Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Nature of Business

Francesca's Holdings Corporation is a holding company incorporated in 2007 under the laws of the State of Delaware whose business operations are conducted through its subsidiaries. Unless the context otherwise requires, the "Company," refers to Francesca's Holdings Corporation and its consolidated subsidiaries. The Company operates a nationwide-chain of boutiques providing its customers with a unique, fun and personalized shopping experience. The Company offers a diverse and balanced mix of apparel, jewelry, accessories and gifts at attractive values. At July 29, 2017, the Company operated 692 boutiques, which are located in 47 states throughout the United States and the District of Columbia, and its ecommerce website.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") for interim financial statements and are in the form prescribed by the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, these unaudited financial statements include all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the Company's financial position, results of operations, changes in equity, and cash flows at the dates and for the periods presented. The financial information as of January 28, 2017 was derived from the Company's audited consolidated financial statements and notes thereto as of and for the fiscal year ended January 28, 2017 included in the Company's Annual Report on Form 10-K filed with the SEC on March 22, 2017.

These unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes as of and for the fiscal year ended January 28, 2017 included in the Company's Annual Report on Form 10-K.

Due to seasonal variations in the retail industry, interim results are not necessarily indicative of results that may be expected for any other interim period or for a full year.

Principles of Consolidation

The accompanying unaudited consolidated financial statements include the accounts of the Company and all its subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Fiscal Year

The Company maintains its accounts on a 52- or 53-week year ending on the Saturday closest to January 31st. Fiscal year 2017 includes 53 weeks of operations while fiscal year 2016 includes 52 weeks of operations. The fiscal quarters ended July 29, 2017 and July 30, 2016 refer to the thirteen week periods ended as of those dates. The year-to-date periods ended July 29, 2017 and July 30, 2016 refer to the twenty-six week periods ended as of those dates.

Management Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, net of estimated sales returns, and expenses during the reporting periods. Actual results could differ materially from those estimates.

New Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-09, “Improvements to Employee Share-Based Payment Arrangements”, which amends Accounting Standards Codification (“ASC”) Topic 718, Stock Compensation. The new guidance intends to simplify several aspects of the accounting for share-based payments, including income tax consequences, classification of awards as either equity or liabilities, forfeitures and classification on the statement of cash flows. The Company adopted the applicable provisions of this guidance beginning on January 29, 2017 on a prospective basis or, in the case of recognizing forfeitures as they occur, using the modified retrospective transition method. Accordingly, prior period financial statements were not adjusted. The adoption of this guidance did not have a material impact on the Company’s consolidated financial statements.

Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

In November 2015, the FASB issued ASU 2015-17, "Income Taxes – Balance Sheet Classification of Deferred Taxes." The new guidance simplifies the presentation of deferred income taxes by permitting classification of all deferred tax assets and liabilities as noncurrent on the consolidated balance sheet. The Company adopted this guidance beginning on January 29, 2017 on a prospective basis, resulting in the classification of all deferred tax assets and liabilities as non-current. Prior period financial statements were not adjusted. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory," which changes the measurement principle for inventory from the lower of cost or market to the lower of cost and net realizable value. ASU 2015-11 defines net realizable value as estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The Company adopted this guidance on January 29, 2017 on a prospective basis. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

Recent Accounting Pronouncements Not Yet Adopted

In March 2016, the FASB issued ASU 2016-04 "Liabilities - Extinguishments of Liabilities (Subtopic 405-20), Recognition of Breakage for Certain Prepaid Stored-Value Products." The new guidance allows a company to derecognize amounts related to expected breakage to the extent that it is probable that a significant reversal of the recognized breakage amount will not subsequently occur. ASU 2016-4 is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017, with early adoption permitted. The amended standard may be adopted on either a modified retrospective or a retrospective basis. The Company is evaluating the impact of adopting the new guidance on the consolidated financial statements in conjunction with its evaluation of ASU 2014-09 discussed below.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)." The new guidance, among other things, requires lessees to recognize the following for all leases (with the exception of short-term leases) at the commencement date: (i) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis and (ii) a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Under the new guidance, lessor accounting is largely unchanged. Certain targeted improvements were made to align, where necessary, lessor accounting with the lessee accounting model and Topic 606, Revenue from Contracts with Customers. ASU 2016-2 will be effective for public business entities for fiscal years beginning after December 15, 2018, including interim periods within those fiscal

years. Early adoption is permitted for all public business entities upon issuance. The Company is evaluating the impact of adopting the new guidance on the consolidated financial statements.

