refer to our fiscal year ending on Junth 30 the designated year or prior year. For example, “FY13” and “fiscal year 2013” each refer to the fiscal year ended June 30, 2013 and “FY14” and “fiscal year 2014” each refer to the fiscal year ended June 30, 2014. Other references to “years” mean calendar years.

OVERVIEW OF BUSINESS

We produce and sell premium, super-premium, ultra-premium and luxury wines from grapes grown from our estate vineyard, purchased from growers, bulk wine procured under contracts or on a spot basis, and finished goods from both import and domestic producers. We are headquarter in Sonoma County, California with tasting rooms in the Dry Creek and Russian River appellations. Our wines include Pinot Noir, Chardonnay, Sauvignon Blanc, Zinfandel, Syrah, Merlot, and Cabernet Sauvignon and are sold across a number of premium luxury price points for three distinct distribution channels: three-tier, direct to consumer and internet. We design, develop and own our brands and develop retail exclusive brand labels through our retail alliances. We market our brands through innovative packaging and label designs.

Wine sales in the three tier channel are sold to distributors with programs available to the broad market or on an exclusive basis to a specific retailer. Our traditional three-tier distribution business consists of sales of Truett-Hurst, VML, Healdsburg Ranches and Bradford Mountain. Our retail exclusive brand label model allows us to collaboratively work with our retail alliances to develop innovative brands that cater to customer demands and permit our retail alliances to increase their consumer traffic and grow their sales. Our direct to consumer channel consists of sales through our tasting rooms and wine clubs, which increases brand visibility and loyalty, and through our 50% ownership interest in Wine Spies, an internet wine retailer specializing in short-lived “flash” sales.

RECENT TRENDS AND EVENTS

The California 2013 vintage grape harvest is estimated at 4.3 million tons which approximates the 2012 harvest. The 2012 harvest was approximately 13% higher than the 2011. The 2012 and 2013 harvests are expected to align domestic supply and demand particularly in light of the smaller harvest of 2010 and 2011.

In August 2013, we launched California Square, an ultra-premium wine program. It was featured at the 65th Annual Emmy Awards Ceremony on September 21 and 22, 2013. California Square was presented to celebrities and VIPs throughout the awards weekend in Los Angeles California. The entire line of California Square wines, crafted by winemaker Virginia Marie Lambrix, includes: a Russian River Valley Chardonnay, Paso Robles Cabernet Sauvignon, and Paso Robles red blend.

In October 2013, the LLC entered into a co-ownership trademark agreement with wine industry veteran Daryl Groom, for a fifty-percent ownership in and all rights, titles and interest in the Colby Red trademark. Colby Red is a California cuvée of Cabernet Sauvignon, Zinfandel, Shiraz, Merlot, and Petite Sirah with a suggested retail price ranging between \$11.99-\$13.99 per bottle. The brand is expected to contribute positively to our sales, gross profit, gross margin and net income and provide an opportunity for new points of distribution. Shipments commenced December 2013.

In November 2013, we launched Paper Boy, the first paper wine bottle in the United States. Paper Boy’s bottle is made from 100% recycled cardboard and has a plastic insert with proven bag in a box technology. The package is 85% lighter than a glass bottle and is easily recyclable. Its carbon footprint is significantly smaller than glass and provides an easy alternative to enjoying wine outdoors where glass is prohibited. Demand for Paper Boy exceeds our paper bottle supplier’s current production levels which could affect this brand’s sales growth. However, the paper bottle supplier is working to resolve this issue.

We continue to receive positive feedback from our retailers, national publications and newspapers for our wine quality and packaging innovation. For example, in December 2013, Robert Parker, one of the industry’s most highly regarded wine critic’s, evaluated and rated selected VML wines (Wine Advocate #210). Mr. Parker not only provided high scores but also favorably commented on our innovative design and packaging. We believe these scores and the resulting consumer awareness of our brands can be leveraged by our distributors with industry gate keepers to expand points of distribution in the marketplace.

SIGNIFICANT TRANSACTIONS

Formation Transactions

On June 19, 2013, the limited liability company agreement of the LLC was amended and restated to, among other things, modify its capital structure by replacing the different classes of interests previously held by our then-existing owners with a single new class of units that we refer to as “LLC Units.” We and our then-existing owners also entered into an exchange agreement under which (subject to the terms of the exchange agreement) they have the right to exchange their LLC Units for shares of our Class A common stock on a one-for-one basis, subject to customary

conversion rate adjustments for stock splits, stock dividends and reclassifications. At June 30, 2013 there were 4,102,644 LLC Units held by parties other than Truett-Hurst Inc. which upon exercise of the right to exchange would exchange for 4,102,644 shares of Class A common stock.

