CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

China HGS Real Estate, Inc. (“China HGS” or the “Company” or “we”, “us”, “our”), through its subsidiaries and variable interest entity (“VIE”), engages in real estate development, and the construction and sales of residential apartments, parking space and commercial properties in Tier 3 and Tier 4 cities and counties in China.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the U.S. generally accepted accounting principles (“GAAP”) for interim financial information and the requirement of Article 8 of Regulation S-X of the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2015 and 2014 are not necessarily indicative of the results that may be expected for the full year. The information included in this Form 10-Q should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2015 filed with the SEC on December 18, 2015.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

The unaudited condensed consolidated financial statements include the financial statements of China HGS Real Estate Inc. (the “Company” or “China HGS”), China HGS Investment Inc. (“HGS Investment”), Shaanxi HGS Management and Consulting Co., Ltd. (“Shaanxi HGS”) and its variable interest entity (“VIE”), Shaanxi Guangsha Investment and Development Group Co., Ltd. (“Guangsha”). All inter-company transactions and balances between the Company and its subsidiaries have been eliminated upon consolidation.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the consolidated financial statements. Estimates are used for, but not limited to, the assumptions and estimates used by management in recognizing development revenue under the percentage of completion method, the selection of the useful lives of property and equipment, provision necessary for contingent liabilities, fair values, revenue recognition, income taxes, budgeted costs, share-based compensation and other similar charges. Management believes that the estimates utilized in preparing its consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value of financial instruments

The Company follows the provisions of Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures. It clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs which reflect the reporting entity’s own assumptions or what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts reported in the accompanying condensed consolidated balance sheets for cash, restricted cash, advances to vendors, security deposits for land use rights, other current assets, accounts payable, short-term loans, other payables, customer deposits, accrued expenses and taxes payable approximate their fair value based on the short-term maturity of these instruments. The fair value of the long term customer, construction and security deposits approximate their carrying amounts because the deposits are received in cash. It was impractical to estimate the fair value of the amount due from the local government and the long term loan payable.

Revenue recognition

Percentage of Completion method

Real estate sales for the long term real estate projects are recognized under percentage completion method in accordance with the provisions of ASC 360-20-40D “Sale of Condominium Units”. Revenue and profit from the sales of long term development properties is recognized by the percentage of completion method on the sale of individual units when all the following criteria are met:

- a. Construction is beyond a preliminary stage.
- b. The buyer is committed to the extent of being unable to require a refund except for non-delivery of the unit or interest.
- c. Sufficient units have already been sold to assure that the entire property will not revert to rental property.
- d. Sales prices are collectible.
- e. Aggregate sales proceeds and costs can be reasonably estimated.

If any of the above criteria is not met, proceeds shall be accounted for as deposits until the criteria are met.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition - continued

Percentage of Completion method

Under the percentage of completion method, revenues from condominium units sold and related costs are recognized over the course of the construction period, based on the completion progress of a project. In relation to any project, revenue is determined by calculating the ratio of incurred costs, including land use rights costs and construction costs, to total estimated costs and applying that ratio to the contracted sales amounts. Cost of sales is recognized by determining the ratio of contracted sales during the period to total estimated sales value, and applying that ratio to the incurred costs. Current period amounts are calculated based on the difference between the life-to-date project totals and the previously recognized amounts.

Any changes in significant judgments and/or estimates used in determining construction and development revenue could significantly change the timing or amount of construction and development revenue recognized. Changes in total estimated project costs or losses, if any, are recognized in the period in which they are determined.

Full accrual method

Revenue from the sales of short term development properties, where the construction period is expected to be 18 months or less is recognized by the full accrual method at the time of the closing of an individual unit sale. This occurs when title to or possession of the property is transferred to the buyer. A sale is not considered consummated until (a) the parties are bound by the terms of a contract, (b) all consideration has been exchanged, (c) any permanent financing for which the seller is responsible has been arranged, (d) all conditions precedent to closing have been performed, (e) the seller does not have substantial continuing involvement with the property, and (f) the usual risks and rewards of ownership have been transferred to the buyer. Further, the buyer's initial and continuing investment is adequate to demonstrate a commitment to pay for the property.

The Company provides “mortgage loan guarantees” only with respect to buyers who make down-payments of 30%-50% of the total purchase price of the property. The period of the mortgage loan guarantee begins on the date the bank approves the buyer’s mortgage and we receives the loan proceeds in our bank account and ends on the date the “Certificate of Ownership” evidencing that title to the property has been transferred to the buyer. The procedures to obtain the Certificate of Ownership take six to twelve months (the “Mortgage Loan Guarantee Period”). If, after investigation of the buyer’s income and other relevant factors, the bank decides not to grant the mortgage loan, our mortgage-loan based sales contract terminates and there will be no guarantee obligation. If, during the Mortgage Loan Guarantee Period, the buyer defaults on his or her monthly mortgage payment for three consecutive months, we are required to return the loan proceeds back to the bank, although we have the right to keep the customer's deposit and resell the property to a third party. Once the Certificate of Property has been issued by the relevant government authority, our loan guarantee terminates. If the buyer then defaults on his or her mortgage loan, the bank has the right to take the property back and sell it and use the proceeds to pay off the loan. The Company is not liable for any shortfall that the bank may incur in this event. To date, no buyer has defaulted on his or her mortgage payments during the Mortgage Loan Guarantee Period and the Company has not returned any loan proceeds pursuant to its mortgage loan guarantees.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition - continued

Full accrual method

For municipal road construction projects, fees are generally recognized by the full accrual method at the time the projects are completed.

Foreign currency translation

The Company's financial information is presented in U.S. dollars. The functional currency of the Company's operating subsidiaries is Renminbi ("RMB"), the currency of the PRC. The financial statements of the Company have been translated into U.S. dollars in accordance with ASC 830-30 "Translation of Financial Statements". The financial information is first prepared in RMB and then is translated into U.S. dollars at year-end exchange rates as to assets and liabilities and average exchange rates as to revenue and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. The effects of foreign currency translation adjustments are included as a component of accumulated other comprehensive income in stockholders' equity.

	For three months ended December 31,		September 30,
	2015	2014	2015
Period end RMB : USD exchange rate	6.4917	6.1460	6.3568
Three months average RMB : USD exchange rate	6.3907	6.1389	6.1653

The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into U.S. dollars at the rates used in translation.

Cash

Cash includes cash on hand and demand deposits in accounts maintained with commercial banks within the PRC. The Company considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents. The Company maintains bank accounts in the PRC. Cash balances in bank accounts in PRC are not insured by the Federal Deposit Insurance Corporation or other programs.

Restricted Cash

The restricted cash is required by the banks as collateral for mortgage loans given to the home buyers before obtaining the certificates of ownership of the properties as collateral. In order to provide the banks with the certificates of ownership, the Company is required to complete certain procedures with the Chinese government, which normally takes six to twelve months. Because the banks provide the loan proceeds to the Company without obtaining certificates of ownership as loan collateral during this six to twelve months' period, the mortgage banks require the Company to maintain, as restricted cash, 5% to 10% of the mortgage proceeds as security for the Company's obligations under such guarantees. The restricted cash is released by the banks once they receive the certificates of ownership. These deposits are not covered by insurance. The Company has not experienced any losses in such accounts and management believes its restricted cash account is not exposed to any risks.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Advances to vendors

Advances to vendors consist of balances paid to contractors and vendors for services and materials that have not been provided or received and generally relate to the development and construction of residential and commercial units in the PRC. Advances to vendors are reviewed periodically to determine whether their carrying value has become impaired. Historically, the Company has not experienced any losses as a result of these advances.

Security deposits for land use rights

Security deposits for land use rights consist of the deposits held by the PRC government for the purchase of land use rights and other deposit held by an unrelated party to transfer its land use rights to the Company. The deposits will be reclassified to real estate property under development upon the transfer of legal title.

Real estate property development completed and under development

Real estate property consists of finished residential unit sites, commercial offices and residential unit sites under development. The Company leases the land for the residential unit sites under land use right leases with various terms from the PRC government. The cost of land use rights is included in the development cost and allocated to each project. Real estate property development completed and real estate property under development are stated at the lower of cost or fair value.

Expenditures for land development, including cost of land use rights, deed tax, pre-development costs, and engineering costs, exclusive of depreciation, are capitalized and allocated to development projects by the specific identification method. Costs are allocated to specific units within a project based on the ratio of the sales area of units to the estimated total sales area of the project (or phase of the project) multiplied by the total cost of the project (or

phase of the project).

Cost of amenities transferred to buyers is allocated to specific units as a component of total construction cost. The amenity cost includes landscaping, road paving, etc. Once the projects are completed, the amenities are under control of the property management companies.

Real estate property development completed and real estate property under development are reclassified on the balance sheet into current and non-current portions based on the estimated date of construction completion and sales. The real estate property development completed classification is based on the estimated date that each property is expected to be sold within the Company's normal operating cycle of the business and the Company's sales plan. Real estate property development completed is classified as a current asset if the property is expected to be sold within the normal operating cycle of the business. Otherwise, it is classified as a non-current asset. Real estate property under development is classified as a current asset, if the property is reasonably expected to be completed within the Company's normal operating cycle of the business. Otherwise, it is classified as a non-current asset. The majority of real estate projects the Company has completed in the past were multi-layer or sub-high-rise real estate projects. The Company considers its normal operating cycle is 12 months.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Real estate property development completed and under development (continued)

In accordance with ASC 360, "Property, Plant and Equipment" ("ASC 360"), real estate property development completed and under development are subject to valuation adjustments when the carrying amount exceeds fair value. An impairment loss is recognized only if the carrying amount of the assets is not recoverable and exceeds fair value. The carrying amount is not recoverable if it exceeds the sum of the undiscounted cash flows expected to be generated by the assets. The Company reviewed all of its real estate projects for future losses and impairment by comparing the estimated future undiscounted cash flows for each project to the carrying value of such project. For the three months ended December 31, 2015 and 2014, the Company did not recognize any impairment for real estate property under development and completed.