In May 2014 the FASB issued ASU 2014-09, "Revenue from Contracts with Customers." This pronouncement requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration which the entity expects to be entitled to in exchange for those goods and services. This standard is effective for reporting periods beginning on or after December 15, 2017, including interim periods within that fiscal year, with early adoption permitted for interim and annual periods beginning on or after December 15, 2016. Since the original issuance of ASU 2014-09, the FASB has issued several amendments and updates to this guidance. This guidance may be adopted on a full retrospective basis to each prior reporting period presented or on a modified retrospective basis with the cumulative effect of initially applying the guidance recognized at the date of initial application. The Company is evaluating the impact of adopting the new guidance on the consolidated financial statements. This evaluation includes reviewing current accounting policies, processes, and arrangements to identify potential differences that could arise from the application of the guidance. Based on the Company's assessment to date, the adoption of this guidance will have the following impact: (a) estimated cost of returns will be recorded as a current asset rather than netted with the allowance for sales returns; and (b) gift card breakage income will be estimated based on historical redemption and recognized over the historical redemption period rather than when redemption is considered remote. The Company is still evaluating the adoption method it will use upon initial adoption on February 4, 2018.

2. Earnings per Share

Basic earnings per common share amounts are calculated using the weighted-average number of common shares outstanding for the period. Diluted earnings per common share amounts are calculated using the weighted-average number of common shares outstanding for the period and include the dilutive impact of stock options and restricted stock grants using the treasury stock method. The following table summarizes the potential dilution that could occur if options to acquire common stock were exercised or if the restricted stock grants were fully vested and reconciles the weighted-average common shares outstanding used in the computation of basic and diluted earnings per share.

Diluted earnings per common share	\$0.20	\$ 0.27	\$ 0.32	\$ 0.45

Potentially issuable shares under the Company's stock-based compensation plans amounting to approximately 0.4 million shares in each of the thirteen and twenty-six weeks ended July 29, 2017 and 0.4 million and 0.3 million shares in the thirteen and twenty-six weeks ended July 30, 2016, respectively, were excluded in the computation of diluted weighted-average common shares outstanding due to their anti-dilutive effect. The Company also excluded contingently issuable performance-based awards totaling 0.4 million shares in each of the thirteen and twenty-six weeks ended July 29, 2017 and 0.2 million shares in each of the thirteen and twenty-six weeks ended July 30, 2016 from the computation of diluted earnings per share because the pre-established goals had not yet been satisfied as of the end of each period.

3. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The carrying amount reflected in the consolidated balance sheets of financial assets and liabilities, which includes cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, approximated their fair values due to the short term nature of these financial assets and liabilities.

4. Income Taxes

The provision for income taxes is based on the Company's current estimate of the annual effective tax rate. The effective income tax rates for the thirteen and twenty-six weeks ended July 29, 2017 were 38.7% and 39.3%, respectively. The effective income tax rates for the thirteen and twenty-six weeks ended July 30, 2016 were 37.9% and 37.8%, respectively. The difference between our effective tax rate and federal statutory tax rate is primarily related to state income taxes.

5. Revolving Credit Facility

On August 30, 2013, Francesca's Collections, Inc. (the "Borrower"), as borrower, and its parent company, Francesca's LLC, a wholly owned subsidiary of the Company, entered into a Second Amended and Restated Credit Agreement with Royal Bank of Canada, as Administrative Agent and Collateral Agent, and the lenders party thereto. The credit facility provides capacity of \$75.0 million (including up to \$10.0 million for letters of credit) and matures on August 30, 2018. The facility also contains an option permitting the Borrower, subject to certain requirements and conditions, to arrange with the lenders for additional incremental commitments up to an aggregate of \$25.0 million, subject to reductions in the event the Borrower has certain indebtedness outstanding. At July 29, 2017, no borrowings were outstanding under the revolving credit facility.

The credit facility contains customary events of default and requires the Borrower to comply with certain financial covenants. As of July 29, 2017, the Borrower was in compliance with all covenants under the credit facility. The credit facility restricts the amount of dividends the Borrower can pay; provided that the Borrower is permitted to pay dividends to the extent it has available capacity in its available investment basket (as defined in the Second Amended and Restated Credit Agreement), no default or event of default is continuing, certain procedural requirements have been satisfied and the Borrower is in pro forma compliance with a maximum secured leverage ratio. At July 29, 2017, the Borrower would have met the conditions for paying dividends out of the available investment basket. All obligations under the credit facility are secured by substantially all the assets of the Borrower and any subsidiary guarantor, if any. All obligations under the facility are unconditionally guaranteed, subject to certain exceptions, by Francesca's LLC and each of the Borrower's existing and future direct and indirect wholly-owned domestic subsidiaries.