In connection with the IPO, one share of Class B common stock was distributed to each existing holder of LLC Units, each of which provides its owner with no economic rights but entitles the holder, without regard to the number of shares of Class B common stock held by such holder, to one vote on matters presented to our stockholders for each LLC Unit held by such holder. Holders of our Class A common stock and Class B common stock vote together as a single class on all matters presented to our stockholders for their vote or approval, except as otherwise required by applicable law.

Our LLC existing owners control approximately 61% of the voting power of our outstanding Class A common stock and 100% of the voting power of our outstanding Class B common stock. Accordingly, our LLC existing owners have the ability to elect all of the members of our board of directors, and thereby control our management and affairs.

Initial Public Offering

Our IPO closed on June 25, 2013 and pursuant to the IPO, we offered and sold 2,700,000 shares of Class A common stock. We received gross IPO proceeds of approximately \$16.2 million and used approximately \$15.1 million of the IPO proceeds to purchase 2,700,000 newly-issued LLC Units. We caused the LLC to use approximately \$1.6 million of the \$15.1 million IPO net proceeds from the sale of such newly-issued LLC Units to repay outstanding indebtedness and related IPO expenses. In addition, we paid approximately \$1.1 million to the Placement Agent.

As a result of the IPO and formation transactions in June 2013, we became the sole managing member of, and have a controlling equity interest in, the LLC. As the sole managing member of the LLC, we operate and control all of the business and affairs of the LLC and through the LLC and its consolidated subsidiary (Wine Spies) conduct our business. We consolidate the financial results of the LLC and its consolidated subsidiary, and record non-controlling interest for the economic interest of the LLC and its consolidated subsidiary. Non-controlling interest's represent the portion of equity ownership in subsidiaries that are not attributable to Truett-Hurst, Inc.

SEASONAL TRENDS

The wine industry experiences increased sales in October, November and December. Our sales have historically followed several distinct trends. Sales are typically higher upon the launch of a new product into the marketplace and when our retail exclusive alliances promote brands through in-store displays and advertising promotions.

STRATEGIC OBJECTIVES

Wine industry sales are defined by four major categories: sub-premium (below \$7 per bottle retail price), super-premium (between \$7 - \$14 per bottle retail price), ultra-premium (over \$14 - \$25 per bottle retail price) and luxury (\$25+ per bottle retail price). We focus on the super, ultra-premium and luxury wine categories with a sales price up to \$50 per bottle. Our wholesale sales channel targets the super and ultra-premium categories, our direct to consumer channel targets the luxury category through our wine clubs and tasting rooms and our fifty percent investment in The Wine Spies represents internet flash sales of popular super premium and luxury wines.

Our business strategy includes (i) developing innovative products, (ii) building private label brands for large U.S. retailers (iii) building national brands within the existing portfolio of brands, (iv) expanding our retail base and distribution channels, (v) expanding our direct to consumer and internet business, and (vi) continuing to develop new ways to engage customers and to distribute our wines. Continued growth of our net sales, gross profit and net income will depend upon our execution of new brand introductions with innovative packaging designs and our ability to leverage existing brands in our portfolio with our distributors, retailer exclusive alliances, direct to consumer and internet sales channels.

We remain committed to our strategic objectives of growing sales, expanding margins and increasing cash flow in order to achieve earnings per share growth and reduce borrowings.

Results of Operations

Factors Affecting Our Operating Results

Our net sales are affected by advertising, discounts, promotions, merchandising and packaging in the wholesale segment, the availability of display space at our retail locations, all of which have a significant impact on consumers' buying decisions. Our cost of sales includes wine-related inputs including grapes, bulk wine, and finished goods, wine making production overhead costs and bottling materials (bottles, capsules, corks, labels, labor and overhead expenses).