Capitalization of Interest

Interest incurred during and directly related to real estate development projects is capitalized to the related real estate property under development during the active development period, which generally commences when borrowings are used to acquire real estate assets and ends when the properties are substantially complete or the property becomes inactive. Interest is capitalized based on the interest rate applicable to specific borrowings or the weighted average of the rates applicable to other borrowings during the period. Interest capitalized to real estate property under development is expensed as a component of cost of real estate sales when related units are sold. All other interest is expensed as incurred. For the three months ended December 31, 2015 and 2014, the total interest capitalized in the real estate property development was \$433,410 and \$644,599, respectively

Impairment of long-lived assets

In accordance with ASC 360, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company is required to review its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable through the estimated undiscounted cash flows expected to result

from the use and eventual disposition of the assets. Whenever any such impairment exists, an impairment loss will be recognized for the amount by which the carrying value exceeds the fair value.

Assets are grouped and evaluated at the lowest level for their identifiable cash flows that are largely independent of the cash flows of other groups of assets. The Company considers historical performance and future estimated results in its evaluation of potential impairment and then compares the carrying amount of the asset to the future estimated cash flows expected to result from the use of the asset. If the carrying amount of the asset exceeds estimated expected undiscounted future cash flows, the Company measures the amount of impairment by comparing the carrying amount of the asset to its fair value. The estimation of fair value is generally determined by using the asset's expected future discounted cash flows or market value. The Company estimates fair value of the assets based on certain assumptions such as budgets, internal projections, and other available information as considered necessary. There is no impairment of long-lived assets during the three months ended December 31, 2015 and 2014.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Customer deposits

Customer deposits consist of amounts received from customers relating to the sale of residential units in the PRC. In the PRC, customers will generally obtain permanent financing for the purchase of their residential unit prior to the completion of the project. The lending institution will provide the funding to the Company upon the completion of the financing rather than the completion of the project. The Company receives these funds and recognizes them as a liability until the revenue can be recognized.

Property warranty

The Company provides its customers with warranties which cover major defects of building structure and certain fittings and facilities of properties sold. The warranty period varies from two years to five years, depending on different property components the warranty covers. The Company continually estimates potential costs for materials and labor with regard to warranty-type claims expected to be incurred subsequent to the delivery of a property. Reserves are determined based on historical data and trends with respect to similar property types and geographical areas. The Company continually monitors the warranty reserve and makes adjustments to its pre-existing warranties, if any, in order to reflect changes in trends and historical data as information becomes available. The Company may seek further recourse against its contractors or any related third parties if it can be proved that the faults are caused by them. In addition, the Company also withholds up to 2% of the contract cost from sub-contractors for periods of two to five years. These amounts are included in construction deposits, and are only paid to the extent that there has been no warranty claim against the Company relating to the work performed or materials supplied by the subcontractors. For the three months periods ended December 31, 2015 and 2014, the Company had not recognized any warranty costs in excess of the amount retained from subcontractors and therefore, no warranty reserve is considered necessary at the balance sheet dates.

Construction Deposits

Construction deposits are the warranty deposits the real estate contractors provide to the Company upon signing the construction contracts. The Company can use such deposits to reimburse customers in the event of customer claims due to construction defects. The remaining balance of the deposits are returned to the contractors when the terms of the after-sale property warranty expires, which normally occurs within two to five years after the date of the deposit.

Share-based compensation

Share-based payment transactions are measured based on the grant-date fair value of the equity instrument issued and recognized as compensation expense over the requisite service period, or vesting period.

Forfeitures are estimated at the time of grant and revised, if necessary, in the subsequent period if actual forfeitures differ from initial estimates. Forfeiture rate is estimated based on historical and future expectation of employee turnover rate and are adjusted to reflect future change in circumstances and facts, if any. Share-based compensation expense is recorded net of estimated forfeitures such that expense was recorded only for those stock options and common stock awards that are expected to vest.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income taxes

Deferred tax assets and liabilities are for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740-10-25 prescribes a more-likely-than-not threshold for consolidated financial statement recognition and measurement of a tax position taken (or expected to be taken) in a tax return. It also provides guidance on the recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, years open for tax examination, accounting for income taxes in interim periods and income tax disclosures. There are no material uncertain tax positions as of December 31, 2015 and September 30, 2015.

The Company is a corporation organized under the laws of the State of Florida. However, all of the Company's operations are conducted solely by its subsidiaries in the PRC. No income is earned in the United States and the management does not repatriate any earnings outside the PRC. As a result, the Company did not generate any U.S. taxable income for the three months ended December 31, 2015 and 2014, respectively. As of December 31, 2015, Chinese entities' income tax returns filed in China for the years ended December 31, 2015, 2014, 2013, 2012 and 2011 are subject to examination by the Chinese taxing authorities.

As of December 31, 2015, the tax years ended September 30, 2007 through December 31, 2015 for the Company's PRC entities remain open for statutory examination by PRC tax authorities. The parent Company China HGS Real Estate Inc.'s tax years ended September 30, 2011 through December 31, 2015 remains open for statutory examination by U.S. tax authorities.

Land appreciation tax (“LAT”)

In accordance with the relevant taxation laws in the PRC, the Company is subject to LAT based on progressive rates ranging from 30% to 60% on the appreciation of land value, which is calculated as the proceeds of sales of properties less deductible expenditures including borrowing costs and all property development expenditures. LAT is exempted if the appreciation values do not exceed certain thresholds specified in the relevant tax laws.

The whole project must be completed before the LAT obligation can be assessed. Accordingly, the Company should record the liability and the total related expense at the completion of a project unless the tax authorities impose an assessment at an earlier date. The methods to implement this tax law vary among different geographic areas. Hanzhong, where the project Minzhu Garden, Nandajie and Central Plaza are located, implements this tax rule by requiring real estate companies prepay the LAT based upon customer deposits received. The tax rate in Hanzhong is 1%. Yang County, where the project Yangzhou Pearl Garden and Yangzhou Palace are located, requires a tax rate of 0.5%.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Comprehensive income (loss)

In accordance with ASC 220-10-55, comprehensive income (loss) is defined as all changes in equity except those resulting from investments by owners and distributions to owners. The Company's only components of comprehensive income (loss) during the three months ended December 31, 2015 and 2014 were net income and foreign currency translation adjustments.

Basic and diluted earnings per share

The Company computes earnings per share ("EPS") in accordance with the ASC 260, "Earnings per share", which requires companies to present basic and diluted EPS. Basic EPS is measured as net income divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible securities, options and warrants) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

Advertising expenses

Advertising costs are expensed as incurred. For the three months ended December 31, 2015 and 2014, the Company recorded advertising expenses of \$20,467 and \$88,730, respectively.

Concentration risk

The Company's operations are carried out in the PRC. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environment in the PRC, and by the general state of the PRC's economy. The Company's operations in the PRC are subject to specific considerations and significant risks not typically associated with companies in North America. The Company's results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things. Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and trade accounts receivable. All of the Company's cash is maintained with state-owned banks within the People's Republic of China of which no deposits are covered by insurance. The Company has not experienced any losses in such accounts and believes it is not exposed to any risks on its cash in bank accounts.

The Company is dependent on third-party sub-contractors, manufacturers, and distributors for all construction services and supply of construction materials. For the three months ended December 31, 2015, one supplier accounted for over 70% of the Company's total project expenditures. For the three months ended December 31, 2014, there was no concentration of supplier.

Reclassification

Certain prior period's cash flow numbers have been reclassified to conform with current period's presentation.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements

In January 2016, the FASB has issued Accounting Standards Update (ASU) No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. The new guidance is intended to improve the recognition and measurement of financial instruments. The new guidance makes targeted improvements to existing U.S. GAAP by: (1) requiring equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. Requiring public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (2) Requiring separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (i.e., securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements; (3) Eliminating the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; and, (4) Requiring a reporting organization to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk (also referred to as “own credit”) when the organization has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. The new guidance is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is evaluating the effect, if any, this update will have on the Company's unaudited condensed consolidated financial position, results of operations and cash flows.

