The diluted number of common shares reported for the three and six months ended June 30, 2018 was impacted by the forward sale agreement the Company entered in March 2018 to sell an aggregate of 3,450,000 shares of common stock.

To account for the potential dilution resulting from the forward sale agreement on earnings per share calculations, the Company used the treasury method to determine the dilution resulting from the forward sale agreement during the period of time prior to settlement. As of June 30, 2018, no shares had been settled under the forward sale agreement. The impact on our weighted-average diluted shares for the three and six months ended June 30, 2018 was 341,784 and 177,692 weighted-average incremental shares, respectively.