Net Sales. Net sales include sales from each distribution channel: wholesale, direct to consumer and internet. Wholesale sales include our brands sold in the broad market and on a retailer exclusive basis through the three-tier distribution system. Direct to consumer sales of our own brands occur through our tasting rooms and wine clubs. Internet sales occur through Wine Spies and are principally comprised of brands not owned by us. The following tables compare net sales by segment for the quarters and six-month periods ended December 31, 2013 and 2012:

Edgar Filing: Truett-Hurst, Inc. - Form 10-Q

(in thousands, except percentages)	Quarters Ended December 31,				Six Month Periods Ended December 31,				
	2013	2012	Increase (Decrease)	% Change	2013	2012	Increase (Decrease)	% Change	
Wholesale	\$ 4,357	\$ 2,240	\$ 2,117	95 %	\$ 8,379	\$ 6,464	\$ 1,915	30 %	
Direct to consumer	1,091	760	331	44 %	2,019	1,508	511	34 %	
Internet	548	411	137	33 %	984	589	395	67 %	
Total	\$ 5,996	\$ 3,411	\$ 2,585	76 %	\$ 11,382	\$ 8,561	\$ 2,821	33 %	

Significant growth was seen in all sales channels. Wholesale net sales increased 95% and 30% in the second quarter and first six-months of fiscal 2014, respectively. This increase resulted primarily from introduction of Paper Boy, Colby Red and continued sales of California Square, our evocative wraps program and growth in our broad market distributed brands (Bradford Mountain and Healdsburg Ranches). Direct to consumer net sales increased 44% and 34% in the second quarter and first six-months of fiscal 2014, respectively. This increase resulted primarily from focused efforts to grow the business through wine club sales and leveraging Sonoma County tourism which drove traffic to our tasting rooms. Internet net sales increased 33% and 67% in the second quarter and first six-months of fiscal 2014, respectively. Internet sales improved as we had six-months of operations and net sales compared to only five months in the prior-year (acquired August 2012). In addition, the increase was due to increased website traffic and sales mix, including higher priced, limited production wines.

International net sales were \$0.4 million and \$0.7 for the second quarter and first six-months of fiscal 2014 compared to \$0.1 million for the second quarter and first six-months of fiscal 2013, respectively. We are now selling wines into Canada and Mexico.

We record sales discounts and depletion allowances as a reduction of sales. For the quarter periods ended December 31, 2013 and 2012, sales discounts and depletion allowances totaled \$0.2 million and \$0.4 million, respectively. For six-months 2014 and 2013, sales discounts and depletion allowances totaled \$0.3 million and \$0.6 million, respectively.

Cost of Sales. Costs of sales includes costs associated with direct and indirect grape growing costs, external grape, bulk wine and finished goods purchases, packaging materials, direct and indirect winemaking production costs. No further costs are allocated to inventory once the product is bottled and ready for sale. The following tables compare cost of sales by segment for the three and six-month periods ended December 31, 2013 and 2012:

	Quarters Ended December 31, (in thousands, except percentages)				Six Month Periods Ended December 31, (in thousands, except percentages)				
	2013	2012	Increase (Decrease)	% Change	2013	2012	Increase (Decrease)	% Change	
Wholesale	\$ 3,078	\$ 1,671	\$ 1,407	84 %	\$ 6,044	\$ 4,820	\$ 1,224	25 %	
Direct to consumer	433	383	50	13 %	804	649	155	24 %	
Internet	364	241	123	52 %	624	346	278	80 %	
Total	\$ 3,875	\$ 2,295	\$ 1,580	69 %	\$ 7,472	\$ 5,815	\$ 1,657	28 %	

Cost of sales increase for the second quarter and first six-months of fiscal 2014 was attributable to the related increase in sales and sales mix. Total cost of sales was 69% and 28% compared to net sales increase of 76% and 33% for the second quarter and first six-months of fiscal 2014, respectively.

Gross Profit / Gross Profit Margin.

Edgar Filing: Truett-Hurst, Inc. - Form 10-Q

The following tables compares gross profit and gross profit margins for the quarters and six-month periods ended December 31, 2013 and 2012:

	Quarters Ended December 31, (in thousands, except percentages)		Six Month Periods Ended December 31, (in thousands, except percentages)					
	2013	2012	2013	2012				
Net sales	\$ 5,996	\$ 3,411	\$ 11,382	\$ 8,561				
Cost of sales	3,875	2,295	7,472	5,815				
Gross profit	\$ 2,121	\$ 1,116	\$ 3,910	\$ 2,746				
Gross profit margin	35	%	33	%	34	%	32	%

Edgar Filing: Truett-Hurst, Inc. - Form 10-Q

The following tables compares gross profit margin by segments for the quarters and six-month periods ended December 31, 2013 and 2012:

Gross Margin Percentage	Quarters Ended December 31,				Six-Month Periods Ended December 31,			
	2013		2012		2013		2012	
Wholesale	29	%	25	%	28	%	25	%
Direct to consumer	60	%	50	%	60	%	57	%
Internet	34	%	41	%	37	%	41	%

Wholesale gross profit margins improved as a combination of new brand introductions at higher price points and the reduction of sales of lower margin wines. Direct to consumer gross profit margins increased compared to the same prior-quarter period and was attributable to reduced discounting, and selected price increases associated with vintage transitions. The internet gross profit margin decreased as we emphasized gross profit over gross margin by offering higher priced wines.