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 3. REAL ESTATE PROPERTY DEVELOPMENT COMPLETED AND UNDER DEVELOPMENT**

The following summarizes the components of real estate property development completed and under development as of December 31, 2015 and September 30, 2015:

	December 31, 2015	September 30, 2015
Development completed		
Hanzhong City Mingzhu Garden Phase I	\$ 1,099,620	\$ 1,146,277
Hanzhogn City Mingzhu Garden Phase II	63,108,632	66,070,589
Hanzhong City Nan Dajie (Mingzhu Xinju)	1,409,349	1,439,257
Yang County Yangzhou Pearl Garden	4,370,595	3,419,273
Yang County Yangzhou Pearl Garden Phase II	3,708,754	5,456,387
Real estate property development completed	73,696,950	77,531,783
Less: Real estate property completed –short-term	71,696,324	75,391,512
Real estate property completed –long-term	\$ 2,000,626	\$ 2,140,271
Under development:		
Hanzhong City Oriental Pearl Garden (a)	\$ 53,361,785	\$ 55,154,153
Yang County Yangzhou Palace	49,362,519	47,843,166
Hanzhong City Shijin Project	7,461,486	7,619,829
Hanzhong City Liangzhou Road and related projects (b)	88,423,013	85,069,755
Hanzhong City Hanfeng Beiyuan East (c)	575,774	587,993
Hanzhong City Beidajie (e)	77,098	78,735
Yang County East 2 nd Ring Road (d)	2,410,155	2,461,303
Real estate property under development	201,671,830	198,814,934
Less: Short-term portion	53,361,785	55,154,153
Real estate property under development –long-term	\$ 148,310,045	\$ 143,660,781

(a) The Company recognized \$950,052 of development cost in cost of real estate sales under the percentage of completion method for the three months ended December 31, 2015 (2014 - \$3,006,823)

(b)

In September 2013, the Company entered into an agreement (“Liangzhou Agreement”) with the Hanzhong local government on the Liangzhou Road reformation and expansion project (Liangzhou Road Project”). Pursuant to the agreement, the Company is contracted to reform and expand the Liangzhou Road, a commercial street in downtown Hanzhong City, with a total length of 2,080 meters and width of 30 meters and to resettle the existing residences in the Liangzhou road area. The government’s original road construction budget was approximately \$33 million in accordance with the Liangzhou Agreement. The Company, in return, is being compensated by the local government to have an exclusive right on acquiring at least 394.5 Mu land use rights in a specified location of Hanzhong City. The Liangzhou Road Project’s road construction started at the end of 2013. In 2014, the original scope and budget on the Liangzhou road reformation and expansion project was extended, because the local government included more area and resettlement residences into the project, which resulted in additional investments from the Company. In return, the Company is authorized by the local government to develop and manage the commercial and residential properties surrounding the Liangzhou Road project. Due to the extension, the Company expected the road construction to be completed in 2016. The Company’s development cost incurred on Liangzhou Road Project is treated as the Company’s deposit on purchasing the related land use rights, as agreed by the local government.

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 3. REAL ESTATE PROPERTY DEVELOPMENT COMPLETED AND UNDER DEVELOPMENT

As of December 31, 2015, the actual costs incurred by the Company were \$88,423,013 (September 30, 2015- \$85,069,755) and the incremental cost related to residence resettlement was approved by the local government. The Company determined that the Company's Investment in Liangzhou Road Project in exchange for interests in future land use rights is a barter transaction with commercial substance. For the three months ended December 31, 2015 and 2014, the Company did not receive government's subsidies for its Shanty Area Reform Project surrounding Liang Zhou Road located in Hantai District, Hanzhong City, respectively.

(c) In September 2012, the Company was approved by the Hanzhong local government to construct four municipal roads with a total length of approximately 1,192 meters. The project was deferred and then restarted during the year ended September 30, 2014. As of December 31, 2015, the local government was still in the process of assessing the budget for these projects.

(d) The Company was engaged by the Yang County local government to construct the East 2nd Ring Road with a total length of 2.15km and a budgeted price of approximately \$25.9 million (or RMB168 million), which was approved by the local Yang County government in March 2014. The local government is required to repay the Company's project investment costs within 3 years with interest at the interest rate based on the commercial borrowing rate with the similar term published by China construction bank (December 31, 2015 -5% and September 30, 2015 – 5%). The local government has approved a refund to the Company by reducing local surcharges or taxes otherwise required in the real estate development.

(e) For the three months ended December 31, 2015 and 2014, the Company received government's subsidies in the amount of \$3,234,900 and \$Nil for its Shanty Area Reform Project surrounding Beidajie Project located in Hantai District, Hanzhong City, respectively. Since the Company has not met the performance requirement, the Company included the subsidies received in the liability.

As of December 31, 2015 and September 30, 2015, land use rights included in real estate property under development totaled \$38,679,289 and \$39,929,072, respectively.

NOTE 4. BANK LOAN

On August 23, 2013, the Company entered into a project finance loan agreement (the "Loan Agreement") with China Construction Bank, Hanzhong Branch (the "Bank") for a working capital loan (the "Loan"). The Loan has a three-year term in the principal amount of \$23,106,428 (RMB150,000,000) at an interest rate 5.5% at December 31, 2015, which is 0.5% over the benchmark interest rate of 5.0% and is adjustable every twelve months from the date of the loan. The loan is for the development of the Company's Mingzhu Beiyuan project.

The Company pledged its real estate properties in the Mingzhu Beiyuan project (Phase II) with carrying value of \$63,108,632 as of December 31, 2015 (September 30, 2015 - \$66,070,589). The Loan is also subject to certain covenants including current ratio of not less than 2 and quick ratio of not less than 0.8. The bank treated all the Company's real estate property including real estate property completed and real estate property under development as current assets. Based on the fact that the Company made timely repayments as required in the loan agreement during fiscal 2014 and 2015 and Mingzhu Beiyuan achieved good presale status, the bank waived both current ratio and quick ratio requirement under the loan agreement.

	December 31, 2015	September 30, 2015
China Construction Bank Loan	\$ 6,161,714	\$ 6,292,474

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 4. BANK LOAN (continued)**

The weighted average interest rate of the loan was 5.5% as of December 31, 2015 and September 30, 2015. For the three months ended December 31, 2015, total loan interest was \$83,063, which was included in the interest expense for the period, because the project has been completed by September 30, 2015. For the three months ended December 31, 2014, the total loan interest was \$318,707, which was capitalized in to the development cost of Mingzhu Garden – Mingzhu Beiyuan project Phase II. The repayment of the loan is due and payable based on fixed milestone dates as follows:

	Repayment in USD	Repayment in RMB
February 10, 2016	4,621,285	30,000,000
August 20, 2016	1,540,429	10,000,000
Total	6,161,714	40,000,000

NOTE 5. OTHER LOANS

	December 31, 2015	September 30, 2015
Loan A (i)	\$ 472,912	\$ 954,883
Loan B (ii)	-	4,719,356
Loan C (iii)	26,060,283	15,731,186
	26,533,195	21,405,425
Less: current maturities of other loans	472,912	5,674,239
Other loans-long term portion	\$ 26,060,283	\$ 15,731,186

On April 9, 2014, the Company entered into a working capital finance agreement (the "Finance Agreement") with a local investment company in Hanzhong. The Finance Agreement has a one year term and a maximum principal amount of \$15,404,286 (RMB 100,000,000) at a fixed interest rate of 10%. The loan is for working capital purpose and guaranteed by the Company's Chairman and CEO. As of December 31, 2015, the Company borrowed \$472,912 (September 30, 2015-\$954,883). For the three months ended December 31, 2015, total interest was \$17,878 (2014 - \$382,810), which was capitalized in to the development cost of Liangzhou road project.

(ii)

On May 6, 2015, the Company entered into a credit agreement with a financial institution. On May 22, 2015, the Company borrowed \$4,621,286 (RMB 30,000,000) at a fixed interest rate of 20% per year for a six months period and the rate may up-float 50% if the loan proceeds were not used for the intended borrowing purpose. The loan was for the construction of Oriental Pearl Garden real estate project and guaranteed by the Company's Chairman and CEO and his wife. The loan has been repaid upon maturity. For the three months ended December 31, 2015 and 2014, the interest was \$109,534 and \$181,690, which was capitalized in to the development cost of Oriental Pearl Garden real estate project.

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 5. OTHER LOANS (continued)**

On June 26, 2015, the Company signed an agreement with Hanzhong Urban Construction Investment Development Co., Ltd., a state owned Company, to borrow up to \$38,510,716 (RMB 250,000,000) long term loan at 4.245% interest to develop Liang Zhou Road Project. As of December 31, 2015, the Company utilized the loan (iii) of \$26,060,283. The loan is guaranteed by Hanzhong City Hantai District Municipal Government and pledged by the Company's Yang County Palace project with carrying value of \$49,362,519 as of December 31, 2015. For the three months ended December 31, 2015, total interest was \$293,480 (2014- \$Nil) which was capitalized in to the development cost of Liangzhou road project. The full amount of loan has following repayment schedule:

	Repayment in USD	Repayment in RMB
Part I		
May 29, 2017	5,114,223	33,200,000
November 20, 2017	5,114,223	33,200,000
May 20, 2018	5,222,053	33,900,000
November 20, 2018	5,222,053	33,900,000
May 20, 2019	5,376,096	34,900,000
November 29, 2019	5,376,096	34,900,000
Part II		
May 29, 2017	1,179,968	7,660,000
November 20, 2017	1,179,968	7,660,000
May 20, 2018	1,181,509	7,670,000
November 20, 2018	1,181,509	7,670,000

Yang County Palace	5,757,422	6,210,389
Yangzhou Pearl Garden Phase I and II	3,347,804	2,334,775
Total	27,989,907	25,633,973
Less Customer deposits -short-term	20,086,668	17,387,969
Customer deposits - long-term	\$ 7,903,239	\$ 8,246,004

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 6. CUSTOMER DEPOSITS (continued)**

Customer deposits are typically 10%-20% of the unit price for those customers who purchase properties in cash and 30%-50% of the unit price for those customers who purchase properties with mortgages. Buyers with mortgage loans pay customer deposits. The banks provide the balance of the funding to the Company upon consummation of the sales. The banks hold the properties as collateral for customers' mortgage loans. If the customers default, the bank will repossess the collateral properties. Except during the Mortgage Loan Guarantee Period of approximately six to twelve months, the banks have no recourse to the Company for customers' defaults. As of December 31, 2015 and September 30, 2015, approximately \$1.7 million was guaranteed by the Company.

