NOTE ABOUT FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, among other things, statements regarding plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements, which are other than statements of historical facts. Forward-looking statements may appear throughout this report, including without limitation, in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” Forward-looking statements generally can be identified by words such as “anticipates,” “believes,” “estimates,” “expects,” “intends,” “plans,” “predicts,” “projects,” “will be,” “will continue,” “will likely result,” and similar expressions. These forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which could cause our actual results to differ materially from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this Quarterly Report on Form 10-Q and those discussed in other documents we file with the Securities and Exchange Commission (“SEC”). Important factors that in our view could cause material adverse affects on our financial condition and results of operations include, but are not limited to, the risks and uncertainties related to our future operational and financial results, competitive factors, the timing of the openings of other clubs, the availability of acceptable financing to fund corporate expansion efforts, our dependence on key personnel, the ability to manage operations and the future operational strength of management, and the laws governing the operation of adult entertainment businesses. We undertake no obligation to revise or publicly release the results of any revision to any forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

As used herein, the “Company,” “we,” “our,” and similar terms include RCI Hospitality Holdings, Inc. and its subsidiaries, unless the context indicates otherwise.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2015

(UNAUDITED)

1. BASIS OF PRESENTATION AND NAME CHANGE

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q of Regulation S-X. They do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, except as disclosed herein, there has been no material change in the information disclosed in the notes to the consolidated financial statements for the year ended September 30, 2014 included in the Company's Annual Report on Form 10-K, as filed with the Securities and Exchange Commission. The interim unaudited consolidated financial statements should be read in conjunction with those consolidated financial statements included in the Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the nine months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending September 30, 2015.

At the Company’s Annual Meeting of Stockholders on August 6, 2014, stockholders approved changing its name to RCI Hospitality Holdings, Inc. (“RCIHH”).

2. RECENT ACCOUNTING STANDARDS AND PRONOUNCEMENTS

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”), which supersedes nearly all existing revenue recognition guidance under GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing GAAP. The standard is effective for annual periods beginning after December 15, 2016, and interim periods therein, using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional footnote disclosures). The Company is currently evaluating the impact of our pending adoption of ASU 2014-09 on its consolidated financial

statements and have not yet determined the method by which it will adopt the standard in fiscal year 2018.

3. SIGNIFICANT ACCOUNTING POLICIES

Following are certain remarkable accounting principles and disclosures.

Fair Value Accounting

GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

- Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 – Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company classifies its marketable securities as available-for-sale, which are reported at fair value. Unrealized holding gains and losses, net of the related income tax effect, if any, on available-for-sale securities are excluded from income and are reported as accumulated other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available-for-sale are included in income.

The Company measures the fair value of its marketable securities based on quoted prices for identical securities in active markets, or Level 1 inputs. As of June 30, 2015, available-for-sale securities consisted of the following:

(in thousands)	Cost	Gross Unrealized	Fair
Available for Sale	Basis	Gains	Value
Tax-Advantaged Bond Fund	\$ 505	\$ 99	\$ 604

RCI HOSPITALITY HOLDINGS, INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****JUNE 30, 2015****(UNAUDITED)****3. SIGNIFICANT ACCOUNTING POLICIES - continued**

The Company reviews its marketable securities to determine whether a decline in fair value of a security below the cost basis is other than temporary. Should the decline be considered other than temporary, the Company writes down the cost basis of the security and include the loss in current earnings as opposed to an unrealized holding loss. No losses were recognized during the quarter ended June 30, 2015.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below:

(in thousands)	Carrying			
June 30, 2015	Amount	Level 1	Level 2	Level 3
Marketable securities	\$ 604	\$ 604	\$ -	\$ -

(in thousands)	Carrying			
September 30, 2014	Amount	Level 1	Level 2	Level 3
Marketable securities	\$ 596	\$ 596	\$ -	\$ -

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

4. STOCK OPTIONS AND STOCK-BASED EMPLOYEE COMPENSATION***Employee and Director Stock Option Plans***

In 1995, the Company adopted the 1995 Stock Option Plan (the “1995 Plan”) for employees and directors. In August 1999, the Company adopted the 1999 Stock Option Plan (the “1999 Plan”) and in 2010, the Company’s Board of Directors approved the 2010 Stock Option Plan (the “2010 Plan”) (collectively, “the Plans”). The 2010 Plan was approved by the shareholders of the Company at the 2011 Annual Meeting of Shareholders. The options granted under the Plans may be either incentive stock options, or non-qualified options. The Plans are administered by the Board of Directors or by a compensation committee of the Board of Directors. The Board of Directors has the exclusive power to select individuals to receive grants, to establish the terms of the options granted to each participant, provided that the option price shall not be less than the fair market value of the share on the option’s date of grant, and to make all determinations necessary or advisable under the Plans.

The compensation costs recognized for the three months ended June 30, 2015 and 2014 were \$120,012 and \$2,922, respectively, and were \$360,036 and \$156,449 for the nine months then ended, respectively. There were 10,000 stock option exercises aggregating \$87,000 respectively, during the three and nine months ended June 30, 2015. There were 269,665 and 369,665 stock option exercises aggregating \$2.3 million and \$3.1 million, respectively, during the three and nine months ended June 30, 2014. There were no stock option grants for the three and nine months ended June 30, 2015.

