To the shareholders of the Company

Dear Sir or Madam,

MAJOR TRANSACTION

PURCHASE OF EIGHTY BOEING B737 SERIES AIRCRAFT

1.

INTRODUCTION

Reference is made to the Announcement regarding, among others, the Company's purchase of the Boeing Aircraft from Boeing Company pursuant to the Purchase Agreement.

- 3 -

LETTER FROM THE BOARD

The Purchase Agreement constitutes a major transaction of the Company under Chapter 14 of the Listing Rules.

2. THE PARTIES

The Company is principally engaged in the business of civil aviation.

Boeing Company, to the knowledge of the Directors, is principally engaged in the business of aircraft manufacturing.

To the best knowledge, information and belief of the Directors having made all reasonable enquiry, Boeing Company and its ultimate beneficial owner(s) are third parties independent of the Company and connected persons (as defined in the Listing Rules) of the Company, and are not connected persons of the Company.

3. THE PURCHASE AGREEMENT

On 13 June 2014, the Company (as the purchaser) entered into the Purchase Agreement with Boeing Company (as the seller) regarding the Acquisition.

Based on the information provided by Boeing Company, the total asset value of the Boeing Aircraft, as determined by reference to the relevant catalog price in 2012 supplied by Boeing Company, amounts in aggregate to approximately USD7.387 billion (equivalent to approximately RMB45.799 billion).

Consideration

The aircraft basic price of the Boeing Aircraft in aggregate is approximately USD7.387 billion (equivalent to approximately RMB45.799 billion) based on the relevant price catalog in 2012. The aircraft basic price of each B737-800 aircraft is approximately USD81.16 million. The aircraft basic price of each B737MAX aircraft is approximately USD96.07 million. Such aircraft basic price comprises the airframe price and engine price.

The Purchase Agreement was negotiated and entered into in accordance with customary business and industry practice, under which Boeing Company has granted to the Company substantive price concessions with regard to the Boeing Aircraft. Such price concessions were determined after arm's length negotiations between the Company and Boeing Company and as a result, the Consideration is significantly lower than the aircraft basic price of the Boeing Aircraft mentioned above.

Based on the Consideration, the relevant "percentage ratio" calculated under Rule 14.07 of the Listing Rules at the material time is above 25% but less than 100%. Accordingly, the Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange.

- 4 -

LETTER FROM THE BOARD

In respect of the Acquisition, the Company understands its disclosure obligations normally required under Chapter 14 of the Listing Rules, and has therefore on a number of occasions raised the issue with Boeing Company in order to seek its consent to the Company's disclosing certain otherwise required information (including the Consideration) in the Announcement and this circular. Nonetheless, Boeing Company, for business reasons and from a commercial perspective, did not accede to the Company's request in this respect, and insisted on the preservation of the confidentiality carried with such information to the extent possible. The Company has made an application to the Stock Exchange for, and has obtained from the Stock Exchange, a waiver from strict compliance with the relevant provisions (including Listing Rules 14.58(4) and 14.66(4)) under the Listing Rules in respect of the disclosure of the Consideration.

The Company confirms that the extent of the price concessions granted to the Company under the Purchase Agreement is more favourable than price concessions granted to the Company under the 2012 Agreement. The price concessions granted to the Company under the Purchase Agreement will mainly affect the depreciation of aircraft in the future operation cost of the Company. The Company believes that the price concessions obtained by the Company under the Purchase Agreement have no material impact on the Company's future operating costs taken as a whole.

The Company has also taken into account the current economic environment, the industry performance and the Company's financial position, and considers that the extent of the price concessions granted to the Company under the Purchase Agreement are fair and reasonable and in the interests of its shareholders.

Payment terms and source of funding

The Consideration is payable by cash in United States dollars in installments, and is, as currently contemplated, being funded through the Company's working capital, bank loans from commercial banks and other sources of financing available to the Company.

Delivery

The Boeing Aircraft are expected to be delivered to the Company in stages from 2016 to 2020.

Reasons for entering into the Purchase Agreement and benefits expected to accrue to the Company

Taking into account the market demand and the strategy of the Company to build a route network with Shanghai as the core hub and Xi'an and Kunming as the regional hubs, the Company decided to purchase the Boeing Aircraft. The operation of the Boeing Aircraft together with the existing B737NG fleet in "flights waves" is expected to increase the operation efficiency of the Company. The Boeing Aircraft consist of mainly Boeing B737MAX series aircraft, which is designed as a high-efficiency and energy-saving aircraft by the Boeing Company and can improve the fuel efficiency so as to lower the unit operating cost of the Company.

Without considering the adjustments to be made to the aircraft fleet of the Company as a result of the market conditions and the age of the aircraft, the Acquisition will increase the ATKs of the Company by approximately 13.49% (based on the ATKs of the Company as at 31 December 2013).