NOTE 7. RELATED PARTY LOANS

	December 31, 2015	September 30, 2015
Shareholder loan – USD loan (a)	\$ 1,810,000	\$ 1,810,000
Shareholder loan – RMB loan (b)	839,534	-
Total	\$ 2,649,534	\$ 1,810,000

The Company has a one year loan agreement (“USD Loan Agreement”) with Mr. Xiaojun Zhu, the Chairman, CEO and major shareholder, pursuant to which the Company borrowed \$1,810,000 to make a capital injection into Shaanxi HGS, the Company's subsidiary. The interest rate for the loan is 4% per annum and the loan originally matured on July 19, 2014. The Company entered into the second amendment to the USD Loan Agreement to extend the term until July 31, 2016. The Company recorded interest of \$18,100 for the three months ended December 31, 2015 (2014 - \$18,100). The Company has not yet paid this interest and it is recorded in accrued expenses in the accompanying condensed consolidated balance sheets as of December 31, 2015 and September 30, 2015.

b. On December 31, 2013, Shaanxi Guangsha Investment and Development Group Co., Ltd. (the “Guangsha”), the Company's PRC operating subsidiary, entered into a loan agreement with the Chairman (the “Shareholder RMB Loan Agreement”), pursuant to which Guangsha is able to borrow from Mr. Zhu in order to support the Company's Liang Shan Road construction project development and the Company's working capital needs. The Loan Agreement has a one-year term at an interest rate of 5.5% as of December 31, 2015 and September 30, 2015. The Company recorded interest of \$12,518 and \$80,099 for the three months ended December 31, 2015 and 2014, respectively,

which is capitalized in the development cost of Liangzhou road project. The Company has not paid this interest and it is recorded in accrued expenses in the accompanying unaudited condensed consolidated balance sheets as of December 31, 2015 and September 30, 2015.

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 8. STOCK OPTIONS**

On August 22, 2015, the Company's Board of Directors granted stock options to two new independent directors to repurchase up to an aggregate of 120,000 shares of the Company's common stock ("2015 Stock Options"). The shares underlying the options become excisable during the following 36 months period at the end of each quarter. The exercise price of the options is \$1.89 per share. As of December 31, 2015 and September 30, 2015, 11% and 2.8% of the option awards have vested, respectively. The assumptions used in calculating the fair value of options granted using the Black-Scholes option pricing model are as follows:

The assumptions used in calculating the fair value of options granted using the Black-Scholes option pricing model are as follows:	Options granted in August 2015	
Risk-free interest rate	0.95	%
Expected life of the options	3 year	
Expected volatility	143	%
Expected dividend yield	0	%
Fair value	\$ 178,800	

The Company uses the Black-Scholes option-pricing model, which incorporates various assumptions including volatility, expected life and interest rates to determine fair value. The Company's expected volatility assumption is based on the historical volatility of Company's stock. The expected life assumption is primarily based on the simplified method due to the Company's limited option exercise behavior. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The following table summarizes the stock option activities of the Company:

	Number of options	Weighted Average Exercise Price	Weighted Average Remaining Life in Years	Grant Date Fair Value
Outstanding, September 30, 2015	130,000	\$ 1.93	2.71	\$ 191,914
Granted	-	-	-	-
Forfeited	-	-	-	-
Exercised	-	-	-	-
Outstanding, December 31, 2015	130,000	\$ 1.93	2.46	\$ 191,914

Exercisable, December 31, 2015	23,333	\$ 2.10	1.60	\$ 32,982
--------------------------------	--------	---------	------	-----------

The Company recorded \$14,900 and \$Nil stock-based compensation expense for the three months ended December 31, 2015 and 2014, respectively. Since the average share price for the three months ended December 31, 2015 was below the exercise price of the above options, these options were anti-dilutive at December 31, 2015, and therefore would not be included in the diluted shares calculation.

NOTE 9. TAXES

(A) Business sales tax

The Company is subject to a 5% business sales tax on revenue. It is the Company's continuing practice to recognize the 5% business sales tax based on revenue as a cost of sales as the revenue is recognized. As of December 31, 2015, the Company had business sales tax payable of \$13,079,051(September 30, 2015- \$13,306,414), which is expected to be paid when the projects are completed and assessed by the local tax authority

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 9. TAXES (continued)****B) Corporate income taxes (“CIT”)**

The Company’s PRC subsidiaries and VIE are governed by the Income Tax Law of the People’s Republic of China concerning the privately run enterprises, which are generally subject to income tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments.

However, as approved by the local tax authority of Hanzhong City, the Company’s CIT was assessed annually at a pre-determined fixed rate as an incentive to stimulate the local economy and encourage entrepreneurship. The local income tax rate in Hanzhong is 2.5% and in Yang County is 1.25% on revenue. For the three months ended December 31, 2015 and 2014, the Company’s income taxes were \$135,796 and \$235,061, respectively.

Although the possibility exists for reinterpretation of the application of the tax regulations by higher tax authorities in the PRC, potentially overturning the decision made by the local tax authority, the Company has not experienced any reevaluation of the income taxes for prior years. The PRC tax rules are different from the local tax rules and the Company is required to comply with local tax rules. The difference between the two tax rules will not be a liability of the Company. There will be no further tax payments for the difference.

The following table reconciles the statutory rates to the Company’s effective tax rate for the three months ended December 31, 2015 and 2014:

	For the three months ended December 31, 2015		2014	
Chinese statutory tax rate	25.0	%	25.0	%
Valuation allowance change	0.1		0.1	
Net impact of exemption	(16.4)	(12.5)

rendered by local
tax authorities and
other adjustments

Effective tax rate	8.7	%	12.6	%
--------------------	-----	---	------	---

Income tax expense for the three months ended December 31, 2015 and 2014 is summarized as follows:

	For the three months ended December 31,	
	2015	2014
Current tax provision	\$ 69,492	\$ 11,258
Deferred tax provision	66,304	223,803
Income tax provision	\$ 135,796	\$ 235,061

The parent Company China HGS Real Estate Inc. is incorporated in the United States. Net operating loss carry forwards for United States income tax purposes approximated to \$434,000 and \$401,000 as of December 31, 2015 and September 30, 2015, respectively, which are available to reduce future years' taxable income. These carry forwards will expire in 2035. However, the change in control resulting from the reverse merger in 2009 limits the amount of loss to be utilized each year. Management doesn't expect to remit any of its net income back to the United States in the foreseeable future. Accordingly, the Company recorded a full valuation allowance as of December 31, 2015 and September 30, 2015. The components of deferred taxes as of December 31, 2015 and September 30, 2015 consist of the following:

CHINA HGS REAL ESTATE, INC.**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE 9. TAXES (continued)****B) Corporate income taxes (“CIT”)**

	December 31, 2015	September 30, 2015
Deferred tax assets		
Deferred tax assets from net operating loss carry-forwards for parent company	\$ 147,614	\$ 136,394
Valuation allowance	(147,614)	(136,394)
Deferred tax asset-net	\$ -	\$ -
Deferred tax liability		
Revenue recognized based on percentage of completion	\$ 4,678,534	\$ 4,711,161
Deferred tax liability- long term	\$ 4,678,534	\$ 4,711,161

The valuation allowance increased \$11,220 and \$6,154 for the three months end December 31, 2015 and 2014, respectively.

	For the three months ended December 31,	
	2015	2014
Beginning Balance	\$ 136,394	\$ 110,089
Current period additions	11,220	6,154
Ending Balance	\$ 147,614	\$ 116,243

(C) Land Appreciation Tax (“LAT”)

Since January 1, 1994, LAT has been applicable at progressive tax rates ranging from 30% to 60% on the appreciation of land values, with an exemption provided for the sales of ordinary residential properties if the appreciation values do not exceed certain thresholds specified in the relevant tax laws. However, the Company’s local tax authority in Hanzhong City has not imposed the regulation on real estate companies in its area of administration. Instead, the local tax authority has levied the LAT at the rate of 0.5% in Yang County and 1.0% in Hanzhong against total cash receipts from sales of real estate properties, rather than according to the progressive rates. As at December 31, 2015, the

outstanding LAT payable was \$803,177 with respect to completed real estate properties sold up to December 31, 2015. As at September 30, 2015, the outstanding LAT payable balance was \$752,664 with respect to completed real estate properties sold up to September 30, 2015.

(D) Taxes payable consisted of the following:

	December 31, 2015	September 30, 2015
CIT	\$ 774,189	\$ 794,780
Business tax	13,079,051	13,306,414
Other tax and fees	1,677,302	1,729,692
Total taxes payable	\$ 15,530,542	\$ 15,830,886

CHINA HGS REAL ESTATE, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 10. COMMITMENTS AND CONTINGENCIES

As an industry practice, the Company provides guarantees to PRC banks with respect to loans procured by the purchasers of the Company's real estate properties for the total mortgage loan amount until the completion of obtaining the "Certificate of Ownership" of the properties from the government, which generally takes six to twelve months. Because the banks provide loan proceeds without getting the "Certificate of Ownership" as loan collateral during this six to twelve months' period, the mortgage banks require the Company to maintain, as restricted cash, 5% to 10% of the mortgage proceeds as security for the Company's obligations under such guarantees. If a purchaser defaults on its payment obligations, the mortgage bank may deduct the delinquent mortgage payment from the security deposit and require the Company to pay the excess amount if the delinquent mortgage payments exceed the security deposit. The Company has made necessary reserves in its restricted cash account to cover any potential mortgage defaults as required by the mortgage lenders. The Company has not experienced any losses related to this guarantee and believes that such reserves are sufficient. As of December 31, 2015 and September 30, 2015, the amount of security deposit provided for these guarantees was approximately \$1.7 million and \$1.7 million respectively.