6. LONG-TERM DEBT

On January 13, 2015 a Company subsidiary purchased Down in Texas Saloon gentlemen's club in an Austin, Texas suburb. As part of the transaction, another subsidiary also purchased the club's real estate. Total consideration of \$6.8 million consisted of \$3.5 million for the club business and \$3.3 million for its 3.5 acres of real estate. Payment was in the form of \$1 million in cash and \$1.4 million in seller financing at 6% annual interest, with the balance provided by commercial bank financing at a variable interest rate equal to the prime rate plus 2%, but in no event less than 6.5%.

On May 4, 2015 a Company subsidiary purchased The Seville gentlemen's club in Minneapolis Minnesota. As part of the transaction, another subsidiary also purchased the club's real estate. Total consideration of \$8.5 million consisted of \$4.5 million for the assets of the club business and \$4.0 million for the real estate. Payment was made through bank financing of \$5.7 million at 5.5% interest, seller financing of \$1.8 million at 6% and cash of \$1.1 million.

Edgar Filing: RCI HOSPITALITY HOLDINGS, INC. - Form 10-Q

In December 2014, the Company refinanced certain real estate debt amounting to \$2.1 million with new bank debt of \$2.0 million. The new debt is payable \$13,270 per month, including interest at 5.25% and matures in ten years.

In December 2014, the Company borrowed \$1.0 million from an individual. The note is collateralized by certain real estate, is payable \$13,215 per month, including interest at 10% and matures in ten years.

In December 2014, the Company borrowed \$2.0 million from a lender. The 12% note is collateralized by a certain subsidiary's stock and is payable interest only until it matures in three years.

On October 15, 2013, the Company sold to certain investors (i) 9% Convertible Debentures with an aggregate principal amount of \$4,525,000 (the "Debentures"), under the terms and conditions set forth in the Debentures, and (ii) warrants to purchase a total of 72,400 shares of the Company's common stock (the "Warrants"), under the terms and conditions set forth in the Warrants. Each of the Debentures has a term of three years, is convertible into shares of our common stock at a conversion price of \$12.50 per share (subject to adjustment), and has an annual interest rate of 9%, with one initial payment of interest only due April 15, 2014. Thereafter, the principal amount is payable in 10 equal quarterly principal payments, which amounts to a total of \$452,500, plus accrued and unpaid interest. Six months after the issue date of the Debentures, we have the right to redeem the Debentures if the Company's common stock has a closing price of \$16.25 (subject to adjustment) for 20 consecutive trading days. The Warrants have an exercise price of \$12.50 per share (subject to adjustment) and expire on October 15, 2016. In the event there is an effective registration statement registering the shares of common stock underlying the Warrants, we have the right to require exercise of the Warrants if our common stock has a closing price of \$16.25 (subject to adjustment) for 20 consecutive trading days. The Company sold the Debentures and Warrants to the investors in a private transaction and received consideration of \$4,525,000. An adviser to the Company received compensation in the amount of \$271,500 in connection with advising the Company regarding the sale of the Debentures and Warrants.

The fair value of the warrants was estimated to be \$105,318 in accordance with GAAP, using a Black-Scholes option-pricing model using the following weighted average assumptions:

Volatility	28.4	%
Expected life	1.5	years
Expected dividend yield	-	
Risk free rate	.33	%

6. LONG-TERM DEBT – continued

The cost of the warrants has been recognized as a discount on the related debt and was amortized over the life of the debt.

In October 2013 the Company borrowed \$2.5 million from an individual. The note is collateralized by a second lien on the Company's Miami nightclub, bears interest at 13% and interest only is payable monthly until the principal matures in 36 months.

In December 2013 the Company purchased an aircraft for \$4.3 million which was partially financed by a \$3.6 million note to a bank. The note is payable \$40,654 monthly, including interest at 7.45% until February 2017 when the entire principal balance becomes due.

In May 2014, the Company acquired certain real estate in Houston, Texas for the purpose of constructing a corporate headquarters building. The cost of the land was \$707,000 and was partially financed with a \$531,000 note, payable \$18,151 per quarter until May 2019, including interest at 6.5%.

In October 2013, the Company acquired certain real estate in Beaumont, Texas. The cost of the property was \$850,000 and was partially financed with a \$700,000 note, payable \$10,565 per month until October 2020.

7. COMMON STOCK

During the nine months ended June 30, 2015, the Company purchased and retired 225,280 common treasury shares. The cost of these shares was \$2.3 million. These shares have been retired.

During the nine months ended June 30, 2014, the Company converted debt principal and interest valued at \$2.1 million into 211,443 common shares.

During the nine months ended June 30, 2015, the Company converted debt principal and interest valued at \$2.1 million into 205,067 common shares.

During the nine months ended June 30, 2015, the Company issued 200,000 shares of common stock for the acquisition of a controlling interest in Drink Robust, Inc.

8. EARNINGS PER SHARE

The Company computes earnings per share (“EPS”) in accordance with GAAP. GAAP provides for the calculation of basic and diluted earnings per share. Basic earnings per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of the Company.

Potential common stock shares consist of shares that may arise from outstanding dilutive common stock warrants and options (the number of which is computed using the “treasury stock method”) and from outstanding convertible debentures (the number of which is computed using the “if converted method”).

RCI HOSPITALITY HOLDINGS, INC. AND SUBSIDIARIES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****JUNE 30, 2015****(UNAUDITED)****8. EARNINGS PER SHARE (“EPS”) - continued**

Diluted EPS considers the potential dilution that could occur if the Company’s outstanding common stock options, warrants and convertible debentures were converted into common stock that then shared in the Company’s earnings (as adjusted for interest expense that would no longer occur if the debentures were converted).