Francesca's Holdings Corporation

Notes to Unaudited Consolidated Financial Statements

6. Stock-based Compensation

Stock-based compensation cost is measured at the grant date fair value and is recognized as an expense on a straight-line basis over the employee's requisite service period (generally the vesting period of the equity grant). The Company recognized \$1.2 million and \$2.4 million stock-based compensation expense in the thirteen and twenty-six weeks ended July 29, 2017, respectively, and a \$1.9 million and \$0.9 million net reversal of stock-based compensation expense in the thirteen and twenty-six weeks ended July 30, 2016, respectively. Stock-based compensation in the thirteen and twenty-six weeks ended July 30, 2016 included a \$2.6 million reversal of previously accrued stock-based compensation expense associated with the forfeiture of stock-based awards previously granted to the Company's prior Chairman, President and Chief Executive Officer upon his resignation in May 2016.

Restricted Stock Awards

During the twenty-six weeks ended July 29, 2017, the Company granted 0.3 million shares of restricted stock to certain executives and key employees. Of the total shares awarded, 65% was in the form of performance-based restricted shares ("PSA") while the remaining 35% was in the form of time-based restricted shares ("RSA"). During the twenty-six weeks ended July 30, 2016, the Company granted approximately 0.4 million target shares of PSAs to certain executives and key employees. The number of PSAs that may ultimately vest will equal 0% to 150% of the target shares awarded subject to the achievement of pre-established performance goals and the employee's continued employment through the third anniversary of the award date. The RSAs vest in one installment on the third anniversary of the award date.

In each of the twenty-six weeks ended July 29, 2017 and July 30, 2016, the Company granted a total of 0.1 million shares of RSAs to non-employee directors serving on its Board of Directors. The awards vest on the first anniversary of the award date.

7. Share Repurchases

On September 3, 2013, the Company's Board of Directors authorized a \$100.0 million share repurchase program ("Previous Repurchase Plan") commencing on the same date. In April 2016, the authorized amount was fully exhausted.

On March 15, 2016, the Company's Board of Directors authorized an additional \$100.0 million share repurchase program ("New Repurchase Plan") which commenced upon exhaustion of the Previous Repurchase Plan. The New Repurchase Plan has no expiration date. Under the New Repurchase Plan, purchases can be made from time to time in the open market, in privately negotiated transactions, under Rule 10b5-1 plans or through other available means. The specific timing and amount of the repurchases is dependent on market conditions, securities law limitations and other factors.

The following table summarizes the Company's repurchase activity for the periods presented. The cost of repurchased shares is presented as treasury stock in the unaudited consolidated balance sheets.

	Thirteen Weeks Ended July 29, 2017		Twenty-Six Weeks Ended July 29, 2017	
	July 30, 2016		July 30, 2016

Average price per share (including brokers' commission)	\$11.16	\$ 11.66	\$ 13.38	\$ 13.51

At July 29, 2017, there was \$48.7 million remaining balance available for future purchases under the New Repurchase Plan.

8. Commitments and Contingencies

Operating Leases

The Company leases boutique space and office space under operating leases expiring in various years through the fiscal year ending 2028. Certain of the leases provide that the Company may cancel the lease, with penalties as defined in the lease, if the Company's boutique sales at that location fall below an established level. Certain leases provide for additional rent payments to be made when sales exceed a base amount. Certain operating leases provide for renewal options for periods from three to five years at their fair rental value at the time of renewal.

Legal Proceedings

The Company, from time to time, is subject to various claims and legal proceedings, including employment claims, wage and hour claims, intellectual property claims, contractual and commercial disputes and other matters that arise in the ordinary course of business. While the outcome of any such claim cannot be predicted with certainty, the Company does not believe that the outcome of these matters will have a material adverse effect on the Company's business, results of operations or financial condition.

9.