Total operating lease commitments for rental of office of the Company's PRC subsidiaries as of December 31, 2015 is as follows:

Twelve months ending December 31,	Minimum lease payment
2016	\$ 27,958
Years after	-
Total minimum payments required	\$ 27,958

For the three months ended December 31, 2015 and 2014, the rental expense was \$6,455 and \$6,109, respectively.

NOTE 11. SUBSEQUENT EVENT

On January 8, 2016, the Company signed a loan agreement with Hanzhong Municipal Housing Provident Fund Management Center (“Lender”) to borrow up to \$12,323,428 (RMB 80 million) on development of Oriental Garden project. The loan carries interest at is 3.575% and is due in January 2019. The progress repayment is required based on certain sales milestones or a fixed repayment schedule starting in July 2018. The Oriental Garden project was pledged for the loan and the lender has rights to monitor the project’s future cash flow

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion and analysis of financial condition and results of operations relates to the operations and financial condition reported in the unaudited condensed consolidated financial statements of China HGS Real Estate, Inc. for the three months ended December 31, 2015 and 2014 and should be read in conjunction with such financial statements and related notes included in this report.

As used in this report, the terms "Company," "we," "our," "us" and "HGS" refer to China HGS Real Estate, Inc. and its subsidiaries.

Preliminary Note Regarding Forward-Looking Statements.

We make forward-looking statements in Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report based on the beliefs and assumptions of our management and on information currently available to us. Forward-looking statements include information about our possible or assumed future results of operations which follow under the headings "Business Overview," "Liquidity and Capital Resources," and other statements throughout this report preceded by, followed by or that include the words "believes," "expects," "anticipates," "intends," "plans," "estimates" or similar expressions.

Forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from those expressed in these forward-looking statements, including the risks and uncertainties described below and other factors we describe from time to time in our periodic filings with the U.S. Securities and Exchange Commission (the "SEC"). We therefore caution you not to rely unduly on any forward-looking statements. The forward-looking statements in this report speak only as of the date of this report, and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise. These forward-looking statements include, among other things, statements relating to:

- our ability to sustain our project development
- our ability to obtain additional land use rights at favorable prices;
- the market for real estate in Tier 3 and 4 cities and counties;

our ability to obtain additional capital in future years to fund our planned expansion; or

economic, political, regulatory, legal and foreign exchange risks associated with our operations.

Business Overview

We conduct substantially all of our business through Shaanxi Guangsha Investment and Development Group Co., Ltd, in Hanzhong, Shaanxi Province. Since the initiation of our business, we have been focused on expanding our business in certain Tier 3 and Tier 4 cities and counties in China.

For the three months ended December 31, 2015, our sales, gross profit and net income were \$5,856,607, \$2,235,730 and \$1,427,224, respectively, representing an approximate 44.6%, 22.1% and 12.2% decrease in sales, gross profit and net income from three months ended December 31, 2014, respectively. The decrease in sales, gross profit and net income was mainly resulted from less gross floor area (“GFA”) sold during this quarter. .

The Company uses the percentage of completion method to account for real estate sales residential projects with construction periods from 18 to 24 months. Total revenue recognized under the percentage of completion method for the three months ended December 31, 2015 was \$2,652,178 (2014- \$9,818,507), representing 45.3% (2014 - 92.9%) of total revenue for the quarter, with related costs of these real estate sales were \$950,052 (2014 - \$6,590,296), representing 29.6% (2014 - 93.8%) of the real estate costs in the quarter ended December 31, 2015. The gross profit from the percentage of completion method was \$1,702,126 (2014 - \$2,598,909), representing 76.1% (2014 - 90.6%) of the total gross profit for the quarter.

For the three months ended December 31, 2015, the average selling price (“ASP”) for our completed real estate projects (excluding sales of parking spaces) located in Yang County was approximately \$350.1 per square meter, a decrease of 7% from the ASP of \$374.8 per square meter for the three months ended December 31, 2014. The ASP of our Hanzhong completed real estate projects (excluding sales of parking spaces) was approximately \$608.7 per square meter, a 6% decrease from the ASP of \$644.3 per square meter for the three months ended December 31, 2014. The decrease in ASP was mainly due to the fact that we lowered the selling price to promote the sales of remaining apartment units for the quarter ended December 31, 2015.

Market Outlook

Our customers have a constant growth in their disposable income. With a lower housing price to family disposable income ratio and an increasing urbanization level, there is a growing demand for high quality residential housing. From this perspective, the Company is positive about the outlook for the local real estate market in a long term. In the meantime, the Company is in the process of diversifying its revenue and developing more commercial and municipal projects.

We intend to remain focused on our existing construction projects in Hanzhong City and Yang County, deepening our institutional sales network, enhancing our cost and operational synergies and improving cash flows and strengthening our balance sheet. In this respect, we began the construction of the following large high rise residential projects in Hanzhong City and Yang County:

Oriental Pearl Garden

The project is located in downtown of Hanzhong City. It consists of 1 multi-layer residential building and 12 high-rise residential buildings with commercial shops on the first and second floors with an estimated GFA of 273,787 square meters. The Company started construction in the third quarter of fiscal 2012 and expects to complete the construction in the first half of 2016. The pre-sale license was obtained in November 2013.

Mingzhu Beiyuan

The project is located in the south west part of Hanzhong City. It includes 17 high-rise residential buildings with an estimated GFA of 358,058 square meters. The Company started construction in the third quarter of fiscal 2012 and completed the construction in the last quarter of fiscal 2015. The pre-sale license was obtained in April 2013.

Yangzhou Pearl Garden

The project included 5 high-rise residential buildings and 1 multi-layer residential building with total GFA of 67,653 square meters located in Yang County and the construction was completed in the last quarter of fiscal 2015. The related pre-sales licenses were obtained in February 2013.

Yangzhou Palace

The Company is currently constructing 9 high-rise residential buildings and 16 sub-high-rise residential and multi-layer residential buildings with total GFA of 285,244 square meters in Yangzhou Palace located in Yang County. The construction started in the fourth quarter of fiscal 2013 and is expected to be completed by the early of 2017. The Company has not obtained pre-sale license as of December 31, 2015.

Road Construction

In addition to the above residential projects, the Company was approved by the Hanzhong local government to construct two municipal roads with a total length of 1,064.09 meters. The budget for these two municipal roads was approximately \$3 million and was approved by the Hanzhong Ministry of Finance. The Company completed and delivered these two roads to the local government on March 21, 2014 with an approved budget of \$3.2 million. The Company recognized such revenue during fiscal 2014.

In September 2013, the Company entered into an agreement (“Liangzhou Agreement”) with the Hanzhong local government on the Liangzhou Road reformation and expansion project (Liangzhou Road Project”). Pursuant to the agreement, the Company is contracted to reform and expand the Liangzhou Road, a commercial street in downtown Hanzhong City, with a total length of 2,080 meters and width of 30 meters and to resettle the existing residences in the Liangzhou road area. The government’s original road construction budget was approximately \$33 million in accordance with the Liangzhou Agreement. The Company, in return, is being compensated by the local government to have an exclusive right on acquiring at least 394.5 Mu land use rights in a specified location of Hanzhong City. The Liangzhou Road Project’s road construction started at the end of 2013. In 2014, the original scope and budget on the Liangzhou road reformation and expansion project was extended, because the local government included more area and resettlement residences into the project, which resulted in additional investments from the Company. In return, the Company is authorized by the local government to develop and manage the commercial and residential properties surrounding the Liangzhou Road project. Due to the extension, the Company expects the road construction to be completed in 2016. The Company’s development cost incurred on Liangzhou Road Project is treated as the Company’s deposit on purchasing the related land use rights, as agreed by the local government.

As of December 31, 2015, the actual costs incurred by the Company were \$88,423,013 (September 30, 2015- \$85,069,755) and the incremental cost related to residence resettlement was approved by the local government. The Company determined that the Company’s Investment in Liangzhou Road Project in exchange for interests in future land use rights is a barter transaction with commercial substance. The Company received subsidies to offset against the development cost of Liangzhou Road Project. For the three months ended December 31, 2015 and 2014, the Company did not receive any government’s subsidies for its Shanty Area Reform Project surrounding Liang Zhou Road located in Hantai District, Hanzhong City, respectively.

Other road construction projects mainly included a Yang County East 2nd Ring Road construction project. The Company was engaged by the Yang County local government to construct the East 2nd Ring Road with a total length of 2.15km and a budgeted price of approximately \$25.9 million (or RMB168 million), which was approved by the local Yang County government in March 2014. The local government is required to repay the Company’s project investment costs within 3 years with interest at the interest rate based on the commercial borrowing rate with the similar term published by China construction bank (December 31, 2015 - 5% and September 30, 2015 – 5%). The local government has approved a refund to the Company by reducing local surcharges or taxes otherwise required in the real estate development. As of December 31, 2015, the actual costs incurred by the Company was \$2,410,155 which was included in real estate property under development.in the consolidated balance sheet. The local government is planning to expand the project, the Company will wait for the local government’s revised plan to estimate the delivery time.

In September 2012, the Company was approved by the Hanzhong local government to construct four municipal roads with a total length of approximately 1,192 meters. The project was deferred and then restarted during the year ended September 30, 2014. As of December 31, 2015, the local government was still in the process of assessing the budget for these projects.

For the three months ended December 31, 2015 and 2014, the Company received government's subsidies in the amount of \$3,234,900 and \$Nil for its Shanty Area Reform Project surrounding Beidajie Project located in Hantai District, Hanzhong City, respectively. Since the Company has not met the performance requirement, the Company included the subsidies received in the liability.