11. COMMITMENTS AND CONTINGENCIES

Legal Matters

Texas Patron Tax

The Company has reached a settlement with the State of Texas over payment of the state's Patron Tax on adult club customers. To resolve the issue of taxes owed, the Company agreed to pay \$10.0 million in equal monthly installments of \$119,000, without interest, over the next 84 months for all but two non settled locations. Going forward, the Company agreed to remit the Patron Tax on a monthly basis, based on the current rate of \$5 per customer. For accounting purposes, the Company has discounted the \$10.0 million at an imputed interest rate of 9.6%, establishing a net present value for the settlement of \$7.2 million. This is included as long-term debt in the consolidated balance sheets. As a consequence, the Company has recorded an \$8.2 million pre-tax gain for the third quarter ending June 30, 2015, representing the difference between the \$7.2 million and the amount previously accrued for the tax.

New York Settlement

On April 1, 2015, we and our subsidiaries, RCI Entertainment (New York), Inc. and Peregrine Enterprises, Inc., entered into an agreement to settle in full a New York based federal wage and hour class action case filed in the United States District Court for the Southern District of New York. The settlement has been filed with the court for preliminary approval. Trial was scheduled to begin April 27, 2015. Under terms of the agreement, RCI Entertainment (New York), Inc. and Peregrine Enterprises, Inc. will make up to \$15 million available to class members and their attorneys. The actual amount paid will be determined based on the number of class members responding by the end of a three-month notice period, with final court approval expected sometime after that. Any unclaimed checks or payments will revert back to our subsidiaries. Based on the current schedule, an initial payment of \$1,833,333 will be made in approximately five months, with two subsequent payments of \$1,833,333 each being made in equal annual installments. As part of the settlement, we were required to guarantee the obligations of RCI Entertainment (New

York), Inc. and Peregrine Enterprises, Inc. under the settlement.

Filed in 2009, the case claimed Rick's Cabaret New York misclassified entertainers as independent contractors. Plaintiffs sought minimum wage for the hours they danced and return of certain fees. RCI Entertainment (New York), Inc. and Peregrine Enterprises, Inc. maintained the dancers were properly classified, and alternatively, amounts earned were well in excess of the minimum wage and should satisfy any obligations.

In accordance with GAAP, the Company has accrued \$10.3 million as of June 30, 2015 as the estimated liability for its obligations under the settlement. This is included as accrued liabilities in the consolidated balance sheets.

Indemnity Insurance Corporation

As previously reported, the Company and its subsidiaries were insured under a liability policy issued by Indemnity Insurance Corporation, RRG ("IIC") through October 25, 2013. The Company and its subsidiaries changed insurance companies on that date.

On November 7, 2013, the Court of Chancery of the State of Delaware entered a Rehabilitation and Injunction Order ("Rehabilitation Order"), which declared IIC impaired, insolvent and in an unsafe condition and placed IIC under the supervision of the Insurance Commissioner of the State of Delaware ("Commissioner") in her capacity as receiver ("Receiver"). The Rehabilitation Order empowered the Commissioner to rehabilitate IIC through a variety of means, including gathering assets and marshaling those assets as necessary. Further, the order stayed or abated pending lawsuits involving IIC as the insurer until May 6, 2014. Since the expiration of the order the lawsuits have resumed. We are funding 100% of the costs of litigation and will seek reimbursement from the bankruptcy receiver.

On April 10, 2014, the Court of Chancery of the State of Delaware entered a Liquidation and Injunction Order With Bar Date ("Liquidation Order"), which ordered the liquidation of IIC and terminated all insurance policies or contracts of insurance issued by IIC. The Liquidation Order further ordered that all claims against IIC must be filed with the Receiver before the close of business on January 16, 2015 and that all pending lawsuits involving IIC as the insurer are further stayed or abated until October 7, 2014. As a result, the Company and its subsidiaries no longer have insurance coverage under the liability policy with IIC. Currently, there are multiple civil lawsuits pending or threatened against the Company and its subsidiaries; and other potential lawsuits for incidents that occurred before October 25, 2013 could still be filed. The Company has retained counsel to defend against and evaluate these claims and lawsuits. The Company filed the appropriate claims against IIC with the Receiver before the January 16, 2015 deadline. However, there are no assurances of any recovery from these claims. It is unknown at this time what effect this uncertainty will have on the Company. As previously stated, the Company has obtained general liability coverage from another insurer, effective October 25, 2013, which will cover any claims arising from actions after that date.

Settlement of lawsuits and other one-time costs include no payments during the quarters ended June 30, 2015 and 2014 in settlements with claimants which were unpaid by our general liability insurance carrier.

11. COMMITMENTS AND CONTINGENCIES - continued

Settlement of lawsuits and other one-time costs for the nine months ended June 30, 2014 include a \$2 million settlement with a claimant which was unpaid by our general liability insurance carrier. We will be filing a claim with the insurance company's estate and with the state's insurance fund for this settlement.