Subsequent Event

In August 2017, Hurricane Harvey hit south Texas and Louisiana causing widespread damage to property and infrastructure in various counties within the region. The Company's headquarters, ecommerce fulfilment and distribution facilities (collectively, the "corporate office") are located in Houston, Texas and all these functions were directly impacted by the storm. Additionally, forty of our boutiques are located in the affected region and had disruption in normal operations. Six of the Company's boutiques were damaged. As of September 5, 2017, the Company reopened its corporate office and all but one of the impacted boutiques. The disruption to our supply chain is impacting all of our boutiques and it is expected to take a couple weeks to normalize. As of the date of this filing, the Company has not completed its assessment of the full economic impact of Hurricane Harvey.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This report contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. These statements concern our business, operations and financial performance and condition as well as our plans, objectives and expectations for our business operations and financial performance and condition, which are subject to risks and uncertainties. All statements other than statements of historical fact included in this report are forward-looking statements. These statements may include words such as “aim”, “anticipate”, “assume”, “believe”, “can have”, “could”, “due”, “estimate”, “expect”, “goal”, “intend”, “likely”, “may”, “potential”, “positioned”, “predict”, “should”, “target”, “will”, “would” and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events or trends. For example, all statements we make relating to our estimated and projected earnings, sales, costs, expenditures, cash flows, growth rates, market share and financial results, our plans and objectives for future operations, growth or initiatives, strategies or the expected outcome or impact of pending or threatened litigation are forward-looking statements.

These forward-looking statements are based on current expectations, estimates, forecasts and projections about our business and the industry in which we operate and our management's beliefs and assumptions. These statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors that are in many cases beyond our control. All of our forward-looking statements are subject to risks and uncertainties that may cause our actual results to differ materially from our expectations. These risks and uncertainties include, but are not limited to, the following: the risk that we cannot anticipate, identify and respond quickly to changing fashion trends and customer preferences or changes in consumer environment, including changing expectations of service and experience in boutiques and online, and evolve our business model; our ability to attract a sufficient number of customers to our boutiques or sell sufficient quantities of our merchandise through our ecommerce business; our ability to successfully open and operate new boutiques each year; our ability to efficiently source and distribute additional merchandise quantities necessary to support our growth; our ability to attract, hire and integrate our next Chief Merchant and our ability to successfully rebound from the impact of Hurricane Harvey. For additional information regarding these and other risks and uncertainties that could cause actual results to differ materially from those contained in our forward looking statements, please refer to “Item 1A. Risk Factors,” in our Annual Report on Form 10-K for the fiscal year ended January 28, 2017 and filed with the Securities and Exchange Commission (“SEC”) on March 22, 2017 (“Fiscal Year 2016 10-K”) and any risk factors contained in subsequent Quarterly Reports on Form 10-Q or other filings we file with the SEC, as well as our disclosures under “Management's Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report and in our Fiscal Year 2016 10-K.

We derive many of our forward-looking statements from our own operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in this report as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

Potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on the forward-looking statements. These forward-looking statements speak only as of the date of this report. Except as required by law, we undertake no obligation to update or revise any forward-looking statements publicly after the date of this report whether as a result of new information, future developments or otherwise.

Overview

Unless the context otherwise requires, the “Company,” “we,” “our,” “ours,” “us” and “francesca’s®” refer to Francesca’s Hold Corporation and its consolidated subsidiaries.

francesca’s® is a growing specialty retailer which operates a nationwide-chain of boutiques providing customers a unique, fun and personalized shopping experience. The merchandise assortment is a diverse and balanced mix of apparel, jewelry, accessories and gifts. As of July 29, 2017, francesca’s® operated 692 boutiques in 47 states and the District of Columbia and also served its customers through www.francescas.com, our ecommerce website. The information contained on our ecommerce website is not incorporated by reference into this Quarterly Report on Form 10-Q and you should not consider information contained on our ecommerce website to be part of this Quarterly Report on Form 10-Q.

During the thirteen weeks ended July 29, 2017, our net sales increased 4% to \$119.7 million from \$115.3 million, income from operations decreased by 30% to \$11.9 million from \$17.1 million and net income decreased 31% to \$7.3 million, or \$0.20 per diluted share based on 36.5 million weighted average diluted shares outstanding, from \$10.6 million, or \$0.27 per diluted share based on 38.8 million weighted average diluted shares outstanding, over the comparable prior year period. During the twenty-six weeks ended July 29, 2017, our net sales increased 3% to \$227.4 million from \$221.4 million, income from operations decreased by 33% to \$19.1 million from \$28.6 million and net income decreased 34% to \$11.6 million, or \$0.32 per diluted share based on 36.8 million weighted average diluted shares outstanding, from \$17.7 million, or \$0.45 per diluted share based on 39.6 million weighted average diluted shares outstanding, over the comparable prior year period.