We expect these initiatives will help us during this difficult period and better position us to capitalize on opportunities from a future market upturn.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these condensed consolidated financial statements requires us to make estimates and judgments that affect our reported assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate our estimates on an on-going basis and use them on historical experience and various other assumptions that are believed to be reasonable under the circumstances as the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates because of different assumptions or conditions.

We believe the following critical accounting policies affect our significant estimates and judgments used in the preparation of our condensed consolidated financial statements. These policies should be read in conjunction with Note 2 of the notes to unaudited condensed consolidated financial statements.

Revenue recognition

Percentage of Completion method

Real estate sales for the long term real estate projects are recognized under percentage completion method in accordance with the provisions of ASC 360-20-40D “Sale of Condominium Units”. Revenue and profit from the sales of long term development properties is recognized by the percentage of completion method on the sale of individual units when all the following criteria are met:

- a. Construction is beyond a preliminary stage.
- b. The buyer is committed to the extent of being unable to require a refund except for non-delivery of the unit or interest.
- c. Sufficient units have already been sold to assure that the entire property will not revert to rental property.
- d. Sales prices are collectible.
- e. Aggregate sales proceeds and costs can be reasonably estimated.

If any of the above criteria is not met, proceeds shall be accounted for as deposits until the criteria are met.

Under the percentage of completion method, revenues from condominium units sold and related costs are recognized over the course of the construction period, based on the completion progress of a project. In relation to any project, revenue is determined by calculating the ratio of incurred costs, including land use rights costs and construction costs, to total estimated costs and applying that ratio to the contracted sales amounts. Cost of sales is recognized by determining the ratio of contracted sales during the period to total estimated sales value, and applying that ratio to the incurred costs. Current period amounts are calculated based on the difference between the life-to-date project totals and the previously recognized amounts.

Revenue recognized to date in excess of amounts received from customers is classified as current assets under cost and earnings in excess of billings. Amounts received from customers in excess of revenue recognized to date are classified as current liabilities under billings in excess of cost and earnings.

Any changes in significant judgments and/or estimates used in determining construction and development revenue could significantly change the timing or amount of construction and development revenue recognized. Changes in total estimated project costs or losses, if any, are recognized in the period in which they are determined.

Full accrual method

Revenue from the sales of short term development properties, where the construction period is expected to 18 months or less is recognized by the full accrual method at the time of the closing of an individual unit sale. This occurs when title to or possession of the property is transferred to the buyer. A sale is not considered consummated until (a) the parties are bound by the terms of a contract, (b) all consideration has been exchanged, (c) any permanent financing for which the seller is responsible has been arranged, (d) all conditions precedent to closing have been performed, (e) the seller does not have substantial continuing involvement with the property, and (f) the usual risks and rewards of ownership have been transferred to the buyer. Further, the buyer's initial and continuing investment is adequate to demonstrate a commitment to pay for the property.

The Company provides “mortgage loan guarantees” only with respect to buyers who make down-payments of 30%-50% of the total purchase price of the property. The period of the mortgage loan guarantee begins on the date the bank approves the buyer’s mortgage and we receives the loan proceeds in our bank account and ends on the date the “Certificate of Ownership” evidencing that title to the property has been transferred to the buyer. The procedures to obtain the Certificate of Ownership take six to twelve months (the “Mortgage Loan Guarantee Period”). If, after investigation of the buyer’s income and other relevant factors, the bank decides not to grant the mortgage loan, our mortgage-loan based sales contract terminates and there will be no guarantee obligation. If, during the Mortgage Loan Guarantee Period, the buyer defaults on his or her monthly mortgage payment for three consecutive months, we are required to return the loan proceeds back to the bank, although we have the right to keep the customer's deposit and resell the property to a third party. Once the Certificate of Property has been issued by the relevant government authority, our loan guarantee terminates. If the buyer then defaults on his or her mortgage loan, the bank has the right to take the property back and sell it and use the proceeds to pay off the loan. The Company is not liable for any shortfall that the bank may incur in this event. To date, no buyer has defaulted on his or her mortgage payments during the Mortgage Loan Guarantee Period and the Company has not returned any loan proceeds pursuant to its mortgage loan guarantees.

For municipal road construction projects, fees are generally recognized by the full accrual method at the time of the projects are completed.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the consolidated financial statements. Estimates are used for, but not limited to, the assumptions and estimates used by management in recognizing development revenue under the percentage of completion method, the selection of the useful lives of property and equipment, provision necessary for contingent liabilities, fair values, revenue recognition, income taxes, budgeted costs, share-based compensation and other similar charges. Management believes that the estimates utilized in preparing its consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

Real estate property development completed and under development

Real estate property consists of finished residential unit sites, commercial offices and residential unit sites under development. The Company leases the land for the residential unit sites under land use right leases with various terms from the PRC government. The cost of land use rights is included in the development cost and allocated to each project. Real estate property development completed and real estate property under development are stated at the lower of cost or fair value.

Expenditures for land development, including cost of land use rights, deed tax, pre-development costs, and engineering costs, exclusive of depreciation, are capitalized and allocated to development projects by the specific identification method. Costs are allocated to specific units within a project based on the ratio of the sales area of units to the estimated total sales area of the project (or phase of the project) multiplied by the total cost of the project (or phase of the project).

Cost of amenities transferred to buyers is allocated to specific units as a component of total construction cost. The amenity cost includes landscaping, road paving, etc. Once the projects are completed, the amenities are under control of the property management companies.

Real estate property development completed and real estate property under development are reclassified on the balance sheet into current and non-current portions based on the estimated date of construction completion and sales. The real estate property development completed classification is based on the estimated date that each property is expected to be sold within the Company's normal operating cycle of the business and the Company's sales plan. Real estate property development completed is classified as a current asset if the property is expected to be sold within the normal operating cycle of the business. Otherwise, it is classified as a non-current asset. Real estate property under development is classified as a current asset, if the property is reasonably expected to be completed within the Company's normal operating cycle of the business. Otherwise, it is classified as a non-current asset. The majority of real estate projects the Company has completed in the past were multi-layer or sub-high-rise real estate projects. The Company considers its normal operating cycle is 12 months.

In accordance with ASC 360, "Property, Plant and Equipment" ("ASC 360"), real estate property development completed and under development are subject to valuation adjustments when the carrying amount exceeds fair value. An impairment loss is recognized only if the carrying amount of the assets is not recoverable and exceeds fair value. The carrying amount is not recoverable if it exceeds the sum of the undiscounted cash flows expected to be generated by the assets. The Company reviewed all of its real estate projects for future losses and impairment by comparing the estimated future undiscounted cash flows for each project to the carrying value of such project. For the three months ended December 31, 2015 and 2014, the Company did not recognize any impairment for real estate property under development and completed. If we had to recognize an impairment loss, it would have affected our net income and earnings per share.

RESULTS OF OPERATIONS**Three Months Ended December 31, 2015 compared to Three Months Ended December 31, 2014****Revenues**

The following is a breakdown of revenue:

	For Three Months Ended December 31,	
	2015	2014
Revenue recognized under full accrual method	\$3,204,429	\$747,180
Revenue recognized under percentage of completion method	2,652,178	9,818,507
Total	\$5,856,607	\$10,565,687

Revenues recognized from completed projects

The following table summarizes our revenue generated by different projects:

	For Three Months Ended December 31,				Variance	
	2015		2014		Amount	%
	Revenue	%	Revenue	%		
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan) Phase I and II	\$2,354,950	73.5 %	\$153,444	20.5 %	\$2,201,506	1435 %
Yangzhou Pearl Garden Phase I and II	849,479	26.5 %	593,736	79.5 %	255,743	43 %
Total Real Estate Sales before Sales Tax	3,204,429	100 %	747,180	100 %	2,457,249	329 %
Sales Tax	(178,599)		(41,248)		(137,351)	333 %
Revenue net of sales tax	\$3,025,830		\$705,932		\$2,319,898	329 %

Our revenues are derived from the sale of residential buildings, commercial front-stores and parking space in projects that we have developed. Since our Mingzhu Garden Phase II and Yangzhou Pearl Garden Phase II were completed by September 30, 2015, the related revenues have been included in revenue recognized from completed projects, which resulted in higher revenue reported for this quarter as compared to the same comparative period of 2014. For the completed real estate properties, we only limited models are available for customer selection. In order to promote the sales of the remaining units, we lowered our selling price during the quarter ended December 31, 2015, which led to more GFA sold during the quarter than in the same period of 2014.

Revenues before sales tax increased by 329% to approximately \$3.2 million for the three months ended December 31, 2015 from approximately \$0.7 million for the same period last year. The total GFA sold during the three months ended December 31, 2015 was 6,295 square meters, representing a 246% increase from 1,822 square meters completed and sold for the three months ended December 2014.

Sales tax for the three months ended December 31, 2015 and 2014 consisted of a business tax, 5% of the revenue, an urban construction tax, 7% of business tax, an education surcharge tax, 3% of business tax, and land appreciation tax. Land appreciation tax for the three months ended December 31, 2015 and 2014 was assessed at the rate of 0.5% of the customer deposits in Yang County and 1% of the customer deposits in Hanzhong. The sales tax for the three months ended December 31, 2015 increased by 333% from the same period last year, primarily as a result of the increase in the reported revenue.