12. WARRANTS ISSUED

In February 2014, the Company issued warrants to acquire 100,000 shares of Company common shares to a financial adviser. The exercise price of the warrants was \$11.77, the market price of the shares at the time. The warrants were exercisable immediately and expire in two years. The fair value of the warrants, which was entirely charged to expense upon issuance, was estimated to be \$147,683 in accordance with FASB ASC 820, *Fair Value Measurements*, using a Black-Scholes option-pricing model using the following weighted average assumptions:

Volatility	31.5	%
Expected life	1.0	years
Expected dividend yield	-	
Risk free rate	.12	%

13. RESTRICTED STOCK ISSUANCE

In July 2014, the Company granted to an executive officer and an officer of a subsidiary an aggregate total of 96,325 shares of restricted stock. The total grant date fair value of all of these awards was \$938,478 and vest in two years. Restricted stock awards are awards of common stock that are subject to restrictions on transfer and to a risk of forfeiture if the awardee terminates employment with the Company prior to the lapse of the restrictions. The fair value of such stock was determined using the closing price on the grant date and compensation expense is recorded over the

applicable vesting periods. Forfeitures are recognized as a reversal of expense of any unvested amounts in the period incurred. Unamortized expense amounted to \$500,513 at June 30, 2015. The compensation cost recognized for the nine months ended June 30, 2015 was \$360,036.

15. SUBSEQUENT EVENTS

On July 28, 2015, a subsidiary of the Company acquired the building in which the Company's Miami Gardens, Florida nightclub operates. The cost was \$15,300,000 and was purchased with an \$11,325,000 note, payable in monthly installments of approximately \$78,000, including interest at 5.45% and matures in five years and the balance with cash. The building has several other third-party tenants in addition to the Company's nightclub.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with our audited consolidated financial statements and related notes thereto included in this quarterly report.

GENERAL

At the Company’s Annual Meeting of Stockholders on August 6, 2014, its name was officially changed from Rick’s Cabaret International, Inc. to RCI Hospitality Holdings, Inc. RCI Hospitality Holdings, Inc. (sometimes referred to as RCIHH herein) was incorporated in the State of Texas in 1994. Through our subsidiaries, as of July 31, 2015, we operate a total of forty-five establishments that offer live adult entertainment, and/or restaurant and bar operations. CRITICAL ACCOUNTING POLICIES

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles of the United States of America ("GAAP"). GAAP consists of a set of standards issued by the FASB and other authoritative bodies in the form of FASB Statements, Interpretations, FASB Staff Positions, Emerging Issues Task Force consensuses and American Institute of Certified Public Accountants Statements of Position, among others. The Company has updated references to GAAP in this Form 10-Q to reflect the guidance in the ASC. The preparation of these consolidated financial statements requires our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On a regular basis, we evaluate these estimates, including investment impairment. These estimates are based on management's historical industry experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Property and Equipment

Property and equipment are stated at cost. Provisions for depreciation and amortization are made using straight-line rates over the estimated useful lives of the related assets and the shorter of useful lives or terms of the applicable leases for leasehold improvements. Buildings have estimated useful lives ranging from 29 to 40 years. Furniture, equipment and leasehold improvements have estimated useful lives between five and 40 years. Expenditures for major renewals and betterments that extend the useful lives are capitalized. Expenditures for normal maintenance and repairs are expensed as incurred. The cost of assets sold or abandoned and the related accumulated depreciation are eliminated from the accounts and any gains or losses are charged or credited in the accompanying consolidated statement of income of the respective period.

Goodwill and Intangible Assets

GAAP addresses the accounting for goodwill and other intangible assets. Goodwill and intangible assets with indefinite lives are no longer amortized, but reviewed on an annual basis for impairment. Definite lived intangible assets are amortized on a straight-line basis over their estimated lives. Fully amortized assets are written-off against

accumulated amortization.

Impairment of Long-Lived Assets

In accordance with GAAP, long-lived assets, such as property, plant, and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposal group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

Goodwill and intangible assets that have indefinite useful lives are tested annually for impairment, and are tested for impairment more frequently if events and circumstances indicate that the asset might be impaired in accordance with GAAP. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value.

For goodwill, the impairment determination is made at the reporting unit level. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill.

Fair Value of Financial Instruments

The Company calculates the fair value of its assets and liabilities which qualify as financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of these financial instruments. The estimated fair value of accounts receivable, accounts payable and accrued liabilities approximate their carrying amounts due to the relatively short maturity of these instruments. The carrying value of short and long-term debt also approximates fair value since these instruments bear market rates of interest. None of these instruments are held for trading purposes.

Revenue Recognition

The Company recognizes revenue from the sale of alcoholic beverages, food and merchandise, other revenues and services at the point-of-sale upon receipt of cash, check, or credit card charge.

The Company recognizes Internet revenue from monthly subscriptions to its online entertainment sites when notification of a new or existing subscription and its related fee are received from the third party hosting company or from the credit card company, usually two to three days after the transaction has occurred. The monthly fee is not refundable. The Company recognizes Internet auction revenue when payment is received from the credit card as revenues are not deemed estimable nor collection deemed probable prior to that point.

Revenues from the sale of magazines and advertising content are recognized when the issue is published and shipped. Revenues and external expenses related to the Company's annual Expo convention are recognized upon the completion of the convention in August.

Income Taxes

Deferred income taxes are determined using the liability method in accordance with GAAP. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In addition, a valuation allowance is established to reduce any deferred tax asset for which it is determined that it is more likely than not that some portion of the deferred tax asset will not be realized.

GAAP creates a single model to address accounting for uncertainty in tax positions by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. GAAP also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. There are no unrecognized tax benefits to disclose in the notes to the consolidated financial statements.