We increased our boutique count to 692 boutiques as of July 29, 2017 from 652 boutiques as of July 30, 2016. We plan to open approximately 32 to 37 boutiques and close one to three boutiques during the remainder of the fiscal year.

On August 21, 2017, we announced the departure of Laurie Hummel, EVP Chief Merchandising Officer. A search for a new Chief Merchant has commenced.

In August 2017, Hurricane Harvey hit south Texas and Louisiana causing widespread damage to property and infrastructure in various counties within the region. The disruption to our supply chain is impacting all of our boutiques and it is expected to take a couple weeks to normalize. As of the date of this filing, the Company has not completed its assessment of the full economic impact of Hurricane Harvey.

We are in the process of deploying a new technology suite of systems to enhance our omni-channel and customer engagement capabilities as part of our long-term strategic plan. This includes replacing our legacy point-of-sale system and introduction of a new order management system and a new customer relationship management system. We have started the rollout of our new point-of-sale system. Throughout the installation and stabilization of these new systems, we will continue to run our existing platform to ensure continuity during the conversion process. We expect that these new systems will enhance our visibility into our customers' preferences, products and supply chain resulting in improved customer service, improved operational efficiency, enhanced management analytics and increased synergies between our ecommerce and our boutique channels.

Results of Operations

The following represents operating data for the thirteen and twenty-six weeks ended July 29, 2017 and July 30, 2016.

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	July 29, 2017	July 30, 2016	July 29, 2017	July 30, 2016
Net sales growth for period	4 %	9 %	3 %	10 %
Comparable sales for the period ⁽¹⁾	(3) %	0 %	(4) %	1 %
Number of boutiques open at end of period	692	652	692	652
Net sales per average square foot for period ⁽²⁾	\$ 125	\$ 130	\$ 239	\$ 250
Average square feet per boutique ⁽³⁾	1,404	1,378	1,404	1,378
Total gross square feet at end of period	972,000	899,000	972,000	899,000

- A boutique is included in comparable sales on the first day of the fifteenth full month following the boutique's opening. When a boutique that is included in comparable sales is relocated, we continue to consider sales from that boutique to be comparable sales. If a boutique is closed for thirty days or longer for a remodel or as a result of weather damage, fire or the like, we no longer consider sales from that boutique to be comparable sales. If a boutique is permanently closed, we exclude sales from that boutique from comparable sales on the first day of the fiscal month that it did not register full month of sales. Comparable sales include our ecommerce sales.
- Net sales per average square foot is calculated by dividing net sales for the period by the average square feet during the period. Because of our growth, for purposes of providing net sales per square foot measure, we use average square feet during the period as opposed to total gross square feet at the end of the period. For individual quarterly periods, average square feet is calculated as (a) the sum of total gross square feet at the beginning and end of the period divided by (b) two. For periods consisting of more than one fiscal quarter, average square feet is calculated as (a) the sum of total gross square feet at the beginning of the period and total gross square feet at the end of each fiscal quarter within the period, divided by (b) the number of fiscal quarters within the period plus one (which, for a fiscal year, is five). There may be variations in the way in which some of our competitors and other retailers calculate sales per square foot or similarly titled measures. As a result, average square feet and net sales per average square foot for the period may not be comparable to similar data made available by other retailers.
- (1) Average square feet per boutique is calculated by dividing total gross square feet at the end of the period by the number of boutiques open at the end of the period.

Net Sales

Net sales increased 4% to \$119.7 million in the thirteen weeks ended July 29, 2017 from \$115.3 million in the thirteen weeks ended July 30, 2016. This increase was due to the addition of 40 net new boutiques since the comparable prior year period. Comparable sales were down 3% compared to flat in the same period of the prior year. The decrease in comparable sales was due to a decrease in boutique conversion rates. There were 622 comparable boutiques and 70 non-comparable boutiques open at July 29, 2017 compared to 578 and 74, respectively, at July 30, 2016.

Cost of Goods Sold and Occupancy Costs

Cost of goods sold and occupancy costs increased 5% to \$64.3 million in the thirteen weeks ended July 29, 2017 from \$61.3 million in the thirteen weeks ended July 30, 2016. Cost of merchandise and freight expenses increased by \$1.5 million compared to the same period of the prior year primarily due to increased sales volume. Occupancy costs increased by \$1.5 million due to the increase in the number of boutiques in operation during the thirteen weeks ended July 29, 2017 compared to the same period of the prior year.