Sales and Marketing. Sales and marketing expenses consist primarily of non-production personnel costs, advertising and other marketing promotions. Advertising costs are expensed as incurred. For the second quarter and first six-months of fiscal 2014, advertising expense totaled approximately \$0.09 million and \$0.1 million, respectively. For the second quarter and first six-months of fiscal 2013, advertising expense totaled approximately \$0.02 million, respectively. Our sales and marketing variable expenses increase proportionately with increased sales. The following tables compare sales and marketing expenses for the quarters and six-month periods ended December 31, 2013 and 2012:

	Quarter Ended December 31, (in thousands, except percentages)				Six Month Periods Ended December 31, (in thousands, except percentages)				
	2013	2012	Increase (Decrease)	% Change	2013	2012	Increase (Decrease)	% Change	
Sales and marketing	\$ 1,280	\$ 881	\$ 399	45 %	\$ 2,330	\$ 1,648	\$ 682	41 %	
Percentage of net sales	21 %	26 %			20 %	19 %			

Sales and marketing expense increased 45% during the second quarter of fiscal 2014 compared to the second quarter of fiscal 2013, and increased 41% during the first six-months of fiscal 2014 compared to the same period in fiscal 2013. These increases were primarily due to our continued expansion of our brand related programming, promotions and incentives, increased headcount and related expenses, and increased spending on other sales and marketing expenses associated with increased sales.

We report the amounts billed to our customers for shipping and handling as sales, and we report the costs we incur for shipping and handling as a sales and marketing expense. Shipping costs were \$0.2 million and \$0.4 million compared to \$0.2 million and \$0.3 million for the second quarter and first six-months of fiscal 2014 and 2013, respectively.

General and Administrative. General and administrative expenses include the costs associated with our administrative staff and other expenses related to our non-manufacturing functions. We will experience higher administrative costs as a result of being a public company. The following tables compare general and administrative expenses for the quarters and six-month periods ended December 31, 2013 and 2012:

Quarter Ended December 31, (in thousands, except percentages)	Six Month Periods Ended December 31, (in thousands, except percentages)
--	--

Edgar Filing: Truett-Hurst, Inc. - Form 10-Q

	2013	2012	Increase (Decrease)	% Change		2013	2012	Increase (Decrease)	% Change
General and administrative	\$ 707	\$ 746	\$ (39)	(5) %		\$ 1,547	\$ 1,106	\$ 442	40 %
Percentage of net sales	12 %	22 %				14 %	13 %		

General and administrative expense decreased 5% during the second quarter of fiscal 2014 compared to the second quarter of fiscal 2013, and increased 40% during the first six-months of fiscal 2014 compared to the same period in fiscal 2013. These increases were primarily due to the continued expansion of our infrastructure, increased headcount and related expenses, and increased spending on professional services.

Interest Expense

Interest expense was \$0.04 million and \$0.1 million compared to \$0.1 million and \$0.2 million for the second quarter and first six-months of fiscal 2014 and 2013, respectively.

LIQUIDITY AND CAPITAL RESOURCES

General

Our primary sources of available cash are from existing cash from operations, the revolving loan portion of our credit facility and equity offerings. In fiscal year 2012 we also entered into factoring agreements. Our primary cash needs are to fund working capital requirements, including costs associated with the development, release and sale of new brands, and capital expenditures for barrels and other equipment to facilitate increased production, repay our indebtedness (interest and principal payments) and operating expenses. Working capital requirements for our wholesale and direct to consumer segments is supported by grapes (grown or purchased) and semi-finished bulk wine (purchased under contract or on the spot market). The actual wine programs and segments in which the grapes and bulk wine procured will be used are not known until our winemaker has completed the winemaking, blending and oak aging production process. It is not possible to accurately assign inventory costs to each segment because the bottled inventory may be sold in multiple segments. Inventory for our internet segment is purchased as finished goods and in quantities based upon that day's orders. A single wine is offered each day and available only for that 24-hour period. Inventory on hand principally comprises sales orders to be fulfilled.