Stock-Based Compensation

The compensation cost recognized for the nine months ended June 30, 2015 and 2014 was \$360,036 (from restricted stock) and \$156,449 (from options), respectively. There were 10,000 and 100,000 stock options exercised during the nine months ended June 30, 2015 and 2014, aggregating \$87,000 and \$843,600, respectively.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2015 AS COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2014

For the three months ended June 30, 2015, we had consolidated total revenues of \$35.8 million compared to consolidated total revenues of \$33.3 million for the three months ended June 30, 2014, an increase of \$2.5 million or 7.3%. The increase in total revenues was primarily attributable to clubs acquired during the last year with a 5.3% decrease in same-store sales. Total revenues for same location same period decreased to \$30.2 million in 2015 from \$31.9 million in 2014.

Following is an explanation of significant variances in the above amounts.

Service revenues include cover charges, fees paid by entertainers, room rentals, memberships and fees charged for credit card processing. Other revenues include ATM commissions earned, video games and other vending and certain promotion fees charged to our entertainers. We recognize revenue from other revenues and services at the point-of-sale upon receipt of cash, check, or credit card charge.

Cost of goods sold includes cost of alcoholic and non-alcoholic beverages, food, cigars and cigarettes, merchandise, media printing/binding and media postage. The cost of goods sold percentage increase is due to the increase in revenues of the restaurant/bar segment which has higher cost of goods sold than the nightclub segment. The cost of goods sold for the club operations was 11.9% for each of the three months ended June 30, 2015 and 2014. The cost of goods sold for same-location-same-period of club operations for the three months ended June 30, 2015 was 12.6%, compared to 12.3% for the same period ended June 30, 2014.

Payroll for same-location-same-period of club operations was \$5.7 million for each of the three months ended June 30, 2015 and 2014. Management currently believes that its labor and management staff levels are appropriate.

The decrease in the percentage of rent expense to revenues is principally due to the sale/closure of certain clubs in the last year.

The decrease in legal and professional expense is principally due to the settlement in the second quarter of the labor lawsuit in New York which was more active in the 2014 quarter. Also see Note 11 of Notes to Consolidated Financial Statements for more information regarding our former general liability insurer.

The decrease in insurance expense is principally due to a general liability insurance premium decrease in the current fiscal year compared to the prior year. Also see Note 11 of Notes to Consolidated Financial Statements for more information regarding our former general liability insurer.

The increase in depreciation and amortization is due to an increase in assets due to acquisitions and new restaurant openings and also due to the amortization of the definite lived intangibles acquired in the Drink Robust acquisition.

Settlement of lawsuits and other one-time costs in 2014 include a \$2 million settlement with a claimant which was unpaid by our general liability insurance carrier. We will be filing a claim with the insurance company's estate and with the state's insurance fund for this settlement. Also included is \$775,000 to settle a previously-disclosed claim by the state of Nevada for \$2.1 million in Live Entertainment Tax. The Company does not believe it was subject to the Live Entertainment Tax, but to avoid further litigation, agreed to settle this contingency during June 2014. This amount has been expensed and paid in June 2014.

See Note 11 of Notes to Consolidated Financial Statements for an explanation of the gain on settlement of patron tax issue.

Income taxes, as a percentage of income before taxes was 35.5% and 24.4% for the quarters ended June 30, 2015 and 2014, respectively. The small percentage in 2014 is principally due to the tax deductions from exercised stock options.

Operating income (exclusive of corporate overhead) for same-location-same-period unit operations was \$15.0 million for the quarter ended June 30, 2015 compared to \$7.3 million for the quarter ended June 30, 2014. The 2015 period was favorably affected by \$8.2 million in gain on settlement of patron tax issue.

Our "operating margin", the percentage of operating income to total revenues, was 39.6% and 8.7% for the quarters ended June 30, 2015 and 2014, respectively. See non-GAAP financial measures for further analysis of our operating income.

RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED JUNE 30, 2015 AS COMPARED TO THE NINE MONTHS ENDED JUNE 30, 2014

For the nine months ended June 30, 2015, we had consolidated total revenues of \$109.7 million compared to consolidated total revenues of \$95.6 million for the nine months ended June 30, 2014, an increase of \$14.1 million or 14.7%. Total revenues for same location same period increased to \$84.3 million in 2015 from \$83.8 million in 2014.

Following is an explanation of significant variances in the above amounts.

Service revenues include cover charges, fees paid by entertainers, room rentals, memberships and fees charged for credit card processing. Other revenues include ATM commissions earned, video games and other vending and certain promotion fees charged to our entertainers. We recognize revenue from other revenues and services at the point-of-sale upon receipt of cash, check, or credit card charge.

Cost of goods sold includes cost of alcoholic and non-alcoholic beverages, food, cigars and cigarettes, merchandise, media printing/binding, media postage and internet traffic purchases and webmaster payouts. The cost of goods sold percentage increase is due to the increase in revenues of the restaurant/bar segment which has higher cost of goods sold than the nightclub segment. The cost of goods sold for the club operations for the nine months ended June 30, 2015 was 11.9% for each of the nine months ended June 30, 2015 and 2014. The cost of goods sold for same-location-same-period of all unit operations for the nine months ended June 30, 2015 was 12.4%, compared to 12.1% for the same period ended June 30, 2014.

Payroll for same-location-same-period of club operations was \$15.0 million for the nine months ended June 30, 2015 and \$14.5 million for the same period in 2014. Management currently believes that its labor and management staff levels are appropriate.