As a percentage of net sales, cost of goods sold and occupancy costs increased to 53.7% in the thirteen weeks ended July 29, 2017 from 53.2% in the thirteen weeks ended July 30, 2016, an unfavorable variance of 50 basis points. This change was primarily driven by deleveraging of occupancy costs as merchandise margin was essentially flat compared to the prior year period.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 18% to \$43.5 million in the thirteen weeks ended July 29, 2017 from \$36.8 million in the thirteen weeks ended July 30, 2016. This variance was due to a \$1.3 million increase in corporate and boutique payroll to support the larger boutique base. Additionally, professional service fees and software costs increased \$1.2 million due to continuing investments in technology and infrastructure, stock-based compensation increased \$0.5 million as a result of new awards and marketing expense increased \$0.4 million due to incremental marketing programs this year. The prior year amount includes a \$2.0 million net benefit associated with the resignation of our prior Chief Executive Officer (“CEO”) and the related search process expense.

As a percentage of net sales, selling, general and administrative expense increased to 36.3% in the thirteen weeks ended July 29, 2017 as compared to 31.9% in the thirteen weeks ended July 30, 2016 primarily due to the prior year net benefit associated with the resignation of our CEO as well as deleveraging of other expenses.

Income Tax Expense

The decrease in provision for income taxes of \$1.9 million in the thirteen weeks ended July 29, 2017 compared to the thirteen weeks ended July 30, 2016 was primarily due to the decrease in pre-tax income. The effective tax rates were 38.7% and 37.9% in the thirteen weeks ended July 29, 2017 and July 30, 2016 respectively. The increase in the effective tax rate was primarily due to higher state taxes.

Net Sales

Net sales increased 3% to \$227.4 million in the twenty-six weeks ended July 29, 2017 from \$221.4 million in the twenty-six weeks ended July 30, 2016. This increase was due to the addition of 40 net new boutiques since the comparable prior year period. Comparable sales were down 4% compared to an increase of 1% in the same period last year. The decrease in comparable sales was due to a decrease in boutique conversion rates. There were 622 comparable boutiques and 70 non-comparable boutiques open at July 29, 2017 compared to 578 and 74, respectively, at July 30, 2016.

Cost of Goods Sold and Occupancy Costs

Cost of goods sold and occupancy costs increased 4% to \$123.3 million in the twenty-six weeks ended July 29, 2017 from \$118.3 million in the twenty-six weeks ended July 30, 2016. Cost of merchandise and freight expenses increased by \$1.9 million compared to the same period of the prior year primarily due to increased sales volume. Occupancy costs increased by \$3.1 million due to the increase in the number of boutiques in operation during the twenty-six weeks ended July 29, 2017 compared to the same period of the prior year.

As a percentage of net sales, cost of goods sold and occupancy costs increased to 54.2% in the twenty-six weeks ended July 29, 2017 from 53.4% in the twenty-six weeks ended July 30, 2016, an unfavorable variance of 80 basis points. This change was primarily driven by deleveraging of occupancy costs as merchandise margin was essentially flat compared to the prior year period.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 14% to \$84.9 million in the twenty-six weeks ended July 29, 2017 from \$74.5 million in the twenty-six weeks ended July 30, 2016. This variance was due to a \$3.3 million increase in corporate and boutique payroll to support the larger boutique base. Additionally, software costs increased \$1.2 million due to continuing investments in technology and infrastructure, marketing expense increased \$1.2 million due to incremental marketing programs this year, and stock-based compensation increased \$0.8 million as a result of new awards. The prior year amount includes a \$2.0 million net benefit associated with the resignation of our prior Chief Executive Officer (“CEO”) and the related search process expense.

As a percentage of net sales, selling, general and administrative expense increased to 37.4% in the twenty-six weeks ended July 29, 2017 as compared to 33.6% in the twenty-six weeks ended July 30, 2016 primarily due to the prior year net benefit associated with the resignation of our CEO as well as deleveraging of other expenses.