Mingzhu Garden						
– Mingzhu Beiyuan – Phase II	355,321	90%	\$65,654,302	\$ 4,685,248		\$62,823,186
Oriental Garden	273,693	81%	66,165,536	3,400,460		57,695,997
Real estate properties under development located in Yang County						
Yangzhou Pearl Garden – Phase II	64,854	93%	17,799,809	\$ 1,732,799		16,878,717
Total	693,868		\$ 149,619,647	\$ 9,818,507		\$ 137,397,900

Percentage of completion is calculated by dividing total costs incurred by total estimated costs for the relevant (1) buildings in the each real estate building, estimated as of the time of preparation of our financial statements as of and for the year indicated.

Qualified contract sales only include all contract sales with customer deposits balance as of December 31, 2015 (2) and 2014 equal or greater than 30% of contract sales amount and related individual of buildings were sold over 20%.

(3)

Qualified contract sales only include all contract sales with customer deposits balance as of December 31, 2015 and 2014 equal or greater than 30% of contract sales amount and related individual of buildings were sold over 20%.

Both Mingzhu Garden Phase II and Yangzhou Pear Garden Phase II projects were completed by September 30, 2015, therefore the related revenue was not included in the above table. For Oriental Garden real estate property under development, total contract sales as of December 31, 2015 were \$95,384,869 (September 30, 2015 - \$95,518,605). Total GFA sold under contract sales as of December 31, 2015 was 122,545 square meters (September 30, 2015 – 119,353). The average unit price was \$778 per square meters (September 30, 2015 - \$800). For the purpose of percentage of completion calculation, the qualified contract sales amount was approximately \$91,791,647 for the three months ended December 31, 2015 (September 30, 2015 - \$92,093,999).

Cost of Sales

The following table sets forth a breakdown of our cost of sales:

	For Three Months Ended December 31,					
	2015		2014		Variance	
	Cost	%	Cost	%	Amount	%
Land use rights	\$223,006	6.9 %	\$396,650	5.6 %	\$(173,644)	(43.8)%
Construction cost	2,985,883	93.1 %	6,629,156	94.4 %	(3,643,273)	(55.0)%
Total cost	\$3,208,889	100 %	\$7,025,806	100 %	\$(3,816,917)	(54.3)%

Our cost of sales consists of costs associated with land use rights and construction costs. Cost of sales are capitalized and allocated to development projects using the specific identification method. Costs are allocated to specific units within a project based on the ratio of the sales area of units to the estimated total sales area of the project (or phase of the project) times the total cost of the project (or phase of the project).

Cost of sales was approximately \$3.2 million for the three months ended December 31, 2015 compared to \$7.0 million for the three months ended December 31, 2014. The \$3.8 million decrease in cost of sales was mainly attributable to the decrease in total GFA sold during the quarter ended December 31, 2015 under percentage of completion method which led to decreased revenue and cost of sales during this quarter.

Land use rights cost: The cost of land use rights includes the land premium we pay to acquire land use rights for our property development sites, plus taxes. Our land use rights cost varies for different projects according to the size and location of the site and the minimum land premium set for the site, all of which are influenced by government policies, as well as prevailing market conditions. Costs for land use rights for the three months ended December 31, 2015 were \$223,006, as compared to \$396,650 for the three months ended December 31, 2014, representing a decrease of \$173,644 from the same quarter last year. The decrease was consistent with the fact that total GFA sold under percentage completion method in this quarter was lower than the same period of 2014. As a result, total revenue for the three months ended December 31, 2015 was less than the same quarter of last year.

Construction cost: We outsource the construction of all of our projects to third party contractors, whom we select through a competitive tender process. Our construction contracts provide a fixed payment which covers substantially all labor, materials and equipment costs, subject to adjustments for some types of excess, such as design changes during construction or changes in government-suggested steel prices. Our construction costs consist primarily of the payments to our third-party contractors, which are paid over the construction period based on specified milestones. In

addition, we purchase and supply a limited range of fittings and equipment, including elevators, window frames and door frames. Our construction costs for the three months ending December 31, 2015 were approximately \$3.0 million as compared to approximately \$6.6 million for the three months ended December 31, 2014, representing a decrease of \$3.6 million. The decrease in construction cost was due to decrease in units sold under percentage of completion method during the quarter ended December 31, 2015.

The total cost of sales as a percentage of real estate sales before sales tax for the three months ended December 31, 2015 slightly decreased to 54.8% from 66.5% for the three months ended December 31, 2014, which was mainly attributable to decrease in the total GFA sold in current quarter, especially under the percentage of completion method

Gross Profit

Gross profit was approximately \$2.2 million for the three months ended December 31, 2015 as compared to approximately \$2.9 million for the three months ended December 31, 2014, representing a decrease of \$0.6 million, which was mainly attributable to less revenue recognized in the current quarter. The overall gross profit as a percentage of real estate sales before sales tax slightly increased to 38.2% during the three months ended December 31, 2015 from 27.2% for the same quarter last year, mainly due to more commercial properties, instead of residential properties, sold in Oriental Garden project with higher margin in the first quarter fiscal 2016. During the first quarter of fiscal 2016, 62.9% of revenue recognized from Oriental Garden project were from sales of commercial properties, while only 0.8% of revenue recognized from Oriental Garden project were from sales of commercial properties in the same period of last year. Generally, the gross margins for sales of commercial properties in the Oriental Garden project ranged from 60% to 85% and the gross margins for sales of residential properties ranged from 30% to 35%.

The following table sets forth the gross margin of each of our projects:

	For Three Months Ended December 31, 2015		2014			
	Gross Profit	Percentage of Revenue		Gross Profit	Percentage of Revenue	
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan) Phase I and II	\$717,654	30.5	%	\$1,765,197	36.5	%
Oriental Garden	1,702,127	64.2	%	1,172,402	34.5	%
Yangzhou Pearl Garden Phase I and II	227,937	26.8	%	602,282	25.9	%
Sales Tax	(411,988)			(670,550)		
Total Gross Profit	2,235,730	38.2	%	2,869,331	27.2	%
Total Real Estate Sales before Sales Tax	\$5,856,607			\$10,565,687		

Operating Expenses

Total operating expenses decreased by 42.6% or \$422,680 to \$568,664 for the three months ended December 31, 2015 from \$991,344 for the three months ended December 31, 2014 as a result of a significant decrease in selling expense of \$285,013 and a 22.3% decrease in general and administration expenses of \$137,667. The decrease in selling expenses for three months ended December 31, 2015 was primarily attributed to less sales commission paid to the sales representatives when total GFA sold decreased when revenue recognized under percentage of completion method decreased.

	For Three Months Ended December 31,			
	2015		2014	
Selling expenses	\$ 90,153		\$ 375,166	
General and administrative expenses	478,511		616,178	
Total operating expenses	\$ 568,664		\$ 991,344	
Percentage of Real Estate Sales before Sales Tax	9.7	%	9.4	%

Income Taxes

U.S. Taxes

China HGS is a Florida corporation. However, all of our operations are conducted solely by our subsidiaries in the PRC. No income is earned in the United States and we do not repatriate any earnings outside the PRC. As a result, we did not generate any U.S. taxable income for the three months ended December 31, 2015 and 2014.

PRC Taxes

The Company is governed by the Income Tax Law of the People's Republic of China concerning private-run enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments.

However, the local tax authority of Hanzhong City has the power to assess corporate taxes annually on local enterprises at a pre-determined fixed rate as an incentive to stimulate the local economy and encourage entrepreneurship. The tax authority assessed us for income taxes at the rate of 1.25% on revenue in Yang County and 2.5% on our revenue in Hanzhong, instead of statutory rate of 25% on the income before income tax. Income tax provision for the three months ended December 31, 2015 were \$135,796 compared to \$235,061 for the three months ended December 31, 2014 as a result of the decrease in our revenue and taxable income.

Although the possibility exists for reinterpretation of the application of the tax regulations by higher tax authorities in the PRC, potentially overturning the decision made by the local tax authority, the Company has not experienced any reevaluation of the income taxes for prior years. Management believes that the possibility of any reevaluation of income taxes is remote based on the fact that the Company has obtained the written tax clearance from the local tax authority. Thus, no additional taxes payable have been recorded for the difference between the taxes due based on taxable income calculated according to statutory taxable income method and the taxes due based on the fixed rate method. It is the Company's policy that if such reevaluation of income taxes becomes probable and the amount of additional taxes due can be reasonably estimated, additional taxes shall be recorded in the period in which the amount can be reasonably estimated and shall not be charged retroactively to an earlier period.

Net Income

We reported net income of \$1,427,224 for the three months ended December 31, 2015, as compared to net income of \$1,625,990 for the three months ended December 31, 2014. The decrease of approximately \$0.2 million in our net income was primarily due to the lower revenue and gross profit as discussed above under Revenues and Gross Profit.

Other Comprehensive Income (loss)

We operate primarily in the PRC and the functional currency of our operating subsidiary is the Chinese Renminbi ("RMB"). RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that RMB amounts could have been, or could be, converted into USD at the rates used in translation.

Translation adjustments resulting from this process amounted to negative \$3.3 million and positive \$0.2 million for the three months ended December 31, 2015 and 2014, respectively, due to the significant depreciation of RMB. The balance sheet amounts with the exception of equity at December 31, 2015 were translated at 6.4917 RMB to 1.00 USD as compared to 6.1460 RMB to 1.00 USD at September 30, 2014. The equity accounts were stated at their historical rate. The average translation rates applied to the income statements accounts for the periods ended December 31, 2015 and 2014 were 6.3907 RMB and 6.1389 RMB, respectively.

Liquidity and Capital Resources

Current Assets and Liabilities

Our principal need for liquidity and capital resources is to maintain working capital sufficient to support our operations and to make capital expenditures to finance the growth of our business. Historically we mainly financed our operations primarily through cash flows from operations and borrowings from our principal shareholder.