Borrowings under our revolving loan facility are at the London Interbank Offered Rate ("LIBOR"), plus a credit spread. For information regarding the loan guarantees see below "Security Agreements and Limited Guarantees" below and "Note 8 Commitments and Contingencies" to the Unaudited Consolidated Financial Statements included in this Quarterly Report. The availability is subject to our compliance with certain contractual financial and non-financial covenants. The terms of our credit facility require, among other things, compliance with certain financial covenants, including, without limitation, a minimum current assets to current liabilities ratio (measured quarterly), debt to effective tangible net worth ratio (measured quarterly) and debt service coverage ratio (measured annually). We were in compliance with the loan covenants at December 31, 2013.

We currently do not have any material commitments for capital expenditures. We have experienced no material trends or changes in the type or cost of our capital resources. We do not currently plan on entering into any lease arrangements for barrels or other equipment.

We believe that our cash position and availability under our senior secured credit facility will be adequate to finance working capital needs and planned capital expenditures for at least the next twelve months. We may, however, require additional liquidity as we continue to execute our business strategy. We anticipate that, to the extent that we require additional liquidity, it will be funded through the incurrence of indebtedness, additional equity financings or a combination of these potential sources of liquidity, although no assurance can be given that such forms of capital will be available to us, or available to us on terms which are acceptable, at such time.

Our working capital decreased \$0.3 million to \$16.1 million at December 31, 2013 from \$16.4 million at June 30, 2013. The decrease in working capital was primarily due to a decrease in cash and accounts receivable as discussed below. Cash consists of cash and money market accounts. Cash decreased by \$3.9 million to \$7.5 million for the period ended December 31, 2013 from \$11.4 million at the end of fiscal 2013.

Cash Flows from Operating Activities

Interest Expense

Net cash used in operating activities increased \$1.5 million to \$4.2 million compared to \$2.7 million for the six-months ended December 2013 and 2012, respectively. The significant changes in cash flows used in operating activities is attributable to increase in inventories and other current assets offset by a reduction in accounts payable and accrued expenses and accounts receivable. Management believes cash flows from operations, available cash balances and short-term borrowings will be sufficient to fund the Company's operating liquidity needs.

Cash Flows from Investing Activities

Net cash used in investing activities decreased \$0.3 million to \$0.6 million compared to \$0.9 million for the six-months ended December 2013 and 2012, respectively. The significant changes in cash flows used in investing activities is attributable to a decrease in property and equipment purchases and due to the acquisition of Wine Spies during the prior-quarter of fiscal 2013.

Cash Flows from Financing Activities

Net cash provided by financing activities decreased \$2.5 million to \$0.9 million compared to \$3.5 million for the six-months ended December 2013 and 2012, respectively. The significant changes in cash flows provided by financing activities is attributable to decreased borrowings, an increase in advances from related parties and a net change in payments on long term debt.

Contractual Obligations and Commitments

Financing Agreements

Indebtedness

Our primary sources of indebtedness are the bank loan (as defined below) and notes payable to a member. For information regarding the loan guarantees see below “Security Agreements and Limited Guarantees” below and “Note 8 Commitments and Contingencies” to the Unaudited Consolidated Financial Statements included in this Quarterly Report.

Bank Loan. On July 16, 2012, we entered into five loan agreements with a bank (collectively, the “Bank Loan”):

\$9.0 million Line of Credit Note: We received a line of credit from a bank in the principal amount of up to \$9.0 million due on or before May 31, 2014. The aggregate principal balance outstanding bears interest at 1.75% above LIBOR.

\$3.4 million Term Note: We received a term note from a bank in the principal amount of \$3.4 million due on or before May 31, 2022. The aggregate principal balance outstanding bears interest at 2.25% above the One-Month LIBOR. Effective October 31, 2012, we entered into a swap arrangement with the bank fixing the interest rate at 4.00% for the term of the note.

\$0.4 million Equipment Purchase Line of Credit Note: We received an equipment purchase line of credit note in the principal amount of \$0.3 million from the bank and matures on November 1, 2015. The aggregate principal balance outstanding bears interest at 2.25% above the One-Month LIBOR Rate. The equipment purchase line of credit was increased to \$0.4 million pursuant to a modification agreement we entered into as of October 3, 2012 with the bank and funded on January 28, 2013. The aggregate principal outstanding bears 3.75% fixed interest and will be repaid in 60 monthly payments. The first monthly payment was made on February 15, 2013 and matures on January 15, 2018.

\$0.1 million Master Equipment Financing Agreement: We entered into an agreement with the bank to finance the purchase of certain equipment on October 2, 2012 in the amount of \$0.1 million. The aggregate principal outstanding bears 3.75% fixed interest and will be repaid in 36 monthly payments. The first monthly payment was made on November 1, 2012.