Income Tax Expense

The decrease in provision for income taxes of \$3.2 million in the twenty-six weeks ended July 29, 2017 compared to the twenty-six weeks ended July 30, 2016 was primarily due to the decrease in pre-tax income. The effective tax rates were 39.3% and 37.8% in the twenty-six weeks ended July 29, 2017 and July 30, 2016 respectively. The increase in effective rate was primarily due to true-up of prior year state deferred taxes.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations and borrowings under our revolving credit facility. Our primary cash needs are for capital expenditures in connection with opening new boutiques and remodeling existing boutiques, investing in improved technology and distribution facility enhancements, funding normal working capital requirements and payments of interest and principal, if any, under our revolving credit facility. We may use cash or our revolving credit facility to issue letters of credit to support merchandise imports or for other corporate purposes. The most significant components of our working capital are cash and cash equivalents, merchandise inventories, accounts payable and other current liabilities. Our working capital position benefits from the fact that we generally collect cash from sales to customers the day of or, in the case of credit or debit card transactions, within several days of the related sales and we typically have up to 30 days to pay our vendors.

We were in compliance with all covenants under our revolving credit facility as of July 29, 2017. On July 29, 2017, we had \$33.3 million of cash and cash equivalents and \$75.0 million in borrowing availability under our revolving credit facility. There were no borrowings outstanding under our revolving credit facility at July 29, 2017.

We expect that our cash flow from operations along with borrowings under our revolving credit facility and tenant allowances for new boutiques will be sufficient to fund capital expenditures and our working capital requirements for at least the next twelve months.

Cash Flow

A summary of our operating, investing and financing activities are shown in the following table:

	Twenty-Six Weeks Ended	
	July 29, 2017	July 30, 2016
	(in thousands)	
Provided by operating activities	\$ 8,454	\$ 25,464
Used in investing activities	(12,890)	(11,141)
Used in financing activities	(15,468)	(44,526)
Net decrease in cash and cash equivalents	\$ (19,904)	\$ (30,203)

Operating Activities

Operating activities consist of net income adjusted for non-cash items, including depreciation and amortization, deferred taxes, the effect of working capital changes and tenant allowances received from landlords. Net cash provided by operating activities was \$8.5 million and \$25.5 million in each of the twenty-six weeks ended July 29, 2017 and July 30, 2016, respectively. The decrease in cash provided by operating activities in the current period as compared to the same period of the prior year was primarily due to higher income tax payments and lower net income partially offset by timing of payments for inventory purchases.

Investing Activities

Investing activities consist primarily of capital expenditures for new boutiques, improvements to existing boutiques, as well as investments in information technology and our distribution facility.

Edgar Filing: Francesca's Holdings CORP - Form 10-Q

Technology	955	2,002
Corporate and distribution	30	591
	\$ 12,890	\$ 11,149

Our total capital expenditures for the twenty-six weeks ended July 29, 2017 and July 30, 2016 were \$12.9 million and \$11.1 million, respectively, with new boutiques accounting for most of our spending at \$8.5 million and \$6.2 million, respectively. Spending for new boutiques included amounts associated with boutiques that will open subsequent to the end of each fiscal quarter. We opened 28 boutiques in the twenty-six weeks ended July 29, 2017 compared to 41 boutiques in the twenty-six weeks ended July 30, 2016. The average cost of the leasehold improvements, equipment, furniture and fixtures, excluding tenant allowances which are reflected in operating cash flows, for new boutiques opened in the twenty-six weeks ended July 29, 2017 and July 30, 2016 was \$290,000 and \$226,000, respectively, while the average tenant allowance per new boutique was \$57,000 and \$76,000 over the same periods, respectively. The increase in the average build-out costs was principally due to higher cost of leasehold improvements while the lower average tenant allowance was the result of our continued focus in lowering rental rates. Tenant allowances are amortized as a reduction in rent expense over the term of the lease. The average collection period for these allowances is approximately six months after boutique opening. As a result, we fund the cost of new boutiques with cash flow from operations, build-out allowances from our landlords, or borrowings under our revolving credit facility. Our spending for existing boutiques totaled \$3.4 million and \$2.4 million during the twenty-six weeks ended July 29, 2017 and July 30, 2016, respectively. The amount spent for existing boutiques in each period was used for remodeling and relocating 17 and 20 boutiques, respectively, and in the twenty-six weeks ended July 29, 2017, for new boutique equipment in connection with the point-of-sale rollout.

Management anticipates that capital expenditures for the remainder of fiscal year 2017 will be approximately \$17.1 million to \$20.1 million. The majority of this amount will be spent on new and existing boutiques as well as investments in our technology systems.

