Reverse Stock Split

In addition to the name change, the Registrant plans to execute a one-for-five (1-for-5) reverse stock split effective on Monday, September 29, 2014. As part of the reverse stock split fractional shares may be created for certain shareholders. Any fractional shares created by the reverse stock split shall be redeemed by the Company at a price that is equal to its closing price on September 26, 2014, as adjusted for the reverse stock split.

As part of the reverse stock split, all employee share awards, including both share awards and stock option awards that have been granted but not yet issued, will be adjusted proportionately with respect to number of awards, exercise price for stock options and price-based vesting requirements. This action will not change any other terms of the employee share awards, such as time-based vesting requirements. Furthermore, the maximum number of shares authorized under both employee and non-employee share plans will be reduced proportionately and the maximum authorized shares under the buyback program will be reduced accordingly from seven million to 1.4 million. Following the reverse stock split, the Company's June 30, 2014 common shareholders' equity per share would be approximately \$9.69 and the maximum buyback price used for the Company's buyback program will be increased to \$9.60 per share.