\$0.1 million Foreign Exchange Note: We received a foreign exchange note in the principal amount of \$0.1 million from the bank due on or before May 31, 2014 that carries a 10% credit percentage and permits us to enter into any spot or forward transaction to purchase from or sell to the bank a foreign currency of an agreed amount.

The bank loan contains usual and customary covenants, including, without limitation:

limitation on incurring senior indebtedness;

Edgar Filing: Truett-Hurst, Inc. - Form 10-Q

- limitation on making loans and advances;
- limitation on investments, acquisitions, and capital expenditures;
- limitation on liens, mergers and sales of assets; and
- limitations on new activities of Truett-Hurst.

In addition, the bank loan contains negative and financial covenants, including, without limitation, a minimum current assets to current liabilities ratio (measured quarterly), debt to effective tangible net worth ratio (measured quarterly) and debt service coverage ratio (measured annually).

We were in compliance in all material aspects with all covenants at December 31, 2013.

Covenant Breaches. We were not in compliance with the minimum current assets to current liabilities ratio at September 30, 2012. In March 2013, in connection with the bank issuance of a waiver for the financial covenants, we amended and restated a member warrant to allow for the immediate exercise of the warrant for a 3% member interest. The original common stock warrant, issued in May 2012, was for 20% of the contributed members' equity interest equal to \$0.5 million. The obligation was satisfied with the exercise of the warrant in March 2013 for \$0.5 million.

Additionally, \$0.7 million in related party obligations was subordinated and \$0.4 million of newly issued, convertible, subordinated debt was received from four of our members. The debt bears interest at 10% per annum, with interest and principal due before March 1, 2014. Upon completion of the IPO on June 25, 2013, all amounts were released from subordination and paid in full.

Factoring Agreements. In November 2011, January 2012 and April 2012, we entered into three agreements with a factor borrowing a total of \$2.6 million in order to finance three transactions with a vendor. We agreed to assign and sell receivables related to these transactions to the factor at a rate of 100% of each receivable plus 1.25% per month of the unpaid principal amount of the loan. We were fully and unconditionally liable for the principal and interest on the loan; therefore, we accounted for the transfer of receivables as a secured financing. Interest expense includes finance costs associated with factoring activities.

With the addition of John D. Fruth to our board of directors, subsequent to the IPO, the factor agreement became a related party agreement. The April 2012 agreement for the amount due of \$0.9 million at June 30, 2012 was paid subsequent to fiscal 2012 year end. Interest of \$nil was paid under these agreements for the quarter periods ended December 31, 2013 and 2012 and interest of \$nil and \$0.03 million was paid under these agreements for the six-month period ended December 31, 2013 and 2012, respectively.

Security Agreements and Limited Guaranties

In connection with our entry into a bank loan on July 16, 2012, certain of our executive officers and members of the LLC, as well as certain trusts and other entities under their respective control, entered into guarantee agreements. For information regarding the bank loan see "Credit Facilities" above.

Limited Guaranty Hurst Trust: On July 16, 2012, the Hurst Revocable Trust ("Hurst Trust"), a member of the LLC, and Phillip L. Hurst, director and CEO of the LLC and Truett-Hurst, Inc. and a co-trustee of the Hurst Trust, entered into a Limited Guaranty pursuant to which the Hurst Trust and Mr. Hurst, together, guarantees the full payment to the bank of all sums presently due and owing and all sums which shall in the future become due and owing to the bank from us. The liability of the Hurst Trust and Mr. Hurst, as guarantor, is limited to 42% of the sum of all obligations due to the bank, plus the costs, expenses and interest associated with the collection of amounts recoverable under this guarantee.

Limited Guaranty Hambrecht Trust: On July 16, 2012, the Hambrecht Trust and William R. Hambrecht, a director of the LLC and Truett-Hurst, Inc. and trustee of the Hambrecht Trust, entered into a Limited Guaranty pursuant to which the Hambrecht Trust and Mr. Hambrecht, together, guarantees the full payment to the bank of all sums presently due and owing and all sums which shall in the future become due and owing to the bank from us. The liability of the Hambrecht Trust and Mr. Hambrecht, as guarantor, is limited to 35% of the sum of all obligations due to the

bank, plus the costs, expenses and interest associated with the collection of amounts recoverable under this guarantee. On September 30, 2013, Mr. Hambrecht notified the Company that he would not stand for re-election and his director's term expired November 20, 2013.