Financing Activities

Financing activities consist of borrowings and payments under our revolving credit facility, repurchases of our common stock, and proceeds from the exercise of stock options and the related tax consequence.

Net cash used in financing activities totaled \$15.5 million and \$44.5 million during the twenty-six weeks ended July 29, 2017 and July 30, 2016, respectively. Cash used in financing activities in each period primarily consists of repurchases of common stock.

Revolving Credit Facility

On August 30, 2013, Francesca's Collections, Inc. (the "Borrower"), as borrower, and its parent company, Francesca's LLC, a wholly owned subsidiary of the Company, entered into a Second Amended and Restated Credit Agreement with Royal Bank of Canada, as Administrative Agent and Collateral Agent, and the lenders party thereto. The credit facility provides capacity of \$75.0 million (including up to \$10.0 million for letters of credit) and matures on August 30, 2018. The facility also contains an option permitting the Borrower, subject to certain requirements and conditions, to arrange with the lenders for additional incremental commitments up to an aggregate of \$25.0 million, subject to reductions in the event the Borrower has certain indebtedness outstanding. At July 29, 2017, no borrowings were outstanding under the credit facility.

The credit facility contains customary events of default and requires the Borrower to comply with certain financial covenants. As of July 29, 2017, the Borrower was in compliance with all covenants under the credit facility. The credit facility restricts the amount of dividends the Borrower can pay; provided that the Borrower is permitted to pay dividends to the extent it has available capacity in its available investment basket (as defined in the Second Amended and Restated Credit Agreement), no default or event of default is continuing, certain procedural requirements have been satisfied and the Borrower is in pro forma compliance with a maximum secured leverage ratio. At July 29, 2017, the Borrower would have met the conditions for paying dividends out of the available investment basket. All obligations under the credit facility are secured by substantially all the assets of the Borrower and any subsidiary guarantor, if any. All obligations under the facility are unconditionally guaranteed by, subject to certain exceptions, by Francesca's LLC and each of the Borrower's existing and future direct and indirect wholly-owned domestic subsidiaries.

Critical Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, as well as the related disclosures of contingent assets and liabilities at the date of the financial statements. A summary of the Company's significant accounting policies is included in Note 1 to the Company's annual consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended January 28, 2017.

Certain of the Company's accounting policies and estimates are considered critical, as these policies and estimates are the most important to the depiction of the Company's consolidated financial statements and require significant, difficult, or complex judgments, often about the effect of matters that are inherently uncertain. Such policies are summarized in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of our Annual Report on Form 10-K for the fiscal year ended January 28, 2017. As of July 29, 2017, there were no significant changes to any of our critical accounting policies and estimates as disclosed in our Annual Report on Form 10-K for the fiscal year ended January 28, 2017.

Recent Accounting Pronouncements

For information regarding recent accounting pronouncements, please refer to Note 1 to our unaudited consolidated financial statements included in Part I of this Report, which is incorporated herein by reference.

Contractual Obligations

There were no significant changes to our contractual obligations and commercial commitments as disclosed in our Annual Report on Form 10-K for the fiscal year ended January 28, 2017, other than those which occur in the normal course of business.

Off Balance Sheet Arrangements

We are not party to any off balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our principal exposure to market risk relates to changes in interest rates. Our revolving credit facility carries floating interest rates that are tied to LIBOR, the federal funds rate and the prime rate, and therefore, our statements of operations and our cash flows could be exposed to changes in interest rates to the extent that we do not have effective hedging arrangements in place. We historically have not used derivative financial instruments for speculative or trading purposes; however, this does not preclude our adoption of specific hedging strategies in the future. At July 29, 2017, no borrowings were outstanding under the Second Amended and Restated Credit Agreement.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is processed, recorded, summarized and reported within the time periods specified in the SEC’s rules and regulations and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

At the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our Disclosure Committee and management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective at the reasonable assurance level as of July 29, 2017.

There were no changes in our internal control over financial reporting during the quarter ended July 29, 2017 that materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various claims and legal proceedings, including employment claims, wage and hour claims, intellectual property claims, contractual and commercial disputes and other matters that arise in the ordinary course of business. While the outcome of these and other claims cannot be predicted with certainty, we do not believe that the outcome of these matters will have a material adverse effect on our business, results of operations or financial condition.

ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors as previously disclosed in Item 1A contained in Part I of our Annual Report on Form 10-K for the fiscal year ended January 28, 2017 and filed with the SEC on March 22, 2017.