- 5 -

LETTER FROM THE BOARD

The Acquisition has been approved by the Directors at the seventh ordinary meeting of the seventh session of the Board and is subject to approval by the shareholders of the Company. The Acquisition is also subject to approval(s) by the relevant regulatory authority(ies) in the PRC in compliance with relevant regulatory requirements.

The Directors believe that the terms of the Purchase Agreement (including the price concessions under the Purchase Agreement) are fair and reasonable and in the interests of the Company's shareholders as a whole.

Financial impact of the Acquisition

As mentioned above, part of the Consideration is, as currently contemplated, being funded through bank loans from commercial banks. The Acquisition may therefore result in an increase in the Company's debt-to-equity ratio, but as the Consideration is payable by installments, it is not expected to have substantial impact on the Company's cashflow position or its business operations.

The Acquisition is not expected to result in a material impact on the earnings, assets and liabilities of the Group.

4. IMPLICATIONS UNDER THE LISTING RULES

From the Listing Rules prospective, the Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange and is subject to approval by the shareholders of the Company.

CEA Holding, which directly holds 5,072,922,927 A shares of the Company and indirectly holds 457,317,073 A shares of the Company and 2,626,240,000 H shares of the Company through its wholly-owned subsidiaries, representing in aggregate approximately 64.35% of the issued share capital of the Company, does not have any interest or benefit under the Acquisition. No shareholder of the Company (including CEA Holding) would be required to abstain from voting at any general meeting of the Company, if convened, to approve the Acquisition.

The Acquisition has accordingly been approved in writing by CEA Holding pursuant to Rule 14.44 of the Listing Rules, and no general meeting of the Company is required to be convened.

From the Shanghai Listing Rules prospective, the Acquisition shall be approved in accordance with the asset transactions mandate, which has been approved by the Board on 29 April 2014 and by the shareholders of the Company at the 2013 AGM. For details of the asset transactions mandate, please refer to the announcement of the Company dated 29 April 2014, the notice of the 2013 AGM dated 9 May 2014 and the 2013 AGM poll results announcement of the Company dated 26 June 2014.

TRADING AND FINANCIAL PROSPECTS

Trading prospects

The operations of the Group as an air transport enterprise that performs public service functions are closely linked to the political and economic development both at home and abroad. As such, the Group's operations as well as that of the aviation industry are, to a significant extent, subject to the risks associated with unforeseen occurrences of geopolitical events and other significant events.

In the future, the Company intends to become a premium airline that is globally competitive. In addition, the Group intends to transform from a traditional air passenger and freight carrier to an integrated modern aviation services and logistics services provider.

With the possible recovery of global economy and also the steady growth of local economy in 2014, the tourism market will develop rapidly and the growth in aviation market in China will also be maintained. However, with intensive competition in the industry resulting from the rapid growth of transportation ability in the domestic aviation market, rapid development of domestic and overseas low-cost airways, fluctuation of fuel prices due to geopolitical factors, fluctuation in RMB exchange rate and the impact of high-speed railways becoming normal, the Group will encounter a situation with both opportunities and challenges.

APPENDIX I FINANCIAL INFORMATION

Based on its transformation and development, ability enhancement and brand building, the Group's overall direction for 2014 will be dedicated to the promotion of operation networking and experiential service, accelerating informatisation and marketisation, so as to strive to establish a world class airline.

Financial outlook

In the second half of 2014, the aviation market of China will continue to grow, with the ongoing mild recovery of the global economy, downside pressure of emerging economies and the steady upward trend of China's economy notwithstanding fierce industry competition. The Company will be faced with both opportunities and challenges in its business operations.

In the second half of 2014, the Company will focus on the followings: (1) strengthening safety management to ensure safe operations through reinforcing safety check and control over safety procedures; (2) grasping market opportunities, commanding precise deployment of capacity, refining cabin management and enhancing the marketing ability in respect of passenger and freight services; (3) enhancing service processes, diversifying service products, improving in-flight hardware and software facilities and upgrading customer experience; (4) deepening full-scale budget management, promoting cost reduction and efficiency enhancement project, expanding financing channels and improving efficiency of capital utilization; (5) based on its information technology construction, paying attention to technological applications including big data and mobile internet; and (6) promoting the internal mechanism reformation and the innovation of business models and deepening the transformation and development of passenger and freight transport operations.

MATERIAL ADVERSE CHANGE

Save as disclosed in the announcement of the Company dated 18 July 2014 in relation to the results estimate of the Group for the first half of 2014, the Directors confirm that there has been no material adverse change in the financial or trading position of the Group since 31 December 2013, being the date to which the latest published audited accounts of the Company have been made up.