The decrease in the percentage of rent expense to revenues is principally due to the sale/closure of certain clubs in the last year.

The increase in legal and professional expense is principally due to the labor lawsuit in New York which was active and settled in 2015.

The decrease in insurance expense is principally due to a general liability insurance premium decrease in the current fiscal year compared to the prior year. Also see Note 11 of Notes to Consolidated Financial Statements for more information regarding our former general liability insurer.

The increase in depreciation and amortization is due to an increase in assets due to acquisitions and new restaurant openings and also due to the amortization of the definite lived intangibles acquired in the Drink Robust acquisition.

During the quarter ended December 31, 2014, we recorded an impairment of \$1.4 million for the indefinite-lived intangible assets at our Temptations Cabaret in Lubbock.

See Note 11 of Notes to Consolidated Financial Statements for an explanation of the settlement of a lawsuit in 2015.

See Note 11 of Notes to Consolidated Financial Statements for an explanation of the gain on settlement of patron tax issue.

Income taxes, as a percentage of income before taxes was 37.9% and 34.2% for the nine months ended June 30, 2015 and 2014, respectively. The lower rate in 2014 is principally due to the tax deductions from exercised stock options in 2014.

Operating income (exclusive of corporate overhead) for same-location-same-period of all units operations decreased to \$19.2 million for the nine months ended June 30, 2015 from to \$21.2 million for same period ended June 30, 2014, or by 10.0%. See non-GAAP financial measures for further analysis of our operating income.

Our “operating margin”, the percentage of operating income to total revenues, was 16.1% and 16.7% for the nine months ended June 30, 2015 and 2014, respectively. See non-GAAP financial measures for further analysis of our operating income.

SEGMENT INFORMATION

Edgar Filing: RCI HOSPITALITY HOLDINGS, INC. - Form 10-Q

The Company is engaged in adult nightclubs and Bombshells Restaurants and Bars. The Company has identified such segments based on management responsibility and the nature of the Company's products, services and costs. There are no major distinctions in geographical areas served as all operations are in the United States. The Company measures segment profit (loss) as income (loss) from operations.

Below is the financial information related to the Company's segments:

We had only one Bombshells open as of December 31, 2013. As of June 30, 2015, we had five Bombshells. Therefore, the Bombshells brand was immature as of June 30, 2014 and was beginning to mature into a profitable segment by June 30, 2015.

Nightclubs operating income above is reduced by \$10.3 million settlement of lawsuits and one-time costs for the nine months ended June 30, 2015.

Non-GAAP Financial Measures

In addition to our financial information presented in accordance with GAAP, management uses certain “non-GAAP financial measures” within the meaning of the SEC Regulation G, to clarify and enhance understanding of past performance and prospects for the future. Generally, a non-GAAP financial measure is a numerical measure of a company’s operating performance, financial position or cash flows that excludes or includes amounts that are included in or excluded from the most directly comparable measure calculated and presented in accordance with GAAP. We monitor non-GAAP financial measures because it describes the operating performance of the company and helps management and investors gauge our ability to generate cash flow, excluding some recurring charges that are included in the most directly comparable measures calculated and presented in accordance with GAAP. Relative to each of the non-GAAP financial measures, we further set forth our rationale as follows:

Non-GAAP Operating Income and Non-GAAP Operating Margin. We exclude from non-GAAP operating income and non-GAAP operating margin amortization of intangibles, gain on settlement of patron tax case, pre-opening costs, gains and losses from asset sales, stock-based compensation charges, litigation and other one-time legal settlements and acquisition costs. We believe that excluding these items assists investors in evaluating period-over-period changes in our operating income and operating margin without the impact of items that are not a result of our day-to-day business and operations. While we were in litigation in the patron tax case, we also included patron taxes as an exclusion, but after settlement of the case, we no longer exclude patron taxes from operating income.

Non-GAAP Net Income and Non-GAAP Net Income per Basic Share and per Diluted Share . We exclude from non-GAAP net income and non-GAAP net income per diluted share and per basic share amortization of intangibles, gain on settlement of patron tax case, pre-opening costs, income tax expense, impairment charges, gains and losses from asset sales, stock-based compensation, litigation and other one-time legal settlements and acquisition costs, and include the Non-GAAP provision for income taxes, calculated as the tax-effect at 35% effective tax rate of the pre-tax non-GAAP income before taxes less stock-based compensation, because we believe that excluding such measures helps management and investors better understand our operating activities. While we were in litigation in the patron tax case, we also included patron taxes as an exclusion, but after settlement of the case, we no longer exclude patron taxes from net income.

Adjusted EBITDA . We exclude from Adjusted EBITDA depreciation expense, amortization of intangibles, income tax, interest expense, interest income, gains and losses from asset sales, acquisition costs, litigation and other one-time legal settlements, gain on settlement of patron tax case and impairment charges because we believe that adjusting for such items helps management and investors better understand operating activities. Adjusted EBITDA provides a core operational performance measurement that compares results without the need to adjust for Federal, state and local

taxes which have considerable variation between domestic jurisdictions. Also, we exclude interest cost in our calculation of Adjusted EBITDA. The results are, therefore, without consideration of financing alternatives of capital employed. We use Adjusted EBITDA as one guideline to assess our unleveraged performance return on our investments. Adjusted EBITDA is also the target benchmark for our acquisitions of nightclubs.