As of December 31, 2015, the Company had approximately \$38.0 million in working capital, an increase of \$3.7 million as compared to \$34.3 million as of September 30, 2015. Our total cash and restricted cash balance were consistently maintained at approximately \$2.9 million and \$3.0 million as of December 31, 2015 and September 30, 2015, respectively. Since most of our current real estate development is completed, we are expecting to collect the full purchase price from our existing customers in the coming months. We expect our cash collection will improve during fiscal 2016. In addition, on June 26, 2015, the Company signed an agreement with Hanzhong Urban Construction Investment Development Co., Ltd., a state owned Company, to borrow up to \$38,510,716 (RMB 250,000,000). It is a long term loan at 4.245% interest to develop Liang Zhou Road Project. As of December 31, 2015, the Company borrowed \$26,060,283. The loan is guaranteed by Hanzhong City Hantai District Municipal Government and pledged by the Company's Yang County Palace project with carrying value of \$49,362,519 as of December 31, 2015. Furthermore, On January 8, 2016, the Company signed a loan agreement with Hanzhong Municipal Housing Provident Fund Management Center to borrow up to \$12,323,428 (RMB 80 million) for development of Oriental Garden project. The loan carries interest at is 3.575% and is due in January 2019. The repayment is required based on certain sales milestones or a fixed repayment schedule starting in July 2018. The Oriental Garden project was pledged for the loan. The lender has rights to monitor the project's future cash flow. We expect our cash collection will improve during fiscal 2016 and beyond.

With respect to capital funding requirements, the Company budgeted capital spending based on an ongoing assessment of needs to maintain adequate cash. Due to the long term relationship with our construction suppliers, we were able to effectively manage cash spending on construction. Also, our major shareholder, Mr Xiaojun Zhu has agreed to provide his personal funds, if necessary, to support on an as needed basis. In addition, the Company's cash flows from pre-sales and current sales should provide financial support for our current developments and operations.

In order to fully implement our business plan and sustain continued growth, we may also need to raise capital from outside investors. Our expectation, therefore, is that we will seek to access the capital markets in both the U.S. and China to obtain the funds as needed. At the present time, however, we do not have commitments of funds from any third party.

Cash Flow

Comparison of cash flows results is summarized as follows:

	Three months ended December 31,	
	2015	2014
Net cash used in operating activities	\$(6,577,670)	\$(6,638,765)
Net cash provided by financing activities	6,452,337	6,942,484
Effect of change of foreign exchange rate on cash	(25,769)	1,242
Net cash increase (decrease) in cash	(151,102)	304,961
Cash, beginning of period	1,333,919	1,125,545
Cash, end of period	\$1,182,817	\$1,430,506

Operating Activities

Net cash used in operating activities during the three months ended December 31, 2015 was \$6.6 million, consisting of net income of \$1.4 million, noncash adjustments of \$0.1 million and net changes in our operating assets and liabilities, which mainly included an increase in the real estate under development of \$7.1 million due to constructions on the Liangzhou road and related projects, payments of accounts payable of \$8.5 million and increase in the other current assets of \$1.3 million due to prepayment and deposits made to the suppliers, offset by the increase of other payables of \$3.6 million, the increase in customer deposits of \$2.9 million and the reduction of real estate property completed of \$2.3 million. The cash outflows used in operating activities is mainly attributable to our increased spending on our real estate properties under development.

Net cash used in operating activities during the three months ended December 31, 2014 was \$6.6 million, consisting of net income of \$1.6 million, noncash adjustments of \$0.2 million and net changes in our operating assets and liabilities, which mainly included an increase in billings in excess of cost and earnings of \$1.2 million resulted from using the percentage of completion method of revenue recognition, offset by payments for in accounts payable of \$10.1 million due to our sub-contractors and suppliers and a decrease in customer deposits of \$1.9 million due to slow season for the presales. The negative cash provided by operating activities is mainly attributable to our significant spending on our real estate properties under development.

Financing Activities

Net cash flows provided by financing activities amounted to approximately \$6.5 million for the three months ended December 31, 2015, which included a loan from a financial institution approximately \$10.8 million and \$0.9 million of shareholder loans from our principle shareholder, offset by the repayment of other loans of \$5.2 million.

Net cash flows provided by financing activities amounted to approximately \$6.9 million for the three months ended December 31, 2014, which included a loan from a financial institution of approximately \$4.9 million and \$2.1 million of shareholder loans from our principle shareholder.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Inflation

Inflation has not had a material impact on our business and we do not expect inflation to have a material impact on our business in the near future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Foreign Exchange Risk

All of our net sales, and a majority of our costs and expenses are denominated in RMB. Although the conversion of RMB is highly regulated in China, the value of RMB against the value of the U.S. dollar or any other currency nonetheless may fluctuate and be affected by, among other things, changes in China's political and economic conditions. Under current policy, the value of RMB is permitted to fluctuate within a narrow band against a basket of certain foreign currencies. China is currently under significant international pressures to liberalize this government currency policy, and if such liberalization were to occur, the value of RMB could appreciate or depreciate against the U.S. dollar.

Because substantially all of our earnings and majority of our cash assets are denominated in RMB, other than certain cash deposits we keep in a bank in Hong Kong and the U.S., appreciation or depreciation in the value of RMB relative to the U.S. dollar would affect our financial results reported in U.S. dollar terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividends we may issue in future that will be exchanged into U.S. dollars and earnings from, and the value of, any U.S. dollar-denominated investments we make in the future.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by the PRC exchange control regulations that restrict our ability to convert RMB into foreign currency.

Interest Rate Risk

We have not been, nor do we anticipate being exposed to material risks due to changes in interest rates. Our risk exposure to changes in interest rates relates primarily to the interest income generated by cash deposited in interest-bearing savings accounts and interest expense on variable rate bank loan. We have not used, and do not expect to use in the future any derivative financial instruments to hedge our interest risk exposure. However, fluctuations in interest rates can lead to significant changes in our interest income and interest expense.

Credit Risk

We are exposed to credit risk from our cash in banks, accounts receivable and due from local government for real estate property development completed. The credit risk on cash in bank and fixed deposits is limited because the counterparties are recognized financial institutions. Accounts receivable are subjected to credit evaluations. An allowance would be made, if necessary, for estimated unrecoverable amounts by reference to past default experience, if any, and by reference to the current economic environment.

Inflation

Inflationary factors, such as increases in the cost of our products and overhead costs, could impair our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of sales revenue if the selling prices of our products do not increase with these increased costs.

Our Company's Operations are Substantially in Foreign Countries

Substantially all of our operations are conducted in China and are subject to various political, economic, and other risks and uncertainties inherent in conducting business in China. Among other risks, our Company and our subsidiaries' operations are subject to the risks of restrictions on transfer of funds; export duties, quotas, and embargoes; domestic and international customs and tariffs; changing taxation policies; foreign exchange restrictions; and political conditions and governmental regulations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this Quarterly Report on Form 10-Q (the "Evaluation Date"). The evaluation of our disclosure controls and procedures included a review of our processes and the effect on the information generated for use in this Quarterly Report on Form 10-Q. In the course of this evaluation, we sought to identify any material weaknesses in our disclosure controls and procedures and to confirm that any necessary corrective action, including process improvements, was taken. The purpose of this evaluation is to determine if, as of the Evaluation Date, our disclosure controls and procedures were operating effectively such that the information, required to be disclosed in our SEC reports (i) was recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management conducted its evaluation of disclosure controls and procedures under the supervision of our chief executive officer and our chief financial officer. Based upon this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of December 31, 2015. Management is committed to improving the internal controls over financial reporting and will undertake the consistent improvements or enhancements on an ongoing basis. To remediate the material weakness and significant deficiencies and to prevent similar deficiencies in the future, we are currently evaluating additional controls and procedures, which may include:

Engaging a third party IT consulting firm to help formalize the Company's policies and procedures on information technology, analyzing the capability and reliability of existing systems, and establish an integrated information technology development plan.

Providing more U.S. GAAP knowledge and SEC reporting requirement training for the internal audit department and establishing formal policies and procedures in internal audit function

Reinforcing the procedures to ensure appropriate management level's approval on offering sales discount and ensuring sufficient review on the monthly tax return reconciliations.

Implementing an ongoing initiative and training in the Company to ensure the importance of internal controls and compliance to ensure that established policies and procedures are fully understood throughout the organization and plan to provide continuous U.S. GAAP knowledge training to relevant employees involved to ensure the performance of and compliance with those procedures and policies

The remedial measures being undertaken may not be fully effectuated or may be insufficient to address the significant deficiencies we identified, and there can be no assurance that significant deficiencies or material weaknesses in our internal control over financial reporting will not be identified or occur in the future. If additional significant deficiencies (or if material weaknesses) in our internal controls are discovered or occur in the future, among other similar or related effects: (i) the Company may fail to meet future reporting obligations on a timely basis, (ii) the Company's consolidated financial statements may contain material misstatements, and (iii) the Company's business and operating results may be harmed.

Changes in Internal Control over Financial Reporting

Except for the matters described above to improve our internal controls over financial reporting, there were no changes in our internal control over financial reporting for the three months ended December 31, 2015 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, however, the Company is in the process of designing and planning to change as described above.

PART II: OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We may be subject to, from time to time, various legal proceedings relating to claims arising out of our operations in the ordinary course of our business. We are not currently a party to any legal proceedings, the adverse outcome of which, individually or in the aggregate, would have a material adverse effect on the business, financial condition, or results of operations of the Company.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

None.

ITEM 5. OTHER INFORMATION

None.