Limited Guaranty Dolan 2005 Trust: On July 16, 2012, the Dolan 2005 Trust, a member of the LLC, and Heath E. Dolan, a director of the LLC and Truett-Hurst, Inc. and a co-trustee of the Dolan 2005 Trust, entered into a Limited Guaranty pursuant to which the Dolan 2005 Trust and Mr. Dolan, together, guarantees the full payment to the bank of all sums presently due and owing and all sums which shall in the future become due and owing to the bank from us. The liability of the Dolan 2005 Trust and Mr. Dolan, as guarantor, is limited to 26% of the sum of all obligations due to the bank, plus the costs, expenses and interest associated with the collection of amounts recoverable under this guarantee.

Limited Guaranty Dolan 2003 Trust: On July 16, 2012, the Dolan 2003 Trust, a member of the LLC, and Paul E. Dolan, III , a director of the LLC and Truett-Hurst, Inc. and trustee of the Dolan 2003 Trust, entered into a Limited Guaranty pursuant to which the Dolan 2003 Trust and Mr. Dolan, together, guarantees the full payment to the bank of all sums presently due and owing and all sums which shall in the future become due and owing to the bank from us. The liability of the Dolan 2003 Trust and Mr. Dolan, as guarantor, is limited to 26% of the sum of all obligations due to the bank, plus the costs, expenses and interest associated with the collection of amounts recoverable under this guarantee.

Limited Guaranty Carroll-Obremskey Trust: On July 16, 2012, the Carroll-Obremskey Trust, a member of the LLC, and Daniel A. Carroll, a director of the LLC and Truett-Hurst, Inc. and a co-trustee of the Carroll-Obremskey Trust, entered into a Limited Guaranty pursuant to which the Carroll-Obremskey Trust and Mr. Carroll, together, guarantees the full payment to the bank of all sums presently due and owing and all sums which shall in the future become due and owing to the bank from us. The liability of the Carroll-Obremskey Trust and Mr. Carroll, as guarantor, is limited to 26% of the sum of all obligations due to the bank, plus the costs, expenses and interest associated with the collection of amounts recoverable under this guarantee.

Unlimited Guaranty Hambrecht Wine Group: On July 16, 2012, the Hambrecht Wine Group, a member of the LLC, entered into an Unlimited Guaranty pursuant to which Hambrecht Wine Group guarantees the full payment to the bank of all sums presently due and owing and all sums which shall in the future become due and owing to the bank from us. The liability of Hambrecht Wine Group, as guarantor, is unlimited. On September 30, 2013, Mr. Hambrecht notified the Company that he would not stand for re-election and his director's term expired November 20, 2013.

Concentration of Credit Risk and Off-Balance Sheet Arrangements

We maintain our cash with highly rated credit institutions. Although we try to limit the amount of credit exposure with any one financial institution, we do in the normal course of business maintain cash balances in excess of federally insured limits.

Our accounts receivable consists primarily of trade receivables from customers. We review accounts receivable regularly and make estimates for allowance for doubtful accounts when there is doubt as to the collectability of individual balances. Our accounts receivable credit risk is not concentrated within any one geographic area or customer group. We believe our accounts receivable credit risk exposure is limited and we have not experienced significant write-downs in our accounts receivable balances.

Off-Balance Sheet Arrangements

We do not have off-balance sheet risks related to foreign exchange contracts, option contracts or other foreign hedging arrangements.

Leases and Commitments

We enter into short and long-term contracts to supply a portion of our future grapes and bulk wine inventory requirements with third parties and related party growers. Future minimum inventory commitments at December 31, 2013 are as follows:

Years ending June 30:	Third Parties (in thousands)	Related Parties	Total
2015	\$ 3,597	\$ 612	\$ 4,209
2016	2,760	224	2,984
Total	\$ 6,357	\$ 836	\$ 7,193

Supply Contract

On February 26, 2013, we executed a supply of goods agreement for our paper wine bottle. The terms of the agreement is seven years and the minimum purchase commitment for the first two years is \$0.8 million for each year. Minimum purchase amounts for years three through seven are to be agreed upon six-months before the commencement of each of those years, respectively. Under the terms of this arrangement, we have exclusive rights to

certain geographic regions, as long as minimum purchase levels are maintained. Additionally, the agreement commits us to an annual marketing spend of the lesser of 5% of our net sales of wine supplied in the products, or \$1.0 million. At December 31, 2013, future commitments for finished goods total approximately \$2.3 million.