The following tables present our non-GAAP measures for the periods ended June 30, 2015 and 2014 (in thousands, except per share amounts):

LIQUIDITY AND CAPITAL RESOURCES

We believe our ability to generate cash from operating activities is one of our fundamental financial strengths. Refer to the heading "Cash Flows from Operating Activities" below. The near-term outlook for our business remains strong, and we expect to generate substantial cash flows from operations in 2015. As a result of our expected cash flows from operations, we have significant flexibility to meet our financial commitments. The Company has not recently raised capital through the issuance of equity securities. Instead, we use debt financing to lower our overall cost of capital and increase our return on shareowners' equity. Refer to the heading "Cash Flows from Financing Activities" below. We have a history of borrowing funds in private transactions, from sellers in acquisition transactions and recently from banks, and continue to have the ability to borrow funds at reasonable interest rates in that manner. We have historically utilized these cash flows to invest in property and equipment, adult nightclubs and restaurant/bars. Refer to the heading "Cash Flows from Investing Activities" below.

As of June 30, 2015, we had a working capital deficit of \$1.7 million compared to working capital deficit of \$15.8 million as of September 30, 2014. The decrease in deficit is principally due the following items:

Decrease in liabilities due to the settlement of the patron tax issue and reclassification of a portion of the settlement to long-term debt.

Net cash flow for the nine months.

Increase in liabilities due to the settlement of the New York lawsuit.

Some of the current portion of debt is convertible debt and it is anticipated that it will be redeemed with common shares. Because of the large volume of cash we handle, stringent cash controls have been implemented. At June 30, 2015, our cash and cash equivalents were \$14.7 million compared to \$10.0 million at September 30, 2014. We have been reserving excess cash flow for several months to utilize in the acquisition of the real estate for our Miami Gardens location and to pay the New York wage and hour litigation settlement. We have the ability to borrow necessary funds, if needed, for these.

Our depreciation for the quarter ended June 30, 2015 was \$1.6 million compared to \$1.5 million for the quarter ended June 30, 2014. Our amortization for the quarter ended June 30, 2015 was \$312,000 compared to \$82,000 for the quarter ended June 30, 2014.

Sources and Use of Funds

Cash flows from operating activities are generally the result of net income adjusted for depreciation and amortization expenses, deferred taxes, (increases) decreases in accounts receivable, inventories and prepaid expenses and increases (decreases) in accounts payable and accrued liabilities. See a summary of these activities below.

Cash flows used in investing activities generally reflect payments relating to acquisitions of businesses, property and equipment and marketable securities. See a summary of these activities below.

Cash flows from financing activities generally reflect proceeds from issuance of shares and long-term debt, and payments on debt and put options and purchase of treasury stock. See a summary of these activities below.

We are not aware of any event or trend that would potentially affect liquidity. In the event such a trend develops, we believe our working capital and capital expenditure requirements will be adequately met by cash flows from operations. In our opinion, working capital is not a true indicator of our financial status. Typically, businesses in our industry carry current liabilities in excess of current assets because businesses in our industry receive substantially immediate payment for sales, with nominal receivables, while inventories and other current liabilities normally carry longer payment terms. Vendors and purveyors often remain flexible with payment terms, providing businesses in our industry with opportunities to adjust to short-term business down turns. We consider the primary indicators of financial status to be the long-term trend of revenue growth, the mix of sales revenues, overall cash flow, profitability from operations and the level of long-term debt.

The following table presents a summary of such indicators for the nine months ended June 30:

(in thousands)	2015	Increase	
		(Decrease)	2014
Sales of alcoholic beverages	\$45,963	20.0	% \$38,300

Share repurchase

On September 29, 2008, our Board of Directors authorized us to repurchase up to \$5 million worth of our common stock in the open market. As of April 2013, we completed the repurchase of all \$5 million in stock authorized under this plan. On April 25, 2013, our Board of Directors authorized us to repurchase up to an additional \$3 million worth of our common stock in the open market or in privately negotiated transactions. During May 2014, our Board of Directors increased the repurchase authorization to \$10 million. During the quarter ended June 30, 2015, we purchased 32,853 shares of common stock in the open market for an aggregate cost of \$370,799. Under the Board's authority, we have \$6.6 million remaining to purchase additional shares as of June 30, 2015.

Other Liquidity and Capital Resources

We have not established lines of credit or financing other than the notes payable and our existing debt. There can be no assurance that we will be able to obtain additional financing on reasonable terms in the future, if at all, should the need arise.

We believe that the adult entertainment industry standard of treating entertainers as independent contractors provides us with safe harbor protection to preclude payroll tax assessment for prior years. We have prepared plans that we believe will protect our profitability in the event that sexually oriented business industry is required in all states to convert dancers who are now independent contractors into employees.

The sexually oriented business industry is highly competitive with respect to price, service and location, as well as the professionalism of the entertainment. Although management believes that we are well-positioned to compete successfully in the future, there can be no assurance that we will be able to maintain our high level of name recognition and prestige within the marketplace.

IMPACT OF INFLATION

We have not experienced a material overall impact from inflation in our operations during the past several years. To the extent permitted by competition, we have managed to recover increased costs through price increases and may continue to do so. However, there can be no assurance that we will be able to do so in the future.

SEASONALITY

Our nightclub operations are affected by seasonal factors. Historically, we have experienced reduced revenues from April through September with the strongest operating results occurring during October through March.