Effects of Inflation and Changing Prices

Our results of operations and financial condition have not been significantly affected by inflation and changing prices. We intend to pass along rising costs through increased selling prices, subject to normal competitive conditions. There can be no assurances, however, that we will be able to pass along rising costs through increased selling prices. In addition, we continue to identify on-going cost savings initiatives.

Critical Accounting Policies and Estimates

Critical accounting policies are those we believe are most important to portraying our financial conditions and results of operations and also require the greatest amount of subjective or complex judgments by management. The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Judgments and uncertainties regarding the application of these policies and estimates may result in materially different amounts being reported under various conditions or using different assumptions. There have been no material changes to the critical accounting policies and estimates previously disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013.

Recently Issued Accounting Pronouncements

We have reviewed all recently issued, but not yet effective, accounting pronouncements and we do not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of our operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this Item.

ITEM 4. CONTROLS AND PROCEDURES

Based on an evaluation under the supervision and with the participation of our management, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act were effective at June 30, 2013 to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

Management did not perform an assessment regarding the effectiveness of internal control over financial reporting at December 31, 2013. As a newly public company, management is not required to perform an assessment of internal control over financial reporting and such an assessment will be required at June 30, 2014. However, in connection with the audits of our consolidated financial statements as of the fiscal years ended June 30, 2011 and 2012, a material weakness in our internal control over financial reporting was identified. The material weakness pertains to deficiencies in the accounting research and reporting functions and the closing and reporting process due to our lack of accounting documentation and procedures, lack of segregation of duties, potential for management override of controls and lack of current expertise in reporting requirements.

The internal control weakness described above continued into our fiscal year 2013 primarily due to not having sufficient time to formally document and test our internal controls and procedures. We have discussed this material weakness with our independent registered public accounting firm and our Audit Committee. We are taking significant actions to remediate the material weakness related to our internal controls and will continue to do so throughout fiscal year 2014. With the oversight of senior management, we have begun taking steps and plan to take additional measures to remediate the underlying causes of the material weakness, primarily through the documentation and implementation of formal policies and improved accounting control processes and procedures, as well as the hiring of additional finance personnel. In particular, in July 2012 we hired a new CFO, in April 2013 we hired a Director of Reporting and Finance to assist with the development and monitoring of internal controls and in October 2013 a Vice President, Controller and Information System. The actions that we are taking are subject to ongoing senior management and Audit Committee review.

We believe that these corrective actions, taken as a whole, will remediate the control deficiencies identified above, and we will continue to monitor the effectiveness of these actions and intend to make any other changes or take such other actions as we determine to be appropriate. We are in the process of developing a plan for testing our internal controls and management's related assessment of internal control over financial reporting as required under Section 404 of the Sarbanes-Oxley Act of 2002. We expect to complete the documentation and testing of our formal internal controls and procedures during fiscal year 2014. If we are unable to correct the material weakness we have identified prior to the end of fiscal year 2014, or if we experience other problems that prevent the favorable assessment of the effectiveness of our internal control over financial reporting, we will be required to conclude and report that our internal control over financial reporting is not effective as of that date and investor confidence and our stock price could be adversely affected.

Notwithstanding the material weakness described above, we believe our financial statements included in this Quarterly Report on Form 10-Q present fairly, in all material respects, our financial position, results of operations and cash flows for the periods presented. Our Chief Executive Officer and Chief Financial Officer have certified to their knowledge that this Quarterly Report on Form 10-Q does not contain any untrue statements of material fact or omit to state any material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered in this Quarterly Report.

Changes to Internal Control over Financial Reporting

During the quarter ended December 31, 2013, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We may be subject to various litigation matters arising in the ordinary course of business from time to time. However, we are not aware of any current pending legal matters or claims, individually or in the aggregate, that are expected to have a material adverse impact on our consolidated financial position, results of operations, or cash flows.

Paul Dolan, a former employee of Mendocino Wine Group (“MWG”), left MWG in 2012. Dolan filed suit against MWG in connection with establishing a fair price for his interest in MWG, and MWG filed a cross-complaint alleging Dolan breached his duty to, and competed with, MWG, and shared confidential information with others, including people at the Company. The suit is pending in Mendocino County Superior Court. In May 2013, the Company was subpoenaed to produce documents but not named in the suit. A trial date is yet to be scheduled and the plaintiff has appointed a new attorney who has indicated a desire to settle the matter with Dolan. We estimate that our response costs will not be material.

ITEM 1A. RISK FACTORS.

There have been no material changes in information regarding our risk factors as described in Item 1A of our Fiscal 2013 Form 10-K as filed with the SEC on September 27, 2013.