GROWTH STRATEGY

We believe that our nightclub operations can continue to grow organically and through careful entry into markets and demographic segments with high growth potential. Our growth strategy is: (a) to open new clubs after market analysis, (b) to acquire existing clubs in locations that are consistent with our growth and income targets and which appear receptive to the upscale club formula we have developed, (c) to form joint ventures or partnerships to reduce start-up and operating costs, with us contributing equity in the form of our brand name and management expertise, (d) to develop new club concepts that are consistent with our management and marketing skills, (e) to develop and open our restaurant concepts as our capital and manpower allow, and/or (f) to control the real estate in connection with club operations, although some clubs may be in leased premises.

During fiscal 2013, in addition to the real estate explained in the previous paragraph, we have acquired an existing licensed location for \$3,000,000 (\$1.5 million in cash and the balance in promissory notes). This location was remodeled and opened in January 2014. We also acquired the remaining 50% of an unopened club for \$863,000 of common stock in May 2013. We also acquired another club for \$300,000 in cash. We previously had acquired the real estate for this location.

In October 2013, the Company purchased 49 percent of a corporation that operates the Dallas club “PT’s Platinum” and also acquired the building and personal property. Total cost of the transaction was \$500,000. During fiscal 2013, in addition to the real estate explained in the previous paragraph, we have acquired an existing licensed location for \$3,000,000 (\$1.5 million in cash and the balance in promissory notes). This location was being remodeled and opened in 2013. We also acquired the remaining 50% of an unopened club for \$863,000 of common stock in May 2013. We also acquired another club for \$300,000 in cash. We previously had acquired the real estate for this location. We also opened two bar/restaurants in 2013.

During fiscal 2014, we acquired 49% of an adult club, including the building in which it operates, for \$500,000. We also opened two more bar/restaurants in fiscal 2014 and opened another in November 2014.

On October 30, 2014, a 51% owned subsidiary of the Company (“Robust”) acquired certain assets and liabilities of Robust Energy LLC for \$200,000 in cash and 200,000 shares of its common stock for a total purchase price of \$5.0 million. The Company has also agreed to issue 50,000 shares of RCIHH common stock to the two principals of Robust Energy LLC if Robust has net income of at least \$1 million during the 2015 calendar year. Robust is an energy drink distributor, targeting the on premises bar and mixer market.

On January 13, 2015 a Company subsidiary purchased Down in Texas Saloon gentlemen’s club in an Austin, Texas suburb. As part of the transaction, another subsidiary also purchased the club’s real estate. Total consideration of \$6.8

million consisted of \$3.5 million for the club business and \$3.3 million for its 3.5 acres of real estate. Payment was in the form of \$1 million in cash and \$1.4 million in seller financing at 6% annual interest, with the balance provided by commercial bank financing at a variable interest rate equal to the prime rate plus 2%, but in no event less than 6.5%.

On May 4, 2015 a Company subsidiary purchased The Seville gentlemen's club in Minneapolis Minnesota. As part of the transaction, another subsidiary also purchased the club's real estate. Total consideration of \$8.5 million consisted of \$4.5 million for the assets of the club business and \$4.0 million for the real estate. Payment was made through bank financing of \$5.7 million at 5.5% interest, seller financing of \$1.8 million at 6% and cash of \$1.1 million.

Principally during 2014 and 2015, we have opened five Bombshells. We are considering other locations to add to our Bombshells division.

We continue to evaluate opportunities to acquire new nightclubs and anticipate acquiring new locations that fit our business model as we have done in the past. The acquisition of additional clubs will require us to obtain additional debt or issuance of our common stock, or both. There can be no assurance that we will be able to obtain additional financing on reasonable terms in the future, if at all, should the need arise. An inability to obtain such additional financing could have an adverse effect on our growth strategy.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As of June 30, 2015, there were no material changes to the information provided in Item 7A of the Company's Annual Report on Form 10-K for fiscal year ended September 30, 2014.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of the Company's senior management, including the Company's chief executive officer and chief financial officer, the Company conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this quarterly report (the "Evaluation Date"). Based on this evaluation, the Company's chief executive officer and chief financial officer concluded as of the Evaluation Date that the Company's disclosure controls and procedures were effective such that the information relating to the Company, including consolidated subsidiaries, required to be disclosed in the Company's Securities and Exchange Commission ("SEC") reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the Company's management, including the Company's chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2015 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

See "Legal Matters" under Note 11 of Notes to Consolidated Financial Statements above, which information is incorporated herein by reference.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended September 30, 2014, as such factors could materially affect the Company's business, financial condition or future results. In the three months ended June 30, 2015, there were no material changes to the risk factors disclosed in the Company's 2014 Annual Report on Form 10-K. The risks described in the Annual Report on Form 10-K are not the only risks the Company faces. Additional risks and uncertainties not currently known to the Company, or that the Company deems to be immaterial, also may have a material adverse impact on the Company's business, financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On September 29, 2008, our Board of Directors authorized us to repurchase up to \$5 million worth of our common stock in the open market. As of April 2013, we completed the repurchase of all \$5 million in stock authorized under this plan. On April 25, 2013, our Board of Directors authorized us to repurchase up to an additional \$3 million worth of our common stock in the open market or in privately negotiated transactions. During May 2014, our Board of Directors increased the repurchase authorization to \$10 million. During the quarter ended June 30, 2015, we purchased 32,853 shares of common stock in the open market for an aggregate cost of \$370,799. Under the Board's authority, we have \$6.6 million remaining to purchase additional shares as of June 30, 2015.
